Approval No. 160.064/777/0, adult, Model No. 202, cloth covered kapok and unicellular plastic foam "Kapok and Plastic Foam Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: Ero Industries, Inc., 308 S. Williams Street, Hazlehurst, Georgia 31539, Type II PFD, manufactured by Ero Industries, Inc., 1934 N. Washtenaw Avenue, Chicago, Illinois 60647, effective December 5, 1974.

Approval No. 160.064/780/0, child medium, Model No. 942 CM, cloth covered unicellular plastic foam "Canoe Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 209, Type III PFD, manufactured by Omega Marketing, Inc., P.O. Box 487, Marblehead, Massachusetts 01945, for Grumman Boats, Marathon, New York 13803, effective December 6, 1974.

Approval No. 160.064/781/0, child medium, Model No. 943 JR, cloth covered unicellular plastic foam "Canoe Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 209, Type III PFD, manufactured by Omega Marketing, Inc., P.O. Box 487, Marblehead, Massachusetts 01945, for Grumman Boats, Marathon, New York 13803, effective December 6, 1974.

Approval No. 160.064/782/0, adult medium, Model No. 944 M, cloth covered unicellular plastic foam "Canoe Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 209, Type III PFD, manufactured by Omega Marketing, Inc., P.O. Box 487, Marblehead, Massachusetts 01945, for Grumman Boats, Marathon, New York 13803, effective December 6, 1974.

Approval No. 160.064/783/0, adult large, Model No. 945 L, cloth covered unicellular plastic foam "Canoe Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 209, Type III PFD, manufactured by Omega Marketing, Inc., P.O. Box 487, Marblehead, Massachusetts 01945, for Grumman Boats, Marathon, New York 13803, effective December 6, 1974.

Approval No. 160.064/784/0, adult X-large, Model No. 946 XL, cloth covered unicellular plastic foam "Canoe Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 209, Type III PFD, manufactured by Omega Marketing, Inc., P.O. Box 487, Marblehead, Massachusetts 01945, for Grumman Boats, Marathon, New York 13803, effective December 6, 1974.

Approval No. 160.064/795/0, adult small, Model No. SCS, cloth covered unicellular plastic foam "Buoyant Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 16, factory location: Dakota Industries, Inc., P.O. Box 932, Hwy. I–29 S. at Tea Interchange, Sioux Falls, South Dakota 57101, Type III PFD, manufactured by Gentex Corporation, Carbondale, Pennsylvania 18407, effective December 5, 1974.

Approval No. 160.064/796/0, adult medium, Model No. SCM, cloth covered unicellular plastic foam "Buoyant Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 16, factory location: Dakota Industries, Inc., P.O. Box 932, Hwy. I–29 S. at Tea Interchange, Sioux Falls South Dakota 57101, Type III PFD, manufactured by Gentex Corporation, Carbondale, Pennsylvania 18407, effective December 5, 1974.

Approval No. 160.064/797/0, adult large, Model No. SCL, cloth covered unicellular plastic foam "Buoyant Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 16, factory location: Dakota Industries, Inc., P.O. Box 932, Hwy. I–29 S. at Tea Interchange, Sioux Falls, South Dakota 57101, Type III PFD, manufactured by Gentex Corporation, Carbondale, Pennsylanvia 18407, effective December 5, 1974.

Approval No. 160.064/798/0, adult X-large, Model No. SCXL, cloth covered unicellular plastic foam "Buoyant Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 16, factory location: Dakota Industries, Inc., P.O. Box 932, Hwy. I–29, S. at Tea Interchange, Sioux Falls, South Dakota 57101, Type III PFD, manufactured by Gentex Corporation, Carbondale, Pennsylvania 18407, effective December 5, 1974.

Approval No. 162.001/239/0, Style HCA–MS–67W alloy steel body, pop safety valve, nozzle type, exposed spring fitted with spring cover, 1500 p.s.i. primary service pressure rating, 900° F. maximum temperature with welded inlet or standard inlet flange; 1050 p.s.i. primary service pressure rating, 900° F. maximum temperature with optional inlet flange, approved for sizes 1½", 2", 2½", and 3", flanged valve styles have letter "W" deleted from style designation, manufactured by Crosby Valve & Gage Company, Wrentham, Massachusetts 02093, effective December 12, 1974. (It supersedes Approval No. 162.001/239/0 dated January 5, 1973.)

Approval No. 162.001/240/0, Style HCA–MS–68W alloy steel body, pop safety valve, nozzle type, exposed spring fitted with spring cover, 995 p.s.i. primary service pressure rating, 1050° F. maximum temperature with welded inlet or standard inlet flange; 595 p.s.i. primary service pressure rating, 1050° F. maximum temperature with optional inlet flange, approved for sizes 1½", 2", 2½", and 3", flanged valve styles have letter "W" deleted from style designation, manufactured by Crosby Valve & Gage Company, Wrentham, Massachusetts 02093, effective December 12, 1974. (It supersedes Approval No. 162.001/240/0 dated January 5, 1973.)

DECK COVERINGS FOR MERCHANT VESSELS

Approval No. 164.006/17/1, Kompolite Plastic Composition Flooring magnesite deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–88; FR 1978 dated July 1, 1942, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾-inch thickness, manufactured by The Marbleloid Corporation, 2515 Newbold Avenue, Bronx, New York 10462, formerly Kompolite Products Company, Inc., effective December 4, 1974. (It reinstates and supersedes Approval No. 164.006/17/0 terminated August 4, 1972, with change of name and address of manufacturer.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/31/1, "Johns-Manville Marine Acoustical Unit", incombustible material in accordance with Johns-Manville Sales Corp. letter dated April 5, 1971, in 1⅜- through 2⅜-inch thickness, manufactured at Nashua, New Hampshire and Waukegan, Illinois, manufactured by Johns-Manville Sales Corporation, Denver, Colorado 80217, effective December 19, 1974. (It supersedes Approval No. 164.009/31/1 dated August 2, 1972 to show change of place of manufacturer.)

Approval No. 164.009/82/2, "Ultrafine CG #1 through CG #7, fibrous glass type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–2120: FR3651 dated June 7, 1965, and TG10210–2122: FR3653 dated September 17, 1965, approved in a range from ½ through 3 pounds per cubic foot density, CG #7 can be molded in hollow cylindrical places for insulation purposes, product manufactured at Plant #7, 3031 Fiberglas Road, Kansas City, Kansas 66115, Mountaintop, Pennsylvania Plant, Crestwood Industrial Park, Mountaintop, Pennsylvania 18707, and Berlin, New Jersey Plant, New Brooklyn & New Freedom Roads, Williamstown Junction, New Jersey 08009, manufactured by Certain-Teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, effective December 16, 1974. (It supersedes Approval No. 164.009/82/1 dated November 5, 1974 to show modification for use of material.)

Approval No. 164.009/164/0, Marine Veneer, Colored Marine Veneer, Dekeran, and Textured Dekeran, plain or perforated, inorganic heavy density sheets as described in Johns-Manville letter of April 25, 1973, manufactured at Nashua, New Hampshire and Waukegan, Illinois, manufactured by Johns-Manville Sales Corporation, Denver, Colorado 80217, effective December 19, 1974. (It supersedes Approval No. 164.009/164/0 dated June 10, 1974 to show change of place of manufacturer.)

Dated: February 8, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant
Marine Safety.

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from April 25, 1973 to December 17, 1974 (List No. 26–74). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 and 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

MARINE BUOYANT DEVICES

The Charles Ulmer, Inc., 175 City Island Avenue, City Island, New York 10464, no longer manufactures certain marine buoyant devices and Approval Nos. 160.064/5/0 and 160.064/6/0 were therefore terminated effective November 13, 1974.

LIGHTS (WATER); ELECTRIC FLOATING, (WITH BRACKET FOR MOUNTING) FOR MERCHANT VESSELS

The Neo-Flasher Electronics, Inc., 11975 Sherman Road, North Hollywood, California 91605, no longer manufactures in conformance with the approved drawings certain floating electric water lights and approval No. 161.010/2/1 was therefore terminated effective December 4, 1974.

SAFETY VALVES (POWER BOILERS)

The Ashton Valve Company, Wrentham, Massachusetts 02993, Approval No. 162.001/219/0 expired and was terminated effective April 24, 1974.

RELIEF VALVES

(HOT WATER HEATING BOILERS)

The Bell & Gossett Company, 8200 North Austin Avenue, Morton Grove, Illinois 60053, Approval No. 162.013/34/0

XUM
V40-31 FEB 13 75 XUM

expired and was terminated effective April 25, 1973.

GAUGING DEVICES, LIQUID LEVEL, LIQUEFIED COMPRESSED GAS

The Bastian-Blessing Company, 4201 W. Peterson Avenue, Chicago, Illinois 60646, Approval Nos. 162.019/17/0 and 162.019/18/0 expired and were terminated December 17, 1974, Approval Nos. 162.019/22/0 and 162.019/23/0 expired and terminated December 15, 1974 and Approval Nos. 162.019/32/0 and 162.019/33/0 expired and were terminated effective December 16, 1974.

Dated: February 6, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Federal Highway Administration

WALT WHITMAN AND BENJAMIN FRANKLIN BRIDGE TOLLS

Schedule of Rates

By an order of the Federal Highway Administrator on December 21, 1973, and in consideration of the impending fuel crisis and other issues of public interest which produced a "serious and substantial change of circumstances since the 1972 toll hearing in this matter," the Administrator's opinion of November 5, 1973, which prescribed a new schedule of rates of tolls to be charged for transit over the bridges operated by the Delaware River Port Authority was stayed. The December 21, 1973, opinion, established, effective January 1, 1974, the toll schedule annexed as Appendix A to the December 21, 1973, order as the schedule of tolls to be demanded and received for transit over all bridges which the Delaware River Port Authority operates.

The December 21, 1973, order placed the new schedule into effect on an interim basis and reopened the administrative proceedings so that evidence bearing on the justness and reasonableness of the new toll schedule in light of the energy crisis could be adduced. Hearings on the new toll schedule were held before the Honorable Edward V. Alfieri, Administrative Law Judge, in Philadelphia, Pennsylvania, On April 23, 24, and 25, 1974. Judge Alfieri, after considering the record produced at that hearing and the briefs filed by all parties, issued a decision on October 16, 1974, finding the toll schedule set forth in Appendix A to the Federal Highway Administrator's opinion issued December 21, 1973, to be unjust and unreasonable, and further recommending that the toll schedule prescribed in the opinion of November 5, 1973, and more specifically set forth in Schedule H of said opinion as the tolls to be charged effective January 1, 1974, on the interstate bridges operated by the Delaware River Port Authority. Schedule H, in effect, reinstated the April 1, 1972, toll schedule.

The Administrator has carefully reviewed the record produced at the April 1974 hearings, and finds that the record produced is insufficient and does not present, because of subsequent events, full information upon which the justness and reasonableness of the present toll schedule can be adjusted. The Administrator has found, from the monthly reports of the Delaware River Port Authority, voluntarily submitted to the Federal Highway Administration, that on June 15, 1974, subsequent to the hearings the Authority issued $47 million in refunding bonds. This fact would certainly have the effect of altering the debt service requirements of the Authority, the precise nature of which is essential to the process of determining the reasonableness or justness of tolls in this case. The Administrator does not know the precise details of the new issuances. The Administrator has not been officially made aware of this issuance nor has the details of this bond issue been offered as an amendment to this record. The Administrator takes note of the fact that three refunding plans were discussed at the April 1974 hearings and that so-called plan number II calling for the issuance of $50,000,000 to be raised through three separate bond issues was approved by the Finance Committee of the Port Authority and the inference is given by the testimony of Mr. Jones, Investment Counselor, that the entire Authority had in fact approved the new plan II. (Page 107, Volume 2.) Further, Mr. Auchter, Director of Finance and Treasurer of the Authority, stated that in the April Port Authority meeting, the Commissioners approved a refunding program of the existing $40 million serial bond issue (page 94, Volume I). The Administrator takes note of the fact that these plans were introduced into evidence on cross-examination by public counsel, and was not submitted into the record by the Authority. Whether these plans reflect what was actually issued in June, the Administrator does not know.

Needless to say, and as pointed out previously, it has now come to the attention of the Administrator that refunding bonds were issued in June of 1974 which changes the financial structure of the Authority. Facts have occurred subsequent to the hearings which might affect the outcome, and the Administrator is aware that the law permits an administrative agency, in its discretion, to adhere strictly to the record produced at the hearing and not reopen the record for the introduction of evidence of the subsequent events. *Bowman Transportation Inc.* v. *Arkansas—Best Freight Systems, Inc.*, 95 Sup. Ct. Rep. 438 (1974). Nevertheless, the Administrator feels, at the present time, that due to the importance of the matter and in a diligent effort to carry out his statutory duty, he is restricted in proceeding on the basis of the existing record to determine the reasonableness or justness of the tolls unless the new financial status of the Authority is placed in the record. Further, the Administrator reserves the right, in his discretion, to either proceed on the basis of the existing record or proceed on the basis of additional information herein requested. The Administrator, in his discretion, specifically reserves the right to reconvene the hearing, if deemed necessary. In addition, inasmuch as the April 1974 hearings were able to cover only the first 3 months of 1974 as to the traffic experience under the new toll schedule, the Administrator would be considerably aided in reaching a final decision in this

matter by the possible addition to the record of certain other information reflecting on the calendar year 1974 revenues and expenditures, and on the Authority's projected budget for 1975.

In consideration thereof, the Administrator is considering reopening the record and directs the Delaware River Port Authority to submit to the Administrator within 10 days of the service of this order the following documents:

(1) The 1974 official statement of the Delaware River Port Authority authorizing the issuance of refunding bonds in 1974.

(2) The financial statement of the Authority for the calendar year 1974, including toll revenues by classes of vehicular traffic.

(3) Traffic counts for calendar year 1974 by toll classes of vehicles.

(4) The Authority's 1975 proposed budget.

Upon receipt of these documents, the Administrator will label the documents for identification purposes and transmit said documents to all parties of record to this proceeding, including the Delaware River Port Authority, and said parties may within 20 days of receipt of such documents, submit to the Administrator, with service on the other parties of record: (1) Objections; (2) Comments and briefs concerning the documents; and/or (3) Petitions for a hearing.

After receipt of the objections, comments or petitions, the Administrator will further consider reopening the record for inclusion of the additional information into the official record of the proceeding and notify the parties of his findings. Thereafter, the Administrator will proceed with his determination as to the reasonableness and justness of tolls to be charged for the transit of vehicles over the bridges operated by the Delaware River Port Authority.

The Administrator, at this time, feels compelled to comment on an aspect of this proceeding that is particularly disturbing. It is noted that following the hearings before the Administrative Law Judge in April of 1974, the parties submitted briefs to the Administrative Law Judge in the latter part of June. It is sued by the Authority on June 15, 1974. The Administrator is unable to find from a review of the brief submitted by Counsel for the Authority to the Administrative Law Judge in the latter part of June, any reference to the issuance of these new bonds. Neither in the brief submitted by Counsel for the Authority in November 1974 taking exception to the Administrative Law Judge's decision of October 16, 1974, is mention made of the issuance of new refunding bonds. It is manifest that such an omission cannot be classed as inadvertent or an oversight in view of the impact new refunding bonds might have upon the financial structure of the Authority. Such omission certainly does not reflect the openness, candor and the cooperative attitude that was presented by the Authority both before and during the hearings. It is further manifest that without this information the Administrator is inhibited in carrying out his statutory duty to determine the reasonableness and justness of the tolls.

Therefore, the Administrator finds that the toll schedule as set forth in Appendix A of the December 21, 1973, opinion shall continue in effect on an interim basis so that a determination can be made as to whether the record of this proceeding is complete by the addition of the documents herein referred to and until a final decision can be issued. Further the conditions contained in the Administrator's December 21, 1973, order shall continue in effect.

Issued in Washington, D.C., on February 10, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Federal Railroad Administration

[Doc. No. 74-3, Notice 1]

CONGRESS OF RAILWAY UNIONS

Sleeping Quarters for Railroad Employees

Notice is hereby given that the Federal Railroad Administration (FRA) is considering a petition of the Congress of Railway Unions (CRU) that the FRA institute rulemaking procedures to prohibit railroads from having or providing employee sleeping quarters less than one mile from its property or yards where switching or humping is performed. The CRU states that its petition "is intended to cover all sleeping quarters of employees provided by the carriers, including but not limited to crew quarters, camp or bunk cars, and trailers."

In its petition, CRU asserts that "it is impossible, where employees are forced to sleep in the yards, to receive the uninterrupted rest as required by the Hours of Service Act. The noise levels in yards preclude receiving this rest." FRA agrees that railroad employees cannot obtain the rest intended under the Hours of Service Act, as amended (45 U.S.C. 61-64b) and necessary for them to be able to safely carry out their duties, if they are exposed to excessive noise levels in sleeping quarters provided by their employer. However, FRA does not believe that issuance of a regulation requiring these sleeping quarters to be located at least one mile away from locations where switching or humping operations are conducted, would achieve the desired result. The noise levels from other sources at more remote locations may often be equally high or even greater than those at locations near switching operations. FRA believes that a better approach to this problem would be to prescribe maximum interior noise levels resulting from exterior noise sources and interior building sources such as heating, plumbing and air conditioning. According to Department of Housing and Urban Development Circular 1390.2 (Noise Abatement and Control: Departmental Policy, Implementation Responsibility and Standards, August 4, 1971) the interior noise levels in sleeping quarters should not exceed—

(1) 55dB(A) for more than accumulation of 60 minutes in any 24-hour period, and

(2) 45dB(A) for more than 30 minutes during night time sleeping hours from 11 p.m. to 7 a.m.; and

(3) 45dB(A) for more than an accumulation of eight (8) hours in any 24-hour day.

As used above, the term "dB(A)" means decibel values for those sound levels measured using the A-weighting network of a standardized sound level meter. The A-weighting network most closely approximates the response of the human ear to noise.

Since railroads generally operate on a 24-hour "around the clock" basis, it should be assumed that sleeping quarters for railroad employees will likewise be occupied at all times. Consequently, to assure that railroad employees receive adequate rest, it would appear that the noise level in their sleeping quarters should not exceed 45dB(A) for more than 30 minutes during any eight (8) hour period.

CRU further asserts in its petition that because of the large volume of hazardous material shipments, "the presence of sleeping quarters on the properties present an unusually grave risk of injury or death to employees." To illustrate this risk, CRU cites the accident which occurred on July 19, 1974, in the yard of the Norfolk and Western Railroad Company (N&W) at Decatur, Illinois. That accident involved an N&W restaurant-dormitory structure located between the eastbound and westbound segments of the yard system, and a switching operation which resulted in a coupler puncturing one end of a DOT-114A tank car loaded with liquefied petroleum gas. The puncture resulted in an explosion, which caused widespread damage, including destruction of the nearby N&W restaurant-dormitory structure. Seven employees in or about that structure were killed; several other employees in or about it were injured.

FRA has already taken several measures to prevent recurrence of similar accidents. On September 6, 1974, it amended the Hazardous Material Regulations to require a tank head protection device (head shield) to be affixed to each end of all DOT-112A and 114A tank cars built after August 30, 1974, used for the transportation of compressed gases and to require previously built DOT-112A and 114A tank cars used for the transportation of compressed gases to be equipped with protective head shields by January 1, 1978.

On October 25, 1974 FRA exercised its emergency powers under section 203 of the Federal Railroad Safety Act of 1970 (49 U.S.C. 432) by issuing Emergency Order No. 5 (38 F.R. 38230) which imposed certain restrictions on handling uninsulated DOT-112A and 114A tank cars not equipped with head shields while these cars are transporting flammable compressed gas. Emergency Order No. 5 prohibits the uncoupling or cutting off of these cars while they are in motion, the

XUM
V40-31
FEB 13 75
XUM

striking of these cars by other cars moving under their own motion, and the coupling of these cars with more force than is necessary to complete the coupling. In addition, the order requires that the shipping papers for these cars carry the notation: "DOT-112A" or "DOT-114A" and "must be handled in accordance with FRA E.O. No. 5" and that railroad employees be informed of the presence of these cars and instructed to handle them in accordance with the requirements of this order.

Interested parties are invited to participate in this proceeding by submitting written data, views, or comments. Communications should identify the proceeding (FRA Rulemaking Petition Docket No. 74-3) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 7th Street SW., Washington, D.C. 20590. Communications received prior to April 1, 1975, will be considered before action is taken on this petition.

This petition and all comments received will be available for examination by interested persons at any time during normal business hours in Room 5101, Nassif Building, 400 7th Street SW., Washington, D.C.

FRA requests specific advice on the following points:

1. Should the FRA prescribe noise level standards for sleeping quarters that railroads provide or make available to their employees?

2. Should these noise level standards apply only to sleeping quarters in railroad owned or operated lodging or should they also apply to hotels, motels, and rooming houses?

3. What should be the maximum allowable noise level in these sleeping quarters?

4. Should these noise level standards apply to sleeping quarters used by employees subject to the Hours of Service Act? Should it also apply to sleeping quarters used by other railroad employees?

5. What means are available to reduce noise levels in sleeping quarters? What are their relative costs and effectiveness?

6. Should sleeping quarters for railroad employees be prohibited within one mile of locations where switching or humping operations are performed? What impact would this prohibition have on existing sleeping quarters? Would the safety benefit of this prohibition justify the monetary cost of compliance to railroads which would ultimately be borne by the public?

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431 and § 1.49(n) of Regulations of the Office of the Secretary of Transportation, 49 C.F.R. 1.49(n).

Issued in Washington, D.C. on February 10, 1975.

ASAPH H. HALL,
Deputy Administrator.

[Doc. No. RSFC-74-3]

FREIGHT CAR SAFETY STANDARDS

Waiver Petition

The Great Western Railroad Company (GW) has petitioned the Federal Railroad Administration (FRA) for permanent exemption from § 215.223 of the FRA Freight Car Safety Standards in order to continue operating 175 freight cars. The cars are equipped with cast iron wheels whose use was prohibited, effective January 1, 1975, under FRA regulations (49 CFR 215.223).

The cars covered in the petition include 164 gondolas, 8 tank cars and 3 cabooses. The cars all bear GW reporting marks and bear various numbers in the series between 27 and 446 for the gondolas, 501 and 519 for the tank cars and 1006 and 1009 for the cabooses.

The cars are not interchanged and operate solely within the State of Colorado. The gondolas are used exclusively to haul sugar beets between the months of October and January each year. The tank cars are used throughout the year to transport molasses.

Petitoner notes the cars operate only over its trackage which consists of only 58 miles of main line and at a maximum speed of 35 miles per hour. The records of the GW also reflect no reportable accidents due to the failure of these cars over the past ten years.

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. FRA does not anticipate scheduling an opportunity for oral comment on this petition since the facts do not appear to warrant it. An opportunity to present oral comments will be provided however, if requested by any interested person prior to February 28, 1975. All communications concerning this petition should identify the appropriate docket number (FRA Waiver Petition Docket Number RSFC-74-3) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590. Communications received before March 15, 1975 will be considered by the Federal Railroad Administration before final action is taken. Comments received after that date will be considered so far as practicable. All comments received will be available, both before and after the closing date for communications, for examination by interested persons during regular business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation 49 CFR 1.49(n).

Issued in Washington, D.C. on February 10, 1975.

DONALD W. BENNETT,
Chief Counsel.

National Highway Traffic Safety Administration

[Docket No. EX75-8; Notice 1]

KOEHRING CO.

Petition for Temporary Exemption

Koehring Company of Milwaukee, Wisconsin, has applied for a temporary exemption from Motor Vehicle Safety Standard No. 121, Air Brake Systems, on the basis that compliance would cause it substantial economic hardship.

In 1974 Koehring manufactured 362 vehicles that are considered "motor vehicles" under the National Traffic and Motor Vehicle Safety Act of 1966. These are trucks, primarily hydraulic excavators and crane carriers manufactured by its Bantam Division. The company requests an exemption until December 1, 1976. It "has been aggressively seeking suppliers for the axles required to meet FMVSS-121 without success since the fall of 1973." The cause of the delay is the concentrated effort of suppliers on high volume items rather than on specialized low-production equipment. The company believes that axles for its hydraulic excavators will be delivered by September 1, 1975, and for its 18-ton cranes a year later. The exemption period will allow Koehring also to conduct customary testing after initial delivery of the axles to insure that production models fully conform and that no defects exist. Denial of the exemption would cause the company substantial economic hardship in that it would have to cease production of the vehicles concerned until conforming parts were available. In the interim the demand for such specialized vehicles might be met by the company's competition. The denial would also result in a lay-off of Koehring workers causing "great hardship on the Bantam Division employees and on the small community of Waverly, Iowa where Bantam Division is located".

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on the subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Koehring Company described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of action upon the petition will be published in the FEDERAL REGISTER.

Comments closing date: February 24, 1975.

Proposed effective date: March 1, 1975.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on February 11, 1975.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

[Docket No. Ex 75-7; Notice 1]

RITE-WAY INC. OF INDIANA

Petition for Temporary Exemption

Rite-Way Inc. of Indiana, of Fort Wayne, Indiana, has applied for a temporary exemption from Motor Vehicle Safety Standard No. 121, Air Brake Systems, on the basis that compliance would cause it substantial economic hardship.

Rite-Way manufactured 70 motor vehicles (ready-mix trucks) in 1974. It requests an exemption from Standard No. 121 for three years. The company is a wholly owned subsidiary of Moran Tank Company, which acquired it in 1972 when Rite-Way was operating under the Federal Bankruptcy Act. Shortages of parts and the state of the economy forced Rite-Way to file for reorganization under Chapter XI of the Act in November 1974. Efforts to interest suppliers in providing prototype components to a small-volume producer have resulted in delays to programs intended to implement Standard No. 121. The company's financial state caused it to close its truck manufacturing facility in Natchez, Mississippi, leaving it with an inventory of parts worth almost $85,000 that have been obsoleted by the advent of Standard No. 121. The 3-year exemption period would allow it to exhaust the inventory and phase in the new standard on an orderly basis. The company had a net income of only $125,000 in the fiscal year ending July 31, 1974. Between then and November 25, 1974, the company had a net loss of $250,000. The company intends to conform by the end of the exemption period.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Rite-Way described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of action upon the petition will be published in the FEDERAL REGISTER.

Comments closing date: February 24, 1975.

Proposed effective date: March 1, 1975.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on February 11, 1975.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

YOUTH HIGHWAY SAFETY ADVISORY COMMITTEE

Public Meeting

On March 1-2, 1975, the Youth Highway Safety Advisory Committee will hold an open meeting at The Atlanta Town House Motor Inn, 100 Tenth St., NW, Atlanta, Georgia. The Committee is composed of persons appointed by the National Highway Traffic Safety Administrator to consult with and advise him concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries.

The meeting will be in session from 9:30 a.m. to 4:30 p.m. on March 1, 1975 and from 9:30 a.m. to 3:30 p.m. on March 2, 1975. The agenda is as follows:

Presentation by Regional Administrator, Region IV.
Presentation by Governor's Representative for Highway Safety, State of Georgia.
Discussion of Committee's Public Education Effort (Speakers Bureau).
Discussion on Driver Education Manual.
Discussion on data collected in Alcohol Research Project.
Report on Resolutions.
Regional Reports and Future Plans.
Meeting with American Driver and Traffic Safety Education Association.

For further information, contact Executive Secretariat, Room 5215, 400 Seventh Street, SW., Washington, D.C., telephone 202-426-2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92-463, Federal Advisory Committee Act (FACA) effective January 5, 1973.

Issued on February 10, 1975.

WM. H. MARSH,
Executive Secretary.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON COMPLIANCE AND ENFORCEMENT PROCEEDINGS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Compliance and Enforcement Proceedings of the Administrative Conference of the United States, to be held at 10 a.m., on March 12, 1975 in the offices of the Administrative Conference of the United States, 2120 L. Street NW., Washington, D.C. 20037.

The Committee will meet to consider a report and recommendation by Professor Jan Vetter on Affirmative Action Procedures in University Faculty Employment and any other new business.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may if he deems it appropriate permit members of the public to present oral statements at the meetings; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact William R. Shaw, (phone 202-254-7065). Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

CIVIL AERONAUTICS BOARD

[Docket 27454, Docket 23080–2, Order 75–2–38]

AIR NEW ENGLAND, INC.

Temporary Priority and Nonpriority Domestic Service Mail Rates—Phase 2

By Order 75–1–118, dated January 29, 1975, the Board directed all interested persons, and particularly Air New England, Inc. and the Postmaster General to show cause why the Board should not make Air New England a party to Docket 23080–2, and establish as temporary service mail rates for Air New England, effective with the commencement of its certificated services, the temporary rates established in Docket 23080–2.

The time designated for filing notice of objection has elapsed, and no notice of objection or answer to the order has been filed by any party. All parties have therefore waived the right to a hearing and all other procedural steps short of a final decision by the Board.

Upon consideration of the record, the findings and conclusions set forth in said Order are hereby reaffirmed and adopted.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR, Part 302 and the authority duly delegated by the Board in its Organization Regulations, 14 CFR 385.16(g):

It is ordered, That, 1. The petition filed by Air New England, Inc., on January 13, 1975, in Docket 23080–2 is hereby dismissed.

2. An investigation is hereby instituted to determine the fair and reasonable rates to be paid by the Postmaster General to Air New England, Inc., for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith over Air New England's entire system on and after the date of commencement of services by Air New England, Inc., pursuant to the certificate of public convenience and necessity issued by the Board.

3. The investigation instituted herein is consolidated into Docket 23080–2, and Air New England is made a party to Docket 23080–2.

4. On and after the date of commencement of certificated air transportation by Air New England, Inc., the fair and reasonable temporary rates of compensation to be paid by the Postmaster General for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, to Air New England, Inc., for operations between points which it presently or hereafter is authorized to carry mail by its certificates of public convenience and necessity are the temporary rates established in Docket 23080–2.

5. The temporary service mail rates established herein shall be paid in their entirety by the Postmaster General and shall be subject to retroactive adjustment, commencing with the date of inauguration of services by Air New England, Inc., pursuant to its certificate of convenience and necessity, as may be required by the order establishing final service mail rates in Docket 23080–2.

6. This order shall be served upon the Postmaster General and Air New England, Inc.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may do so within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

This order shall be published in the FEDERAL REGISTER.

FRANK R. CHABOT,
Chief, Government Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Chief Administrative Law Judge.

[FR Doc.75–4100 Filed 2–12–75;8:45 am]

[Docket 25280, Order 75–2–39, Agreement C.A.B. 24942]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names an additional specific commodity rate, as set forth below, reflecting a reduction from general cargo rates, and was adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated January 29, 1975.

Specific commodity item No.	*Description and rate*
1407--------	Floral and Nursery Stock and Seeds, N.E.S., excluding cut flowers 109 cents per kg., minimum weight 1,000 kgs. From Copenhagen to New York.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, *it is ordered*, That:

Agreement C.A.B. 24942 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications, provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–4101 Filed 2–12–75;8:45 am]

[Docket 26487; Order 75–2–3]

TRANSATLANTIC, TRANSPACIFIC, AND LATIN AMERICAN MAIL RATES

Order Fixing Temporary Rate and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office is Washington, D.C. on the 3rd day of February 1975.

By Order 74–11–47, dated November 11, 1974, the Board directed the parties to show cause why the Board should not establish for the period on and after March 8, 1974, the temporary international mail rates proposed therein.[1]

[1] The Board proposed to increase the transatlantic, transpacific, and Latin American temporary mail rates by 26.96 percent, 14.96 percent, and 49.56 percent, respectively. In addition, the Board proposed to increase the temporary military ordinary mail (MOM) rate by 42.56 percent and the space-available mail (SAM) rate by 26.86 percent. These proposed increases were based upon the temporary rates in effect prior to March 8, 1974; i.e., exclusive of the 18.86 percent fuel surcharge effective March 8, 1974, which was finalized by the Board in Order 74–10–125, dated October 24, 1974.

Notices of objection and answers to the show cause order were filed by the Postal Service and the Department of Defense (DOD).[2] Generally, the Postal Service objects to the proposed increases in temporary rates for the transatlantic, transpacific, Latin American rate areas, and the increase in the temporary rate for MOM, while the objection of DOD is limited to the proposed level of the MOM temporary rate. In view of these objections new temporary rates for each of these categories of mail are proposed herein. However, there have been no objections raised to the proposed temporary rate for SAM and, accordingly, that rate will be established herein.

The Postal Service maintains that the Board has failed to justify the proposed rates adequately, which it is required to do by statute. The Postal Service further submits that, although the Board has agreed with the Postal Service that temporary mail rate levels should not exceed common economic costs (CEC) per revenue ton-mile (RTM),[3] the Board has offered no independent justification for setting temporary rates at the CEC per RTM level as proposed in Order 74–11–47. Indeed, the Postal Service contends that the Board simply cannot justify temporary rates set at these levels, since final rates will undobtedly fall below CEC per RTM.[4] In addition, the Postal Service alleges that the Board's proposed MOM rate is excessive and points out that the rate is almost equal to the proposed transpacific rate even though MOM is not priority traffic.[5] However, the Postal Service has developed ceilings for the transatlantic, transpacific, and Latin American rates based upon the CEC per RTM for the final quarter of fiscal year 1974. The Postal Service asserts that, if the Board can justify the setting of temporary rates at maximum levels, these ceilings represent the highest level at which temporary rates should be established.

On December 6, 1974, Pan American filed a reply to the answers of the Postal Service and DOD.[6] Essentially, Pan American believes that the Postal Service seeks only to substitute its own calculations of CEC per RTM as the maximum level for fair and reasonable temporary rates. In addition, Pan American disputes the contention of the Postal Service that the level of CEC per RTM represents maximum rate levels and maintains that such costs do not consider items such as priority and directionality. However, Pan American states that, since it has an urgent need for the increased revenues to be provided by an increase in temporary mail rates, it will, in order to expedite this proceeding, accept on a temporary basis transpacific, transatlantic, and Latin American rates established at the levels set forth in the answer of the Postal Service and MOM rates set at the levels proposed by the Postal Service adjusted for the 13.36 percent fuel surcharge. Pan American states that it has been authorized by the Postal Service to represent that the latter would not object to the disposition of the issues raised in its answer by establishing these temporary rates.

Upon review of these pleadings and all other relevant matters, particularly the apparent agreement at least among some of the parties,[7] and the temporary nature of the rates, the Board has tentatively determined that the fair and reasonable temporary rates to be paid the carriers on and after March 8, 1974, for the transportation of military ordinary mail and all other mail by aircraft, the facilities used and useful therefor, and the services connected therewith, are as follows: 29.38 cents per ton-mile for MOM; 37.97 cents per ton-mile for transatlantic mail; 33.9 cents per ton-mile for transpacific mail; and 52.95 cents per ton-mile for Latin American mail. As previously noted, the Board's proposed temporary rate for space-available mail of 16.5 cents per ton-mile will be established herein, since no party objected to that rate.

The Postal Service is incorrect in stating that the Board did not conduct its own analysis; we analyzed the Pan American and Postal Service cost presentations and tentatively found them reasonable for temporary rate purposes as adjusted by the Board. These matters are discussed in detail in Order 74–11–47. Now the Postal Service offers further adjustments and refinements with which Pam American agrees, and the Board again tentatively finds the results to be reasonable for the purpose of establishing temporary mail rates pending completion of the formal proceeding which is now under way.[8] Even after formal hearing, the final mail rates which are to be established cannot be determined with absolute exactness, but only within a range of reasonableness. Thus, there is even a greater latitude in establishing temporary rates which may later be adjusted on the basis of an evidentiary hearing. This being so, no useful purpose would be served by subjecting the parties to a separate formal proceeding to establish temporary rates on the basis of the objections filed in response to Order 74–11–47. We therefore propose by this order to establish new temporary rates at the levels Pan American has stated are agreeable to the Postal Service. In doing so, we again emphasize that these are only temporary rates and are necessarily based on the data currently at hand and on a methodology that is reasonable for this purpose. There is no way of determining at this time whether the final rates to be established after hearing will be higher or lower than these proposed temporary rates. Certainly, the facts and the issues to be considered are not necessarily governed by policies adopted by the Board in cases involving domestic service mail rates. For example, the effect of directionality is not a factor in establishing domestic rates, and the evidence developed on the record may lead to entirely different conclusions as to the proper methodologies to be utilized for the various cost allocations. Also there could be variances in the application of density and/or priority factors.[9] Further, the Board will have to take into consideration the elements required by Section 4 of the International Air Transportation Fair Competitive Practices Act of 1974, recently passed by the Congress.[10] The effect of all these issues on the final rates is not determinable at this time, but based on the information that is available we tentatively find that the temporary rates proposed herein are reasonable.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 102, 204, and 406 thereof, and the regulations promulgated in 14 CFR Part 302;

It is ordered, That: 1. The motions of Pan American World Airways, Inc., and Braniff Airways, Inc., to file otherwise unauthorized documents are hereby granted, and the replies of these carriers are accepted;

2. The fair and reasonable temporary rates of compensation to be paid to the carriers by the Postmaster General for

[2] The Flying Tiger Line Inc. (FTL), Pan American World Airways, Inc. (Pan American), and the Department of Transportation (DOT) filed responsea to the show-cause order indicating that, although they believed the proposed increases were inadequate, they would not object to the proposed rates.

[3] Common economic costs are those costs common to all traffic which exclude passenger service, promotion and sales, and associated general and administrative costs. These costs also include return and taxes and are computed on the basis of average costs per revenue ton-mile.

[4] The Postal Service believes that in setting final rates, a substantial portion of capacity costs will be allocated to passenger service and portions of the investment base will not be recognized for mail rate purposes.

[5] DOD makes these same contentions but indicates that it would not object to a rate which would compensate the international U.S.-flag carriers for their true increased costs.

[6] Braniff also filed a reply, dated December 6, 1974, to the answer of the Postal Service. Each reply was accompanied by a motion for leave to file an otherwise unauthorized document, and the motions will be granted herein.

[7] It should be noted that the Board has in the past given great weight to agreements between the Postal Service and the carriers in establishing mail rates. See, *e.g.*, Order 68–9–9, dated September 4, 1968, and 69–10–149, dated October 30, 1969.

[8] Procedural dates have been established. See Prehearing Conference Report served December 10, 1974.

[9] We would also note that, while the Postal Service contends that the investment for mail is overstated, it has utilized Pan American's fiscal year 1973 investment which is an understatement of current system investment. However, a more definitive costing and final resolution of the many complex issues in this investigation can only be accomplished through the formal hearing process. Our analysis and the methodologies adopted herein under the preset circumstances are reasonable for the purposes of establishing temporary mail rates.

[10] The President signed the Act into law on January 3, 1975.

the transportation by aircraft, the facilities used and useful therefor, and the services connected therewith for the carriage of space available mail (SAM), as provided for by section 3401(b) and 3401(c) of the United States Code on and after March 8, 1974, are those set forth in Appendix B of Order 74-11-47, dated November 11, 1974, subject to the terms and conditions set forth in Order E-25654 (47 C.A.B. 957 (1967)), as amended;

3. Airlift International Inc., Alaska Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., The Flying Tiger Line, Inc., Hughes Air Corp., d/b/a Hughes Airwest, Mackey International, Inc., National Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Seaboard World Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., the Postmaster General, the Department of Defense, and the Department of Transportation are directed to show cause why the Board should not establish for the period on and after March 8, 1974, the fair and reasonable temporary rates, as set forth in Appendix A attached hereto,[11] to be paid for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith for the services and in the areas specified in Appendix A;

4. The terms and conditions applicable to the transportation of each class of mail at the rates proposed herein shall be those set forth in Order 68-9-8, September 4, 1968, as amended, for MOM; Order 68-9-9, September 4, 1968, as amended, for transatlantic and transpacific mail; and Order 69-10-149, October 30, 1969, as amended, for Latin American mail; and the mail ton-miles shall be based upon nonstop great-circle ton-miles in accordance with Order 73-4-16, April 3, 1973;

5. Further procedures herein shall be in accordance with 14 CFR Part 302, and, if there is any objection to the rates or to the related findings and conclusions proposed herein, notice thereof shall be filed within 8 days after the date of service of this order, and, if notice is filed, written answer and supporting documents shall be filed within 15 days after date of service of this order;

6. If notice of objection is not filed within 8 days or if notice is filed and answer is not filed within 15 days after service of this order, or if an answer timely filed raises no material issue of fact, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix the rates specified herein;

7. If notice of objection and answer are filed presenting issues for hearing, issues going to the establishment of the fair and reasonable temporary rates herein shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR § 302.307; and

8. This order shall be served upon the parties listed in paragraph 3 above.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

NOTE: Minetti and West, members, Concurrence, filed as part of the original document.

[11] This order is not intended to disturb other service or subsidy mail rates established, or to be established, by separate order of the Board.

APPENDIX A

PROPOSED TEMPORARY INTERNATIONAL SERVICE MAIL RATES PER NONSTOP GREAT-CIRCLE TON-MILE EFFECTIVE ON AND AFTER MAR. 8, 1974 CENTS PER MAIL TON-MILE
[In cents]

Geographic rate areas [1]	Temporary rate base [2] [3]		Proposed temporary rate increase [4]		Temporary rates on and after Mar. 8, 1974	
	All other mail [4]	MOM	All other mail [4]	MOM	All other mail [4]	MOM
Atlantic rate area:						
(1) United States-Europe/Mediterranean	32.42	21.95	6.05	7.57	38.47	29.52
(2) United States-Africa	33.78	22.75	6.30	7.85	40.08	30.60
(3) United States-Middle East	33.41	22.76	6.38	7.85	39.64	30.61
Latin American rate area:						
(1) United States-South America	34.06	22.22	21.43	7.66	55.59	29.88
(2) United States-Central America	33.50	23.50	21.08	8.11	54.58	31.61
(3) United States-Caribbean	34.43	22.11	21.66	7.63	56.09	29.74
Pacific rate area:						
(1) United States-Orient	29.65	22.28	5.25	7.69	34.9	29.97
(2) United States-South Pacific	30.59	26.35	5.41	9.09	36.0	35.44
(3) United Stats-Southeast Asia	30.04	22.71	5.32	7.83	35.36	30.54

[1] As defined in app. A, B, C, and D p. 2 in order 73-4-16.
[2] Exclusive of fuel surcharge established by order 74-10-125, Oct. 24, 1974.
[3] Temporary rates pursuant to app. D of order 73-4-16 and based on a rate per standard ton-mile for MOM of 21.84 cents; and for all other mail (mail for which rates are not elsewhere established) of 32 cents for Atlantic services, 32.5 cents for Latin American services, and 28.8 cents for Pacific services.
[4] Other than SAM and mail for which rates are elsewhere established.
[5] Computed at the following percentage increase (a) Transatlantic 18.66 percent; (b) Latin American 62.92 percent; (c) Transpacific 17.7 percent; and (d) MOM 34.5 percent worldwide.

DELAWARE RIVER BASIN COMMISSION

WATER RESOURCES PROJECTS

Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, February 26, 1975, commencing at 2 p.m. The hearing will be held in Room 1600 of the Municipal Services Building in Philadelphia. The subjects of the hearing will be as follows:

A. A proposal to amend Resolution No. 72-7 requiring payment of fees for Commission review of certain water resources projects. It is proposed to increase the level of fees required and to add an environmental review fee for those projects subject to environmental assessment or environmental impact statements. These changes would be accomplished by deleting section 3 of Resolution No. 72-7 and substituting therefor the following language:

3. The project review filing fee is the greater of (a) or (b) as follows:
(a) Minimum fee: $100 for any project; or
(b) Alternative fee:
(1) 1/10 of 1 percent of estimated project cost to $1,000,000;
(2) 1/50 of 1 percent of remaining project cost above $1,000,000, but not to exceed a maximum fee of $50,000 as to any project, exclusive of added environmental review fees;
(3) Commission prepared environmental assessment, if required: $1,500; and
(4) Commission prepared environmental impact statement, if required: $30,000.

It is also proposed to delete section 7 of Resolution No. 72-7 since that language has been superseded by amendments to Article 6 of the Commission's rules of practice and procedure adopted December 4, 1974.

B. Applications for approval of proposed projects listed below. The Commission will consider these applications as amendments to the Comprehensive Plan pursuant to Article 11 of the Compact and/or as project approvals pursuant to § 3.8 of the Compact.

1. *Citizens Utilities Home Water Co. (D-73-14 CP).* A well water supply project to augment public water supplies in the company's service area in East Vincent Township, Chester County, Pa. Designated as Well No. 4, the new facility is expected to yield about 1.4 million gallons per day.

2. *Lionville Water Co. (D-74-194 CP).* A well water supply project to augment public water supplies in the company's service area in Uwchlan and West Whiteland Townships, Chester County, Pa. The new facility is expected to yield about 1 million gallons per day.

3. *Abington Township (D-74-191 CP).* Improvements to the existing sewage treatment plant in Upper Dublin Township, Montgomery County, Pa. About 95 percent of BOD5 and 97 percent of suspended solids will be removed from a sewage flow of approximately 3.9 million gallons per day. Treated effluent will discharge to Sandy Run, a tributary of Wissahickon Creek.

4. *Rush-Ryan-Delano Joint Sewer Authority (D-75-5 CP).* A sewage collection and treatment system serving portions of Rush, Ryan, and Delano Townships, Schuylkill County, Pa. About 85 percent of BOD5 and 90 percent of suspended solids will be removed from a sewage flow of 700,000 gallons per day. Approximately 69,000 feet of interceptor sewers will be constructed. Treated effluent will discharge to Pine Creek, a tributary of the Little Schuylkill River.

5. *E. I. du Pont de Nemours & Co., Inc. (D-73-150).* An industrial waste water treatment project at the company's Repauno Works in Greenwich Township, Gloucester County, N.J. About 90 percent of BOD5 will be removed from a wastewater flow of 158,000 gallons per day. Discharge will be to Zone 4 of the Delaware River.

6. *New Castle County Dept. of Public Works (D-71-97 CP—3.8-7).* A sewage pumping station and 5,220 feet of force main serving the area south of the Greater Wilmington Airport in New Castle County, Del. Designated as Part D of Christiana River Force Main, the facilities are designed to handle an ultimate volume of 21 million gallons per day by the year 2010.

7. *Mobil Oil Corp. (D-69-195).* An industrial waste treatment project at the company's Paulsboro Refinery in Greenwich Township, Gloucester County, N.J. The project is designed to provide a reduction in BOD of 89 percent to a wastewater flow of about 15.9 million gallons per day. Discharge will be to Zone 4 of the Delaware River.

C. Application for water quality certification for the project listed below pursuant to section 401 of the Federal Water Pollution Control Act:

1. Amico Sand & Gravel Co., maintenance dredging in an access channel and turning basin at Dredge Harbor, Delran Township, Burlington County, N.J. Approximately 200,000 cubic yards of dredged material will be removed and processed at an existing sand and gravel plant.

Documents relating to the items on this hearing notice may be examined at the Commission's offices. Persons wishing to testify are requested to notify the Secretary prior to the hearing.

W. BRINTON WHITALL,
Secretary.

FEBRUARY 7, 1975.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20196, 20197, File Nos. BPH-8711, BPH-8725]

A. C. ELLIOTT, JR. AND MELVIN PULLEY

Enlarging Issues

By the Review Board: 1. By Order, 39 FR 36137, published October 8, 1974, the Chief of the Broadcast Bureau, acting pursuant to delegated authority, designated the above-captioned applications for hearing under various issues, including, inter alia, a Suburban issue against Melvin Pulley (Pulley). Now before the Review Board are two petitions to enlarge issues,[1] filed October 23, 1974, by A. C. Elliott, Jr. (Elliott), requesting the addition of § 1.514, misrepresentation, site suitability and "repeated violations" issues against Pulley.

SECTION 1.514 ISSUE

2. Elliott submits that Pulley's application violated § 1.514 of the Commission's rules by failing to fully inform the Commission of his broadcast and financial interests. Specifically, petitioner alleges that Pulley failed to report the following: the 1968 date of acquisition of Pulley's ownership interest in WRDN, Durand, Wisconsin;[2] that Pulley had obtained a construction permit for a new companion FM station in Durand and the dates the permit was held; that Pulley was an officer and director of South St. Paul Broadcasting Company (S. St. Paul), licensee of KDAN, South St. Paul, Minnesota; that he was an officer and owner of a 48.2% interest in Universal Media, Inc., the parent corporation of S. St. Paul; and Pulley's filing of an application, which was voluntarily dismissed, for a new FM station at Waseca, Minnesota. Elliott also asserts that Pulley did not, as required by Form 301, provide the date of termination of his "general managership" in KDAN and the subsequent assignment of that station's license, thus allegedly "leaving the impression that he is currently employed as general manager of KDAN." Accordingly, Elliott, noting that Pulley is no longer general manager of that station, contends that, other than listing Pulley's pending Philadelphia, Mississippi application, the instant application reveals no current occupation or business interests of Pulley. The Broadcast Bureau supports addition of the requested issue on a comparative basis only.

3. Pulley, in opposition, states that he is in substantial compliance with the Commission's rules and while conceding his omissions, urges that they were inadvertent, insignificant, and harmless. Pulley acknowledges that he is presently unemployed and asserts that by giving the 1972 date of transfer of WRDN he has complied with Table II of Form 301's requirement of listing businesses engaged in within five years of filing the application. As to KDAN, Pulley argues that his failure to note his official capacity in the holding company was reasonable as the positions held were not "per se an occupation, business, or financial interest."[3] He concludes by stating that the Waseca application was voluntarily dismissed and inadvertently omitted from the application, and that Station WRDN-FM was never constructed and, therefore, did not constitute a business to be reported in his application.

4. Elliott's request for a § 1.514 issue will be denied. As an initial matter, we note that paragraph 19 of Section II of FCC Form 301, by its terms, does not specifically require an applicant to disclose if it or any party to its application had an interest in or connection with either a construction permit or an application which had been pending before the Commission. However, even assuming that such information (*i.e.*, the Waseca FM application and the WRDN-FM construction permit) were required to be reported, the issue would not be warranted since there is no apparent motive for concealment and the omission are not of any decisional significance. In circumstances such as these, the Board has consistently denied requests to add § 1.514 issues. See, *e.g., Brookhaven Broadcasting Co., Inc.*, FCC 75R-26, —— FCC 2d ——, released January 24, 1975; *Post-Newsweek Stations, Florida, Inc.* (WPLG-TV), FCC 74R-365, 49 FCC 2d 92, 31 RR 2d 692 (1974). Also see *Jerry L. Collins*, FCC 75-51, ——. FCC 2d ——, released January 20, 1975. Second, in light of Pulley's disclosure of a minority interest in the holding company of Station KDAN and his position as general manager of that station, we find that Pulley's failure to disclose the full extent of his managerial and official relationships with the holding company and licensee assumes less significance than customarily required to raise a § 1.514 issue. Finally, we are of the view that by listing the

[1] Also before the Review Board are the following related pleadings: (a) supplement to petition to enlarge issues, filed October 25, 1974, by Elliott; (b) supplement to petition to enlarge issues, filed November 5, 1974, by Elliott; (c) opposition, filed November 27, 1974, by Pulley; (d) Broadcast Bureau's comments, filed November 27, 1974; (e) supplement to (c), filed December 20, 1974, by Pulley; (f) reply, filed December 23, 1974, by Elliott. The Review Board has expressed its concern with the dilatory practice of filing supplemental pleadings. See *In re Filing of Supplemental Pleadings Before the Review Board*, 40 FCC 2d 1026 (1972). However, in light of the extension of time granted by the Board to respond to the initial pleadings, FCC 74R-409, released November 1, 1974, and their potentially dispositive nature, the supplements will be accepted.

[2] Elliott acknowledges that Pulley has included the date of transfer of WRDN in his instant application.

[3] In contrast, Pulley notes that he informed the Commission that he was manager of KDAN and a minority stockholder in its holding company.

XUM V40-31 FEB 13 75 XUM

1972 date of transfer of WRDN-AM, Pulley sufficiently complied with the stated requirements of Form 301, since this information clearly gave adequate notice of the existence of this broadcast interest.

MISREPRESENTATION ISSUE

5. In support of his request for a misrepresentation issue against Pulley, Elliott alleges that Pulley misrepresented the description of his community leader survey in his application. In this regard, Elliott notes that Pulley, in his application, states that he "personally interviewed" all of the 72 community leaders listed in exhibit II of his application. However, attaching nine supportive affidavits and an unsworn letter, Elliott alleges that his investigation revealed that six of these community leaders have denied being interviewed "as stated" by Pulley in his application, and that three interviewees, Ernest Moore, Randy Plowden, and Edwin Stanley, swear that they were not interviewed by Pulley or anyone representing Pulley.[4] The Bureau, in its comments, supports addition of the requested issue.

6. Pulley, in opposition, concedes that he did not personally interview all of the community leaders, but asserts that he had no intent to mislead or misrepresent facts to the Commission. He submits that those leaders not personally interviewed by him were interviewed by Walter F. Wilkins, his proposed assistant general manager. In support of this explanation, Pulley attaches the affidavit of Wilkins who states that he personally interviewed all six of those interviewees who denied being interviewed "as stated." Wilkins also swears that he interviewed Randy Plowden, who unequivocally denied being contacted, and Pulley attaches his own affidavit, deposing that he interviewed Ernest Moore and Edwin Stanley, the other leaders who had denied being interviewed by Pulley or anyone representing him. Finally, Pulley attaches a second affidavit of Moore, who now states that he recalls Pulley's ascertainment interview. In reply, Elliott submits a second affidavit of Edwin Stanley, who previously unequivocally denied being contacted. Stanley now swears that he was interviewed by Pulley, but only subsequent to the listing of his name in the latter's application. Elliott, therefore, alleges for the first time that a more expansive misrepresentation issue is warranted because the Stanley interview occurred only after Pulley had listed him as a contactee.[5]

[4] The affidavit of T. E. Cotten, swearing that he was interviewed only by W. F. Wilkins, Pulley's proposed assistant general manager, cannot be considered as supportive of the issue requested by Elliott. Moreover, the Board will not consider the unsworn letter of Harold Akins. See Section 1.229(c) of the Commission's Rules.

[5] The Review Board finds that Elliott has raised new factual allegations in his reply in violation of Commission Rule 1.294(c), and will accordingly disregard that portion of Elliott's reply which raises new matter. See *Prairieland Broadcasters*, —— FCC 2d ——, 31 RR 2d 1359 (1974). Moreover, petitioner's allegations are subsumed under the previously designated *Suburban* issue.

7. The Review Board believes that the petitioner has not raised a substantial question of misrepresentation. First, although Pulley inaccurately described his personal involvement in the ascertainment process, we are unable to discern any motive for misrepresentation. In this regard, we fail to find any basis for questioning Pulley's expressed intent to hire, and his subsequent employment of, Wilkins in a management-level capacity, nor the legitimacy of Wilkins' ascertainment efforts. Accordingly, in our opinion, Wilkins' affidavit adequately answers the six affiants who swear that they were not interviewed "as stated." These six affidavits appear to have been prompted by Pulley's misleading statement as to his interviewing procedure. Moreover, of the three contactees who unequivocally denied being interviewed, Moore and Stanley have repudiated their original affidavits. In such circumstances, where a relatively small percentage of an applicant's interviews have been challenged, the Commission has consistently held that a misrepresentation issue is unwarranted. See, *e.g., CBS, Inc. (WCAU–TV)*, FCC 74R–444, —— FCC 2d ——, released December 18, 1974, and cases cited therein. Moreover, we believe that this single contradiction might well be accounted for by the possible passage of time or because of the cursory nature of the interview. Accordingly, in the absence of motive for fabrication for this single inaccuracy, the requested misrepresentation issue will be denied.

SITE SUITABILITY

8. Petitioner's request for a site suitability issue is based on his assertion that Pulley's proposed site, which is irregular in shape with dimensions of approximately 282, 141, 231, and 300 feet, is too small to contain Pulley's proposed 330 foot guyed-type tower because the guy wires will reach beyond the borders of Pulley's site.[6] Elliott attaches his own affidavit, stating, as a "First-Class Engineer," that the site is unsuitable and incorporating by reference a manufacturer's specifications for a tower of similar dimensions. The latter information, according to Elliott, demonstrates that to properly guy Pulley's proposed tower, the site's dimensions would have to be at least 400 feet by 450 feet. Elliott further argues that should the proposed tower fall, it would land on adjacent power lines, an appliance store, or a public highway, potentially causing extensive damage or personal injury.

9. Pulley, in opposition, states on information and belief that his proposed site is suitable but "nonetheless [he] has secured the written permission" of the owner of the property to the west of the proposed site for installation of guy wires.[7] The Broadcast Bureau opposes addition of the issue on the grounds that the petition lacks specificity.

10. In reply, Elliott asserts that even if Pulley places guy wires over the easement to the west of the site, he has not shown that he will be able to locate guy wires on the remaining sides. As evidence of Pulley's alleged inability, Elliott attaches the affidavit of the owner of the property located to the east of the proposed site who states that he will not permit "any wires, cables or anchors to be permanently placed" on his property. Moreover, Elliott contends that guy wires cannot be placed to the south of the site because of an obstructing highway and lake.

11. The Review Board will add the requested issue. Pulley has not effectively answered Elliott's objections concerning the capacity of his site to accommodate the necessary guy wires. Thus, Pulley has made no showing that, even with the use of the easement to the west of his proposed site, a sufficient guy wire system could be installed and his tower proposal effectuated. Assuming, arguendo, that Pulley could obtain further easements on adjacent properties, a substantial question would continue to exist as to whether the guy wires could be installed so as to avoid the indicated power lines, telephone cables, and highway. In view of the foregoing and the substantial questions raised in the pleadings, the Board finds that the matter may be best resolved in an evidentiary hearing.[8] See *Rocket Radio, Inc.*, —— FCC 2d ——, 31 RR 2d 1696 (1974); *Athens Broadcasting Co., Inc.*, 11 FCC 2d 559, 12 RR 2d 285 (1968).

REPEATED VIOLATIONS ISSUE

12. Elliott points out that by Memorandum Opinion and Order, 29 FCC 2d 860, 21 RR 2d 1234 (1971), the Commission found that Pulley, t/a Pepin County Broadcasting Company, by failing to timely file his application for renewal of license for Station WRDN, had violated § 1.539(a) of the Commission's rules. Additionally, Elliott contends that Pulley served as general manager of Station KDAN and as an officer of its licensee during a period of time when that station, violating Commission regulations, delayed filing its rate card and paying its annual license fees. These past repeated violations, contends the petitioner, cast serious doubt on Pulley's qualifications to be a Commission licensee.

13. In the Board's view, Elliott's allegations concerning Pulley's operational violations do not warrant the addition of the requested issue. Two of the three bases upon which Elliott predicates his request must be rejected. Thus, we note that petitioner has not shown, and we cannot presume, that Pulley was officially

[6] The sketch that Elliott attaches depicts adjacent power lines and a highway and shows a telephone cable crossing the site. Pulley does not dispute Elliott's description.

[7] A copy of the agreement is attached to the opposition pleading. Included is a simple sketch showing the adjacent property, which does not, however, include the size or exact relationship of the easement to the proposed site.

[8] Elliott's arguments as to the potential for falling of Pulley's proposed tower are without foundation and no further investigation into that matter is warranted. No indication that the proposed tower would not be structurally sound has been provided, nor has any evidence been proffered that there is any potential violation of local zoning or construction ordinances.

responsible for or involved in Station KDAN's delay in filing its rate card or paying its license fees. Moreover, on the basis of the pleadings before us, the Board cannot conclude that Pulley's failure to timely file his renewal application was a sufficiently serious violation to draw the applicant's reliability into question.

14. Accordingly, *it is ordered*, That the petitions to enlarge issues, filed October 23, 1974, by A. C. Elliott, Jr., are granted to the extent indicated herein, and are denied in all other respects; and

15. *It is further ordered*, That the issues in this proceeding are enlarged by the addition of the following issue: To determine whether the transmitter site proposed by Melvin Pulley is suitable for erection of his proposed tower.

16. *It is further ordered*, That the burden of proceeding with the introduction of evidence and the burden of proof under the issue added herein shall be upon Melvin Pulley.

Adopted: February 4, 1975.

Released: February 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-4061 Filed 2-12-75;8:45 am]

[Docket Nos. 20341, 20342. File Nos. BPH-8052, BPH-8398]

KILGORE BROADCASTING CO. AND RADIO KILGORE, INC.

Designating Applications for Consolidated Hearing on Stated Issues

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has before it: i) the above-captioned applications for a new FM station in Kilgore, Texas; ii) motions, filed by KXOL, Inc. [KXOL], licensee of KXOL–FM, Fort Worth, Texas, to defer consideration of the two applications; iii) an opposition to the motion to defer consideration, filed by Radio Kilgore, Inc. [RKI], and a reply thereto.

2. KXOL has filed a petition for rule making, seeking to exchange channel 240, presently assigned to Kilgore, and channel 257, presently assigned to Tyler, Texas. In light of this pending proceeding, Docket No. 20139, KXOL seeks either to defer any action on the instant applications, or to impose on the successful party a condition regarding the outcome of the rule making. Further delay of the instant proceeding would not be warranted, and KXOL's request for such delay will be denied. However, KXOL's request for imposition of a condition is reasonable, and a condition will be specified requiring the successful permittee to operate on channel 257 in the event that that channel is subsequently assigned to Kilgore.

3. In the financial portion of its amended application, Kilgore Broadcasting Company [KBC] indicates that it will require a total of $41,714 to construct and operate the proposed facility for a period of one year, without revenue, itemized as follows:

Down payment on equipment (15% of $20,696)	$3,105
Twelve months' payments on equipment principal	3,518
Twelve months' interest on equipment principal balance	968
Interest on $35,000 loan at 10%	3,500
Miscellaneous	4,270
Working capital	24,105
Items not covered in manufacturer's letter of credit	2,248
Total	$41,714

To meet this requirement KBC relies on $5,000 of new capital and a $35,000 loan from Floyd Addington, a partner.[1] Of course, if all these funds were available, the applicant would have only $40,000, or $1,714 less than required. In addition, the new capital will be derived from $2,500 contributions to the partnership by each of the two partners. However, the balance sheet of Thomas H. Spurlock does not indicate that he has sufficient liquid assets in excess of current liabilities to meet a $2,500 commitment. In addition, although Addington has sufficient liquid assets over current liabilities to meet his $2,500 commitment to the partnership, he does not have enough over and above that amount to support the additional $35,000 loan commitment. Thus, that loan cannot be considered as an available source of funds. As a result, the applicant has established the availability of only $2,500 to meet a $41,714 requirement. Further, we note that the letter of credit from the equipment manufacturer on which KBC relies was submitted in August 1972, with the original application. Since no further information has been submitted, our cost analysis is based in part on the figures contained in that letter. However, it is possible that more current information will alter these totals somewhat. In light of all of the above, the applicant has failed to establish its financial qualifications, and an appropriate issue will be specified.

4. KBC's application is also deficient with respect to the applicant's ascertainment of the needs and problems of Kilgore. The applicant has in effect submitted two surveys of the Kilgore general public. The first survey was conducted by "the applicant." Such identification is inadequate when the applicant is a business organization. However, this term is defined in an amendment as Spurlock and his wife, Mrs. Spurlock, "at the time of the filing preparation, was a prospective employee" of the applicant. In relevant part, question and answer 11(b) of the Commission's Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), require that such surveys be conducted by principals, management-level employees, or prospective management-level employees of the applicant. Employees or prospective employees below management level may also conduct these interviews, if they are acting under the supervision of principals or management-level employees, current or prospective. Since the nature of Mrs. Spurlock's position is not defined precisely, and since there is no indication that she was acting under the supervision of Mr. Spurlock, it is not clear that KBC's first general public survey was in compliance with the Commission's requirements. KBC's second general public survey was conducted totally by Mr. Spurlock. However, the applicant does not describe the methodology used to assure randomness in this survey, nor does it indicate the number of interviews actually conducted. Thus, the Commission cannot determine whether the requirements of questions and answers 13(b) and 14 have been satisfied. Question and answer 11(a) of the Primer requires that interviews with community leaders be conducted by principals, management-level employees, or prospective management-level employees of the applicant. KBC merely states that the leader interviews were conducted by "the applicant." As noted, KBC specifies elsewhere in its application that the term "the applicant" includes Mr. and Mrs. Spurlock. Since Mrs. Spurlock has not been designated as a prospective management-level employee, it is apparent that she may not qualify as an appropriate leader interviewer. Thus, none of the leader interviews may be deemed valid. In addition, none of the leaders interviewed appears to be a leader or representative spokesperson of the women of Kilgore, and no leaders from outside Kilgore are included. KBC's ascertainment efforts are thus deficient in that respect. See questions and answers 13(a) and 6. KBC has also failed to indicate the dates of its leader interviews or its first general public survey, and its compliance with question and answer 15 is thus unclear. Finally, KBC has failed to indicate the time segments of its proposed programs, as required by question and answer 29. As a result of all of the above, it is not clear that KBC's efforts to ascertain the needs and problems of Kilgore are satisfactory. Accordingly, an appropriate issue will be specified.

5. RKI's application is likewise deficient with respect to its ascertainment. By incorporating by reference a transfer application and an AM renewal application, and by amending its present application, RKI has in effect submitted five ascertainment efforts. In all of these, only one black leader and one industrial representative are included. While no fixed number or formula has been adopted regarding the representation of significant groups, RKI's survey should more nearly reflect the composition of the Kilgore community. In addition, no student leaders were interviewed. Also, although RKI indicates that it conducted some general public surveys, there is no indication of the methodology used to assure a random sample in any of its surveys. Further, the individuals who

[1] KBC included a $30,000 bank loan in its original financial showing. However, by its own terms, that loan offer expired on August 9, 1973. The applicant does not indicate that the offer has been renewed, and thus it will not be considered further.

XUM
V40-31 FEB 13 75 F
XUM

conducted the general public survey described in an amendment submitted in November 1974, are not appropriately identified, as required by question and answer 13(b). Accordingly, an issue will be specified.

6. The tower proposed by RKI would be located approximately 1,150 feet from the tower of standard broadcast station KOCA, Kilgore. A grant of this application should contain a condition requiring measurements to show that the signal pattern of KOCA has not been distorted by the tower to be erected.

7. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

8. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to the application of Kilgore Broadcasting Company:

a) Whether the applicant's estimate of its equipment costs is accurate;

b) The availability of funds over and above $2,500 with which to meet the costs of construction and operation; and

c) Whether, in light of the evidence adduced pursuant to (a) and (b), above, the applicant is financially qualified.

2. To determine the efforts made by both Kilgore Broadcasting Company and Radio Kilgore, Inc., to ascertain the community problems of the area to be served and the means by which the applicants propose to meet these problems.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

9. *It is further ordered*, That whichever application is granted will be subject to the applicant's acceptance of any modification requiring use of a channel other than channel 240 as a result of whatever action may be required with respect to the outcome of the rule making proceeding in docket No. 20139.

10. *It is further ordered*, That in the event of a grant of the application of Radio Kilgore, Inc., the construction permit shall contain the following condition: Before and after construction of the antenna structure and prior to issuance of program test authority measurements must be taken to establish that the signal pattern of KOCA has not been distorted by the tower proposed by Radio Kilgore, Inc.

11. *It is further ordered*, That the motion to defer consideration filed by KXOL, Inc., is granted to the extent indicated above and is denied in all other respects.

12. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

13. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible, and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: February 5, 1975.

Released: February 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.75-4060 Filed 2-12-75;8:45 am]

[Docket Nos. 20347, 20348. File Nos. BPTTV-4955, BPTTV-4985.]

WYNECO COMMUNICATIONS, INC. AND HARRISCOPE BROADCASTING CORP.

Designating Applications for Consolidated Hearing on Stated Issues

1. The Commission, has before it for consideration the above-captioned applications of Wyneco Communications, Inc., licensee of station KYCU-TV, channel 5, Cheyenne, Wyoming (ABC/CBS), and Harriscope Broadcasting Corporation, licensee of station KTWO-TV, channel 2, Casper, Wyoming (3 networks), each seeking a construction permit for a new 100-watt VHF television broadcast translator station to serve Laramie, Wyoming, on assigned and unused channel 8.[1] Wyneco Communications is now the licensee of translator station K70CF, Laramie, Wyoming, the authorization for which would be surrendered in the event of a grant of Wyneco's application for a 100-watt VHF translator in Laramie. Laramie is within the predicted Grade B contour of station KYCU-TV, but is outside the predicted Grade B contour of any other television station. Channel 8 is the only channel assigned to Laramie in the Television Table of Assignments (§ 73.606 of the Commission's rules).

2. The applications are mutually exclusive because operation of the stations as proposed would result in mutually destructive interference and a comparative hearing is therefore required. Over the years, the Commission has endeavored, in comparative hearings involving translator applications, to frame meaningful issues, with indifferent success. In the past, one of the issues has been to determine which of the applications represents the better prospect for evolution into a regular television station. Such an issue in this case would be inappropriate because neither applicant would qualify for operation of a regular television station on a channel reserved for noncommercial educational use. An issue on comparative coverage is not feasible because the rules provide no means for computing translator predicted contours. Because of this lack of meaningful issues upon which a choice between competing translator applicants can be based, we expect the Administrative Law Judge to exercise wide latitude in according weight to the preferences of the residents of the area and in admitting evidence which may be helpful in reaching a decision. To enable the hearing to be conducted in this manner, we will, as usual, provide for a hearing in Laramie.

3. We find that the applicants are qualified to construct, own, and operate the translator station proposed by each. The Commission, however, is unable to make the statutory finding that grant of the applications would serve the public interest, convenience and necessity and is of the opinion that the applications must be designated for hearing in a consolidated proceeding upon the issues set forth below.

4. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of Wyneco Communications, Inc., and Harriscope Broadcasting Corporation, are designated for hearing in a consolidated proceeding, upon the following issues:

1. To determine the availability of television service to Laramie, Wyoming, and the contiguous area, including cable television service.

2. To determine, on a comparative basis and in the light of the evidence adduced pursuant to the foregoing issue, which, if either, of the proposals would provide the better quality technical service, a wider diversity of unduplicated programming, and non-network programming of particular interest to the community.

3. To determine which of the proposals would better serve the public interest, convenience and necessity.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

5. *It is further ordered*, That the hearing shall be held in Laramie, Wyoming, at a time and before an Administrative Law Judge to be specified in a subsequent Order.

6. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: January 29, 1975.

Released: February 7, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-4062 Filed 2-12-75;8:45 am]

[1] Channel 8 is reserved for noncommercial educational use, but operation of a commercial translator on the channel is consistent with, and subject to, the policy promulgated by the Commission in paragraph 10 of the *Report and Order* in Docket No. 18861 (36 FR 19588, 23 RR 2d 1504, released October 5, 1971).

FEDERAL ENERGY ADMINISTRATION

REFINERS BUY-SELL LIST

Crude Oil Allocation Notice

Pursuant to the authority of the Emergency Petroleum Allocation Act of 1973 and E.O. 11790, 39 FR 23185, and in accordance with the provisions of 10 CFR 211.65, the notice specified in § 211.65(e) is hereby published. The notice lists the sales obligations and purchase opportunities for refiners for the allocation quarter commencing March 1, 1975.

The buy-sell list is set forth as an appendix to this notice. Included as part of the list, as required by § 211.65(e), are: the quantity of crude oil each refiner-buyer is eligible to purchase, the total allocation obligation for all refiner-sellers, the fixed percentage share for each refiner-seller and the quantity of crude oil that each refiner-seller is obligated to offer for sale to refiner-buyers. The sales obligation of each refiner-seller reflects the adjustments provided for by § 211.65(d)(3).

The buy-sell list is applicable for the period March 1, 1975 to May 31, 1975. The provisions of 10 CFR 211, Subpart C, apply to all transactions made under the buy-sell list.

The buy-sell list covers PAD district I barrels of 42 gallons each, for the specified period. Pursuant to § 211.65(d), refiner-sellers are required to offer the amount of crude oil listed by their names for sale to refiner-buyers. Under § 211.65(a), refiner-buyers have the opportunity to purchase crude oil up to the amounts listed by their names.

The procedures of 10 CFR 211, Subpart C, applicable to transactions under the buy-sell list provide that if a sale is not agreed upon by February 28, 1975, a refiner-buyer that has not been able to negotiate a contract to purchase crude oil may request FEA to direct one or more refiner-sellers to sell a suitable type of crude oil to such refiner-buyer. Such a request must be made within 30 days of the publication of this notice. Upon such request, FEA may direct one or more refiner-sellers which have not sold their allocation quarter quantity to sell crude oil to the refiner-buyer. If the refiner-buyer declines to purchase the crude oil specified by FEA, the rights of that refiner-buyer to purchase that volume of crude oil are forfeited during this allocation quarter, providing that the refiner-seller or refiner-sellers in question have fully complied with the provisions of Subpart C. Refiner-buyers making such request must provide the FEA with the following information:

1. Name of the refiner-buyer and of the person authorized to act for the refiner-buyer in buy-sell list transactions.

2. Names and locations of the refineries for which crude oil is sought, the amount of crude oil sought for each refinery, and the technical specification range of crude oil which can be processed in each refinery.

3. Names and locations of all refiner-sellers from which crude oil has been sought under the buy-sell list and the volume and specification of the crude oil sought from each.

4. Statement of any restrictions, limitations or constraints on the refiner-buyer's purchases of crude oil, with particular respect to manner or time of deliveries and price.

5. The response of each refiner-seller to which a request to purchase crude oil has been made, and the name and telephone number of the individual contacted at each such refiner-seller.

6. Such other pertinent information as FEA may request.

When a refiner-seller is directed by FEA to sell crude oil to a refiner-buyer, it is expected that every reasonable effort will be made to consummate a transaction. Upon either termination of negotiations or consummation of a transaction, FEA shall be advised of the outcome by both parties.

Each refiner-buyer and refiner-seller will report the details of each transaction under the buy-sell list to FEA on Form 903 (1-74).

Refiner-buyers wishing to receive an allocation in the allocation quarter commencing June 1, 1975, with respect to future refining capacity (as defined in 10 CFR 211.62) that is not presently taken into account in determining their respective purchase opportunities, must apply to the FEA for certification of that capacity and provide all necessary information required to enable FEA to evaluate the factors set forth in 10 CFR 211.65(b)(1) no later than March 31, 1975.

All reports and applications made under this notice should be addressed to:

Fuel Manager, Crude Oil, Federal Energy Administration, Code 10, Washington, D.C. 20461.

Issued in Washington, D.C., February 10, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

APPENDIX

The list of refiner-sellers and refiner-buyers for the period March 1, 1975, through May 31, 1975, is as follows. The list sets forth the identity of each refiner-seller and refiner-buyer, the fixed percentage share of each refiner-seller, and the volumes of crude oil (reflecting all adjustments required under § 211.65) that each such refiner-seller or refiner-buyer is either obligated to offer for sale or is eligible to purchase, as the case may be.

FEDERAL POWER COMMISSION

[Docket No. CI75-442]

BASS ENTERPRISES PRODUCTION CO.

Application

FEBRUARY 5, 1975.

Take notice that on January 28, 1975, Perry R. Bass and Bass Enterprises Production Company (Applicants), 3100 Ft. Worth National Bank Bldg., Fort Worth, Texas 76102, filed in Docket No. CI75-442 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) from the Los Medanos Field, Eddy County, New Mexico, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicants state that they commenced an emergency sale of gas to Natural from the subject acreage on January 16, 1975,[1] for sixty days within the contemplation of Section 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and propose to continue said sale for a period of two years after the expiration of the emergency period pursuant to a certificate conditioned to the applicable nationwide rate promulgated in § 2.56a of the Commission's general policy and interpretations (18 CFR 2.56a), within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicants estimate deliveries at 5,000 Mcf per day.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 27, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3998 Filed 2-12-75;8:45 am]

[1] The contract for said emergency sale was dated September 23, 1974.

[Docket No. E-9174]

CEI—PJM GROUP

Interconnection Agreement

FEBRUARY 6, 1975.

Take notice that on December 13, 1974, The Cleveland Electric Illuminating Company (CEI) and the Pennsylvania-New Jersey-Maryland Group (PJM Group) tendered for filing proposed Schedule 8.02 dated December 11, 1974, to the Interconnection Agreement between them dated September 30, 1965, which is filed with the Commission under the following Rate Schedule designations:

Company	FPC Rate Schedule—FPC No.
The Cleveland Electric Illuminating Co	4
Public Service Electric and Gas Co	38
Philadelphia Electric Co	29
Pennsylvania Power & Light Co	44
Baltimore Gas and Electric Co	19
Potomac Electric Power Co	24
Pennsylvania Electric Co	49
Metropolitan Edison Co	29
Jersey Central Power & Light Co	24

The proposed Schedule expands the provisions for Fuel Conservation Energy transactions by making provision and specifying charges for the generation of Fuel Conservation Energy by the PJM Group for CEI and the delivery by the PJM Group to CEI of such energy from other systems. CEI and PJM state that the proposed fixed charges for such services were arrived at through negotiation and are the same as specified in other Fuel Conservation Energy filings by the PJM Group. Because of the current uncertainty of fuel supplies and the possibility that transactions will be required imminently under the proposed Schedule, the Parties have requested that the Commission waive its notice requirements and that the proposed Schedule become effective December 1, 1974. It shall remain in effect until December 31, 1975 unless extended by the Parties. No new facilities will be installed nor will existing facilities be modified in connection with the proposed Schedule.

Any person desiring to be heard or to make any protest with reference to the subject matter of this notice, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before February 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the documents referred to herein are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4025 Filed 2-12-75;8:45 am]

[Docket No. E-9243]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Filing of Purchase Agreement and Request for Waiver

FEBRUARY 6, 1975.

Take notice that on January 31, 1975, Central Vermont Public Service Corporation (Central Vermont) tendered for filing a Purchase Agreement with respect to Vermont Gas Turbines between the City of Burlington (Burlington), the Green Mountain Power Corporation (Green Mountain), and the Niagara Mohawk Power Corporation (Niagara), and the Vermont Electric Power Company, Inc. (Velco), dated as of November 21, 1974. Certificates of Concurrence on behalf of Green Mountain and Burlington were also tendered as part of the filing.

Central Vermont states that service under the rate schedule described above commenced at 12:01 a.m. on December 2, 1974 and shall continue through December 22, 1974, and on a week-to-week basis thereafter, unless terminated on one week's notice, but shall continue no later than February 16, 1975. However, the Purchase Agreement may be extended after the end of the term by written, mutual agreement between Central Vermont, Burlington, and Green Mountain (sellers) and Niagara (buyer).

Central Vermont further states that it has mailed copies to all interested parties.

A waiver of the notice requirements of the Commission's regulations is requested to allow an effective date of December 2, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4000 Filed 2-12-75;8:45 am]

[Docket No. E-9245]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Filing of Purchase Agreement and Request for Waiver

FEBRUARY 6, 1975.

Take notice that on January 31, 1975, Central Vermont Public Service Corporation (Central Vermont) tendered for filing a Purchase Agreement with respect to Ascutney, Berlin and Essex, Vermont gas turbines between the Green Mountain Power Corporation (Green Mountain) and Central Vermont, sellers, and the Public Service Company of New Hampshire (PSCNH), buyer, dated as of October 1, 1974. A Certificate of Concurrence on behalf of Green Mountain was also tendered as part of this filing.

Central Vermont states that service under the rate schedule described above commenced at 11:59 p.m. on October 31, 1974, and will end at 11:59 p.m. on April 30, 1975.

Central Vermont further states that copies of this filing have been mailed to all interested parties.

A waiver of the notice requirements of the Commission's regulations is requested to allow an effective date of November 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3999 Filed 2-12-75;8:45 am]

[Docket No. E-8885 and E-8546]

CINCINNATI GAS AND ELECTRIC CO.

Further Extension of Procedural Dates

FEBRUARY 6, 1975.

On January 30, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued August 30, 1974, as most recently modified by notice issued November 14, 1974, in the above-designated matter. The motion states that the company has been notified and has no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of staff's testimony	April 7, 1975.
Service of intervenor's testimony	April 21, 1975.
Service of company rebuttal	May 5, 1975.
Hearing	May 19, 1975 (10 a.m. e.d.t.)

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-186]

CITIES SERVICE GAS CO.

Petition to Amend

FEBRUARY 6, 1975.

Take notice that on January 30, 1975, Cities Service Gas Company (Petitioner), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP74-186 a petition to amend the order of the Commission issued July 15, 1974, in the subject docket pursuant to section 7(b) of the Natural Gas Act permitting and approving abandonment of facilities and service so as to delete the authorization to abandon service to one direct sale customer, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that the direct sale customer, a farm-ranch management facility of the Southeast Kansas Area Vocational-Technical Training School located near Coffeyville in Montgomery County, Kansas, was unable to obtain an alternate source of fuel after Petitioner had notified it of its intention to abandon the segment of pipeline from which it was being served and Petitioner was able to disconnect this service from the facilities being abandoned and reconnect it to its Grabham 16-inch pipeline in Montgomery County, Kansas. The petition states that this connection was made under "budget-type" certificate authority granted in Docket No. CP74-154.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 28, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-65; PGA 75-3A]

COLUMBIA GAS TRANSMISSION CORP.

Request for Delayed Effective Date for PGA Rate Adjustment

FEBRUARY 6, 1975.

On January 30, 1975, Columbia Gas Transmission Corporation (Columbia) filed a request to delay the effectiveness of one of its proposed PGA rate increases which was approved by letter order dated

XUM V40-31 FEB 13 75 XUM

January 23, 1975. The request is set out in Columbia's filing as follows:

On November 25, 1974, Columbia Gas Transmission Corporation (Columbia) submitted for filing, pursuant to section 20 of Columbia's FPC Gas Tariff, a proposed rate change effective January 1, 1975, reflecting increased cost of gas purchased from Texas Eastern Transmission Corporation and Tennessee Gas Pipeline Company, likewise effective January 1, 1975. Subsequent thereto, Columbia was advised that Texas Eastern was modifying its proposed rate levels and, as a result thereof, Columbia, on December 23, 1974, revised its filing of November 25, to incorporate the changes being reflected by Texas Eastern in its proposed January 1, 1975 rate levels.

The Commission, by letter dated January 23, 1975, approved the aforesaid rate change effective January 2, 1975. Columbia is advised that certain of its customers will not be able to reflect the impact of Columbia's increased rates, effective January 2, 1975, but only on a prospective basis from and after the date of the Commission's approval, i.e., January 23, 1975. Obviously, the inability of Columbia's customers to "flow-through" these gas purchase increases on a matching and timely basis to their retail customers will have a significant impact on their earnings.

In view of the foregoing, Columbia believes that a reasonable administrative expedient is necessary in this matter to preserve the effectiveness of the various rate changes involved and to preclude an adverse earnings impact upon Columbia's customers. Therefore, Columbia proposes to charge the difference between the prior and proposed rates, as it affects its sales from January 2, 1975 through January 31, 1975, to its unrecovered purchased gas cost account (Account 191) and to bill at the proposed rates effective February 1, 1975.

Columbia recognizes that the aforementioned proposal is not contained in the specific tariff provisions of Columbia's FPC Gas Tariff. However, Columbia respectfully suggests that its proposal is a prudent and workable resolution of a present administrative difficulty.

All parties wishing to comment upon the proposed request should file such comments on or before February 19, 1975, with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. A copy of Columbia's filing is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4003 Filed 2-12-75;8:45 am]

[Dockets Nos. RP71-59 and RP72-53]

EAST TENNESSEE NATURAL GAS CO.

Report of Refunds

FEBRUARY 6, 1975.

Take notice that on November 11, 1974, East Tennessee Natural Gas Company (East Tennessee) filed a report of refunds totalling $756,520, including principal and interest, made to its jurisdictional customers in Dockets Nos. RP71-59 and RP72-53.

East Tennessee states that since January 10, 1971, in Docket No. RP71-59 and since November 14, 1971 in Docket No. RP72-53, it has been collecting rates based on rates of its supplier, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) in Dockets Nos. RP71-57 and RP72-51 respectively. East Tennessee states that Tennessee's rates had been based on rates of its producer-suppliers resulting from the Commission's lifting of the moratorium in the Southern Louisiana area and the Commission's subsequent determination of just and reasonable rates for the Southern Louisiana area in Opinion Nos. 598 and 598-A.

East Tennessee states that on October 15, 1974, Tennessee made refunds in Dockets Nos. RP71-57 and RP72-51 which Tennessee stated resulted from the Supreme Court's affirmance of Opinion Nos. 598 and 598-A in "Mobil Oil Corp. v. F.P.C.," 94 S.Ct. 2328 (1974), finally determining the applicable lawful rate for the Southern Louisiana area. Accordingly, East Tennessee states that it has made refunds in Dockets Nos. RP71-59 and RP72-53 on November 11, 1974, by means of a credit to the invoices of its customers to flow-through the jurisdictional portion of the refunds received from Tennessee.

East Tennessee states that these refunds from Tennessee covered amounts collected during the period from January 10, 1971, through July 15, 1973. East Tennessee states that Tennessee would refund amounts collected during the period beginning July 16, 1973, by means of a credit to the deferred account under its PGA clause which became effective that date in Docket No. RP73-114. Therefore, East Tennessee states those refunds will be reflected in East Tennessee's next PGA filing tracking a PGA increase of Tennessee.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 24, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4004 Filed 2-12-75;8:45 am]

[Docket No. RP71-14]

EL PASO NATURAL GAS CO.

Flow Through of Refunds

FEBRUARY 6, 1975.

Take notice that on December 2, 1974 Southwest Gas Corporation (Southwest) tendered for filing with the Commission a report of refunds flowed through to its jurisdictional customers of refunds received from El Paso Natural Gas Compant (El Paso). Southwest states that it refunded $746,649.17 principal and $89,292.30 interest in the above mentioned docket.

Any person desiring to make a comment upon said filing should do so by writing to the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. All such comments should be filed by February 24, 1975. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4005 Filed 2-12-75;8:45 am]

[Dockets Nos. RP72-155, RP73-104, and RP74-57]

EL PASO NATURAL GAS CO.

Purchased Gas Cost Account

FEBRUARY 6, 1975.

On January 6, 1975, El Paso Natural Gas Company (El Paso) tendered for filing certain substitute revised tariff sheets [1] to its FPC Gas Tariff in substitution for said sheets' respective counterparts currently on file with the Commission in Dockets Nos. RP72-155, RP73-104, and RP74-57. El Paso states that the tariff sheets that would be superseded by the instant filing became effective at various times during the period November 2, 1973, through December 2, 1974. The Company further states that the sole purpose of the instant filing is to change the average purchased gas cost stated on the existing sheets to correct an accounting error previously made. El Paso does not propose to change any currently effective rates or any rates that were effective during the period of time for which the adjustment is made.

According to El Paso, the error necessitating the instant filing was made in the Company's computation of its weighted average purchased gas costs. As a result of such error, El Paso states, Account 191, Unrecovered Purchased Gas Cost, is under-accrued in the amount of approximately $6.7 million for the period November 2, 1973, through June 30, 1974. Acceptance of this filing would permit

[1] First Substitute Eleventh Revised Sheet No. 3-B, Substitute First Substitute Eleventh Revised Sheet No. 3-B, Substitute First Substitute Twelfth Revised Sheet No. 3-B, Substitute Thirteenth Revised Sheet No. 3-B, and Substitute Fourteenth Revised Sheet No. 3-B, to FPC Gas Tariff, Original Volume No. 1; Substitute Original Sheet No. 1-D, Substitute First Revised Sheet No. 1-D, First Substitute Second Revised Sheet No. 1-D, Substitute Third Revised Sheet No. 1-D and Substitute Fourth Revised Sheet No. 1-D to FPC Gas Tariff, Third Revised Volume No. 2; and Substitute Second Revised Sheet No. 1-C, Substitute Third Revised Sheet No. 1-C, First Substitute Fourth Revised Sheet No. 1-C, Substitute Fifth Revised Sheet No. 1-C and Substitute Sixth Revised Sheet No. 1-C to FPC Gas Tariff, Original Volume No. 2A.

El Paso to book additional unrecovered purchased gas costs of $6,736,452 as of December 31, 1974.

Notice of El Paso's filing was issued on January 20, 1975, with comments, protests or petitions to intervene due on or before January 31, 1975. To date, no comments, protests or petitions have been received.

Our review indicates that, contrary to El Paso's statement, the Company did not err in computing its weighted average purchased gas cost. We have found, however, that El Paso erred in computing the "current adjustment" portion of the overall adjustment required to reflect changes in the cost of purchased gas. Specifically, El Paso has understated the "current adjustment" because of its failure to reflect in such adjustment increased purchased gas costs associated with changes in El Paso's purchase patterns. It is this error, our study indicates, that has resulted in Account 191 being under-accrued for the period November 2, 1973, through June 30, 1974, in the amount of $6,736,452. Thus, although we disagree with the Company on the issue of what computational error was actually made, we do agree as to the amount by which Account 191 was under-accrued as of June 30, 1974. Therefore, in light of our stated objective of permitting companies to recover in full their purchased gas costs,[2] we believe that El Paso should be permitted to file tariff sheets accurately reflecting its unrecovered purchased gas costs for the period in question, and to book an additional $6,736,452 to Account 191 as of December 31, 1974. Accordingly, the tendered tariff sheets shall be accepted for filing and permitted to become effective on the dates indicated thereon for the sole purpose of correcting the error indicated above.

The Commission finds. (1) Good cause exists to accept for filing the tariff sheets listed in footnote "1" of this order, and to permit said sheets to become effective on the respective dates indicated thereon.

(2) Good cause exists to permit El Paso to book an additional $6,736,452 to Account 191 as of December 31, 1974, for the reasons set forth in this order.

The Commission orders. (A) The subject tariff sheets tendered by El Paso on January 6, 1975, are hereby accepted for filing and permitted to become effective on the respective dates indicated thereon.

(B) As of December 31, 1974, El Paso shall book an additional $6,736,452 to Account 191 for the reasons set forth hereinabove.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4006 Filed 2-12-75;8:45 am]

[2] See Order No. 452, issued April 14, 1972, Order No. 452-A, issued June 13, 1972, and Order No. 452-B, issued January 8, 1973, in Docket No. R-406.

[Docket No. RP72-155]

EL PASO NATURAL GAS CO.

Order Granting Motion for Waiver of Notice Requirements

FEBRUARY 6, 1975.

On January 13, 1975, El Paso Natural Gas Company (El Paso) filed with this Commission a motion which requested that we grant a one-time waiver of the filing date requirements of § 154.38(d)(4)(v) of our regulations under the Natural Gas Act, and § 19.9 of El Paso's FPC Gas Tariff, Original Volume No. 1 to allow El Paso to include the effect of Opinion 699H increases in its next PGAC filing. El Paso cites Opinion No. 699H which accorded producers the right to file notices of rate changes pursuant to certain provisions of that Opinion on or before January 31, 1975 and accorded gas transmission companies the right to file a special one-time PGAC filing, on or before March 3, 1975, to reflect the effect of the producer increases. El Paso also points out that pursuant to its currently effective PGAC clause and our regulations it is to file for its next regularly scheduled PGAC adjustment no later than February 14, 1975, to become effective April 1, 1975. El Paso requests that it be granted a waiver of such 45 day filing requirements to allow it to file for its PGAC adjustment no later than February 28, 1975, to be effective April 1, 1975, so that it will be able to include within that filing those producer increases filed pursuant to Opinion No. 699H.

In support of its motion El Paso argues that its proposal would (1) eliminate the necessity of tendering two rate change filings within 45 days; (2) eliminate the possibility that, because the effective date of the special one-time Opinion No. 699H rate adjustment is the date of filing, the rates of certain of El Paso's customers would be deficient from that date until appropriate state Commission authorizations are received; and (3) lessen the administrative burden of rate changes on El Paso and its customers.

The Commission finds. (1) Good cause exists to grant El Paso's motion of January 13, 1975 and to allow El Paso to tender its PGAC adjustment on or before February 28, 1975 to be effective on April 1, 1975.

The Commission orders. (A) El Paso's motion to allow a one-time deviation in the 45 day filing requirement prescribed at § 154, 38(d)(4)(v) of the Commission's regulations and § 19.9 of El Paso's FPC Gas Tariff, Original Volume No. 1, so as to allow no less than 30 days notice to enable inclusion of Opinion No. 699H producer increases in its April 1 PGAC adjustment is hereby granted.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-9183]

FLORIDA PUBLIC UTILITIES CO.

Filing Change in Rate Schedule

FEBRUARY 5, 1975.

Take notice that on December 18, 1974, the Florida Public Utilities Company, tendered for filing a supplement to the contract for electric service to City of Blountstown, Florida. It is suggested that the supplement, dated July 23, 1974, with a proposed effective date of January 17, 1975, will only increase Florida Public Utilities' maximum obligation to serve the City of Blountstown from 4000 kva to 6000 kva, and does not affect any other portion of the service provided. Accordingly, it is submitted that the cost of service statement otherwise required by § 35.13(b) are not applicable and Florida Public Utilities request waiver of such provision.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before February 20, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the documents referred to herein are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9244]

GULF STATES UTILITIES CO.

New Rate Schedule Filing

FEBRUARY 6, 1975.

Take notice that on January 31, 1975, Gulf States Utilities Company (Gulf States) tendered for filing a new rate schedule. The schedule is the new contract between Gulf States and the City of Caldwell, Texas. Gulf States states that the new rate will be the same as the one to be determined in FPC Docket No. E-8121.

A copy of this filing has been sent to the City of Caldwell.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 24, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will

V40-31 FEB 1375 XUM XUM

not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-8987]

INDIANA AND MICHIGAN ELECTRIC CO.

Tariff Change

FEBRUARY 6, 1975.

Take notice that Indiana and Michigan Electric Company (I&M), on January 29, 1975, tendered for filing proposed changes in its FPC Rate Schedule No. 29 applicable to service rendered by I&M to the City of Auburn, Indiana. The proposed changes would increase revenues from Auburn by $157,564 if the proposed increases had been in effect for the twelve-month period ending December 1974.

I&M states that the proposed changes implement the contractual obligations as set forth in the Service Agreement between I&M and Auburn and have been authorized by the decision of the United States Court of Appeals for the District of Columbia Circuit in "Richmond Power and Light v. FPC", 481 F.2d 490 (1973). Copies of the filing were served upon Auburn and upon its counsel, as well as upon the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 20, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KANSAS POWER AND LIGHT CO.

Filing of Proposed Changes in Rates and Charges and Request for Waiver

FEBRUARY 6, 1975.

Take notice that on January 30, 1975, The Kansas Power and Light Company (Kansas) tendered for filing a newly executed contract dated July 15, 1974, with the City of Horton, Kansas for wholesale electric service to that community. The proposed effective date is not to be later than July 1, 1976, and Kansas requests that the Commission waive the notice requirements allowed in § 35.11 of its regulations. Kansas states that copies of the contract have been mailed to the City of Horton and the State Corporation Commission of Kansas. The contract has been executed by both parties.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KANSAS POWER AND LIGHT CO.

Proposed Changes in Rates and Charges

FEBRUARY 6, 1975.

Take notice that on January 29, 1975, The Kansas Power and Light Company (Kansas) tendered for filing a newly executed renewal contract dated January 3, 1975, with the City of Netawaka, Kansas for wholesale electric service to that community. Kansas states that this is a renewal of a similar contract dated December 7, 1964, and designated KPL Rate Schedule FPC No. 75. The proposed effective date is January 15, 1975, and Kansas requests that the Commission waive the notice requirements as allowed in § 35.11 of its regulations. According to Kansas, the net billings for the twelve months succeeding and proposed change in agreements was $11,550.04. In addition, Kansas states that copies of the contract have been mailed to the City of Netawaka and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOUISIANA-NEVADA TRANSIT CO.

Certification of Settlement Agreement

FEBRUARY 6, 1975.

Take notice that on February 3, 1975, the Presiding Administrative Law Judge in the above-referenced proceeding certified: (1) a settlement agreement between Louisiana-Nevada Transit Company (LNT) and its sole jurisdictional customer, the City of DeQueen, Arkansas (DeQueen); (2) the official stenographer's report of the formal proceedings in this docket; and (3) Exhibits 1 through 31 and Items by Reference A and B, all received in evidence. The settlement agreement was filed by LNT on January 30, 1975, and provides, inter alia, for a 34.50¢/Mcf rate to be charged during the period November 2, 1973 through February 28, 1975, and for a rate of 39.50¢/Mcf thereafter. The Presiding Administrative Law Judge states that although the Commission Staff does not object to the terms of the agreement, the Staff has reserved the right to comment on such.

Copies of this certification are on file with the Commission and are available for public inspection. Any person desiring to comment upon matters contained in this certification should file such comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before February 24, 1975.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI70-725]

MOBIL OIL CORP.

Notice of Application

FEBRUARY 6, 1975.

Take notice that on January 27, 1975, Mobil Oil Corporation (Applicant), Three Greenway Plaza East—Suite 800, Houston, Texas 77046, filed in Docket No. CI70-725 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the delivery of natural gas under a rental arrangement previously authorized in the instant docket between Applicant and Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application states that by order issued April 17, 1970, in Docket No. G-3566, et al., the Commission issued Applicant a certificate of public convenience and necessity in Docket No. CI70-725 authorizing Applicant to rent gas from Natural to be used by Applicant as operator of the Putnam-Osego Unit for pressure maintenance operations, pursuant to a gas rental contract between the parties dated May 1, 1969. Applicant indicates that the "pay-back" of rental gas volumes was completed during July 1974 as evidenced by a letter agreement between Applicant and Natural to this effect dated October 3, 1974. Applicant requests that since its May 1, 1969, gas rental contract was terminated July 31, 1974, the Commission issue an order terminating the certificate in Docket No. CI70-725 effective July 31, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI75-432]

MOBIL OIL CORP.

Notice of Application

FEBRUARY 6, 1975.

Take notice that on January 8, 1975, Mobil Oil Corporation (Applicant), Three Greenway Plaza East, Suite 800, Houston, Texas 77046, filed in Docket No. CI75-432 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) from the Tijerina-Canales-Blucher (TCB) Field, Jim Wells County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon the sale of natural gas to Natural in the TCB Field, which sale was authorized in Docket No. G-3973 and is presently made pursuant to the terms of February 15, 1950, gas sales contract comprising Applicant's FPC Gas Rate Schedule No. 415. Applicant states that under the terms of the 1950 agreement the contract was to expire twenty years from the date of initial delivery of gas which occurred December 2, 1971, and therefore, said term expired December 2, 1971. Applicant states further that said agreement was a limited volume contract which has expired under its own terms. Specifically, Applicant indicates that the 1950 contract provides that the seller was required to maintain reserves of one and one-half times those sold to Natural and that there was included in the subject contract a "Surplus Gas" provision which provides that all gas in excess of one and one-half times the then-remaining undelivered quantities is surplus gas and that Applicant is authorized to sell and deliver such surplus gas to other parties.

The application states that by letter dated March 29, 1968, Applicant and Natural agreed that, based upon a reserve determination, surplus gas then existed under the 1950 contract in the amount of at least 41,900,000 Mcf. Applicant asserts that relying on these facts it entered into a gas purchase and sales agreement with Channel Industries Gas Company (Channel), as buyer, dated April 15, 1968, under which Applicant commits all the gas from the leases covered under the 1950 agreement with Natural subject to the 1950 contract and any extensions thereof occasioned by the Federal Power Commission.

Applicant alleges that in view of the fact that it has performed under the long-term agreement with Natural all service required of it, that it has complied with all its terms, and that since 1968 Applicant's TCB Field surplus gas reserves have been contractually committed to Channel, it is appropriate to terminate service to Natural. Therefore, Applicant requests permission and approval for the abandonment of such service.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 25, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4019 Filed 2-12-75;8:45 am]

[Docket No. CP75-215]

MOUNTAIN FUEL SUPPLY CO.

Notice of Application

FEBRUARY 6, 1975.

Take notice that on January 27, 1975, Mountain Fuel Supply Company (Applicant), 180 East First South Street, Salt Lake City, Utah 84139, filed in Docket No. CP75-215 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, installation and operation of gas storage facilities in the Coalville Field, Summit County, Utah, and the rendering of storage service from said field in volumes not to exceed 200,000 Mcf per day, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it expects to experience increased firm peak-day requirements on its system during the next few years, and that the proposed Coalville storage project will make a major contribution to Applicant's ability to continue to meet the premium load requirements of its market area. Although, Applicant states, it is not experiencing a gas supply shortage at the present time, Applicant expects to avoid possible future shortages resulting from inadequacy of supplies from independent producers by, in addition to other projects, developing the Coalville Field for the purpose of being able to upgrade service to customers at the expense of so-called inferior uses of gas and to conserve available supplies by injecting additional gas into storage in a programmed, orderly manner. Applicant further states that the Coalville storage project will assist in alleviating the impact of expected curtailment by Northwest Pipeline Corporation (Northwest), one of Applicant's suppliers, which faces problems in supply resulting from developments affecting the supply of gas from Canada. Applicant further states that the cost of development of the storage project, $20 per Mcf of expected storage deliverability, is small in relation to the benefits to Applicant's customers. If the successful development of the Coalville field precedes Applicant's need for the entire capacity thereof, Applicant intends to make storage deliverability available to other distributors in the Northwest area on days during the build-up period of the Coalville field when deliverability from the field exceeds the requirements of Applicant's customers.

Applicant relates that it began the investigation and development of the Coalville Storage Field in 1972 pursuant to budget-type authorization for the testing and development of gas storage facilities issued in Docket No. CP71-52 on February 22, 1971. As of December 31, 1973, according to the application, 1,340,141 Mcf of gas had been injected into the storage reservoir and as of October 31, 1974, the volume of gas in the reservoir was 1,653,206 Mcf. The application indicates that five wells currently exist in the field. Well Nos. 1 and 3 are used for injection and Well No. 4 for observation to monitor a zone above the storage interval for the purpose of detecting possible leakage through the cap rock. No such leakage has been found to date, Applicant states. In addition the application shows that one 600 b.h.p., skid-mounted compressor is located at the No. 1 well to inject gas into storage, that one 20,000-Mcf-per-day, skid-mounted wellhead dehydration unit is also located at the No. 1 well to remove water vapor from the gas withdrawn from storage during testing, and that approximately 1,780 feet of 3½-inch lateral pipeline exists between the No. 1 and No. 3 well to allow injections and withdrawal from the present gas bubble. The application indicates that Applicant has undertaken testing which, it is stated, demonstrates the feasibility of the Coalville project.

On August 5, 1974, Applicant filed an application for a certificate of public convenience and necessity in Docket No. CP 71-52 requesting additional budget-type authorization to spend up to $3,000,000 over a three-year period to complete testing and development in the Coalville field. Applicant states that said filing will be withdrawn upon issuance of the authorization requested in the instant application.

Accordingly, Applicant proposes the following program of development in two phases:

Phase I (estimated cost—$963,770):

(1) Drill two additional wells (Nos. 6 and 7);

(2) Equip Well Nos. 3, 5, 6, and 7 with 30,000-Mcf-per day wellhead dehydration units and use said wells for injection-withdrawal purposes;

(3) Construct approximately 1.1 mile of 6⅝-inch lateral pipeline to connect the four injection-withdrawal wells to a central header and meter facility;

(4) Construct a central meter and header facility to furnish equipment to control gas flow of the individual injection-withdrawal wells;

(5) Construct 0.8 mile of 20-inch pipeline between the central header and meter facility and Applicant's main line Nos. 1, 13 and 15 in the Coalville Station area;

(6) Relocate the 600 b.h.p., skid-mounted compressor from the No. 1 well to Coalville Station.

Phase II (estimated cost—$2,013,700):

(1) Construct Well Nos. 8, 9, 10, and 11, Well Nos. 10 and 11 to be used initially as observation wells and, perhaps, eventually for injection-withdrawal wells;

(2) Equip Well Nos. 1, 2, 8 and 9 with 30,000-Mcf-per-day wellhead dehydration units and use said wells for injection-withdrawal purposes;

(3) Construct approximately 0.9 mile of 6⅝-inch lateral pipeline to connect the four additional injection-withdrawal wells to the central header and meter station;

(4) Replace the 600 b.h.p. compressor used in Phase I with a 1500 b.h.p., reciprocating gas compressor;

(5) Automate the entire facility to allow control of both injection and withdrawal from the Gas Supply Dispatching Center.

Applicant expects the ultimate deliverability of the facility to be in excess of 200,000 Mcf of gas per day, with an ultimate capacity in the range of 35 million Mcf. Applicant states that production from the Coalville facilities will be used to serve peak day requirements of firm residential and commercial customers and that Applicant has authority under tariffs authorized by the public service commissions of Utah and Wyoming to curtail interruptible customers at any time to inject gas into storage reservoirs for ultimate use by firm customers.

Applicant further states that the proposed facilities will be financed from internal sources, treasury funds presently on hand and short-term bank borrowings as may be required.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 24, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4020 Filed 2-12-75;8:45 am]

[Docket No. E-9180]

NYPP-PJM

Interconnection Agreement

FEBRUARY 5, 1975.

Take notice that on December 16, 1974 the New York Power Pool (NYPP Group) and the Pennsylvania-New Jersey-Maryland Group (PJM Group) tendered for filing proposed Schedule 8.01 dated December 13, 1974, to the Interconnection Agreement between them dated April 9, 1974, which was tendered for filing with the Commission on June 27, 1974 and assigned Docket No. E-8876. The members of the NYPP Group are:

Central Hudson Gas & Electric Corporation
Consolidated Edison Company of New York, Inc.
Long Island Lighting Company
New York State Electric & Gas Corporation
Niagara Mohawk Power Corporation
Orange and Rockland Utilities, Inc.
Rochester Gas and Electric Corporation

The members of the PJM Group are:

Public Service Electric and Gas Company
Philadelphia Electric Company
Pennsylvania Power & Light Company
Baltimore Gas and Electric Company
Potomac Electric Power Company
Pennsylvania Electric Company
Metropolitan Edison Company
Jersey Central Power & Light Company

The proposed Schedule expands existing provisions for Fuel Conservation Energy transactions by making provision and specifying rates for the generating of Fuel Conservation Energy by either Group for the other, while continuing the provisions contained in the present NYPP-PJM Agreement dated March 26, 1974 which became effective January 1, 1974 by order of the Commission under Docket No. RM 74-22. That Agreement will be cancelled when the proposed Schedule becomes effective.

Because of the current uncertainty of fuel supplies and the possibility that transactions will be required imminently under the proposed Schedule, the parties have requested that the Commission waive its notice requirements and that the proposed Schedule become effective December 1, 1974. The proposed Scheduled shall remain in effect until December 31, 1975 unless extended by the parties. No new facilities will be installed nor will existing facilities be modified in connection with the proposed Schedule.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice should, on or before February 20, 1975 file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The documents referred to herein are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4026 Filed 2-12-75;8:45 am]

[Docket Nos. RP71-107 (Phase II) and PGA75-2]

NORTHERN NATURAL GAS CO.

PGA Proposal

FEBRUARY 6, 1975.

On January 9, 1975, Northern Natural Gas Company (Northern) tendered for filing alternate proposals of a one-time special PGA filing pursuant to Opinion No. 699-H to track increased rates pursuant to filings made by natural gas producers on or before January 31, 1975, also pursuant to Opinion 699-H. The first proposal, proposed to become effective January 9, 1975,[1] would increase the commodity portion of all of Northern's jurisdictional rates by 1.96¢ per Mcf which would result in an increase in annual jurisdictional revenues of approximately $12,165,000.

Northern's alternate proposal is to effectuate as of December 27, 1974, only 1.62¢ per Mcf of the increase and to defer the 0.34¢ per Mcf balance, together with interest at 9 percent annually, until Northern's next annual PGA filing. To effectuate this proposal, Northern proposes to effectuate alternate tariff sheets

[1] Seventh Revised Sheet No. 4a to Third Revised Volume No. 1 and Third Revised Sheet No. 502 and Sixth Revised Sheet 1c to Original Volume No. 2.

XUM
V40-31 FEB 13 75 FR
XUM

as of December 27, 1974,[3] and December 28, 1974,[4] to give effect to the suspension of Northern's annual PGA and R&D filing in the Commission's December 26, 1974, order issued in Docket Nos. RP71–107 (Phase II), PGA75–1, RP72–127, RP74–9 and R&D75–1.

The Commission's December 26, 1974, order accepted and suspended only 4.72¢ per Mcf of Northern's requested 6.34¢ per Mcf increase. The tariff sheets reflecting the remaining 1.62¢ per Mcf [5] were not accepted nor made effective [6]. However, according to Northern, Northern's customers filed to track this additional 1.62¢ per Mcf with their respective local regulatory authorities. Northern argues that its alternate proposal should be adopted because 1) a large percentage of its customers are located in states where state utility commissions are not presently regulating rates for the distribution of natural gas and thus must go before hundreds of individual town councils and boards in an attempt to establish new rates each time Northern is required to adjust its rates to reflect change in costs and 2) Northern's proposal minimizes the number of rate changes its customers must make.

Northern's filing was noticed on January 16, 1974, with all comments due on or before January 31, 1974. Comments in support of Northern's alternate proposal were filed by the Northern Distributor Group [7], Nebraska Natural Gas Company, St. Croix Valley Natural Gas Company, Muny Natural Gas Utility and Iowa Public Service Company which generally repeated the reasons given by Northern in support of its alternate proposal. The Department of Water and Gas of Duluth, Minnesota, also filed comments in support of Northern's alternate proposal, but recommended that the interest expense on the .34¢ per Mcf deferred amount "be limited to the general rate of return allowed Northern on rate base investment." Wisconsin Gas Company filed a petition to intervene, but did not request a hearing nor express any opinion as to either of Northern's proposals in the instant filing.

Comments in opposition to Northern's alternate proposal were filed by Superior Water, Light and Power Company (Superior) and the Public Service Commission of Wisconsin (Wisconsin) [8] stating that the effective date of the increase be delayed until the issue date of the FPC order approving the increase. This approach apparently is recommended so as to ensure that any action taken by the FPC on Northern's increase is consistent with Wisconsin regulatory procedure.

Our review of Northern's alternate proposal indicates that it is in the public interest and should be granted since Northern is voluntarily foregoing its right to collect all costs associated with Opinion No. 699–H rates as of January 9, 1975, as would be permitted by Opinion No. 699–H,[9] in order to accommodate a majority of its customers. We note that Northern is agreeing to forego commencing collection of .34¢ per Mcf of its increase for a full twelve month period before it begins recovering these costs on January 27, 1976,[9] and since by the time full recovery of the deferred amounts, these costs will have been in Account 191 for an average of 19 months. Moreover, our review of Northern's 1.96¢ per Mcf request indicates that it is consistent with Opinion No. 699–H.

We are not persuaded by the arguments of Superior and Wisconsin. Approval of either of Northern's proposals would be inconsistent with Wisconsin regulatory procedure. In view of this fact and in view of the fact as noted above, that the alternate proposal of Northern's helps most of Northern's customers, we find it appropriate not to adopt the suggestion of Wisconsin and Superior.

Accordingly, we shall approve Northern's alternate proposal and 1) accept 1.62¢ per Mcf of Northern's requested 1.96¢ per Mcf request effective December 27, 1974, as set forth in the alternate tariff sheets listed in Footnotes 2 and 3 of this order subject to the provisions of, inter alia, the December 26, 1974, order in Docket Nos. RP71–107 (Phase II), et al.; 2) permit Northern to accrue and defer collection of interest at 9 percent per annum on the deferred increase in the cost of purchased gas represented by the .34¢ per Mcf deferred rate increase; and 3) include in Northern's next PGA filing the deferred interest expense in 2) above.

In light of the action we are taking with respect to Northern's alternate proposal, we shall not accept for filing nor make effective the tariff sheets listed in Footnote 1 of this order which would effectuate the entire 1.96¢ per Mcf increase as of January 9, 1975.

We note, however, that our granting of Northern's request for carrying charges on the specified amounts of deferred purchased gas costs in this instance is predicated on the unusual circumstances involved in Northern's request. Therefore, we shall continue our policy of treating requests for carrying charges on amounts accumulated in a pipeline's deferred purchased gas account on a case-by-case basis.[10]

We note further that although in this instance, we chose to consider the problems of a pipeline's distributor-customers in dealing with their local regulatory authorities, our action in this case should not in any way be construed to mean that we are making such considerations determinative in making our decisions as to the appropriate effective date of PGA rate increases.[11]

The Commission finds. (1) Good cause exists to accept Northern's alternate proposal to accept in part and defer in part its proposed PGA rate increase, as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of Wisconsin Gas Company.

The Commission orders. (A) Northern's alternate proposal in the instant case is accepted and approved such that: (1) 1.62¢ per Mcf of Northern's total request of 1.96¢ per Mcf is accepted effective December 27, 1974, as set forth in the alternate tariff sheets listed in Footnotes 2 and 3 of this order and subject to the provisions of, inter alia the December 26, 1974, order in Docket Nos. RP71–107 (Phase II) et al.; (2) Northern is permitted to accrue and defer collection of interest of 9 percent per annum only on the deferred increase in the cost of purchased gas represented by the .34¢ per Mcf deferred rate increase; (3) and Northern is permitted to include in its next PGA filing the deferred interest expense in (2) above.

(B) In light of the action taken in Ordering Paragraph (A) above, we shall not accept nor make effective the tariff sheets listed in Footnote 1 of this order which would effectuate the entire 1.96¢ per Mcf increase as of January 9, 1975.

(C) Wisconsin Gas Company is permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission and the hearing procedures set forth in the Commission order of October 12, 1973: *Provided, however,* That participation of said intervenor shall be limited to matters affecting asserted rights and interest specifically set forth in its petition to intervene, and *Provided, further,* The admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders entered in this proceeding.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Projects No. 2243/2273]

PACIFIC NORTHWEST POWER CO. AND WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Availability of Staff Draft Environmental Impact Statement

Notice is hereby given in the captioned Project, that on February 14, 1975, as required by § 2.81(b) of Commission Order No. 415–C, a draft environmental impact statement prepared by the Staff of the Federal Power Commission was made available for comments. This statement deals with the environmental impact of the proposed Middle Snake River Project. It is proposed that one of three alternate hydroelectric developments be built. The High Mountain Sheep-China Gardens alternate would affect lands in Washington, Oregon, and Idaho, and would impound the Snake River from a point just above its confluence with the Grande Ronde River to Hells Canyon Dam. The Pleasant Valley-Mountain Sheep and Appaloosa-Mountain Sheep developments would affect lands in Oregon and Idaho and would impound the river from a point just above its confluence with the Imnaha River to Hells Canyon Dam.

This statement has been circulated for comments to Federal, State and local agencies, has been placed in the public files of the Commission, and is available for public inspection both in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426 and at its San Francisco Regional Office located at 555 Battery Street, San Francisco, California 94111. Copies may be ordered from the Commission's Office of Public Information, Washington, D.C. 20426.

Any person who wishes to do so may file comments on the staff draft statement for the Commission's consideration. All comments must be filed on or before May 16, 1975.

Any person who wishes to present evidence regarding environmental matters in this proceeding must file with the Commission a petition to intervene pursuant to § 1.8 of the Commission's rules of practice and procedure. Petitioners must also file timely comments on the draft statement in accordance with § 2.81(c) of Order No. 415–C.

All petitions to intervene must be filed on or before May 16, 1975.

MARY B. KIDD, *Acting Secretary.*

[FR Doc.75–3997 Filed 2–12–75;8:45 am]

[Docket No. E–9230]

SOUTHERN CALIFORNIA EDISON CO.

Filing of Certificate of Concurrence

FEBRUARY 6, 1975.

Take notice that on January 30, 1975, The Nevada Power Company filed a certificate of Concurrence to Southern California Edison Company's (Edison) filing of January 27, 1975 of a September 30, 1969 Interim Arrangement for Interconnected Operations (Navajo Interconnection Principles), and a September 13, 1974 Amendment No. 1 to the Navajo Interconnection Principles between the United States of America, Arizona Public Service Company, Department of Water and Power of the City of Los Angeles, Nevada Power Company, Salt River Project Agricultural Improvement and Power District, Tucson Gas & Electric Company and the Applicant. Edison's filing was noticed on January 31, 1975.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 24, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–4022 Filed 2–12–75;8:45 am]

[Docket No. RP74–89]

TRUNKLINE GAS CO.

Further Extension of Procedural Dates

FEBRUARY 6, 1975.

On February 4, 1975, Trunkline Gas Company filed a motion to extend the procedural dates fixed by order issued June 28, 1974, as most recently modified by notice issued October 11, 1974, in the above-designated matter. The motion states that Staff Counsel has no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of rebuttal	February 28, 1975.
Hearing	March 18, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–4023 Filed 2–12–75;8:45 am]

[Dockets Nos. RP73–94, PGA75–1, and PGA 74–2]

VALLEY GAS TRANSMISSION, INC.

PGA Rate Increase

FEBRUARY 6, 1975.

On December 23, 1974, Valley Gas Transmission, Inc. (Valley Gas) tendered for filing a proposed PGA rate increase for sales to Tennessee Gas Transmission Company (Tennessee) and United Gas Pipe Line Company (United) under Valley Gas' Rate Schedules 1 and 2, and a proposed PGA rate reduction to Iroquois Gas Corporation (Iroquois) under Rate Schedules 5 and 8.[1]

The rate increases to Tennessee and United consist of increased cost of gas purchased from producer suppliers and increased surcharges to recoup increased balances in the deferred purchased gas cost account. The rate reduction to Iroquois is based upon the replacement of the present surcharge of 27.15¢ per Mcf with a new surcharge of .6¢ per Mcf and upon a reduction in the average cost of gas resulting primarily from the transfer of low cost gas in the Petronilla Field to Iroquois from Tennessee. Valley Gas requests an effective date of January 1, 1974. Valley Gas' December 23, 1974, filing was noticed on January 7, 1975, with comments, protests and petitions to intervene due on or before January 20, 1975. To date, no comments protests or petitions to intervene have been received by this Commission.

Our review of Valley Gas' December 23, 1974, filing indicates that the shifting of a portion of its gas supply from Tennessee to Iroquois may be inconsistent with reserve dedications under Valley Gas' outstanding certificate authorizations and therefore contrary to the public convenience and necessity. Accordingly, Valley Gas' proposed rate increase filed December 23, 1974, has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. We shall accordingly accept for filing, Valley Gas' proposed tariff sheets, suspend their use for one day and permit the rates to become effective thereafter subject to refund. Since the issue of the transfer of a portion of Valley Gas' gas supply from Tennessee to Iroquois is presently the subject of a hearing in another proceeding,[2] we shall make the disposition of that issue in this proceeding subject to the outcome of the hearing set in the Commission's December 27, 1974, order.

We also note that by order issued July 26, 1974,[3] we suspended for one day another PGA filing by Valley Gas in Docket No. RP73–94, which was filed on June 12, 1974. Since the issue of the transfer of gas from Tennessee to Iroquois is also at issue in that proceeding, we shall also make the transfer of gas issue in that proceeding subject to the hearing initiated in the December 27, 1974, order in Docket Nos. RP73–94, et al.

The Commission finds. (1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Valley Gas' proposed PGA rate increase filing of December 23, 1974, should be accepted for filing,

[1] Third Revised Sheet No. 2A to FPC Gas Tariff, Original Volume No. 1.

[2] See Valley Gas Transmission, Inc., Docket Nos. RP73–94, et al. order issued December 27, 1974.

[3] This proceeding shall henceforth be docketed as Dockets Nos. RP73–94 and PGA 74–2.

XUM
V40-31 FEB 13 75 F
XUM

suspended for one day and permitted to become effective subject to refund pending further Commission order in this docket, as discussed above.

(2) Good cause exists to make the issue of the transfer of gas from Tennessee to Iroquois raised in Valley Gas' June 12, 1974, PGA filing in Docket Nos. RP73–94 and PGA74–2 subject to the determination of that issue in the hearing initiated in the Commission's December 27, 1974, order in Docket Nos. RP73–94, et al.

The Commission orders. (A) Valley Gas' December 23, 1974, PGA rate increase filing is hereby accepted for filing, suspended and permitted to become effective on January 2, 1975, subject to refund pending further Commission order in this docket, as discussed above.

(B) In accordance with Section 154.51 of the Commission's regulations, waiver of the notice requirements is hereby granted.

(C) The issue of the transfer of gas from Tennessee to Iroquois, which was raised in Valley Gas' June 12, 1974, PGA filing in Dockets Nos. RP73–94 and PGA 74–2 is hereby made subject to the determination of that issue in the hearing initiated in the Commission's December 27, 1974, order in Docket No. RP73–94, et al.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–4024 Filed 2–12–75;8:45 am]

FEDERAL RESERVE SYSTEM

FIRST UNITED BANCORPORATION, INC.

Order Approving Acquisition of Bank

First United Bancorporation, Inc., Fort Worth, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire additional voting shares of University Bank, Fort Worth, Texas ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the tenth largest banking organization in Texas, controls nine banks with aggregate deposits of approximately $754 million, representing 2.0 percent of the total deposits in commercial banks in Texas.[1] Bank holds deposits of approximately $47.1 million or about 2.0 percent of the total deposits in the relevant market and thereby ranks as the eleventh largest of 48 banks operating therein.[2] The proposed transaction consummates the conversion of debentures of Bank, currently held by Applicant, into 15,861 voting shares of Bank. Since Applicant presently controls approximately 37 percent of Bank's outstanding shares, it appears that the acquisition of additional shares of Bank[3] by Applicant would not eliminate existing or potential competition, increase the concentration of banking resources in any relevant market area, or have an adverse effect on any bank. Accordingly, the Board concludes that competitive considerations are consistent with approval of the application.

The financial condition and managerial resources of Applicant, its subsidiaries, and Bank are considered to be generally satisfactory and the future prospects of each appear favorable. Thus, the banking factors are consistent with approval of the application. Although there will be no immediate change in the services or operations of Bank as a result of the proposal, considerations relating to the convenience and needs of the communities to be served are also consistent with approval of the application. Therefore, it is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[4] effective February 5, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc.75–4027 Filed 2–12–75;8:45 am]

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on February 7, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FEA and ICC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before March 3, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW., Washington, D.C. 20548.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

INTERSTATE COMMERCE COMMISSION

Request for renewal of revised Annual Report—Railroad Lessor (R–4). This report is required by the Interstate Commerce Commission, pursuant to the provisions of section 20 of the Interstate Commerce Act. The report is filed annually by 136 railroad lessor companies, whose property is leased to and operated by other companies. Reports are required for economic regulatory purposes. Railroad lessors maintain separate legal existences and keep financial, but not operating accounts. The average number of man-hours required per response is estimated to be 233. The report is mandatory.

FEDERAL ENERGY ADMINISTRATION

Request for review and clearance of Form FEA–U–501–S–0. The form is an Application to the Lighting and Thermal Operations Awards Program. The purpose of the form is to award outstanding savings in energy in individual commercial, public, and industrial buildings. In this category, any interested parties are potential respondents. Approximately 5,000 respondents are expected, with a response time of one man-hour per form.

CARL F. BOGAR, *Assistant Director, Regulatory Reports Review.*

[FR Doc.75–4097 Filed 2–12–75;8:45 am]

GENERAL SERVICES ADMINISTRATION

COST SHARING IN FEDERAL RESEARCH

Opportunity for Comment

The purpose of this notice is to make known an interagency task group proposal on Recommendation B–8 of the Commission on Government Procurement concerning the establishment of policies and procedures for the treatment of Cost Sharing in Federal Research, and to offer an opportunity for public comment thereon. Interested persons may submit their comments to the General Services Administration (AMC); Washington, D.C. 20405. To be given consideration, written comments must be received on or before March 31, 1975.

Background. The Office of Management and Budget (OMB), in memoranda to Heads of Executive Departments and Agencies, dated December 7, 1972 and March 14, 1973, established and outlined plans for coordination of executive branch efforts in response to the Commission on Government Procurement (COGP) Report. Interagency task groups made up of assigned lead and participating agencies were formed to examine and recommend executive branch positions on each of the 149 COGP recommendations. Direction of executive branch efforts on COGP matters is a function which was delegated to the General Services Administration (GSA) by Executive Order 11717 on May 9, 1973.

COGP Recommendation B–8 reads as follows:

Eliminate cost sharing on R&D projects except in cases where the performer of the project would clearly benefit, e.g., through economic benefits on commercial sales. Decisions with respect to the placement of R&D contracts or grants should not be influenced by potential involvement in cost sharing.

Task Group Proposal for an Executive Branch Position. The following is the Task Group's proposed modification of COGP Recommendation B–8:

Cost participation on research and development projects may be encouraged or required at the discretion of individual agencies, as deemed in the best interests of the Government. Such participation is subject to statutory or interagency guidelines. Statutory cost participation not directed to specific agency programs or projects should be eliminated.

The Task Group believes that several main conclusions derive from their study of this recommendation:

1. Elimination of all cost participation is unrealistic in view of agency positions;
2. Organizations should not be prohibited from voluntary cost participation, nor agencies from requiring it when in the best interest of the Government;
3. Current legislation and practice provide a confusing and inconsistent basis for determining participation parameters;
4. Strengthened executive branch guidelines will preclude the necessity for legislatively specified cost participation with the exception of specific programs or projects.

The Task Group believes that the following steps need to be taken in order to implement its proposed position:

a. Cost participation may be required or encouraged by agencies in individual cases, as appropriate.

b. Federal Management Circular 73–3 ("Cost Sharing in Federal Research," formerly Office of Management and Budget Circular A–100) should be revised to provide strengthened guidance concerning participation by the performing organization in the cost of research and development funded by Federal agencies.

c. Current cost participation requirements should be omitted from future appropriations acts, and other legislation repealed if necessary.

Publication of this notice does not imply acceptance by the executive branch of the proposed executive branch position. Responses received from interested parties regarding this notice of opportunity for comment will be given careful consideration in the formulation of an executive branch position.

Dated at Washington, D.C. on February 7, 1975.

R. E. ZECHMAN, *Associate Administrator for Federal Management Policy*

[FR Doc.75–4029 Filed 2–12–75;8:45 am]

[1] All banking data are as of June 30, 1974, and reflect bank holding company formations and acquisitions approved by the Board through December 31, 1974.

[2] The relevant market is approximated by the Fort Worth RMA.

[3] Assuming the conversion of all of bank's outstanding debentures, approval of the proposed transaction would increase Applicant's interest in Bank by less than one per cent of Bank's total voting shares outstanding.

[4] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns.

INTERNATIONAL TRADE COMMISSION

[337–4]

EYE TESTING INSTRUMENTS INCORPORATING REFRACTIVE PRINCIPLES

Investigation

A complaint was filed with the Tariff Commission (now the U.S. International Trade Commission) on February 20, 1974, and a supplement thereto filed with the Commission on June 26, 1974, on behalf of American Optical Corporation of Southbridge, Massachusetts, alleging there to be importation and sale in the United States of eye testing instruments incorporating refractive principles and alleging that such importation and sale are unfair methods of competition and unfair acts within the meaning of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) for the reason that (1) such eye testing instruments are covered by claim 8 in U.S. Patent No. 2,923,200 and (2) such eye testing instruments are the subjects of false advertising. The complainant alleges that the effect or tendency of the unfair methods or acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States. Complainant has requested that the imports in question be temporarily and permanently excluded from entry into the United States. Topcon Instrument Company of America, Inc., has been named as an importer of the subject product by the complainant.

Having conducted a preliminary inquiry with respect to the matters alleged by the said complainant, the United States International Trade Commission, on February 5, 1975, Ordered:

That for the purposes of section 337 of the Tariff Act of 1930, an investigation is instituted with respect to (1) the alleged violations in the importation and sale in the United States of eye testing instruments incorporating refractive principles covered by claim 8 in U.S. Patent No. 2,923,200 owned by the complainant, the effect or tendency of which is to substantially injure an industry, efficiently and economically operated, in the United States, and (2) the alleged violations in the importation and sale in the United States of eye testing instruments incorporating refractive principles which are the subjects of false advertising, the effect or tendency of which is to substantially injure an industry, efficiently and economically operated, in the United States, or to restrain or monopolize trade and commerce in the United States.

Public notice of the receipt of the complaint and initiation of the preliminary inquiry was published in the FEDERAL REGISTER on March 19, 1974 (39 FR 10336). The complaint was served upon the party named in the complaint and has been available for inspection by interested persons continually since issuance of the notice of preliminary inquiry, at the Office of the Secretary, located in the U.S. International Trade Commission Building and in the New York City Office of the Commission, located at 6 World Trade Center.

Issued: February 10, 1975.

KENNETH R. MASON, *Secretary.*

[FR Doc.75–4111 Filed 2–12–75;8:45 am]

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating License No. DPR–30 issued to the Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) for operation of Quad-Cities Unit 2 (the facility), a boiling water reactor located in Rock Island County, Illinois, and currently authorized for operation at power levels up to 2511 MWt.

In accordance with the licensee's application for a license amendment dated January 21, 1975, as supplemented by filing dated February 10, 1975, the amendment would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to Quad Cities Unit 2, terminate the further restrictions imposed by the Commission's December 27, 1974, Order For Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Act and the Commission's regulations.

By March 17, 1975, any person whose interest may be affected by the proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the

XUM V40-31 FEB 13 75 XUM

amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by March 17, 1975. A copy of the petition and/or request for a hearing should be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to John W. Rowe, Esquire, the attorney for the applicant, One First National Plaza, Chicago, Illinois 60670.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated January 21, 1975, (2) supplemental information dated February 10, 1975, (3) the Commission's Order for Modification of License and the documents referred to in the Order dated December 27, 1974 (published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1783), and (4) Notices and the documents referenced therein on related matters published in the FEDERAL REGISTER on January 7, 1975 (40 FR 1291—relating to operation with 8 x 8 fuel assemblies) and on February 10, 1975 (40 FR 6240—relating to the incorporation of operating limits in the Technical Specifications for the facility based on the General Electric Thermal Analysis Basis), which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Moline Public Library, 504–17th Street, Moline, Illinois 61265. As they become available, the Commission's related Safety Evaluation and license amendment and any attachments may be inspected at the above locations. A copy of the license amendment and attachments and the Safety Evaluation, when available, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 11th day of February, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Reactor Licensing.

[FR Doc.75-4260 Filed 2-12-75;9:24 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON COMBUSTION ENGINEERING SYSTEM 80

Notice of Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Combustion Engineering System 80 will hold a closed meeting on February 28, 1975 at the Combustion Engineering facility in Windsor, Connecticut. The meeting will begin at 9 a.m. and will continue until about 6 p.m. The purpose of the meeting will be to discuss and examine the hardware for the following Combustion Engineering System 80 Systems: (1) Core Protection Calculator (CPC) and (2) Core Operating Limit Supervisory System (COLSS).

The Combustion Engineering System 80 Subcommittee Meeting noticed in the FEDERAL REGISTER, 40 FR 5197, February 4, 1975, for March 1, 1975, which will include an open session, will still be held as noticed.

I have determined that the above-noted closed session will consist of discussions of documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed session will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close the meeting to avoid public disclosure of proprietary information.

Persons desiring to attend the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

JOHN C. HOYLE,
Acting Advisory Committee Management Officer.

[FR Doc.75-4205 Filed 2-12-75;8:45 am]

[Docket No. 50-206]

SOUTHERN CALIFORNIA EDISON CO.

Issuance of Amendment to Provisional Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Provisional Operating License No. DPR-13 issued to the Southern California Edison Company (the licensee) for operation of the San Onofre Nuclear Generating Station, Unit 1 (the facility), located in San Diego, California.

The license amendment would revise the control rod insertion limits in the facility Technical Specifications to account for the effects of fuel densification for the remaining period of operation with the present Cycle 4 reactor core. This amendment is in accordance with the licensee's application dated June 15, 1973, and subsequent letter dated July 12, 1974.

Control rod insertion limits are included in the Technical Specifications to restrict operation of the facility within allowable core performance parameters. Although the presently specified control rod insertion limits are not based on considerations of fuel densification (a phenomenon involving time dependent changes in the fuel and its cladding during reactor operation), the licensee was authorized to operate the facility with the Cycle 4 core with other conservative restrictions to compensate for the effects of fuel densification pending completion of the Commission's review of the licensee's fuel densification analysis. By this amendment, the control rod insertion limits would be revised based on decreased allowable values of core performance parameters that account for possible effects of fuel densification.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations.

On or before March 17, 1975, any person whose interest may be affected by the proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject provisional operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may

be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by March 17, 1975. A copy of the petition and/or request for a hearing should be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Rollin E. Woodbury, Southern California Edison Company, Post Office Box 800, Rosemead, California 91770, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated June 15, 1973, and subsequent letter dated July 12, 1974, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the San Clemente Public Library, 233 Granada Street, San Clemente, California. As they become available, the Commission's related Safety Evaluation, license amendment and attachments may be inspected at the above locations. A copy of the license amendment and attachments and the Safety Evaluation, when available, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 4th day of February 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[FR Doc.75-3709 Filed 2-12-75;8:45 am]

[Docket No. P-537-A]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 20, 1974, in connection with its plans to construct and operate two nuclear reactors at a site to be selected in the near future. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during October 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Docket No. P-537-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 24, 1975.

Dated at Bethesda, Maryland, this 13th day of January, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Directorate of Licensing.

FEDERAL COMMITTEE ON ECOLOGICAL RESERVES

Meeting

The Federal Committee on Ecological Reserves will convene on February 18, 1975, from 1:30 to 4:30 p.m., in room 318 at the National Science Foundation, 1800 G Street, NW., Washington, D.C. This Committee is concerned with Research Natural Areas and other Federal scientific reserves. The membership of this Committee is comprised solely of Federal employees and officers, and does not fall under the provisions of the Federal Advisory Committee Act (Pub. L. 92-463). However, members of the public are invited to observe this meeting. Any persons wishing to attend or requiring further information should contact Dr. Jerry Franklin, Program Director, Ecosystem Analysis Program, National Science Foundation, Rm. 331, Washington, D.C. 20550 by mail, or by telephone 202/632-5854.

RUSSELL C. DREW,
Director, Science and Technology Policy Office.

SECURITIES AND EXCHANGE COMMISSION

BAY STATE GAS CO.

Application and Opportunity for Hearing

FEBRUARY 6, 1975.

Notice is hereby given that The Bay State Gas Company (the "Company") has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding that the trusteeship of First National Bank of Boston ("First National") under six indentures heretofore qualified under the Act is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify First National from acting as Trustee under any such indenture.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall within ninety days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of such Section provides, in effect, with certain exceptions, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under either of such indentures.

The Company alleges that: (1) The Company was formed on November 19, 1974 as the resulting corporation in a consolidation under Massachusetts law of two constituent pre-existing Massachusetts corporations, Bay State Gas Company ("Old Bay State") and Brockton Taunton Gas Company ("Brockton Taunton").

(2) Immediately prior to the consolidation, First National was serving as

XUM V40131 FEB 13 75 XUM

Bay State previously qualified under the Act as Nos. 22-5872, 22-7196 and 22-7848, respectively. Each indenture contains provisions specifically naming the earlier indenture(s) and declaring that no conflicting interest will be deemed to exist by reason of its trusteeship under such other indenture(s).

(3) Immediately prior to the consolidation, First National was also serving as Trustee under three different indentures of Brockton Taunton, qualified under the Act as Nos. 22-6062, 22-6538 and 22-7534, respectively. Each indenture contains provisions specifically naming the earlier Brockton Taunton indenture(s) and declaring that no conflicting interest will be deemed to exist by reason of its trusteeship under such other indenture(s).

(4) Pursuant to the consolidation referred to in paragraph (1), supplemental indentures were executed and delivered by the Company to First National for each of the above-mentioned indentures under which the Company succeeded to and assumed all obligations of Old Bay State and Brockton Taunton thereunder.

(5) The terms of the indenture differ in respect of:

a. interest rates, maturity dates, interest payment dates, sinking fund provisions, redemption provisions and premiums relating to the indenture securities;

b. limitations on payment of dividends;

c. limitations on future issuance of funded debt and the calculation of the amount of the earnings available for interest required to support future issuance of funded debt; and

d. some of such indentures require subsidiaries to be in compliance with coverants similar to those of the Company and some do not.

(6) The obligations of the Company under all of the indentures are wholly unsecured and each such obligation ranks equally with the others. The Company is not in default under any of the indentures.

(7) Each of the indentures through general "cross-default" provisions provides in substance that a default under any one of said indentures constitutes an event of default under all of said indentures. Accordingly, with respect to the differences between the indentures mentioned in subparagraphs 5 (b), (c) and (d) above, the Company is effectively required to comply with the most restrictive of each of the provisions as found in all six indentures in order to avoid being in default under all of them.

(8) Such differences as exist between the several indentures are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify First National from acting as Trustee under any one of said indentures.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the offices of the Commission at 1100 L Street, NW, Washington, DC.

Notice is further given, That any interested person may, not later than March 4, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, DC 20549. At any time after said date, the Commission may issue an order granting the application, appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[812-3498]

HIGHLAND CAPITAL CORP. AND MARATHON SECURITIES CORP.

Filing of Application for an Order Pursuant to Section 17(d) of the Act and Rule 17d-1 Thereunder

FEBRUARY 7, 1975.

In the Matter of Highland Capital Corporation c/o Mr. Edwin Robbins, President, 20 Exchange Place, New York, New York 10005; Marathon Securities Corporation c/o Mr. Edwin Robbins, President, 20 Exchange Place, New York, New York 10005.

Notice is hereby given, That Marathon Securities Corporation ("Marathon"), a non-diversified, closed-end, management investment company registered under the Investment Company Act of 1940 (the "Act") and Highland Capital Corporation ("Highland"), a non-diversified, closed-end, management investment company registered under the Act, filed an application on August 16, 1974 pursuant to section 17(d) of the Act and Rule 17d-1 under the Act for an order permitting the proposed sharing by Highland and Marathon of the expenses incurred and to be incurred by them in connection with the recently terminated proposed combination of Marathon and Highland. Marathon and Highland are hereinafter sometimes referred to collectively as "Applicants". All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Highland and Marathon have substantially the same principal officers and principal stockholders; they have similar investment policies; and both companies are internally managed by their officers and directors. Mr. Walter Scheuer ("Scheuer") is the principal stockholder of both Marathon and Highland and is Chairman of the Board of Directors of Marathon and a director of Highland. Mr. Edwin Robbins ("Robbins") is a principal stockholder of Marathon and Highland and the President, chief executive officer, and a director of both companies.

The application represents that Scheuer may be deemed to own beneficially directly or indirectly 213,774 shares (approximately 52.5 percent) of the 406,972 issued and outstanding shares of Marathon common stock, although he disclaims any beneficial ownership in 82,653 of such shares. Robbins may be deemed to own beneficially directly or indirectly 59,804 shares (approximately 14.7 percent) of Marathon's outstanding common stock, although he disclaims any beneficial ownership in 9,827 of such shares. Scheuer may be deemed to own beneficially directly or indirectly 222,600 shares (approximately 21.9 percent) of the 1,017,449 issued and outstanding shares of Highland's common stock, although he disclaims any beneficial ownership in 33,285 of such shares. Robbins may be deemed to own beneficially directly or indirectly 20,800 shares (approximately 2.0 percent) of Highland's outstanding common stock. An aggregate of 163,840 shares of Highland's common stock, including 146,190 of the shares which may be deemed to be beneficially owned by Scheuer and Robbins, are owned of record by Gaymark Associates, a New Jersey limited partnership of which Robbins is the sole general partner and Scheuer is one of the limited partners. The application states that, through their stock ownership of Highland and Marathon and otherwise, Scheuer and Robbins control both companies and dominantly influence their operations and policies.

In August 1973 Applicants entered into a Plan and Agreement of Reorganization (the "Plan and Agreement of Reorganization") pursuant to which it was proposed that Highland would acquire all of Marathon's assets in consideration of the issuance by Highland of shares of its common stock to Marathon and the assumption of all of Marathon's liabilities. Such transaction was subject to the receipt of an order from the Commission exempting the transaction from certain provisions of the Act and to the approval by the stockholders of both companies.

Also, in August 1973, at the same time that they entered into the Plan and Agreement of Reorganization, Marathon, Highland and others (including Scheuer and Robbins) filed an application (the "merger application") with the Commission seeking the aforementioned order exempting the proposed combination transaction from various provisions of the Act. In addition, at the same time, Highland filed with the Commission a registration statement (File No. 2-48905) on Form S-14 (the "registration statement") under the Securities Act of 1933 which included as part thereof a joint Highland-Marathon proxy statement to be used in connection with seeking stockholder approval for the proposed combination transaction.

On January 31, 1974, a notice of the merger application was issued (Investment Company Act Release No. 8211). Several stockholders responded to such notice by requesting a hearing, and, on June 3, 1974, the Commission ordered a hearing on the merger application (Investment Company Act Release No. 8371). A pre-hearing conference was held on July 18, 1974, and a hearing was scheduled for August 26, 1974. On August 30, 1974, at the request of Applicants, an Order Withdrawing Application and Dismissing Proceedings was issued (Investment Company Act Release No. 8480).

The current application states that on July 31, 1974, Marathon's Board of Directors met and determined not to proceed with the proposed combination transaction with Highland and to terminate the Plan and Agreement of Reorganization. Marathon promptly so notified Highland, and the proposed combination transaction was terminated. The application also explains that Marathon's Board of Directors, at the same July 31, 1974, meeting, determined that Marathon should be liquidated and dissolved.

The present application represents that ever since the proposed combination was first considered by Applicants, substantial expenses have been incurred by Applicants in connection with the combination proposal. Applicants assert that the estimated aggregate of such expenses through July 31, 1974, was $188,200, consisting of approximately $62,300 for printing costs, approximately $35,000 for accounting and auditing expenses, approximately $89,500 for legal fees and disbursements and approximately $1,500 for miscellaneous expenses. In addition, the application explains that certain expenses may not have been fully billed yet and that certain other expenses, consisting primarily of legal

XUM
V40-31 FEB 13 75 F
XUM

fees, are being incurred presently by Applicants in connection with the application and in connection with amending the merger application and the registration statement for the purpose of withdrawing such documents.

Applicants state that they have submitted the application in order that they may share such expenses (plus any additional expenses incurred in connection with the now terminated proposed combination, this application, the withdrawal of the merger application and the registration statement) on the same basis which they had provided for in the Plan and Agreement of Reorganization. The Plan and Agreement of Reorganization provided that, upon termination of the proposed combination, Applicants were each to bear a proportionate part of the total of all expenses incurred by them in connection with the Plan and Agreement of Reorganization and the transactions contemplated thereby. It provided that such proportionate sharing of expenses would be on the basis of the respective net asset values of Applicants (before giving effect to any such expenses). In line with such provision of the Plan and Agreement of Reorganization, Applicants have agreed, subject to the granting of the order sought by this application, to share the expenses in the same proportion as their respective net asset values (before giving effect to any such expenses) on July 31, 1974, the date on which the proposed combination transaction was terminated.

At July 31, 1974, Marathon's unaudited net assets (before giving effect to any such expenses) were $2,690,162 and Highland's unaudited net assets (before giving effect to any such expenses) were $5,840,821. On the basis of such figures and in accordance with their expense-sharing proposal, Marathon would bear approximately 32 percent of the expenses and Highland would bear approximately 68 percent of the expenses.

The application represents that of the total expenses through July 31, 1974, approximately $78,300 consist of fees for legal services rendered and disbursements made by the law firm of Skadden, Arps, Slate, Meagher & Flom of New York, New York, which has acted as general counsel to Marathon since 1965 and as general counsel to Highland since June 1972. Since April 1968 Robbins has been associated as counsel with such firm. In addition to representing Applicants, Skadden, Arps, Slate, Meagher & Flom has also represented Scheuer and Robbins from time to time in various personal and business matters not related to Applicants. Although Robbins receives compensation from Skadden, Arps, Slate, Meagher & Flom, the application alleges that such compensation is unrelated to the services rendered to Applicants by such firm and that Robbins does not participate in the fees paid or payable to such firm by Applicants.

Under the definition of "affiliated person" in section 2(a)(3) of the Act, Scheuer and Robbins are "affiliated persons" of both Marathon and Highland, and Marathon and Highland are affiliated persons of Scheuer and Robbins. Accordingly, each Applicant is an affiliated person of an affiliated person of each other.

Section 17(d) of the Act, and the rules and regulations promulgated thereunder, make it unlawful, in pertinent part, for any affiliated person of a registered investment company, or any affiliated person of such person, acting as principal, to participate in or effect any transaction in connection with any joint enterprise or other joint arrangement or profit-sharing plan in which any such registered company is a participant unless an application regarding such enterprise or arrangement has been filed with the Commission under Rule 17d–1 and granted by an order of the Commission. In passing upon such applications, the Commission will consider whether the participation of such registered investment company in such joint enterprise, joint arrangement or profit-sharing plan on the basis proposed is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants. The application states that since the proposed sharing of the expenses by Applicants might be deemed to constitute a "joint enterprise or other joint arrangement or profit-sharing plan" as defined in rule 17d–1(c), it might be deemed to be subject to section 17(d) and the rules thereunder in view of the affiliations of Marathon and Highland.

Applicants have submitted this application for an order of the Commission permitting the proposed sharing of expenses. Applicants submit that their proposed sharing of expenses is in accordance with and pursuant to the provisions of the Plan and Agreement of Reorganization. Applicants state that the Plan and Agreement of Reorganization expressly provided for such sharing of expenses in the event of its termination and the termination of the proposed combination of Highland and Marathon contemplated thereby. Applicants further represent that such proposed sharing of expenses is reasonable and fair and does not involve overreaching on the part of any person concerned with or involved in the transaction; that it is not inconsistent with the investment policies of either Applicant; and that it is consistent with the policies and purposes of the Act.

Notice is further given, that any interested person may, not later than March 4, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[70–5338]

OHIO POWER CO. AND AMERICAN ELECTRIC POWER CO.

Issuance and Sale of Common Stock

FEBRUARY 7, 1975.

In the Matter of Ohio Power Company, 301 Cleveland Avenue, S.W., Canton, Ohio 44701; American Electric Power Company, Inc., 2 Broadway, New York, New York 10004.

Notice is hereby given, that American Electric Power Company, Inc. ("AEP"), a registered holding company, and Ohio Power Company ("Ohio"), its electric utility subsidiary, have filed a post-effective amendment to the application-declaration in this proceeding pursuant to sections 6(b), 9(a), 10 and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and rules 43 and 50(a)(3) promulgated thereunder regarding the following proposed transaction. All interested persons are referred to the application-declaration, as amended, by the post-effective amendment, which is summarized below, for a complete statement of the proposed transaction.

By orders dated June 29, 1973 and October 8, 1974 (Holding Company Act Release Nos. 18013 and 18597), the Commission authorized AEP to make cash capital contributions from time to time prior to December 31, 1974, to three of its public-utility subsidiary companies as follows: $115,000,000 to Ohio, $40,000,000 to Appalachian Power Company, and $100,000,000 to Indiana & Michigan Company.

It is now proposed that AEP make additional investment in the equity of Ohio in the form of the purchase from time to time prior to June 30, 1975 of a total of 2,000,000 shares of common stock, no par value, of Ohio for a consideration of $15 a share, or a total consideration of $30,000,000. As of January 21, 1975, Ohio has authorized 40,000,000 shares of its common stock of which

there are outstanding 19,952,472 shares.

The proceeds from the sale of common stock are to be used by Ohio to finance its construction program and for the payment of short-term notes issued in connection therewith.

The Public Utilities Commission of Ohio has jurisdiction over the proposed issue and sale by Ohio of its common stock to AEP. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given, That any interested person may, not later than March 3, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulations, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30, Rev. 14–Amdt. 6]

REGIONAL DIRECTORS TO CONDUCT PROGRAM ACTIVITIES IN THE FIELD OFFICES

Delegation of Authority

Delegation of Authority No. 30 (Revision 14) (37 FR 12651), as amended (37 FR 14840, 37 FR 19405, 37 FR 21466, 38 FR 32984, and 39 FR 1698) is hereby further amended to update sources of authority and to include approval and certain other authority for water pollution control loans, base closing economic injury loans, and emergency energy shortage economic injury loans and now reads as follows:

Pursuant to authority vested in me by the Small Business Act, 72 Stat. 384, as amended, and the Small Business Investment Act of 1958, 72 Stat. 689, as amended, the following authority is hereby delegated to all regional directors:

PART I—FINANCING PROGRAM

SECTION A. *Loan Approval Authority.*

* * * * * *

3. *Displaced Business and Other Economic Injury Loans.* To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, base closing economic injury loans, water pollution control loans, emergency energy shortage economic injury loans, and economic injury loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to $1,000,000 (SBA share) on guaranty loans and $500,000 (SBA share) on direct and immediate participation loans.

* * * * *

SEC. B. *Other Financing Authority.*

1. *Loan Participation Agreements.* To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, water pollution control, base closing economic injury, handicapped assistance, and emergency energy shortage economic injury loan participation agreements with banks.

* * * * *

3. *Cancel, Reinstate, Modify, and Amend Authorizations.* To cancel, reinstate, modify, and amend authorizations for all loans, i.e., business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, water pollution control, base closing economic injury, handicapped assistance, emergency energy shortage economic injury.

* * * * *

PART II—DISASTER PROGRAM

SECTION A. Disaster Loan Approval Authority.

1. To decline * * * (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, water pollution control loans, base closing economic injury, emergency energy shortage economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan.

Effective date: January 8, 1974, for base closing economic injury loans. August 23, 1974 for water pollution control loans. September 16, 1974, for emergency energy shortage economic injury loans.

THOMAS S. KLEPPE,
Administrator.

[Proposed License No. 06/06–0175]

SMALL BUSINESS INVESTMENT CAPITAL, INC.

Filing of Application for Approval of Conflict of Interest Transactions

On January 9, 1975, a notice was published in the FEDERAL REGISTER (40 FR 1798) stating that Small Business Investment Capital, Inc., 10003 New Benton Highway, Little Rock, Arkansas 72203,

XUM
V40-31 FEB 13 75 XUM

had filed an application with the Small Business Administration (SBA) for a license to operate as a small business investment company. The Applicant Licensee is to be wholly owned by Shur-Valu Stamps, Inc. (Shur-Valu), 10003 New Benton Highway, Little Rock, Arkansas 72203, which in turn is owned 45 percent by Affiliated Food Stores, Inc., a cooperative of retail grocers, 35 percent by present members of the cooperative and 20 percent by former members of the cooperative.

It is proposed that among the Applicant Licensee's financings, will be investments in retail grocery stores which are owned and operated by members of the cooperative. At the present time the cooperative consists of approximately 219 members. These members and the cooperative, through ownership in Shur-Valu, are the beneficial owners of 80 percent of the Applicant Licensee's common stock. As such, they would be considered to be an "affiliated group" that beneficially owns 10 percent or more of the Applicant Licensee's common stock. Therefore, the proposed financings to member retail grocers would be subject to the restrictions of the provisions of Section 107.1004 of the Regulations governing small business investment companies (13 CFR 107.1004 (1974)).

It is proposed that SBA grant the Applicant Licensee a partial exemption to the restrictions of § 107.1004 of the Regulations. The partial exemption would extend only to the financial assistance provided by the Applicant Licensee to the small retail grocers who are members of the cooperative. Any financial assistance to other Associates, as defined by § 107.3 of the Regulations, would not be exempt and fall within the purview of § 107.1004.

Notice is given that any interested person may, not later than fifteen days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed exemption. Any such communications should be addressed to Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this notice shall be published by the Applicant Licensee in a newspaper of general circulation in Little Rock, Arkansas.

Dated: February 11, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[License No. 06/10-0098]

UNITED BUSINESS CAPITAL, INC.

Approval for Transfer of Control

On January 9, 1975, a notice of request for approval for transfer of control was published in the FEDERAL REGISTER (40 FR 1799) stating that an application had been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing small business investment companies (13 CFR 107.701 (1974)) for the transfer of control of United Business Capital, Inc., 1102 South Broadway, La Porte, Texas 77571, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act) (15 U.S.C., 661 et seq.), and the rules and regulations promulgated thereunder.

The offices are to be moved to 19 East Main, Idabel, Oklahoma 74745. The company will be owned one-third each by Messrs. Charles Hughes, James Wooten and Carl Sherman.

Interested parties were given to the close of business January 24, 1975, to submit their written comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has approved this application for transfer of control.

Dated: February 3, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

WATER RESOURCES COUNCIL

NOTICE OF STUDY

Request for Comments and Views

Notice is hereby given of the initiation of a study pursuant to section 80(c) of the Water Resources Development Act of 1974 (Pub. L. 93-251).

Section 80(c) calls for the President to make a full and complete investigation and study of principles and standards for planning and evaluating water and related resources projects. This study will supply information to the President relative to section 80(c).

Such investigation and study shall include, but not be limited to, consideration of enhancing regional economic development, the quality of the total environment including its protection and improvement, the well-being of the people of the United States, and the national economic development, as objectives to be included in federally financed water and related resources projects and in the evaluation of costs and benefits attributable to such projects, the interest rate formula to be used in evaluating and discounting future benefits for such projects, and appropriate Federal and non-Federal cost sharing for such projects.

The study has been assigned by President Ford to the Water Resources Council. It is to be conducted by a special interagency study team under the direction of the Council of Members (COM) of the Water Resources Council. The study team effort began on February 1, 1975, and is scheduled for completion in 4 to 6 months. The plan for the study was approved by the COM on January 30, 1975, and is available upon request by writing to the Director, Water Resources Council, Suite 800, 2120 L Street NW., Washington, D.C. 20037.

Any persons interested in submitting comments or views regarding the study are requested to submit the same in writing to the Director, Water Resources Council, Washington, D.C. These comments would be most useful if they are received by March 3, 1975.

In addition, the Study Manager and members of the Study Management Team, comprised of professionals specializing in water resources planning and management, will be available to meet with interested non-Federal representatives regarding the content of the study in Washington, D.C., during the first week of March 1975. Those parties interested in participating in these discussions should contact the Director, Water Resources Council, Washington, D.C., no later than February 21, 1975, to indicate, in writing, their areas of interest to facilitate the scheduling of this series of meetings.

The Water Resources Council will give close attention and study to the views expressed at the National Conference on Water to be held in Washington, D.C., on April 22-24, 1975, in development of the section 80(c) study report.

Dated: February 7, 1975.

JACK O. HORTON,
Alternate to the Chairman.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON HAZARDOUS MATERIALS LABELING

Change in Agenda

The agenda for the February 18-19, 1975, meeting of the Standards Advisory Committee on Hazardous Materials Labeling, announced in 40 FR 2630 on January 14, 1975, has been changed. A meeting of the Subgroup on Categorizing and Ranking the Hazards of Materials Along with Appropriate Labeling and Placard Systems will take place both days rather than a meeting of the full Committee, as previously announced.

Signed at Washington, D.C. this 11th day of February 1975.

JOHN STENDER,
Assistant Secretary of Labor.

FOURTH SECTION APPLICATION FOR RELIEF

FEBRUARY 10, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 28, 1975.

FSA No. 42942—*Joint Water-Rail Container Rates—Mitsui O. S. K. Lines*, (No. 7), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea and Hong Kong, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 230]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 13, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or about March 5, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75534. By order entered January 28, 1975, the Motor Carrier Board approved the transfer to John D. Tonkovich & Son, Inc., Shadyside, Ohio, of the operating rights set forth in Certificate No. MC 94599, issued July 2, 1941, to Andrew Alexander, Bellaire, Ohio, authorizing the transportation of sand, gravel, slag, stone, cinders, dirt, red dog, paving brick, and bituminous road building materials, from specified points in Ohio, to points in Pennsylvania and West Virginia; from specified points in West Virginia, to points in Ohio and Pennsylvania within 50 miles of the points of origin; and coal, between specified points in Ohio, on the one hand, and, on the other, specified points in West Virginia. Bernard G. Lancione, 38th & Jefferson Sts., Bellaire, Ohio 43906 and James Duvall, P.O. Box 97, 220 West Bridge St., Dublin, Ohio 43017, co-counsel for applicants.

No. MC-FC-75623. By order of January 29, 1975 the Motor Carrier Board approved the transfer to Lawrence Neppl Trucking, Inc., Halbur, Iowa, of the operating rights in Certificates No. MC 4705 and MC 4705 (Sub-No. 2) issued October 15, 1969 and March 24, 1972 respectively to Lawrence Neppl, Halbur, Iowa, authorizing the transportation of various commodities from and to specified points and areas in Iowa, Nebraska, and Minnesota.

No. MC-FC-75630. By order entered January 28, 1975, the Motor Carrier Board approved the transfer to Pratt Moving & Storage, Inc., Pullman, Wash., of the operating rights set forth in Certificate No. MC 89215, issued October 18, 1949, to Ralph W. Pratt, doing business as Pratt Moving & Storage, Pullman, Wash., authorizing the transportation of such commodities as are dealt in by retail department stores and mail-order houses, between Pullman, Wash., on the

one hand, and, on the other, points in Latah County, Idaho; and household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, agricultural commodities, feed, farm machinery, livestock, fuel wood, and building materials, between points in Latah County, Idaho, on the one hand, and, on the other, points in Spokane, Whitman, and Asotin Counties, Wash., and Nez Perce County, Idaho. George H. Hart, 1100 IBM Building, Seattle, Wash. 98101, attorney for applicants.

No. MC–FC–75633. By order of February 4, 1975, the Motor Carrier Board approved the transfer to Furniture Transport, Inc., Frankfort, Ky., of a portion of the operating rights in Certificate No. MC 129701 (Sub-No. 1) issued May 6, 1970 to Jasper Furniture Forwarding, Inc., Jasper, Ind., authorizing the transportation of new furniture, crated, from points in Boyle, Fayette, and Green Counties, Ky. to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia. Robert H. Kinker, 711 McClure Bldg., Frankfort, Ky., 40601 Attorney for applicants.

No. MC–FC–75636. By order of February 5, 1975, the Motor Carrier Board approved the transfer to Town & Country Van Lines, Inc., Feasterville, Pa., of the operating rights in Certificate No. MC–25433 issued April 8, 1960 to Robert Longstreet and Howard Beaumont, doing business as Town & Country Van Lines, Feasterville, Pa., authorizing the transportation of household goods between Philadelphia, Pa., on the one hand, and, on the other, points in New York, New Jersey, Delaware and Maryland. Harry J. Leiderbach, 892 Second St. Pike, Richboro, Pa., 18954 Attorney for applicants.

[Notice No. 16]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 7, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210 (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2392 (Sub-No. 98TA), filed January 29, 1975. Applicant: WHELLER TRANSPORT SERVICE, INC., 7722 "F" Street, P.O. Box 14248 West Omaha Station, Omaha, Nebr. 68114. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

FEBRUARY 7, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission *within 10 days* from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 200 (Sub-No. E1), filed June 4, 1974. Applicant: RISS INTERNATIONAL CORPORATION, P.O. Box 2809, Kansas City, Mo. 64142. Applicant's representative: Ivan E. Moody (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Philadelphia, Pa., on the one hand, and, on the other, points in Nassau and Suffolk Counties, New York. The purpose of this filing is to eliminate the gateway of Rockland County, N.Y.

No. MC 2633 (Sub-No. E1), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank trucks, from points in Warren County, Pennsylvania, to points in that part of Ohio on or bounded by a line beginning at Lake Erie and extending along U.S. Highway 21 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio-Pennsylvania State line, thence along Ohio-Pennsylvania State line to junction Ohio Highway 165, thence along Ohio Highway 165 to Ohio Highway 14, thence along Ohio Highway 14 to Lake Erie. The purpose of this filing is to eliminate the gateway of points in Chautauqua County, New York, which are within 15 miles of Erie, Pennsylvania.

No. MC 2633 (Sub-No. E3), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank vehicles, from Bolivar, Wellsville, Buffalo, and points within ten miles of Buffalo, Ithaca, Rochester, and Syracuse, New York, to points in that part of Ohio on or bounded by a line beginning at Lake Erie and extending along U.S. Highway 20 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio-Pennsylvania State line, thence along Ohio-Pennsylvania State line to junction Ohio Highway 165, thence along Ohio Highway 165 to Ohio Highway 14, thence along Ohio Highway 14 to Lake Erie. The purpose of this filing is to eliminate the gateways of points in Erie County, Pennsylvania, and points within 15 miles thereof.

No. MC 2633 (Sub-No. E4), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products* (except chemicals) in bulk, in tank vehicles, from points in Allegany, Cattaraugus, Chautauqua, Erie and Niagara Counties, New York, to points in Connecticut, Massachusetts, New Hampshire, Rhode Island, and Vermont, those points in Maine on and south of Maine Highway 25, including Portland, and points in Ulster, Dutches, Orange, Putnam, Westchester, Rockland, Nassau, and Suffolk Counties, and New York City, New York, and points in New Jersey north of the Northern boundaries of Mercer and Monmouth Counties. The purpose of this filing is to eliminate the gateway of Bradford, Pennsylvania.

No. MC 2633 (Sub-No. E7), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from points in Wayne County, New York, which are north of New York Highway 31, to points in Cameron, Clarion, Clearfield, Forest, Jefferson, and Mercer Counties, Pennsylvania. The purpose of this filing is to eliminate the gateways of points in McKean County, and Bolivar, and Wellsville, New York.

No. MC 2633 (Sub-No. E8), filed May 12, 1974, Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank trucks, from those points in Wayne County, New York, north of New York Highway 31, to points in Crawford and Elk Counties, Pennsylvania. The purpose of this filing is to eliminate the gateways of points in McKean County, Pennsylvania, and Olean, New York.

No. MC 2633 (Sub-No. E9), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank vehicles, from those points in Ohio north and east of a line beginning at Lake Erie and extending along Ohio Highway 14 to junction Ohio Highway 165, thence along Ohio Highway 165 to the Ohio-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Warren, Pennsylvania, and points within seven miles thereof, and Olean, New York.

No. MC 2633 (Sub-No. E10), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank vehicles, from those points in Ohio on and east of a line beginning at Lake Erie and extending along Ohio Highway 165 to the Ohio-Pennsylvania State line. The purpose of this filing is to eliminate the gateways of Warren, Pennsylvania, and points within seven miles thereof, and Bolivar, and Wellsville, New York.

No. MC 2633 (Sub-No. E11), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from the pipeline terminal of the Standard Oil Company of Ohio at or near Niles, Ohio, to those points in Wayne County, New York, north of New York Highway 31. The purpose of this filing is to eliminate the gateways of Ripley, New York, and points in McKean County, Pennsylvania.

No. MC 2633 (Sub-No. E17), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, except liquified petroleum gases, from points in Steuben County, New York, to Erie, Pennsylvania, and points on the Allegheny, Monongahela, and Ohio Rivers, which are in Allegheny, Armstrong, Beaver, and Clarion Counties, Pennsylvania. The purpose of this filing is to eliminate the gateways of points in Butler County.

No. MC 21170 (Sub-No. E8), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouse*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), restricted to the transportation of such commodities as are dealt in by wholesale, retail, or chain grocery stores, from the facilities of Snyder Packing Co., Adams County, Nebraska, to points in Minnesota, restricted to traffic originating at the facilities of Snyder Packing Co., in Adams County, Nebraska. The purpose of this filing is to eliminate the gateway of Iowa.

No. MC 21170 (Sub-No. E9), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa, 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Meats, meat products, and meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, (Except commodities in bulk and hides), from points in that part of Minnesota bounded by a line beginning at the Minnesota-South Dakota State line and extending along Minnesota Highway 30 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Minnesota-Iowa State line, thence along the Minnesota-Iowa State line to the Minnesota-South Dakota State line, thence along Minnesota-South Dakota State line to point of beginning, to Kenosha, Madison, Milwaukee, and Racine, Wisconsin. The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa restricted to the transportation of such commodities as are dealt in by wholesale, retail or chain grocery stores.

No. MC 21170 (Sub-No. E10), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa, 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products*, and *meat by-products*, and *articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), restricted to the transportation of such commodities as are dealt in by wholesale, retail, or chain grocery stores, from the plant site of Cornland Dressed Beef Company, at or near Lexington, Nebraska, to Kenosha, La Crosse, Madison, and Milwaukee, Wisconsin. The purpose of this filing is to eliminate the gateways of that part of Missouri bounded by a line beginning at the Missouri-Kansas State line and extending along U.S. Highway 50 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Missouri-Iowa State line, thence along Missouri-Iowa State line to the Missouri-Nebraska State line, thence along Missouri-Nebraska State line to the Missouri-Kansas State line, thence along Missouri-Kansas State line to point of beginning, and Cedar Rapids, Iowa.

No. MC 22182 (Sub-No. E1), filed June 4, 1974. Applicant: NU-CAR CARRIERS, INC., P.O. Box 172, Bryn Mawr, Pa. 19010. Applicant's representative: Gerald K. Gimmel, 303 N. Frederick Ave., Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*,

XUM
V40-31 FEB 13 75 XUM

by motor vehicle, over irregular routes, transporting: (A) *Automobiles, trucks, and chassis*, new, used and unfinished, in secondary movements, in truckaway service, between points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, and Connecticut, on the one hand, and, on the other, points in Virginia, Maryland, West Virginia, Pennsylvania, Delaware, and the District of Columbia (points in New York) *; (B) *Automobile, trucks, chassis, and unfinished automobiles*, in secondary movements, in truckaway service, restricted to traffic originating at points other than those in Michigan and Indiana, between points in Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island, on the one hand, and, on the other, points in Ohio, North Carolina, South Carolina, Georgia, and Florida (points in New York) *; (C) *Automobiles, trucks, chassis, and unfinished automobiles*, in secondary movements, in driveaway service, restricted to traffic originating at points other than those in Michigan and Indiana, between points in Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, on the one hand, and, on the other, points in Delaware, Ohio, Florida, North Carolina, South Carolina, and Georgia (points in New York) *; (D) *Automobiles, trucks, and chassis*, new, used or unfinished, in secondary movements, in driveaway service, between points in Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island, on the one hand, and, on the other, points in Virginia, Maryland, West Virginia, Pennsylvania, and the District of Columbia, restricted to shipments originating at points other than those in Indiana and Michigan or at Toledo, Ohio (points in New York) *;

Thence along Interstate Highway 75 to its junction with Florida Highway 688, thence along Florida Highway 688 to the Gulf of Mexico (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, and (3) from Detroit, Mich, to points in that part of Pennsylvania in and east of Tioga, Lycoming, Clinton, Centre, Huntingdon, and Bedford Counties, Pa., points in that part of Maryland on and east of unnumbered highway running through Piney Grove and Little Orleans, Md., points in the District of Columbia, and points in that part of Virginia in and east of Hampshire, Morgon, Berkley, and Jefferson Counties, W. Va., points in Frederick, Shenandoah, Rockingham, Augusta, Rockbridge, Bedford, and Pittsylvania Counties, Va. (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *; (G) *New automobiles and new trucks*, in truckaway and driveaway service, in secondary movements, from the destination points described in (F) above to the point of origin as described in (F) above; (H) *New automobiles and new trucks*, in truckaway and driveaway service, in initial and secondary movements, (1) from Toledo, Ohio, to points in Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island (points in New York and those in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, and (2) from Toledo, Ohio, to points in Connecticut, those in New York on and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 37 to its junction with New York Highway 185, thence along New York Highway 185 to its junction with New York Highway 26, thence along New York Highway 26 to its junction with New York Highway 365, thence along New York Highway 365 to its junction with New York Highway 5, thence along New York Highway 5 to its junction with New York Highway 96, thence along New York Highway 96 to its junction with New York Highway 414, thence along New York Highway 414 to its junction with New York Highway 329, thence along New York Highway 329 to its junction with U.S. Highway 15.

Thence along U.S. Highway 15 to the New York-Pennsylvania State line, points in New Jersey, Delaware, those in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along the Rockingham-Caswell County line to its junction with North Carolina Highway 87, thence along North Carolina Highway 87 to its junction with Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line, and points in that part of South Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 501 to its junction with South Carolina Highway 41A, thence along South Carolina Highway 41A to its junction with South Carolina Highway 41, thence along South Carolina Highway 41 to its junction with U.S. Highway 17, thence along U.S. Highway 17 to the South Carolina-Georgia State line (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, and (3) from Toledo, Ohio, to points in that part of Pennsylvania in and east of Tioga, Lycoming, Clinton, Centre, Huntingdon, and Fulton Counties, Pa., points in the District of Columbia, those in that part of Maryland on and east of unnumbered highway running through Piney Grove and Little Orleans, Md., points in Morgan, Berkley, and Jefferson Counties, W. Va., and points in that part of Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along the Highland-Augusta County line to its junction with U.S. Highway 250, thence along U.S. Highway 250 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S. Highway 501, thence along U.S. Highway 501 to its junction with U.S. Highway 29, thence along U.S. Highway 29 to the Virginia-North Carolina State line (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, (2) from Toledo, Ohio, to points in Connecticut, those in New York on and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 37 to its junction with New York Highway 185, thence along New York Highway 185 to its junction with New York Highway 26, thence along New York Highway 26 to its junction with New York Highway 365, thence along New York Highway 365 to its junction with New York Highway 5, thence along New York Highway 5 to its junction with New York Highway 96, thence along New York Highway 96 to its junction with New York Highway 414, thence along New York Highway 414 to its junction with New York Highway 329, thence along New York Highway 329 to its junction with U.S. Highway 15.

Thence along U.S. Highway 15 to the New York-Pennsylvania State line, points in New Jersey, Delaware, those in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along the Rockingham-Caswell County line to its junction with North Carolina Highway 87, thence along North Carolina Highway 87 to its junction with Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line, and points in that part of South Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 501 to its junction with South Carolina Highway 41A, thence along South Carolina Highway 41A to its junction with South Carolina Highway 41, thence along South Carolina Highway 41 to its junction with U.S. Highway 17, thence along U.S. Highway 17 to the South Carolina-Georgia State line (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, and (3) from Toledo, Ohio, to points in that part of Pennsylvania in and east of Tioga, Lycoming, Clinton, Centre, Huntingdon, and Fulton Counties, Pa., points in the District of Columbia, those in that part of Maryland on and east of unnumbered highway running through Piney Grove and Little Orleans, Md., points in Morgan, Berkley, and Jefferson Counties, W. Va., and points in that part of Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along the Highland-Augusta County line to its junction with U.S. Highway 250, thence along U.S. Highway 250 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S. Highway 501, thence along U.S. Highway 501 to its junction with U.S. Highway 29, thence along U.S. Highway 29 to the Virginia-North Carolina State line (points in Berks, Bucks,

Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *

(I) *New automobiles and new trucks*, in truckaway and driveaway service, in secondary movements, from the destination points described in (H) above to the point of origin as described in (H) above; (J) *New automobiles and new trucks*, in truckaway and driveaway service, in initial and secondary movements, (1) from Buffalo, N.Y., to points in Maine, those in that part of New Hampshire on and east of a line beginning at the Maine-New Hampshire State line and extending along U.S. Highway 2 to its junction with New Hampshire Highway 16, thence along New Hampshire Highway 16 to its junction with New Hampshire Highway 28, thence along New Hampshire Highway 28 to its junction with U.S. Highway 3, thence along U.S. Highway 3 to its junction with New Hampshire Highway 111, thence along New Hampshire Highway 111 to the Massachusetts-New Hampshire State line, points in that part of Massachusetts on, east, and south of a line beginning at the New Hampshire-Massachusetts State line and extending along Massachusetts Highway 111 to its junction with Massachusetts Highway 225, thence along Massachusetts Highway 225 to its junction with Massachusetts Highway 12, thence along Massachusetts Highway 12 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to the New York-Massachusetts State line, and points in Rhode Island (points in New York and those in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, (2) from Buffalo, N.Y., to points in Delaware, New Jersey, North Carolina, South Carolina, Georgia, Florida, and Connecticut (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *, and (3) from Buffalo, N.Y., to points in that part of New York on, east, and south of a line beginning at the Massachusetts-New York State line and extending along Interstate Highway 90 to its junction with U.S. Highway 9, thence along U.S. Highway 9 to its junction with New York Highway 199, thence along New York Highway 199 to its junction with U.S. Highway 209, thence along U.S. Highway 209 to its junction with New York Highway 52, thence along New York Highway 52 to its junction with New York Highway 17.

Thence along New York Highway 17 to the New York-Pennsylvania State line, points in that part of Pennsylvania in and east of Wayne, Susquehanna, Wyoming, Sullivan, Lycoming, Union, Snyder, Mifflin, Juniata Counties, and that portion of Huntingdon County east of U.S. Highway 522, points in Maryland, the District of Columbia, Virginia, and points in West Virginia in Jefferson, Berkeley, Morgan, Hampshire, Mineral, Hardy, Grant, Pendleton, Randolph, Webster, Pocahontas, Greenbrier, Monroe, and Summers Counties and those portions of Nicholas, Fayette, Raleigh, and Mercer Counties on and east of U.S. Highway 19 (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *; (K) *New automobiles and new trucks*, in truckaway and driveaway service, in secondary movements, from the destination points described in (J) above to the point of origin as described in (J) above; (L) *New automobiles and new trucks*, in truckaway and driveaway service, in initial and secondary movements, (1) from West Springfield, Pa., to points in Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island (points in New York and those in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill and York Counties, Pa.) *, (2) from West Springfield, Pa., to points in Connecticut, New Jersey, Delaware, North Carolina, South Carolina, Florida and Georgia (except points in Whitfield, Catoosa, Walker, Dade, and Chattooga Counties, Ga.) (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *; and (3) from West Springfield, Pa., to points in that part of New York on and east of a line beginning at the Vermont-New York State line and extending along U.S. Highway 4 to its junction with New York Highway 32, thence along New York Highway 32 to its junction with U.S. Highway 9, thence along U.S. Highway 9 to its junction with New York Highway 50, thence along New York Highway 50 to its junction with New York Highway 7, thence along New York Highway 7 to its junction with U.S. Highway 20.

Thence along U.S. Highway 20 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with New York Highway 17, thence along New York Highway 17 to its junction with U.S. Highway 220, thence along U.S. Highway 220 to the New York-Pennsylvania State line, points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line and extending along the Tioga-Bradford County line to its junction with the Tioga-Lycoming County line, thence along the Tioga-Lycoming County line to its junction with Pennsylvania Highway 44, thence along Pennsylvania Highway 44 to its junction with Pennsylvania Highway 664, thence along Pennsylvania Highway 664 to its junction with U.S. Highway 220, thence along U.S. Highway 220 to its junction with Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to its junction with Pennsylvania Highway 64, thence along Pennsylvania Highway 64 to its junction with Pennsylvania Highway 445, thence along Pennsylvania Highway 445 to its junction with Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to its junction with Pennsylvania Highway 235, thence along Pennsylvania Highway 235 to its junction with Pennsylvania Highway 35, thence along Pennsylvania Highway 35 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with Pennsylvania Highway 75, thence along Pennsylvania Highway 75 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Pennsylvania-Maryland State line, points in the District of Columbia, points in that part of Maryland on and east of a line beginning at the Maryland-Pennsylvania State line and extending along Interstate Highway 70 to its junction with U.S. Highway 522 to the Maryland-West Virginia State line, points in that part of West Virginia on and east of U.S. Highway 522, and points in that part of Virginia on and east of U.S. Highway 21 (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, Pa.) *;

(M) *New automobiles, new trucks, and new chassis*, in truckaway service, in initial movements, (1) from points of manufacture and assembly in Norfolk, Va., to points in Maryland, West Virginia, New Jersey, Delaware, Pennsylvania, and New York (points in Virginia) *, (2) from points of manufacture and assembly in Norfolk, Va., to points in Ohio, Florida, Georgia, and Connecticut (points in Virginia) *, and (3) from points of manufacture and assembly in Norfolk, Va., to points in Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine (points in Virginia and New York) *. RESTRICTION: The operations authorized in (F) (1) and (2), (H) (1) and (2), (J) (1) and (2), (L) (1) and (2), and (M) (2) above (except truckaway service to and from points in New York, New Jersey, Delaware, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine), are restricted to shipments originating at points other than those in Indiana and Michigan or at Toledo, Ohio. The operations authorized in (M) above are restricted to the performance of through transportation of traffic from places of manufacture and assembly in Norfolk, Va. The purpose of

V 40 31 FEB 13 75 XUM XUM

this filing is to eliminate the gateways indicated by asterisks above.

No. MC 30844 (Sub-No. E2), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED EXPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared infant foods*, from Fremont, Michigan to points in Texas, Oklahoma, Kansas, Nebraska, Colorado, Points in that part of Missouri on and west of U.S. Highway 65, and points in that part of Arkansas, on and west of a line beginning at the Missouri-Arkansas State line, thence along U.S. Highway 65 to junction U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E3), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED EXPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Decatur, Lawton, and Mattawan, Michigan, to points in Texas, Oklahoma, Kansas, and Colorado, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E4), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED EXPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared frozen foods*, (1) from points in Oklahoma, Kansas, points in that part of Missouri on and west of U.S. Highway 65, and points in that part of Texas on and west of U.S. Highway 65 to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and the District of Columbia, and (2) from Russellville, Arkansas to points in Connecticut, Massachusetts, and Rhode Island, with no transportation for compensation on return in (1) and (2) above, except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 31462 (Sub-No. E62), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Indiana State line, on the one hand, and, on the other, points in Connecticut. The purpose of this filing is to eliminate the gateway of (1) Fort Wayne, Indiana, or any point in Indiana within 40 miles thereof; (2) Burlington, Iowa, or any point within 50 miles thereof; (3) Williston, North Dakota, or any point in North Dakota within 200 miles thereof; and (4) any point which is both within 35 miles of Alden, Minnesota and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E63), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Wisconsin on, west and north of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 51 to Jamesville, thence along Wisconsin Highway 26 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 41, thence along U.S. Highway 41 to Wisconsin-Michigan State line, to points in Connecticut. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Burlington, Iowa, and points within 50 miles thereof.

No. MC 31462 (Sub-No. E64), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Connecticut, on the one hand, and, on the other, points in that part of Texas west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 259 to Lufkin, thence along U.S. Highway 59 to Houston, thence along U.S. Highway 75 to the Gulf of Mexico at Galveston. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; Kansas City, Missouri, and points within 30 miles thereof; and points in Okmulgee County, Oklahoma.

No. MC 31462 (Sub-No. E242), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 259 to Lufkin, Tex., thence along U.S. Highway 59 to Houston, Tex., thence along U.S. Highway 75 to the Gulf of Mexico at Galveston, Tex., on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof; Ft. Wayne, Ind., and points in Indiana within 40 miles thereof; and Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E243), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Idaho-Montana State line, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; (4) Hoosick Falls, New York, and (5) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on or south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E250), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Wisconsin on and west of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 51 to Janesville, Wisconsin, thence along Wisconsin Highway 26 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Wisconsin-Michigan State line, to points in Maine. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E253), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in North Dakota, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa and points within 50 miles thereof; (2) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and (3) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E254), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of Kansas City, Kansas, and points within 30 miles thereof; and Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E255), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Nebraska, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof; and Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E256), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Massachusetts to points in Maryland. The purpose of this filing is to eliminate the gateway of East St. Louis, Illinois, and points within 50 miles thereof; and Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E258), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in South Dakota, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, and points within 50 miles thereof; (2) Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and (3) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E260), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi to points in Massachusetts. The purpose of this filing is to eliminate the gateway of Cairo, Illinois, and points within 25 miles thereof; and Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E261), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Nebraska, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof, and Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E262), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Kansas City, Missouri and points within 30 miles thereof, and Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E263), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in South Dakota, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa and points within 50 miles thereof, (2) Fort Wayne, Indiana, and points in Indiana within 40 miles thereof; and (3) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E264), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof; and Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E265), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in North Dakota, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of (1) Burlington, Iowa, and points within 50 miles thereof; (2) Fort Wayne, Indiana and points in Indiana within 40 miles thereof; and (3) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E267), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster,

Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other points in Michigan. The purpose of this filing is to eliminate the gateway of points in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E269), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in Vermont. The purpose of this filing is to eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E270), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E273), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in Tennessee. The purpose of this filing is to eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E274), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan, to points in North Carolina. The purpose of this filing is to eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E275), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 301, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in New York, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of West Virginia on and north of a line beginning at the West Virginia-Virginia State line extending along West Virginia Highway 39 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Ohio River. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E276), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Pennsylvania on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Alternate U.S. Highway 77, thence along Alternate U.S. Highway 77 to U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 181, thence along U.S. Highway 181 to Corpus Christi, Tex. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points within Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E411), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New Jersey, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Alternate U.S. Highway 77, thence along Alternate U.S. Highway 77 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 181, thence along U.S. Highway 181 to Corpus Christi, Tex. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points within Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E412), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in the District of Columbia, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Alternate U.S. Highway 77, thence along Alternate U.S. Highway 77 to junction U.S. Highway 191, thence along U.S. Highway 181 to Corpus Christi, Tex. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E413), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of West Virginia on and north of a line beginning at the West Virginia-Virginia State line extending along West Virginia Highway 39 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Ohio River. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E414), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of Virginia on and north of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to Reedville, Va. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E416), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 259 to Lufkin, thence along U.S. Highway 59 to Houston, thence along U.S. Highway 75 to the Gulf of Mexico at Galveston, on the one hand, and, on the other, points in Vermont. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, Fort Wayne, Ind., and points in Indiana within 40 miles thereof, and Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E417), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of Virginia on and north of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to Reedville, Va. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E414), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of Virginia on and north of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to Reedville, Va. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E416), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 259 to Lufkin, thence along U.S. Highway 59 to Houston, thence along U.S. Highway 75 to the Gulf of Mexico at Galveston, on the one hand, and, on the other, points in Vermont. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, Fort Wayne, Ind., and points in Indiana within 40 miles thereof, and Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E417), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Alternate U.S. Highway 77, thence along Alternate U.S. Highway 77 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 181, thence along U.S. Highway 181 to Corpus Christi, Tex. The purpose of this filing is to eliminate the gateways of points in Okmulgee County, Okla., Kansas City, Mo., and points within 30 miles thereof, and Fort Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E418), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Wisconsin on and west of a line beginning at the Michigan-Wisconsin State line extending along U.S. Highway 51 to Wisconsin Dells, thence along Wisconsin Highway 33 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Illinois State line, to points in Vermont. The purpose of this filing is to eliminate the gateways of Burlington, Iowa, and points within 50 miles thereof; and Fort Wayne, Ind., and points in Indiana within 40 miles thereof, and Hoosick Falls, N.Y.

No. MC 37248 (Sub-No. E3), filed May 31, 1974. Applicant: VIRGINIA-CAROLINA FREIGHT LINES, INC., P.O. Box 4988, Martinsville, Va. 24112. Applicant's representative: T. C. Clark (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (1) between points in Virginia, on the one hand, and, on the other, the District of Columbia, and points in that part of Maryland within 55 miles of Gaithersburg, Md. (points in that part of Virginia within 55 miles of Gaithersburg, Md.)*; and (2) between points in North Carolina, on the one hand, and, on the other, the District of Columbia and points in that part of Maryland within 55 miles of Gaithersburg, Md. (a) points in Virginia, and (b) points in that part of Virginia located within 55 miles of Gaithersburg, Md.]*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 51146 (Sub-No. E14) (Correction), filed November 2, 1974, published in the FEDERAL REGISTER December 18, 1974. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wisc. 54306. Applicant's representative: Neil A. DuJardin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (14) *Paper and paper products* (except commodities in bulk), from the facilities of the Nekoosa Edwards Paper Co., Inc., at or near Potsdam, N.Y., to Memphis, Tenn., and points in Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, and points in (North Carolina on and west of a line beginning at the intersection of the Tennessee-North Carolina State line and U.S. Highway 25, thence along U.S. Highway 25 to the North Carolina-South Carolina State line, and points in South Carolina on and west of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 176, thence along U.S. Highway 176 to its intersection with South Carolina Highway 121, thence along South Carolina Highway 121 to its intersection with U.S. Highway 25 near Trenton, thence along U.S. Highway 25 to the Georgia-South Carolina State line). (32) *paper and paper products* (except commodities in bulk), from points in Indiana on, north and east of a line beginning at the intersection of the Michigan-Indiana State line and U.S. Highway 31, thence along U.S. Highway 31 to its intersection with Indiana Highway 25, thence along Indiana Highway 25 to Logansport, thence along U.S. Highway 24 to the Indiana-Ohio State line, to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, and points in New York on and east of a line beginning at the intersection of the International Boundary between the United States and Canada and New York Highway 56, thence along New York Highway 56 to its intersection with New York Highway 3, thence along New York Highway 3 to Tupper Lake, thence along New York Highway 30 to the Pennsylvania-New York State line, points in Alabama on and south of a line beginning at the intersection of the Mississippi-Alabama State line and U.S. Highway 11, thence along U.S. Highway 11 to Tuscaloosa, thence along U.S. Highway 83 to its intersection with Alabama Highway 25, thence along Alabama Highway 25 to its intersection with Alabama Highway 76, thence along Alabama Highway 76 to its intersection with Alabama Highway 21, thence along Alabama Highway 21 to its intersection with U.S. Highway 76.

Thence along U.S. Highway 78 to the Alabama-Georgia State line, points in Mississippi on, south and east of a line beginning at Natchez, Miss., thence along

Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(40) *paper and paper products*, (except commodities in bulk), from points in the Lower Peninsula of Michigan on and west of U.S. Highway 27, to points in Maine, New Hampshire, Rhode Island, Delaware, Maryland, Virginia, North Carolina, South Carolina, Connecticut, Massachusetts (except points west of U.S. Highway 7), Vermont (except points west of U.S. Highway 7), New York (except points north and west of a line beginning at Hillburn, thence along Interstate Highway 87 to its intersection with U.S. Highway 44, thence along U.S. Highway 44 to the New York-Connecticut State line), New Jersey (except points north and west of a line beginning at the intersection of the Pennsylvania-New Jersey State line and Interstate Highway 78, thence along Interstate Highway 78 to its intersection with U.S. Highway 202, thence along U.S. Highway 202 to the New York-New Jersey State line), Alabama (except points north and west of a line beginning at the intersection of the Alabama-Mississippi State line and U.S. Highway 82, thence along U.S. Highway 82 to Tuscaloosa, thence along U.S. Highway 11 to the Alabama-Georgia State line), Mississippi (except points north of U.S. Highway 80), Texas (except points north and east of a line beginning at the intersection of the New Mexico-Texas State line and U.S. Highway 66, thence along U.S. Highway 66 to Amarillo, thence along U.S. Highway 287 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 84, thence along U.S. Highway 84 to the Texas-Louisiana State line) and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper from points in Michigan on and south of Michigan Highway 21.

(41) *paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan on and east of U.S. Highway 27, to Memphis, Tenn., and points in Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Alabama, North Carolina, South Carolina, Virginia (except points north of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay), Kansas (except points north of U.S. Highway 24) and Missouri (except points north and east of a line beginning at Kansas City, Mo., thence along U.S. Highway 71 to its junction with Missouri Highway 7, thence along Missouri Highway 7 to its intersection with U.S. Highway 66, thence along U.S. Highway 66 to Rolla, thence along Missouri Highway 72 to its intersection with Missouri Highway 51, thence along Missouri Highway 51 to the Missouri-Illinois State line). Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper from points in Michigan on and south of Michigan Highway 21. (42) *paper and paper products* (except commodities in bulk), from Niles, Mich., to Memphis, Tenn., and points in Texas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, New York (except points north of a line beginning at Fort Smith, thence along U.S. Highway 71 to its junction with Arkansas Highway 10, thence along Arkansas Highway 10 to Little Rock, thence along U.S. Highway 70 to the Arkansas-Tennessee State line), Oklahoma (except points north and east of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. Highway 77, thence along U.S. Highway 77 to Ponca City, thence along U.S. Highway 177 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Oklahoma State line), and points in Kansas (except those points north and east of a line beginning at the intersection of the Colorado-Kansas State line and U.S. Highway 50, thence along U.S. Highway 50 to Dodge City, thence along U.S. Highway 283 to the Oklahoma-Kansas State line). Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(51) *paper and paper products* (except commodities in bulk), from points in Indiana on and within an area bordered on the west by the Indiana-Illinois State line, on the north by U.S. Highway 24, on the east by a line beginning at Logansport, thence along Indiana Highway 29 to its junction with U.S. Highway 421, thence along U.S. Highway 421 to Indianapolis, and on the south by U.S. Highway 40, to points in New York, Maine, Vermont, Massachusetts, New Hampshire, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia (except points southwest of a line beginning at the intersection of the Kentucky-Virginia State line, thence along U.S. Highway 23 to Norton, thence along Alternate U.S. Highway 58 to its junction with U.S. Highway 58, thence

along U.S. Highway 58 to Bristol), North Carolina (except points west of a line beginning at the intersection of the Virginia-North Carolina State line and U.S. Highway 21, thence along U.S. Highway 21 to its intersection with North Carolina Highway 18, thence along North Carolina Highway 18 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to its intersection with U.S. Highway 221, thence along U.S. Highway 221 to the North Carolina-South Carolina State line), South Carolina (except points west of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 221, thence along U.S. Highway 221 to its intersection with Interstate Highway 85, thence along Interstate Highway 85 to the Georgia-South Carolina State line), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(54) *paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the north by the Indiana-Kentucky State line, on the west by U.S. Highway 40, on the south by the Tennessee-Kentucky State line, and on the east by Interstate Highway 65, to points in New York, Maine, Vermont, New Hampshire, Connecticut, Massachusetts, Rhode Island, New Jersey, points in Virginia on and north of U.S. Highway 50 points in Maryland, on and north of U.S. Highway 50, points in North Dakota on, north and east of a line beginning at the intersection of the Montana-North Dakota State line and U.S. Highway 2, thence along U.S. Highway 2 to its intersection with U.S. Highway 281, thence along U.S. Highway 281 to the International Boundary line between Canada and the United States, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper. (56) *paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the west by Interstate Highway 65, on the north by U.S. Highway 60, on the east by U.S. Highway 25, and on the south by the Tennessee-Kentucky State line, to points in North Dakota, Maine, New Hampshire, Vermont, South Dakota (except points south and east of a line beginning at the intersection of the Nebraska-South Dakota State line and U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the South Dakota-Minnesota State line), New York (except points south of a line beginning at Narrowsburg, thence along New York Highway 52 to its intersection with U.S. Highway 209, thence along U.S. Highway 209 to its junction with U.S. Highway 44, thence along U.S. Highway 44 to the Connecticut-New York State line), and Massachusetts (except points south and east of a line beginning at the intersection of the Connecticut-Massachusetts State line and U.S. Highway 7, thence along U.S. Highway 7 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to Springfield, thence along U.S. Highway 5 to its intersection with U.S. Highway 202, thence along U.S. Highway 202 to its intersection with Massachusetts Highway 9, thence along Massachusetts Highway 9 to Boston). Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(58) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the west by U.S. Highway 25, on the southeast by U.S. Highway 68, and on the northeast by the Ohio State line (except points in the Cincinnati-Ohio Commercial Zone as defined by the Commission, which are in Kentucky), to points in North Dakota, South Dakota, Nebraska, Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, those points in Maryland on and north of a line beginning at the intersection of the Maryland-Pennsylvania State line and U.S. Highway 11, thence along U.S. Highway 11 to Hagerstown, thence along U.S. Highway 40 to Baltimore, thence along Maryland Highway 2 to Annapolis, thence along U.S. Highway 50 to its termination on the Atlantic Ocean, points in Kansas on and west of a line beginning at Atchison, thence along Kansas Highway 4 to Topeka, thence along Interstate Highway 35 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, those points in Oklahoma on and west of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. Highway 77, thence along U.S. Highway 77 to its intersection with Oklahoma Highway 19, thence along Oklahoma Highway 19 to its intersection with U.S. Highway 277, thence along U.S. Highway 277 to the Oklahoma-Texas State line, and points in Texas on and west of a line beginning at the intersection of the Texas-Oklahoma State line and U.S. Highway 277 to Eagle Pass, Tex. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(69) *paper and* paper products (except commodities in bulk), from Tullahoma, Tenn., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, North Dakota, South Dakota (except points south and east of a line beginning at the intersection of the Nebraska-South Dakota State line and South Dakota Highway 47, thence along South Dakota Highway 47 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to the Minnesota-South Dakota State line), points in Nebraska on, north and west of a line beginning at the intersection of the Wyoming-Nebraska State line and U.S. Highway 26, thence along U.S. Highway 26 to its intersection with U.S. Highway 385, thence along U.S. Highway 385 to the Nebraska-South Dakota State line, and points in New York. Restriction: The authority granted above is restricted against the transportation of cardboard cartons. The purpose of this filing is to eliminate the gateways of the plantsite of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 1–7, 9–36, 38–48, and 50–70 above. Lexington, Ky., and the plantsite of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 37. Points in Little River County, Ark., in 8. Chicago Heights, Ill., and the plantsite of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 49. The purpose of this partial correction is to clarify the commodity descriptions. The remainder of this filing remains as previously published.

No. MC 61592 (Sub-No. E38), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and those which because of size or weight require the use of special equipment), from Glenfield, Pa., to points in South Dakota. The purpose of this filing is to eliminate the gateways of Columbus, Ohio; Ida Grove, Iowa; and the facilities used by the Deutz Tractor Corporation at O'Fallon Industrial Park, St. Charles County, Mo.

No. MC 61592 (Sub-No. E41), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements*, from Kewanee, Ill., to points in South Dakota. The purpose of this filing is to eliminate the gateway of Ida Grove, Iowa.

No. MC 61592 (Sub-No. E61), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and except those which because of size or weight, require the use of special equipment), from the facilities of International Harvester Company at Ports of Entry on the U.S.-Canadian International Boundary line in Maine to points in Louisiana, Mississippi, Missouri, Nebraska, Oklahoma, and Texas, restricted to the transportation of traffic originating at the warehouse facilities of International Harvester Company. The purpose of this filing is to eliminate the gateway of the facilities of International Harvester at Davenport, Iowa.

No. MC 73828 (Sub-No. E1), filed July 8, 1974. Applicant: D & R MOVING & TRUCKING, INC., Suite 1515,

Missouri Highway 39, thence along Missouri Highway 39 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Kansas-Missouri State line, to points in Virginia. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E100), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, from points in Missouri on and east of a line beginning at the Iowa-Missouri State line and extending along U.S. Highway 61 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 73, thence along Missouri Highway 73 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Missouri Highway 39, thence along Missouri Highway 44, thence along Interstate Highway 44 to the Kansas-Missouri State line, to points in Virginia on and south of a line beginning at the Chesapeake Bay and extending along U.S. Highway 360 to junction Virginia Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Virginia-West Virginia State line, and on and north of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 250 to junction Virginia Highway 6, thence along Virginia Highway 6 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Virginia Highway 56, thence along Virginia Highway 56 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Virginia Highway 40, thence along Virginia Highway 40 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 107064 (Sub-No. E18), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Texas 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in that part of Texas in and west of Bailey, Lamb, Garza, Scurry, Mitchell, Coke, Tom Green, Schleicher, Sutton, and Val Verde Counties, Texas, to points in Indiana. The purpose of this filing is to eliminate the gateway of any point in Ector County, Texas.

No. MC 107064 (Sub-No. E20), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Texas 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Bailey, Lamb, Hale, Floyd, Cochran, Hockley, Lubbock, Crosby, Yoakum, Terry, Lynn, Garza, Kent, Gaines, Dawson, Borden, Scurry, Fisher, Andrews, Martin, Howard, Mitchell, Nolan, Loving, Winkler, Midland, Glasscock, Sterling, Coke, Reeves, Ward, Crane, Upton, Reagan, Irion, Tom Green, Pecos, Crockett, Schleicher, Sutton, Presidio, Jeff Davis, Brewster, Terrell, Val Verde, Edwards, Kinney and Maverick Counties, Texas, and those parts of Stonewall, Jones, Taylor, Runnels, Concho, Menard, Kimble, Real, Uvalde, Zavala, Dimmitt, Webb, Zapata, Starr, Hidalgo and Cameron Counties, Texas, which are on and west of U.S. Highway 83, to points in that part of Oregon north and west of a line beginning at the California-Oregon State line, thence along U.S. Highway 395 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Oregon-Idaho State line. The purpose of this filing is to eliminate the gateway of any point in Ector County, Texas.

No. MC 107064 (Sub-No. E21), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Texas 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, (1) from points in that part of Texas in and west of Yoakum, Terry, Lynn, Garza, Scurry, Nolan, Coke, Tom Green, Schleicher, Sutton, and Val Verde Counties, to points in Iowa, and (2) from points in Lubbock County, Texas, to points in that part of Iowa on and east of Interstate Highway 35. The purpose of this filing is to eliminate the gateway of any point in Ector County, Texas.

No. MC 107515 (Sub-No. E195), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats and frozen edible meat products and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 766 (except in bulk), from Norfolk (except imported frozen meats), and Smithfield, Va., to points in Idaho, Nevada, and Utah. The purpose of this filing is to eliminate the gateway of Atlanta, Ga. (The North Carolina gateway has no relevancy.)

No. MC 107515 (Sub-No. E273), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except liquid commodities in bulk, in tank vehicles), from the plant site of Pruden Co., at Suffolk, Va., to points in Oklahoma and Texas. The purpose of this filing is to eliminate the gateways of Goldsboro, N.C., and Montgomery, Ala.

No. MC 114019 (Sub-No. E283), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, household goods as defined by the Commission, classes A and B explosives, livestock, commodities in bulk, and commodities requiring special equipment, between Burns Harbor and points in Porter County, Ind., on the one hand, and, on the other, points in New York, Pennsylvania, West Virginia, Toledo, Ohio, and those points in Ohio on and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 20 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-West Virginia State line, those points in Bergen, Monmouth, Morris, and Somerset Counties, N.J., which are within 20 miles of New York, N.Y., points in Hudson, Essex, Union, Passaic, Middlesex, Mercer, and Hunter Counties, N.J., those points in New Jersey, Delaware, and Maryland which are within 36 miles of Philadelphia, Pa., and Sparrows Point and Baltimore, Md. The purpose of this filing is to elimante the gateway of Gary, Ind.

No. MC 114019 (Sub-No. E284), filed May 24, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish and seafoods*, fresh or frozen, from those points in Massachusetts on and east of a line beginning at the New Hampshire-Massachusetts State line and extending along Massachusetts Highway 1A to junction Massachusetts Highway 3, thence along Massachusetts Highway 3 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Massachusetts-Rhode Island State line, points in Rhode Island on, east, and south of U.S. Highway 1 to points in Anderson, Boyle, Bourbon, Bullitt, Carroll, Casey, Clark, Estill, Fayette, Franklin, Gallatin, Garrard, Grant, Hardin, Harrison, Henry, Jefferson, Jessamine, Larue, Lincoln,

Madison, Marion, Meade, Mercer, Montgomery, Nelson, Nicholas, Oldham, Owen, Powell, Pulaski, Scott, Shelby, Spencer, Taylor, Trimble, Washington, and Woodford Counties, Ky., which are within 134 miles of Louisville. Restricted to shipments moving from, to, or between warehouses or other facilities or retail food and household supply and furnishings business houses, in peddle service. The purpose of this filing is to eliminate the gateway of Louisville, Ky.

No. MC 114211 (Sub-No. E685), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from Oregon, Ill., to points in California, Oregon, Washington, Nevada, Idaho, Montana, North Dakota, and to points in that part of Arizona on and west of a line beginning at the Utah-Arizona State line extending along U.S. Highway 163 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Arizona Highway 264, thence along Arizona Highway 264 to junction Arizona Highway 87, thence along Arizona Highway 87 to junction Arizona Highway 188, thence along Arizona Highway 188 to junction Arizona Highway 88, thence along Arizona Highway 88 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arizona-New Mexico State line; to points in that part of Utah on and west of a line beginning at the Wyoming-Utah State line extending along Utah Highway 44 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Utah Highway 33, thence along Utah Highway 33 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 163, thence along U.S. Highway 163 to the Utah-Arizona State line; to points in that part of Wyoming on and north of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 18 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 530, thence along Wyoming Highway 530 to the Wyoming-Utah State line; and to points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 14 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 14, thence along U.S. Highway 18 to the South Dakota-Wyoming State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn., and points in Iowa.

No. MC 114211 (Sub-No. E686), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa, 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled agricultural implements and parts therefor*, from Clay Center, Kans., to points in that part of New York on and north of a line beginning at Watertown, N.Y., extending along New York Highway 3 to junction New York Highway 86, thence along New York Highway 86 to junction New York Highway 9N, thence along New York Highway 9N to junction New York Highway 373, thence along New York Highway 373 to Port Kent, N.Y., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and the plant site of the Stinar Corporation located at or near Minneapolis, Minn.

No. MC 114211 (Sub-No. E687), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe, from Lone Star, Tex., to points in Montana, North Dakota, South Dakota, Wyoming, and to points in that part of Nebraska on and north of a line beginning at the Colorado-Nebraska State line extending along Interstate Highway 80S to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Nebraska State line; to points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along Illinois Highway 92 to junction Illinois Highway 2, thence along Illinois Highway 2 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line; and to points in that part of Michigan on and north of a line beginning at Traverse City, Mich., extending along Michigan Highway 72 to junction Michigan Highway 33, thence along Michigan Highway 33 to junction Michigan Highway 55, thence along Michigan Highway 55 to Tawas City, Mich., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E688), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled agricultural implements and parts therefor*, from Clay Center, Kans., to points in that part of North Dakota on and east of a line beginning at the United States-Canada International Boundary line extending along North Dakota Highway 1 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction North Dakota Highway 32, thence along North Dakota Highway 32 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction North Dakota Highway 18, thence along North Dakota Highway 18 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota State line; and to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 33 to junction U.S. Highway 16, thence along U.S. Highway 16 to Milwaukee, Wis., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-4121 Filed 2-12-75;8:45 am]

[Notice No. 12]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

FEBRUARY 7, 1975.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

XUM V40-31 FEB 13 75 XUM

protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 647 (Sub-No. 14), filed January 22, 1975. Applicant: EXHIBITORS SERVICE COMPANY, a corporation, 85 Helen Street, McKees Rocks, Pa. 15136. Applicant's representative: Samuel P. Delisi, 530 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs* in vehicles equipped with mechanical refrigeration; and (2) *Frozen fish and agricultural commodities*, the transportation of which is otherwise exempt from economic regulation under Section 203(b)(6) of the Act, in mixed loads with the commodities in (1) above, in vehicles equipped with mechanical refrigeration, between points in Allegheny County, Pa., on the one hand, and, on the other, points in Roanoke County, Va.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 11207 (Sub-No. 354), filed January 23, 1975. Applicant: DEATON, INC., 317 Ave. W., P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: Kim D. Mann, 702 World Center Building, 918 16th St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles* (except commodities which because of size or weight require special equipment), from the facilities of Georgetown Steel Corp., located at Georgetown, S.C., to points in Florida.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Atlanta, Ga.

No. MC 16502 (Sub-No. 17), filed November 11, 1974. Applicant: WILLIAM A. ROBINSON, HENRY CLAY ROBINSON, JR., RICHARD RAY ROBINSON AND FRANK TAYLOR ROBINSON, a partnership, doing business as ROBINSON TRUCK LINES, West Main Street, P.O. Box 747, West Point, Miss. 39773. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty Bank Building, P.O. Box 22728, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving the facilities of Weyerhaeuser Company, at or near Columbus, Miss., as an off-route point in connection with applicant's regular route authority between Memphis, Tenn., and Macon, Miss.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or Memphis, Tenn.

No. MC 20783 (Sub-No. 107), filed October 4, 1974. Applicant: TOMPKINS MOTOR LINES, INC., P.O. Box 1830, Gadsden, Ala. 35902. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from Louisville, Ky., and Knoxville, Tenn., to points in Alabama, Florida and Georgia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 29886 (Sub-No. 322), filed January 10, 1975. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 400 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles* and *motor vehicle chassis*, in initial movements, in driveaway and truckaway service, and *bodies, cabs*, and *parts* of and *accessories* for such vehicles, from the plant site of International Harvester Company in San Leandro, Calif., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 42487 (Sub-No. 831), filed December 26, 1974. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Applicant's representative: E. T. Liipfert, Suite 1100–1660 L Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, and assembled automobiles), (1) Between Billings, Mont., and junction U.S. Highways 26 and 30, near Ogallala, Nebr., as an alternate route for operating convenience only, in connection with carrier's authorized regular-route operations, serving no intermediate points, but serving junction U.S. Highways 26 and 30 for purposes of joinder only: From Billings, over Interstate Highway 90 to junction U.S. Highway 87 near Buffalo, Wyo., thence over U.S. Highway 87 to junction U.S. Highway 26 near Casper, Wyo. (and also from Billings over Interstate Highway 90 to junction Interstate Highway 25 near Buffalo, thence over Interstate Highway 25 to junction U.S. Highway 26), thence over U.S. Highway 26 to junction U.S. Highway 30 near Ogallala, and return over the same routes; and (2) Between Cheyenne, Wyo., and St. Joseph, Mo., as an alternate route for operating convenience only, in connection with carrier's authorized regular-route operations between Cheyenne, Wyo., and St. Joseph, Mo., serving no intermediate points: From Cheyenne over Interstate Highway 80 to Lincoln, Nebr. (and also from Cheyenne over Interstate Highway 80 to junction U.S. Highway 30 at Pine Bluffs, Wyo., thence over U.S. Highway 30 to junction Nebraska Highway 25, near Sutherland, Nebr., thence over Nebraska Highway 25 to junction Interstate Highway 80, thence over Interstate Highway 80 to Lincoln, Nebr.), thence over Nebraska Highway 2 to Nebraska City, Nebr., thence over U.S. Highway 75 to junction U.S. Highway 36 near Sabetha, Kans., thence over U.S. Highway 36 to St. Joseph (and also from junction U.S. Highway 75 and U.S. Highway 136 at Auburn, Nebr., over U.S. Highway 136 to junction Interstate Highway 29 near Rockport, Mo., thence over Interstate Highway 29 to St. Joseph); and return over the same routes.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either San Francisco, Calif. or Washington, D.C.

No. MC 42487 (Sub-No. 832), filed January 20, 1975. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Applicant's representative: E. T. Liipfert, Suite 1100, 1660 L Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, green hides, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Birmingham, Ala. and Kansas City, Mo.: From Birmingham, Ala. over U.S. Highway 78 to junction Alabama Highway 5 at or near Jasper, Ala., thence over Alabama Highway 5 to junction U.S. Highway 278 at or near Natural Bridge, Ala., thence over U.S. Highway 278 to junction U.S. Highway 78 at Hamilton, Ala., thence over U.S. Highway 78 to Memphis, Tenn., thence over Interstate Highway 55 to junction U.S. Highway 63 near Gilmore, Ark., thence over U.S. Highway 63 to junction U.S. Highway 60 near Willow Springs, Mo., thence over U.S. Highway 60 to junction Missouri Highway 13 at Springfield, Mo., thence over Missouri Highway 13 to junction Missouri Highway 7 near Clinton, Mo., thence over Missouri Highway 7 to junction U.S. Highway 71 near Harrisonville, Mo., thence over U.S. Highway 71 to Kansas City, Mo., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with carrier's authorized regular route operations. Note: Applicant states it presently holds alternate route authority between Birmingham, Ala. and Kansas City, Mo. in MC 42487 (Sub-No. 799), and that the authority in MC 42487 (Sub-No. 799) duplicates the highways here involved except between the Jasper, Ala. area and Hamilton, Ala., where the highways involved differ slightly.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif. or Washington, D.C.

No. MC 47583 (Sub-No. 19), filed January 16, 1975. Applicant: TOLLIE FREIGHTWAYS, INC., 41 Lyons Ave., Kansas City, Kans. 66118. Applicant's representative: D. S. Hults, P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cellulose insulation, blowing machines, replacement parts and supplies*, from Wellsville, Kans., to points in Iowa, Kansas, Missouri, Nebraska, Illinois, Colorado, Oklahoma, Arkansas and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Kans.

No. MC 51146 (Sub-No. 415), filed January 13, 1975. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by discount and variety stores (except foodstuffs, furniture and commodities in bulk), and (2) *foodstuffs* (except in bulk) and *furniture*, in mixed loads with the commodities in (1) above, from points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, Maryland and West Virginia, to the facilities of S. S. Kresge Company located at points in the Lower Peninsula of Michigan, restricted to traffic originating at the named origin states and destined to the facilities of S. S. Kresge Company located at points within the described destination territory.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52460 (Sub-No. 164), filed January 15, 1975. Applicant: ELLEX TRANSPORTATION, INC., 1420 West 35th St., P.O. Box 9637, Tulsa, Okla. 74107. Applicant's representative: Steve B. McCommas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and meat by-products and articles distributed by packinghouses* (except hides, skins and pieces therefrom and glue stock, and commodities in bulk and in tank vehicles), from the plant site and storage facilities of Hyplains Dressed Beef, Inc. at or near Dodge City, Kans., to points in Connecticut, Ohio, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Virginia, West Virginia and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Kansas City, Mo., Oklahoma City, Okla., or Wichita, Kans.

No. MC 58923 (Sub-No. 42), filed May 31, 1974. Applicant: GEORGIA HIGHWAY EXPRESS, INC., 2090 Jonesboro Rd. SE., Atlanta, Ga. 30315. Applicant's representative: John C. Henderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), (1) between points in that part of Florida on and east of a line beginning at the Georgia-Florida State Line, and extending along U.S. Highway 19 to New Port Richey, thence along the Gulf of Mexico to Naples, and points on and north of a line beginning at Naples and U.S. Highway 41, thence along U.S. Highway 41 to the Atlantic Ocean,

Restricted to the transportation of traffic having an immediately subsequent movement by rail between Atlanta, Ga., on the one hand, and, on the other, a point in the above-described area of Florida; and (2) between points in that part of Florida on and east of a line beginning at the Georgia-Florida State Line and extending along U.S. Highway 19 to New Port Richey, thence along the Gulf of Mexico to Naples, and points on and north of a line beginning at Naples and U.S. Highway 41, thence along U.S. Highway 41 to the junction of Florida Highway 27 and points on and east of a line extending south along Florida Highway 27 to the junction of S.W. 344th Street (Palm Drive) and points on and north of a line extending eastward along Palm Drive (S.W. 344th Street) to the Atlantic Ocean, restricted to the transportation of traffic having an immediately prior or an immediately subsequent movement by rail between Atlanta, Ga., on the one hand, and, on the other, a point in the above-described area in Florida.

NOTE.—Applicant states that it holds the authority requested in (1) above in MC 58923 (Sub-No. 33) and is seeking the authority requested in (2) above, in pending MC 58923 (Sub-No. 41). 1 The sole purpose of the instant application is to amend the restriction stated in (1) and (2) above to read as follows: The operations authorized immediately above are restricted to the transportation of traffic having immediately prior or an immediately subsequent movement by rail from, to, or through a point in Georgia, on the one hand, and, on the other, a point in the above-described area in Florida. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 59680 (Sub-No. 214), filed January 20, 1975. Applicant: STRICKLAND TRANSPORTATION CO., INC., P.O. Box 5689, Dallas, Texas 75222. Applicant's representative: Leroy Hallman, 4555 First National Bank Bldg., Dallas, Texas 75202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving the warehouse site of Western Electric Company, Incorporated, located at or near Martinsburg, W. Va., as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Memphis, Tenn.

No. MC 61396 (Sub-No. 278), filed January 20, 1975. Applicant: HERMAN BROS. INC., 2565 St. Marys Avenue, P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith, II (same address as applicant). NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 82841 (Sub-No. 151), filed January 20, 1975. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" Street, Omaha, Nebr. 68127. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Particleboard, flakeboard, and hardboard*, from Martell, Calif., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 97394 (Sub-No. 13), filed January 8, 1975. Applicant: BOWLING GREEN EXPRESS, INC., P.O. Box 1111, Bowling Green, Ky. 42101. Applicant's representative: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Nashville, Tenn. and Burkesville, Ky., serving no intermediate points, but serving the junction of Interstate Highway 40 and Tennessee Highway 53, south of Carthage, Tenn., for purposes of joinder only, as an alternate route for operating convenience only: From Nashville, Tenn. over Interstate Highway 40 to junction Tennessee Highway 56, thence over Tennessee Highway 56 to junction Tennessee Highway 53 thence over Tennessee Highway 53 via Gainesboro, Tenn. to the Kentucky-Tennessee State Boundary line, thence over Kentucky Highway 61 to Burkesville, Ky., and return over the same route; and (2) Between Nashville, Tenn. and junction Kentucky Highway 163 and Kentucky Highway 90, near Summer Shade, Ky. serving no intermediate points, as an alternate route for operating convenience only: From junction Tennessee Highway 53 and Interstate Highway 40, south of Carthage, Tenn., over Tennessee Highway 53 to junction U.S. Highway 70N, thence over U.S. Highway 70N to Carthage, Tenn., thence over Tennessee Highway 80 to Red Boiling Springs, Tenn., thence over Tennessee Highway 56 to the Kentucky-Tennessee State Boundary line, thence over Kentucky Highway 63 to Tompkinsville, Ky., thence over Kentucky Highway 163 to junction Kentucky Highway 90, and return over the same route. The routes in (1) and (2) above are sought as alternate routes in connection with applicant's present operations between Nashville, Tenn. and Burkesville, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Bowling Green, Ky. or Nashville, Tenn.

No. MC 100666 (Sub-No. 291), filed January 22, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Life Foundation Bldg., 3535 N.W. 58th St., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, prefinished wall panels, prefinished gypsum panels, adhesives, and accessories*, incidental to the installation thereof, from the plantsite and facilities of the U.S. Gypsum Company at Pittsburg, Kans., to points in Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 104675 (Sub-No. 35), filed January 22, 1975. Applicant: FRONTIER DELIVERY, INC., 620 Elk Street, Buffalo, N.Y. 14210. Applicant's representative: E. Russell Whiteman (address same as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soda Ash*, in bulk, in dump or tank vehicles, from Solvay, N.Y., to Henderson, N.C. and Laurens, S.C., and *returned or rejected shipments* of the same commodity on return.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Buffalo, N.Y., or Washington, D.C.

No. MC 105375 (Sub-No. 57), filed January 21, 1975. Applicant: DAHLEN TRANSPORT OF IOWA, INC., 1680 Fourth Ave., Newport, Minn. 55055. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street NW., Washington, D.C. 20423. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Adhesives*, in bulk, in tank vehicles, from Knoxville, Iowa, to Brookings, S. Dak.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 106119 (Sub-No. 22), filed January 21, 1975. Applicant: ASSOCIATED PETROLEUM CARRIERS, a corporation, P.O. Box 2808, Union Road, Spartanburg, S.C. 29302. Applicant's representative: Robert R. Odom, P.O. Box 5504, 220 North Church Street, Spartanburg, S.C. 29301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except propane), in bulk, in tank trucks, (1) from points in South Carolina, to points in North Carolina and Georgia; (2) from points in North Carolina to points in South Carolina and Georgia; and (3) from points in Georgia to points in South Carolina and North Carolina, (except (a) from Georgetown, S.C., to points in North Carolina, and (b) liquid fertilizer, nitrogen fertilizer solutions and fertilizer materials and ingredients from points in Colquitt County and Screven County, Ga., to points in South Carolina, and from points in Hertford County, N.C., to points in South Carolina and Georgia, and from points in Robeson County, N.C., to points in South Carolina).

NOTE.—If a hearing is deemed necessary the applicant requests it be held at Columbia, S.C. or Atlanta, Ga.

No. MC 106485 (Sub-No. 16) (Correction), filed December 18, 1974, published in the FEDERAL REGISTER issue of January 23, 1975, and republished as corrected this issue. Applicant: LEWIS TRUCK LINES, INC., Lisbon, N. Dak. 58054. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Fargo, N. Dak., and Oakes, N. Dak., serving all intermediate points and the off-route points of Walcott, Colfax, Galchutt, Mooreton, Barney and Great Bend, N. Dak.: From Fargo, N. Dak., over U.S. Highway 81 to Fairmont, N. Dak., thence over North Dakota Highway 11 to junction North Dakota Highway 1, thence over North Dakota Highway 1 to Oakes, N. Dak., and return over the same route, restricted against the transportation of traffic originating at or destined to points located in Minnesota within the Commercial Zones of Fargo and Wahpeton, N. Dak.

NOTE.—The purpose of this correction is to indicate the correct spelling of Mooreton, N. Dak. and to add a comma between Mooreton and Barney, N. Dak. If a hearing is deemed necessary, applicant requests it be held at either Wahpeton or Fargo, N. Dak.

No. MC 106674 (Sub-No. 151), filed January 20, 1975. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (address same as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer and fertilizer materials dry*, in bulk, from Mapleton, Ill. to points in Indiana, (2) *Wooden pallets, pallet parts, and wooden blocking*, between the plantsite of Continental Box Company located at or near Lemont, Ill., and points in Indiana, Iowa, Kentucky, Missouri, Ohio, Tennessee, and Wisconsin, restricted to the transportation of shipments either originating at or destined to the plantsite of the Continental Box Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill. or Indianapolis, Ind.

No. MC 106674 (Sub-No. 152), filed January 20, 1975. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Knocked-down farm machinery*, from the plantsite and facilities of Forrest City Machine works, Inc., at or near Forrest City, Ark., to points in Colorado, Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, North Dakota, South Dakota, Tennessee, and Wisconsin, restricted to the transportation of shipments originating at the plantsite and facilities of Forrest City Machine Works, Inc., at or near Forrest City, Ark., and (2) *Fireplace logs and flare-up logs* manufactured with vegetable fiber and wax, and compressed with binder contents from Camilla, Ga., to points in Delaware, Indiana, Illinois, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, Tennessee, District of Columbia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill. or Indianapolis, Ind.

No. MC 107496 (Sub-No. 985), filed January 16, 1975. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as

XUM

applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid animal feed and feed supplements*, from the plant location at Land O'Lakes, Inc., at or near Clarence, Iowa, to points in Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin; (2) *inedible tallow, animal feeding fats, and feed supplements*, in bulk, from points in Sarpy County, Nebr., to points in Kansas, Missouri, Iowa, Minnesota, and South Dakota; (3) *liquid feed*, in bulk, in tank vehicles, from Memphis, Tenn., to points in Mississippi, Arkansas, and Tennessee; (4) *dry sugar*, in bags, from points in St. Bernard Parish, La., to points in Illinois, Missouri, and Tennessee; (5) *vinyl acetate*, in bulk, in tank vehicles, from Smithfield, Ky., to Clinton, Iowa; and (6) *fuel*, in bulk, from Clinton, Iowa, to Suffolk, Va., and Montezuma, N.Y.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Omaha, Nebr.

No. MC 107496 (Sub-No. 986), filed January 20, 1975. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in bulk, from Memphis, Tenn., to points in Tennessee, Arkansas, Mississippi, Alabama, Kentucky, and Missouri.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 107743 (Sub-No. 32), filed January 20, 1975. Applicant: SYSTEM TRANSPORT, INC., 6523 E. Broadway, P.O. Box 3456 TA, Spokane, Wash. 99220. Applicant's representative: S. J. Cully, Jr., P.O. Box 3456 TA, Spokane, Wash. 99220. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chain*, from Maryville, Mo. to points in California, Oregon, Colorado, Idaho, Montana, Nebraska, Nevada, North Dakota, South Dakota, Utah, Washington, Wyoming, and Arizona.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Spokane or Seattle, Wash., or Portland, Oreg.

No. MC 109689 (Sub-No. 282), filed January 13, 1975. Applicant: W. S. HATCH CO., a corporation, 643 South 800 West, Woods Cross, Utah 84087. Applicant's representative: Mark K. Boyle, 345 South State Street, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid gilsonite asphalt sealers and preservatives*, in bulk, from Mack, Colo. and points within 5 miles thereof, to points in Colorado, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 111729 (Sub-No. 488) (Correction), filed December 16, 1974, published in the FEDERAL REGISTER issue of Jan. 23, 1975, and republished as corrected this issue. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: Peter A. Greene, 1625 K St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Laboratory samples, and specimens of all kinds, consisting of blood and urine; tissues and cells such as brain and skin; feces, sera and carcasses, limited to small animals or birds such as chickens and baby pigs; cultures, media for cultures, biological research products, vectors (insects), vaccines, antigens, parasites (animal), and chemicals*, as needed in diagnostic procedures, (1) between Orient Point, N.Y., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, Pennsylvania, Rhode Island, Vermont, and the District of Columbia; (2) between Ames, Iowa, on the one hand, and, on the other, points in Illinois, Kansas, Minnesota, Missouri, Nebraska, South Dakota and Wisconsin; (3) between Beltsville, Md., on the one hand, and, on the other, points in Delaware, New Jersey, New York, Pennsylvania, Virginia, and West Virginia; and (4) between points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia, restricted to traffic having an immediately prior or subsequent movement by air, originating from or destined to Orient Point, N.Y.; Ames, Iowa; or Beltsville, Md.

NOTE.—The purpose of this republication is to correct the restriction stated above. Applicant holds contract carrier authority in MC 112750 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111729 (Sub-No. 497), filed January 9, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: Peter A. Greene, 1625 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* moving in courier service (except household goods, commodities in bulk, explosives, articles of unusual value, and commodities which because of size and weight require special equipment; and commercial papers, documents, and written instruments as are used in the business of banks and banking institutions), between points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, and Rhode Island, restricted against the transportation of packages weighing more than 50 pounds and each package or article shall be considered a separate and distinct shipment, and further restricted against the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location, in any one day.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.; New York, N.Y.; Philadelphia, Pa.; and Boston, Mass.

No. MC 112822 (Sub-No. 362), filed January 20, 1975. Applicant: BRAY LINES INCORPORATED, 1401 N. Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products and frozen foods*, from the plantsite and warehouse facilities of Pepperidge Farm, Incorporated, located at or near Richmond, Utah, to points in Arkansas, Illinois, Nebraska, Oklahoma, and Texas, restricted to the transportation of shipments originating at the named origin point and destined to points in the named destination states.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Chicago, Ill.

No. MC 113495 (Sub-No. 68), filed January 6, 1975. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, P.O. Box 60628, Nashville, Tenn. 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors*, with or without attachments (except tractors used for pulling highway trailers), *lift trucks, excavators, motor graders, scrapers, engines, generators, generators and engines combined, road rollers, pipe layers, and dump trucks* designed for off-highway use; and (2) *parts, attachments, and accessories* for the commodities in (1) above, from ports of entry in Maine, Massachusetts, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, to points in Illinois, Indiana, Kentucky, Ohio, Tennessee, Virginia and West Virginia, restricted to traffic moving in foreign commerce, having a prior movement by water, and originating at facilities of Caterpillar Tractor Co. and its subsidiaries.

NOTE.—If a hearing is deemed necessary, applicant requests it be held on consolidated record with other similar applications at Chicago, Ill. or Washington, D.C.

No. MC 113666 (Sub-No. 90), filed January 23, 1975. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, Pa. 16229. Applicant's representative: William H. Shawn, 1730 M Street NW., Suite 501, Washington, D.C. 20036. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Refractories, refractory products, materials and supplies* used in the production and installation of refractory products, and *brick* from Pascagoula, Miss., and Bessemer, Riverside, Birmingham, and Pell City, Ala., to ports of entry on the International Boundary line between the United States and Canada located in Minnesota, Michigan, New York, New Hampshire, Vermont, and Maine, restricted to the transportation of the commodities moving in foreign commerce; and (2) *Calcium carbide* from Ashtabula, Ohio, to points in Pennsylvania and New Jersey..

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Buffalo, N.Y.

No. MC 113678 (Sub-No. 581), filed January 20, 1975. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City (Denver), Colo. 80022. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpeting, yarn, and jute*, from Miami, Okla., to points in Colorado, Idaho, Illinois, Iowa, Michigan, Montana, Nebraska, New York, Ohio, Pennsylvania, Texas, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 113908 (Sub-No. 332), filed January 22, 1975. Applicant: ERICKSON TRANSPORT CORP., 2105 East Dale St., P.O. Box 3180 G.S.S., Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (address same as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat byproducts* (except fats and oils and products thereof) in bulk, from the facilities of Wilson & Co., Inc., located at or near Marshall, Mo., to points in Arkansas, Illinois, Iowa, Kansas, Minnesota, Nebraska, and Wisconsin, restricted to traffic originating at the above specified plant site and destined to the above specified destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, Mo., Chicago, Ill., or Washington, D.C.

No. MC 114091 (Sub-89), filed January 15, 1975. Applicant: HUFF TRANSPORT CO., INC., 3601 S. 7th Street Road, Louisville, Ky. 40216. Applicant's representative: Marshall Kragen, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, between points in Kentucky, restricted to traffic having subsequent movement by rail or water.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Ashland or Louisville, Ky.

No. MC 114725 (Sub-No. 70), filed January 13, 1975. Applicant: WYNNE TRANSPORT SERVICE, INC., 2606 North 11th Street, Omaha, Nebr. 68110. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Inedible tallow*, from La-Platte, Nebr., to points in Iowa, Kansas, Missouri and Minnesota.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

Clemens, Mich., under a continuing contract with Kozak Distributors, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Detroit or Lansing, Mich.

No. MC 139396 (Sub-No. 3), filed January 15, 1975. Applicant: MITCHELL & SON, INC., 1940 Carolyn Lane, Pearl, Miss. 39208. Applicant's representative: Morton E. Kiel, Suite 6193—5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tractor and trailer parts*, from Denmark, S.C., Holland and Port Huron, Mich., and the International Boundary Line between the United States and Canada at Buffalo, N.Y. (on traffic originating from Welland, Ontario, Canada), to Los Angeles and Milpitas, Calif., Portland, Oreg., and Seattle, Wash., under a continuing contract or contracts with Holland Hitch Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 139495 (Sub-No. 27), filed January 13, 1975. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise, equipment, materials and supplies* as are dealt in by manufacturers and distributors of home products: (1) from the plantsite and storage facilities utilized by The Fuller Brush Company located at or near Great Bend, Kans., to Seattle, Wash.; Los Angeles, Calif.; Dallas, Tex.; Chicago, Ill.; Toledo, Ohio; Atlanta, Ga.; East Farmingdale, N.Y.; and Camden, N.J.; and (2) from points in Illinois, New York, Pennsylvania, Massachusetts, New Jersey, Ohio, and Connecticut, to the plantsite and storage facilities named in (1) above.

NOTE.—Applicant holds motor contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139570 (Sub-No. 2), filed January 15, 1975. Applicant: LEASECON INCORPORATED, INC., Box 112, High Street, West Nyack, N.Y. 10994. Applicant's representative: Bert Collins, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, other than those designed to be drawn by passenger automobiles, *containers, truck chassis and trailer chassis, and trailer parts, materials, supplies and equipment*, used in connection with the production, sale and distribution of the aforementioned commodities (except in bulk), between Middletown, N.Y., Fairless Hills, Berwick, Pa., and Bancroft, W. Va., on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia, Ohio, Illinois, Indiana, West Virginia, and the District of Columbia, under a continuing contract or contracts with Strick Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 139727 (Sub-No. 1) filed December 6, 1974. Applicant: MADWELL METALS, INC., 301 East Shawnee, Muskogee, Okla. 74401. Applicant's representative: Robert E. Jansen, 1130 17th St. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lead, lead alloy, lead oxide, and lead by-products*, in bulk and ingot form, from Schuylkill Metals Corporation, Baton Rouge, La., to Oklahoma City, Okla., St. Louis and St. Joseph, Mo., to Iowa City, Iowa, and Little Rock, Ark., under a continuing contract or contracts with Schuylkill Metals Corporation, Baton Rouge, La.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Oklahoma City, Okla. or Baton Rouge, La.

No. MC 139767 (Sub-No. 1), filed January 22, 1975. Applicant: FAIRWAY TRANSIT, INC., N10 W24730 Highway TJ, Pewaukee, Wis. 53072. Applicant's representative: Nancy J. Johnson, 4506 Regent St., Suite 100, Madison, Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, from Prairie du Chien, Wis., to points in Iowa and Minnesota.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 140061 (Sub-No. 2), filed January 13, 1975. Applicant: DON MULDER TRUCKING, 1735 No. 50th, Lincoln, Nebr. 68504. Applicant's representative: Don Mulder (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products* (except in bulk), from the plantsite of Neu Cheese Co. at or near Hartington, Nebr., to Los Angeles, San Francisco, and Oakland, Calif., and their respective Commercial Zones, under a continuing contract or contracts with Neu Cheese Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lincoln or Omaha, Nebr.

No. MC 140179 (Sub-No. 3), filed January 20, 1975. Applicant: N R G HAULING, INC., Sacramento, Ky. 42372. Applicant's representative: Fred F. Bradley, P.O. Box 773, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, between points in Kentucky, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Missouri, Ohio, Tennessee, Virginia, and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 140227 (Sub-No. 1), filed January 6, 1975. Applicant: DALE ETTESVOLD, 1287 11th Ave., Granite Falls, Minn. 56241. Applicant's representative: F. H. Kroeger, 1745 University Ave., St. Paul, Minn. 55104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from St. Louis, Mo., to Madison, Minn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 140300 (Sub-No. 2), filed January 16, 1975. Applicant: PHILLIPS FEED SERVICE, INC., Route 3, Box 519, Bath, Pa. 18014. Applicant's representative: S. Maxwell Flitter, 151 South Seventh Street, Easton, Pa. 18042. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alfalfa meal*, in blower equipped vehicles, (a) from Ormrod (Lehigh County), Pa., to Stanford and Binghamton, N.Y.; Bridgewater, Mass.; and Brattleboro, Vt.; (b) from Nazareth and Northampton, Pa., to Frankford, Del.; and (c) from Bethlehem (Northampton County), Pa., to Concord and Greenfield, N.H.; Hillsdale, N.Y., and Rumford, R.I.; and (2) *spent bone charcoal*, in blower equipped vehicles, from Brooklyn, N.Y., to Philadelphia, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests it be held either at Allentown, or Philadelphia, Pa.

No. MC 140307 (Sub-No. 1), filed January 20, 1975. Applicant: ASCO ENTERPRISES, INC., 5525 Santa Fe Avenue, Vernon, Calif. 90058. Applicant's representative: Robert Brown, P.O. Box 5345, Sherman Oaks, Calif. 91413. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petro lube oil*, in drums; and (2) *antifreeze preparation*, in drums, from the plantsite and shipping facility of Refiners Marketing Company, Ltd., located at Los Angeles, Calif., to points in Arizona, California, Nevada, Oregon, and Washington, under contract with Refiners Marketing Company, Ltd.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 140342 (Sub-No. 2), filed January 16, 1975. Applicant: RICHARD SISSON, 523 Valley View, Philadelphia, Miss. 39350. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty Bank Bldg., P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood residuals* (except in bulk, in tank vehicles), between points in Alabama, on the one hand, and, on the other, points in Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Jackson, or Columbus, Miss.

No. MC 140396 (Sub-No. 1) (Correction), filed November 18, 1974, published in FEDERAL REGISTER issue of January 9, 1975, and republished as corrected, this issue. Applicant: AVTEC SERVICES, INC., 1750 NW. 26th Avenue, Miami, Fla. 33126. Applicant's representative: Richard B. Austin, Suite 214 Palm Coast II Bldg., 5255 NW. 87th Avenue, Miami, Fla. 33166. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, commodities in bulk, and commodities which, by reason of size or weight, require specialized handling and equipment), (1) between Miami International Airport at Miami, Fla., on the one hand, and, on the other, points in South Carolina, Georgia, Alabama, Tennessee, Texas, and Mississippi; and (2) between points in South Carolina, Georgia, Alabama, Tennessee, Texas, and Mississippi, on the one hand, and, on the other, Miami International Airport, restricted to traffic moving under a continuing contract or contracts with Span East Airlines, Inc.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding as MC 140396 (Sub-No. 1) in lieu of MC 140356 as previously published. If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 140448 (Sub-No. 1), filed January 21, 1975. Applicant: KENDALL R. STEWART and KENNETH W. STEWART, a partnership, doing business as, K & K TRUCKING COMPANY, Ky.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Montpelier, Vt., or Albany, N.Y.

No. MC 140508 (Sub-No. 1), filed December 27, 1974. Applicant: R. E. CAMPBELL, doing business as R. E. CAMPBELL TRUCKING CO., Route 1 Box 143, Ravensdale, Wash. 98051. Applicant's representative: Carlen A. Jonson, 300 Central Building, Seattle, Wash. 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Machinery* by closed van, between Matteson, Ill., and Seattle, Wash., under a continuing contract or contracts with Allis-Chalmers Material Handling Sales and Service.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 140509 (Sub-No. 1), filed January 20, 1975. Applicant: ART KOHLER TRUCKING, INC., P.O. Box 68, Audubon, Minn. 56511. Applicant's representative: Charles E. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Processed frozen and dehydrated potato products*, from the plantsites and storage facilities of J. R. Simplot Company, located in Minnesota, to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas; and (2) *packaging and processing materials, and supplies*, used in the manufacture and production of processed, frozen and dehydrated potato products, from points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas, to the plantsites and storage facilities of J. R. Simplot Company, located in Minnesota, restricted to the transportation services to be performed under a continuing contract or contracts, with J. R. Simplot Company, at Cookston, Minn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Fargo, N. Dak., or Minneapolis, Minn.

No. MC 140543 (Sub-No. 1), filed January 9, 1975. Applicant: FRANK GARRETSON, R.R. #2, Morrison, Tenn. 37357. Applicant's representative: James W. Muldoon, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, from points in Georgia and Tennessee, to the plant site of The Mead Corporation in Jackson County, Ala., under a continuing contract or contracts with The Mead Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Birmingham, Ala., or Columbus, Ohio.

No. MC 140565, filed January 17, 1975. Applicant: EXPORT ALLOYS CORPORATION, 19 Morris Street, Freeport, N.Y. 11520. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, Pa. 18517. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, from New Haven, Conn.; points in Suffolk, Essex, Norfolk, Middlesex, and Worcester Counties, Mass.; points in New Jersey (except Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, and Salem Counties); points in that part of New York on, south, and east of a line beginning at the New York-Vermont State line, near Hoosic, N.Y., and extending westerly along New York Highway 7 to junction Interstate Highway 87, near Schenectady, N.Y., thence southerly and easterly along Interstate Highway 87 to the Hudson River, near Nyack, N.Y., thence southerly along the middle of the Hudson River, to the New York-New Jersey State line, near Hastings-on-Hudson, N.Y., and points in Rhode Island, to points in Beaver and Allegheny Counties, Pa., under contract with B. Shapiro Co., Inc., Emm Ess Metals Co., and Lieberman Koren Corp.

NOTE.—If a hearing is deemed necessary applicant requests it be held at Washington, D.C.

No. MC 140573, filed January 20, 1975. Applicant: DONALD E. SEARS, Route 1, Box 474, Woodland, Wash. 98674. Applicant's representative: George Kargianis, 2120 Pacific Bldg., Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Red cedar shakes and shingles*, from Sekiu, Wash., to points in California, and Nevada.

NOTE.—Applicant holds contract carrier authority in MC 135773 Sub 1, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 140574, filed January 16, 1975. Applicant: F. A. HEBERT TRUCKING, INC., P.O. Box 51772 OCS, Lafayette, La. 70505. Applicant's representative: J. W. Goodson (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Boardroad lumber*, from the plantsite and mill facilities of South Louisiana Contractors, at Batson, Tex., to points in Louisiana, under contract with South Louisiana Contractors.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either New Orleans, or Lafayette, La.

No. MC 140575 filed, January 20, 1975. Applicant: SHIRLEY (BUD) DE BOER, doing business as BUD'S SERVICE CENTER, 2329 93rd Street, Kenosha, Wis. 53140. Applicant's representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked and disabled vehicles, and wrecked and disabled self-propelled articles*, by use of wrecker and flatbed equipment, and *replacements for such wrecked and disabled vehicles and articles*, between points in Wisconsin on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Michigan, and Minnesota.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kenosha, Wis.

APPLICATION OF PARAGRAPH(S)

No. MC 8842 (Sub-No. 4), filed December 23, 1974. Applicant: DAWSON BUS SERVICE, INC., 107 East Camden-Wyoming Avenue, Camden, Del. 19934. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Passengers and their baggage*, in the same vehicle with passengers, in round trip charter operations, beginning and ending at points in Delaware south of U.S. Route 40 and extending to points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada; and (2) *passengers and their baggage*, in the same vehicle with passengers, in special operations, in round trip sightseeing and pleasure tours, beginning and ending at points in Delaware south of U.S. Highway 40 and extending to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dover, Del.

No. MC 58440 (Sub-No. 6), filed January 13, 1975. Applicant: SCENIC HAWKEYE STAGES, INC., 703 Dudley Street, Decorah, Iowa 52101. Applicant's representative: James M. Hodge, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations: (1) beginning and ending at Oelwein, Iowa, and points within 60 miles of Oelwein (except Waterloo, Iowa, and points on U.S. Highway 63 north of Waterloo, and points on Iowa Highway 9 between Davis Corners, Iowa, and the Mississippi River (near Lansing, Iowa)), and extending to points in the United States (except Alaska, Hawaii and Iowa), restricted against service beginning and ending at points on Iowa Highway 9 west of Davis Corners, and extending to points in Colorado, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Minnesota, Wisconsin, Illinois, Indiana, Michigan, Ohio, and Pennsylvania; (2) beginning and ending at points in Mitchell, Worth, Howard, Floyd and Cerro Gordo Counties, Iowa, and Mower County, Minn., and extending to points in Missouri, Illinois, Wisconsin, Minnesota, South Dakota, Nebraska, and Colorado.

(3) Beginning and ending at Decorah and Forest City, Iowa, and extending to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Maryland, Massachusetts, Michigan, Maryland, Missouri, Nebraska, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Rhode Island, Wisconsin, and the District of Columbia; and (4) beginning and ending at all authorized service points on applicant's presently authorized regular routes located in Iowa, Minnesota and Wisconsin: (a) Between Waterloo, Iowa, and and Spring Valley, Minn.; (b) Between Davis Corners, Iowa, and La Crosse, Wis.; (c) Between Rochester, Minn., and Decorah, Iowa; (d) Between Rochester, Minn., and Wykoff, Minn.; (e) Between Decorah, Iowa, and Cedar Rapids, Iowa; and (f) Between Spencer, Iowa, and Mason City, Iowa, and extending to points in the United States (including Alaska, but excluding Hawaii). Note: Applicant presently holds the same territorial authority requested in (1), (2) and (3) above to transport *Passengers and their baggage*, in round trip charter operations. Copies of applicant's present certificates are on file in its public docket, which may be viewed at the offices of the Interstate Commerce Commission, Washington, D.C., or the Commission's Regional Office in Fort Worth, Tex. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 135552 (Sub-No. 3), filed January 20, 1975. Applicant: ALLIED UNDERWRITERS, INC., doing business as SCENIC TRAILS, 1807 Jackson, LaCrosse, Wis. 54001. Applicant's representative: Stanley C. Olsen, Jr., 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers, and their baggage*, in charter and special operations, from points in Buffalo, Chippewa, Crawford, Dunn, Eau Claire, Jackson, LaCrosse, Monroe, Pepin, Richland, Trempealeau, and Vernon Counties, Wis., and points in Winona and Houston Counties, Minn., to points in the United States including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either LaCrosse, or Eau Claire, Wis.

WATER CARRIER APPLICATION(S)

No. W-1286-EX, filed December 19, 1974. Applicant: B. F. DIAMOND CONSTRUCTION CO., INC., 645 Indian Street, P.O. Box 727, Savannah, Ga. 31402. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth Street NW., Washington, D.C. 20006. Applicant seeks authority by order under the provisions of Section 302(e) of the Interstate Commerce Act exempting the furnishing for compensation under a charter, lease or other agreement of *tugs and barges* to Diamond Manufacturing Company, Inc., to be used in the transportation of *shipper owned manufactured, rebuilt and repaired products*, and *shipper owned equipment, materials and supplies*, between ports and points along the Atlantic coastline, the Gulf of Mexico coastline and their inland tributary waterways, nonradially.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Savannah, Ga.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1975 Crop of Upland Cotton; Base Acreage Allotments

STATE RESERVES AND COUNTY BASE ACREAGE ALLOTMENTS

Correction

In FR Doc. 75-1083 appearing at page 2992 in the issue for Friday, January 17, 1975, make the following changes:

1. On page 2999 in the table for North Carolina, the seventh entry now reading "• • • Tyrell • • •" should read "• • • Tyrrel • • •".

2. On page 3002 in the table for Texas, the entry for Hopkins County, in the third (3) column now reading "4,036.2" should read "4306.2".

CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER I—DETERMINATION OF PRICES

[Docket No. SH-328]

PART 877—SUGARCANE: PUERTO RICO

Fair and Reasonable Prices for 1974–75 Crop

The Sugar Act of 1948, as amended, requires producers who also process sugarcane grown by other producers to pay prices determined by the Secretary of Agriculture to be fair and reasonable as one of the conditions for receiving Sugar Act payments on their own production.

Such determination may not be made until after investigation and opportunity for interested persons to testify on the fair and reasonable prices to be paid under either purchase or toll agreements. A public hearing was held in San Juan, Puerto Rico, on December 4, 1974.

The determination, which is applicable to the 1974–75 crop of Puerto Rican sugarcane, continues the provisions of the 1973–74 crop determination.

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948 (7 U.S.C. 1131(c)(2)), as amended, (herein referred to as "act"), after investigation, and due consideration of evidence presented at the public hearing held in San Juan, Puerto Rico, on December 4, 1974, the following determination is hereby issued.

The regulations previously appearing in these sections under "Determination of Prices; Sugarcane; Puerto Rico" remain in full force and effect as to the time period to which they were applicable.

Accordingly, Part 877 is revised as follows.

Sec.

877.21 General requirements.
877.22 Definitions.
877.23 Payment for sugarcane.
877.24 Payment for molasses.

SCHEDULE A
SCHEDULE B
SCHEDULE C

AUTHORITY: Secs. 877.21 to 877.30 issued under secs. 301, 403, 61 Stat. 929, as amended, 932; (7 U.S.C. 1131, 1153).

§ 877.21 General requirements.

A producer of sugarcane in Puerto Rico who is also a processor of sugarcane, to which this part applies as provided in § 877.28 of this part (herein referred to as "processor"), shall have paid or contracted to pay for sugarcane of the 1974–75 crop grown by other producers and processed by him, prices not less than those determined in accordance with the following requirements.

§ 877.22 Definitions.

For the purpose of this part, the term:

(a) "Price of raw sugar" means the simple average of the daily spot price quotations for sugar deliverable under the New York Coffee and Sugar Exchange No. 10 domestic contract (bulk sugar) for the period January 1, 1975, through December 31, 1975, except that if the Director of the Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, determines that any such price quotation does not reflect the true market value of raw sugar because of inadequate volume or other factors, he may designate the price to be effective under this determination which he determines will reflect the true market value of raw sugar.

(b) "Sugar yield period" means any period not exceeding one calendar month as may be elected by the processor to determine the yield of raw sugar. The period adopted by the processor shall be used uniformly throughout the grinding season. In instances where odd days occur because a processor begins or ends grinding on a day which does not correspond with the beginning or ending of the sugar yield period, or grinding is interrupted because of holidays or for other reasons, such odd days shall be included either in the prior or subsequent sugar yield period, or treated as a separate sugar yield period.

(c) "Raw sugar" means raw sugar, 96° basis.

(d) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of net sugarcane determined for the sugar yield period in accordance with the formulae set forth in Schedule A attached hereto and made a part hereof.

(e) "Inferior varieties of sugarcane" means sugarcane of Saccharum Spontaneum or Saccharum Sinense variety (including sugarcane of the Japanese, Uba, Kavangerie, Zuinga, Caledonia, Coimbatore 213, and Coimbatore 281 varieties).

(f) "Net sugarcane" means (1) the gross weight of the sugarcane delivered to the mill determined to contain a quantity of trash not in excess of five percent of the gross weight, or (2) the gross weight of the sugarcane delivered to the mill less the quantity of trash determined to be in excess of five percent of such gross weight.

(g) "Trash" means green or dried leaves, sugarcane tops above the last formed joint, soil, stones, and all other extraneous material.

(h) "Area office" means Caribbean Area Agricultural Stabilization and Conservation Service Office, P.O. Box 11188, Santurce, Puerto Rico 00910.

§ 877.23 Payment for sugarcane.

(a) The payment for net sugarcane delivered by the producer to the processor shall be made either by the delivery to the producer of his share of raw sugar, or by the payment to the producer of the money value of his share of raw sugar, whichever method is agreed upon by the producer and the processor.

(b) For each 100 pounds of net sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar of 9 pounds or more, the producer's share of raw sugar shall be not less than the quantity of raw sugar determined by applying the following applicable percentage to the yield of raw sugar of the producer's net sugarcane:

Pounds of raw sugar per 100 pounds of net sugarcane:

	Percentage
9.0	63.0
9.5	63.5
10.0	64.0
10.5	64.5
11.0	65.0
11.5	65.5
12.0	66.0
12.5	66.5
13.0	67.0
13.5 and over	67.5

NOTE.—Intermediate points within the above scale are to be interpolated to the nearest one-tenth point.

XUM
V40-32
FEB 14 75
XUM

(c) For each 100 pounds of net sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar of less than 9 pounds, the producer's share of raw sugar shall be not less than the quantity determined by subtracting 3½ pounds of raw sugar from the yield of raw sugar of the producer's net sugarcane.

(d) If settlement with the producer is made in sugar, delivery shall be made, loaded in the producer's vehicle, at the mill where the sugar is produced, unless the producer and processor agree in writing to delivery at another mill: *Provided*, That the processor shall bear any increase in marketing costs resulting from such agreement.

(e) If settlement with the producer is made in cash, the processor shall pay to the producer the money value of his share of raw sugar determined on the basis of the price of raw sugar converted to an f.o.b. mill price by subtracting therefrom the admissible deductions for selling and delivery expenses on raw sugar in accordance with Schedule B, attached hereto and made a part hereof.

§ 877.24 Payment for molasses.

For each ton of net sugarcane delivered the processor shall either deliver to the producer 66 percent of the average production of blackstrap molasses per ton of net sugarcane of the 1974–75 crop processed at each mill or shall pay to the producer the money value of such quantity of molasses, whichever method is agreed upon between the producer and the processor. If settlement with the producer is made in cash, such settlement shall be based upon the average gross proceeds from the sales of molasses less the admissible deductions for selling and delivery expenses in accordance with Schedule C, attached hereto and made a part hereof. A processor operating more than one mill shall compute the average gross proceeds per gallon from the sales of molasses produced at all mills operated by such processor and shall compute the net proceeds per gallon separately for each mill operated by such processor by deducting from such gross proceeds each mill's admissible selling and delivery expenses. If a processor has not sold 1974–75 crop molasses by the time he is required to submit to the Area office a statement as required by § 877.26(b), he shall have made a provisional molasses payment to producers based upon not less than 85 percent of the average of the net proceeds per gallon realized by all other processors in Puerto Rico who made cash settlements for 1974–75 crop molasses, as determined by the Director of the Area office. Final settlement with such producers shall be made promptly after the 1974–75 crop molasses has been sold, based upon the average net proceeds therefrom and the processor shall promptly submit to the Area office a statement as required by § 877.27(b). In the event a processor has transferred all or part of its 1974–75 production of molasses to an affiliate, molasses payments to growers shall be based on the price of the molasses transferred to the affiliate, but such price shall not be less than the average net proceeds per gallon as determined by the Director of the Area office for all processors who sold 1974–75 crop molasses. Where payment is based on the average net proceeds of all processors who sold molasses, the processor is required to make a provisional molasses payment not later than June 1, 1976, based upon not less than 85 percent of the estimated average of net proceeds per gallon realized by all other processors in Puerto Rico, as determined by the Director of the Area office from reports submitted under provisions of § 877.27(b). Processor is further required to make a final molasses payment in the amount necessary to base the total molasses payment upon a price not less than the average net proceeds per gallon for all processors who sold the 1974–75 crop of molasses after the Area office has determined such net proceeds and notified the processor.

§ 877.25 Determination of net sugarcane.

(a) The net sugarcane of each producer (including the processor) which is delivered to the mill each day shall be determined as follows: The processor jointly with a representative designated by the producers or the producer organization in any mill area, shall examine the sugarcane deliveries and estimate whether the deliveries contain a quantity of trash (1) not in excess of five percent of the gross weight, or (2) in excess of five percent of the gross weight. In the absence of a producer representative the processor shall have full responsibility for examining such sugarcane deliveries and for making such estimates. As to the deliveries of sugarcane of any producer which are estimated to contain trash not in excess of five percent, the gross weight of the sugarcane delivered shall also be the net weight. As to the deliveries of sugarcane of any producer estimated by both the processor and the representative of producers or by either of such parties to contain trash in excess of five percent, the net weight shall be determined by taking a representative sample of not less than 100 pounds of sugarcane from one or more of the deliveries deemed to be representative and separating therefrom all trash. The weight of trash which is removed from the sample of sugarcane shall be expressed as a percentage of the gross weight of the sample. The net weight of the sugarcane delivery from which the sample was taken shall be determined by deducting from the gross weight of such sugarcane, a percentage thereof which represents the excess, if any, of the trash over five percent, and the same adjustments as determined above shall be applied to the gross weight of all other deliveries delivered by that producer during the same day or in the case of sugarcane handled in bulk during the same sugar yield period, which are estimated to contain trash content reasonably similar to the delivery from which the sample was taken.

(b) With respect to the sample taken as provided in paragraph (a) of this section, the processor shall make a separate determination of the weight of soil and stones contained in such sample and may charge the producer five cents per ton of net sugarcane delivered which is represented by the sample for each one percent, fractions in proportion, by which the weight of soil and stones is in excess of one percent of the gross weight of the sample.

(c) The processor may charge the producer 66 percent of the actual cost, but not to exceed $2.64, for each sample taken for trash including soil and stones to cover the cost of sampling and measuring the actual quantity of trash.

(d) Notwithstanding the foregoing paragraphs of this section, in cases where the direct cane analysis method is used, gross weight will also be net weight.

§ 877.26 Services and allowances to producers.

(a) When payment is made to the producer by the delivery of raw sugar, the processor shall store and insure all such sugar through December 31, 1975, and shall bear the cost thereof.

(b) The costs of services which were borne by the processor for the 1973–74 crop shall be borne for the 1974–75 crop.

(c) Allowances made to producers by the processor for the 1973–74 crop shall be made for the 1974–75 crop at the rates which were effective under comparable conditions in 1973–74; except that the processor is given the option of paying hauling allowances to producer on either (1) the gross weight of sugarcane, or (2) in cases where a bulk trash determination, as provided in § 877.25(a) is made, the net weight of sugarcane as determined by deducting from the gross weight the amount of trash that is in excess of five percent: *Provided*, That if the processor elects to pay allowances on the net weight, the allowance shall be computed at not less than the rates established in Rule 12 of the Sugar Board of Puerto Rico plus ten percent of such rates. The method of paying hauling allowances elected by the processor shall be used uniformly throughout the grinding season.

(d) Nothing in paragraphs (b) or (c) of this section shall be construed as prohibiting negotiations between the processor and producer with respect to the amount of services or allowances to be made to the producer, any change to be approved in writing by the Area office upon a determination by the Director of the Area office that the change is fair and reasonable.

§ 877.27 Reporting requirements.

(a) The processor shall submit to the Area office a statement as to whether settlement with producers is to be made in sugar or in cash, together with a statement as to the sugar yield period which will be used during the grinding season. Such information shall be submitted not later than March 3, 1975, except that if the Director of the Area office determines that the failure to submit such statement by such date was unintentional, an extension of time may be granted by the Area office.

(b) If the processor makes settlement in cash, he shall submit in duplicate to the Area office statements verified by a Certified Public Accountant of the gross proceeds from the sales of molasses and the deductions made in determining the f.o.b. mill price of sugar and the net proceeds from molasses. Such statements shall be submitted not later than June 1, 1976, except that if the Director of the Area office determines that the failure to submit such statement by such date was unintentional, an extension of time may be granted by the Area office.

(c) The processor shall submit to the Area office a statement as to the option he elects in making hauling allowances to producers during the grinding season. Such information shall be submitted not later than March 3, 1975, except that if the Director of the Area office determines that the failure to submit such statement by such date was unintentional, an extension of time may be granted by the Area office.

§ 877.28 Applicability.

The requirements of this part are applicable to all sugarcane purchased from other producers and processed by a processor who produces sugarcane (a processor-producer is defined in 7 CFR 893.1); and to sugarcane purchased by a cooperative processor from non-members. The requirements are not applicable to sugarcane processed by a cooperative processor for its members.

§ 877.29 Procedures for checking compliance.

The procedures to be followed by the Caribbean Area ASCS Office in checking compliance with the requirements of this part are set forth under the heading Part 8—"Fair Price Determination" in Handbook 5–SU, issued by the Deputy Administrator, Programs, Agricultural Stabilization and Conservation Service. Handbook 5–SU may be inspected at and copies obtained from the Caribbean Area ASCS Office, P.O. Box 11188, Santurce, Puerto Rico 00910.

§ 877.30 Subterfuge.

The processor shall not reduce the returns to the producer below those determined in accordance with the requirements of this Part through any subterfuge or device whatsoever.

SCHEDULE A

FORMULAE FOR DETERMINING THE "YIELD OF RAW SUGAR" FOR EACH PRODUCER

(A) Where a continuous sample of the first expressed or crusher juice of the deliveries of sugarcane by a producer is used, the formula for determining the yield of raw sugar shall be:

$$R = T\,(S - 0.3B)\,F$$

where:
R=Yield of raw sugar, 96° basis;
S=Polarization of the first expressed or crusher juice obtained from the sugarcane of each producer;
B=Brix of the first expressed or crusher juice obtained from the sugarcane of each producer;
T=Trash correction factor which varies inversely with the amount of trash contained in the sugarcane of each producer from 1.0 for sugarcane which contains an amount of trash not in excess of 5 percent of the gross weight of sugarcane to 0.76075 for sugarcane which contains an amount of trash in excess of 30 percent; *Provided*, That where sugarcane has been subjected to a washing process prior to milling, the amount of trash that is soil shall be excluded in determining the correction factor.
I=Inferior sugarcane correction factor which is applied only to inferior varieties of sugarcane of each producer and is determined as follows:
(a) When the purity, P (where P=100 S÷B), of the first expressed or crusher juice of sugarcane is equal to 75 or more, the factor, I=0.9; or
(b) When the purity, P (where P=100 S÷B), of the first expressed or crusher juice of such sugarcane is less than 75, the factor, I=0.9–0.02 (75–P);
F=Yield factor which is determined as follows:
(a) Determine the "tentative recovery of raw sugar," 96° basis for each producer delivering sugarcane during the settlement period from the product of the formula (S–0.3B), the number of hundredweights of net sugarcane, the applicable trash correction factor, T; and where applicable the inferior sugarcane correction factor, I; and
(b) Divide the pounds of raw sugar, 96° basis, produced at the mill during the applicable settlement period by the sum of the "tentative recoveries of raw sugar" for all producers to obtain the yield factor, F.

If part of the sugarcane delivered by producers is subjected to a washing process prior to milling, the polarization and brix of the resulting dilute first expressed or crusher juice of such sugarcane shall be converted to an undiluted first expressed or crusher juice basis by application of dilution compensation factors (DCF) computed as follows:

$$\text{Brix DCF} = \frac{\text{Brix of undiluted first expressed or crusher juice sample}}{\text{Brix of diluted first expressed or crusher juice sample}}$$

$$\text{Pol DCF} = \frac{\text{Pol of undiluted first expressed or crusher juice sample}}{\text{Pol of diluted first expressed or crusher juice sample}}$$

A written description of procedures and the frequency of sampling sugarcane to be used in determining DCF factors shall be submitted by the processor to the Area office and shall be subject to approval of that office.

(B) Where the "direct cane analysis" method is used the sampling of sugarcane delivered by producers must be by the core sampler method and the formula for determining the yield of raw sugar shall be:

$$R = F[S - 0.3(B + 0.1\,f_c)]$$

where:
R=96° Yield % Cane, or yield of raw sugar, 96° basis.
S=Pol % Cane.
B=Brix % Cane.
f_c=Fiber % Cane.
F=Factor calculated using the values obtained during the liquidation period, weighted on the basis of the net weight of cane and substituted at the right side of the following equation:

$$F = \frac{R}{S - 0.3(B + 0.1\,f_c)}$$

Whenever the "direcat cane anlysis" method is used, no adjustments in the cane weight and yield shall be made for purposes of determining the yield of raw sugar.

(C) Where the sugarcane delivered by producers is sampled by hand or machine and the juice is extracted by a laboratory hand mill, the yield of raw sugar may be determined in accordance with the formula provided under (A) above after the sample mill juice Brix and sucrose for each producer has been factored to a first expressed or crusher juice basis.

(D) Where sugarcane is handled in bulk, the procedures for sampling the deliveries of sugarcane by a producer shall be representative of all the deliveries of sugarcane of such producer.

(E) All the sugarcane delivered by a producer during the settlement period shall be considered in determining the yield of raw sugar for the period, including that sugarcane for which a negative yield is obtained when applying the formulae set forth in the preceding paragraphs.

SCHEDULE B

ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES ON RAW SUGAR

Admissible deductions for selling and delivery expenses in connection with the payment for sugarcane provided in § 877.23 of the 1974–75 price determination are limited to the sum of the following expenses for each mill operated by a processor, net of any receipts which reduce such expenses:

(1) Freight from the mill directly to the bulk raw sugar loading terminal, including the cost of covering cars or trucks where necessary;
(2) The cost of receiving, handling, and loading aboard ship at the bulk terminal at the rates established by the Puerto Rico Public Service Commission and in effect at the time the sugar is delivered to the bulk sugar terminal facility;
(3) Ocean freight;
(4) Unloading at destination;
(5) Freight demurrage resulting from causes beyond the control of the shipper;
(6) Reclaiming, weighing, and loading at mill or where stored;
(7) Shore risk, marine and war risk insurance;
(8) Brokerage or commission and exchange;
(9) Weighing, testing, and sampling at destination;

When any of the necessary services included in items (1), (3), (4), (5) or (6) above are furnished by the processor, costs incurred may include for each of the services rendered:

(1) Direct and immediate supervisory labor;
(2) Maintenance labor and supplies required for the facilities used;
(3) Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pension, bonuses, and vacation expenses properly allocable to such labor;
(4) Direct supplies; and
(5) Depreciation (at rates allowed by the taxing authority), property taxes, and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of costs. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property

XUM
V40-32 FEB 14 75 XUM

taxes, and property insurance of such facilities properly apportionable to the necessary service shall be allowed.

The Director of the Area office may permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the costs incurred by the processor in furnishing the necessary service in the event that the cost incurred therefor cannot be accurately determined.

In determining the f.o.b. mill price of raw sugar sold or processed in Puerto Rico, equivalent selling and delivery expenses as approved by the Director of the Area office shall be computed as follows:

(1) If the processor delivers 20 percent or more of the total quantity of raw sugar produced by the mill to mainland refiners, the allowable per hundredweight selling and delivery expenses to be applied to such total quantity shall be the average of the admissible selling and delivery expenses as approved by the Director of the Area office for that quantity of raw sugar produced by the mill which was delivered to mainland refiners.

(2) If the processor delivers less than 20 percent of the total quantity of raw sugar produced by the mill to mainland refiners, the allowable per hundredweight selling and delivery expenses to be applied to such total quantity shall be an amount equal to the average of the admissible selling and delivery expenses approved by the Director of the Area office for all 1974–75 crop raw sugar produced in Puerto Rico which was delivered to mainland refiners except that such average of all selling and delivery expenses shall be increased (or reduced as appropriate) by an amount representing the difference between the estimated per hundredweight inland transportation costs which would have been incurred by the processor had all such 1974–75 crop raw sugar been delivered to the bulk sugar terminal to which the Area office determines the sugar could have been transported at the lowest inland transportation costs and the average per hundredweight of all admissible inland transportation costs for all 1974–75 crop raw sugar that was delivered to the mainland. The average of the admissible selling and delivery expenses shall, as provided above, be increased when the estimated inland transportation costs are greater than such average, and be reduced when the estimated inland transportation costs are less than such average.

The statement as required by § 877.27 of the determination shall include the following certification:

CERTIFICATION

I, hereby certify that as a result of the audit performed on the books of Central ---------- as of ----------, the deductions as set forth herein are properly chargeable as selling and delivery expenses for sugar in accordance with the determination of fair and reasonable prices for the 1974–75 crop of Puerto Rican sugarcane.

SCHEDULE C

ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES FOR MOLASSES

Admissible deductions for selling and delivery expenses in connection with the molasses payment provided in § 877.24 of the 1974–75 price determination are limited to the sum of the following expenses actually incurred at each mill operated by a processor, net of any receipts which reduce such expenses:

(1) Operation of pumps to deliver molasses from mill tank to shipside or other delivery point;

(2) Freight incurred or which would have been incurred on direct shipment from tanks located at the mill to shipside, or to a waterfront tank facility, or to local buyers when such molasses is sold on a delivered price basis;

(3) Operation of tank barges, tugs, or other marina equipment used in delivering molasses to shipside;

(4) Weighing and testing;

(5) Wharfage, including charges arising from utilization of waterfront facilities such as pipelines (including fees paid for right of way privileges), pumps, and tanks (a) to store molasses in anticipation of shipment; and (b) to deliver such molasses within the hold of the ship;

(6) Shore risk insurance (limited in coverage from mill to shipside);

(7) Freight demurrage resulting from causes beyond the control of the shipper;

(8) Brokerage paid to a bona fide broker.

When any of the necessary services included in items (1) through (8) above are furnished by the processor, costs incurred may include for each of the services rendered:

(1) Direct and immediate supervisory labor;

(2) Maintenance labor and supplies required for facilities used;

(3) Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pensions, bonuses and vacation expenses properly allocable to such labor;

(4) Fuel, energy or direct supplies; and

(5) Depreciation (at rates allowed by the taxing authorities), property taxes and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of costs. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property taxes, and property insurance of such facilities, properly apportionable to the necessary service, shall be allowed.

The Director of the Area office may permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the cost incurred by the processor in furnishing the necessary service in the event that the costs incurred therefore cannot be accurately determined.

The statement as required by § 877.27 of the determination shall include the following certification:

CERTIFICATION

I, hereby certify that, as the result of the audit performed on the books of Central ---------- as of ----------, the gross proceeds from the sales of molasses as herein stated are true and correct and the deductions set forth herein are properly chargeable as selling and delivery expenses for molasses in accordance with the determination of fair and reasonable prices for the 1974–75 crop of Puerto Rican sugarcane.

STATEMENT OF BASES AND CONSIDERATIONS

General. The foregoing determination establishes the fair and reasonable price requirements which must be met, as one of the conditions for payment under the act, by a producer who processes sugarcane of the 1974–75 crop grown by other producers.

Requirements of the act. Section 301 (c) (2) of the act provides as a condition for payment, that the producer on the farm who is also directly or indirectly a processor of sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

1974–75 price determination. This determination has the effect of continuing without change the provisions of the prior determination.

A public hearing was held in San Juan, Puerto Rico, on December 4, 1974, at which interested persons were afforded the opportunity to present testimony and make recommendations with respect to fair and reasonable prices for the 1974–75 crop of sugarcane. Representatives of the Puerto Rico Farm Bureau recommended that the present system of basing selling and delivery expenses for all independent producers on an average of such expenses for all mills be changed to require that all independent producer sugar be considered as marketed within Puerto Rico for the local market and that any amount of raw sugar marketed in the Continental U.S. be considered as processor sugar, making it necessary for the mills shipping raw sugar to the mainland to absorb any and all selling and delivery expenses so incurred. They estimate that such a move would increase income to the independent cane farmers in Puerto Rico by about $1 million. They further recommended that no basic changes be made in the present payment scale contained in the determination, but that increases be allowed in accordance with any increases authorized in transportation costs; i.e., an escalator clause to allow for increased cane hauling charges resulting from increased fuel costs.

A representative of the Sugar Corporation of Puerto Rico, an agency of the Commonwealth government recommended that the present method of basing deductible selling and delivery expenses for mills shipping 20 percent or more to the mainland is appropriate and equitable and should not be changed. He stated that during the 1973–74 crop season an estimated 80,326 tons of raw sugar was marketed in the Continental U.S. from the Coloso, Guanica, Cambalache, Eureka, and Plata mills. He maintains that the selling and delivery expenses incurred should serve as the basis for determining these expenses for the other ten mills that operated during the 1973–74 season, inasmuch as exclusion of the shipping and delivery expenses would in turn increase the price of refined sugar in the Commonwealth.

Consideration has been given to the recommendations made at the public hearing; to data on the returns, costs and profits or losses of producing and processing sugarcane obtained by field survey for prior crops and recast in terms of price and production conditions likely to prevail for the 1974–75 crop; and to other relevant factors. Sugar production in 1973–74 amounted to 287,000 tons, an increase of 35,000 tons over the all-time low of 252,000 in 1972–73. Sugar recovery per ton of cane was 160 pounds in 1973–74 as compared to 139 pounds in the previous year.

This determination continues the provisions of the 1973–74 determination. The recommendation of the Farm Bureau that all independent producer sugar be considered as marketed locally and, therefore, exempted from deductions for selling and delivery expenses has not been adopted. The Department's responsibility for determining a fair and reasonable price will not permit adoption of the recommendation of the Farm Bureau without a corresponding change in the sharing relationship between the independent growers and the sugar mills.

The recommendation for an escalator clause to allow for increased cane hauling charges resulting from increased fuel costs has not been adopted.

On the basis of an examination of all pertinent factors, the provisions of this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

(The recordkeeping and reporting requirements of these regulations have been approved by, and subsequent recordkeeping and reporting requirements will be subject to the approval of the Office of Management and Budget in accordance with the Federal Reports Act of 1942.)

Effective date. This determination shall become effective on February 14, 1975, and is applicable to the 1974–75 crop of Puerto Rican sugarcane.

Signed at Washington, D.C. on February 7, 1975.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 679]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Feb. 16–22, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.979 Lemon Regulation 679.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons opened steady and is expected to continue so most of this week. Average f.o.b. price was $4.76 per carton the week ended February 8, 1975, compared to $4.77 per carton the previous week. Track and rolling supplies at 125 cars were down 4 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 11, 1975.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period February 16, 1975, through February 22, 1975, is hereby fixed at 205,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674))

Dated: February 13, 1975.

Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 204—PETITION TO CLASSIFY ALIEN AS IMMEDIATE RELATIVE OF A UNITED STATES CITIZEN OR AS A PREFERENCE IMMIGRANT

Third or Sixth Preference Visa Petitions; Evidence of Training or Experience of Beneficiary

Reference is made to the notice of Proposed Rule Making which was published in the FEDERAL REGISTER of November 27, 1974 (39 FR 41378) pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383) and in which there were set forth proposed amendments to § 204.2(e) (1) of Chapter I of Title 8 of the Code of Federal Regulations, pertaining to the requirement that evidence of employment or training of a third or sixth preference visa petition beneficiary shall generally be in affidavit form from the employer or trainer.

The representations which were received concerning the proposed rules of November 27, 1974, have been considered. No change has been made in the proposed rules. The rules, as proposed and as set forth below, are hereby adopted:

In § 204.2, paragraph (e) (1) is amended by revising the existing last two sentences and by adding a new sentence at the end thereof. As amended, § 204.2 (e) (1) reads as follows:

§ 204.2 Documents.

* * * * * * *

(e) *Evidence of eligibility for third- or sixth-preference classification.*—(1) *General.* The documentary evidence which the petitioner must submit to establish the beneficiary's eligibility under section 203(a) (3) or (6) of the Act shall include Form MA 7–50A, or Forms MA 7–50 A and B, as provided in § 204.1(c), and any documents required to be presented with those forms. If the alien's eligibility is

XUM
V40132 FEB 1475 XUM

based in whole or in part on higher education, a certified copy of his school record shall be submitted. The record must show the period of attendance, major field of study, and the degrees or diplomas awarded. If the alien has received a license or other official permission to practice his profession, the license or other official permit to practice must also be submitted. If the alien's eligibility is based on a claim of exceptional ability in the sciences or the arts, documentary evidence supporting the claim must be submitted by the petitioner. Such evidence may attest to the universal acclaim and either the national or international recognition accorded to the alien; that he has received a nationally or internationally recognized prize or award or won a nationally or internationally recognized competition for excellence for a specific product or performance or for outstanding achievement; or that he is a member of a national or international association of persons which maintains standards of membership recognizing outstanding achievement as judged by recognized national or international experts in a specific discipline or field of endeavor. An affidavit attesting to an alien's exceptional ability in the sciences or the arts must set forth the name and address of the affiant, state how he has acquired his knowledge of the alien's qualifications, and must describe in detail the facts on which the affiant bases his assessment of the alien's qualifications. If material published by or about the alien is submitted, it must be accompanied by information as to the date, place, and title of the publication. If the alien's eligibility is based on training or experience, affidavits by the trainers or employers attesting to the training or experience which they provided to the alien must be submitted by the petitioner. These affidavits must set forth the name and address of the affiant, state how he acquired his knowledge of the alien's qualifications, state the places where and the dates between which the alien gained the training or experience, and describe in detail the duties performed by the alien, any tools used, and any supervision received or exercised by the alien. If such affidavits cannot be obtained, the petitioner shall submit an affidavit by the alien beneficiary attesting to the reasons therefor, and shall also submit other documentary evidence of the alien's qualifications, such as copies of company records or affidavits by persons other than the alien's trainers or employers having personal knowledge of the facts to which the affiants are attesting, setting forth the information specified in the preceding sentence.

* * * * * *

(Sec. 103, 66 Stat. 173; (8 U.S.C. 1103))

The basis and purpose of the above-prescribed regulations are to establish safeguards against the submission of false statements or records in support of third or sixth preference visa petitions in which the beneficiary's eligibility is based on training or experience.

Effective date. The amendments contained in this order shall become effective March 17, 1975.

Dated: February 11, 1975.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

[FR Doc.75-4202 Filed 2-13-75;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Release of Areas Quarantined

This amendment releases a portion of Otoe County, a portion of Gage County and a portion Saline County in Nebraska from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, will not apply to the excluded areas, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded areas. No areas in Nebraska remain under quarantine.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

§ 73.1a [Amended].

In § 73.1a, paragraph (b) relating to the State of Nebraska is deleted.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FA 19141.)

Effective date. The foregoing amendment shall become effective on February 11, 1975.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of cattle scabies and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 11th day of February, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-4237 Filed 2-13-75;8:45 am]

SUBCHAPTER G—ANIMAL BREEDS

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PUREBRED ANIMALS

Recognized Breeds and Books of Record

Statement of considerations. The purpose of this amendment is to include the Morgan horse in the listing of recognized breeds and to the books of record of the Canadian National Live Stock Records contained in 9 CFR § 151.9(b)(1). An examination has been made by the Animal and Plant Health Inspection Service of the microfilm records and the rules of entry for the registration of the Morgan horse in Canada, and it has been determined that these rules and records are complete and adequate to provide a sufficient pedigree certificate to meet the requirements of 9 CFR Part 151.

The amendment also updates the name of the Director of the Canadian National Live Stock Records.

§ 151.9 [Amended]

Accordingly, in § 151.9 in paragraph (b)(1) the name "F. G. Hodgkin" is changed to read "F. G. Clark"; the second proviso is amended by inserting the word "Morgan," before the reference to "Shetland Pony,"; and the chart in paragraph (b)(1) is amended by inserting the following in alphabetical order under the heading "Horses":

Code:	*Horses*
2236	Morgan

(Sec. 101, 76 Stat. 72, Item 100.01, Title I, Tariff Act of 1930, as amended; (19 U.S.C. 1202, Item 100.01); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective on February 14, 1975.

The effect of the amendment is to provide for duty-free entry of certain purebred animals and, in order to be of maximum benefit to persons desiring to import such animals, the amendment should be made effective promptly to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 11th day of February, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

Emergency Amendment—Temporary Adjustments and Assignments Occasioned by Certain Energy Curtailments; Cancellation of Public Hearing

On January 25, 1975, the Federal Energy Administration issued an emergency amendment 10 CFR Part 205 which added a new § 205.29 and revised § 205.39 covering temporary adjustments and assignments occasioned by certain energy curtailments. A public hearing on the amendment was scheduled for February 19, 1975.

No requests to make oral presentations were received by FEA prior to 4:30 p.m., e.s.t., Tuesday, February 11, 1975. Therefore, FEA hereby gives notice that the public hearing is cancelled.

ROBERT E. MONTGOMERY, JR.,
General Counsel.

FEBRUARY 12, 1975.

[FR Doc.75-4337 Filed 2-12-75;3:58 pm]

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Emergency Amendment Permitting Entitlement Adjustments to Correct Reporting Errors in Old Oil Allocation Program

On November 29, 1974, FEA issued the final rule for the allocation of old oil (39 FR 42246, December 4, 1974). The initial entitlement notice for the old oil allocation program was issued on January 10, 1975, based on reports filed by refiners and eligible firms for the month of November 1974.

In the preparation of the entitlement notice for the month of December 1974, FEA was notified by numerous refiners and eligible firms of reporting errors for the month of November. These errors were of two basic types: first, refiners reported incorrectly as to volumes of old oil included in their crude oil receipts and refiners and eligible firms made reporting errors as to import volumes of eligible products; secondly, certain eligible firms did not file for volumes of eligible products imported in November due to confusion as to whether their firm qualified as an eligible firm under the definition of this term set forth in § 211.62.

Due to the nature of the reporting information required for the program and the time frame within which such information is required to be filed, FEA has concluded that a significant number of reporting errors are almost unavoidable for firms covered by the program. Due to complexities inherent in the start up phase of the program, a substantial number of good faith reporting errors made in November 1974 reports will have to be corrected by adjusting entitlement issuances for December 1974. Therefore, FEA has determined that an emergency amendment to 10 CFR 211.67 which would be effective immediately is required to permit appropriate corrective adjustments for November reporting errors to be reflected in the December entitlement issuance, which will take place on the date hereof. Accordingly, FEA is hereby adopting the requisite amendment.

The amendment adopted requires correction of and permits FEA to make adjustments for two types of reporting errors for prior months.

First, refiners and eligible firms are required to correct errors contained in reports filed under paragraphs (h) and (j) of § 211.66 by filing an amended report for the particular month. The basic data that would most likely be corrected in this manner are volumes of old oil included in the crude oil receipts of a refiner and import volumes of eligible products reported in a particular month by a refiner or eligible firm. Based on any reporting errors so corrected, FEA in its discretion may adjust entitlement issuances to a refiner or eligible firm in a month or months subsequent to the month in which the amended report is filed with FEA, by issuing fewer entitlements than the number otherwise issuable or by requiring a refiner or an eligible firm to purchase entitlements in order to correct for excess entitlements issued in a prior month or by issuing entitlements over and above the number otherwise issuable to compensate for too few entitlements having been issued in such prior month. However, the amendment adopted provides a time limitation for filing of amended reports to correct errors which would result in adjustments favorable to a refiner or an eligible firm. Such amended reports shall be filed no later than the 28th day of the second month following the month in which the report being corrected is required to be filed. Any such reporting errors which are not so corrected will not be eligible for any adjustments under the amendment adopted; however, the firm wishing to receive such an adjustment will be able to file with the Office of Exceptions and Appeals for an exception to permit such adjustments to be made. To give effect to variances in the entitlement price for different months, in adjusting entitlement issuances FEA shall take into account any such price differentials. FEA may also in its discretion take into account other factors to the extent it deems them relevant to the adjustment.

The amendment adopted hereby also provides that eligible firms that failed to file the affidavit called for by § 211.66(k) and to report any volumes of eligible products imported for the month of November or December, 1974 may report those volumes of eligible products on or before February 28, 1975. Any volumes so reported to the FEA shall be reflected in the entitlement issuances to those eligible firms either for the month of December 1974 (if the filing has been made by February 3, 1975) or for January, 1975.

PUBLIC HEARING AND WRITTEN COMMENT PROCEDURES

The public hearing and written comment procedures for this amendment will be in conjunction with the procedures provided for the emergency amendment to Special Rule No. 3 issued on February 5, 1975, which are set forth below.

Section 7(f)(1)(B) of the Federal Energy Administration Act of 1974 (Pub. L. 93-275) (FEAA) provides for waiver of the requirements of that section as to time of notice and opportunity to comment prior to promulgation of regulations where strict compliance with such requirements is found to cause serious harm or injury to the public health, safety, or welfare. The FEA has determined for the reasons outlined above that strict compliance with the requirements of section 7(f)(1)(B) of the FEAA would thus cause serious harm and injury to the public safety and welfare. Accordingly, these requirements must be waived and this amendment is made effective immediately, prior to opportunity to comment thereon.

The review provisions of section 7(c)(2) of the FEAA are hereby waived for a period of fourteen days, as provided for in that section, upon a finding that there is an emergency situation which requires immediate action. FEA is submitting the text of this emergency amendment concurrently with its issuance to the Administrator of the Environmental Protection Agency for his review.

Because this amendment is being issued on an emergency basis, an opportunity for oral presentation of views will not be possible prior to its promulgation. A public hearing on the amendment, however, will be held beginning at 9:30 a.m. on Tuesday, March 4, 1975, in Room 3000, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., to receive comments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t., Monday, February 24, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through Friday, February 28, 1975. Each person selected to be heard will be so notified by the FEA before 5:30 p.m., Wednesday, February 26, 1975, and must submit 100 copies of his or her statement to Executive Communications, FEA, Room 3315, Federal Building, Washington, D.C. 20461, before 9 a.m., e.s.t., Monday, March 3, 1975.

XUM
V40I32 FEB 14 75
XUM

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to the time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communictaions, FEA, before 4:30 p.m., Friday, February 28, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the questions is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area of the FEA, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may buy a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to the emergency amendment to Executive Communications, Federal Energy Administration, Box CD, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Emergency Amendment—Corrections for Reporting Errors". Fifteen copies should be submitted. All comments received by February 28, 1975, and all relevant information will be considered by the Federal Energy Administration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185).

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective February 14, 1975.

Issued in Washington, D.C., February 11, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

Section 211.67(l) is amended by adding subparagraphs (5) and (6) to read as follows:

§ 211.67 Allocation of old oil.

* * * * *

(l) *Issuance and transfer of entitlements*

* * * * *

(5) Refiners and eligible firms shall correct any errors contained in reports filed pursuant to paragraphs (h) and (j) of § 211.66 by filing an amended report for the particular month. Based on any reporting errors so corrected, FEA in its discretion may adjust entitlement issuances to the refiner or eligible firm in a month or months subsequent to the month in which the amended report is filed with the FEA, by issuing fewer entitlements than the number otherwise issuable or by requiring the refiner or eligible firm to purchase entitlements in order to correct for excess entitlements issued in a prior month or by issuing entitlements over and above the number otherwise issuable to compensate for too few entitlements have been issued in such prior month. Amended reports setting forth corrections which would result in adjustments favorable to a refiner or eligible firm shall be filed no later than the 28th day of the second month following the month in which the report being corrected is required to be filed. Refiners and eligible firms which seek corrections in their favor subsequent to the two month period allowed for filing amended reports may apply to FEA for an exception from the provisions of this subparagraph in accordance with the procedures established in subpart D of part 205 of this chapter. All entitlement issuances or purchase requirements shall give effect to any differential between the entitlement price for the month in which any correction is reflected as compared with the entitlement price for the month as to which the reporting error was made and such other factors as the FEA deems appropriate.

(6) Notwithstanding the provisions of paragraph (l) of § 211.66, eligible firms which failed to report any volumes of eligible products imported for the month of November or December, 1974 and which were otherwise eligible to receive entitlements in accordance with the provisions of this subpart in effect with respect to those months may report those volumes of eligible products on or before February 28, 1975. Any volumes so reported to the FEA shall be reflected, to the extent determined by FEA after consideration of such factors as it deems appropriate, in the entitlement issuances to those eligible firms either for the month of December 1974 (if the amended report reflecting the correction has been filed with the FEA by February 3, 1975) or for January 1975.

[FR Doc. 75-4255 Filed 2-11-75;4:31 pm]

[Ruling 1975-1]

TRANSPORTATION COSTS

Facts. Firm X, a reseller of a covered product, purchases the covered product from Refiner W. Carrier A, an independent carrier, transports the covered product from Refiner W to Firm X. Carrier A increases the rates it charges Firm X for transporting the covered product. Firm X sells the covered product to Firm Z, a retailer, and delivers the covered product in its own trucks to Firm Z. Firm X's costs incurred in connection with delivering the covered product to Firm Z increase.

Issue No. 1. May Firm X treat Carrier A's increased transportation charges to it as "increased costs," as defined in § 212.92?

Issue No. 2. May Firm X treat its increased costs incurred in connection with delivering the covered product to Firm Z as "increased costs," as defined in § 212.92?

Ruling. Firm X may treat Carrier A's increased transportation charges as "increased cost" pursuant to § 212.92, but may not treat its increased costs incurred in connection with delivering the covered product to Firm Z as "increased costs."

"Increased costs" are defined in § 212.92 to mean "the difference between the weighted average unit cost of a product in inventory and the weighted average unit cost of that product in inventory on May 15, 1973." "Increased costs" are thus defined to be increased "cost of a product," and such increased costs are permitted to be passed through, on a dollar-for-dollar basis, in the prices charged for the product by resellers, reseller-retailers, and retailers pursuant to § 212.93. Increased non-product costs, on the other hand, are permitted to be reflected in the prices charged by resellers, reseller-retailers, and retailers only to the extent permitted by § 212.93(b).

The "weighted average unit cost of a product in inventory" includes transportation costs incurred in bringing the covered product into the seller's inventory. The cost of product is, in other words, considered to be the "delivered cost" to the buyer. In many instances, the product is purchased at a "delivered price," and there is no separate transportation cost incurred. Where transportation costs are incurred separately in connection with acquiring product, however, they have historically been treated as a cost of acquiring the product. For example, refiners are expressly allowed to treat increased transportation costs associated with obtaining crude oil or covered products as increased product costs, pursuant to the definitions of "cost of crude petroleum" and "cost of petroleum product" in § 212.83(b). "Cost of petroleum product" is defined in § 2.12.83(b), for example, to mean:

(1) For purposes of domestic petroleum products other than crude petroleum the purchase price including transportation costs. (2) For purposes of imported petroleum products other than crude petroleum, the landed costs.

The definition of "landed costs" in § 212.93(b) also includes transportation costs. Thus, pursuant to § 212.83(b), refiners have been expressly permitted to treat increased transportation costs incurred in connection with acquiring crude oil and petroleum products as increased product costs.

Although transportation costs are not specifically dealt with under the § 212.92 definition of "increased costs" which is applicable to resellers, reseller-retailers, and retailers, Form CLC-92, Part III, line 12, which was published by the Cost of Living Council and which certain retailers, retailer-resellers, and resellers must file with respect to No. 2 heating oil prices, states that "The total of all charges associated with transporting the No. 2 heating oil to your inventory, historically considered to be part of the costs and not already included in unit costs, should be reflected in [the cost of product]" (Form CLC-92, Instructions for Part III, line 12). Thus, resellers and retailers have been given further reason to believe that increased transportation costs incurred in obtaining covered products may properly be treated as increased product costs. The purpose of this ruling, therefore, is to confirm that such transportation costs are properly included within the meaning of "increased costs," as defined in § 212.92.

Firm X is not, however, permitted to treat increased transportation costs associated with delivering the covered product to its customers as "increased costs" under § 212.92. Such costs are not related to the cost of the product to Firm X, but are, rather, a cost of doing business for Firm X, which must be treated as all other non-product costs, and which may be reflected in Firm X's selling prices only to the extent permitted by § 212.93(b). Again, such treatment is consistent with the express provisions of the refiner price rules, which treat all marketing costs as non-product costs (§ 212.87). Similarly, Form CLC-92 does not provide any basis upon which a reseller, reseller-retailer, or retailer could seek to pass through as an increased product cost any increased transportation costs associated with delivering No. 2 heating oil to its customers.

It should be noted that in computing the "weighted average unit cost" of a product in inventory pursuant to § 212.92, a firm must be consistent in its accounting procedures. Thus, a firm which includes transportation costs associated with acquiring a covered product as a product cost when calculating its current weighted average unit cost of product in inventory must also include such costs in its calculation of the weighted average unit cost of that product in inventory on May 15, 1973.

Dated: February 6, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 201—EXTENSIONS OF CREDIT BY FEDERAL RESERVE BANKS

Changes in Rates

Pursuant to section 14(d) of the Federal Reserve Act (12 U.S.C. 357), and for the purpose of adjusting discount rates with a view to accommodating commerce and business in accordance with other related rates and the general credit situation of the country, Part 201 is amended as set forth below:

1. Section 201.51 is amended to read as follows:

§ 201.51 Advances and discounts for member banks under sections 13 and 13a.

The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships, or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	6¾	Feb. 5, 1975
New York	6¾	Do.
Philadelphia	6¾	Do.
Cleveland	6¾	Do.
Richmond	6¾	Do.
Atlanta	6¾	Do.
Chicago	6¾	Feb. 6, 1975
St. Louis	6¾	Feb. 7, 1975
Minneapolis	6¾	Feb. 5, 1975
Kansas City	6¾	Feb. 7, 1975
Dallas	6¾	Feb. 5, 1975
San Francisco	6¾	Do.

2. Section 201.52 is amended to read as follows:

§ 201.52 Advances to member banks under section 10(b).

(a) The rates for advances to member banks under section 10(b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	7¼	Feb. 5, 1975
New York	7¼	Do.
Philadelphia	7¼	Do.
Cleveland	7¼	Do.
Richmond	7¼	Do.
Atlanta	7¼	Do.
Chicago	7¼	Feb. 6, 1975
St. Louis	7¼	Feb. 7, 1975
Minneapolis	7¼	Feb. 5, 1975
Kansas City	7¼	Feb. 7, 1975
Dallas	7¼	Feb. 5, 1975
San Francisco	7¼	Do.

(b) The rates for advances to member banks for prolonged periods and in significant amounts under section 10(b) of the Federal Reserve Act and § 201.2(e) (2) of Regulation A are:

Federal Reserve Bank of—	Rate	Effective
Boston	8½	Feb. 5, 1975
New York	8½	Do.
Philadelphia	8½	Do.
Cleveland	8½	Do.
Richmond	8½	Do.
Atlanta	8½	Do.
Chicago	8½	Feb. 6, 1975
St. Louis	8½	Feb. 7, 1975
Minneapolis	8½	Feb. 5, 1975
Kansas City	8½	Feb. 7, 1975
Dallas	8½	Feb. 5, 1975
San Francisco	8½	Do.

3. Section 201.53 reads as follows:

§ 201.53 Advances to persons other than member banks.

The rates for advances under the last paragraph of section 13 of the Federal Reserve Act to individuals, partnerships, or corporations other than member banks secured by direct obligations of, or obligations fully guaranteed as to principal and interest by, the United States or any agency thereof are:

Federal Reserve Bank of—	Rate	Effective
Boston	9½	Feb. 5, 1975
New York	9½	Do.
Philadelphia	9½	Do.
Cleveland	9½	Do.
Richmond	9½	Do.
Atlanta	9½	Do.
Chicago	9½	Feb. 6, 1975
St. Louis	9½	Feb. 7, 1975
Minneapolis	9½	Feb. 5, 1975
Kansas City	9½	Feb. 7, 1975
Dallas	9½	Feb. 5, 1975
San Francisco	9½	Do.

(12 U.S.C. 248(i). Interprets or applies 12 U.S.C. 357.)

By order of the Board of Governors, February 7, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-4191 Filed 2-13-75;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 314—EXCESS PROPERTY

Grant and Loan Program

Chapter III of Title 13 of the Code of Federal Regulations is hereby amended.

XUM V40-32 FEB 14 75 XUM

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 533) requiring notice of proposed rulemaking and opportunity for public participation are inapplicable.

The purpose of these regulations is to provide information concerning the availability of excess property to grantees or recipients of cost reimbursement type contracts under programs administered by the Economic Development Administration.

Accordingly, Chapter III of Title 13 is amended by adding a new Part 314 to read as follows:

PART 314—EXCESS PROPERTY

§ 314.1 General requirements.

(a) EDA is authorized to conduct an excess property program subject to all requirements and limitations contained in the GSA Federal Property Management Regulations as published in 31 CFR 43.320. EDA will act as a sponsor in forwarding appropriate requests for excess property to the General Services Administration for approval and processing.

(b) Any recipient of an EDA grant or any recipient of an EDA funded cost reimbursement type contract may submit a request to EDA for the use of excess property. Such requests shall be made on forms provided by EDA.

(c) The use of any excess property made available to the recipient of an EDA grant or the recipient of an EDA funded cost reimbursement type contract pursuant to this part will be governed by a written contract between EDA and the recipient. The contract shall specify the rights and obligations of the parties and actions to be taken by the recipient in regard to the shipment, use, care, maintenance, and redelivery of the property.

(Sec. 701, Pub. L. 89-136, August 26, 1965; (42 U.S.C. 3211); 79 Stat. 570 and Department of Commerce Organization Order 10-4, April 1, 1970 (35 FR 5970))

Effective date. This amendment becomes effective on March 14, 1975.

Dated: February 7, 1975.

D. JEFF CAHILL,
Acting Assistant Secretary for Economic Development.

[FR Doc.75-4171 Filed 2-13-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION

[Docket No. 75-SO-13 Amdt. 39-2095]

PART 39—AIRWORTHINESS DIRECTIVES

Certain Beech, Piper, Navion, and Cessna Airplanes

There have been failures of the Beryl filtrator air oil separator on Beech 35B33, C35, E35, J35, and Cessna 182 airplanes modified in accordance with Beryl Aviation Specialties STC SA2653WE that resulted in oil contamination and/or loss of engine oil. Since this condition is likely to exist or develop in other airplanes incorporating this modification, an airworthiness directive is being issued to require filtrator assembly inspection and modification, filtrator assembly replacement or the removal of STC SA2653WE on the following: Beech Models 35, A35, B35, C35, D35, E35, E33, F35, G35, 35R, 35-33, 35-A33, 35-B33, 35-C33, 35-C33A, E33A, E33C, F33, F33A, F33C, G33, H35, J35, K35, M35, N35, P35, S35, V35, V35A, V35B, 36, A36 series airplanes.

Piper Models PA24, PA24-250, PA24-260 series airplanes.

Navion Model Navion A series airplanes.

Cessna Models 182, 182A, 182B, 182C, 182D, 182E, 182F, 182G, 182H, 182J, 182K, 182L, 182M, 182N, 182P series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator 31 FR 13697, § 39.13 of Part 39 of the Federal aviation regulations is amended by adding the following new airworthiness directive:

BEECH, CESSNA, NAVION AND PIPER. Applies to Beech Models 35, A35, B35, C35, D35, E35, F35, G35, 35R, 35-33, 35-A33, 35-B33, 35-C33, 35-C33A, E33, E33A, E33C, F33, F33A, F33C, G33, E35, J35, K35, M35, N35, P35, S35, V35, V35A, V35B, 36, A36 series airplanes; Piper Models PA24, PA24-250, PA24-260 series airplanes; Navion Model Navion A series airplanes; Cessna Models 182, 182A, 182B, 182C, 182D, 182E, 182F, 182G, 182H, 182J, 182K, 182L, 182M, 182N, 182P series airplanes certificated in all categories which have been modified in accordance with STC SA2653WE.

Compliance required as indicated unless already accomplished.

To prevent loss of engine oil, improper engine lubrication, or engine oil contamination, accomplish the following:

(a) Within the next 25 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 25 hours' time in service, unless (b) has been accomplished, remove the Beryl Aviation air oil separator Filtrator Assembly and inspect in accordance with the following procedure.

(1) Add one quart of clear gasoline to the assembly can and plug or cap the ends of all tubes.

(2) Hold the assembly can upright and shake vigorously for about 2 minutes.

(3) Completely drain the gasoline from the ¼-inch oil return tube through a paint strainer or similar fine mesh strainer and check for the presence of polyester urethane particles that have broken off of the internal screen material.

(4) If screen particles are present, accomplish (b).

(5) If screen particles are not present, install a ⅛-inch rivet in the top center of the assembly can to fasten the inside center cone to the outside can. Seal the rivet with an oil and fuel resistant type sealant if required. After assuring that cleaning agent has evaporated, reinstall the filtrator assembly.

(b) Within the next 100 hours' time in service after the effective date of this AD, unless already accomplished, accomplish (1), (2), or (3).

(1) (i) For Beech Models 35, A35, B35, C35, D35, E35, F35, G35, and 35R Series Airplanes, remove the Beryl Aviation filtrator assembly P/N B-1119-1 and install either P/N B-1119-M or P/N B-1119-RM.

(ii) For Beech Models S35, V35, V35A, V35B, 35C-33A, E33A, E33C, F33A, F33C, 36, and A36 Series Airplanes, remove the Beryl Aviation filtrator assembly P/N B-1116-1 and install either P/N B-1116-M or P/N B-1116-RM.

(iii) For Beech Models H35, J35, K35, M35, N35, P35, 35-33, 35-A33, 35-B33, 35-C33, E33, F33, and G33 Series Airplanes, remove the Beryl Aviation filtrator assembly P/N B-1114-1 and install either P/N B-1114-M or P/N B-1114-RM.

(iv) For Piper Models PA24, PA24-250, and PA24-260 Series Airplanes, remove the Beryl Aviation filtrator assembly P/N B-1113-1 and install either P/N B-1113-M or P/N B-1113-RM.

(v) For Navion Model A Series Airplanes, remove the Beryl Aviation filtrator assembly P/N B-1112-1 and install either P/N B-1112-M or P/N B-1112-RM.

(vi) For Cessna Models 182, 182A, 182B, 182C, 182D, 182E, 182F, 182G, 182H, 182J, 182K, 182L, 182M, 182N, and 182P Series Airplanes remove the Beryl Aviation filtrator assembly P/N B-1114-1 and install either P/N B-1114-M or P/N B-1114-RM.

(2) Remove the modification incorporated by STC SA2653WE and return airplane to the standard unmodified configuration.

(3) Provide compliance with an equivalent method approved by Chief, Engineering and Manufacturing Branch, Southern Region.

Beryl Aviation Specialties, Route 1, Box 127D, Leesburg, Florida 32748, Services Bulletin B-1-1-75-1 also pertains to this subject.

This amendment becomes effective February 21, 1975.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on February 7, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-4129 Filed 2-13-75;8:45 am]

[Docket No. 75-GL-1; Amdt. 39-2093]

PART 39—AIRWORTHINESS DIRECTIVES

Bellanca Model 8GCBC Series Airplanes

A propeller vibration survey of the McCauley 1A200/HFA propeller installation on the Bellanca Model 8GCBC airplane revealed that relatively high blade stresses could be encountered during descending flight between 1,700 and 2,100 RPM. Since this condition could result in decreased propeller blade life, an airworthiness directive is being issued to require placarding and remarking the engine tachometer on the Bellanca Model 8GCBC Airplane.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697 and 14 CFR 11.89) § 39.13 of Part 39 of the Federal aviation regulations is amended by adding the following new airworthiness directive.

BELLANCA. Applies to Model 8GCBC Airplanes, Serial Numbers 1-74 through 119-74, 120-75 through 153-75 certificated in all categories.

Compliance required within the next 10 hours time in service after the effective date of this airworthiness directive, unless already accomplished.

To prevent possible resonant vibratory conditions with McCauley Model 1A200/HFA fixed pitch propellers installed on Lycoming 0-360-C2A, or -C2E type engines, accomplish the following in accordance with Bellanca Service Letter Number 115 and Bellanca Service Kit Number 245.

(a) Remove existing markings on the tachometer instrument glass and affix Mylar decal, Bellanca P/N 1-10443. The decal is properly affixed when: a green arc extends from 500 to 1,700 r.p.m.; a yellow arc from 1,700 to 2,100 r.p.m.; a green arc from 2,100 r.p.m. to 2,700 r.p.m.; and a red radial is positioned at 2,700 r.p.m.

(b) Install Bellanca P/N 1-10437, placard "Avoid 1,700-2,100 During Descent", on the tachometer instrument glass below the hour meter.

(c) Accomplish Revision Number 1 to existing FAA Approved Airplane Flight Manual (AFM) in accordance with AFM revisions page.

This amendment becomes effective February 21, 1975.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on February 7, 1975.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[Airworthiness Docket No. 74-WE-52-AD; Amdt. 39-2092]

PART 39—AIRWORTHINESS DIRECTIVES

Certain AiResearch Model TPE331-1, -2, -3, -5 and -6 Series Engines

Amendment 39-2054 (39 FR 44439), AD 74-26-11, requires inspection and modification to the oil supply system for the high speed pinion gear bearing assembly. After issuing Amendment 39-2054, the agency has determined that this AD contains an incomplete list of affected engine serial numbers. Therefore, the AD is being amended to include the previously omitted affected engines.

After issuing Amendment 39-2054, the manufacturer issued Revision 1, dated January 27, 1975, to the AiResearch Service Bulletin TPE331-72-0092. This revision expands the inspection and maintenance to be performed on elements of the high speed pinion (HSP) gear bearing lubrication system. While the work to be accomplished under the original service bulletin, dated December 9, 1974, as required by Amendment 39-2054, is still satisfactory for purposes of meeting AD 74-26-11, the agency is including a note in the AD, as herein amended, to recommend to operators of affected airplanes incorporating the listed engines, that the additional work be performed. Revision 1 is FAA-approved, and constitutes a basis for compliance with the AD.

Since a situation exists that requires immediate adoption of the regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal aviation regulations, Amendment 39-2054 (39 FR 44439), AD 74-26-11, is amended to read as follows:

AIRESEARCH MANUFACTURING COMPANY OF ARIZONA. Applies to certain Model TPE331 series engines.

Compliance required as indicated.

To detect, correct, and prevent loosening of the high speed pinion (HSP) gear carrier bolts and to detect fatigue failures of the HSP gear oil transfer and supply tubes, accomplish the following:

(1) TPE331-1-101B, S/N 93058 through 93061; TPE331-1-151A, S/N 92249 and 92336 through 92354; TPE331-1-151K, S/N 26001 through 26014; TPE331-1-151G, S/N 91193 through 91198; TPE331-2-201A, S/N 90218 through 90278, TPE331-3U-303G or TPE331-3UW-303G, S/N 03108, 03109, and 03112 through 03180 and 05031 through 05042; TPE 331-3U-307G, S/N 03001 and 03009; TPE331-5-251C, S/N 22006 through 22057; TPE331-5-251K, S/N 06113, 06190 through 06442 and 06444 through 06454; TPE331-6-251M or TPE331-6-252M, S/N 20144 and 20182 through 20467 and 20469 through 20533; TPE331-6-252B, S/N 27001 and 27002. In addition to the above serial number engines, also affected by this AD are any Model TPE331-1, -2, -3, -5, or -6 engines which have been modified in accordance with AiResearch Service Bulletin TPE331-72-0064 dated February 1, 1974 or subsequent revisions.

Within the next 100 hours time in service after the effective date of this AD, unless previously accomplished, replace the two high speed pinion gear carrier bolts, P/N MS21279-07, with two bolts, P/N MS9489-07, and lockplate, P/N 3101483-1, and inspect to insure proper torque on bolt, P/N MS21297-07, securing lube adapter, P/N 3101210, and bolt, P/N MS21279-10, securing lube nozzle, P/N 3101209, as described in paragraph 2.D. of AiResearch Service Bulletin TPE331-72-0092, dated December 9, 1974, or later FAA-approved revisions.

(2) Engines listed in (1), above, as well as the following: TPE331-1-101B, S/N 93062 and subsequent; TPE331-1-151A, S/N 92355 and subsequent; TPE331-1-151K, S/N 26015 and subsequent; TPE331-1-151G, S/N 91199 and subsequent; TPE331-2-201A, S/N 90279 and subsequent; TPE331-3U-303G or TPE331-3UW-303G, S/N 03181 series and subsequent, S/N 05043 and subsequent; TPE331-5-251C, S/N 22058 and subsequent; TPE331-5-251K, S/N 06443 and 06455 and subsequent; TPE 331-6-261M, S/N 20534 and subsequent; and TPE331-6-252B, S/N 27003 and subsequent. Within the next 100 hours time in service, unless accomplished within the last 100 hours time in service prior to the effective date of this AD, as amended, and thereafter, at intervals not to exceed 200 hours time in service, inspect the integral support bracket associated with the oil transfer tube, P/N 3101187-1, or, clamp P/N 3101484-1 used with the tube assembly described in (b) below, per the instructions in paragraph 2.C. of the above referenced AiResearch TPE331-72-0092 Service Bulletin. If the oil transfer tube bracket or clamp is cracked or separated, either:

(a) Replace with a serviceable P/N 3101187-1; or

(b) Accomplish the installation of a tube, P/N 3101187-2, clamp, P/N 3101484-1, and washer, P/N AN960C416L, using the existing clamp bolt, per the instructions of paragraph 2.E. of the service bulletin.

NOTE: Revision 1, to AiResearch Service Bulletin TPE331-72-0092, dated January 27, 1975, contains instructions for expanded inspection and maintenance of the high speed pinion (HSP) gear bearing lubrication system. Revision 1 is FAA-approved, and, if accomplished, constitutes compliance with the AD. Accomplishment of Revision 1 is recommended.

(3) Equivalent procedures may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiation data.

(4) Aircraft may be flown to a base for performance of inspections as required by paragraph 2.C. and the maintenance required by 2.D. of the above referenced AiResearch TPE331-72-0092 Service Bulletin, per FAR's 21.197 and 21.199.

This amendment becomes effective February 20, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on February 6, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[Airworthiness Docket No. 75-WE-8-AD; Amdt. 39-2094]

PART 39—AIRWORTHINESS DIRECTIVES

Certain McDonnell Douglas DC-10 Series Airplanes

The agency has received reports of fan blade damage to the No. 2 engine on certain DC-10 Series airplanes, due to ice ingestion after the airplanes were parked for several hours or overnight during severe weather conditions. Secondary damage to airplane structures has also been experienced. Although the manufacturer has issued maintenance inspection instructions to operators; and the agency has previously accepted various provisions in continuous maintenance programs for large aircraft under Parts 43, 91, and 121 of the Federal aviation regulations (FAR) relating to ice and snow inspections, additional action is required.

The National Transportation Safety Board has urged the agency, in a safety recommendation addressed to the Administrator, to adopt an airworthiness directive which would require a modification of the tail engine inlet duct (No. 2 engine) to prevent ice accumulation and a preflight inspection, until the duct is modified, after precipitation in cold weather.

XUM
V40-32 FEB 14 75 FE
XUM

At this time, the agency believes that an airworthiness directive to require continuing inspections for ice and snow accumulation by all operators of DC–10 airplanes should be adopted. A modification of the inlet duct, consisting of an expansion of the drain hole, is being incorporated by various operators. The modification, while a design improvement, is not, in the agency's judgment, sufficient, standing alone, to adequately insure against ice and snow accumulation with possible resulting foreign object damage (FOD) to the No. 2 engine.

The Air Transport Association, on behalf of its members, has expressed its objection to the issuance of the AD, based on procedures already implemented by operators and the language of the rule as to the conditions which require the AD inspection. Also, ATA advised that one operator indicates that the Douglas All Operators Letter, dated August 7, 1974 is not an acceptable procedure, based on the time required for the AOL inspection. Finally, the ATA believes that if the AD is issued, there is no need for separate maintenance entries. It is unnecessary and would not further insure compliance. If carried to extreme (it) could lead to separate entry and signature for each item of maintenance release.

The agency disagrees. To insure an adequate level of safety, the agency believes that a specific program of required inspections constitutes the greatest assurance of substantially minimizing exposure to the hazards of ice and snow accumulation. The required maintenance entries apply to the specific inspection required by this rule. The manufacturer's service documents furnish an acceptable, but not necessarily exclusive, means for accomplishing the inspection and removal of ice and snow. The rule is written to provide maximum flexibility to the operators of affected airplanes in the accomplishment of the AD, while providing a maximum level of assurance to the public.

The agency has also considered the adoption of an airworthiness directive applicable to other three engine jet airplanes, incorporating identical inspections and a duct inlet modification, as recommended by the National Transportation Safety Board. While there have been incidents of ice ingestion to the No. 2 engine on other airplanes, the service experience does not at this time, in the agency's judgment, warrant adoption of an airworthiness directive requiring special inspections, over and above those required by existing regulations.

Since a condition exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

MCDONNELL DOUGLAS. Applies to Douglas DC–10 Series –10, –10F, –30, and –30F airplanes, certificated in all categories.

To prevent possible damage to the No. 2 engine due to ingestion of ice and snow, accomplish the following.

(a) After the effective date of this airworthiness directive, when airplanes have been parked during icing conditions (freezing rain, snow, sleet) for any period of time which will enable ice or snow to accumulate on the airplane in the area of the No. 2 engine, inspect the top of the fuselage and the No. 2 engine inlet for the presence of ice and snow accumulation prior to starting engines. If found to exist, remove accumulated ice and snow prior to further flight.

NOTE: Guidelines for inspection and safeguarding the aircraft are contained in these documents:

Douglas AOL 10–546, dated January 11, 1974.

Douglas AOL 10–673, dated August 7, 1974.

DC–10 Maintenance Manual, Chapter 12–31–01.

(b) Make appropriate maintenance record entries to show compliance with this AD.

This amendment becomes effective February 21, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on February 6, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[FR Doc.75-4128 Filed 2-13-75;8:45 am]

[Airspace Docket No. 75-SO-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal aviation regulations is to alter the Covington, Ky., control zone.

The Covington control zone is described in § 71.171 (40 FR 354). In the description, an extension is predicated on Runway 18 ILS localizer north course which was designated to provide controlled airspace protection for IFR aircraft executing ILS Runway 18 Instrument Approach Procedure. The altitude over the final approach fix (FAF) will be raised, effective February 27, 1975, which will negate the requirement for this extension. It is necessary to alter the description to revoke this extension. Since this amendment lessens the burden on the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal aviation regulations is amended, effective 0901 G.m.t., February 27, 1975, as hereinafter set forth.

In § 71.171 (40 FR 354), the Covington, Ky., control zone is amended as follows:

"• • • extending from the 5-mile radius zone to the LOM; within 1.5 miles each side of Runway 18 ILS localizer north course, extending from the 5-mile radius zone to Addyston LOM • • •" is deleted and "• • • extending from the 5-mile radius zone to the LOM • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on February 3, 1975.

PHILIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-4130 Filed 2-13-75;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER F—POLICY STATEMENTS

[Reg. PS-64; Amdt. 43]

PART 399—STATEMENTS OF GENERAL POLICY

Economic Regulations

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., February 11, 1975.

On December 16, 1974, Pan American World Airways, Inc. (Pan American) filed a document described as a petition for reconsideration and motion for stay of the Board's statement of general policy, minimum charter rate levels, Regulation PS–57, adopted and effective October 18, 1974 (Statement), Docket 25875. That statement sets forth guidelines which the Board stated it will consider in evaluating tariffs for North Atlantic charters pursuant to section 1002 (j) of the Federal Aviation Act of 1958 (the Act).[1] An answer in support of Pan American's petition has been filed by British Caledonian Airways Limited (BCAL). Capitol International Airways, Inc. (Capitol) and World Airways, Inc. (World) have filed answers in opposition to Pan American although they question the legality of the Board's action in issuing the Statement. In addition, on January 27, 1975, Trans World Airlines, Inc. (TWA) filed a petition for rulemaking to amend the Board's Policy Statement. World has filed an answer in opposition to TWA's petition. Since the Board's rules do not provide for petitions for reconsideration of final rules and statements of policy, Pan American's request will be considered as a petition for rulemaking.

[1] The following table sets forth the minimum rates per seat-mile, based on the season of the year and aircraft seating capacity.

Season	Aircraft with less than 230 seats (cents)	Aircraft with more than 229 seats (cents)
Low	3.1	2.4
Shoulder	3.4	2.7
Peak	4.1	3.4

The seasons are:

Eastbound

Low:
January 1 to March 14.
November 16 to December 31.
Shoulder:
March 15 to May 23.
August 1 to November 15.
Peak: May 24 to July 31.

Westbound

Low:
January 1 to March 14.
November 16 to December 31.
Shoulder:
March 15 to June 30.
September 1 to November 15.
Peak: July 1 to September 10.

Pan American, TWA, and BCAL all attack the Board's action in PS–57 of adopting a differential of 0.7 cents per seat-mile in each season between the minimum guideline charter rates for aircraft with less than 230 seats (conventional aircraft) and those with more than 229 seats (stretched and wide-bodied aircraft). Pan American contends that as a matter of law the Board cannot require pricing differentials based on equipment type, and joins TWA in asserting that the differentials of PS–57 would have the effect of driving these carriers out of the transatlantic charter market. All three carriers also attack the data and calculations on the basis of which the Board arrived at the differentials, Pan American and TWA contending that the cost data for stretched aircraft are understated, while BCAL contends that the costs posited for conventional aircraft are too high. Capitol and World, on the other hand, defend the equipment differentials of PS–57.

Based on the pleadings and on other surrounding circumstances, the Board has determined to vacate the minimum-charter-rate guidelines. With regard to the specific matter of equipment-type differentials, the Board has concluded that a number of Pan American's allegations, which challenge the basic overall reliability of the data submitted by the carriers for stretched equipment, cannot be satisfactorily resolved in this proceeding. Moreover, BCAL calls into question the completeness of the record on conventional equipment costs. And, of course, there are other issues which might surface if further proceedings in this docket were pursued.

Moreover, the Board's objective of implementing guidelines to apply during the 1975 charter season has already been effectively negated. Most contracts for the 1975 peak period have undoubtedly already been concluded and sales to the public are well in progress, particularly insofar as those charters involving any advance-purchase requirement are concerned. It seems apparent from the nature of the charter market that any program to improve the economics of the carriers' operations by a more managed approach to rate levels must be in place sufficiently in advance of the selling season so that all operators can plan accordingly. That situation has not materialized in the present instance, and we do not believe that the disruptive consequences of such an effort at this late date would be in the public interest.

In addition, a revised 1975 IATA North Atlantic agreement on scheduled fares has now been filed. The new agreement, unlike the "Montreux agreement," does not rest on a complementary resolution of minimum charter rate levels. Accordingly, to the extent that there may have been a tie-in between the establishment of minimum-charter-rate guidelines and an agreement on North Atlantic scheduled fares, the former no longer represents a critical factor for this year.

With all these considerations in mind, the Board has decided that the matter cannot be effectively concluded in the present rulemaking proceeding, and PS–57 will therefore be vacated. However, we believe the matter warrants further consideration and we invite carriers and interested persons to submit their views on what, if any, further steps the Board might appropriately take in this regard. Such comments shall be filed in Docket 25875 on or before February 26, 1975, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428.

Accordingly, the Board hereby amends Part 399 of the economic regulations (14 CFR Part 399) effective February 11, 1975, as follows: [1]

§ 399.45 [Reserved]

Part 399 is amended by deleting and reserving § 399.45.

(Secs. 102, 204(a), 403(a), 404(a)(2), 416(a) and 1002(j), Federal Aviation Act of 1958, as amended. 72 Stat. 740, 743, 758, 760, 771 and 788; (49 U.S.C. 1302, 1324, 1373, 1374, 1386 and 1482); secs. 3 and 4, Administrative Procedure Act, 81 Stat. 54, 80 Stat. 383; (5 U.S.C. 552 and 553).)

Effective: February 11, 1975.

Adopted: February 11, 1975.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-4212 Filed 2-13-75;8:45 am]

[1] In view of our decision to vacate the Policy Statement, Pan American's Motion for Stay of PS–57 pending judicial review is moot. We note further that while all of the various pleadings have been accompanied by Motions for Leave to File Unauthorized Documents, our decision to treat the filings as a petition for rule making and answers thereto (Rule 38 of the Rules of Practice permits the filing of answers to petitions for rule making at any time prior to institution of a proceeding thereon or to denial thereof) obviates need for consideration of these motions.

[Cease and desist order, American Ideal Homes, Inc., et al. Great Falls, Mont., Docket C–2589, Oct. 23, 1974]

In the Matter of American Ideal Homes, Inc., a Corporation, and John E. Boles and Arnold F. Kruse, Individually and as Officers of Said Corporation, and George H. Boomer, Individually and as Sales Manager of Said Corporation

Consent order requiring a Great Falls, Mont., retailer of new and used mobile homes and travel trailers, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondents American Ideal Homes, Inc., a corporation, and its officers, and John E. Boles and Arnold F. Kruse, individually and as officers of said corporation, and George H. Boomer, individually and as sales manager of said corporation, and respondents' successors, assigns, agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90–321 (15 U.S.C. 1601 et seq.)), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate; and

e. The deferred payment price.

2. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and

[1] Copies of the complaint and decision and order filed with the original document.

XUM
V40-32 FEB 14 75 E
XUM

dezist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondents, and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Decision and order issued by the Commission October 23, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45) [Cease and desist order, Jack La Lanne Management Corp., et al., New York, N.Y., Docket C-2678, Oct. 17, 1974.]

In the Matter of Jack La Lanne Management Corp., Jack La Lanne Health Enterprises, Inc., Canadian International Health Spa, Inc., Jack La Lanne Madison Health Spa, Inc., Jack La Lanne Executive Health Spa, Inc., Jack La Lanne Lefrak City, Inc., Jack La Lanne Kings Highway, Inc., Jack La Lanne 5 Towns Health Club, Inc., Jacqueline Health Spa, Inc., Jack La Lanne Biltmore Health Spa, Inc., Jack La Lanne Fort Lee Health Spa, Inc., Jack La Lanne 86th St. Health Spa, Inc., Jack La Lanne Fifth Avenue Health Spa, Inc., and Churchill Collection Service, Inc., corporations, and Harry Schwartz, Individually and as an Officer of Said Corporations

Consent order requiring a chain of Jack La Lanne health spas in the New York City area, among other things to cease misrepresenting the price of memberships and the benefits and facilities available to members, and using deceptive collection methods. The order contains a provision to insure that customers sued by the spas receive adequate notice of the suits.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

It is ordered, That Jack La Lanne Management Corp., Jack La Lanne Health Enterprises, Inc., Canadian International Health Spa, Inc., Jack La Lanne Madison Health Spa, Inc., Jack La Lanne Executive Health Spa, Inc., Jack La Lanne Lefrak City, Inc., Jack La Lanne Kings Highway, Inc., Jack La Lanne 5 Towns Health Club, Inc., Jacqueline Health Spa, Inc., Jack La Lanne Biltmore Health Spa, Inc., Jack La Lanne Fort Lee Health Spa, Inc., Jack La Lanne 86th St. Health Spa, Inc., Jack La Lanne Fifth Avenue Health Spa, Inc., Churchill Collection Service, Inc., corporations, their successors and assigns, and their officers, and Harry Schwartz, individually and as an officer of said corporations, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, franchise, or other device, in connection with the advertising, offering for sale, or sale of health spa services or memberships, hereinafter sometimes referred to as "membership services", in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, orally or in writing, directly or by implication:

(a) That any price advertised or charged for membership services is reduced from a previous price or the usual and customary price unless such price represents a reduction from the price at which similar membership services were offered for sale for a reasonable substantial period of time in the recent, regular course of business;

(b) That any savings are afforded in the purchase of membership services from respondents' regular price unless the price at which the membership services are offered constitutes a reduction of not less than five percent from the price at which such membership services have been usually and customarily offered by respondents in the recent, regular course of their business; or misrepresenting, in any manner, the price at which membership services are offered.

2. Representing, orally or in writing, directly or by implication, that an increase in price will occur, unless:

(a) The amount and the effective date of said increase have been determined by respondents;

(b) The effective date of said increase is disclosed in close proximity or in immediate conjunction with any representation to each person to whom such representation is made or in each advertisement, brochure or other promotional literature where such representation appears;

(c) The increase takes effect on the previously determined date in the previously determined amount and prevails for all sales of the membership services to which it applies for a period of not less than thirty days.

This paragraph shall apply to representations made in connection with the advertising, offering for sale or sale of membership services for health spa facilities which have not yet begun operations as well as to other such representations made by respondents.

3. Representing, orally or in writing, directly or by implication, that any membership service is available at a certain amount or for a certain period of time unless the membership service is actually available at that amount or for that period of time.

4. Failing to post in each room or office or other place where membership services are sold or offered for sale, a price list, being of sufficient size and posted in such a manner that it can be easily observed and read by potential purchasers of membership services, clearly and conspicuously disclosing:

(a) Each type of membership service offered for sale;

(b) The duration of each type membership service;

(c) Any limitations in respect of any offer of membership service;

(d) The regular price, any sale price, any special offer or inducement such as "one month free" or "entire summer free" which in effect decreases the price charged for membership services, and any price intended to take effect in the future pursuant to Paragraph 2, when such price increase has been advertised or any representation has been made in respect thereof.

5. Representing, orally or in writing, directly or by implication, that there is any limitation on the number of memberships available for sale at any health spa facility or any limit on the number of members who may use the facilities, unless a reasonable limit has been determined by respondents, or in any way misrepresenting the number of memberships for sale or the number of people who will be using the facilities.

6. Representing, orally or in writing, directly or by implication, that any offer of sale of membership services or any other offer or inducement is limited to a specific time period unless such is the fact and the expiration date of said offer is disclosed along with the information required by Paragraph 2 of this order, if applicable, or that the offer expires on the same day as it is made unless such offer is made on the last day of a period previously disclosed under this Paragraph or Paragraph 2 to expire on that day.

7. Falsely disparaging, in any manner, any offer or advertisement of membership services.

8. Representing, orally or in writing, directly or by implication, that exercise programs, instruction, or equipment are unique or exclusive unless such is the fact.

9. Representing, orally or in writing, directly or by implication, that any exercise program or program of nutritional guidance is designed personally for the purchaser of membership services unless such program has been or will be developed or prepared for that particular purchaser.

10. Representing, orally or in writing, directly or by implication, that services, programs, equipment, or instruction are available at respondents' locations if such services, programs, equipment, or instruction are not available at all of respondents' locations unless:

(a) When the representation is made in a television or radio advertisement, it is disclosed in the advertisement that some services, programs, equipment, or instruction are not available at all locations;

(b) When the representation is made in a newspaper, magazine, or other print advertisement, the locations at which such services, programs, equipment, or instruction are or are not available are disclosed;

(c) When the representation is made at one location, the services, programs, equipment, or instruction available at that location are disclosed; or representing that any facilities or membership services are available to both men and women at all times a health spa is open, unless such is the fact, and failing to disclose before the consummation of any contract any restrictions on use of the facilities or membership services by men or women.

11. Representing orally or in writing, directly or by implication, that any change in body size, configuration, or weight is guaranteed, unless:

(a) Any results guaranteed are conditioned solely upon reasonably regular attendance at the health spa facilities, and adherence to a diet, if one is suggested or required;

(b) The nature and extent of such guarantee, any conditions thereto, the manner in which the guarantor will perform, and the identity of the guarantor are clearly and conspicuously disclosed; and

(c) The results to be guaranteed are clearly and conspicuously disclosed in writing either in contract or along with the guarantee.

12. Representing, orally or in writing, directly or by implication, that respondents' programs are effective in reducing or changing body weight or size unless respondents disclose, in immediate conjunction with any such claim, that said programs include and require for effectiveness a diet or program or nutritional guidance.

13. Representing, orally or in writing, directly or by implication, that all members or prospective members will in fact obtain specific reductions or changes in weight or body size, or other changes in body configuration, in a specific period of time.

14. Misrepresenting, in any manner, orally or in writing, directly or by implication, the qualifications, education or training of instructors.

15. Use of "success" statements comparison photographs, "before and after" photographs or similar depictions, statements or representations (all of which are referred to in this paragraph by the term "representations") unless:

(a) The person or persons shown actually used respondents' facilities and obtained the represented results at respondents' facilities;

(b) The "after" representation was created while the subject or subjects were actually participating in a program or course of treatments at respondents' facilities, or accurately reflects the person's appearance at that time;

(c) The "before and after" representations are as nearly the same as possible in pose, style of clothing, facial expression, camera angle, lighting and all other conditions;

(d) A disclosure is made in conjunction with any such representation that not every purchaser of respondents' membership services can or will achieve the results represented or implied by the representation.

16. Failing, in connection with the sale or offering for sale of health spa membership services, to:

(a) Furnish the buyer with a fully completed copy of the contract pertaining to the sale at the time of its execution which shows the date of the transaction, the name and address of the seller, and in immediate proximity to the space reserved in the contract for the signature of the buyer and in bold face type of a minimum size of ten points, the following statement:

Notice to the buyer: Do not sign this contract before reading the provisions under the caption "Cancellation and Refunds".

(b) Disclose, on the same page as the customer's signature line in the contract pertaining to the sale, under the caption "Cancellation and Refunds," which caption shall be printed in bold face type of a minimum size of ten points, the following cancellation and refund provisions:

You are permitted to visit and use the facilities of Jack La Lanne within three business days after the date of this contract, on a trial basis. If, within those three days, and regardless of whether you make any visits, you decide that you want to cancel this contract, you may do so by notifying Jack La Lanne on the form provided you, or by any other writing mailed or delivered to Jack La Lanne at the address shown on the contract. If you so cancel, any payments made by you under the contract will be refunded, and any evidence of indebtedness executed by you will be cancelled by Jack La Lanne or other arrangements will be made to relieve you of any further obligation to pay the same, except that Jack La Lanne may retain as compensation a sum not in excess of $5.00 for each day on which you visited and used its facilities.

(c) Provide the buyer with a copy of a note or any other instrument of indebtedness executed by him or on his behalf.

(d) Furnish each buyer, at the time he signs the contract, a completed form in duplicate, captioned "Notice of Cancellation," which shall set forth the date and identification of the transaction, the name and address of the seller, language sufficient to give notice of the buyer's intention to cancel the transaction, and a space for the buyer's signature.

(e) Inform each buyer orally, immediately prior to the time he signs the contract, of his cancellation rights as set forth in (b).

(f) Honor any notice of cancellation received or mailed within three (3) business days after the date of the contract, and within 10 business days after the

[1] Copies of the complaint and decision and order filed with the original document.

XUM
V40-32 FEB 14 75 F
XUM

receipt of such notice, (1) refund any payments due the buyer, and (2) cancel and return any evidence of indebtedness executed by the buyer, or take any action necessary or appropriate to terminate the buyer's obligation to pay any sum in excess of that due under the applicable cancellation and refund provision in (b).

17. Misrepresenting in any manner, directly or by implication:

(a) That any of respondents or their successors or assigns are holders in due course of any notes, contracts or other documents executed by respondents' customers.

(b) That a member's account has been turned over to an attorney or an independent organization engaged in the business of collecting past-due accounts.

18. Failing to print in 18 point bold face type at the top of any paper which includes a contract a title which includes the word "Contract".

19. Obtaining from the customer release of, or agreement to language which purports to release, respondent from liability for causes of action arising out of customer's use of respondents' services, facilities, or exercise equipment, when said release or purported release would not be legally operative in the state of contracting.

20. Representing that a health spa facility will open on a specific date, unless such representation is also made in writing in each and every contract signed by a customer to whom such representation is made; failing to disclose, clearly and conspicuously, to all such customers that if the health spa facility does not open on the specified date, the customer may choose between (1) extension of the contract so that the full time period for which the customer contracted does not begin to run until the health spa facility is open, and the right to use any of respondents' health spa facilities in the meantime, or (2) cancellation of the contract with a refund in the amount to which the customer would be entitled if he or she cancelled pursuant to Paragraph 16 of this order; and failing to extend the contract, or refund the appropriate amount of money, within 10 business days of receipt of written notification of the customer's choice.

21. Commencing any legal action in any court to collect any amount alleged to be due to respondents unless:

(a) The suit or action is commenced in the county in which the defendant resides or in which the contract was executed; and

(b) A summons and/or complaint are served pursuant to the applicable provisions of State law and a copy is sent, by registered or certified mail, return receipt requested, to the last known address of the defendant; *Provided*, That, if the summons and/or complaint are returned as undeliverable or if the defendant has moved, respondents shall request the United States Postal Service to provide the forwarding address of the defendant, and if the Postal Service provides same, shall send said summons and/or complaint to that address by registered or certified mail, return receipt requested.

22. In connection with any default judgment:

(a) Levying on or otherwise attempting to enforce any default judgment unless the defendant is sent within ten days of the entry of judgment a letter setting forth his rights under applicable State law and this order;

(b) Levying on or otherwise attempting to enforce any default judgment unless sixty days have passed from the date of entry of judgment;

(c) Levying on or otherwise attempting to enforce any default judgment unless each defendant against whom a default judgment is entered, is notified that he may have the default set aside at his request by stipulation by the respondents and receive a trial on the suit brought by respondents, if, within forty days after the entry of a default judgment and after receipt of the notification provided for in subparagraph (a) above, he notifies respondents by certified or registered mail that he desires to enter into a stipulation with respondents to reopen the default;

(d) Failing to consent and stipulate to the reopening of any default judgment obtained by respondents within sixty days after the entry of judgment, upon receipt by respondents of a request by a defendant to reopen such judgment pursuant to this paragraph or State law;

(e) Failing to send the notice required by this paragraph by certified or registered mail, return receipt requested, to the last known address of the defendant; *Provided*, That, if the notice is returned as undeliverable, or if the defendant has moved, respondents shall request the United States Postal Service to provide the forwarding address of the defendant, and if the Postal Service provides same, shall send said notice to that address, by certified or registered mail, return receipt requested.

Nothing in this paragraph shall require respondents to stipulate to reopen any default judgment more than once in each case.

23. Including in any contract any confession of judgment or any waiver of any rights to which the buyer is entitled under this order, or misrepresenting, orally or in writing, directly or by implication, the buyer's right to cancel the contract pursuant to this order.

It is further ordered, That respondents maintain at all times, complete records relative to the manner and form of their compliance with the terms and provisions of this Order, such records to include:

(1) All advertising copy, films, voice and video tapes, and correspondence with advertising agencies;

(2) All brochures, forms, notices, booklets, disclosures, and promotional material used in respondents' business;

(3) All contracts, notes, agreements, and forms offered for execution by or actually executed by members;

(4) All correspondence, including notices of cancellations and complaints, received from or sent to consumers;

(5) All correspondence, notes, or evidence of indebtedness sent to or received from banks or other extenders or arrangers of consumer credit;

(6) All correspondence and copies of agreements with any franchisor, franchisee, successor, lessee, lessor, person or firm with whom respondents maintain such a business relationship relative to the conduct of their health spa business;

(7) Records of each member's attendance, weight and measurements, if relevant to a guarantee or representation of results to be attained;

(8) Any records required to be maintained under other provisions of this Order.

After entry of this Order, all such records shall be retained for a period of not less than three years from the date of their creation or last use, whichever is longer.

It is further ordered, That respondents shall forthwith deliver a copy of this order to cease and desist to each operating division, to all present and future franchisees and licensees, and to all personnel of respondents now or hereafter engaged in the offering for sale or sale of respondents' services, or in the collection of patron's accounts, in the consummation of any extension of consumer credit, or in any aspect of preparation, creation or placing of advertising; and that respondents secure from each such person a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any of the corporate respondents, such as dissolution, assignment, or sale resulting in the emergence of any successor corporation or corporations, the creation or dissolution of subsidiaries, or any other change in the corporations which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and order was issued by the Commission, October 17, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46). Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130 (15 U.S.C. 45, 68)) [Cease and desist order, Norlic Import Company, Inc., et al., New York, N.Y., Docket C-2583, Oct. 22, 1974]

In the Matter of Norlic Import Company, Inc., a Corporation, and Norman Lichtenstein, Individually and as an Officer of Said Corporation

Consent order requiring a New York City importer and seller of wool fabrics, among other things to cease misbranding and falsely guaranteeing its wool products and misrepresenting the fiber content of its goods. Further, respondent is required to bond its imported wool products for twice their value, with the bond subject to forfeiture should applicable legal requirements not be complied with.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondents Norlic Import Company, Inc., a corporation, its successors and assigns, and its officers, and Norman Lichtenstein, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporation, subsidiary, division or other device, in connection with the importation for introduction, into commerce or the offering for sale, sale, transportation, distribution, delivery for shipment, or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling or otherwise identifying such products as to the name or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear, legible and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents Norlic Import Company, Inc., a corporation, its successors and assigns, and its officers, and Norman Lichtenstein, individually and as an officer of Norlic Import Company, Inc., and respondents' representatives, agents, and employees, directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from:

1. Furnishing a false guarantee that any wool product is not misbranded under the provisions of the Wool Products Labeling Act of 1939.

2. Importing or participating in the importation of wool products into the United States except upon filing bond with the Secretary of the Treasury in a sum double the value of said wool products and any duty thereon, conditioned upon compliance with the provisions of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents Norlic Import Company, Inc., a corporation, and its officers, and Norman Lichtenstein, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporation or other device, in connection with the advertising, offering for sale, sale or distribution of fabrics or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting the amount of constituent fibers contained in such products on invoices or shipping memoranda applicable thereto, or in any other manner.

It is further ordered, That respondents notify, by delivery of a copy of this order by registered mail, each of their customers that purchased the wool products which gave rise to this complaint of the fact that such products were misbranded.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creating or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondents' current business and address, the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

Decision and order issued by the Commission October 22, 1974.

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Recreational Vehicle Institute, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.170 *Qualities or properties of product or service;* § 13.170–34 *Economizing or saving;* § 13.180 *Quantity.* Subpart—Corrective actions and/or requirements: § 13.533 *Corrective actions and/or requirements;* § 13.533–20 *Disclosures;* § 13.533–45 *Maintain records;* § 13.533–45(k) *Records, in general.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1710 *Qualities or properties.*

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45) [Cease and desist order, Recreational Vehicle Institute, Inc., et al., Des Plaines, Ill., Docket C-2573, Oct. 8, 1974]

In the Matter of Recreational Vehicle Institute, Inc., a Corporation, and F. Michael Radigan, Individually and as National Director of Said Corporation

Consent order requiring a Des Plaines, Ill., trade association representing manufacturers, component suppliers, and dealers of mobile homes and recreational vehicles, among other things to cease making representations as to energy use or energy-saving characteristics of their recreational vehicles or as to the supply or availability of gasoline without having a reasonable basis for such claim.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondent Recreational Vehicle Institute, Inc., a corporation, its successors and assigns, and its officers, and F. Michael Radigan, individually and as national director of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, promotion, offering for sale, sale or distribution of recreational vehicles, including but not limited to travel trailers, motor homes, truck campers and camping trailers, in commerce, as "commerce" is defined in the

[1] Copies of the complaint and decision and order filed with the original document.

[1] Copies of the complaint and decision and order filed with the original document.

Federal Trade Commission Act, do forthwith cease and desist from:

1. Making any representation, directly or by implication, as to energy use or energy saving characteristics of ownership or operation of any recreational vehicle or vehicles, or as to the supply or availability of gasoline or any other form of energy; unless, at the time the representation is made, respondents have a reasonable basis for such representation, consisting of tests or surveys;

a. Based on reliable data and adhering to generally accepted statistical principles,

b. Which shall fully and completely substantiate the representation, and

c. The results and methodology of which, together with the original data collected, are available for public inspection in comprehensive written form, in terms understandable to the average consumer, at each of respondents' offices.

2. Making any representation, directly or by implication, as to energy use or energy saving characteristics of ownership or operation of any recreational vehicle or vehicles; unless respondents clearly and conspicuously disclose, in immediate conjunction with the representation:

a. The specific forms of energy referred to, unless the representation applies to total consumption of all forms of energy by the consumer or family.

b. The particular type and size of recreational vehicle to which the representation applies, and the nature and extent of accessory equipment, unless it applies to all types and sizes of such vehicles regardless of accessory equipment installed.

c. The particular locations and conditions of use, including but not limited to the season, duration, and number of miles traveled, to which the representation applies, unless it applies to all conditions of use and to all locations and regions in the United States.

d. The specific manner of operation of the recreational vehicle, home, automobiles, and other energy-consuming possessions to which the representation applies, unless it applies to the customary or usual manner of operation of all such possessions by the average consumer or family.

It is further ordered, That respondents forthwith deliver, to all persons and firms which respondents know or have reason to know may engage in dissemination of representations originated or distributed by respondents since May 1, 1973, as to energy use or energy saving characteristics of ownership or operation of recreational vehicles, or as to the supply or availability of gasoline or any other form of energy, a notice containing the following information, without mitigation:

1. At the time these energy-related representations were made, Recreational Vehicle Institute, Inc. did not have adequate substantiation to support such representations.

2. Recreational Vehicle Institute, Inc. has been ordered by the Federal Trade Commission to cease and desist from making energy claims related to recreational vehicles unless Recreational Vehicle Institute, Inc. can support such claims with reliable and statistically valid tests or surveys.

3. None of the energy-related representations originated or distributed by Recreational Vehicle Institute, Inc. since May 1, 1973, and no materials containing such representations, are to be further disseminated to the public or others until such time as respondents certify in writing to such person or firm that Recreational Vehicle Institute, Inc., is in possession of the substantiation required by this order.

4. Further dissemination by the person or firm of such representations without the certification required above may constitute a violation of the Federal Trade Commission Act by the person or firm itself.

It is further ordered, That respondents shall maintain complete records relative to the manner and form of their compliance with this order, and shall retain each record for three years after such record is made. Such records shall include all advertising, promotional material, the basis for all applicable advertising claims, correspondence with persons who formulate or place advertising, and other pertinent documents.

It is further ordered, That respondents promptly distribute a copy of this order to each operating division, to all present and future personnel of respondents engaged in the preparation, creation or placing of advertising, and to all present and future agencies engaged in the preparation, creation or placing of advertising on behalf of respondents; and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment, and of his affiliation with a new business or employment, in the event of such discontinuance or affiliation. Such notice shall include his current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That respondents shall, within sixty days after service upon them of this order, file with the Commission a written report setting forth in detail the manner and form of their compliance with this order.

Decision and order issued by the Commission October 8, 1974.

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 442—CEPHA ANTIBIOTIC DRUGS

CEPHACETRILE SODIUM; CORRECTION

In FR Doc. 74-29490, appearing at page 44011 in the FEDERAL REGISTER of December 20, 1974, § 442.219 *Cephacetrile sodium for injection* is corrected in the first sentence of paragraph (b)(1)(ii) by changing the reference "§ 435.205 of this chapter" to read "§ 436.205 of this chapter."

Dated: February 10, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.75-4161 Filed 2-13-75;8:45 am]

SUBCHAPTER F—BIOLOGICS

Part 630—Additional Standards for Viral Vaccines Measles-Smallpox Vaccine, Live

A notice of proposed rule making was published in the FEDERAL REGISTER of October 31, 1974 (39 FR 38388), in which the Commissioner of Food and Drugs proposed to amend the additional standards for licensed Measles-Smallpox Vaccine, Live (21 CFR 630.80 through 630.87) by discontinuing the recommended use for revaccination against smallpox and by reducing the recommended dose volume of the vaccine from 0.5 milliliter to 0.3 milliliter consistent with a request in an amended product license application received from the only licensed manufacturer of Measles-Smallpox Vaccine, Live. In conjunction with this action, the Commissioner also proposed certain revisions of the additional standards concerning Measles-Smallpox Vaccine, Live, to reflect current technology and testing methods.

Interested persons were given until December 2, 1974 to file written comments regarding the proposal. No written comments were received. Accordingly, the Commissioner concludes that the proposed amendment of the additional standards for Measles-Smallpox Vaccine, Live, should be adopted without change.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner (21 CFR 2.120), Part 630 is amended as follows:

1. By revising § 630.81 to read as follows:

§ 630.81 Clinical trials to qualify for license.

In addition to demonstrating that the measles component meets the requirements of § 630.31, the measles and smallpox antigenicity of the final product shall be determined by clinical trials of adequate statistical design conducted with three consecutive lots of final vaccine manufactured by the same methods and administered as recommended by the manufacturer. A major skin reaction to the smallpox component of the vaccine shall result in at least 95 percent of smallpox susceptible recipients, and a protective antibody response demonstrating the immunogenic effect of measles shall result in at least 90 percent of the measles susceptible recipients. Based upon data submitted by each manufacturer requesting licensure and comparative testing by the Food and Drug Administration, the Commissioner will establish the type of test and the requisite antibody levels indicating seroconversion which must be met by the manufacturer. There also shall be a demonstration of safety of the product, when administered as recommended by the manufacturer, under circumstances wherein adequate clinical and epidemiologic surveillance of illness has been maintained.

2. By revising § 630.83 to read as follows:

§ 630.83 Reference preparations.

Reference Measles Virus and Reference Smallpox Vaccine and reconstitution fluid shall be obtained from the Bureau of Biologics. The Reference Measles Virus shall be used as a control for correlation of virus titers for the measles component of the product. The Reference Smallpox Vaccine shall be used to determine the potency of the smallpox component of the product.

3. By revising § 630.84(b) to read as follows:

§ 630.84 Potency tests.

• • • • • •

(b) *Smallpox.* Each lot of the product shall be tested for potency as prescribed in § 630.73. The product is satisfactory if the vaccinia virus contained in one human dose is at least equivalent to that contained in 0.3 milliliter of the Reference Smallpox Vaccine diluted 1:100.

• • • • • •

4. By revising § 630.86 (d) and (e)(2), deleting (e)(4), and revising (e)(5) and redesignating it as (e)(4) as follows:

§ 630.86 General requirements.

• • • • • •

(d) *Labeling.* In addition to the items required by other applicable labeling provisions of this chapter, labeling shall contain a statement that the product is intended for primary immunization only, for administration only by jet injector, and a description of the method of administration.

(e) • • •

(2) A total of no less than two 25-milliliter volumes, in a frozen state (−60° C), of the bulk measles component prior to clarification and containing no preservative or adjuvant, and no less than one 10-milliliter volume in a frozen state (−60° C), of the bulk measles component after clarification and containing stabilizer but no preservative or adjuvant, taken prior to filling into the final containers.

(3) • • •

(4) A sample consisting of no less than sixteen 10-dose vials, or twelve 25-dose vials, or ten 50-dose vials of vaccine in final labeled containers plus sufficient diluent in final labeled containers to reconstitute the vaccine.

(5) [Deleted].

• • • • • •

Effective date. This order shall be effective February 14, 1975.

(Sec. 351, 58 Stat. 702 (42 U.S.C. 262))

Dated: February 10, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

PART 1304—RECORDS AND REPORTS OF REGISTRANTS

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

Concentrate of Poppy Straw, Addition to Schedule II and Authorizing Its Importation

A notice was published in the FEDERAL REGISTER on Friday, December 20, 1974 (39 FR 44033-4), authorizing the importation of concentrate of poppy straw and proposing amendments to Title 21 of the Code of Federal Regulations which place this substance in Schedule II and require reporting of such importation by manufacturers. All interested persons were given until January 22, 1975, to submit their comments and objections.

The single comment received, that of the Bell Pharmacal Corp., did not object to the proposed rulemaking. Therefore, based upon consideration of the factors set forth in 39 FR 44033-4, the Administrator of the Drug Enforcement Administration, under authority vested in the Attorney General by sections 201(d), 301, and 1002 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(d), 821, and 952, respectively) and delegated to the Administrator by § 0.100 of Title 28 of the Code of Federal Regulations, hereby orders that Parts 1304 and 1308 of Title 21 of the Code of Federal Regulations be amended as follows:

1. A new § 1304.42 is added as follows:

§ 1304.42 Reports from manufacturers importing concentrate of poppy straw.

(a) Every manufacturer importing concentrate of poppy straw shall submit in addition to Form 333, Form DEA 247 (c) accounting for the importation and for all manufacturing operations performed between importation and the production in bulk of finished marketable products, standardized in accordance with the U.S. Pharmacopeia, National Formulary, or other recognized medical standards. Subsequent manufacture from such products, including bottling or packaging operations, shall be accounted for in the returns on DEA Form 333 (§ 1304.38) and its supplements. DEA Form 247(c) shall be submitted quarterly to the Regulatory Investigations Section, Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537, on or before the 15th day of the month immediately following the period for which it is submitted.

(b) The report of manufacture from concentrate of poppy straw shall consist of summaries with supporting detail sheets accounting for original manufacture from concentrate of poppy straw, production from morphine for further manufacture, and also accounting for stocks of concentrate of poppy straw, morphine for further manufacture and other crude alkaloids.

(c) The detail sheets (DEA 247(c)) supporting the summary of original manufacture from concentrate poppy straw shall show separately the amount of concentrated poppy straw imported, the concentrated poppy straw used for the extraction of alkaloids, subsequent manufacture from those alkaloids, and the inventory of concentrated poppy straw at the close of the reporting period.

(d) Upon importation of concentrate of poppy straw, samples will be selected and assays made by the importing manufacturer in a manner and according to a method previously approved by DEA. Where final assay data is not determined at the time of rendering report, the report shall be made on the basis of the best data available, subject to adjustment, and the necessary adjusting entries shall be made on the next report.

(e) Upon withdrawal of concentrate of poppy straw from customs custody, the importing manufacturer shall assign to each container an identification mark or number by which the concentrate of poppy straw will be associated with the lot assay and identified in reports.

(f) Where factory procedure is such that partial withdrawals of concentrate of poppy straw are made from individual containers, there shall be attached to each container a stock record card on which shall be kept a complete record of all withdrawals therefrom.

(g) Concentrate of poppy straw derivatives which are produced for exclusive use in further manufacturing purposes shall be reported produced when they come into existence in that form in which they are to be so used. Alkaloids or derivatives produced exclusively for distribution shall be reported as produced when manufacture has actually been completed and the finished marketable product ready for packaging and distribution. Such products shall be regarded as ready for packaging and distribution as soon as all processing other than

XUM
V40132
FEB 14 75
XUM

mere packaging has been completed. Products manufactured partly for distribution and partly for use in further manufacture will be reported produced as soon as manufacture is complete and there are ready either for use in further manufacture or for packaging for distribution.

(h) Subject to §1303.24(c) of this chapter, no accumulations of morphine or other narcotic controlled substances in their pure or near-pure states shall be permitted to remain inactively in process for an unreasonable time in light of efficient industrial practices. All such products nearing completion of their respective processes and approaching a condition of purity shall be carefully protected, promptly completed, and immediately transferred to finished stocks, and reported as produced.

(i) In making conversions of concentrate of poppy straw alkaloids and their salts to anhydrous morphine the quantity of the particular alkaloid or salt in avoirdupois ounces shall be multiplied by a conversion factor arrived at by ascertaining the ratio, carried to the fourth decimal place, between the respective molecular weight of such alkaloid or salt and the molecular weight of anhydrous morphine (285.16), such weights being computed to the third decimal place from the chemical formulae of the substances and the atomic weights of elements, as adopted by the International Committee on Chemical Elements and published in the latest edition of the U.S. Pharmacopoeia.

2. Section 1308.12 is amended by adding a new (b)(5) as follows:

§ 1308.12 Schedule II.

• • • • • •

(b) • • •

(5) Concentrate of poppy straw (the crude extract of poppy straw in either liquid, solid or powder form which contains the phenanthrine alkaloids of the opium poppy), 9670.

This order is effective February 14, 1975.

Dated: February 11, 1975.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration.

Title 34—Government Management

CHAPTER II—OFFICE OF FEDERAL MANAGEMENT POLICY, GENERAL SERVICES ADMINISTRATION

SUBCHAPTER D—PROPERTY MANAGEMENT

[FMC 75-1]

PART 234—ENSURING CONSIDERATION OF USERS' EXPERIENCE WITH FEDERAL AGENCY SUPPLY SUPPORT SYSTEMS

Policies and Procedures

This document is issued pursuant to Executive Order 11717 dated May 9, 1973, subject: Transferring Certain Functions from the Office of Management and Budget to the General Services Administration and the Department of Commerce; and under authority vested in the Administrator of General Services by the Federal Property and Administrative Services Act of 1949, as amended.

FMC 75-1, dated February 7, 1975, provides policies and procedures to ensure that supply support systems provide a positive means for the communication and consideration of users' experience.

Effective date. This regulation is effective February 7, 1975.

Dated: February 7, 1975.

DWIGHT A. INK,
Acting Administrator of General Services.

Part 234 of 34 CFR is added to read as follows:

Sec.
234.1 Purpose.
234.2 Background.
234.3 Policy intent.
234.4 Applicability and scope.
234.5 Policies and procedures.
234.6 Responsibility.
234.7 Reporting requirement.
234.8 Inquiries.

AUTHORITY: The adoption by the executive branch of Recommendation D-2 of The Commission on Government Procurement report to Congress dated December 31, 1972.

§ 234.1 Purpose.

This part establishes policies and procedures to ensure that supply support systems provide a positive means for the communication and consideration of users' experience.

§ 234.2 Background.

(a) The Commission on Government Procurement in its report to the Congress dated December 31, 1972, provides in Chapter 3, Part D, compelling examples of the need to consider users' satisfaction with their supply support systems. Because of its findings, the Commission issued Recommendation D-2 calling for the executive branch to "Provide a positive means for users to communicate satisfaction with their (supply) support system as a method of evaluating its effectiveness and ensuring user confidence."

(b) Under the procedures established by the executive branch for dealing with the recommendations of the Commission, an interagency task group was assigned to consider the merits of Recommendation D-2. The task group found that executive agencies are aware of the need to consider user satisfaction in the operation of centralized supply systems. This awareness is evidenced by techniques currently in use to discover and deal with users' complaints. However, the task group concluded that a higher priority should be given to the practice of communication with user activities as a tool for evaluating the performance of supply support systems. The decision to adopt the Commission's recommendation is based on the task group's findings.

§ 234.3 Policy intent.

This part is intended to ensure that the supply support systems of all Federal agencies provide a positive means for communication with users and consideration of their experience with those systems.

§ 234.4 Applicability and scope.

The provisions of this part apply to all supply support systems of executive departments and establishments with regard to intra-agency supply support systems and to the interagency supply support systems managed by the Department of Defense, the General Services Administration, and the Veterans Administration.

§ 234.5 Policies and procedures.

(a) It is the policy of the executive branch that needed goods and services be acquired and provided to the user in an economic, efficient, and effective manner.

(b) Government acquisition systems must consider such factors as agency resources, statutory sources, and social and economic programs while meeting end product users' needs. An end product user's satisfaction is directly related to the action taken on his ideas and problems by those on whom he must depend for support.

(c) Each agency operating one or more supply support systems shall establish procedures to provide for periodic reviews of existing methods of expressing end product user's satisfaction with the support system(s). In evaluating the effectiveness of the support system, the procedures shall provide for (1) evaluating the effectiveness of those methods; (2) determining whether end product user's satisfaction is a factor in evaluating the performance of the support system; and (3) taking actions to ensure that procedures provide a positive means of obtaining and considering the end product user's satisfaction. If improvements are warranted, consideration shall be given to establishing supply liaison programs using publications to assist the users, coordinating proposed procedures with the end product users before they are implemented, and conducting meetings and seminars with users to obtain direct information regarding the supply system.

§ 234.6 Responsibility.

Heads of executive departments and agencies are responsible for implementing this part.

§ 234.7 Reporting requirement.

Within 180 calendar days each agency shall inform the Office of Federal Management Policy (AMP), GSA, of the steps taken to implement the provisions of this part.

§ 234.8 Inquiries.

Further information concerning this part may be obtained by contacting:

General Services Administration (AMP),
Washington, D.C. 20405.
Telephone: IDS 183-7528, FTS 202-343-7528

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-467]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
California	Temama	Temama, city of	Feb. 10, 1975. Emergency	Dec. 24, 1974

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—BUREAU OF GOVERNMENT FINANCIAL OPERATIONS

PART 235—SETTLEMENTS BY THE COMMISSIONER OF THE BUREAU OF GOVERNMENT FINANCIAL OPERATIONS, IN ADVANCE OF RECLAMATION, WITH PAYEES OR SPECIAL INDORSEES OF LOST OR STOLEN CHECKS, WHICH HAVE BEEN PAID ON FORGED INDORSEMENTS

Revision To Include Depositary Checks

In view of the enactment on December 22, 1974, of Pub. L. 93-539, "To grant relief to payees and special indorsees of fraudulently negotiated checks drawn on designated depositaries of the United States by extending the availability of the check forgery insurance fund, and for other purposes," the Department of the Treasury finds it necessary to revise its regulations at 31 CFR Part 235 (also appearing as Treasury Department Circular 678). In accord with the 1941 check forgery insurance fund law, the existing regulations cover only the issuance by the Commissioner of the Treasury Bureau of Government Financial Operations of settlement checks for forged checks drawn on and paid by the Treasury. Pub. L. 93-539 amends the 1941 Act to provide for the first time authority for the issuance by accountable officers of the United States of settlement checks for forged checks drawn on and paid by designated depositary banks in the United States and in foreign countries. The revision of the regulations implements the Pub. L.

In accord with 5 U.S.C. 553(b)(3), the Department of the Treasury also finds that notice and public procedure are unnecessary because the revision constitutes a rule of agency procedure.

Accordingly, Subchapter A, Chapter II, Title 31 of the Code of Federal Regulations is amended by revising Part 235 to read as follows:

PART 235—ISSUANCE OF SETTLEMENT CHECKS FOR FORGED CHECKS DRAWN ON TREASURY AND DESIGNATED DEPOSITARIES

Sec.
235.1 Scope of regulations.
235.2 Definition.
235.3 Settlement of claims.
235.4 Check Forgery Insurance Fund
235.5 Reclamation amounts.
235.6 Implementing instructions.

AUTHORITY: This part is issued pursuant to 5 U.S.C. 301 and section 5, 55 Stat. 778 (31 U.S.C. 564), as amended by Pub. L. 93-539.

§ 235.1 Scope of regulations.

This part governs the issuance of settlement checks for checks drawn on the United States Treasury and drawn on designated depositaries of the United States by accountable officers of the United States, that have been negotiated and paid on a forged or unauthorized indorsement.

§ 235.2 Definition.

"Accountable Officers of the United States", as used in these regulations, means disbursing officers authorized by the Secretary of the Treasury to maintain official accounts of the United States in depositary banks located in the United States, its territories, and foreign countries, and to draw checks thereon in dollars or in foreign currencies.

§ 235.3 Settlement of claims.

Upon receipt of a claim by a payee or special indorsee on a check determined to have been paid on a forged indorsement under conditions satisfying the provisions set forth in 31 U.S.C. 562, the Commissioner, Bureau of Government Financial Operations, with respect to a check drawn on the United States Treasury, or accountable officers of the United States, with respect to a check drawn on designated depositaries of the United States, in dollars or in foreign currency, shall cause to be issued a settlement check in the appropriate currency to the payee or special indorsee.

§ 235.4 Check Forgery Insurance Fund.

The Check Forgery Insurance Fund, established pursuant to 31 U.S.C. 561, shall be available for use by the Commissioner, Bureau of Government Financial Operations, and accountable officers of the United States for the purpose of providing funding for settlements made to a payee or special indorsee pursuant to these regulations.

§ 235.5 Reclamation amounts.

Amounts received by way of reclamation on forged checks shall be deposited to the credit of the Check Forgery Insurance Fund or to the appropriate foreign currency fund or other account charged for the settlement payment.

§ 235.6 Implementing instructions.

Procedural instructions implementing these regulations will be issued by the Commissioner, Bureau of Government Financial Operations, in Part IV of the *Treasury Fiscal Requirements Manual for the guidance of Departments and and Agencies.*

Dated: February 10, 1975.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF COMMERCE

National Marine Fisheries Service

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 401]

ANADROMOUS FISHERIES CONSERVATION DEVELOPMENT AND ENHANCEMENT

Proposed Revision of Administrative Procedures

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior and the Secretary of Commerce by the Anadromous Fish Conservation Act (64 Stat. 93), as amended (16 U.S.C. 757a–757f), it is proposed to revise Part 401 of Title 50, Code of Federal Regulations, as set forth below. The proposed changes will improve administrative procedures, and will incorporate the provisions of recent amendments to the Act as well as Office of Management and Budget directives.

It is the policy of the Departments of the Interior and Commerce whenever practicable to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections to the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240, or to the Director, National Marine Fisheries Service, Washington, D.C. 20235, on or before March 31, 1975.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

ROBERT W. SCHONING,
Director,
National Marine Fisheries Service.

Part 401 of Title 50 is revised to read as follows:

PART 401—ANADROMOUS FISHERIES CONSERVATION, DEVELOPMENT AND ENHANCEMENT

Sec.

401.1 Administration.
401.2 Definitions.
401.3 Submission of documents.
401.4 Activities prohibited.
401.5 Coordination with States.
401.6 Prosecution of work.
401.7 General information for the Secretary.
401.8 Availability of funds.
401.9 Payments to cooperators.
401.10 Request for payment.
401.11 Property as matching funds.
401.12 Ownership of property.
401.13 Personnel.
401.14 Inspection.
401.15 Record retention.
401.16 Records and reporting.
401.17 Safety and accident prevention.
401.18 Contracts.
401.19 Statements and payrolls.
401.20 Officials not to benefit.
401.21 Patents and inventions.
401.22 Civil rights.

AUTHORITY: The provisions of this Part 401 are issued under Anadromous Fish Conservation Act (64 Stat. 93), 116 U.S.C. 757a-757f).

§ 401.1 Administration.

The Director of the U.S. Fish and Wildlife Service and the Director of the National Marine Fisheries Service shall jointly administer the Anadromous Fish Conservation Act for the Secretaries.

§ 401.2 Definitions.

As used in this part, terms shall have the meanings ascribed in this section.

(a) *Secretary.* The Secretary of Commerce, the Secretary of the Interior, or their authorized representatives.

(b) *Act.* The Anadromous Fish Conservation Act (64 Stat. 93), as amended (16 U.S.C. 757a–757f).

(c) *Eligible states.* Any coastal State of the United States, the State of Vermont, and the States bordering the Great Lakes. The area within the Columbia River basin is excluded.

(d) *State fishery agency.* Any department(s), division(s), commission(s), or official(s) of a State empowered under its laws to regulate a commercial or sport fishery.

(e) *Non-Federal interest.* Any organization, association, institution, business, school, individual, or group of individuals, municipality and others outside the Federal Government in addition to State fishery agencies which desire to cooperate within the terms of the Act.

(f) *Cooperator.* One or more States acting jointly or severally or other non-Federal interests, participating in a project agreement or grant-in-aid award with the Secretary.

(g) *Anadromous fish.* Aquatic, gill breathing, vertebrate animals bearing paired fins which migrate to and spawn in fresh water, but which spend part of their life in an oceanic environment; also fish in the Great Lakes that ascend streams to spawn.

(h) *Application for Federal assistance.* A description of work to be accomplished including objectives and needs, expected results and benefits, approach, cost, location and time required for completion.

(i) *Project agreement.* The formal document executed between the Secretary of the Interior and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

(j) *Grant-in-Aid award.* The formal document executed between the Secretary of Commerce and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

§ 401.3 Submission of documents.

Applications for Federal assistance and other documents for projects relating generally to recreational fisheries shall be submitted to the concerned Regional Office of the U.S. Fish and Wildlife Service, or for projects relating generally to commercial fisheries of the concerned Regional Office of the National Marine Fisheries Service.

§ 401.4 Activities prohibited.

Law enforcement, public relations, harvesting, marketing and processing activities, construction of fisherman use facilities, and activities concerned with landlocked anadromous fish populations (except fish in the Great Lakes that ascend streams to spawn) may not be financed under the Act.

§ 401.5 Coordination with States.

The Secretary will approve an Application for Federal Assistance only after he has coordinated the application with those State or other non-Federal entities which have management authority over the resource to be affected.

§ 401.6 Prosecution of work.

(a) Project work shall be carried through to state of completion acceptable to the Secretary with reasonable promptness. Failure to render satisfactory performance reports or failure to complete the project to the satisfaction of the Secretary's authorized representatives shall be cause for suspension of Federal assistance for the project until the project provisions are satisfactorily met. Federal assistance may be terminated upon determination by the Secretary's representative that satisfactory progress has not been maintained. The Secretary's representatives shall have the right to inspect and review work at any time.

(b) Research and development work shall be continuously coordinated by the Cooperator with studies conducted by others to avoid unnecessary duplication.

(c) All work shall be performed in accordance with applicable local laws, except when in conflict with Federal laws or regulations, in which case Federal laws or regulations shall prevail.

§ 401.7 General information for the Secretary.

Before any Federal funds may be obligated for any project an applicant shall furnish to the Secretary, upon his request, information regarding the laws affecting anadromous fish and the authority of the applicant to participate in the benefits of the Act.

(a) *Document signature.* Individuals authorized to sign project documents under the Commercial Fisheries Research and Development Act of 1964 (78 Stat. 197), as amended, (16 U.S.C. 779–779f) or the Federal Aid in Sport Fish Restoration Act (64 Stat. 430), as amended, (16 U.S.C. 777–777f) may likewise sign project documents contemplated in this Part.

(b) *Program information.* The Secretary may, from time to time, request, and the Cooperators shall furnish, information relating to the administration and maintenance of any project established under the Act.

§ 401.8 Availability of funds.

The period of availability of funds to the States or other non-Federal interests for obligation shall be established by the administering Federal agency.

§ 401.9 Payments to cooperators.

Payments shall be made to Cooperators in accordance with provisions of grant-in-aid awards or project agreements.

§ 401.10 Request for payment.

Request for payment shall be on forms provided by the Secretary, certified as therein prescribed, and submitted to the Regional Director by the Cooperator.

§ 401.11 Property as matching funds.

The non-Federal share of the cost of projects may be in the form of real or personal property. Specific procedures to be used by grantees in placing the value on real or personal property for matching funds are set forth in Attachment F of Federal Management Circular 74–7.

§ 401.12 Ownership of property.

When real property is acquired pursuant to the provisions of the Act, title to such property or interest therein shall be vested in the United States, and the conveying instrument shall recite the United States of America as the grantee. However, if the Secretary or his authorized representative determines that under the terms of the application for Federal assistance and grant-in-aid award or project agreement, the intent and purpose of the Act may be better served by other ownership of such property, an appropriate transfer may be made. When real or personal property is utilized as matching funds, title to such property shall be in the Cooperator unless otherwise specified in the grant-in-aid award or project agreement.

§ 401.13 Personnel.

The Cooperator shall maintain an adequate and competent force of employees to initiate and carry approved work to satisfactory completion.

§ 401.14 Inspection.

Cooperator supervision of each project shall include adequate and continuous inspection. The project will be subject at all times to Federal inspection.

§ 401.15 Record retention.

All records of accounts and reports, with supporting documentation thereto, will be retained by the Cooperator for a period of 3 years after submission of the final expenditure report on the project.

§ 401.16 Records and reporting.

Performance reports and other reports shall be furnished as requested by the Secretary. Cost records shall be maintained separately for each project. The accounts and records maintained by the Cooperator, together with all supporting documents, shall be open at all times to the inspection of authorized representatives of the United States, and copies thereof shall be furnished when requested.

§ 401.17 Safety and accident prevention.

In the performance of each project, the Cooperator shall comply with all applicable Federal, State, and local laws governing safety, health and sanitation.

§ 401.18 Contracts.

A Cooperator may use its own regulations or guidelines in obtaining services by contract or otherwise, provided that they adhere to applicable Federal laws, regulations, policies, guidelines, and requirements. However, the Cooperator is the responsible authority, without recourse to the Federal agency, regarding the settlement of such contractual issues.

§ 401.19 Statements and payrolls.

The regulations of the Secretary of Labor applicable to contractors and subcontractors (29 CFR Part 3), made pursuant to the Copeland "Anti-Kickback" Act (18 U.S.C. 874), as amended, are made a part of the regulations in this part by reference. The Cooperator will comply with the regulations in this part and any amendments or modifications thereof and the Cooperator's prime contractor will be responsible for the submission of statements required of subcontractors thereunder. The foregoing shall apply except as the Secretary of Labor may specifically provide for reasonable limitation, variations, tolerances, and exemptions.

§ 401.20 Officials not to benefit.

No Member of, or Delegate to, Congress, or resident Commissioner, shall be admitted to any share or any part of any project agreement made under the Act, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this agreement if made with a corporation for its general benefit.

§ 401.21 Patents and inventions.

Determination of the patent rights in any inventions or discoveries resulting from work under project agreements entered into pursuant to the Act shall be consistent with the "Government Patent Policy" (President's memorandum to Heads of Executive Departments and Agencies, August 23, 1971, and State of Government Patent Policy as printed in 36 FR 16889).

§ 401.22 Civil rights.

Each application for Federal assistance, grant-in-aid award, or project agreement shall be supported by a statement of assurances executed by the Cooperator providing that the project will be carried out in accordance with Title VI, Nondiscrimination in Federally Assisted Programs of the Civil Rights Act of 1964 and with the Secretary's regulations promulgated thereunder.

[FR Doc.75-4198 Filed 2-13-75;8:45 am]

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 215]

POWER GENERATOR FUEL REGULATION

Petroleum Sulfur Content; Public Hearing

The Federal Energy Administration (FEA) hereby gives notice of a proposal to revise Part 215 of Chapter II, Title 10, Code of Federal Regulations to eliminate the prohibition therein against the use of a petroleum product or a blend of petroleum products with a sulfur content lower than that in use on December 7, 1973.

Part 215 was issued on April 29, 1974 to replace Energy Policy Office Regulation No. 2 (32A CFR Ch. XIII), which was due to terminate with the expiration on April 30, 1974, of the Economic Stabilization Act of 1970. Both regulations have had as their purpose the allocation of petroleum products, especially low sulfur petroleum products, to minimize the adverse impacts of shortages.

The proposed amendment to Part 215 is based on current reports that the shortages of low sulfur petroleum products are no more critical than is the case for petroleum products generally, and there has been no demonstration that disproportionate shortages of low sulfur petroleum products will recur in the foreseeable future. As a result, it appears that there is no need at this time or in the foreseeable future to distinguish among petroleum products on the basis of sulfur content for the purposes of allocation. Similarly, it appears that there is no need at this time or in the foreseeable future to preclude conversions from one type of petroleum product to another on the basis of sulfur content.

The purpose of this proposed revision of Part 215 is to reflect this changed circumstance. Power generators subject to the provisions of Part 215 will no longer be subject to a prohibition on conversions to petroleum products with lower sulfur content and on increases in the direct or indirect use of middle distillate or residual fuel. The use of petroleum products, of course, will continue to be subject to other FEA regulations relating to the mandatory allocation and pricing of petroleum products. Initial

XUM
V40-32 FEB 14 75 XUM

conversion to petroleum products with sulfur content lower than that in use in a power generator during November, 1973, and each subsequent conversion to petroleum products having sulfur content lower than that resulting from the initial conversion may be undertaken only after notice of such action to FEA. Similarly, notification is required prior to an increase in the direct or indirect use of middle distillate or residual fuel oils over that consumed in the corresponding month of 1972 or in July 1973, as well as prior to any subsequent increase in the direct or indirect use of middle distillate or residual fuel oils over that resulting from the initial increase in direct or indirect use.

Power generators subject to the provisions of Part 215 will continue to be precluded from converting from nonpetroleum fuels to petroleum fuels except where such actions are certified by the appropriate state agency to be essential to meet primary ambient air quality standards and suitable nonpetroleum fuels are not available; where conversion is necessary to avoid special hardship, inequity, or unfair distribution of burdens; where fuels necessary for compliance are not available; or where the conversion is from natural gas and alternative fuels cannot practically be utilized. The retention of that portion of Part 215, as part of FEA's allocation program, is necessary to address general petroleum product supply difficulties.

Specifically, § 215.3, which addresses the use of nonpetroleum products as fuel for power generators, seeks to reduce the demand for petroleum products by prohibiting the allocation or sale of such products to power generators which were not burning petroleum products on December 7, 1973, except under specified circumstances. Similarly, § 215.4(a)(2) of the current regulation precludes a disproportionate increase in the use of petroleum products over coal in power generators which burn both. These allocation restrictions on the use of petroleum products vis-a-vis nonpetroleum products will remain as part of FEA's effort to minimize the effects of shortages of petroleum products.

It is FEA's present intention to deal with the contingency of future low sulfur petroleum product shortages by revising § 211.22(c) of FEA's mandatory petroleum allocation regulations to permit the imposition of end-user restrictions on the use of low-sulfur petroleum products whenever FEA determines such restrictions to be necessary. Currently, § 211.22(c) allows FEA to specify quality characteristics, including sulfur content, of crude oil and other allocated products, but it does not contain procedures to implement that section. It is intended that FEA would invoke § 211.22(c) to prohibit a conversion only upon an express finding, at a minimum, that the conversion is not necessary to meet national primary ambient air quality standards and that the petroleum product to which the conversion is being made is in short supply, either nationally or locally. FEA, therefore, requests comments on (1) whether § 211.22(c) or some other section of the regulations should be revised to allow FEA at some time in the future, when and if a national or regional shortage of lower sulfur fuels develops, to take affirmative action to prevent switches from relatively high to relatively low sulfur petroleum products upon receiving notice, pursuant to proposed § 215.7 or otherwise, that such a switch is about to occur, and (2) the procedures by which such affirmative action should be taken. These comments shall also take into account the need to insure that such revision would complement, rather than hinder, the activities of the various state agencies concerned with the use of petroleum products, especially low sulfur petroleum products.

FEA also requests comments and data on the premises underlying this proposed rule change—namely, that there is not currently a relative shortage of low sulfur petroleum products and there is not likely to be such a shortage in the foreseeable future.

Section 215.1 has been modified to reflect that it pertains to shortages of petroleum products without regard to sulfur content.

Section 215.3 has been amended to prohibit a power generator capable of burning both petroleum and nonpetroleum products on December 7, 1973, from increasing its use of petroleum products, by incorporating § 215.4(a)(2) as § 215.3(b).

Section 215.4, in addition to the deletion of § 215.4(a)(2), has been amended to allow conversion from high sulfur to low sulfur petroleum products after notification to the FEA. Similarly, increased direct or indirect use of middle distillate and residual fuel oils is permitted, after notification. All prohibitory language has been deleted. Reference to plant or firm inventories has been deleted as unnecessary and the automatic exception provisions have been deleted as no longer applicable.

Section 215.5, new power generators, has also been made permissive subject to notice requirements to FEA.

Section 215.6 and § 215.7 relating to exceptions from the provisions of Part 215 have been combined. The language of the § 215.7(a) exception based on economic hardship has been amended to conform with the language of section 7(1)(1)(D) of the Federal Energy Administration Act of 1974, (Pub. L. 93-275).

A new § 215.7 has been added to specify the procedures and content of notification required by this revision of Part 215.

A public hearing on this proposed rulemaking will be held beginning at 9:30 a.m., on March 6, 1975, in Room 3000, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., to receive oral presentation of data, views and arguments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 e.s.t., February 25, 1975. Such a request may be hand delivered to Room 3309 Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m., and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through March 3, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., March 3, 1975, and must submit 100 copies of the statement to Executive Communications, FEA, Room 3315 Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, before 9 a.m., e.s.t., March 5, 1975.

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to the time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t., March 4, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area of the FEA, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to the proposed regulations to Executive Communications, Federal Energy Administration, Box CG, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Revision of Part 215." Fifteen copies should be submitted. All comments received by March 3, 1975, and all relevant information, will be considered by the Federal Energy Administration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments to offer in this regard.

(Emergency Petroleum Allocation Act of 1973 (Pub. L. 93-159); Federal Energy Administration Act of 1974 (Pub. L. 93-275); E.O. 11790 (39 FR 23185))

In consideration of the foregoing, it is proposed to revise Part 215 of Chapter II, Title 10 of the Code of Federal Regulations as set forth below.

Issued in Washington, D.C., February 10, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

PART 215—POWER GENERATOR FUEL REGULATION

Sec.
215.1 Purpose and intent.
215.2 Definitions.
215.3 Power generators burning non-petroleum products.
215.4 Power generators currently burning petroleum products.
215.5 New power generators.
215.6 Exceptions.
215.7 Notification to FEA.

AUTHORITY: Emergency Petroleum Allocation Act of 1973 (Pub. L. 93-159); Federal Energy Administration Act of 1974 (Pub. L. 93-275); E.O. 11790 (39 FR 23185).

§ 215.1 Purpose and intent.

The purpose of this part is to assure the optimum use of limited supplies of petroleum products in a manner consistent with the provisions of the Clean Air Act, as amended, and the Clean Fuels Policy of the EPA. This part is not intended to affect or preempt the development of individual source compliance schedules or other actions associated with implementation of the Clean Air Act, except with regard to the timing of actual shifts to burning petroleum products during the period this part is in effect.

§ 215.2 Definitions.

"Clean Air Act" means the Clean Air Act as amended (42 U.S.C. 1857 et seq. (1970)), as amended by Pub. L. 93-319, 88 Stat. 246.

"EPA" means Environmental Protection Agency.

"FEA" means Federal Energy Administration.

"Power generator" means any boiler, burner, or other combustor of fuel or any combination of boilers at a single site in any electric power generating plant or industrial or commercial plant having a total firing rate of 50 million Btu/hour or greater in commercial operation on or prior to December 7, 1973, and includes combustion turbines used in the generation of electrical energy.

"Petroleum product" means crude oil, residual fuel oil, and refined petroleum products as defined in Part 211 of this chapter.

"Primary ambient air quality standards" means the national primary ambient air quality standards provided for in the Clean Air Act.

§ 215.3 Power generators burning non-petroleum products.

(a) No petroleum product shall be sold or otherwise provided to or accepted by any firm for burning under power generators that were not using a petroleum product on December 7, 1973.

(b) A firm using petroleum products in power generators on December 7, 1973, shall not utilize for burning under power generators an aggregate quantity of such products in any month subsequent to April, 1974, in any power generator that was burning petroleum products on December 7, 1973, and that is capable of burning coal and petroleum products which quantity exceeds the larger of the aggregate quantity of petroleum products consumed in the corresponding month of 1972 or in July 1973, except that the quantity of petroleum products burned may be increased in proportion to the increased output of energy or increased need for startups.

(c) Automatic exception is granted for power generators subject to this section converting from natural gas, provided that alternative fuels, such as coal, cannot practically be utilized.

§ 215.4 Power generators currently burning petroleum products.

Petroleum products may continue to be purchased and utilized by firms using them in power generators burning petroleum products on December 7, 1973, except that 30 days prior notice pursuant to § 215.7 shall be provided the FEA where:

(a) There is conversion to petroleum products having a lower specified sulfur content, by weight, than the average content of the petroleum products in use in such a power generator during November, 1973, or during the last month in which the power generator consumed such products. Notification required by this section is applicable to initial conversion referred to by this paragraph and to any subsequent conversion to petroleum products of lower sulfur content than that resulting from the initial conversion.

(b) The quantity of middle distillate fuel oil utilized by such firm in any month subsequent to April 1974, in any such power generator exceeds the larger of the quantity of middle distillate fuel oil consumed in the corresponding month of 1972 or in July 1973. Such notification is not required where the quantity of middle distillate fuel oil burned is increased in proportion to the increased output of energy, or increased need for startups. Notification required by this section is applicable to initial increases referred to by this paragraph and to any subsequent increase in the use of middle distillate fuels above that resulting from the initial conversion.

(c) Increased indirect use of middle distillate and residual fuel oils occurs due to:

(1) The blending of more middle distillate fuel oils into residual fuel oil than the greater of the quantities blended in the corresponding month of 1972, or in July 1973.

(2) The use under a power generator of a blended fuel containing a greater proportion of middle distillate fuels from the larger of:

(i) The proportion included in the corresponding month of 1972, or

(ii) The proportion included in July 1973.

(3) Notification required by this section is applicable to initial increases referred to by this paragraph and to any subsequent increase in the indirect use of middle distillate and residual fuel oils above that resulting from the initial conversion.

§ 215.5 New power generators.

Any firm with power generators which commenced commercial operations after December 7, 1973, shall not utilize any petroleum products with sulfur content by weight lower than that needed to meet Primary Ambient Air Quality Standards or to comply with EPA new source performance standards or for startup until 30 days prior notice of such intended use has been provided the FEA pursuant to § 215.7.

§ 215.6 Exceptions.

(a) The FEA shall automatically grant exceptions to the provisions of § 215.3 in accordance with the procedures stated in Subpart D of Part 205 of this chapter when the use of petroleum products is properly certified by the appropriate State air pollution control agency to be essential to meeting the Primary Ambient Air Quality Standard of the air quality region in which the power generator is located. Such exception shall be granted, however, only where suitable alternative nonpetroleum product fuels are not available.

(b) The FEA may also grant exceptions from the provisions of § 215.3 in accordance with the procedures stated in Subpart D of Part 205 of this chapter if:

XUM
V40-32
FEB 14 75
XUM

(1) Any firm subject to this part can demonstrate that compliance would cause special hardship, inequity, or unfair distribution of burdens; or

(2) Fuels necessary for compliance with this part are not available.

§ 215.7 Notification to FEA.

(a) Notification required by this part shall be filed with the FEA National Office and shall be addressed as follows:

Federal Energy Administration,
Box 90,
Washington, D.C. 20461.

(b) Such notification shall contain:

(1) Description of petroleum product, including sulfur content, currently used.

(2) Description of petroleum product, including sulfur content, to which conversion is intended, or description of increase in use of middle distillate fuel oil or the increase in indirect use of middle distillate and residual fuel oils that is intended.

(3) Quantity used in base period and quantity proposed for each month of the forthcoming 12 months.

(4) Reason for conversion or increased use for direct fuel or blending.

(5) Location of power generator.

(6) Source of supply including geographical location and the supplier.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF DEFENSE

Office of the Secretary

NATIONAL COMMITTEE FOR EMPLOYER SUPPORT OF THE GUARD AND RESERVE

Open Meeting

Pursuant to the provisions of section 10, Pub. L. 92-463, effective January 5, 1973, notice is hereby given that a meeting of the National Committee for Employer Support of the Guard and Reserve Executive Committee will be held on March 7, 1975, in the Office of the Secretary of Defense Conference Area, 1E801, Room No. 5, The Pentagon, Washington, D.C.

The purpose of the meeting is to develop greater activity by members of the National Advisory Council in the solicitation of employer support of the Guard and Reserve.

A transcript of the meeting will be available to anyone desiring information about the meeting.

Additional information concerning these meetings may be obtained by contacting the Assistant to the National Chairman, National Committee for Employer Support of the Guard and Reserve, Room 3A29, 400 Army Navy Drive, Arlington, Virginia 22202, 202-697-6902.

Dated: February 11, 1975.

DEPARTMENT OF THE TREASURY

Customs Service

DAIRY PRODUCTS FROM EUROPEAN COMMUNITIES

Preliminary Countervailing Duty Determination

On January 15, 1975, a "Notice of Receipt of Countervailing Duty Petitions" was published in the FEDERAL REGISTER (40 FR 2718). The notice stated that petitions had been received, including, among others, a petition alleging that payments, bestowals, rebates or refunds, granted by the European Communities (consisting of France, the United Kingdom, West Germany, Luxembourg, Ireland, the Netherlands, Denmark, Italy and Belgium), upon the manufacture, production, or exportation of dairy products constitute the payment or bestowal of a bounty or grant, directly or indirectly, within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303).

On February 7, 1975, the Commission of the European Communities announced the re-institution of export restitution payments on certain dairy products destined for the United States, which payments had been suspended since July 12, 1974. The amounts of such payments and the products to which they apply are as set forth from time to time in the *Official Journal of the European Communities*. Accordingly, it has been determined tentatively that payments are being made, directly or indirectly, by the European Communities (consisting of France, the United Kingdom, West Germany, Luxembourg, Ireland, the Netherlands, Denmark, Italy and Belgium), upon the manufacture, production, or exportation of dairy products, which constitute a bounty or grant within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303). The amounts of the payments have not been ascertained.

Interested persons are invited to submit any relevant data, views, or arguments with respect to this preliminary determination in writing to the Commissioner of Customs, 2100 K Street, NW., Washington, D.C. 20229, in time o be received by his office not later than March 3, 1975.

This preliminary determination is published pursuant to section 303(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)).

Approved: February 12, 1975.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

VERNON D. ACREE,
Commissioner of Customs.

Monetary Offices

[Gen. Exemption No. 1]

FOREIGN PORTFOLIO INVESTMENT STUDY

Equity Interest in Mutual Insurance Companies

Paragraph II.B.2.a. of the General Instructions for the Foreign Portfolio Survey provides that equity interests in mutual insurance companies arising from insurance policies are to be excluded from Forms FPI-1 and FPI-2. The term "equity" interests as used in this instruction was intended by the Project to encompass any right of ownership or membership, right to vote for the board of directors, or other right stemming from ownership of an insurance policy that would be analogous to an equity interest in a business corporation or association engaged in noninsurance enterprises. The Project has determined that neither policyholders nor fixed annuity holders of a mutual insurance company are "owners" of such a company in any sense that is deemed relevant to the Survey. The Project understands, however, that such companies occasionally may have outstanding debt obligations.

Accordingly, to alleviate the burden on mutual insurance companies that would be entailed by a routine filing of Form FPI-1 when such companies would have few, if any, issues to report that would be relevant to the Survey, such companies are hereby exempted from the reporting category "Routine large issuer reporters" described in Paragraph II.A.1.a. of the General Instructions. Instead, a mutual insurance company is required to file Form FPI-1 only if it meets the criteria in Paragraph II.A.1.b. of the General Instructions, namely, that it has evidence of foreign ownership of, for example, its indebtedness in the form of a bank loan or other financing having an original maturity of more than one year, or if it has foreign-resident variable annuity contract holders. Furthermore, if it manages foreign-origin funds, such as pension plans with foreign employers, Form FPI-2 should be filed. In the case a report is required, the reporter should file Form FPI-1 or FPI-2 except for data required on pages 2 and 4, and on Schedule A of Form FPI-1. These pages should be marked "not applicable".

[SEAL] FREDERICK CUTLER,
Project Manager.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CONTROLLED SUBSTANCES

1975 Proposed Aggregate Production Quotas for Schedule I and II Controlled Substances; Establishment of an Interim 1975 Aggregate Production Quota for Methylphenidate

Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for all controlled substances in Schedule I and II each year. This responsibility has been delegated to the administrator of the Drug Enforcement Administration pursuant to § 0.100 of Title 28 of the Code of Federal Regulations.

On December 13, 1974, a notice of the proposed aggregate production quotas for 1975 was published in the FEDERAL REGISTER (39 FR 43411). All interested parties were invited to file comments or objections to the proposed aggregate

XUM
V40-32
FEB 14 75
XUM

production quotas to the Drug Enforcement Administration on or before January 13, 1975. Comments were received by DEA relative to the proposed aggregate production quotas for methylphenidate, that portion of the desoxyephedrine quota assigned for the production of levo-desoxyephedrine for use in the manufacture of a noncontrolled product, alphaprodine, phenmetrazine, amobarbital and secobarbital. Only the comments filed by Ciba-Geigy Corporation of Summit, New Jersey, relative to the proposed aggregate production quota for methylphenidate, requested that the Administrator hold a hearing pursuant to 21 CFR 1303.11(c). As a result of this request, the proposed aggregate production quota for methylphenidate was not made final at the time that final quotas were established for the other Schedule I and II controlled substances, in the FEDERAL REGISTER Notice of Monday, January 20, 1975, 40 F.R. 3225.

Ciba-Geigy Corporation filed comments advising that the aggregate production quota of 1,000 kilograms for methylphenidate represents a 33% decrease from the 1974 aggregate production quota and that this 1,000 kilograms, as proposed, is insufficient to meet legitimate scientific and medical needs of the United States as evidenced by prescription purchases since January 1, 1974.

Due to the fact that a hearing has been requested with reference to the aggregate production quota for methylphenidate proposed by the Drug Enforcement Administration, the Administrator has decided to postpone the publication of a final aggregate production quota for methylphenidate.

In order to provide for legitimate medical needs pending the outcome of the hearing, the Drug Enforcement Administration has established an interim 1975 production quota. The interim quota expressed in terms of grams of anhydrous base, is as follows:

Basic class	*Interim granted—1975*
Methylphenidate	1,000,000

Richardson-Merrell Inc. of Wilton, Connecticut filed comments relative to that portion of the desoxyephedrine quota assigned for the production of levo-desoxyephedrine for use in the manufacture of a noncontrolled product. Richardson-Merrell Inc. stated that since it is the principal, if not the only, commercial user of levo-desoxyephedrine in the United States, it had calculated that the proposed quota did not represent a quantity sufficient to meet manufacturing requirements of their product, Vicks Inhalers.

Eli Lilly and Company of Indianapolis, Indiana commented relative to the proposed aggregate production quotas for amobarbital and secobarbital. Eli Lilly and Company stated that, in the firm's opinion, the proposed quotas for these substances do not appear to be adequate to meet the estimated medical and lawful export requirements of the United States or to provide for sufficient reserve stocks.

Hoffman-LaRoche, Inc. of Nutley, New Jersey commented relative to the proposed aggregate production quota for alphaprodine indicating that the proposed quota does not provide sufficient material for the firm to meet its 1975 needs.

Western Fher Laboratories of Ponce, Puerto Rico commented relative to the proposed aggregate production quota for phenmetrazine, indicating that the proposed quota is inadequate to provide for the estimated medical needs of the United States in 1975 or to provide for the establishment and maintenance of reserve stocks.

The Administrator has evaluated the comments which have been submitted. As stated in the FEDERAL REGISTER announcement of January 20, 1975, 40 FR 3225, the Administrator will, in early 1975, review individual manufacturing quotas allocated for 1975 based upon 1974 end of year inventory figures submitted by applicants and estimates of medical and scientific requirements provided by the Food and Drug Administration.

Dated: February 11, 1975.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration.

Geological Survey

[GRO Order Nos. 1, 2, and 3]

CENTRAL AND WESTERN REGIONS

Well Guidelines

Notice is hereby given that pursuant to 30 CFR 270.2, the Chief, Conservation Division, U.S. Geological Survey, has approved the GRO Order Nos. 1, 2, and 3 for the Central and Western Regions.

The purpose of GRO Order Nos. 1, 2, and 3 is to provide specific guidelines for (1) Exploratory Operations; (2) Drilling, Completion and Spacing of Geothermal Wells; and, (3) Plugging and Abandonment of Wells, respectively, in the Central and Western Regions.

The proposed Orders were published in the FEDERAL REGISTER on September 30, 1974, (Vol. 39, No. 190, pages 35190-35194), with a solicitation for comments. Comments on the proposed Orders have all been considered in preparing the final version of GRO Order Nos. 1, 2, and 3. In addition, the Geological Survey, on its own motion, has revised some sections of the proposed Orders to strengthen and clarify them.

Significant modifications made in the draft Orders and the rationale for them are as follows:

GEOTHERMAL RESOURCES OPERATIONAL ORDER NO. 1 (EXPLORATORY OPERATIONS)

1. *Casual use*, has been modified so that a Notice of Intent is not required to conduct Geothermal Resources Exploration Operations since by definition Casual Use operations are nondisturbing uses of the surface.

2. *Geophysical exploration*, has been modified with respect to airborne geophysical surveys. Such surveys will cover a larger area than that encompassed by a single lease, making it impossible for the Supervisor to effectively control such surveys. Therefore, a Notice of Intent will not be required to conduct such surveys.

3A to I. *Drilling of shallow holes*, has been modified to clarify the provisions of some subparagraphs and to require effective monitoring of the conditions involved in the drilling of shallow holes.

5. *General*, has been modified to require the fencing of all unattended sumps. The modification provides more protection for the public, domestic animals, and wildlife in geothermal resources areas.

GEOTHERMAL RESOURCES OPERATIONAL ORDER NO. 2 (DRILLING, COMPLETION AND SPACING OF GEOTHERMAL WELLS)

I. *Well casing*, has been modified to permit the attachment of wellhead completion equipment to the surface casing only where necessary to meet special well conditions such as high volume downhole pumping.

1A. *Conductor casing*, has been modified to permit the conductor easing to be set at a minimum depth of 15 metres (50 feet) instead of 27 metres (90 feet). The minimum casing point for setting the conductor casing was modified due to the difficulties encountered in reaching a depth of 27 metres (90 feet) in certain operating areas.

1D. *Production casing*, has been modified to incorporate provisions for the use of a tapered production casing which is considered normal field operating practice and to permit the use of the surface casing as an integral part of the production casing only where necessary to meet special well conditions such as high volume downhole pumping.

1F. *Pressure testing*, has been modified to provide more effective pressure testing methods for casing strings in geothermal wells.

1G. *Directional surveys*, has been revised and expanded to clarify, define, and differentiate the provisions between vertical and directional wells.

The intent of the revised section is to require deviation surveys (inclination from vertical or single shot) on all wells during the normal course of drilling. However, the Supervisor may require directional surveys giving both inclination and azimuth on any well. Normally, directional surveys will be required on directional wells.

2. *Blowout prevention equipment*, has been modified and expanded to provide more effective well control requirements for geothermal resources drilling such as specifically requiring the use of manually-operated gates on the blowout prevention equipment. The pressure rating for certain auxiliary fittings and lines has also been modified to better conform with accepted operating practices.

2C. *Testing and maintenance*, has been revised and expanded to provide additional requirements and specific guidelines for the testing of the blowout prevention system to ensure that the system is functioning properly.

2D. *Related well control equipment*, has been modified to provide for mandatory installation of a Kelly cock valve between the Kelly and the swivel to provide additional safety during the drilling of geothermal wells.

4B. *Lithologic logs*, has been expanded to provide that daily mud logs be submitted to the Supervisor upon his request to ensure that this information is received on a timely basis for effective management of geothermal resources.

5A. *Completions*, has been modified to provide that the wellhead will be pressure tested to its API or ASA working pressure rating which is normal field operating practice.

5B. *Wellhead equipment*, has been modified to include the provisions that wellhead equipment must meet minimum ASA standards or minimum API Standard 6A Specifications.

6. *Well spacing*, has been modified to permit the drilling of geothermal wells as close as 30 metres (100 feet) to the outer boundaries of leased lands. This requirement was revised since drainage of adjacent lands is not considered critical in geothermal operations.

GEOTHERMAL RESOURCES OPERATIONAL ORDER NO. 3 (PLUGGING AND ABANDONMENT OF WELLS)

1G. (formerly 1H) *Testing of plugs*, has been modified to permit the testing of abandonment plugs with less than 6,803 kilograms (15,000 pounds). This is to permit the testing of shallow plugs with the drill pipe in the hole.

W. A. RADLINSKI,
Acting Director.

[FR Doc.75-4176 Filed 2-13-75;8:45 am]

DRILLING, COMPLETION AND SPACING OF GEOTHERMAL WELLS

Geothermal Resources Operational Order No. 2

This Order is established pursuant to the authority prescribed in 30 CFR 270.11 and in accordance with 30 CFR 270.14, 270.15, and 270.40. All wells shall be drilled in such a manner as to minimize damage to the environment and to protect life, health, property, usable ground waters and geothermal resources.

All exploratory wells drilled for geothermal resources shall be drilled in accordance with the provisions of this Order. Initial development wells drilled for geothermal resources shall be drilled in accordance with the provisions of this Order, and these provisions shall continue in effect until field rules are issued. After field rules have been established by the Area Geothermal Supervisor (Supervisor), development wells in the individual fields shall be drilled in accordance with such rules.

Where sufficient geologic and engineering information is obtained through exploratory drilling, lessees may make application or the Supervisor may request the lessee to submit an application for the establishment of field rules. The Supervisor may issue field rules at any time he deems appropriate upon failure of the lessee to timely file for such field rules.

All wells drilled under the provisions of this Order shall have been included in an exploratory or development Plan of Operations as required under 30 CFR 270.34. Each Application for Permit to Drill (Form 9-331C) shall include all information required under 30 CFR 270.-71, and shall include a notation of any proposed variances from the requirements of this Order. All variances from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 270.48. References in this Order to approvals, determinations, and requirements for submitting of information or applications for approval are to those granted, made or required by the Supervisor or his delegated representative. The lessee shall comply with the following requirements:

1. *Well Casing.* All wells shall be cased and cemented in accordance with the requirements of 30 CFR 270.15, and the application for permit to drill shall include the casing design safety factors for collapse, tension and burst. The permanent wellhead completion equipment shall be attached to the production casing or to the intermediate casing if the production casing does not reach to the surface except as otherwise authorized by the Supervisor to meet special well conditions. All casing strings reaching the surface shall be cemented at a sufficient depth to provide adequate anchorage and support for the casing and any blowout prevention equipment required thereon. For the purpose of this Order, the several casing strings in order of normal installation are (1) conductor, (2) surface, (3) intermediate and (4) production strings. The following casing setting depth requirements are general in nature and subject to variations to permit the casing to be set and cemented in a competent formation. The Supervisor's determination of adequate casing setting depths shall be based upon all geologic and engineering factors including apparent geothermal gradients, depths and pressures of the various formations to be penetrated and all other pertinent information about the area. All depths in this Order refer to true vertical depth (TVD) below ground level, unless otherwise specified.

A. *Conductor Casing.* This casing shall be set at a minimum depth of 15 metres (50 feet) and a maximum depth of 60 metres (200 feet) before drilling into shallow formations suspected or known to contain geothermal resources, noncondensible gases, or other mineral resources or upon encountering such formations.

B. *Surface Casing.* This casing shall be set at a depth equivalent to or in excess of ten percent of the proposed total depth of the well provided, however, that such setting depth shall be not less than 60 metres (200 feet) nor more than 400 metres (1,300 feet).

C. *Intermediate Casing.* This casing shall be set at any time when required by well conditions encountered in drilling below the surface casing such as anomalous pressure zones, uncased fresh water aquifers, cave-ins, washouts, lost circulation zones, rapidly increasing thermal gradients or other drilling hazards. If a liner is used as an intermediate string, the lap shall be tested by a fluid entry or pressure test to determine whether a seal between the liner top and the next larger casing string has been achieved. The liner overlap shall be a minimum of 30 metres (100 feet). The test shall be recorded on the driller's log and may be witnessed by the Supervisor. In the event of lap or casing failure during the test, the lap or casing must be repaired or recemented and successfully retested as required by the Supervisor.

D. *Production Casing.* This casing may be set at the top of or through the potential producing zone and shall be set before completing the well for production. Production casing shall be run to the surface or lapped into the next larger casing string. The liner overlap, if utilized, shall be at least 30 metres (100 feet) and shall be tested, witnessed and recorded as in the case of intermediate casing hereinabove. In the event of lap or casing failure during the test, the lap or casing must be repaired or recemented and successfully retested as required by the Supervisor. Production casing shall normally be of consistent nominal outside diameter from the surface or from the top of the lap to the casing shoe. The surface casing shall not be used as production casing, unless otherwise authorized by the Supervisor to meet special well conditions.

E. *Cementing of Casing.* The conductor and surface casing strings shall be cemented with a quantity of cement sufficient to fill the annular space back to

XUM
V40-32 FEB 14 75 XUM

the surface. The intermediate casing string shall likewise be cemented back to the surface or to the top of the lap if a liner is used as an intermediate string. Production casing shall be cemented with a high temperature resistant admix, unless waived by the Supervisor and shall be cemented in a manner necessary to exclude, isolate or segregate overlying formation fluids from the geothermal resources zone and to prevent the movement of fluids into possible fresh water zones. Production casing shall be cemented back to the surface or, if lapped, to the top of the lap. A temperature or cement bond log may be required by the Supervisor after setting and cementing the production casing and after all primary cementing operations if an unsatisfactory cementing job is indicated. Proposed well cementing techniques differing from the requirements of this paragraph will be considered by the Supervisor on an individual well basis.

F. *Pressure Testing.* Prior to drilling out the casing shoe after cementing, all casing strings set to a depth of 152 metres (500 feet) or greater, except for conductor casing, shall be pressure tested to a minimum pressure of 69 bars (1,000 psi) or 0.045 bars/metre (0.2 psi/ft) whichever is greater. All casing strings set at a depth less than 152 metres (500 feet), except for conductor casing, shall be pressure tested to a minimum pressure of 35 bars (500 psi). Such test shall not exceed the rated working pressure of the casing or the blowout preventer stack assembly, whichever is lesser.

In the event of casing failure during the test, the casing must be repaired or recemented until a satisfactory test is obtained. A pressure decline of 10 percent or less in 30 minutes shall be considered satisfactory.

Casing test results shall be recorded on the driller's log and reported to the Supervisor within 30 days after the completion of such test. Advance notice of all casing and lap tests shall be given in sufficient time to enable the Supervisor to be present to witness such tests. The casing and lap test reports shall give a detailed description of the test, including mud and cement volumes, lapse of time between running and cementing casing and testing, method of testing and test results.

G. *Directional Surveys.*

(1) General. Deviation surveys (inclination from vertical or single shot) shall be taken on all wells during the normal course of drilling at intervals not to exceed 152 metres (500 feet). The Supervisor may require a directional survey giving both inclination and azimuth or a dipmeter to be obtained on all wells. In calculating all surveys, a correction from true north to Lambert-Grid north shall be made after making the magnetic to true north correction. All surveys shall be filed with the Supervisor. Where directional surveys are required, composite surveys shall be filed with the Supervisor showing the interval from the bottom of the conductor casing to total depth.

(2) Vertical Wells. Wells are considered vertical if inclination does not exceed an average of five degrees from the vertical. The Supervisor may require a directional survey giving both inclination and azimuth at intervals not exceeding 30 metres (100 feet) between stations prior to, or upon, setting any casing string or liner (except conductor casing) and at total depth on any vertical well drilled in close proximity to lease boundaries or areas with an unstable land surface, highly faulted or steeply dipping beds, or in areas of suspected abnormal formation pressures.

(3) Directional Wells. Wells are considered directional if inclination exceeds an average of five degrees from the vertical. Directional surveys giving both inclination and azimuth shall be obtained at intervals not to exceed 30 metres (100 feet) between stations prior to, or upon, setting any casing string or liner (except conductor casing) and at total depth.

2. Blowout Prevention Equipment and Procedures. All necessary precautions shall be taken to keep all wells under control at all times, utilize trained and competent personnel, and utilize properly maintained equipment and materials. Blowout preventers and related well control equipment shall be installed, tested immediately thereafter and maintained ready for use until drilling operations are completed. Certain components, such as packing elements and ram rubbers, shall be of high temperature resistant material as necessary. All kill lines, blowdown lines, manifolds and fittings shall be steel and shall have a temperature derated minimum working pressure rating equivalent to the maximum anticipated wellhead surface pressure. Subject to subparagraphs (A) and (B) hereinbelow blowout prevention equipment shall have manually operated gates and hydraulic actuating systems and accumulators of sufficient capacity to close all of the hydraulically-operated equipment and have a minimum pressure of 69 bars (1,000 psi) remaining on the accumulator. Dual control stations shall be installed with a high pressure backup system. One control panel shall be located at the driller's station and one control panel shall be located on the ground at least 15 metres (50 feet) away from the wellhead or rotary table. Air or other gaseous fluid drilling systems shall have blowout prevention assemblies. Such assemblies may include, but are not limited to, a rotating head, a double ram blowout preventer or equivalent, a banjo-box or an approved substitute therefor and a blind ram blowout preventer or gate valve, respectively. Exceptions to the requirements of this paragraph will be considered by the Supervisor only for certain geologic and well conditions such as stable surface areas with known low subsurface formation pressures and temperatures.

A proposed blowout prevention program and a blowout contigency plan including proposed containment, public health and safety and clean-up measures shall be submitted with the Application for Permit to Drill (Form 9–331C).

A. *Conductor Casing.* Before drilling below this string, at least one remotely controlled hydraulically-operated expansion-type preventer or an acceptable alternative, approved by the Supervisor, including a drilling spool with side outlets or equivalent, shall be installed. A kill line and blowdown line with appropriate fittings shall be connected to the drilling spool.

B. *Surface, Intermediate and Production Casing.* Before drilling below any of these strings, the blowout prevention equipment shall include a minimum of:

(1) One expansion-type preventer and accumulator or a rotating head;

(2) A manual and remotely controlled hydraulically-operated double ram blowout preventer or equivalent having a temperature derated minimum working pressure rating which exceeds the maximum anticipated surface pressure at the anticipated reservoir fluid temperature;

(3) A drilling spool with side outlets or equivalent;

(4) A fillup line;

(5) A kill line equipped with at least one valve; and

(6) A blowdown line equipped with at least two valves and securely anchored at all bends and at the end.

C. *Testing and Maintenance.* Ram-type blowout preventers and auxiliary equipment shall be tested to a minimum of 69 bars (1,000 psi) or to the working pressure of the casing or assembly, whichever is the lesser. Expansion-type blowout preventers shall be tested to 70 percent of the above pressure testing requirements.

The blowout prevention equipment shall be pressure tested:

(1) When installed;

(2) Prior to drilling out plugs and/or casing shoes;

(3) Not less than once each week, alternating the control stations; and

(4) Following repairs that require disconnecting a pressure seal in the assembly.

During drilling operations blowout prevention equipment shall be actuated to test proper functioning as follows:

(1) Once each trip for blind and pipe rams but not less than once each day for pipe rams; and

(2) At least once each week on the drill pipe for expansion-type preventers.

All flange bolts shall be inspected at least weekly and re-tightened as necessary during drilling operations. The auxiliary control systems shall be inspected daily to check the mechanical condition and effectiveness and to ensure personnel acquaintance with the method of operation. Blowout prevention and auxiliary control equipment shall be cleaned, inspected and repaired, if necessary, prior to installation to assure proper functioning. Blowout prevention controls shall be plainly labeled, and all crew members shall be instructed on the function and operation of such equipment. A blowout prevention drill shall be conducted weekly for each drilling crew. All

blowout prevention tests and crew drills shall be recorded on the driller's log.

D. *Related Well Control Equipment.* A full opening drill string safety valve in the open position shall be maintained on the rig floor at all times while drilling operations are being conducted. A kelly cock shall be installed between the kelly and the swivel.

3. *Drilling Fluid.* The properties, use and testing of drilling fluids and the conduct of related drilling procedures shall be such as are necessary to prevent the blowout of any well. Sufficient drilling fluid materials to ensure well control shall be maintained in the field area readily accessible for use at all times.

A. *Drilling Fluid Control.* Before pulling drill pipe, the drilling fluid shall be properly conditioned or displaced. The hole shall be kept reasonably full at all times, however, in no event shall the annular mud level be deeper than 30 metres (100 feet) from the rotary table when coming out of the hole with drill pipe. Mud cooling techniques shall be utilized when necessary to maintain mud characteristics for proper well control and hole conditioning.

B. *Drilling Fluid Testing.* Mud testing and treatment consistent with good operating practice shall be performed daily or more frequently as conditions warrant. Mud testing equipment shall be maintained on the drilling rig at all times.

The following drilling fluid system monitoring or recording devices shall be installed and operated continuously during drilling operations, with mud, occurring below the shoe of the conductor casing. No exceptions to these requirements will be allowed without the specific prior permission of the Supervisor:

(1) High-low level mud pit indicator including a visual and audio-warning device;

(2) Degassers, desilters and desanders;

(3) A mechanical, electrical or manual surface drilling fluid temperature monitoring device. The temperature of the drilling fluid going into and coming out of the hole shall be monitored, read and recorded on the driller's or mud log for a minimum of every 9 metres (30 feet) of hole drilled below the conductor casing; and

(4) A hydrogen sulfide indicator and alarm shall be installed in areas suspected or known to contain hydrogen sulfide gas which may reach levels considered to be dangerous to the health and safety of personnel in the area.

C. *Monitoring.* From the time drilling operations are initiated and until the well is completed or abandoned, a member of the drilling crew or the toolpusher shall monitor the rig floor at all times for surveillance purposes, unless the well is secured with blowout preventers or cement plugs.

4. *Well Logging.* All wells shall be logged with an induction electric log or equivalent from total depth to the shoe of the conductor casing. The Supervisor may grant an exception to this requirement when well conditions make it impractical or impossible to meet the above requirements.

A. *Electric Logs.* The lessee shall furnish to the Supervisor two legible exact copies of all logs run, within 30 days after completion of drilling operations on each well. Two copies of field prints of such logs shall be made immediately available to the Supervisor upon his request. Two copies of chemical analyses of geothermal fluids or other similar services performed shall be submitted to the Supervisor within 30 days after such services are completed.

B. *Lithologic Logs.* Two legible exact copies of core analysis reports and lithologic (mud) logs shall be submitted to the Supervisor within 30 days after the completion of such reports or logs, when such services are used. However, daily logs shall be made available to the Supervisor immediately upon the completion of such daily logs upon his request.

5. *Wellhead Equipment and Testing.*

A. *Completions.* All wellhead connections shall be fluid pressure tested to the API or ASA working pressure rating. Cold water is recommended as the testing fluid. Welding of wellhead connections shall be performed by a certified welder using materials in conformance with ASTM specifications.

B. *Wellhead Equipment.* All completed wells shall be equipped with a minimum of one casinghead with side outlets, one master valve and one production valve, unless otherwise authorized by the Supervisor. All casingheads, Christmas trees, fittings and connections shall have a temperature derated working pressure equal to or greater than the surface shut-in pressure of the well at reservoir temperature. Packing, sealing mediums and lubricants shall consist of materials or substances that function effectively at, and are resistant to, high temperatures. Wellhead equipment, valves, flanges and fittings shall meet minimum ASA standards or minimum API Standard 6A specifications. Casinghead connections shall be made such that fluid can be pumped between casing strings.

C. *Testing.* Any well showing sustained casinghead pressure or leaking of geothermal fluids between casing strings shall be tested to determine the origin of the failure, when such failure point is not otherwise determinable, and corrective measures shall be taken.

6. *Well Spacing.* No producing interval of any well shall be located within 30 metres (100 feet) of the outer boundaries of the leased lands, except where approved by the Supervisor. No surface location of a well shall be located within 15 metres (50 feet) of the boundary of any legal subdivision unless otherwise authorized by the Supervisor. The Supervisor may approve or prescribe such well spacing as he determines to be necessary for the proper development of the geothermal resources in accordance with the provisions of 30 CFR 270.15.

Effective date. February 1, 1975.

REID T. STONE,
Area Geothermal Supervisor.

Approved:

RUSSELL G. WAYLAND,
Chief, Conservation Division.

EXPLORATORY OPERATIONS

Geothermal Resources Operational Order No. 1

This Order is established pursuant to the authority prescribed in 30 CFR 270.11 and in accordance with 30 CFR 270.78. All exploratory operations other than drilling of exploratory and development wells will be conducted in accordance with the provisions of this Order. All plans for exploratory operations to be conducted shall include provisions for appropriate environmental protection and reclamation of disturbed lands. A cultural resources investigation approved by the Area Geothermal Supervisor (Supervisor) shall be performed prior to any surface disturbance other than Casual Use.

All variances from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 270.48. Each Notice of Intent to Conduct Geothermal Resources Exploration Operations shall include a notation of any proposed variances from the requirements of this Order. References in this Order to approvals, determinations, or requirements are to those given or made by the Supervisor or his delegated representative.

The following exploratory operations and reasonable expenditures therefor will qualify as diligent exploration if approved by the Supervisor prior to the initiation of such operations.

1. *Casual Use.* Casual Use shall include any entrance on the leased lands for geological reconnaissance or surveying purposes. Sampling of springs and water wells on the lease for geochemical analysis shall be construed as casual use. Such non-disturbing surveys and reconnaissance operations will not require a Notice of Intent to Conduct Geothermal Resources Exploration Operations. The lessee shall notify the Supervisor prior to commencing such casual use operations. Casual Use operations proposed or completed shall be included in any subsequent Plan of Operations.

2. *Geophysical Exploration.* Geophysical exploration shall include, but is not limited to, surface electrical resistivity surveys, seismic ground noise surveys, passive micro-earthquake monitoring surveys, magneto-telluric surveys and all other geophysical surveys, including airborne techniques.

Geophysical surveys other than airborne techniques will require a Notice of

XUM V40-32 FEB 14 75 XUM

Intent to Conduct Geothermal Resources Exploration Operations (Form 3200-9). All such anticipated surveys should be included in the Plan of Operations and must be approved by the Supervisor before the work is begun.

The lessee shall furnish the Supervisor two copies of the records of such surveys within 30 days after the completion of such operations.

3. *Drilling of Shallow Holes.* Drilling of shallow holes for the measurement of temperature gradients or heat flow will be considered as an exploration operation and will require approval of a Notice of Intent to Conduct Geothermal Resources Exploration Operations (Form 3200–9) by the Supervisor. The following stipulations shall apply to the drilling of such shallow holes:

A. Holes for measuring temperature gradients shall be limited to a depth of 152 metres (500 feet), unless otherwise authorized by the Supervisor.

B. Return-line temperatures shall be taken at no less than 9-metre (30-foot) intervals during drilling operations on shallow holes *drilled with mud.* If return-line mud temperature should reach 52° C. (125° F.), drilling ahead shall cease immediately and the hole will be either.

(1) Completed as an observation hole by running steel tubing as deep as possible, filling the annulus with drilling mud from total depth to 3 metres (10 feet) below the surface and with cement from 3 metres (10 feet) to the surface;

(2) Abandoned by filling the hole with drilling mud from total depth to 3 metres (10 feet) below the surface and cement to the surface thereafter, or

(3) Equipped with mud cooling and wellhead control devices to maintain well control and mud returns temperature at or below 52° C. (125° F.).

C. If flowing steam or hot water at 65° C. (150° F.) or greater is encountered, further drilling shall stop immediately and the hole will be either

(1) Completed as an observation hole using steel tubing cemented from total depth to surface; or

(2) Abandoned by plugging with cement from total depth to surface.

D. If cold flowing artesian water is encountered, the hole will be completed as in (C) hereinabove, except that plastic tubing may be used.

If the conditions outlined in (B), (C) or (D) are encountered, the Supervisor shall be notified immediately.

No exceptions to the stipulations of (B), (C) or (D) will be allowed without the specific prior permission of the Supervisor.

E. The lessee shall submit the following information with the Notice of Intent to Conduct Geothermal Resources Exploration Operations (Form 3200–9):

(1) The approximate location (to the nearest 30 metres (100 feet) from some identifiable marker or object within the smallest legal subdivision) and hole number or designation of each proposed hole and probable order of drilling;

(2) The type and size of drilling rig;

(3) The proposed drilling program including the drilling system (type of bit and circulating medium), approximate depths and casing (conductor) program for each such hole;

(4) The type of drilling sump and proposed method of sump abandonment at each location;

(5) The approximate time that each hole will be used for observation; and

(6) The proposed method of abandonment for each hole. Additionally, the lessee shall notify and receive the approval of the Supervisor prior to any change in the location of an approved hole or for any additional holes which the lessee desires to drill.

F. Locations proposed in natural thermal areas within a 300-metre (1,000-foot) radius of hot springs, fumaroles, or other surface geothermal indicia, or in areas of known artesian water flow, will require a detailed drilling program for each hole, approved by the Supervisor. The Supervisor may require special drilling and completion techniques for such holes (such as cemented surface casing and simple expansion-type blowout preventers) to safely control formations containing geothermal or other resources which may be penetrated.

G. A supply of mud and lost circulation material shall be kept on hand while drilling to control abnormal pressure if rotary equipment is used.

H. Holes shall be completed for observation purposes in a manner which will allow satisfactory subsequent abandonment. As a minimum, the annular space shall be filled with mud (cuttings and dirt if drilled with air or auger) to 3 metres (10 feet) below the surface and with cement from 3 metres (10 feet) to the surface, and the tubing shall be capped when not in use.

I. Holes shall be abandoned in a manner that will prevent subsurface interzonal migration of fluids and surface leakage. As a minimum, the top 3 metres (10 feet) of tubing below the surface shall be filled with cement. Tubing shall be cut off at ground level or as directed by the Supervisor.

4. *Reporting Completion of Exploration Operations.* The Notice of Completion of Geothermal Resources Exploration Operations (Form 3200–10) shall be submitted in triplicate, and shall include the following information for each hole drilled:

A. Final hole designation and location;

B. A driller's log noting water table and water aquifers encountered (if determined), and salt, coal beds or other mineral deposits, if present;

C. Method of completion, cementing, and casting and/or tubing used;

D. Complete details of the abandonment procedures;

E. Any information on drilling difficulties or unusual circumstances encountered which would be helpful in assuring future safety of operations or protection of the environment in the area concerned; and

F. Temperature data and logs for each hole surveyed.

5. *General.* Drilling fluids or cuttings shall not be discharged onto the surface where such discharge might contaminate lakes and perennial or intermittent streams. Excavated pits or sumps used in drilling shall be backfilled as soon as drilling is completed and restored to conform with the original topography. Unattended sumps shall be completely fenced for the protection of the public, domestic animals and wildlife.

6. *Notice of Entry.* Applicant shall contact the appropriate U.S. Geological Survey Geothermal District Office prior to entry on the land to conduct exploration operations.

Effective date. February 1, 1975.

REID T. STONE,
Area Geothermal Supervisor.

Approved:

RUSSELL G. WAYLAND,
Chief, Conservation Division.

[FR Doc.75-4199 Filed 2-13-75;8:45 am]

PLUGGING AND ABANDONMENT OF WELLS

Geothermal Resources Operational Order No. 3

This Order is established pursuant to the authority prescribed in 30 CFR 270.11 and in accordance with 30 CFR 270.14 and 270.45. The lessee shall comply with the following minimum plugging and abandonment procedures for all geothermal resources wells. Oral approvals shall be in accordance with 30 CFR 270.11. All variances from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 270.48. Each Sundry Notice (Form 9–331) shall include a notation of any proposed variances from the requirements of this Order. References in this Order to approvals, determinations or requirements are to those given or made by the Area Geothermal Supervisor (Supervisor) or his delegated representative.

The lessee shall promptly plug and abandon any well on the leased land that is not in use or demonstrated to be potentially useful. No well shall be abandoned until its lack of capacity for further profitable production of geothermal resources has been demonstrated to the satisfaction of the Supervisor. No well shall be plugged and abandoned until the manner and method of plugging have been approved or prescribed by the Supervisor.

Cement used to plug any geothermal resources well, except that cement or concrete used for surface plugging, shall be placed in the hole by pumping through drill pipe or tubing. Such cement shall consist of a high temperature resistant admix, unless this requirement is waived by the Supervisor in accordance with the particular circumstances existing in that well or area.

Prior to commencing abandonment operations, the Supervisor shall be notified of all such proposed operations.

Each Sundry Notice (Form 9–331) shall include all information required under 30 CFR 270.45 and 270.72. Any bond or rider thereto, covering a lease or an individual well thereon, shall remain in full force and effect until the lease or individual well is properly abandoned and the surface properly restored. Written approval of the abandonment must be obtained from the Supervisor before release of any bonds will be recommended.

1. *Permanent Abandonment.*

A. *Uncased Hole.* In uncased portions of wells, cement plugs shall be placed to protect all subsurface mineral resources, including fresh water aquifers. Such plugs shall extend a minimum of 30 metres (100 feet) below, if possible, and 30 metres (100 feet) above such aforementioned zones. Cement plugs shall be placed in a manner necessary to isolate formations and to protect the fluids in such formations from interzonal migration or contamination.

B. *Open Hole.* Where there is open hole (uncased and open into the casing string above), a cement plug shall be placed in the deepest casing string by either (1) or (2) below. In the event lost circulation conditions exist or are anticipated, or if the well has been drilled with air or other gaseous substance, the plug shall be placed in accordance with (3) below.

(1) A cement plug shall be placed across the shoe extending a minimum of 30 metres (100 feet) above and 30 metres (100 feet) below; or

(2) A cement retainer with effective back pressure control set approximately 30 metres (100 feet) above the casing shoe with at least 61 metres (200 feet) of cement below the retainer and 30 metres (100 feet) of cement above.

(3) A permanent bridge plug set at the casing shoe and capped with a minimum of 61 metres (200 feet) of cement.

C. *Perforations, Junk, Fish and Collapsed Pipe.* A cement plug shall be placed across production perforations, extending 30 metres (100 feet) below (where possible) and 30 metres (100 feet) above the perforated interval. When a cement retainer is used to squeeze cement the perforated interval, the retainer shall be set a minimum of 30 metres (100 feet) above the perforations. Where the casing contains perforations at or below fish, junk or collapsed casing, thereby preventing cleanout operations, a cement retainer shall be set at least 30 metres (100 feet) above such point, and the interval below the retainer shall be squeeze cemented.

D. *Casing Shoes, Stubs, Laps, and Liners.* No casing shall be cut and recovered without first obtaining the written approval of the Supervisor. A cement plug shall be placed across all casing stubs, laps, liner tops and all casing shoes not protected by an inner casing string. Such plug shall extend a minimum of 15 metres (50 feet) below and 15 metres (50 feet) above any such shoe, stub, lap or liner top.

E. *Plugging of Annular Space.* All open annuli extending to the surface shall be plugged with cement.

F. *Surface Plug.* The innermost casing string which reaches ground level shall be cemented or concreted to a minimum depth of 15 metres (50 feet) measured from 2 metres (6 feet) below ground level.

G. *Testing of Plugs.* The hardness and location of cement plugs placed across perforated intervals and at the top of uncased or open hole shall be verified by setting down with tubing or drill pipe a minimum of 6,803 kilograms (15,000 pounds) weight on the plug or the maximum weight of the available tubing or drill pipe string, if less than 6,803 kilograms (15,000 pounds).

H. *Mud.* The intervals of the hole not filled with cement shall be filled with good quality heavy mud.

1. *Surface Restoration.* All casing strings shall be cut off at least 2 metres (6 feet) below ground level and capped by welding a steel plate on the casing stub. Cellars, pads, structures and other facilities shall be removed. The surface area shall be restored as specified by the Supervisor in consultation with the appropriate surface management agency.

2. *Temporary Abandonment.* An uncompleted drilling well that is to be temporarily abandoned shall be mudded and cemented as required hereinabove for permanent abandonment except for the provisions of subparagraphs E, F, and I.

3. *Suspended Wells.* The drilling equipment shall not be removed on any geothermal resources well where drilling operations have been suspended, either temporarily or indefinitely, without prior approval of the Supervisor and after approved measures have been taken to close the well and to protect all subsurface resources, including fresh water aquifers.

Effective date. February 1, 1975.

REID T. STONE,
Area Geothermal Supervisor.

Approved:

RUSSELL G. WAYLAND,
Chief, Conservation Division.

[FR Doc.75-4201 Filed 2-13-75;8:45 am]

National Park Service

BIGHORN CANYON NATIONAL RECREATION AREA, MONTANA AND WYOMING

Designation of Area Open to Snowmobiles

In accordance with requirements of paragraph (c) of § 2.34 of Title 36 of the Code of Federal Regulations, notice is hereby given of the area to be open to snowmobiling in Bighorn Canyon National Recreation Area.

In determining the area to be designated, we have been guided by the criteria in sections 3 and 4 of Executive Order 11644 (37 FR 2877) and have considered such factors as other visitor uses, safety, wildlife management, noise, geography, weather and resource protection.

An environmental assessment has been prepared and is available for public review in the office of the Superintendent. A map of the area is also available.

Designated Snowmobile Area:

The frozen surface of Bighorn Lake in the vicinity of Horseshoe Bend from the so-called "Narrows" on the south to the "Narrows" on the north as delineated by signs posted on the ice.

It is the policy of the Department to afford the public an opportunity to participate in the decision making process. As required by 36 CFR § 2.34(c), prior to making a final decision on this designated area the public shall be provided a 30 day period to comment. Accordingly, interested persons may submit written comments, suggestions, or objections, with respect to the area designated to the Superintendent, Bighorn Canyon National Recreation Area, Post Office Box 458, Fort Smith, Montana 59035 on or before March 17, 1975.

ARTHUR L. SULLIVAN,
Superintendent, Bighorn Canyon National Recreation Area.

[FR Doc.75-4215 Filed 2-13-75;8:45 am]

ROCKY MOUNTAIN NATIONAL PARK AND SHADOW MOUNTAIN NATIONAL RECREATION AREA, COLORADO

Designation of Snowmobile Areas and Routes

Notice is hereby given that pursuant to the authority contained in 36 CFR 2.34, which provides that use of snowmobiles in National Park Service areas is prohibited except in areas and on routes designated by the Superintendent, it is proposed to designate the following areas and routes for snowmobile use within the Rocky Mountain National Park and the Shadow Mountain National Recreation Area.

A. *Green Ridge Snowmobile Trail.* This route departs from the plowed road at a point 500 feet north of the pumping plant maintained by the Bureau of Reclamation on the north shore of Lake Granby. Route proceeds east 200 feet to the shoreline, and continues in an easterly direction over the frozen lake surface for approximately ¾ mile, passing around the north end of Rainbow Island, where the route turns south toward Shelter Island, paralleling the shoreline of Green Ridge. Approximately ½ mile from the north end of Rainbow Island, the route turns east across a point of land, crosses the ice across Hidden Cove and up onto the peninsula of Green Ridge.

The trail splits into a two-loop system. The northern loop, proceeding clockwise, runs generally north for a mile, east for ½ mile toward the summit of Green Ridge—reaching its highest elevation at approximately 8,900 feet, before turning south and following an intermittent drainage back to the frozen lake surface of 8,280 feet elevation, normal pool level.

The southern trail loop, proceeds clockwise (easterly) up the same intermittent drainage for approximately ½ mile, continues east to the 8,700 foot elevation of Green Ridge, turns south to

XUM
V40-32 FEB 14 75 XUM

follow a meadow and the Granby shoreline for approximately one mile to Hidden Cove.

Approximately two miles of this route is in lodgepole pine forest on Green Ridge, following former logging roads. Another two miles of trial crosses meadows and clearings. The initial 1½ miles is over the frozen lake surface. The National Park Service regulates the opening and closing dates for public use of this trail by snowmobiles, as dictated by a sufficient thickness of ice for safe use. Elsewhere on the Federal lands of Shadow Mountain National Recreation Area, snowmobile operation is permitted in the draw-down zone of the reservoirs, below the high water mark. Operation of snowmobiles on the adjacent frozen lake surface is permitted after the ice is of sufficient thickness to assure safe operation, which date shall be established by the National Park Service and may be obtained by telephoning 627–3471.

B. *Summerland Park Snowmobile Trail.* This route lies in Sections 32 and 33, Township 4 North, Range 75 West. This route is a continuation of the public road maintained by the town of Grand Lake, as a service road to the town's water system. Snowmobiles proceeding up that road reach the boundary of Rocky Mountain National Park approximately 1,000 feet off route 278 and ½ mile from the center of the town of Grand Lake.

The route enters the National Park, turns east across Tonahutu Creek, generally following the boundary between Park and private land for approximately ¾ mile, before turning northeasterly into the Park for another ½ mile. The snowmobile route terminates near the end of the motor vehicle road serving a summer residence on a privately owned inholding.

C. *Supply Creek Access Snowmobile Trail.* This route provides snowmobile users the opportunity to proceed from the town of Grand Lake (and other points on private land adjacent to Rocky Mountain National Park), and by crossing the corner of the Park for 1.5 miles in Section 31, Township 4 North, Range 76 West, to gain access to a system of logging roads in Arapaho National Forest—particularly the "Supply Creek Trail".

The proposed snowmobile trail enters the Park northwest of the town of Grand Lake, follows an abandoned road for approximately .2 mile through lodgepole pine forest and crosses Trail Ridge Road (Route 34) at the Park boundary. The proposed trail turns northwest across a meadow on the west side of Route 34, enters a forest of lodgepole pine and crosses the county-maintained road to Winding River Ranch, at a point approximately 300 feet inside the Park boundary. From that point, the trail runs north, following an abandoned powerline right-of-way, for .6 mile to a point of intersection with another county road along the Park boundary.

D. *Trail Ridge Road.* The 7.7 mile portion of Trail Ridge Road, between Timber Creek Campground and the Lake Irene picnic area, is designated as a snowmobile trail. This road above Timber Creek Campground is not plowed during the winter months. The snowmobile route terminates short of Poudre Lakes and Milner Pass, to prevent disturbance to the bighorn sheep wintering in that area.

The criteria contained in sections 3 and 4 of Executive Order 11644 (37 FR 2877) have been carefully considered as have factors such as other visitor uses, safety, wildlife management, noise, erosion, geography, weather, vegetation, resource protection, and other management considerations. A map detailing the areas and routes described above is available at the office of the Superintendent. An environmental assessment has also been prepared and is available at the same location.

Interested persons may submit written comments and suggestions on the proposed areas and routes to the Superintendent, Rocky Mountain National Park, Estes Park, Colorado 80517, on or before March 17, 1975.

Dated: December 17, 1974.

ROGER J. CONTOR,
Superintendent, Rocky Mountain National Park and Shadow Mountain National Recreation Area.

SOUTHWEST REGIONAL ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Southwest Regional Advisory Committee will be held at 8:30 a.m., m.s.t., March 3, 1975, at the Meeting Room at the Holiday Inn, 3700 National Parks Highway, Carlsbad, New Mexico.

The Southwest Regional Advisory Committee was established pursuant to Pub. L. 91-383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Southwest Region of the National Park Service.

The members of the Southwest Regional Advisory Committee are:

Mr. Bob Burleson, Temple, Texas (Chairman)
Mr. Leslie Bowling, New Orleans, Louisiana
Dr. Neil Compton, Bentonville, Arkansas
Dr. Bertha P. Dutton, Santa Fe, New Mexico
Mr. Sam R. Powell, Tulsa, Oklahoma
Mr. J. R. Singleton, Austin, Texas
Mr. David B. Strickland, Muskogee, Oklahoma

Designated Federal Officer to attend the meeting is Joseph C. Rumburg, Jr., Regional Director, Southwest Region, National Park Service, or his designee.

The matters to be discussed at this meeting include:

1. The Big Thicket National Preserve.
2. Arkansas Sites Management Considerations.
3. Big Bend National Park Management Considerations.
4. Other items of special interest in management of the Southwest Region.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come, first-served basis. Any member of the public may appear before the Committee or file with the Committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Frank Mentzer, Assistant to the Regional Director, P.O. Box 728, National Park Service, Southwest Regional Office, Santa Fe, New Mexico 87501, telephone Area Code 505–988–6375. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Southwest Region.

Dated: January 31, 1975.

JOSEPH C. RUMBURG, JR.,
Regional Director, Southwest Region, National Park Service.

UPPER ST. CROIX NATIONAL SCENIC RIVERWAY

Boundaries Description

Whereas the Act of October 2, 1968 (82 Stat. 906), provides for institution of a national wild and scenic rivers system; and

Whereas, section 2(b) of said act requires that a river area to be included in the national wild and scenic rivers system shall be classified as a wild river area, a scenic river area, or a recreational river area; and

Whereas section 3(a) of said act designates a segment of the St. Croix River between the dam near Taylors Falls, Minn., and the dam near Gordon, Wis., and its tributary, the Namekagon, from Lake Namekagon downstream to its confluence with the St. Croix as a component of said system to be administered by the Secretary of the Interior; and

Whereas section 3(b) of said act requires the agency charged with administration of each component of said system designated by section 3(a) to establish detailed boundaries therefor, determine which of the classes outlined in section 2, subsection (b), of this act best fit the river or its various segments; and prepare a plan for necessary developments in connection with its administration in accordance with such classification, and further requires that said boundaries, classification, and development plan shall be published in the FEDERAL REGISTER; and

Whereas, said boundary description for the St. Croix National Scenic Riverways

was duly published in the FEDERAL REGISTER in Vol. 34, No. 180, on Wednesday, October 1, 1969, in conformance with legislative directive.

Now, therefore, in order to correct certain omissions and errors, a revised boundary description is hereby published for the St. Croix National Scenic Riverway.

ROBERT L. GILES,
Acting Regional Director.

The boundaries of the St. Croix National Scenic Riverway are particularly described as follows:

SAINT CROIX NATIONAL SCENIC RIVERWAY

4TH PRINCIPAL MERIDIAN

The St. Croix National Scenic Riverway in Chisago and Pine Counties, Minn., and in Bayfield, Burnett, Douglas, Polk, Sawyer, and Washburn Counties, Wis. is hereby described as follows:

T. 43 N., R. 6 W.,
Sec. 6, W½W½, W½E½W½, E½E½SW¼, W½SE¼, and SE¼SE¼;
Sec. 7, E½NE¼, and E½W½NE¼;
Sec. 8, SW¼NE¼, NW¼, N½SW¼, and NW¼SE¼.
T. 43 N., R. 7 W.,
Sec. 1, N½NE¼, N½S½NE¼, and NW¼;
Sec. 2, NE¼, E½SE¼NW¼, N½SW¼, SW¼SW¼, N½SE¼SW¼, N½SW¼SE¼, and NW¼SE¼;
NW¼SE¼;
Sec. 3, SE¼SE¼;
Sec. 10, E½E½, and SW¼SE¼;
Sec. 11, W½NW¼, and NW¼SW¼;
Sec. 15, NE¼, E½SW¼, that portion of N½SW¼SW¼ lying South of the center line of Town Road 45–1, S½SW¼SW¼, and N½SE¼;
Sec. 16, S½S½S½;
Sec. 17, S½S½S½;
Sec. 18, S½S½SE¼;
Sec. 19, that portion of the N½NE¼ lying North of the center line of Town Roads 32–11 and 32–12, that portion of W½W½E½ lying South of the center line of Town Road 32–11, E½W½, and W½SW¼;
Sec. 20, N½N½, NE¼SW¼NE¼, and N½SE¼NE¼;
Sec. 21, N½N½, and N½S½N½;
Sec. 22, N½NW¼, and N½S½NW¼.
T. 41 N., R. 8 W.,
Sec. 6, that portion of NW¼NE¼ lying west of the west right-of-way line of the Chicago and North Western Railroad, N½NW¼, SW¼NW¼, NW¼SW¼, and that portion of S½SW¼ lying west of the west right-of-way line of Chicago and North Western Railroad;
Sec. 7, that portion of NW¼NW¼ lying west of the west right-of-way line of Chicago and North Western railroad.
T. 42 N., R. 8 W.,
Sec. 2, lots 1, 2, and 5 and those portions of lots 3 and 4 and W½E½ lying west and north of the center line of U.S. Highway 63;
Sec. 3, lots 1, 2, and 3, SW¼, SE¼SE¼, and W½SE¼;
Sec. 4, E½SE¼;
Sec. 9, E½E½;
Sec. 15, that portion of NW¼SW¼ lying north of the center line of U.S. Highway 63 bounded by a line 200 feet east of and parallel to the east bank of Namekagon River, and that portion of W½NW¼ bounded by a line 200 feet east of and parallel to the east bank of Namekagon River;
Sec. 16, that portion of E½E½ lying north of the center line of U.S. Highway 63, S½NW¼SE¼ and that portion of SW¼SE¼ lying west of the center line of U.S. Highway 63, and SE¼SE¼SE¼ SW¼;
Sec. 20, SE¼NE¼, S½NE¼SW¼, SE¼ SW¼, N½SE¼, and SW¼SE¼;
Sec. 21, that portion of NE¼ lying north of the center line of U.S. Highway 63, that portion of E½NW¼ lying north of the center line of U.S. Highway 63, E½NW¼NW¼, SW¼NW¼, and W½ NW¼SW¼;
Sec. 29, E½NW¼, and W½W½;
Sec. 30, E½E½;
Sec. 31, that portion of E½E½ lying north of the center line of U.S. Highway 63, W½E½, S½SE¼NW¼, and E½SW¼;
Sec. 32, that portion of NW¼NW¼ lying north of the center line of U.S. Highway 63.
T. 43 N., R. 8 W.,
Sec. 23, that portion of S½SE¼ lying east and south of the center line of Town Road 4–1;
Sec. 24, that portion of N½SW¼ lying southeast of the southeast right-of-way line of U.S. Highway 63, S½SW¼, and SE¼;
Sec. 25, that portion of N½NW¼ lying west of the west right-of-way line of the Chicago and North Western Railroad;
Sec. 26, E½NE¼, S½NW¼NE¼, SW¼ NE¼, N½SE¼, SW¼SE¼, and W½SE¼ SE¼;
Sec. 35, that portion of W½E½E½ lying north of the center line of U.S. Highway 63, that portion of W½E½ lying north of the center line of U.S. Highway 63, and E½E½W½.
T. 40 N., R. 9 W.,
Sec. 5, W½;
Sec. 6, E½E½, SW¼SE¼, and S½SW¼;
Sec. 7, N½N½, S½NE¼, and SE¼NW¼.
T. 41 N., R. 9 W.,
Sec. 1, E½E½, and the north 49.5 feet of the east 49.5 feet of SW¼NE¼;
Sec. 12, that portion of E½E½ lying north of the west right-of-way line of the Chicago and North Western Railroad, E½W½NE¼, that portion of W½SE¼ lying west of the west right-of-way line of Chicago and North Western Railroad, NE¼SW¼, SW¼SW¼, and that portion of SE¼SW¼ lying west of the west right-of-way line of Chicago and North Western Railroad;
Sec. 13, W½W½, and W½E½NW¼;
Sec. 14, that portion of E½E½ lying south of the east right-of-way line of the Chicago and North Western Railroad;
Sec. 22, that portion of S½ lying south of the east right-of-way line of the Chicago and North Western Railroad and south of the center line of State Highway 77;
Sec. 23, E½, SE¼SW¼, and that portion of SW¼SW¼ lying south of the center line of State Highway 77;
Sec. 26, that portion of W½E½ lying north of the center line of County Highway "Old B" and that portion of W½ north of the center line of County Highways "Old B" and "B" bordering Hayward Lake;
Sec. 27, that portion lying south of the east right-of-way line of Chicago and North Western Railroad and north of both the center line of State Highway 27 and the center line of County Highway "B" bordering Hayward Lake;
Sec. 28, those portions of the NE¼ and S½ lying south and east of the east right-of-way line of the Chicago and North Western Railroad and west of the center line of State Highway 27;
Sec. 32, that part of E½E½ lying south of the east right-of-way line of the Chicago and North Western Railroad, and SW¼ SE¼;
Sec. 33, W½W¼SW¼, and that portion of N½ lying south of the east right-of-way line of Chicago and North Western Railroad and north of the center line of State Highway 27.
T. 40 N., R. 10 W.,
Sec. 1, S½S½;
Sec. 2, SW¼SW¼NE¼, NW¼, N½NW¼ SW¼, NE¼SW¼, NE¼SE¼SW¼, NW¼ NW¼SE¼, S½N½SE¼, and S½SE¼;
Sec. 3, NE¼, and that portion of E½NW¼ lying east of the center line of County Road "E";
Sec. 6, those portions of W½E½ and W½ lying north of the west right-of-way line of the Chicago and North Western Railroad and south of the center line of U.S. Highway 63;
Sec. 7, that portion of NW¼ lying north of the west right-of-way line of the Chicago and North Western Railroad;
Sec. 12, N½N½.
T. 41 N., R. 10 W.,
Sec. 32, that portion lying south of the center line of U.S. Highway 63, excepting therefrom the SE¼SE¼ and S½ NE¼SE¼;
Sec. 33, that portion of the N½NE¼ lying south of the west right-of-way line of Minneapolis, St. Paul and Sault St. Marie Railroad, S½NE¼, and that portion of N½NW¼ lying south of the center line of U.S. Highway 63;
Sec. 34, SW¼NE¼, that portion of SW¼ NW¼NW¼ lying southwest of the west right-of-way line of Minneapolis, St. Paul and Sault St. Marie Railroad, S½ NW¼, that portion of S½ lying east of the east right-of-way line of Minneapolis, St. Paul and Sault St. Marie Railroad, and that portion of N½SW¼ lying north of the north right-of-way line of the Chicago and North Western Railroad;
Sec. 35, that portion of the S½ lying south of south right-of-way line of Chicago and North Western Railroad.
T. 40 N., R. 11 W.,
Sec. 1, that portion of the SE¼SE¼ lying south of the center line of U. S. Highway 63;
Sec. 11, that portion of SE¼SE¼ lying southeast of the center line of Town Road 23–12;
Sec. 12, that portion lying north of the west right-of-way line of the Chicago and North Western Railroad, and south of the center line of U. S. Highway 63, together with that portion of the SW¼SW¼ lying south of the center line of Town Road 23–2 and west of the center line of U. S. Highway 63;
Sec. 13, that portion of the N½NW¼ lying north of the west right-of-way line of the Chicago and North Western Railroad;
Sec. 14, N½NE¼, that portion of N½SE¼ NE¼ lying west of the center line of U. S. Highway 63, SW¼NE¼, that portion of NW¼NW¼SE¼ lying north of a diagonal line from the northeast corner of said NW¼NW¼SE¼ and the southwest corner thereof, S½NW¼, and N½N½ SW¼;
Sec. 15, S½NE¼, S½SE¼NW¼, NE¼SW¼, S½SW¼, W½SE¼, and N½NE¼SE¼;
Sec. 17, S½N½SW¼, S½SW¼, S½NW¼ SE¼, and SW¼SE¼;
Sec. 18, S½NE¼SE¼, and SE¼SE¼;
Sec. 19, E½E½;
Sec. 20, W½SE¼NE¼, W½NE¼SE¼, SE¼SE¼, W½E½, and W½;
Sec. 21, S½NE¼, NE¼SW¼, S½SW¼, W½SW¼SE¼, and N½SE¼;

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

AGREEMENT WITH AMERICAN SHEEP PRODUCERS COUNCIL, INC.

Determination of Approval by Producers in Referendum

Pursuant to section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), a referendum was held among sheep and wool producers in the United States to determine whether they approved a proposed new agreement by the Administrator of the Agricultural Marketing Service with the American Sheep Producers Council, Inc., for developing and conducting an advertising and sales promotion program and a program to develop and disseminate information on product quality, production management, and marketing improvement for wool, sheep, and the products thereof and for deductions from payments to such producers to be made pursuant to the Act for marketing years 1974, 1975, 1976, and 1977. Notice of the referendum (39 FR 32766) published September 11, 1974, included the text of the proposed agreement.

In the referendum held pursuant to the notice, 85.5 percent of the voting producers who were engaged in the production for market of sheep or wool (i.e., anyone who, continuously during a single period of at least 30 days during the calendar year 1973, owned in the United States sheep or lambs 6 months of age or older) voted in favor of the agreement, and the producers voting in favor owned 87.9 percent of the sheep or lambs owned by all the voting producers. The 1973 calendar year is a representative period of production.

Under authority delegated to me (38 FR 22955, August 28, 1973; 39 FR 23076, June 26, 1974), I have determined that the agreement has the approval of the number of producers required by section 708 of the National Wool Act of 1954, as amended, since more than two-thirds of the total number of producers, and producers of more than two-thirds of the total volume of production represented in the referendum, indicated approval of the agreement.

On January 20, 1975, I signed the agreement and it became effective upon my signature.

(Sec. 708, 68 Stat. 912; 7 U.S.C. 1787)

Dated: February 11, 1975.

JOHN C. BLUM,
Associate Administrator,
Agricultural Marketing Service.

Farmers Home Administration

[Designation No. A136]

MICHIGAN

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in 23 counties in Michigan as a result of damages and losses caused by various natural disasters. The following chart lists the counties, the natural disasters, and the dates on which the natural disasters occurred.

MICHIGAN, 23 COUNTIES—1974

County	Excessive rainfall and cool temperatures	Excessive rainfall	Intermittent heavy rains	Drought	Early frost and/or freeze	Hailstorms
Allegan	May 3 through June 21.			July 5 to Aug. 10.	Oct. 2	
Arenac		June 6 through July 9.			Sept. 22 and 23.	
Barry	May 3 through June 21.			July 5 to Aug. 10.	do	July 21 and Aug. 8.
Bay		May 23 and 24, June 6 through July 9.			do	Oct. 1.
Berrien	May 3 through June 21.			July 5 to Aug. 10.	Oct. 2	
Branch	do			do	Sept. 22 and 23.	
Calhoun	do			do	do	
Cass	do			do	Sept. 22 and 23, Oct. 2.	June 14.
Delta	do		Aug. 11 through Oct. 22.		Sept. 2 and 14.	July 26 and Aug. 18.
Eaton	do			July 5 to Aug. 10.	Sept. 22 and 23.	
Hillsdale	do			do	do	July 20.
Ingham	do			do	do	
Isabella	do			do	do	
Jackson	do			July 5 to Aug. 10.	do	
Kalamazoo	do			do	do	
Macomb	do			do	do	
Monroe	do			do	do	
Muskegon	do			do	do	
Newaygo	do			do	do	Aug. 5 and 12.
Ottawa	do			do	Sept. 22 and 23, Oct. 2.	
Schoolcraft	do		Aug. 11 through Oct. 22.		Sept. 2 and 14.	
St. Joseph	do			July 5 to Aug. 10.	Sept. 22 and 23.	
Van Buren	do			do	Oct. 2	

Therefore, the Secretary has designated these areas as eligible for emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor William G. Milliken that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 4, 1975, for physical losses and November 4, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 6th day of February, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

Forest Service

TIMBER MANAGEMENT PLAN CHIPPEWA NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement on the Timber Management Plan for the Chippewa National Forest, USDA-FS-R9-FES-(Adm)-74-4.

The environmental statement concerns the proposed plans for timber harvest, reforestation, timber stand improvement, tree improvement, and sale road construction on the Chippewa National Forest in parts of Beltrami, Cass, and Itasca Counties, Minnesota.

This final environmental statement was transmitted to CEQ on February 10, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3231
12th St. & Independence Ave. SW.
Washington, D.C. 20250

USDA, Forest Service
Eastern Region
633 West Wisconsin Avenue
Milwaukee, Wisconsin 53203

USDA, Forest Service
Chippewa National Forest
Cass Lake, Minnesota 56633

A limited number of single copies are available upon request to Forest Supervisor, Chippewa National Forest, Cass Lake, Minnesota 56633.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Dated: February 10, 1975.

CURTIS L. SMITH,
Acting Regional Forester,
Eastern Region.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

BATTELLE MEMORIAL INSTITUTE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00102-98-34070. Applicant: Battelle Memorial Institute, 505 King Avenue, Columbus, Ohio 43201. Article: Nd YAG Mode Locked Generator (Oscillator-Amplifier). Manufacturer: Cilas/Compagnie Generale d'Electricite, France. Intended use of article: The article will be used with a giant CGE pulsed laser in order to produce very hot plasmas for thermonuclear research and thermal X-ray research.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a combined specification of an oscillator section compatible with the applicant's existing giant laser chain which is capable of producing pulses with duration at least as short as 40 picoseconds. The National Bureau of Standards (NBS) advises in its memorandum dated January 7, 1975 that the combined specification described above is pertinent to the applicant's intended laser fusion research. NBS also advises that it knows of no domestically available oscillator section of equivalent scientific value to the foreign article for the applicant's intended use.

EMORY UNIVERSITY ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before March 10, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00250-01-01100. Applicant: Emory University School of Medicine, Neurology, 69 Butler Street, S.E., Atlanta, Ga. 30303. Article: Sequence Analyzer, JAS-47K. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to investigate the amino acid sequence of natural and synthetic peptides in the range of 3 to 30 residues where it is likely that some of the residues' positions contain minor components, that is, different amino acids. Application received by Commissioner of Customs: December 4, 1974.

Docket Number: 75-00333-65-46040. Applicant: IIT Research Institute, 10 West 35th Street, Chicago, Illinois 60616. Article: Electron Microscope, Model JEM 100C. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to detect, identify, size, count, and chemically characterize fine particles below the resolution limits of optical microscopes. The article will also be used for the analysis of biological and metallurgical specimens. Application received by Commissioner of Customs: January 20, 1975.

Docket Number: 75-00334-33-40640. Applicant: Cleveland Clinic Foundation, 9500 Euclid Avenue, Cleveland, Ohio 44106. Article: Electron Microscope, Model EM 10. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the field of hypertension research for studies of the kidney, distribution of Tritiated Angiotensin, atherosclerosis, and vascular permeability. The article will also be used in a training program designed to train young Ph.D's and M.D.'s in the fields of cardiovascular research, using an integrated approach ranging from chemistry to bio-chemistry, physiology, pharmacology, morphology, pathology, indocrinology, and clinical sciences. Application received by Commissioner of Customs: January 20, 1975.

Director,
Special Import Programs Division.

[FR Doc.75-4182 Filed 2-13-75;8:45 am]

UNIVERSITY OF WEST FLORIDA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00081-33-46040. Applicant: The University of West Florida, Pensacola, Florida 32504. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in research involving experimentation with a variety of materials including: the algae, other plants, marine invertebrates and vertebrates, bacteria and colloids. Experiments to be conducted include: (a) effects of nutrition, pesticides and herbicides on algal ultrastructure; (b) ultrastructure of micro-algae; (c) wall formation in algae and algal spine formation; (d) subcellular structure of sexual reproduction; (e) ultrastructure of the ontogeny of marine invertebrates; (f) otolith and lens patterns in marine fish; and (g) preparation of colloidal suspensions. The article will also be used in the courses: Cell Biology, Electron Microscopy Directed Study, Physical Chemistry and Instrumental Analysis to familiarize the student with the electron microscope as a tool, to demonstrate areas of application in his major field and to teach

XUM
V40I32 FEB 14 75 F
XUM

methodology thus enabling the students to use the electron microscope as a tool.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Number 74–00298–33–46040 which was denied without prejudice to resubmission on May 24, 1974 for informational deficiencies.

The applicant in response to Question 8 alleges that the foreign article provides the following pertinent features:

(a) A guaranteed resolution of 3.5 Angstroms (Å) point to point which, among other things, permits the operator to focus and deastigmate at higher magnifications directly on the specimen under observation.

(b) A specimen airlock chamber which provides freedom from the downtime caused by faulty specimen insertion and retrieval.

(c) A magnification range from 200 to 200,000x without a pole piece change and without losing the view of the specimen, plus direct magnification readout.

(d) Variability of photographic facilities, i.e., choice of plate, 35 and 70 mm camera use.

(e) A single condenser design which provides a level of operation very close to that of a double condenser system but with only one control.

(f) A "mini-lens" condenser which permits a smaller spot size and greater illumination at high magnification than the domestic instrument. Both of these characteristics improve resolution. Further, this system allows adequate illumination at drastically reduced electron beam current values compared to the domestic instrument, resulting in comparatively less damage to delicate biological materials.

(g) A range of accelerating voltages between 40 and 100 kilovolts (kv).

(h) An objective lens focal length of 1.6 mm.

(i) Astigmatism may be corrected to 125 Å in all planes.

(j) A 100 percent solid-state electronics instrument resulting in less downtime and maintenance than an instrument which relies mainly on tubes.

(k) A "state of the Art" electron microscope as evidenced by items (a) thru (j) above.

The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated November 29, 1974 that the Model EMU–4C electron microscope, which is presently manufactured by the Adam David Company, is the most closely comparable domestic instrument. HEW further advises that the applicant provides no pertinent specification within the meaning of section 701.2(n) of the regulations upon which duty-free entry could be based. As to the specific allegations of the applicant in reply to Question 8, in the order listed above, the following is noted:

(a) The specifications for both the foreign article and the EMU–4C indicate that at the time the foreign article was ordered, both of these instruments had a guaranteed resolution of 5Å point to point. In reply to question 8c(3)(a) the applicant states that "high resolution on the order of 5Å. (sic) is absolutely essential • • •" to the purposes for which the article is intended to be used. In the applicant's initial submission, in response to question 8c(2)(a) the applicant states that the guaranteed resolution of the foreign article is 5Å point to point. HEW advises that the article and the EMU–4C provide equivalent guaranteed resolution.

(b) HEW advises that the specimen airlock chamber with the advantages claimed by the applicant is a convenience which is not pertinent within the meaning of section 701.2(n) of the regulations.

(c) The EMU–4C provides magnifications of 1400x to 240,000x with 400x or less for scanning. The article provides a magnification range of 1500x to 200,000x with 200x for scanning. No pole piece change is necessary for either instrument. HEW advises that the magnification range of the EMU–4C is equivalent to that of the article. HEW also advises that direct magnification readout is a convenience which is not pertinent.

(d) The EMU–4C provides a choice of multiple camera use, such as plate 35 and 70 mm camera use. Further, the applicant states that 35 and 70 mm cameras are to be purchased at a later date. Future purchases cannot be considered in the determination of scientific equivalency according to sections 701.2(d) and 701.6(a) of the regulations. HEW advises that the choice of camera use provided by the foreign article is a convenience which is not pertinent.

(e) The EMU–4C provides the option of either a double condenser system or a single condenser system. Moreover, HEW advises that the single condenser system of the article and its control are conveniences which are not pertinent.

(f) The EMU–4C provides a high intensity grid cap for greater illumination and contrast at high resolution, plus a guaranteed resolution equivalent to that of the article. We note that at equal illumination specimen damage rate is equal. Although a larger beam could act on a slightly larger area, HEW advises that the alleged advantages conferred by the smaller spot size and the claimed greater illumination are conveniences which are not pertinent.

(g) In reply to question 8c(3)(a) the applicant indicates that the purposes for which the foreign article is to be used require 100 kv accelerating voltage. The EMU–4C provides accelerating voltages of 25, 50, 75 and 100 kv. HEW advises that the EMU–4C provides equivalent accelerating voltage.

(h) The applicant states, "The shorter the focal length of the objective lens the better the resolution of the lens." We note that the foreign article and the EMU–4C are equivalent with respect to guaranteed resolution. HEW advises that the objective lens focal length of 1.6 mm is a convenience feature which is not pertinent particularly in view of the EMU–4C's equivalent resolution and magnification range.

(i) HEW advises that operator ability to focus and deastigmate is related to skill and convenience and is therefore not pertinent particularly in view of the EMU–4C's equivalent resolution and magnification range.

(j) HEW advises that a 100 percent solid state electronics instrument is a convenience which is not pertinent.

(k) Inasmuch as items (a) through (j) are either not pertinent or matched on the EMU–4C, the "State of the Art" designation is not relevant to duty-free entry. In connection with the applicant's claims respecting this feature, HEW points out that the article is an updating of the EM 200 whereas, in a similar fashion, the EMU–4C has certain advantages over the EMU–4.

For the foregoing reasons we find that the Model EMU–4C electron microscope is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

A. H. STUART,
Director, Special Import Programs Division.

NUMERICALLY CONTROLLED MACHINE TOOL TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that a meeting of the Numerically Controlled Machine Tool Technical Advisory Committee will be held Monday, March 17, 1975, at 9:30 a.m., in Room 5230, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Committee was established to advise the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to numerically controlled machine tools, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Discussion of future work programs.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 16, 1974, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All Committee members have appropriate security clearances.

Minutes of the open portion of the meeting will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202–967–4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al., September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838–73), the Complete Notice of Determination to close portions of the series of meetings of the Committee and subcommittees thereof of the Numerically Controlled Machine Tool Technical Advisory Committee is hereby published.

Dated: February 11, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

NUMERICALLY CONTROLLED MACHINE TOOL TECHNICAL ADVISORY COMMITTEE

NOTICE OF DETERMINATION

In response to written requests of representatives of a substantial segment of the numerically controlled machine tool industry, the Numerically Controlled Machine Tool Technical Advisory Committee was established by the Secretary of Commerce pursuant to section 5(c)(1) of the Export Administration Act of 1969, 50 U.S.C. App. Section 2404(c)(1) (Supp. III, 1973), as amended, Pub. L. No. 93–500, Section 5(b) (October 29, 1974), to advise the Department of Commerce with respect to questions involving technical matters, worldwide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to numerically controlled machine tools, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee, which currently has nine members representing industry and nine members representing government agencies, will terminate no later than January 3, 1977, unless extended by the Secretary of Commerce. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), and Office of Management and Budget Circular A–63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy.

Notices of Determination authorizing the closing of meetings, or portions thereof, of the Numerically Controlled Machine Tool Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, were approved on April 6, 1973 for the meeting of May 7, 1973; on June 28, 1973 for the meeting of July 10, 1973; on August 21, 1973 covering a series of meetings for the period August 21, 1973 through December 31, 1973; on December 26, 1973, for a series of meetings for the period January 1, 1974 through April 30, 1974; and on May 16, 1974, for a series of meetings from May 1, 1974 through January 3, 1975.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 CFR 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period January 4, 1975, to January 3, 1976, from the provisions of section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

Dated: December 16, 1974.

GUY W. CHAMBERLIN, JR.,
Assistant Secretary for Administration.

Dated: December 12, 1974.

ALFRED MEISNER,
Acting General Counsel.

[FR Doc.75–4244 Filed 2–13–75;8:45 am]

Office of the Secretary

REPORT ON COAL EXPORT MONITORING PROGRAM

Coal Export Monitoring Program. The Export Administration Act of 1969, as amended, provides in section 4(c)(1) that the Secretary of Commerce shall "• • • monitor exports, and contracts for exports, of any article, material or supply • • • when the volume of such exports in relation to domestic supply contributes, or may contribute, to an increase in domestic prices or a domestic shortage, and such price increase or shortage has, or may have a serious adverse impact on the economy or any sector thereof". The circumstances attending the strike of coal miners who are members of the United Mine Workers were judged to warrant the institution of bituminous coal export monitoring. Accordingly, Secretary of Commerce Frederick B. Dent ordered the monitoring of coal exports beginning with the work stoppage on November 12.

The monitoring program was set forth in detail in Export Administration Bulletin No. 129 of November 12, 1974 (39 FR 40279 of November 15, 1974). The program calls for exporters to report weekly their exports, contracts for exports and prices (average value) f.o.b. ports of exit, by country of destination. In addition, as a pre-strike baseline exporters were required to report their export shipments during the period October 1–November

XUM
V40-32
FEB 14 75
XUM

15, 1974. Cooperation in the program has been excellent.

Data Provided by the Monitoring System. Under the coal export monitoring program, data have been collected for the month and a half prior to the strike and are being collected for each week thereafter. Table 1 shows reported exports by country of destination for the respective time periods. Chart 1 illustrates the weekly export totals.

TABLE 1

BITUMINOUS COAL EXPORTS[1] BY COUNTRY OCT. 1, 1974 THROUGH JAN. 10, 1975

[In short tons]

Country of destination	Oct. 1 through Nov. 15, 1974		Nov. 16 through Jan. 10, 1975	
	Total for period	Weekly average	Total for 8 weeks	Weekly average
Japan	4,189,589	627,546	2,325,860	290,732
Canada	3,480,245	520,926	2,044,864	255,608
Italy	496,446	74,025	627,447	78,431
Spain	388,900	58,232	214,007	26,751
France	324,013	49,308	286,000	35,750
Netherlands	280,048	43,988	136,786	17,098
Brazil	270,395	41,174	218,873	27,322
United Kingdom	257,106	39,123	218,606	27,326
Belgium	219,544	33,411	87,786	10,973
Germany	186,120	28,630	195,491	24,436
Argentina	70,943	10,794	66,541	8,330
Mexico	44,072	6,706	31,182	3,898
All other	190,815	29,086	126,555	17,319
Total all countries	10,400,453	1,582,679	6,591,797	823,974

[1] As stated in coal exporters' reports under Export Administration No. 129 of Nov. 12, 1974.

The range of reported export prices was from about $23 to $125 per ton f.o.b. for the period November 15, 1974 to January 10, 1975. During the same period, new contracts entered into for export totalled 2.75 million tons and contracts cancelled totalled 5.37 million tons. Reported anticipated exports for the month of February are 5.5 million tons. Anticipated shipments have been highly variable in the weekly reports and are considered unreliable as an indicator of tonnage which will actually be shipped.

Domestic Coal Market Conditions. U.S. production of bituminous coal has increased over the past decade, but at a very slow pace (about 2 percent annually). Production peaked in 1970 at 603 million tons. Preliminary estimates for 1974 are about 593 million tons compared to 1973 production of 592 million tons. Production through the first seven months of 1974 was nearly 7 percent above the corresponding period of 1973. However, production losses during subsequent months eliminated this percentage gain by the end of the year.

Table 2 shows weekly production data during the monitoring period. The impact of the coal miners' strike from mid-November to mid-December is readily apparent. Normal levels of output have now been resumed. Consequently supplies for 1975 should exceed those for 1974.

TABLE 2

ESTIMATED UNITED STATES WEEKLY PRODUCTION OF COAL

[In millions of tons]

Week ending--	1974	1973 (nearest week)
Oct. 5	12.9	11.9
Oct. 12	13.5	12.0
Oct. 19	13.0	11.9
Oct. 26	13.8	12.0
Nov. 2	13.4	11.7
Nov. 9	14.4	12.1
Nov. 16	7.3	11.6
Nov. 23	4.6	10.3
Nov. 30	4.3	11.5
Dec. 7	5.3	12.2
Dec. 14	10.1	12.1
Dec. 21	10.4	11.7
Dec. 28	8.9	8.2
Jan. 4	10.5	9.9

Source: U.S. Bureau of Mines.

Imports as a source of supply increased from 1973 to 1974 sixteenfold to 2 million tons. However, coal obtained from foreign sources remains such a small amount compared to domestic sources that its contribution to total supply is negligible.

Demands upon domestic coal supplies in 1974 were comparable to those in 1973. Through October, domestic consumption had increased about 1 percent to 464 million tons. Electric utilities accounted for about 69 percent of this total, oven coke plants 16 percent, and other manufacturing and mining 11 percent. During the subsequent decline in production, consumers were able to draw upon accumulated coal stocks (Table 3) thus minimizing the impact of the strike on the economy.

TABLE 3

ESTIMATED STOCKS OF BITUMINOUS COAL AT ELECTRIC UTILITIES, INDUSTRIAL PLANTS, AND RETAIL DEALER YARDS IN THE UNITED STATES, 1974

	Nov. 13		Nov. 30		Dec. 14	
	Million tons	Days supply	Million tons	Days supply	Million tons	Days supply
Electric utilities	101.6	95	92.8	78	85.5	72
Oven-coke plants	9.3	37	7.9	42	6.8	34
Steel and rolling mills	.6	37	.4	22	.2	14
Other manufacturing and mining	10.2	57	7.9	43	7.1	35
Retail dealers	.5	14	.3	6	.3	4

Source: U.S. Bureau of Mines.

Export shipments of domestic output were also consistent with recent experience. During the beginning of the monitoring period approximately 1.2 million tons of coal were on hand at points of exportation and at least a quarter of a million tons of coal were in transit to ports. As production declined the level of exports was initially maintained. However, as these stockpiles were depleted export shipments declined rapidly. While domestic coal production fell from a weekly average of 13.5 million tons for the six weeks preceding the strike to a low point of 4.3 million tons, or a decline of about 70 percent, exports fell from an average of 1.58 million tons per week for the comparable period to a low of 270 thousand tons or a decline of over 80 percent. Comparing the low four weeks of production and exports, approximately 10 percent of domestic coal went to foreign markets which is nearly equivalent to the 1974 annual percentage (estimated 60 million tons exported out of 593 million tons output).

During 1974 domestic coal prices were dispersed over an extraordinarily wide range. F.o.b. mine prices for some utility coal on firm long term contract have been reported as low as $4 to $5 per ton. At the opposite extreme, relatively small volume sales on a spot basis have been made at more than $80 a ton. The Department of the Interior has estimated that, during the work stoppage, coal was selling at retail yards at prices ranging between $30 and $85 per ton. Indications are that prices generally increased 75 to 100 percent in 1974. Barring a repeat of extraordinary events in the energy sector, coal prices should demonstrate greater stability in 1975.

The International Market for Coal. The world coal market in 1973–1974 was characterized by strong demand, lagging production increases and rapidly rising prices, with spot coal prices reaching record levels. As an energy commodity in international trade, bituminous coal runs a distant second to oil in terms of volume or value, but far ahead of natural gas and lesser forms of energy. In 1973, nearly 190 million tons (about one tenth of world output) entered international markets. Table 4 gives the percentage distribution of this trade.

TABLE 4

PRINCIPAL COAL EXPORTING AND IMPORTING COUNTRIES, 1973

	Percent supplied

Others	18.6
Total	100.0

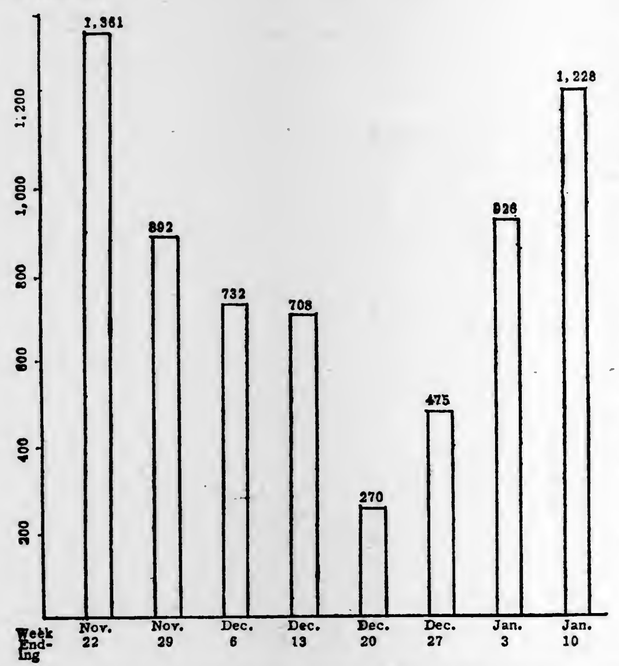
Source: U.S. Bureau of Mines.

The export of coal is an important source of foreign exchange for the United States. Total coal exports in 1973 of 53 million tons provided $1 billion in hard currency earnings. The estimated 80 million tons exported in 1974 returned approximately $2.4 billion.

U.S. coal exports have traditionally consisted in large part of the highest quality coking coals, primarily low volatile coals from the Appalachian region. The preeminence in quality and large tonnage have made the United States the world's coking coal price leader. Reliable and comprehensive data on recent international coal prices are sparse and difficult to come by. The following selected price averages from the Department of the Interior show clearly the 1973–74 world price trend, although some part of the variation between countries represents differences in coal quality and transportation charges. U.S. coal export traders have stated that during the coal strike, their prices to the export market did not change appreciably.

AVERAGE VALUES OF COALS (PER SHORT TON) DELIVERED TO JAPAN

Country of origin	August 1973	August 1974
United States	33.03	78.29
Australia	23.14	38.97
Soviet Union	23.16	41.22
Canada	24.72	40.70
Poland	28.65	47.43



The restriction of oil supplies and rapidly rising prices have given impetus to the worldwide interest in the use and production of coal. The United Nations has reported that coal production is expected to increase in the United States, the USSR, Poland, Australia, the Republic of South Africa and Canada. Although geological conditions are generally unfavorable, West European coal production, in response to government policy, is expected to stabilize after its recent decline.

As announced in the FEDERAL REGISTER for February 3, 1975, the coal export monitoring program was terminated on January 28, 1975. Accordingly, this will be the only report to be issued on the program.

FREDERICK B. DENT,
Secretary of Commerce.

ROOM AIR CONDITIONER EFFICIENCY RANGES

Voluntary Labeling Program for Household Appliances and Equipment To Effect Energy Conservation

By notice published in the FEDERAL REGISTER May 1, 1974 (39 FR 15196), the Department of Commerce announced issuance of Voluntary Energy Conservation Specification No. 1-74, for room air conditioners, under the provisions of the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation, 15 CFR Part 9.

In Voluntary Energy Conservation Specification No. 1-74, section 2.3 requires that Appendix A to that specification, containing values for cooling capacity ranges and energy efficiency ratio (EER) ranges for use on labels, shall be updated on an annual basis starting in January 1975. Section 10.0 of the specification provides that Appendix A may be updated and published without first publishing notice of the proposed change in the FEDERAL REGISTER.

Accordingly, the updated Appendix A to Voluntary Energy Conservation Specification No. 1-74 is hereby issued. The new room air conditioner EER range values shall be utilized as prescribed in section 4.4.1 of that specification.

Issued: February 10, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Following is the revised Appendix A:

VOLUNTARY ENERGY CONSERVATION-SPECIFICATION 1-74, FOR ROOM AIR CONDITIONERS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

NATIONAL PANEL ON ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH

Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776), the Alcohol, Drug Abuse, and Mental Health Administration announces the establishment by the Secretary, Department of Health, Education, and Welfare, on January 24, 1975, of the following advisory committee:

Designation. National Panel on Alcohol, Drug Abuse, and Mental Health.

Purpose. The National Panel on Alcohol, Drug Abuse, and Mental Health shall advise, consult with, and make recommendations to the Secretary concerning the activities to be carried out through the Alcohol, Drug Abuse, and Mental Health Administration.

This charter is effective through January 24, 1977.

Dated: February 10, 1975.

JAMES D. ISBISTER,
Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

programs of vocational education leadership development in institutions of higher education to participate in the Vocational Education Leadership Development Program. This program will be subject to the regulations published in 45 CFR Part 174, subpart F, and applicable provisions of subchapter A of this chapter (45 CFR Part 100a).

The criteria which will be used by the State Boards of Vocational Education in recommending Leadership Development Award recipients and by the Commissioner in selecting award recipients, and the criteria to be used by those State Boards in approving and recommending programs of vocational education leadership development and by the Commissioner in approving those recommended programs are published as §§ 174.243–246, and 174.250 of Part 174, Title 45 of the Code of Federal Regulations.

Recommendations of approved programs of vocational education leadership development must be received by the U.S. Office of Education Application Control Center on or before March 18, 1975 and recommendations of individuals to receive Leadership Development Awards must be received by the same Application Control Center on or before April 18, 1975.

A. *Recommendations sent by mail.* Statements of recommendations sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.503, Vocational Education Personnel Development Awards. Documents sent by mail will be deemed to have been received on time:

(1) If the document was sent by registered or certified mail not later than March 13, 1975 for institutions and April 14, 1975 for individuals, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) If the document is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered documents.* A document to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered documents will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Documents will not be accepted after 4:00 p.m. on the closing date.

C. *Program information and forms.* Information and forms may be obtained from the Division of Educational Systems Development, Bureau of Occupational and Adult Education, Office of Education, Room 3632, 7th and D Streets, SW., Washington, D.C. 20202.

(Catalog of Federal Domestic Assistance Number 13.503 Vocational Education Personnel Development Awards)

Dated: February 7, 1975.

T. H. BELL,
U.S. Commissioner of Education.

EDUCATION PROFESSIONS DEVELOPMENT; VOCATIONAL EDUCATION TRAINING—STATE SYSTEMS PROGRAM

Closing Date for Receipt of Applications

Pursuant to the authority contained in section 553 of the Education Professions Development Act (Title V of the Higher Education Act of 1965 as amended; (20 U.S.C. 1119c–2)), notice is hereby given that the U.S. Commissioner of Education has established a closing date for receipt of applications from State boards of vocational education for grants of financial assistance to continue their project activities under the EPDA Vocational Education Training—State Systems Program (Education Professions Development Act, Part F).

Applications must be submitted to the Regional Office of the Office of Education serving the area in which the applicant is located and must be received by that Regional Office on or before April 4, 1975.

The addresses are as follows:

Region I. Boston: Ms. Ruth Moran, Application Control Center, Office of Education/DHEW, J. F. Kennedy Federal Bldg., Room 2302, Boston, Massachusetts 02203.

Region II. New York: Application Control Center, Office of Education/DHEW, 26 Federal Plaza—Room 3954, New York, New York 10007.

Region III. Philadelphia: Mr. James Roberts, Office of Education/DHEW, 3535 New Gateway Bldg.—Room 16200, Philadelphia, Pennsylvania 19106.

Region IV. Atlanta: Mrs. Gussie Rudin, Office of Education/DHEW, Application Control Center—Room 555, 50 Seventh Street, N.E., Atlanta, Georgia 30323.

Region V. Chicago: Application Control Center, Office of Education, 300 South Wacker Drive—32nd Floor, Chicago, Illinois 60606.

Region VI. Dallas: Mrs. Virginia Lynn, Application Control Center, Office of Education, 1114 Commerce Street—Room 1011, Dallas, Texas 75202.

Region VII. Kansas City: Application Control Center, Office of Education/DHEW, New Federal Office Building—Room 458, 601 East 12th Street, Kansas City, Missouri 64106.

Region VIII. Denver: Application Control Center, Office of Education/DHEW, Federal Regional Office Bldg.—Room 11023, 1961 Stout Street, Denver, Colorado 80202.

Region IX. San Francisco: Application Control Center, Office of Education/DHEW, 50 Fulton Street—Room 334, San Francisco, California 94102.

Region X. Seattle: Application Control Center, Office of Education/DHEW, Arcade Plaza Building, 1321 Second Avenue—Room 508, Seattle, Washington 98101.

A. *Applications sent by mail.* An application sent by mail will be considered to have been received on time by the Regional Office if:

(1) The application was sent by registered or certified mail not later than March 31, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by the appropriate Regional Office mail room.

(In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, the U.S. Office of Education or the Regional Offices.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the appropriate U.S. Office of Education Regional Office at the address listed above in this notice. No application will be accepted after the normal close of business time by a U.S. Office of Education Regional Office on the closing date.

C. *Program information and forms.* Information and forms may be obtained from the Division of Educational Systems Development, Bureau of Occupational and Adult Education, Office of Education, Room 3032 ROB–3, 7th and D Streets, SW., Washington, D.C. 20202.

D. *Applicable Regulations.* Grants under this program are subject to the Office of Education General Provisions Regulations (45 CFR Part 100a) and the regulations for this program (45 CFR 174. 251–253).

(Catalog of Federal Domestic Assistance number 13.504, Vocational Education Personnel Development—Professional Personnel Development for States)

Dated: February 7, 1975.

T. H. BELL,
U.S. Commissioner of Education.

ADVISORY COMMITTEE ON THE EDUCATION OF BILINGUAL CHILDREN

Public Meeting

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that a meeting of the Advisory Committee on the Education of Bilingual Children will be held from 9 a.m. to 5 p.m. on Monday, March 3, and on Tuesday, March 4, 1975 from 9 a.m. to 5 p.m. The Committee will meet in Room 5169, Department of Health, Education, and Welfare (North Building), 330 Independence Avenue SW., Washington, D.C.

The Advisory Committee on the Education of Bilingual Children is established pursuant to section 708 of the Bilingual Education Act (20 U.S.C. 880b-5) to advise the Secretary of Health, Education, and Welfare and the Commissioner of Education concerning matters arising in administration of the Bilingual Education Act.

The meeting shall be opened to the public. The proposed agenda for the Committee meeting is:

1. Committee report on position paper and draft.
2. Annual Report to the Commissioner.
3. New Business.

Records shall be kept of all proceedings, and shall be available for pubic inspection at Room 3600, Regional Office Building #3, 7th and D Streets SW., Washington, D.C. 20202.

Signed at Washington, D.C., on February 7, 1975.

LEROY WALSER,
Acting Director, Division of Bilingual Education.

Food and Drug Administration

LARGE VOLUME PARENTERALS

Availability of Draft Regulations Concerning Good Manufacturing Practices

The Food and Drug Administration has recently learned that representatives of industry have obtained copies of a working draft of proposed regulations covering current good manufacturing practices in the large volume parenteral drug industry. Disclosure of this draft was unauthorized. The draft incorporates certain novel features of potentially broad interest to industry and the public. These include qualification and certification requirements for plants, processes, and products; mandatory self-inspection; and requirements concerning systems for reporting product defects.

The Commissioner of Food and Drugs concludes that since the draft is in the possession of one or more members of the regulated industry, it should be made available to all interested persons. Accordingly, a copy of this draft document has been placed on display in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, and may be seen during working hours, Monday through Friday.

Since this draft document is still undergoing review within the Food and Drug Administration, the draft copy on display does not necessarily represent final Agency thinking on this matter. Therefore, comments are not solicited on this draft. All members of the public will be afforded an opportunity to comment when a document is published in the FEDERAL REGISTER as a notice of proposed rule making.

Dated: February 11, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Resources Administration

NATIONAL ADVISORY COUNCIL ON NURSE TRAINING

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), the Administrator, Health Resources Administration, announces the meeting dates and other required information for the following National Advisory body scheduled to assemble during the month of March 1975:

National Advisory Council on Nurse Training, March 12–14, 1975, 10:30 a.m., Conference Room 10, Building 31, NIH, Bethesda, Maryland. Open on March 12, 10:30 a.m. to 12 noon. Closed remainder of meeting. Contact Dr. Mary S. Hill, Federal Building, Room 6C–18, 9000 Rockville Pike, Bethesda, Maryland 20014. Telephone 301–496–6985.

Purpose. Performs final review of applications for construction projects, special projects for the improvement of nurse training, and research grants. Recommends approval, disapproval, or deferral action to the Administrator, HRA.

Agenda. Agenda items for the open portion of the meeting will include announcements, consideration of minutes of previous meeting, discussion of future dates for 1975, and administrative and staff reports. During the remainder of the meeting, the Council will conduct a final review of grant applications for Federal assistance and will not be open to the public in accordance with the provisions set forth in section 552(b)(4), Title 5 U.S. Code and the Determination by the Administrator, HRA, pursuant to the provisions of Pub. L. 92–463, section 10(d).

Agenda items are subject to change as priorities dictate.

That portion of the meeting so indicated, is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information, should contact the person indicated above.

Dated: February 7, 1975.

DANIEL F. WHITESIDE,
Associate Administrator for Operations and Management, Health Resources Administration.

Health Services Administration

INTERAGENCY COMMITTEE ON EMERGENCY MEDICAL SERVICES

Meeting

Pursuant to the Federal Advisory Act (Pub. L. 92–463), the Administrator, Health Services Administration, announces the meeting dates and other required information for the following National Advisory body scheduled to assemble during the month of March 1975:

Interagency Committee on Emergency Medical Services, March 24, 1975, 9 a.m., Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852. Open for entire meeting. Contact John D. Reardon, DEMS/BMS, 6525 Belcrest Road, Room 320, Hyattsville, Maryland 20782. Telephone 301–436–6284.

Purpose. The Committee will provide for the communication and exchange of information necessary to maintain the coordination and effectiveness among such Federal programs and activities and make recommendations to the Secretary respecting the administration of grants and contracts under Title XII, including making regulations for the emergency medical services systems program.

Agenda. The agenda will include a review of FY 1975 grant funding, discussion of program guidance and work-group activities; and a presentation by the Department of Transportation.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation. Anyone wishing to attend, obtain a roster of members, or other relevant information should contact the person listed above. Public seating is limited to forty (40). Please contact at least 72 hours before the meeting.

Dated: February 3, 1975.

ANDREW J. CARDINAL,
Associate Administrator for Management, Health Services Administration.

NATIONAL CANCER INSTITUTE

Advisory Committee Meetings

Pursuant to Pub. L. 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Some of these meetings will be closed as indicated below in accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6) of Title 5, U.S. Code and section 10(d) of Pub. L. 92–463 for the review, discussion and evaluation of individual research contract proposals as indicated. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

ARTIFICIAL KIDNEY-CHRONIC UREMIA ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Artificial Kidney-Chronic Uremia Advisory Committee, National Institute of Arthritis, Metabolism, and Digestive Diseases, March 25–26, 1975, Building 31, Conference Room 2, National Institutes of Health.

This meeting will be open to the public on March 25 from 9 a.m. to 10 a.m. to discuss administrative reports. Attendance by the public will be limited to space available. In accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on March 25, 1975, from 10 a.m. to 5 p.m. and on March 26, 1975, from 9 a.m. to adjournment for the review, discussion and evaluation of individual contract proposals. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

The Information Officer, NIAMDD, NIH, Mr. Victor Wartofsky, Building 31, Room 9A04, Bethesda, Maryland 20014 301–496–3583 will provide summaries of the meeting, rosters of committee members, and substantive program information.

Dated: February 5, 1975.

U.S. NATIONAL COMMITTEE FOR THE PREVENTION OF MARINE POLLUTION

Open Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 USC App. 1) of October 6, 1972 that the U.S. National Committee for the Prevention of Marine Pollution will conduct an open meeting on Tuesday, 4 March 1975 in Room 10234 of Department of Transportation, 400 7th Street SW., Washington, D.C. The meeting is scheduled to begin at 9:30 a.m.

The purpose of the meeting is to review the outcome of the second session of the Marine Environment Protection Committee (MEPC) of the Intergovernmental Maritime Consultative Organization (IMCO) and to begin preparations for the third session of the MEPC which is scheduled for June 1975 in London. In

XUM
V40-32 FEB 14 75 XUM

particular the National Committee will discuss development of U.S. positions for three specific agenda items for the third MEPC session, i.e.: (1) means for ensuring the provision and maintenance of adequate reception facilities in ports; (2) consideration of draft revised performance standards for oily water separating equipment and oil content meters; and (3) studies of procedures and arrangements for the discharge of noxious liquid substances.

The National Committee for the Prevention of Marine Pollution was established by the Department of State to ascertain views and make recommendations regarding prevention of marine pollution.

Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

Capt D. C. Hintze
Chief, International Affairs Division
U.S. Coast Guard, (G-AIA/83)

U.S. SOLAS SUBCOMMITTEE WORKING GROUP ON THE SAFETY OF FISHING VESSELS

Open Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (P.L. 92-463; 5 U.S.C. App. 1) of October 6, 1972 that the U.S. SOLAS Subcommittee Working Group on Safety of Fishing Vessels will conduct an open meeting. The meeting will be at 10 a.m. on Friday, 28 February 1975 in room 8238 of the Department of Transportation, 400 7th Street SW., Washington, D.C.

The purpose of the meeting is to discuss the agenda for the Safety of Fishing Vessels Subcommittee of the Intergovernmental Maritime Consultative Organization (IMCO). The Subcommittee will consider five sections of the latest draft text of the 1976 Safety of Fishing Vessel Convention including the articles, general provisions and three technical sections.

The Safety of Life at Sea Subcommittee was established by the Department of State to provide advice, from the best information available towards improvement of safety of life at sea. In addition the Subcommittee may consider any matters which may be put forward by the International Conference on Safety of Life at Sea, by the IMCO Assembly, Council on Maritime Safety Committee, or which may originate within the SOLAS Subcommittee itself.

Public members of the Subcommittee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

CIVIL AERONAUTICS BOARD

[Order 75-2-46; Docket 27497]

COMPANIA PERUANA INTERNACIONAL DE AVIACION, S.A. (COPSA) AND BAHAMAS AIRWAYS LTD.

Permit Cancellations

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of February 1975.

Compania Peruana Internacional de Aviacion, S.A. (COPISA), a Peruvian air carrier, holds a foreign air carrier permit[1] authorizing: (a) foreign air transportation of persons, property, and mail between a point or points in Peru, the intermediate point Maracaibo, Venezuela, and the terminal point Miami, Florida; and (b) the performance of offroute charter trips in foreign air transportation pursuant to Part 212 of the Board's economic regulations. Bahamas Airways Limited (BAL), a British air carrier, holds a foreign air carrier permit[2] authorizing: (a) foreign air transportation of persons, property, and mail (1) between a point or points in the Bahama Islands, the intermediate point Havana, Cuba, and the coterminal points Miami, Palm Beach, Fort Lauderdale, and Tampa, Florida; (2) between a point or points in the Bahama Islands and the terminal point New York, New York; and (3) between a point or points in the Cayman Islands, the intermediate points Merida, Cosumel, and Chetumal, Mexico, and a point or points in Jamaica, and the terminal point Miami, Florida; and (b) the performance of charter trips in foreign air transportation pursuant to Part 212 or the Board's economic regulations.

The Board has been advised that the Peruvian license held by COPISA has lapsed and that the Government of Peru has withdrawn its designation pursuant to the Air Transport Services Agreement between the United States and Peru.[3] The Board has also been advised that Bahamas Airways is in liquidation, its Bahamian permit has been terminated, and the Commonwealth of the Bahamas has withdrawn its designation pursuant to the Air Transport Services Agreement between the United States and the United Kingdom of Great Britain and Northern Ireland.[4]

In view of the foregoing, the Board tentatively finds that it is in the public interest to cancel the foreign air carrier permits held by COPISA and BAL.

Accordingly, *it is ordered*, That: 1. All interested persons are hereby directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and which would, subject to the approval of the President:

(a) Cancel the foreign air carrier permit held by COPISA, issued pursuant to Order E-22521; and

(b) Cancel the foreign air carrier permit held by Bahamas Airways Limited, issued pursuant to Order 70-6-2.

2. Any interested person having objection to the issuance, without hearing, of an order making final the tentative findings and conclusions stated herein shall file a statement of objections supported by evidence within twenty days after the adoption of this order. If an evidentiary hearing is requested the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;[5]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon COPISA, Bahamas Airways Limited, the Ambassador of Peru and the Ambassador of the Commonwealth of the Bahamas.

This order will be published in the FEDERAL REGISTER, and will be transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-4211 Filed 2-13-75;8:45 am]

[Order 75-2-49; Docket 26280 Agreement C.A.B. 24488 Agreement C.A.B. 24714 R-3]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 11th day of February, 1975.

By Order 75-1-46 (January 13, 1975), the Board approved increases in North/Central Pacific specific commodity rates for electronic components adopted by the carrier members of the International Air Transport Association (IATA).[1] On January 28 and January 31, 1975, respectively, General Instrument Corporation (GIC) and the Western Electronics Manufacturers Association (WEMA)[2] filed petitions for reconsideration of the Board's order. The petitioners also requested the Board to stay the effectiveness of Order 75-1-46 pending action on the petitions for reconsideration and/or judicial review of the Board's decision. In view of the complexity of the issues involved in the case, the Board has determined to stay the effectiveness of its decision until further order.[3]

Accordingly, *it is ordered*, That: The effectiveness of Order 75-1-46, insofar as it relates to Agreement C.A.B. 24488, and of Order 75-1-47 insofar as it would revalidate rates for commodity Items 4416, 4417, 4435, 4506, 9902 and 9903, be and hereby are stayed until further order by the Board.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-4210 Filed 2-13-75;8:45 am]

[1] Order E-22521, approved August 6, 1965.
[2] Order 70-6-2, approved May 28, 1970.
[3] Supreme Resolution No. 0164-73-TC/AE, August 16, 1973.
[4] Diplomatic Note from the Ministry of External Affairs, Commonwealth of the Bahamas, December 31, 1974.
[5] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[1] Commodity Items Nos. 4416, 4417, 4435, 4506, 9902 and 9903.
[2] The WEMA parties are: Signetics Corporation; Litronix, Inc; Fairchild Camera and Instrument Corporation; Intel Corporation; National Semiconductor; Electronic Memories and Magnetics Corporation; Data General Corporation; Rockwell International; Intersil, Inc; and American Microsystems, Inc.
[3] We will also stay the effectiveness of Order 75-1-47 (January 13, 1974) insofar as the revalidation of the North/Central Pacific rate structure approved in that order relates to the commodity rates here at issue.

COMMISSION ON CIVIL RIGHTS

COLORADO STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Colorado State Advisory Committee (SAC) to this Commission will convene at 8 a.m. on March 8, 1975, at the Quality Inn, 1840 Sherman Street, Denver, Colorado 80203.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Mountain States Regional Office of the Commission, Room 216, 1726 Champa Street, Denver, Colorado 80202.

The purpose of this meeting is general planning, and review of current projects.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., February 10, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee
Management Officer.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1975

Proposed Addition

Notice is hereby given pursuant to section 2(a) (2) of Pub. L. 92-28; 85 Stat. 79, of the proposed addition of the following service to Procurement List 1975, November 12, 1974 (39 FR 39964).

INDUSTRIAL CLASS 0782

Grounds Maintenance and Landscaping, Officers Club, Welcome Center, and Silas B. Hayes Hospital, Department of the Army, Fort Ord, California.

Comments and views regarding this proposed addition may be filed with the Committee on or before March 17, 1975. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

By the Committee.

C. W. FLETCHER,
Executive Director.

[FR Doc.75-4179 Filed 2-13-75;8:45 am]

PROCUREMENT LIST, 1975

Proposed Addition

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 79, of the proposed addition of the following service to Procurement List 1975, November 12, 1974 (39 FR 39964).

INDUSTRIAL CLASS 7699

Typewriter Repair and Maintenance (Electric Typewriters Only), Syracuse, New York (including Onondago County).

Comments and views regarding this proposed addition may be filed with the Committee not later than March 17, 1975. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice supersedes the notice of proposed addition of Typewriter Repair and Maintenance, dated January 17, 1975 (40 FR 3034), which is cancelled.

By the Committee.

C. W. FLETCHER,
Executive Director.

CONSUMER PRODUCT SAFETY COMMISSION

ADVISORY COMMITTEES

Invitation for Membership Applications

The Consumer Product Safety Commission was established by the Consumer Product Safety Act (Pub. L. 92-573, 86 Stat. 1207-33; 15 U.S.C. 2051-81). The Commission is charged with protecting the public against unreasonable risks of injury associated with consumer products; assisting consumers in evaluating the comparative safety of consumer products; and promoting research and investigation into the causes and prevention of product-related deaths, illnesses, and injuries.

To assist in these tasks, the Commission has three advisory committees composed of individuals representative of consumers, industry, and government. The advisory committees are (1) the Product Safety Advisory Council, (2) the Technical Advisory Committee on Poison Prevention Packaging and (3) the National Advisory Committee for the Flammable Fabrics Act. A description of the functions and representational composition of each committee is outlined below.

The purpose of this notice is to invite applications for membership on each of the three advisory committees for vacancies that will occur in June 1975. The number of anticipated vacancies on each committee is provided in the brief description of each committee. A suggested format for applying for membership appears at the end of this notice. Applicants who wish to be considered for more than one advisory committee should submit only one application, specifying the committees for which they wish to be considered and providing any supplemental information as may be appropriate to the functions of the specific committees for which application is being made.

Persons wishing to nominate another individual to serve on an advisory committee should use the suggested format and should include a statement that the person nominated has agreed to serve if selected by the Commission.

The Commission's advisory committees will meet at the call of the Commission, generally on a quarterly basis.

A brief description of each advisory committee and its functions are noted below:

PRODUCT SAFETY ADVISORY COUNCIL

Section 28 of the Consumer Product Safety Act (15 U.S.C. 2077) provides that the Commission shall establish a 15-member Product Safety Advisory Council to be composed of:

(1) Five members selected from governmental agencies including Federal, State, and Local Governments;

(2) Five members selected from consumer product industries including at least one representative of small business; and

(3) Five members selected from among consumer organizations, community organizations, and recognized consumer leaders.

Upon request of the Commission, the Council provides safety rules or other actions under the Consumer Product Safety Act. The Council may also propose safety rules for the Commission's consideration. The Commission, in establishing the Advisory Council, envisioned that this diversely-composed Council would assist it in its decisionmaking process by providing advice on proposed major policies as well as approaches to particular issues and problems.

The Commission anticipates ten (10) vacancies in June 1975: three (3) within the industry category; four (4) within the Federal/State, and local Government category; and three (3) within the consumer category.

TECHNICAL ADVISORY COMMITTEE ON POISON PREVENTION PACKAGING

The Technical Advisory Committee on Poison Prevention Packaging was first established in 1971 by the Department of Health, Education, and Welfare under the Poison Prevention Packaging Act of 1970 (Pub. L. 91-601; 15 U.S.C. 1471, et seq). Functions under this Act, including administration of the Technical Advisory Committee, were transferred, effective May 14, 1973, to the Commission by Section 30(a) of the Consumer Product Safety Act (15 U.S.C. 0279(a)).

The Technical Advisory Committee provides advice and recommendations to the Commission in its administration of the Poison Prevention Packaging Act on the establishment of packaging standards to protect children from injury or illness resulting from handling, using, or ingesting household substances.

The Technical Advisory Committee is composed of 18 members including one representative each from the Department of Health, Education, and Welfare and the Department of Commerce, with the remaining 16 members equally divided among consumer and industry interests. Within the industry category, representation is provided for manufacturers of packages and closures for household substances and manufacturers of household substances subject to the Poison Prevention Packaging Act. Scientists with expertise related to the Act and licensed medical practitioners may be included in either the consumer or industry category depending upon their employment affiliation.

The Commission anticipates five (5) vacancies in June 1975; four (4) within the consumer category and one (1) representing manufacturers of packages and closures for household substances.

NATIONAL ADVISORY COMMITTEE FOR THE FLAMMABLE FABRICS ACT

The National Advisory Committee for the Flammable Fabrics Act was first established in 1968 by the Department of Commerce under section 17 of the Flammable Fabrics Act, as amended (Pub. L. 83-88, 15 U.S.C. 1204). Functions under the Act, including administration of the National Advisory Committee, were transferred, effective May 14, 1973, to the Commission by section 30(b) of the Consumer Product Safety Act (15 U.S.C. 2079(b)).

The Commission consults with the National Advisory Committee for opinions, advice, and recommendations before prescribing flammability standards or other regulations under the Act.

The National Advisory Committee for the Flammable Fabrics Act is composed of 20 members, ten of whom are representatives of the consuming public and ten of whom are representatives of manufacturers and distributors. The Commission anticipates 15 vacancies in June 1975; ten (10) within the industry category and five (5) within the consumer category.

XUM V40-32 FEB 14 75 XUM

APPLICATION FORMAT

1. Advisory Committee(s) for which application is submitted:
2. Name:
3. Address:
4. Birthdate:
5. Description of present employment, including consulting work:
6. Description of extracurricular activities, including organizational affiliation, relating to (a) product safety, (b) poison prevention packaging, and/or (c) flammable fabrics.
7. Will you represent the views and interest of an organization, association, or group? Specify.
8. Applicants for the Product Safety Advisory Council:
(A) Is your present or past experience related to product safety? If so, give a brief description.
(B) Are you now, or have you been, involved in product safety activities at the Federal, State, or Local Government levels? If so, give a brief description.
9. Applicants for the Technical Advisory Committee on Poison Prevention Packaging:
(A) If a manufacturer or consultant, what type industry do you represent (manufacturer of household substances, packaging, closures, etc.)? Specify.
(B) If a scientist or medical practitioner, what area of specialty do you represent?
10. Applicants for the National Advisory Committee for the Flammable Fabrics Act:
(A) If a manufacturer or consultant, what type industry do you represent and what product do you manufacture?
(B) If a distributor, what type of distributors do you represent (wholesale, retail, single product, multiproducts, imported products, etc.)?
11. Interest Questions:
(A) Why are you interested in serving on the Committee(s)?
(B) What contribution can you make?
(C) Would you be able to attend approximately four two-day sessions annually?
(D) How frequently would you be available to comment in writing on material provided by the Consumer Product Safety Commission?

Applications should be submitted not later than April 18, 1975, to the Committee Management Officer, Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Dated: February 11, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.75-4188 Filed 2-13-75;8:45 am]

HAND GUN AMMUNITION

Solicitation of Written Public Comments

The Commission has received a petition requesting a ban on hand gun ammunition. The Committee for Hand Gun Control, Inc., of Chicago, Illinois, petitioned the Commission in June 1974, for a rule banning the sale of bullets for hand guns, with exceptions for police, licensed security guards; the military, and licensed pistol clubs. On September 5, 1974, the Commission denied the petition. In a judicial action which challenged the Commission's decision, the U.S. District Court for the District of Columbia ordered the Commission on December 19, 1974, to "* * * commence consideration of plaintiff's [the Committee's] proposal" (Committee for Hand Gun Control, Inc. v. Consumer Product Safety Commission, et al., Civil Action No. 74-1387). The Commission, therefore, seeks written public comment on the petition which reads as follows (with attachments omitted):

THE COMMITTEE FOR HAND GUN CONTROL, INC.
111 EAST WACKER DRIVE, CHICAGO, ILLINOIS 60601
JUNE, 1974.

MR. RICHARD O. SIMPSON,
Chairman, Bureau of Compliance, U.S. Consumer Product Safety Commission, 5401 Westbard Ave., Washington, D.C. 20207.

DEAR SIR: The Committee for Hand Gun Control, Inc., does hereby respectfully petition the Commission, pursuant to the provisions of Section 10 of the Consumer Product Safety Act, Pub. L. 92-573, as follows:

1. For the adoption of a rule banning the sale of bullets for hand guns. The rule would except such sales to (a) police, (b) licensed security guards, (c) the military, and (d) licensed pistol clubs.

The necessary facts pursuant to Section 10(b)(1) are attached hereto, and made a part hereof, as Exhibit I.

2. For a finding that said bullets referred to in (1) above are hazardous substances under the provision of the Hazardous Substances Act of 1960, enforcement of which Act was vested in the Commission by the Consumer Product Safety Act of 1972, section 30(a); and

3. For a finding that said bullets, as a aforesaid, are hazardous substances under section 8 of the Consumer Product Safety Act of 1972 in that they present an unreasonable risk of injury and no feasible standard would protect the public; and

4. For a hearing pursuant to section 27 of the Consumer Product Safety Act of 1972 in the City of Chicago for the presentation of evidence in support of this petition.

Respectfully submitted,

SUSAN R. SULLIVAN,
President.
PATRICIA B. KOLDYKE,
Treasurer.

Interested persons are invited to submit, on or before April 14, 1975, written comments regarding any aspect of the petition submitted by the Committee for Hand Gun Control, Inc. Comments and any accompanying data or material should be submitted, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, P.O. Box 8137, Washington, D.C. 20024. Comments may be accompanied by a memorandum or brief in support thereof. Received comments and other materials relevant to this petition, including the Court order cited above, may be seen in the Office of the Secretary, 10th Floor, 1750 K Street NW., Washington, D.C., during working hours Monday through Friday.

Dated: February 10, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENT

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality from February 3 through February 7, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (March 31, 1975.) The thirty (30) day period for each final statement begins on the day the statement is made available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, 202-447-3965.

FOREST SERVICE

Draft

Clear Creek Planning Unit, Gifford Pinchot National Forest, Skamania County, Wash., February 3: Proposed is a comprehensive management plan for the 76,520 acre Clear Creek Planning Unit of the Gifford Pinchot National Forest. The plan includes timber harvests, designation of roadless areas and scenic areas. Adverse impacts include the construction of roads necessary for timber harvests and effects from additional people in the area (124 pages). (ELR Order No. 50160.)

Final

Upper Fisher Planning Unit, Kootenai National Forest, Lincoln County, Mont., February 7: The statement refers to the implementation of a revised multiple use plan for the Upper Fisher Planning Unit, Libby and Fisher River Ranger Districts of Kootenai National Forest. Areas which are currently unroaded will be developed and the natural conditions of the Forest will be affected. Continued development activity will result in soil and vegetation disturbance and temporary noise and air pollution (168 pages). Comments made by: DOI, EPA, and State and local agencies. (ELR Order No. 50180.)

Eagle Creek Planning Unit, Mount Hood National Forest, Oreg., February 3: Proposed is the implementation of a comprehensive land use plan for the 75,260 acre Eagle Creek Planning Unit of the Mount Hood National Forest. The plan would result in a recommendation for a new wilderness study of 40,900 acres. Impacts of the plan would include the effects of an increased number of visitors, and the reduction of the annual allowable timber cut by 1,300,000 board feet. Comments made by: AHP, COE, DOI, HUD, DOT, EPA, FPC, and State and local agencies, organizations, and concerned citizens. (ELR Order No. 50173.)

SOIL CONSERVATION SERVICE

Draft

Upper Brushy Creek Watershed, Escambia County, Ala., February 3: The statement concerns a project for watershed protection flood prevention, and drainage in Escambia County, Ala. The plan proposes that over a period of 5 years, conservation land treatment methods be applied on 5,000 acres of cropland, 880 acres of pastureland and 3,055 acres of forest land; and 7.2 miles of channel work. Adverse impacts include direct loss of 75 acres of bottom land forest, increased depth of flooding below the channel work, and increased turbidity during construction. (ELR Order No. 50162.)

Little Black Watersheds, several counties in Missouri and Arkansas, February 7: The statement concerns two interrelated projects for watershed protection, flood prevention, drainage on agricultural land, and recreation for 40,254 acres in Butler, Carter, and Ripley Counties, Mo., and Clay County, Ark. Construction of the 24 floodwater retarding structures and the multiple-purpose reservoir will remove 1,192 acres of forest land, 334 acres of cropland, and 52 acres of pastureland. Proposed channel modification will result in the loss of 205 acres of cropland and 570 acres of forest land and the gain of 718 acres of pastureland (125 pages). (ELR Order No. 50181.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DARN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-7168.

Draft

Holland Harbor, Mitigation of Shore Damage, Ottawa County, February 3: Proposed is the mitigation of shore damage attributed to the Federal navigation structures in the vicinity of Holland Harbor, on Lake Michigan. The plan entails the creation of a "feeder beach" on the south side of the harbor. Approximately 170,000 cubic yards of dredged material will be required for initial establishment, and 61,000 cubic yards annually. The dredging and disposition of sand will cause benthos damage and associated detraction in the recreational and aesthetic qualities of the area (Detroit District). (ELR Order No. 50165.)

Farmers Union Grain Terminal, Scott County, Minn., February 3: The statement concerns application by the Farmers Union Grain Terminal Association for a permit to construct a barge slip adjacent to and in the Minnesota River at Savage, Minn. Approximately 100,000 cubic yards of material would be removed. In connection with the barge slip, a barge loading facility and grain elevator and service facility would also be constructed on 12.5 acres of the 55-acre site after the land has been elevated by fill. Construction of the proposed facility would adversely affect most of a 36-acre marsh and 2 acres of woodland (St. Paul District). (ELR Order No. 50163.)

Final

Duluth Superior Harbor, Minn. and Wis., February 7: Proposed is the continued maintenance dredging of Duluth-Superior Harbor with disposal of spoil in diked disposal areas. There will also be some breakwater repair. Ninety acres of shoreline and shallow water would be committed to the disposal sites; there would be adverse impact to marine biota (St. Paul District). Comments made by: USDA, DOC, DOI, USCG, EPA, and State agencies and organizations. (ELR Order No. 50183.)

Commercial Dredging at Ross Island, Oreg., February 4: The project involves the continuation and expansion of the commercial dredging for sand and gravel in the Ross Island area on the Willamette River. As part of the project, a second permit application proposes the installation of a closure across the northeast entrance to the Ross Island lagoon. Adverse impacts include the loss of 92 acres covered with trees and undergrowth. With this loss there will be corresponding loss of habitat for terrestrial animals. There would be temporary increases in the turbidity of the east channel caused by dredging and the construction of the closure structure (Portland District). Comments made by: EPA USDA, DOI, HUD, DOT, and HEW. (ELR Order No. 50168.)

Parker Creek, Maintenance Dredging, Virginia, February 7: The statement refers to the maintenance dredging of a channel 40' wide and 5' deep from the mouth of Parker Creek to the Metomkin Bay Channel. An expected 30,000 cubic yards of spoil will be dredged by hydraulic pipeline and placed on Metomkin Island. The major adverse environmental impact is the removal and subsequent loss of organisms at the dredging site and disposal area (43 pages). Comments made by: EPA, DOC, DOI, and State agencies. (ELR Order No. 50182.)

NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350, 202-697-0892.

Final

Uniformed Services Univ. of Health Sciences, Montgomery County, Md., February 3: The statement refers to the proposed development of the Uniformed Services University of the Health Sciences to be located on the grounds of the National Naval Medical Center, Bethesda, Md. The university will graduate a broad range of professional health care specialists including at least 100 physicians annually. Comments made by: COE, USDA, EPA, and State and local agencies. (ELR Order No. 50161.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202-755-0940.

Draft

Federal Water Pollution Control Act, 204(b)(1); February 4: The statement concerns a proposed bill which would amend section 204(b)(1) of the Federal Water Pollution Control Act, as amended, to permit construction grant applicants to utilize a system based upon ad valorem taxation for charging fees to users of the treatment works. The proposed amendment would slightly diminish incentive to encourage water conservation by domestic and low volume users, but would meet the purposes of the present statute in other respects and would avoid disruption of change from this method. (ELR Order No. 50169.)

Federal Water Pollution Control Act, 307(a); February 4: The statement concerns the bill that would amend subsection 307(a) of the Federal Water Pollution Control Act. The bill would amend 307(a) to allow the Administrator to approve the extension of the compliance deadline to the earliest date compliance is feasible, but not to exceed 3 years from the date of promulgation of the standard when there has been a demonstration that it is technologically infeasible to achieve compliance within one year from promulgation; and to repeal the time requirement that a public hearing be held within 30 days after the standard is proposed. The proposed amendment would sanction continued discharge by some sources for up to 2 additional years. (ELR Order No. 50170.)

Sacramento Regional Wastewater Management Program, Sacramento and Yolo Counties, Calif., February 4: Proposed is a regional wastewater program which would provide for a regionwide interceptor system to deliver raw wastes to a single advanced waste treatment plant located south of the city at the site of the existing county central treatment plant and a disposal system that transports treated effluent to the Sacramento River for discharge near Freeport via a multiport diffuser system. Construction disruption and increased use of energy in the process of conveyance, treatment, and disposal will result. (ELR Order No. 50171.)

Aliso Water Management Agency Project, Orange County, Calif., February 5: Proposed is the implementation of a local or regional wastewater treatment and disposal system to eliminate various systems and prevent future problems. The applicant is considering two alternatives: a regional system with central treatment and ocean disposal of most wastes and a regional disposal system with local treatment. Construction disruption and occasional objectionable odors will result. (ELR Order No. 50174.)

ENERGY RESOURCES DEVELOPMENT ADMINISTRATION

Contact: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, ERDA, Washington, D.C. 20545, 301-973-4241.

Draft

Tokamak Fusion Test Reactor Facilities, Middlesex County, N.J., February 4: The statement concerns the design and construction of the Tokamak Fusion Test Reactor (TFTR) fusion device, the TFTR experimental facility which houses this new Tokamak system and the support facilities required to implement the TFTR experiment program. The proposed location is on the Forrestal Campus of Princeton University where similar controlled nuclear fusion studies are being performed. Adverse impacts include release of trace quantities of radioactivity, limited icing or fogging from cooling towers and construction disruption. (ELR Order No. 50172).

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, 202-343-4161.

Final

Federal Youth Center, Memphis, Shelby County, Tenn., February 7: The proposed action calls for construction of a Federal Youth Center in Memphis, Shelby County, to be operated by the FBI. The Center will provide correctional treatment programs for Federal offenders from the Memphis and surrounding area. The Youth Center will contain a gross area of 165,000 sq. ft. in approximately 14 rectangular shaped buildings. There will be short-term inconveniences associated with normal construction activities. (100 pages). Comments made by: USDA, HEW, HUD, DOI, FPC, EPA, DOT, and one State agency. (ELR Order No. 50179.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Environmental Quality, Room 7206, 451 7th Street SW., Washington, D.C. 20410, 202-755-6295.

Draft

Dade County Neighborhood Development Program, Dade County, Fla., February 3: The statement concerns a Neighborhood Development Program currently in the fifth year of execution proposing urban renewal in eight areas of Dade County: Seminola, Edison, Park, Central NDP Area, Cocoanut Grove, South Miami Area, Perrine, Goulds, and the Model City Area. Relocation of families and individuals is largely accomplished. There

XUM
V40-32 FEB 14 75 F
XUM

will be construction disruption (8 volumes). (ELR Order No. 50167.)

In July, 1974, the Department of Housing and Urban Development's Chicago Area Office issued a draft Environmental Impact Statement for 815–821 Gunnison Street, Chicago, Illinois. CEQ received notice January 30, 1975, that HUD does not intend to proceed with the project.

DEPARTMENT OF INTERIOR

BUREAU OF LAND MANAGEMENT

Draft

Sigurd to Cedar City Power Transmission Line, several counties in Utah, February 6: proposed is the construction of a 230 kV transmission line from Utah Power and Light Company's Sigurd substation to Cedar City, Utah. Four alternative corridors, each over 100 miles long, are considered. Adverse impacts include electronic interference, right-of-way clearing, wildlife disturbance, weed infestations, and increased fire hazards (161 pages). (ELR Order No. 50178.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, P–722, NRC, Washington, D.C. 20545, 301–973–7373.

Draft

Jamesport Nuclear Power Station, Units 1 and 2, Suffolk County, February 5: Proposed is the issuance of permits to the Long Island Lighting Company for the construction of the Jamestown Nuclear Power Station, Units 1 and 2, located on Long Island Sound. The plant will employ two identical pressurized-water reactors to produce up to 3425 MWt each. Two steam turbine-generators will use this heat to provide 1150 MWe (net) of electrical power capacity from each turbine-generator. A design power level of 3579 MWt 1250 MWe net) for each unit is anticipated in the future. The waste heat will be rejected by a once-through flow of water obtained from and discharged to the Long Island Sound. The cooling system will kill fish and organisms. (ELR Order No. 50176.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, 202–426–4357.

Draft

Beltway 8-North, Subsection 1, Harris County, Tex., February 3: Proposed is the construction of an 8.5 mile segment of Beltway 8, North from Interstate Highway 45 to U.S. 59 as part of a planned 87.5 mile circumferential route around Metropolitan Houston. The project will provide a full controlled access facility with a minimum of 6 main lanes flanked by two, three-lane one-way continuous frontage roads. The project will displace 11 dwellings and 6 businesses and is expected to accelerate urban growth. (ELR Order No. 50164.)

FEDERAL HIGHWAY ADMINISTRATION

Final

Mountrail County Road, Mountrail County, N. Dak., February 5: The project consists of improving a Mountrail County road from White Earth South to U.S. Highway 2. The improvement involves grading to current standards and the placement of a bituminous surface. Adverse impacts are the use of 6.35 acres of 4(f) land. Of this 3 acres must be completely cleared of shrubs and trees. There will be a temporary rise in air pollution during construction. Comments made by: DOI, HUD, USDA, EPA, DOT, and State and local agencies. (ELR Order No. 50175.)

U.S. 278, Beaufort County, Beaufort County, S.C., February 3: The statement refers to the proposed construction of U.S. 278, beginning at South Carolina Route 46 and terminating 0.3 mile southeast of Skull Creek in Beaufort County, a distance of approximately 5.7 miles. Adverse impacts include temporary siltation and water turbidity, disruption of marshland, and 2 families. Comments made by: DOI, EPA, and State and local agencies. (ELR Order No. 50166.)

Loop 427, Williamson County, Tex., February 3: The statement refers to the extension of Loop 427 in Williamson County. The project begins at the Intersection of Loop 427 and Lake Drive and terminates at the intersection of Loop 427 and U.S. 79 in the city of Taylor. The project length is 5.6 miles. Adverse impacts include increased air, and water pollution due to construction, and the displacement of approximately 8 families and 3 businesses (89 pages). Comments made by: DOT, HEW, COE, USDA, DOI, EPA, and State and local agencies. (ELR Order No. 50150.)

U.S. COAST GUARD

Draft

New London Station, New London County, Conn., February 6: The Coast Guard is planning to develop approximately 24 acres of land just north of the existing Coast Guard Academy to house the Coast Guard Research and Development Center and the moorings and maintenance facilities for Station New London, as well as support facilities for those units and the Academy. Approximately 190,000 cubic yards of dredge material will be deposited at a dump site in Long Island Sound. Construction disruption and water turbidity will result from the project. (ELR Order No. 50177.)

Application for Emergency Exemption to Use DDT for Control of Tobacco Budworm on Cotton; Public Hearing

Correction

In FR Doc. 75–3895 appearing on page 6228 in the issue for Monday, February 10, 1975, in the last paragraph which begins, "The hearing in Washington, D.C., will be held in Room 305 • • •", should be changed to read, "The hearing in Washington, D.C., will be held in Room 3805 • • •".

[FRL 324–2]

MOTOR VEHICLE POLLUTION CONTROL SUSPENSION REQUEST

Extension of Public Hearing

On January 2, 1975, notice was published in the FEDERAL REGISTER (40 FR 21) of public hearings to be conducted by the Environmental Protection Agency under the authority of sections 202 (b) (5) (C) and 202(b) (4) of the Clean Air Act. These hearings were called to provide opportunity for interested persons to state their views or arguments or to provide pertinent information concerning both pending applications by automobile manufacturers for suspension of statutory 1977 light duty vehicle emission standards and any other topics which the Administrator might raise relating to his responsibility under section 202(b)(4) to report annually to the Congress on issues that arise in connection with the motor vehicle control provisions of the Clean Air Act.

The hearings commenced on January 21, 1975, and continued through February 7, 1975. During the course of the hearings a number of participants indicated their interest in presenting views and data on the public health significance of findings that emissions of sulfuric acid and other sulfate materials result from the use of oxidation catalyst emission control systems. In the interests of efficiency of the proceedings, and because the hearing panel then presiding was not constituted to fully explore such matters, participants were asked to defer discussion of such health impacts at that time. Nevertheless, the Administrator has determined that such views and data are relevant to the exercise of his statutory responsibilities under the Clean Air Act, and is extending the hearings to permit specific consideration of automotive sulfate emissions. This intention to extend the hearings for this purpose was announced by the Hearing Officer at the hearing on February 7, 1975.

The purpose of this notice is to provide further public notice of the extension of the previously announced hearings, to provide notification of the time and location of the continuation of the hearings, and to announce the reopening of the hearing record for submission of oral and written testimony on the specific subjects of this extension of the hearings.

Commencing at 10 a.m. on February 18, 1975, the hearing previously announced on January 2, 1975 (40 FR 21) will be continued at Room 3906, Environmental Protection Agency, Waterside Mall, 401 M Street SW., Washington, D.C. 20460 for purposes of receiving views, arguments, or other pertinent data regarding the following subjects:

(a) The increase in human exposure to sulfuric acid or other sulfate pollutants anticipated to result from continued use of automotive oxidation catalysts,

(b) The health effects associated with exposures to such levels of these pollutants, and

(c) The health trade-off between achieving reductions in automotive emissions of hydrocarbons, carbon monoxide, and possible other substances through application of oxidation catalyst emission control systems while incurring increased exposures to emissions of sulfate compounds or other emission products.

In addition to the above topics, testimony is sought on the feasibility of achieving interim reductions in automotive sulfate emission levels through the selective blending by refineries of low sulfur gasoline components into unleaded grades required by catalyst-equipped vehicles and the possible allocation of such

low sulfur unleaded gasoline supplies to geographical areas anticipated to experience the greatest impact from automotive sulfate emissions. Testimony on other aspects of possible automotive sulfate control measures has already been received in these hearings.

For purposes of this continuation of the hearing, the requirement included in the original announcement (40 FR 22) for advance written notice by persons desiring to make oral statements at the hearing will be waived. All interested persons are requested to provide notice, either written or oral, of their intention to participate to Office of Mobile Source Air Pollution Control (AW–455), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, telephone number 202–426–2464, Attention: Ms. Maureen White. The hearing panel will attempt to provide opportunity for oral testimony by all interested persons. However, in the event that requests to make oral presentations exceed the time available for continuation of the hearings, those persons unable to be accommodated for oral testimony will be invited to submit written statements for the record. The record will remain open for submission of written statements and information not presented orally at the hearing through February 26, 1975. All submissions for the record of this continuation of the hearing should be made to the address given above.

Other procedures identified in the previous notice will continue in effect except that testimony under oath is not anticipated for this continuation of the hearing.

Questions regarding this extension of the hearing should be addressed to the Office of Mobile Source Air Pollution Control at the address and telephone number set forth above.

Dated: February 12, 1975.

ROGER STRELOW,
Assistant Administrator for Air and Waste Management, U.S. Environmental Protection Agency.

[FRL 333–6; OPP–32000/188]

APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before April 15, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH–569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 15, 1975.

Dated: February 7, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

[Docket No. 73-38]

COUNCIL OF NORTH ATLANTIC SHIPPING ASSOCIATIONS, ET AL. v. AMERICAN MAIL LINES, LTD., ET AL.

Order on Submission of Environmental Memorandum

Hearing in this proceeding is scheduled to commence February 11, 1975. The Commission must provide an environmental analysis of subject matter and issue an Environmental Impact Statement as required by the National Environmental Policy Act of 1969 (NEPA). Under section 102(C) of said Act of the Commission is required to:

(C) Include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official on—

(i) The environmental impact of the proposed action,

(ii) Any adverse environmental effects which cannot be avoided should the proposal be implemented,

(iii) Alternatives to the proposed action,

(iv) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and

(v) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

The Commission believes that the nature of this proceeding renders any decision hereon a major Federal action significantly affecting the quality of the human environment. Consequently the broad scope of environmental factors involved warrant most careful consideration and evaluation before decision making is undertaken.

Therefore it is ordered, That to aid the Commission in its environmental evaluation, all parties shall submit memoranda to the Commission within 45 days which include their evaluations and positions regarding predictable environmental effects resulting from the eventual resolution of this proceeding. Parties shall consider all alternative decisions in this case and use the above cited section 102(C) of NEPA as a guide in preparing their environmental memoranda.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[Docket No. 72-48]

PACIFIC MARITIME ASSOCIATION

Cooperative Working Arrangements; Possible Violations of Sections 15, 16, and 17, Shipping Act, 1916

The Federal Maritime Commission instituted this proceeding to determine, inter alia, whether the master collective bargaining contract entered into by the Pacific Maritime Association (PMA) and the International Longshoremen's and Warehousemen's Union embody any agreements between and among members of PMA, which agreements are subject to section 15 of the Shipping Act, 1916; and whether there were any labor policy considerations which would operate to exempt such agreements or practices from section 15 of the Shipping Act, 1916. The Commission having this date made and entered its report stating its findings and conclusions with respect thereto, which report is made a part hereof by reference:

Therefore, it is ordered, That pursuant to section 22 of the Shipping Act, 1916 (46 U.S.C. 821), and consistent with the Commission's Order of September 6, 1972, as amended by its Orders of October 19, 1972 and January 30, 1974, the investigation in this docket shall proceed to determine:

1. Whether the "ILWU-PMA Nonmember Participation Agreement" (Revised Agreement), which is embodied in the ILWU-PMA master collective bargaining contract and which we have found to be subject to and must be filed in accordance with the requirements of section 15 of the Shipping Act, 1916 (46 U.S.C. 814), should be approved, disapproved, or modified pursuant to that section;

2. Whether the implementation by PMA and the ILWU of the provisions of the Revised Agreement and/or the master collective bargaining agreement will result in any practices which will subject any person, locality or description of traffic to undue or unreasonable prejudice or disadvantage in violation of section 16 of the Shipping Act, 1916 (46 U.S.C. 815);

3. Whether the implementation by PMA and ILWU of the provisions of the Revised Agreement and/or the master collective bargaining agreement will result in any practice which is unjust or unreasonable in violation of section 17 of the Shipping Act, 1916 (46 U.S.C. 816);

4. Whether any labor policy considerations would operate to exempt these agreements or practices resulting therefrom from any provision of section 16 or 17 of the Shipping Act, 1916; and

It is further ordered, That the Pacific Maritime Association and the International Longshoremen's and Warehousemen's Union, and their respective members are hereby made respondents in this proceeding; and

It is further ordered, That a public hearing be held before an Administrative Law Judge of the Commission's Office of

XUM
V40132
FEB 14 75
XUM

Administrative Law Judges at a date and place to be determined and announced by the Administrative Law Judge; and

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and that a copy thereof and notice of hearing be served upon petitioners and both the Pacific Maritime Association and the International Longshoremen's and Warehousemen's Union, individually, and on behalf of their respective members; and

It is further ordered, That notice of this order and notice of hearing be mailed directly to the Department of Justice, the Department of Labor and the National Labor Relations Board; and

It is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed to petitioners, the Pacific Maritime Association and the International Longshoremen's and Warehousemen's Union, individually, and on behalf of their members, and any other person made a party of record to this proceeding; and

It is further ordered, That any person other than those named herein who desires to become a party to this proceeding and to participate herein, shall file a petition to intervene in accordance with rule 5(l) (46 CFR § 502.72) of the Commission's rules of practice and procedure.

Finally, it is ordered, That Seattle's Petition for Severance hereby is denied.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

RELIANCE OVERSEAS CORP.

Independent Ocean Freight Forwarder License; Revocation

On January 31, 1975, the Federal Maritime Commission received notification that Reliance Overseas Corp., 17 Battery Place, New York 10004 wishes to voluntarily surrender its Independent Ocean Freight Forwarder License No. 440 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. (revised) section 7.04(f) (dated Sept. 15, 1973);

It is ordered, That Independent Ocean Freight Forwarder License No. 440 be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 440 of Reliance Overseas Corp. be and is hereby revoked effective January 31, 1975, without prejudice to reapply for a license in the future.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Reliance Overseas Corp.

CAMBRIDGE ELECTRIC LIGHT CO.

Further Extension of Procedural Dates

FEBRUARY 7, 1975.

On February 5, 1975, the Municipal Light Department of Belmont, Massachusetts filed a motion to extend the procedural dates fixed by order issued August 30, 1974, as most recently modified by notice issued January 10, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's Testimony, March 12, 1975.
Service of Company Rebuttal, April 3, 1975.
Hearing, April 24, 1975 (10 a.m. e.d.t.).

[Docket No. E-9255]

CLEVELAND ELECTRIC ILLUMINATING CO.

Proposed Changes in Rates and Charges

FEBRUARY 7, 1975.

Take notice that The Cleveland Electric Illuminating Co. (CEI), on January 31, 1975, tendered for filing proposed changes in its rates and charges to the City of Cleveland's Municipal Electric Light Plant (MELP) for 11 KV Load Transfer Service being provided pursuant to Ordering Paragraph (E) of the Federal Power Commission's Opinion No. 644 in Docket Nos. E-7631, E-7633 and E-7713. The proposed changes which CEI proposes to put into effect as of March 3, 1975, would increase revenues from jurisdiction sales and service by $303,752 for the month of March 1975.

CEI states that copies of the filing have been served upon the City of Cleveland's MELP.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket Nos. CP71-68, *et al.*]

COLUMBIA LNG CORP., ET AL.

Declaratory Order Reaffirming and Clarifying Opinion Nos. 622 and 622-A

FEBRUARY 7, 1975.

On December 19, 1974, Fairfax County, Virginia (Petitioner) filed a petition for declaratory order affirming and clarifying ordering paragraph F(3) of the Commission's Opinion No. 622, issued June 28, 1972, in these proceedings. Opinion No. 622, as amended by Opinion No. 622-A, issued October 5, 1972,[1] granted authorization to Columbia LNG Corp. (Columbia LNG), Consolidated System LNG Co. (Consolidated) and

[1] Further modifications and clarifications of Opinion No. 622, were directed by our Order Upon Motion for Clarification, issued November 17, 1972; Order on Motion for Waiver, issued December 5, 1972; and Findings and Order after Statutory Hearing Amending Opinions No. 622 and No. 622-A, issued March 30, 1973. None of these three supplemental orders concerned the issue addressed by Fairfax County in its Petition.

Southern Energy Co. (Southern), pursuant to Section 3 of the Natural Gas Act (Act) to import liquefied natural gas (LNG) from Algeria to terminal facilities located at Cove Point, Maryland and Savannah, Georgia. Opinion No. 622 also issued certificates of public convenience and necessity pursuant to section 7 of the Act, to the above listed importers to sell such gas for resale in interstate commerce, and to construct and operate all necessary pipeline and other facilities related thereto. Furthermore, the Commission ordered in Opinion No. 622 that the facilities therein authorized be constructed and placed in operation with the sale and delivery of natural gas to commence on or before December 31, 1975.

On January 7, 1975, the Commission issued a Notice of Petition for Declaratory Order and set January 20, 1975, as the final date for the submission of all responses. On January 21, 1975, the National Wildlife Federation (Federation) filed a request for extension of time to file a petition to intervene one day late and a petition for leave to intervene. Neither Petitioner Fairfax County nor The Federation previously had been parties to the proceedings at this docket in the Commission.

Petitioner Fairfax County requests that the Commission reaffirm the conditions imposed by paragraph F(3) of Opinion No. 622 requiring the importers to obtain all necessary federal, state, and local authorization,[2] and "clarify its intent with respect to the exercise of jurisdiction by affected state and local authorities * * *" Petitioner argues that since the natural gas pipeline certificated by Opinion No. 622 will pass through Fairfax, County, the Fairfax County Board of Supervisors and the Fairfax County Planning Commission which are vested pursuant to Section 15 of the Code of Virginia, as amended, with comprehensive planning authority for Fairfax County must approve the proposed pipeline. Petitioner contends that such approval is one of the local "authorizations" upon which the certificates issued by Opinion No. 622 are conditioned. Finally, petitioner states that the Fairfax County Board of Zoning Appeals, pursuant to section 15.1-496 of the Code of Virginia, as amended, has the jurisdiction to issue or deny a special permit necessary for the routing and construction of facilities through the County, and that such a special permit is also a necessary "authorization.

In May of 1974, Columbia LNG filed applications for the necessary Fairfax County authorizations. Petitioner states that evaluation of such applications by the local regulatory bodies is currently in progress. On December 6, 1974, Columbia LNG filed suit in the United States District Court for the Eastern District of Virginia requesting that Court enjoin Fairfax County from any further exercise of jurisdiction over or otherwise interfering with the construction and operation of the pipeline facilities authorized by the Commission in Opinion Nos. 622 and 622-A, or alternatively, that the Court order Fairfax County to forthwith issue the appropriate permits for the construction and operation of the pipeline in Fairfax County. In support of the relief requested, Columbia LNG alleged that Fairfax County is in contravention of the power and jurisdiction of the Federal Power Commission, since the specific route of the pipeline was authorized and certificated by the Commission in Opinion No. 622.

Petitioner Fairfax County alleges that by such action, Columbia LNG has challenged the clear language of Opinion Nos. 622 and 622-A, and in effect has contended "that the conditional authorization granted in Opinion Nos. 622 and 622-A are in fact unconditional." (Petition p. 4). Petitioner states that it has undertaken its thorough analysis of the pipeline route "on the assumption that the certificate granted to Columbia anticipated that just such a responsible review would be taken by affected state and local regulatory bodies. (Petition p. 5). For this reason, Petitioner requests the Commission issue a declaratory order reaffirming and clarifying Opinion Nos. 622 and 622-A.

On January 17, 1975, Columbia LNG filed an "Answer in Opposition" to Fairfax County's petition. Urging expedition, Columbia LNG argues that the petition should be denied because, (1) Opinion No. 622 is clear, final, and unambiguous, (2) Fairfax County's petition is untimely, and (3) the petition misstates the facts and attempts to interject irrelevant considerations into issue.

Fairfax County's petition does not, as Columbia LNG alleges, seek to relitigate the issues thoroughly explored in the proceedings leading to Opinion No. 622. Petitioner requests that the Commission reaffirm its Opinion Nos. 622 and 622-A. We herein shall reaffirm Our Opinion Nos. 622 and 622-A for as Columbia points out in its answer, the certificates issued in those opinions are final. We do not intend to alter that finality in any way, but solely to reaffirm our findings and the ultimate determination therein, for the purpose of clarification as requested by Fairfax County. The Commission's Opinion No. 622 approved the Columbia LNG project including the pipeline route through Fairfax County as proposed by Columbia LNG and determined that with concern to the environment the public interest on balance would be more beneficially served by the project. Our decision herein in no way changes these holdings.

We believe the conditions imposed by Opinion Nos. 622 and 622-A, specifically ordering paragraph F(3), speak clearly for themselves. As petitioner Fairfax County notes, the effectiveness of the authorizations granted are therein conditioned upon the obtaining of all other necessary permits, Federal, state, and local. Columbia LNG is obliged to submit a copy of such permit to the Commission prior to commencement of service. This Commission is not empowered to determine which local jurisdictions can impose additional requirements. It is clear, however, that localities can require permits, so long as the local action is consistent with, and does not encumber or conflict with, Federal regulation such as ours. In this regard, we believe the *Transcontinental Gas Pipeline Company* v. *Hackensack Meadowlands Development Commission* case[4], cited in Columbia LNG's answer, merits important consideration on the matter raised by Fairfax County. The Court of Appeals for the Third Circuit therein held that the Hackensack Meadowlands Development Commission's refusal to issue a permit for the construction of a natural gas plant certificated by the Federal Power Commission constituted an arbitrary and unwarranted imposition upon interstate commerce. The court noted in pertinent part that:

> It is well established that the interstate transmission and sale of natural gas is within the regulatory ambit of the Commerce clause of the Constitution. Although the states are not precluded from imposing reasonable restraints and restriction on interstate commerce, and although the authority to enact zoning ordinances under the state police power is clear, it is equally settled that a state may not exercise that police power where the necessary effect would be to place a substantial burden on interstate commerce. 464 F. 1362 (Citations omitted).

It is therefore well settled that, while states and localities may require their own permits, such restraints must be "reasonable", so as not to place a burden on interstate commerce by interfering with Federal regulatory jurisdiction. Thus, while we reaffirm our condition that Columbia LNG obtain all necessary permits, and do not contest Fairfax County's authority to require permits, such local action must not be inconsistent with the Commerce clause of the Constitution and our jurisdiction. We herein merely reaffirm our Opinion Nos. 622 and 622-A, and the conditions imposed thereby. For the above stated reasons,

The Commission further finds: Participation by the National Wildlife Federation in this proceeding may be in the public interest.

The Commission orders (A) As requested by Fairfax County's Petition filed December 19, 1974, Opinion Nos. 622 and

[2] Ordering paragraph F(3) provides that: "The authorizations granted herein shall not take effect as to any part of any facility, or operation of any part of any facility, until all necessary federal, state and local authorizations as to that part of the facility, or operation thereof, have been secured. A copy of each such authorization for each facility, or part thereof, shall be submitted to the Commission prior to the commencement of service of such facility or part thereof. Such authorizations shall include, but are not limited to, building permits, Coast Guard clearances of vessels and harbor operations, and statements of compliance with applicable industry codes or regulatory codes governing the design, construction and operation of facilities in a safe manner."

[3] Petition, p. 6.

[4] 464 F. 2d 1358 (3rd Cir. 1972).

XUM V40-32 FEB 14 75 XUM

622–A, and specifically the conditions imposed by paragraph F(3), are hereby reaffirmed in their entirety as final, as explained and clarified above.

(B) The National Wildlife Federation is permitted to intervene in this proceeding subject to the rules and regulations of the Commission; Provided, however, that participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and Provided, further, that the admission of such intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-4144 Filed 2-13-75;8:45 am]

[Docket No. RP75-53]

FLORIDA GAS TRANSMISSION CO.

Order Accepting for Filing and Suspending Proposed Rate Increase

FEBRUARY 7, 1975.

On January 10, 1975, Florida Gas Transmission Co. (Florida) tendered for filing in the above docket certain revised sheets to its FPC Gas Tariff.[1] The revised sheets, which are proposed to become effective on February 10, 1975, provide for an increase in Florida's rates for jurisdictional gas sales and services amounting to $5,508,271 annually, based on the 12 months ended September 30, 1974, as adjusted.

In support of its proposed rate increase, Florida cites a claimed need for higher rates for depreciation and rate of return, reduced gas supplies, increased labor costs and other operating expenses, and an advance payment of $20 million to made to acquire the right to purchase new gas supplies. Florida requests an increase in its depreciation rate from 3.5 to 4.5 percent, and seeks a return on its net investment rate base of 10.25 percent, yielding a return of 14.46 percent on common equity.

Notice of Florida's proposed rate increase was issued on January 16, 1975, providing for protests on petitions to intervene to be filed on or before February 3, 1975. As of January 27, 1975, petitions to intervene had been received from Florida Power Corporation and Florida Public Utilities Co. These petitions will be granted. Any other petitions to intervene which may be filed will be acted on by separate order.

Our review of Florida's filing indicates that the issues raised therein should be developed in and by means of an evidentiary hearing. The proposed increase in rates and charges has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. We shall therefore accept Florida's revised tariff sheets for filing, suspend the proposed increase in rates for the maximum statutory period of five months, and set the matter for hearing.

We note that in the instant filing, Florida has used the *Atlantic Seaboard* method of cost classification for purposes of allocating costs between jurisdictional and non-jurisdictional customers. Florida's rate design is based upon the procedure adopted by the Commission in *United Gas Pipeline Co.*, Opinion No. 671. Under this method, 75 percent of fixed costs are allocated on a commodity or volume basis, and 25 percent on a demand basis.

In Opinion 671 we expressed our concern over the worsening gas supply situation and particularly as it existed on United's system. Based upon the record in that case we concluded that more weight would be given to the annual use of United's pipeline system than would result under *Atlantic Seaboard*. Therefore, we assigned 75 percent of fixed costs to the commodity component of United's two-part rates and to its straight-line rates. Part of our rationale was that in view of the gas supply shortage, low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed.

In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on the Florida system, all parties to this proceeding should direct their attention, and any evidence they wish to submit, to the propriety of the continued use of the *Atlantic Seaboard* method of cost classification and allocation, as well as to the propriety of Florida's rate design proposed herein. Further, we urge all parties to suggest alternative methods of cost classification, allocation and rate design which they believe may more closely reflect or implement the Commission's policy objectives in this area.[2]

As previously noted, Florida's request for increased rates is based in part upon the premise of declining gas supplies. The present gas shortage in this country, to which this Commission has often called attention, is a problem which is shared by most if not all major interstate transmission pipelines in varying degrees of magnitude. The effect upon the risk of capital invested in gas pipeline operations resulting from inadequate and declining gas supplies, as well as the uncertainties and contingencies inherent in possible supplemental sources of supply, are of direct and primary concern to us. It also seems clear that the gas shortage may result in situations in which the useful or economic life of gas pipeline facilities may be substantially less than their physical life. Accordingly, we request that the evidence in this proceeding, including that to be filed by our staff, give full and careful consideration to these factors in the development of recommendations on the issues of rate of return and depreciation so as to enable this Commission to formulate sound regulatory policies in these areas.

The Commission finds: It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges proposed herein by Florida Gas Transmission Company, and that such rates and charges be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 15 thereof, and the Commission's rules and regulations, a public hearing shall be held commencing on July 8, 1975, in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in Florida's FPC Gas Tariff, as proposed to be amended herein.

(B) Pending hearing and a decision thereon, Florida's proposed revised tariff sheets are hereby suspended for five months and the use thereof deferred until July 10, 1975.

(C) On or before May 9, 1975, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any and all intervenors shall be served on or before June 10, 1975. Any rebuttal evidence by Florida shall be served on or before July 1, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR § 3.5(d)) shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Natural Gas Act, the Commission's Rules and Regulations, and the terms of this order.

(E) The above-named petitioners are hereby permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Docket No. E-9236]

KANSAS POWER AND LIGHT CO.

Proposed Changes in Rates and Charges

FEBRUARY 7, 1975.

Take notice that on January 29, 1975, the Kansas Power and Light Co. (Kansas) tendered for filing a newly executed renewal contract dated January 7, 1975, with the City of Goff, Kansas for wholesale electric service to that community. Kansas states that this is a renewal of a similar contract dated December 2, 1964, and designated KPL Rate Schedule FPC No. 77. The proposed effective date is February 1, 1975, and Kansas requests that the Commission waive the notice requirements as allowed in section 35.11 of its regulations. According to Kansas, the net billing for the twelve months succeeding the proposed change in agreements was $10,038.40. In addition, Kansas states that copies of the contract have been mailed to the City of Goff and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RP74-26; PGA75-1]

LOUISIANA-NEVADA TRANSIT COMPANY

Filing of Tariff Sheets

FEBRUARY 7, 1975.

Take notice that on January 29, 1975, Louisiana-Nevada Transit Company (LNT) tendered for filing Substitute Second Revised Sheet No. PGA-1. LNT states that this sheet is being filed as a replacement for its Second Revised Sheet No. PGA-1 filed January 13, 1975, due to the discovery of certain errors in the computation of the rate contained in the replaced sheet. According to LNT, this filing reflects a purchased gas cost adjustment of 2.61¢/Mcf as compared to the 2.79¢/Mcf adjustment reflected in the January 13, 1975 filing. LNT requests a March 1, 1975 effective date for this filing and states that copies of the filing have been mailed to the City of DeQueen, Arkansas, and the Public Service Commission of Arkansas.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

ORANGE AND ROCKLAND UTILITIES, INC.; ROCKLAND ELECTRIC CO.

Order Granting Leave To File Late Answer, Permitting Interventions, Consolidation of Proceedings, and Refusing To Compel Submission of Additional Data

FEBRUARY 7, 1975.

On September 11, 1974, the Commission issued notice in Docket No. E-9000 that, on August 30, 1974, Orange and Rockland Utilities, Inc. ("Orange & Rockland") tendered for filing a new power contract between Orange & Rockland and Rockland Electric Co. ("REC"), its wholly-owned subsidiary. In its application Orange & Rockland asserts that the only changes effected by the new contract over the existing contract are a new method of determining rate of return and minor modifications to working capital, the amended contract representing an increase in revenues of $484,179, based on the year ending October 31, 1974.

By order of September 27, 1974, the Commission accepted the proposed rate increases for filing, suspended said filings for one day, the use thereof deferred until November 2, 1974, subject to refund, ordered consolidation of proceedings in Docket Nos. E-9000 and E-8999,[1] and set the matter for hearing on March 25, 1975.

On September 10, 1974, the Commission issued notice in Docket No. E-9001 that, on August 30, 1974, REC had filed with the Commission a set of proposed changes in its rates and charges for wholesale service to the Borough of Park Ridge, New Jersey. The proposed changes include an increase in fixed rates and a fuel adjustment clause, adding $486,107 to REC's total revenues.

Petitions to intervene in the latter proceeding were timely filed by The Board of Public Works in the Borough of Park Ridge ("Park Ridge") and by the Public Advocate of the State of New Jersey ("Public Advocate"). By its order of September 27, 1974, the Commission accepted the proposed rate changes for filing, suspending them for 45 days, until November 15, 1974, subject to refund, permitted the interventions of Park Ridge and Public Advocate, and set the matter for hearing. The hearing is scheduled for March 18, 1975.

On December 6, 1974, the Commission received from Park Ridge a petition to intervene out of time in Docket No. E-9000 and to consolidate Docket No. E-9001 with Docket No. E-9000. REC filed a memorandum in opposition to Park Ridge's petition on December 16, 1974. Staff filed a later answer to Park Ridge's petition for consolidation on January 9, 1975, supporting the proposed consolidation of Docket No. E-9001 with Docket No. E-9000.

On December 20, 1974, Public Advocate petitioned for late intervention into Docket No. E-9000.

Finally, Park Ridge filed a motion in Docket No. E-9001 on December 30, 1974, requesting the Commission to compel REC to produce certain data to supplement data already submitted in accordance with § 35.13(d)(1) of the regulations of the Commission. In response, REC states that it is unable to provide said data and that therefore no compulsory order should issue.

We will give individual consideration to each of the issues raised above.

Park Ridge operates and maintains a utility supplying electricity for public use to a population of some 9,300 people within the Borough of Park Ridge. Its

[1] Docket No. E-8999 involves similar changes in the contract between Orange & Rockland and Pike County Light and Power Company ("Pike") another wholly-owned subsidiary of Orange and Rockland. The consolidated Docket Nos. E-9000 and E-8999 are hereinafter referred to as "Docket No. E-9000."

XUM
V40-32 FEB 14 75 XUM

sole source of power is REC, from whom it purchases at wholesale pursuant to contract. As a customer of REC, Park Ridge claims that its interests stand to be directly affected by action which would permit an increase in the rates charged REC by Orange and Rockland. Public Advocate claims to be interested in the Docket No. E-9000 proceeding in that he is charged by state law with protecting the public interest of citizens of the State of New Jersey in any proceeding before a governmental agency regarding fixing of rates for products or services. Both Park Ridge and Public Advocate claim that their respective interests will not be adequately represented by any existing party to the Docket No. E-9000 proceeding and that they may be bound by the Commission's action therein.

Park Ridge alleges that consolidation of proceedings in Docket Nos. E-9000 and E-9001 is warranted because the proposed rate increases therein raise common issues of law and fact. Staff concurs.

It is apparent from the filings in Docket No. E-9001 that Park Ridge's electric rates stand to be significantly affected by the proposed fuel adjustment clause in the REC tariff. Said fuel adjustment clause relates rate increases to be charged to Park Ridge to increases in the cost of fossil fuel to Orange & Rockland. Orange & Rockland's fossil fuel costs will be considered in the Docket No. E-9000 proceeding.

We are of the opinion that the nexus between Park Ridge and Orange & Rockland vis-a-vis REC's proposed fuel adjustment clause warrants consolidation of the proceedings in Docket Nos. E-9000 and E-9001. Said consolidation will permit a more expeditious resolution of issues presented in the aforementioned dockets, and will result in substantial savings of time for the parties involved.

In our order of October 25, 1974, we waived that portion of § 35.13(b)(1) of our regulations requiring a comparison of sales and revenues under the present and proposed rate schedules for the 12 months succeeding the date REC's proposed rate schedule was to become effective. Our waiver was based on REC's good faith declaration that it anticipated no economy energy purchases by Orange & Rockland during the next 12 months.

Because Orange & Rockland has in fact made such purchases in the months of November and December, 1974, Park Ridge requests that we modify our October 25, 1974, order and require of REC the data specified in § 35.13(b)(1) of our regulations. To this request REC responds by asserting that said economy energy purchases were unforeseen prior to the times when they were made. REC further states that its present forecast includes no further economy energy purchases, adding the qualification that such purchases may occur, however, "when available and when they are of benefit to Rockland Electric's customers." REC concludes that it cannot provide data regarding future economy energy purchases, and that, therefore, the Commission should refuse to modify the waiver contained in its order of October 25, 1974.

Having reviewed the positions of the parties, we are unpersuaded to modify our order of October 25, 1974. Accordingly, Park Ridge's motion to compel REC to submit additional data will be denied.

The Commission finds: (1) It is desirable and in the public interest to allow Park Ridge and Public Advocate to intervene out of time in the consolidated Docket Nos. E-8999, E-9000 proceeding.

(2) Good cause has been shown to warrant consolidation of proceedings in Docket Nos. E-8999, E-9000 and Docket No. E-9001.

(3) Good cause has not been shown to warrant compelling REC to submit the additional data requested by Park Ridge.

The Commission orders: (A) Leave is granted the Commission Staff to file a late answer to Park Ridge's petition for consolidation, and said late answer is accepted by the Commission.

(B) Park Ridge and Public Advocate are permitted to intervene in the Docket Nos. E-8999 and E-9000 proceeding, subject to the rules and regulations of the Commission: *Provided however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their respective petitions to intervene: *Provided further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders issued by the Commission in the Docket Nos. E-8999, E-9000 proceeding.

(C) The proceedings in Docket Nos. E-8999, E-9000, and E-9001 are hereby consolidated, and will adhere to the procedural dates established for Docket Nos. E-8999, E-9000 by our notice issued February 3, 1975.

(D) Park Ridge's motion to compel submission of additional data by REC is hereby denied.

By the Commission.

[Docket No. E-9240]

OTTER TAIL POWER CO.

Filing of Wheeling Electric Rate Schedule

FEBRUARY 7, 1975.

Take notice that on January 29, 1975, the Otter Tail Power Co. (Company) tendered for filing a Wheeling (Transmission) Electric Rate Schedule. The rate schedule is for firm wheeling (transmission) service to the cities of Alexandria and Tyler, Minnesota. The Company states that it is currently serving the cities on a month-to-month basis under the terms of FPC Schedule No. 125 (Alexandria) and FPC Schedule No. 116 (Tyler). The Company states that both contracts are for "excess capacity" transmission service and that both have expired. The Company states that the current filing is a new schedule rather than a rate increase under the old contract.

A copy of the filing has been sent to the Cities. The proposed effective date is April 1, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-8514]

SOUTHERN SERVICES, INC.

Further Extension of Procedural Dates

FEBRUARY 7, 1975.

On January 24, 1975, the Power Section of the Georgia Municipal Association and the Cities of Acworth, *et al.* and the Water, Light and Sinking Fund Commission of the City of Dalton, Georgia jointly filed a motion to extend the procedural dates fixed by order issued May 8, 1974, as most recently modified by notice issued December 17, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of intervenor's testimony, March 3, 1975.
Service of staff's testimony, March 24, 1975.
Service of company rebuttal, April 1, 1975.
Hearing, April 15, 1975 (10 a.m. e.d.t.).

By direction of the Commission.

[Docket No. RP75-52]

STATE OF NORTH CAROLINA AND NORTH CAROLINA UTILITIES COMMISSION VS TRANSCONTINENTAL GAS PIPE LINE CORP., RESPONDENT

Extension of Time

FEBRUARY 7, 1975.

On February 6, 1975, the State of North Carolina and North Carolina Utilities Commission filed a motion for an extension of the procedural dates set by the order issued on January 31, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above-designated matter are extended as follows:

Evidence to be filed by parties seeking a modification in the interim plan, March 10, 1975.
Rebuttal testimony and exhibits to be filed, March 24, 1975.
Hearing to commence, March 31, 1975 (10 a.m., e.d.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-4153 Filed 2-13-75;8:45 am]

[Docket No. CI75-466]

TENNECO OIL CO., TENNESSEE GAS PIPELINE CO.

Order To Show Cause and Prescribing Procedures

FEBRUARY 7, 1975.

On July 29, 1974, Tennessee Gas Pipeline Company (Tennessee) filed in Docket No. CP75-23 an application seeking authorization to continue a transportation service it has been rendering for its affiliate, Tenneco Oil Co. (Tenneco), since 1964. The service involves transportation of gas received from Tenneco at various points in onshore and offshore Louisiana[1] to a point of delivery at the tailgate of the Ysclosky processing plant, St. Bernard Parish, Louisiana. Tennessee delivers 15,000 Mcf per day to Creole Gas Pipeline Company (Creole) for the account of Tenneco. Creole transports and resells such gas to Air Products and Chemicals, Inc. (Air Products) for use in Air Products' plant in Orleans Parish, Louisiana, as feedstock process gas and boiler fuel. Tennessee also proposes to add two new points of receipt of gas from Tenneco: The Terreborne Land Development, *et al.*, Well No. 1, Terreborne Parish, Louisiana; and Vermilion Block 246, offshore Louisiana.[2]

Tenneco has filed, in Docket No. CI75-45, for the sale to Creole of the volumes transported by Tennessee. By letter dated January 13, 1975, the Commission staff requested Creole to file an interdependent application in accordance with § 157.14 of the Commission's rules and regulations under the Natural Gas Act.

As of August 31, 1974, an imbalance of 12,552,438 Mcf of gas existed under the subject transportation arrangement, representing deficiencies in volumes which Tennessee delivered to Creole for Tenneco's account but did not actually receive from Tenneco. The parties have amended the transportation contract to provide for repayment of the deficient volumes, and have agreed that if, as of January 1, 1977, Tenneco has not eliminated the imbalance, Tennessee will reduce its deliveries for the account of Tenneco by a maximum of 20 percent per month until the deficit is eliminated.

Tennessee made further application jointly with Tenneco on October 16, 1974, in Docket No. CP75-120, for the exchange and transportation of natural gas to permit Tenneco to utilize its gas as fuel for the production of gasoline, diesel and fuel oils, and kerosenes, at its Chalmette, Louisiana refinery. Under the exchange, Tenneco will tender volumes of gas (unspecified as to amount) to Tennessee at the existing points of delivery utilized in the transportation agreement involved in Docket No. CP75-23, and at three additional points in Texas.[3] The volumes received by Tennessee in Texas will be exchanged for equivalent volumes at the existing Lake Barre, Louisiana delivery point, and Tennessee will then transport all of Tenneco's gas tendered under this agreement to the Ysclosky plant, St. Bernard Parish, Louisiana, and deliver such volumes to Creole for the account of Tenneco. Creole will transport the gas to Tenneco's Chalmette refinery.

The Commission, by order dated December 24, 1974,[4] instituted an investigation in Docket No. RP75-45 of the circumstances for Tennessee's increased curtailment in excess of 17 percent, beyond the Form 16 projection of six percent. Tennessee was also ordered to show the causes for the increased curtailment. At the proceedings convened on January 7, 1975, witness Donald G. Weikman, Tennessee Vice President in charge of sales, showed in Exhibit No. 1 that Tennessee's current system curtailment was 17.20 percent. Witness John L. Moye, Director of Planning for Tennessee indicated, in his Exhibit No. 8, that withdrawals from storage had reduced month end storage inventory from 25.3 Bcf in September of 1974 to 14.4 Bcf in November of 1974. Mr. Moye stated that storage inventory dropped to 4.0 Bcf at the end of December 1974 (Tr. 5/767) and projected that it would further drop to 1.1 Bcf at the end of January 1975 (Tr. 5/768). The projected negative storage situation is confirmed by Joseph L. Parrish, Jr., President of Tennessee (Tr. 947-948).

Based upon Tennessee's firm curtailments of 13,791,99 Mcf for December 1974 as reported in Form 17, the more than doubling of actual curtailments above the projected level of 6 percent in Form 16, the projected negative storage field top gas inventory as reported by Tennessee in Docket No. RP75-45, the rapid drop in storage inventory as indicated by Tennessee's witnesses in Docket No. CP75-45, and the imbalance of 12,552,438 Mcf in Tenneco's account with Tennessee relating to deliveries made by Tennessee for Tenneco's account, the Commission finds that an emergency exists on the Tennessee system which compels us to require Tenneco and Tennessee to show cause why Tenneco should not immediately repay the 12,552,438 Mcf imbalance existing under subject application in Docket No. CP75-23.

Furthermore, in view of the aforesaid emergency situation of Tennessee, the Commission will direct that Tennessee shall, balance receipts and deliveries of transportation gas from Tenneco on a daily basis subject to future orders.

The Commission further finds: That good cause exists for, and the public interest in administering sections 7, 14, 15 and 16 of the Natural Gas Act demands, that Tenneco Oil Company and Tennessee Gas Pipeline Company, A Division of Tenneco, Inc., show why the above described volumes owed by Tenneco to Tennessee should not be repaid immediately to remedy the severe and increasing curtailment situation.

The Commission orders: (A) That Tenneco Oil Co. and Tennessee Gas Pipeline Co., A Division of Tenneco, Inc., show cause why the above described volumes owed by Tenneco to Tennessee should not be repaid immediately.

(B) That Tennessee Gas Pipeline Company shall balance receipts and deliveries of transportation gas from Tenneco Oil Company on a daily basis.

(C) Tenneco and Tennesee are hereby ordered to file testimony and documentary evidence on February 14, 1975 as to why Tenneco should not repay immediately the above-described volumes owed to Tennessee. Such evidence should include, inter alia, a flow diagram of Tennessee's entire system showing all points of receipt and delivery from and to Tenneco and volumes of gas received or delivered from and to Tenneco or for its account.

(D) A formal hearing shall be convened in this proceeding in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. on February 25, 1975, at 10 a.m. (e.s.t.). The Chief Administrative Law Judge will designate an appropriate officer of the Commission to preside at the formal hearing on these matters, pursuant to the Commission's Rules of Practice and Procedure.

By the Commission.

[Docket Nos. RP74-91-15, et al.; RP75-41-2]

TENNESSEE GAS PIPELINE CO.

Order Amending and Clarifying Previous Order and Granting Interim Relief

FEBRUARY 7, 1975.

By order issued January 17, 1975,[1] we, inter alia, consolidated requests for relief from Tennessee Gas Pipeline Company's (Tennessee) and East Tennessee Natural Gas Company) East Tennessee) curtailment plans and denied requests for interim relief filed by Colonial Natural Gas Company (Colonial) on behalf of four of its customers, Hercules Incorporated, Harvey Hubbell Incorporated, Federal Mogul Corporation and Corning Glass Works. On January 24, 1975, Colonial filed a supplment to its request for interim relief and set forth therein additional information concerning the requirements of those four customer companies.

The supplemental request details the uses of the requested relief gas as it pertains to the subject four companies. It further shows the conservation and conversion efforts taken by those companies to reduce their gas requirements. The supplemental request justifies relief pendente lite to the four companies in the following amounts:

Customer	Daily volume in Mcf
Hercules Inc	255
Harvey Hubbell	50
Corning Glass Works	500
Federal Mogul Corp	100
Total	905

The relief granted herein is justified on the conditions granted in the January 17th order including, but not limited to, the 30-day period established in Ordering Paragraph (I) of that order. Accordingly, the relief granted herein will terminate February 17, 1975.

On January 24, 1975, East Tennessee filed a request seeking clarification of our January 17th order. East Tennessee asks whether our order was intended to require Tennessee to supply it with the 1500 Mcf per day interim relief granted for its customers, Natural Gas Utility District of Hawkins County, Tennessee (Hawkins). It was our intent, although not explicitly stated, to require Tennessee to supply East Tennessee the 1500 Mcf per day relief volumes to be distributed to Hawkins.

The Commission finds: Good cause exists to amend and clarify our order of January 17, 1975, in this consolidated proceeding as hereinafter ordered.

The Commission orders: (A) Ordering Paragraph (H) of order of January 17, 1975, is hereby amended to include therein the following additional relief volumes to be delivered by Tennessee to East Tennessee for redelivery to Colonial for service to Colonfal's customers pendente lite as follows:

Customer	Daily Volume in Mcf
Hercules Inc	255
Harvey Hubbell	50
Corning Glass Works	500
Federal Mogul Corp	100

The above relief *pendente lite* is in addition to the relief granted in Ordering Paragraph (H) of our order of January 17, 1975.

(B) Our order of January 17, 1975, is hereby clarified to reflect our intent to require Tennessee to deliver to East Tennessee a volume equivalnt to 9,089 Mcf per day for redelivery by East Tennessee, 1,500 Mcf of which is attributable to the interim relief granted to Hawkins.

(C) In all other respects, our orders of January 17, 1975, and of January 24, 1975, issued in this consolidated proceeding, shall remain in full force and effect.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-4155 Filed 2-13-75;8:45 am]

[Docket Nos. RP74-20; RP74-83]

UNITED GAS PIPE LINE CO.

Conference

FEBRUARY 7, 1975.

Take notice that on Tuesday, February 25, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m., in Room No. 5200 at the offices of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of United Gas Pipe Line Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-4156 Filed 2-13-75;8:45 am]

[Docket No. CP75-15]

UNITED GAS PIPE LINE CO.

Order Setting Matter for Hearing, Establishing Procedures and Granting Interventions

FEBRUARY 7, 1975.

On July 16, 1974, United Gas Pipe Line Company (United) filed an application, as amended on December 18, 1974, for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act [15 USC § 717f(c)] to transport up to 5,000 Mcf of natural gas per day on behalf of the State of Louisiana (Louisiana) for delivery to New Orleans Public Service, Inc. (NOPSI).

Pursuant to a November 7, 1974, gas transportation agreement, Louisiana will deliver, or cause to be delivered gas for its account, to United at the tailgate of Exxon's Lirette Gasoline Plant in Terrebonne Parish, Louisiana. United will transport the gas to various points of redelivery at the outlet sides of United's several metering stations where United currently is delivering gas to NOPSI. At that point, NOPSI will purchase the gas from Louisiana in accordance with the terms of a letter agreement dated July 12, 1974, which specify that the gas will be utilized as boiler fuel to generate electricity. The stated purpose of this plan is to reduce the cost of electricity to NOPSI's customers by displacing fuel oil with natural gas. Louisiana and NOPSI anticipate that the total costs to NOPSI of such gas purchased and transported will be less than the present or future costs of fuel oil.

The gas to be transported by United will be purchased by Louisiana from T.N.T., Inc. (TNT) from acreage located in section 9 and 10-T21S-R21E, Lafourche Parish, Louisiana. The parties estimate recoverable reserves to be 20 billion cubic feet and initial daily deliverability to be 3,000 Mcf plus or minus 50 percent. Louisiana will pay TNT an initial rate of $1.1729 per Mcf, subject to Btu adjustment and an escalation clause.

The transportation agreement between United and Louisiana provides for a rate of 10.73 cents which reflects United's Southern Zone jurisdictional cost of service as proposed in Docket No. RP74-83.[1] The term of the agreement is for a period extending from date of first deliveries to January 1, 1976, and year to year thereafter. It is further stated that United will effectuate the contemplated transportation arrangement through existing facilities.

Pursuant to notice of the instant application and of the amendment, petitions to intervene have been filed by NOPSI, Texas Eastern Transmission Corporation (TETCO), Consolidated Gas Supply Corporation (Consolidated), Entex, Inc. (Entex), and Peoples Natural Gas Company (Peoples).

The proposed end-use of the gas purchased by Louisiana for sale to NOPSI as

[1] On January 24, 1975, we modified that order by adding another petitioner therein.

[1] A proposal rate increase was filed in Docket No. RP74-83 on April 15, 1974.

boiler fuel in power generation raises the question as to whether interstate transportation facilities should be employed for this purpose. In this connection, we note that NOPSI is an existing power plant customer of United, whose boiler fuel requirements under the currently effective three-category curtailment plan have been accorded the lowest delivery priority.[2] If the proposed transportation is approved, the gas purchased by NOPSI from Louisiana would not be subject to allocation, in whole or in part, to United's customers through operation of a present or future United curtailment tariff.

Were the proposed transportation one extending across state boundaries, our consideration of the application would be in accord with the principles of *F.P.C.* v. *Transcontinental Gas Pipe Line Corp.*, 365 U.S. 1 (1961) and *Arizona Public Service Co.* v. *F.P.C.*, 483 F. 2d 1275 (CADC, 1973), and with the parties fully aware of our oft-stated findings that usage of natural gas for boiler fuel is inefficient, and, during times of shortage, is a misallocation of a wasting resource. However, here the gas to be transported for NOPSI is to be produced and consumed within the same state, so that the *Transco* and *APS* cases, *supra*, provide incomplete guidance. If, for example, the probable result of a denial by us of transportation authority to United is the construction of duplicative intrastate transportation facilities, then the public convenience and necessity may not be served by denial of authorization. We are aware that there is presently a high degree of underutilization of United's facilities through which this gas would flow, and United's jurisdictional ratepayers can be benefited if these facilities are put to use and compensation paid by NOPSI. Thus we must resolve a principal issue in this proceeding: Will the gas under contract to NOPSI move to NOPSI even if we disapprove use of United's facilities for that movement? If so, our inquiry here is whether or not the public convenience and necessity are served by permitting United to utilize more fully its existing interstate facilities and charge a fully compensatory rate therefor. If not, then our inquiry here is within the framework of the principles enunciated in *Transco* and *APS*.

For these reasons, we believe the instant application should be set for formal evidentiary hearing. Moreover, in light of the concurrent allegation by Louisiana in the United curtailment case that human needs customers are threatened by deepening curtailments this winter,[3] we shall establish procedures for expeditious hearing of this case. Finally, because this application does not involve the construction of facilities, we find that an environmental impact statement is not required by the National Environmental Policy Act of 1969.[4]

The Commission finds: (1) Good cause exists to set for formal hearing the application filed in the above-captioned docket.

(2) Participation of the above-named petitioners for intervention may be in the public interest.

The Commission orders: (A) The application filed by United pursuant to section 7(c) of the Natural Gas Act [15 USC § 717(c)] is hereby set for formal hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15 and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing March 4, 1975, at 10 a.m. (est) at a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning whether or not the application for a certificate of public convenience and necessity should be granted, or upon what terms and conditions.

(C) United and all other parties in support of the application shall file their testimony on or before February 21, 1975.

(D) The above-named petitioners are hereby permitted to become interveners in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* that the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* that the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order of the Commission entered in these proceedings.

By the Commission.

UTAH POWER & LIGHT CO.

Compliance Filing

FEBRUARY 6, 1975.

Take notice that on January 27, 1975, Utah Power and Light Company (Utah) tendered for filing an "Amendment to Service Schedule F-1 to the Interconnection Agreement between Utah Power and Light Company and Arizona Public Service Company dated July 8, 1963," Utah states that it is filing the Amendment in compliance with Ordering Paragraph (B) of the Commission's November 15, 1974, order which required Utah, within 60 days of the date of issuance of that order, "to file a rate schedule supplement reflecting elimination of the provision for automatic adjustment of the material cost component of the O&M charge which is based upon the United States Department of Labor's "Industrial Commodities Index." The Amendment is dated January 20, 1975.

Utah states that a copy of the filing was served upon Arizona Public Service Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 20, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

FEDERAL RESERVE SYSTEM

Federal Open Market Committee

AVAILABILITY OF INFORMATION

Domestic Policy Directive of December 16–17, 1974

In accordance with 12 CFR 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on December 16–17, 1974.[1]

The information reviewed at this meeting suggests that real output of goods and services is falling substantially further in the current quarter. Price and wage increases are continuing large, although not so large as earlier this year. In November declines in industrial production and employment were sharp and widespread, and the unemployment rate increased further, from 6.0 to 6.5 percent. In recent weeks additional production cutbacks and layoffs have been announced. The November rise in wholesale prices of industrial commodities, although substantial, remained well below the extraordinarily rapid rate in the first 8 months of the year.

Since mid-November the dollar has declined somewhat further against leading foreign currencies. In October the U.S. foreign trade deficit was reduced sharply for the second consecutive month, while there were continued net inflows of bank-reported private capital and of investments by oil-exporting countries.

Growth of the narrowly defined money stock increased in November to an annual rate of about 7 percent. Net inflows of consumer-type time and savings deposits remained strong at banks and continued to improve at nonbank thrift institutions, and the more broadly defined money supply measures again expanded appreciably. Bank loans increased only moderately. Most market interest rates, after rising in the second half of November, subsequently turned down again. Yields on State and local government securities, however, continued under upward pressure. Effective December 9, Federal Reserve discount rates were reduced from 8 to 7¾ percent.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to resisting inflationary pressures, cushioning recessionary tendencies and encouraging resumption of real economic growth, and achieving equilibrium in the country's balance of payments.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with somewhat more rapid growth in monetary aggregates over the months ahead than has occurred in recent months.

By order of the Federal Open Market Committee, February 5, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-4124 Filed 2-13-75;8:45 am]

[1] The Record of Policy Actions of the Committee for the meeting of December 16–17, 1974, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

RANGER FINANCIAL CORP.

Formation of Bank Holding Company

Ranger Financial Corporation, Ranger, Texas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 92.2 percent of the voting shares of First State Bank, Ranger, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than February 28, 1975.

Board of Governors of the Federal Reserve System, February 6, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

Renewal Permits; Opportunity for Public Hearings

Correction

In FR Doc. 75-2607, appearing on page 4366 in the issue for Wednesday, January 29, 1975, in the list of permits, the second entry, now reading "ICP Permit No. 4003-002 * * * Ser. No. 410)", should be changed to read "ICP Permit No. 4003-001 * * * Ser. No. 410)".

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-7)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON AERONAUTICAL PROPULSION AD HOC PANEL ON JET ENGINE HYDROCARBON FUELS

Meeting

The NASA Research and Technology Advisory Council, Committee on Aeronautical Propulsion, Ad Hoc Panel on Jet Engine Hydrocarbon Fuels will meet on March 6 and 7, 1975, at the NASA Lewis Research Center, Cleveland, Ohio 44135. The meeting will be held in Room 225 of the Administration Building. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 40 persons including Panel members and other participants.

The NASA Research and Technology Advisory Council Committee on Aeronautical Propulsion's Ad Hoc Panel on Jet Engine Hydrocarbon Fuels was established to advise NASA's senior management on fuels research now being initiated by NASA in the areas of petroleum base, shale oil base and coal base jet engine fuels. The Ad Hoc Panel will assess ongoing work and research plans, and will make recommendations to NASA on program content, timing and direction to insure greatest benefit to the nation. There are 11 members on the Ad Hoc Panel on Jet Engine Hydrocarbon Fuels. The current Chairman is Dr. John P. Longwell.

The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact Mr. Harry W. Johnson, Area Code 202, 755-3003.

MARCH 6, 1975

Time	Topic
8:15 a.m.	Preparation of Subpanel Reports (Purpose: To consolidate thoughts and ideas on specific issues relating to NASA's role in fuels research. These issues deal with combustion research, fuels safety and toxicity, specification broadening, alternate fuels economics and availability.)
10:15 a.m.	Presentation of Subpanel Reports (Purpose: To afford Panel members an opportunity to comment on subpanel findings and identify areas of NASA participation.)
3 p.m.	Presentation of Alternate Fuels Program Activities (Purpose: To permit members and invited guests to brief the Panel on program activities under way outside NASA which could impact NASA's fuels program plans.)

MARCH 7, 1975

8:15 a.m.	Discussion of Subpanel Reports and Fuels Program Activities Described on Previous Day (Purpose: To arrive at a set of recommendations establishing the scope and direction of NASA's jet engine hydrocarbon fuels research activities.)
1 p.m.	Panel Discussion of Future Plans (Purpose: To develop a list of suitable topics for discussion at the next meeting, which will probably be the final one.)
2 p.m.	Adjournment.

Dated: February 10, 1975.

BOYD C. MYERS, II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

ARCHITECTURE AND ENVIRONMENTAL ARTS ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a closed meeting of the Architecture + Environmental Arts Advisory Panel to the National Council on the Arts will be held on March 6, 7, 1975 from 9 a.m.–5 p.m. in the 11th floor conference room, 2401 E Street, NW. Washington, D.C.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4), (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75-4239 Filed 2-13-75;8:45 am]

DANCE ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a closed meeting of the Dance Advisory Panel to the National Council on the Arts will be held on March 9, 10, 11, 12, 1975 from 9 a.m.–5:30 p.m. in the 14th floor conference room, 2401 E Street, NW., Washington, D.C.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552 (b) (4), (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75-4240 Filed 2-13-75;8:45 am]

LITERATURE ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a closed meeting of the Literature Advisory Panel to the National Council on the Arts will be held on March 7, 8, 1975 at the Essex House, 160 Central Park South, New York, New York.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4), (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

PUBLIC MEDIA ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Public Media Advisory Panel to the National Council on the Arts will be held on March 3, 4, 5, 1975, from 9 a.m.–5:30 p.m. in Washington, D.C. A specific meeting place has not been determined as of this date. For those interested in attending the open sessions, please contact the Public Media Program, 634-6300.

A portion of this meeting will be open to the public on March 4 from 2 p.m.–5:30 p.m. and on March 5 from 9 a.m.–5:30 p.m.

The remaining sessions of this meeting on March 3 from 9 a.m.–5:30 p.m. and on March 4 from 9 a.m.–12 noon are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these sessions, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b), (4) and (5), will not be open to the public.

Further information with reference to this meeting can be obtained from

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75-4242 Filed 2-13-75;8:45 am]

SPECIAL PROJECTS ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that closed meetings of the Special Projects Advisory Panel to the National Council on the Arts will be held on March 1, 1975, from 9 a.m.–5:30 p.m. in the 14th floor conference room and on March 3, 4, 5, 1975, from 9 a.m.–5:30 p.m. in the 13th floor conference room, 2401 E Street NW., Washington, D.C.

These meetings are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these meetings, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4), (5)), will not be open to the public.

Further information with reference to these meetings can be obtained from Mrs. Luna Diamond, Advisory Committee Management Office, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75-4243 Filed 2-13-75;8:45 am]

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR EARTH SCIENCES

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Earth Sciences to be held at 9 a.m. on March 3, 1975, in room 511 and at 8:30 a.m. on March 4, 1975, in room 517, 1800 G Street NW., Washington, D.C.

The purpose of the Panel is to provide advice and recommendations concerning earth sciences research as part of the review and evaluation process for specific proposals and projects.

The agenda for this meeting is as follows:

MARCH 3

9–10:30 a.m.

General Discussion of NSF Budget and Organization Changes.

XUM
V40I32
FEB 14 75
XUM

Brief Review of Research Related to Mineral Resources Other Than Fossil Fuels.

10:45 a.m.–5:30 p.m.

Review and Evaluation of Research Proposals.

MARCH 4

Review and Evaluation of Research Proposals.

The March 3 session from 9–10:30 a.m. will be open to the public. The session on March 3 (10:45 a.m.–5:30 p.m.) and the entire session on March 4, will be devoted to reviewing, discussing, and evaluating individual research proposals. The proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552 (b) (4), (5), and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of Section 10(d) of Pub. L. 92–463.

Individuals who wish to attend the open portion of the meeting on March 3 or require further information concerning this Panel, should contact Dr. William E. Benson, Head, Earth Sciences Section, Room 312, National Science Foundation, Washington, D.C. 20550, telephone 202/632–4210, prior to the meeting. Summary minutes relative to this meeting may be obtained from the Management Analysis Office, Room K–720, National Science Foundation, Washington, D.C. 20550.

R. GAIL ANDERSON,
Acting Committee Management Officer.

FEBRUARY 11, 1975.

[FR Doc.75–4257 Filed 2–13–75;8:45 am]

ADVISORY PANEL ON THE MATERIALS RESEARCH LABORATORIES

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Advisory Panel on the Materials Research Laboratories to be held at 9 a.m. on March 3 and 4, 1975, in room 540, 1800 G Street NW., Washington, D.C.

The purpose of the Panel is to review the current program and program policy, and to provide advice and recommendations for the continuation of the program. The agenda for this meeting is as follows:

MARCH 3

Review and Evaluation of the Individual Materials Research Laboratory Programs.

MARCH 4

Review and Evaluation of the Overall Materials Research Laboratory Program.

The March 3 session will not be open to the public because the Panel, based on actual site visits, will be critically reviewing and evaluating each university's materials research laboratory program. These matters are within the exemptions of 5 U.S.C. 552(b), (4), (5), and (6). The closing of this portion of the meeting is in accordance with the determination of the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92–463.

The March 4 session shall be open to the public. Persons who wish to attend or would like more information about this Panel should contact Dr. R. J. Waslewski, Head, Materials Research Laboratory Section, Room 336, National Science Foundation, Washington, D.C. 20550, telephone 202/632–7408.

Summary minutes of this meeting may be obtained from the Committee Management Coordination Staff, Management Analysis Office, Room K–720, National Science Foundation, Washington, D.C. 20550.

R. GAIL ANDERSON,
Acting Committee Management Officer.

FEBRUARY 11, 1975.

ADVISORY PANEL ON SCIENCE EDUCATION PROJECTS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Subpanel on Minority Institutions Science Improvement Program (MISIP) to be held at 9 a.m. on March 6–7, 1975, in room 405, 5225 Wisconsin Avenue NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations concerning the merit of specific proposals submitted for consideration by the Minority Institutions Science Improvement Program.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual research proposals. Also, these proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b) (4), (5), and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92–463.

For further information about this Subpanel, please contact Dr. Art Diaz, Program Manager, Instructional Improvement Implementation Section, Room 448–W, National Science Foundation, Washington, D.C. 20550, telephone, 202/282–7760.

R. GAIL ANDERSON,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–376]

PUERTO RICO WATER RESOURCES AUTHORITY (NORTH COAST NUCLEAR PLANT, UNIT 1)

Receipt of Application for Construction Permit and Facility License; Availability Environmental Report

Puerto Rico Water Resources Authority (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed on January 27, 1975, for authorization to construct and operate a generating unit utilizing a pressurized water nuclear reactor. The application was tendered on September 27, 1974. Following a preliminary review for completeness, the application was rejected on November 12, 1974, for lack of sufficient information. The applicant submitted additional information on December 27, 1974, and the application was found to be acceptable for docketing. Docket No. 50–376 which was previously assigned to Puerto Rico Water Resources' Aguirre application has been retained for this application, and should be referenced in any correspondence relating to the application.

The proposed nuclear facility, designated by the applicant as the North Coast Nuclear Plant, Unit 1, is located on the north central coast of Puerto Rico (Islote), and is designed for initial operation at 1785 megawatts (thermal), with a net electrical output of 583 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Arecibo City Hall Library, Arecibo, Puerto Rico.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated January 27, 1975. The report, which discusses environmental considerations related to the construction and operation of the proposed facility is being made available for public inspection at the aforementioned locations and at the Planning Board, 1507 Ponce de Leon Avenue, Cond. Ponce de Leon, Box 9447, Santurce, Puerto Rico 00908.

After the environmental report has been analyzed by the Commission's Director of Nuclear Reactor Regulation or his designee, a draft environmental statement will be prepared by the Commission's staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 5th day of February 1975.

For the Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors, Project Branch 1–3, Division of Reactor Licensing.

[FR Doc. 75–3915 Filed 2–13–75;8:45 am]

[Docket No. 50–376]

PUERTO RICO WATER RESOURCES AUTHORITY (NORTH COAST NUCLEAR PLANT, UNIT 1)

Hearing on Application for Construction Permit

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, Part 51, Licensing and Regulatory Policy and Procedures for Environmental Protection, and Part 2, Rules of Practice, notice is hereby given that a hearing will be held before an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Puerto Rico Water Resources Authority (the applicant), for a construction permit for a preisurized water nuclear reactor designated as the North Coast Nuclear Plant, Unit 1, (the facility), which will be designed for operation at 1785 thermal megawatts with a net electrical output of approximately 583 megawatts. The proposed facility is to be located on the north central coast of Puerto Rico (Islote).

The hearing, which will be scheduled to begin in the vicinity of the site of the proposed facility, will be conducted by an Atomic Safety and Licensing Board (Board), which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel. The Board consists of Dr. Richard F. Cole, Mr. Gustave A. Linenberger, and Daniel M. Head, Esq., Chairman.

Pursuant to 10 CFR 2.785; an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER at a later date.

Upon completion by the Commission's staff of a favorable safety evaluation of the application and an environmental review, and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Nuclear Reactor Regulation will consider making affirmative findings on Items 1–3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of a construction permit to the applicant. In the event that a separate hearing is held with respect to a limited work authorization, Item 6 below describes the matters for consideration.

Issues Pursuant to the Atomic Energy Act of 1954, as Amended. 1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicant has described the proposed design of the facility including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design plete the safety analysis and which can information as may be required to comreasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicant and the applicant has identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facility, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facility can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicant is technically qualified to design and construct the proposed facility;

3. Whether the applicant is financially qualified to design and construct the proposed facility; and

4. Whether the issuance of a permit for construction of the facility will be inimical to the common defense and security or to the health and safety of the public.

Issue Pursuant to National Environmental Policy Act of 1969 (NEPA). 5. Whether, in accordance with the requirements of 10 CFR Part 51, the construction permit should be issued as proposed.

Issues Pursuant to 10 CFR 2.761a (Limited Work Authorization). 6. Pursuant to 10 CFR 2.761a, a separate hearing and partial decision by the Board on issues pursuant to NEPA and general site suitability and certain other possible issues may be held and issued prior to and separate from the hearing and decision on other issues. In the event the Board, after the hearing, makes favorable findings on such issues, the Director of Nuclear Reactor Regulation may, pursuant to 10 CFR 50.10(e) authorize the applicant to conduct certain onsite work entirely at its own risk prior to completion of the remainder of the proceeding.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n), the Board will determine without conducting a de novo evaluation of the application: (1) whether the application and the record of the proceeding contain sufficient information, the review of the application by the Commission's staff has been adequate to support the proposed findings to be made by the Director of Nuclear Reactor Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permit proposed by the Director of Nuclear Reactor Regulation; and (2) whether the NEPA review conducted by the Commission's staff has been adequate.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether a construction permit should be issued to the applicant.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with § 51.52(c) of 10 CFR Part 51: (1) determine whether the requirements of section 102(2) (A), (C), and (D) of NEPA and Part 51 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding for the permit with a view to determining the appropriate action to be taken; and (3) determine after weighing the environmental, economic, technical and other benefits against environmental and other costs, and considering available alternatives whether a construction permit should be issued, denied, or appropriately conditioned to protect environmental values.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held within sixty (60) days after the notice of hearing is published or at such other time as the Board deems appropriate, for the purpose of dealing with the matters specified in 10 CFR 2.751a.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any required special prehearing conference, and within sixty (60) days after discovery has been completed or at such other time as the Board may specify, for the purpose of dealing with the matters specified in 10 CFR 2.752.

The Board will set the time and place for any special prehearing conference, prehearing conference and evidentiary hearing, and the respective notices will be published in the FEDERAL REGISTER.

Any person who does not wish, or is not qualified to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may make an oral or written statement on the

XUM V40 I32 FEB 14 75 XUM

record. He does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of Item 1–5 above. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission by April 15, 1975. The presiding Atomic Safety and Licensing Board may make further provision with respect to limited appearances subsequently during the course of this proceeding.

Any person whose interest may be affected by the proceeding, who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all rights of the applicant to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

A petition for leave to intervene must be filed with the Secretary of the Commission and others as specified below by March 17, 1975. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR 2.714(a) (1)–(4) and 2.714(d).

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicant by March 6, 1975.

Papers required to be filed in this proceeding shall be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. A copy of any petition for intervention should also be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Esq. Rafael Betancourt Pulliza, General Counsel, Puerto Rico Water Resources Authority, G.P.O. Box 4267, San Juan, Puerto Rico 00936, and to Maurice Axelrad, Esq., Lowenstein, Newman, Reis and Axelrad, 1025 Connecticut Avenue NW., Washington, D.C. 20036, attorneys for the applicant.

For further details, see the application for a construction permit dated January 27, 1975, and amendments thereto, and the applicant's environmental report dated January 27, 1975, which are or will be available as noted above for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., between the hours of 8:30 a.m. and 5 p.m. on weekdays. Copies of those documents will also be available at the Arecibo City Hall Library, Arecibo, Puerto Rico, for inspection by members of the public between the hours of 9 a.m. and 9 p.m. Monday through Friday. As they become available, a copy of the safety evaluation report by the Commission's Division of Reactor Licensing, the Commission's draft and final environmental statements, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permit, the transcripts of the prehearing conferences and of the hearing, and other relevant documents, will also be available at the above locations. Copies of the Division of Reactor Licensing's safety evaluation report, the Commission's final environmental statement, the proposed construction permit, and the ACRS report may be obtained, when available, by request to the Director, Division of Reactor Licensing, Office of Nuclear Reactor Regulation, United States Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Washington, D.C. this 6th day of February, 1975.

UNITED STATES NUCLEAR REGULATORY COMMISSION,
JOHN C. HOYLE,
Acting Secretary of the Commission.

[Docket Nos. 50-466, 50-467]

HOUSTON LIGHTING & POWER CO. (ALLENS CREEK NUCLEAR GENERATING STATION, UNITS 1 AND 2)

Evidentiary Hearing

A hearing will commence at 10 a.m., March 11, 1975, in the auditorium at Wallis Orchard Independent School, 6800 Main Street, Wallis, Texas, to receive evidence relating to the application of Houston Lighting and Power Company for a permit to construct two nuclear power reactors in Austin County, Texas. To be considered at this hearing are whether or not the site proposed for the reactors is suitable from the standpoint of radiological health and safety and issues relating to environmental matters.

The public is invited to attend. Any person who has asked to make a limited appearance may state his views or file a written statement at the time and place above set out or at such later time as the Board may designate.

It is so *ordered.*

Dated at Bethesda, Maryland, this 7th day of February, 1975.

ATOMIC SAFETY AND LICENSING BOARD,
FREDERIC J. COUFAL,
Chairman.

[FR Doc.75-4137 Filed 2-13-75;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 4.2, Revision 1, "Preparation of Environmental Reports for Nuclear Power Stations," provides guidance on the preparation of environmental reports for nuclear power plants. It identifies the information that should be included in environmental reports accompanying applications for construction permits or operating licenses for these facilities. This revision reflects numerous comments from the public, implements 10 CFR Part 51 which became effective August 19, 1974, and relates more directly to the staff's needs for environmental information.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 4.2, Revision 1, will, however, be particularly useful in evaluating the need for an early revision if received by April 11, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 4 regulatory guides currently being developed include the following:

Cooling Water System—Protection of Aquatic Organisms (Entrapment).
Cooling Water System—Protection of Aquatic Organisms (Entrainment).
Cooling Water System—Protection of Aquatic Organisms (Cold Shock).
Irreversible and Irretrievable Commitments of Materials Resources.
Land Use Assessment—Agriculture.
Nuclear Power Stations—Guide to Terrestrial Studies.
Standard Format and Content of Site Certification Reports for Designated Sites.
Environmental Technical Specifications for Nuclear Power Plants.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 5th day of February, 1975.

For the Nuclear Regulatory Commission,

ROBERT B. MINOGUE,
Acting Director,
Office of Standards Development.

[FR Doc.75-4138 Filed 2-13-75;8:45 am]

[Dockets Nos. 50-259 and 50-260]

TENNESSEE VALLEY AUTHORITY (BROWNS FERRY NUCLEAR PLANT, UNITS 1 AND 2)

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 6 and 3 to Facility Operating License Nos. DPR–33 and DPR–52 issued to the Tennessee Valley Authority which revised technical specifications for operation of the Browns Ferry Nuclear Plant Units 1 and 2, located in Limestone County, Alabama. The amendment is effective as of its date of issuance.

The amendment revises sections 2.1 and 4.1.1 of Appendix B to the Facility Operating License Nos. DPR–33 and DPR–52. Revision of section 2.1 allows for backup procedures in case of thermal monitoring network failure. Revision of section 4.1.1 changes sample preservation procedures to comply with recent changes in EPA's approved procedures.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated May 17, 1974, and (2) Amendment Nos. 6 and 3 to License Nos. DPR–33 and DPR–52, with any attachments. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama 35611.

A copy of items (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 5th day of February, 1975.

For the Nuclear Regulatory Commission,

JOHN F. STOLZ,
Chief, Light Water Reactors Project Branch 2–1, Division of Reactor Licensing.

[FR Doc.75-4135 Filed 2-13-75;8:45 am]

[Docket Nos. 50-338, 50-339]

VIRGINIA ELECTRIC & POWER CO. (NORTH ANNA POWER STATION, UNITS 1 AND 2)

Notice of Reconstitution of Board

In the matter of 10 CFR Part 50, Appendix D, Section B, Proceeding.

John B. Farmakides, Esq., was Chairman of the Atomic Safety and Licensing Board established for the above proceeding. Mr. Farmakides, because of a schedule conflict, is unable to continue in his duties on this Board.

Accordingly, Frederic J. Coufal, Esq., whose address is Atomic Safety and Licensing Board Panel, Nuclear Regulatory Commission, Washington, D.C. 20555, is appointed Chairman of this Board.

Reconstitution of the Board in this manner is in accordance with § 2.721 of the rules of practice, as amended.

Dated at: Bethesda, Md., this 7th day of February, 1975.

ATOMIC SAFETY AND LICENSING BOARD PANEL,
NATHANIEL H. GOODRICH,
Chairman.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 10, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service, evaluation of medicaid spend-down, single-time, medicaid recipients, Sunderhauf, M. B., 395–4911.

National Institutes of Health, medical library resources project grants, library data sheets and supplemental instructions to, NIH 398 and 2006–1 applications, NIH–LM–6, on occasion, public and private nonprofit organizations, Lowry, R. L., 395–3772.

DEPARTMENT OF THE INTERIOR

Geological Survey, application for the establishment of royalty values, annually, oil and gas lessees, Caywood, D. P., 395–3443.

REVISIONS

DEPARTMENT OF COMMERCE

Bureau of the Census, special population census schedule, SC–19, on occasion, Spanish speaking in San Bernardino, California, Strasser, A. 395–3880.

EXTENSIONS

RAILROAD RETIREMENT BOARD

Report about student to railroad retirement board, G–317, annually, Evinger, S. K., 395–3648.

Request for hearing part B medicare claim, G–791, on occasion, Evinger, S. K., 395–3648.

Request for review part B medicare claim, G–790, on occasion, Evinger, S. K., 395–3648.

Annual policing questionnaires (of events which may affect annuitants benefits), G–19A, annually, Evinger, S. K., 395–3648.

Application for substitution of payee for employee or spouse annuitant, AA–5, on occasion, Evinger, S. K., 395–3648.

PHILLIP D. LARSEN,
Budget and Management Officer.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 8667]

PIONEER FUND, INC.

Application for Exemption Order for Sale of Securities at Other than the Public Offering Price

FEBRUARY 7, 1975.

Notice is hereby given that Pioneer Fund, Inc. ("Applicant"), 28 State Street, Boston, Massachusetts 02109, a Massachusetts corporation registered under the Investment Company Act of

XUM
V40132 FEB 14 75 F
XUM

1940 (the "Act") as an open-end diversified management investment company, filed an application on December 9, 1974, and amendments thereto on January 14, 1975 and January 29, 1975, pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) a transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price described in the prospectus in exchange for substantially all of the assets of Munoz Corp. ("Munoz"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Munoz, a Colorado corporation, maintains a diversified portfolio of securities substantially in the form of investments in marketable securities, cash and cash items. Munoz is a personal holding company for tax purposes, all of its outstanding stock being owned of record and beneficially by twelve persons.

On December 5, 1974, Applicant and Munoz entered into a Plan and Agreement of Reorganization (the "Agreement") pursuant to which substantially all of the assets of Munoz, consisting of securities and cash, with a value of approximately $4,737,684 as of November 30, 1974, are to be transferred to Applicant in exchange for shares of the Applicant's voting common stock. The number of Applicant's shares to be delivered to Munoz will be determined by dividing the net value of the assets of Munoz transferred to Applicant by the net asset value per share of Applicant, both to be determined as of the valuation time as defined in the Agreement.

Applicant expects to acquire all of the securities of Munoz except (1) Unmarketable Securities valued at an aggregate of $5,000 and (2) securities with a market value not exceeding $150,000 which will be retained by Munoz to cover its liabilities and costs. Applicant will not assume any liabilities of Munoz. Munoz will be liquidated as soon as practicable after the closing.

The transaction is contingent upon it being tax-free and a letter ruling has been requested from the Internal Revenue Service to that effect.

Section 22(d) of the Act, in pertinent part, prohibits a registered investment company from selling any redeemable security issued by it to any person except to or through a principal underwriter for distribution or at a current public offering price as described in the prospectus.

Applicant's shares are currently being offered for sale to the public through Fund Research and Management, Inc. (Underwriter), the Applicant's sole underwriter which is the owner of all of the outstanding capital stock of Pioneer Management Corp. (Adviser), the Applicant's investment adviser. The public offering price of Applicant's shares is net asset value per share plus varying sales charges dependent upon the amount purchased, the maximum being 8½ percent and the minimum being 1 percent on sales in excess of $600,000.

Since no sales charge will be made under the terms of the Agreement, the price at which the Applicant will issue its shares in exchange for assets of Munoz will be different from the public offering price described in Applicant's prospectus and an order exempting the proposed transaction from the provisions of section 22(d) of the Act is necessary.

Underwriter's share of the 1 percent sales charge on sales in sums of $600,000 is ¼ of the 1 percent. If the exchange of Applicant's shares for the assets of Munoz had been subject to the sales charge set forth in Applicant's prospectus, Underwriter's share of such sales load would have been $11,965. Underwriter has waived any sales loads on the proposed transaction.

Applicant has agreed to pay up to $5,000 of the fees of Munoz's attorneys and auditors to the extent such fees are directly related to the proposed transaction. Adviser, Underwriter's subsidiary, has agreed to reimburse Applicant for any special expenses, for auditors, legal counsel, etc., of the proposed transaction allocable to Applicant, including the $5,000 of Munoz's expenses, which Applicant has agreed to pay.

Adviser receives an advisory fee from Applicant of ½ percent per annum of Applicant's average daily net assets up to $250,000,000, .48 percent of such assets between $250,000,000 and $300,000,000, and .45 percent of such assets in excess of $300,000,000. As of November 30, 1974, Applicant had net assets of $208,531,242.

Applicant represents that the benefit of the proposed transaction to it is that it will acquire portfolio securities without paying any brokerage commission therefor and thus "save" approximately $40,000 that would have been paid in such commissions if securities in amounts equal to the value of the securities it intends to acquire from Munoz were acquired in the market.

Applicant has no present plans to sell any of the portfolio securities acquired from Munoz and each Munoz shareholder has represented to Munoz in writing that he has no present intention of selling, redeeming or otherwise disposing of the Applicant's stock to be received under the Agreement.

No tax adjustment formula has been provided since Applicant and Munoz had net unrealized capital losses as of November 30, 1974, of $51,959,059 and $404,325, respectively, neither Applicant nor Munoz has any Federal income tax loss carryforward, and Munoz will have no realized capital gain to be carried over to the Applicant.

Applicant states that no affiliation exists between Applicant or its affiliates and Munoz and its affiliates, and that the Agreement was negotiated at arms-length by the two companies.

Section 6(c) of the Act permits the Commission, upon application, to exempt a transaction from any provision of the Act if it finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice Is Further Given that any interested person may, not later than February 27, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 27, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.75-4184 Filed 2-13-75;8:45 am]

SMALL BUSINESS ADMINISTRATION

[License No. 06/06-5176]

EDICT INVESTMENT CORPORATION

Filing of Application

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Edict Investment Corporation (applicant), with the Small Business Administration pursuant to 13 CFR 107.102 (1974).

The officers and directors of the applicant are as follows:

Rev. Roger P. Morin, 812 General Pershing Street, New Orelans, Louisiana; president, director.

Rev. Michael S. Haddad, 2705 State Street, New Orleans, Louisiana; vice president, director.

Rev. Clinton J. Donkey, 2916 Paris Avenue, New Orleans, Louisiana; secretary/treasurer, director.

Gregory G. Johnson, 1234 Broadway, New Orleans, Louisiana 70118; director.

John J. Dordis, 6321 South Robertson Street, New Orleans, Louisiana; director.

Alden J. McDonald, 8300 I-10 Service Rd., East, Court #1, Apt. 115, New Orleans, Louisiana; director.

Margaret Van Gundy, 2127 South Carrollton, New Orleans, Louisiana; director.

Richard Aselland, 13051 Chateau Court, New Orleans, Louisiana; director.

The applicant, a Louisiana corporation, having its principal place of business located at 3453 Magazine Street, New Orleans, Louisiana 70115, will begin operations with $150,000 of paid-in capital and paid-in surplus derived from the sale of 1,500 shares of common stock to Edict, Inc., a nonprofit corporation funded by grants from the Raskob Foundation and from Philmet, Inc., a nonprofit corporation operating as a source of funding for community service centers and projects in the Archdiocese of New Orleans.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economical disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and SBA rules and regulations.

Any person may, not later than March 3, 1975, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in New Orleans, Louisiana.

Dated: February 5, 1975.

JAMES THOMAS PHELAN, *Deputy Associate Administrator for Investment.*

FEDERAL ENERGY ADMINISTRATION

CONSULTATION CONCERNING VOLUNTARY AGREEMENT AND PROGRAM

Meeting

A meeting will be held on Thursday, February 20, 1975, at 9:30 a.m. in Room 1812, at the State Department, 21st and Virginia Avenue NW., Washington, D.C. The meeting is for the purpose of consulting with representatives of the petroleum industry pursuant to section 708(a) of the Defense Production Act with a view to encouraging the making by such persons of a voluntary agreement and program. The agreement is intended to facilitate the participation of the petroleum industry in the implementation of the International Energy Program. Copies of a suggested agreement and program will be available in the Office of General Counsel, Federal Energy Administration, on Tuesday, February 18, in Room 5116, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C.

The meeting will be open. A transcript will be prepared and made available to the public. Persons desiring to attend should notify the Office of General Counsel no later than noon, Wednesday, February 19, by phone (202) 961-8201. Attendance may be limited depending upon available space.

Interested parties are invited to participate by submitting written data, views, or arguments, with respect to the proposed agreement. Such views should be submitted five copies each to the Office of General Counsel, Federal Energy Administration, and the Office of Legal Counsel, State Department (attention Phillip Trimble).

Dated: February 13, 1975.

XUM

February 4, 1975, it has been determined that the proposed abandonment by the Duluth, Missabe and Iron Range Railway Company of its (1) line of railroad extending from Mile Post 5.18 at Sparta Junction near the City of Eveleth to Mile Post 11.31 at Largo Junction, a distance of 6.13 miles; and (2) its line of railroad extending from Mile Post 1.63 near Eveleth in a northerly direction to the end of the line in the City of Eveleth, a distance of 1.02 miles, all in St. Louis County, Minn., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that there will be no significant adverse environmental effects associated with the proposed abandonment which is consistent with local land use plans to expand iron ore mining and related activities within the immediate area of the subject lines and trackage. In addition, there are nearby rail facilities and adequate alternate highways available for continued transportation services in the affected area. Bridge traffic which moves over this line will be diverted to an alternate rail line. Furthermore, any resultant diversion from rail to motor carrier services will have negligible impacts on air and water quality in the area.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before March 12, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[AB 43 (Sub-No. 6)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment Between Valley and Redwood, in Yazoo and Warren Counties, Mississippi

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Warren and Yazoo Counties, Miss., on or before February 29, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 30th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

ILLINOIS CENTRAL GULF RAILROAD COMPANY ABANDONMENT BETWEEN VALLEY AND REDWOOD, IN YAZOO AND WARREN COUNTIES, MISSISSIPPI

The Interstate Commerce Commission hereby gives notice that by order dated January 30, 1975, it has been determined that the proposed abandonment by the Illinois Central Gulf Railroad Company of its line between Valley and Redwood, in Yazoo and Warren Counties, Miss., a distance of 20 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed abandonment are not considered significant because there has been no traffic over the subject line since August 1970, there are no development plans in the area which could be affected by the loss of rail service, and there are no major ecological, historic, or safety impacts associated with the proposed action.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before March 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[Notice No. 698]

ASSIGNMENT OF HEARINGS

FEBRUARY 11, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in th Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are not notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 14, 1975.

MC 140005, Dependable Interline Transfers, Inc., now assigned March 11, 1975, at New York, N.Y., is canceled and application dismissed.

MC 128932 Sub 8, Robert L. Torrans, DBA Commercial Storage & Distribution Co., now assigned March 4, 1975, at Dallas, Tex., will be held in Room 5A15-17, Federal Office Building, 1100 Commerce Street.

MC 114211 Sub 233, Warren Transport, Inc., now assigned March 6, 1975, at Dallas, Tex., will be held in Room 5A15-17, Federal Office Building, 1100 Commerce Street.

MC 117574 Sub 248, Daily Express, Inc., now assigned March 11, 1975, at Columbus, Ohio, will be held in Room 235, Federal Office Building, 85 Marconi Boulevard.

MC 107295 Sub 724, Pre-Fab Transit Co., now assigned March 13, 1975, at Columbus, Ohio; will be held in Room 235, Federal Office Building, 85 Marconi Boulevard.

MC 73937 Sub 16, Hogan Storage & Transfer Company, now assigned March 17, 1975, at Columbus, Ohio; will be held in Room 235, Federal Office Building, 85 Marconi Boulevard.

No. 35956, Morelli Overseas Export Service Of Wisconsin, Inc., v. Chicago and North Western Transportation Company, now assigned March 18, 1975, at Milwaukee, Wis., will be held in Room 301C, City Hall, 200 E. Wells St.

No. 35990, Maritime Shipping Agencies, Inc., v. Chicago and North Western Transportation Company, now assigned March 18, 1975, at Milwaukee, Wis., will be held in Room 301C, City Hall, 200 E. Wells St.

No. 35998, Hansen Seaway Service, Ltd. v. Chicago and North Western Transportation Company, et al. now assigned March 18, 1975, at Milwaukee, Wis., will be held in Room 301C, City Hall, 200 E. Wells St.

MC 127274 Sub 44, Sherwood Trucking, Inc., now assigned March 24, 1975, at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 119656 Sub 27, North Express, Inc., now assigned March 27, 1975, at Chicago, Ill., will be held in Room 1086A Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 128375 Sub 112, Crete Carrier Corp., now assigned March 25, 1975, at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 124821 Sub 13, William Gilchrist, now being assigned April 16, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 117574 Sub 249, Daily Express, Inc., now being assigned April 22, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-12335, Roy A. Gerner & Sons, Inc.—Purchase—Joseph E. Davis, now being assigned April 22, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 128383 Sub 54, Pinto Trucking Service, Inc., now being assigned April 24, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-12331, Aero Trucking, Inc.—Purchase (Portion)—Miller's Motor Freight, Inc., now being assigned April 28, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-111545 Sub 203, Home Transportation Company, Inc., now being assigned May 5, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-118142 Sub 77, M. Bruenger & Co., Inc., now assigned April 7, 1975, at Kansas City, Mo. is transferred to April 7, 1975 (3 days), at Wichita, Kans., in a hearing room to be later designated.

No. 36073, Chrysler De Mexico, S.A. v. Penn Central Transportation Company, et al., now assigned March 17, 1975, at Dallas, Texas, is cancelled and transferred to modified procedure.

FOURTH SECTION APPLICATION FOR RELIEF

FEBRUARY 11, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42943—*Joint Water-Rail Container Rates—American President Lines, Ltd.* Filed by American President Lines, Ltd., (No. 17), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, Vietnam, The Philippines, Taiwan, Bangkok, Malaysia, Singapore, Indonesia, Sri Lanka, India, and Thailand, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

By the Commission.

[12 CFR Parts 541, 545]

[No. 75-118]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendments Relating to Interest Rate Adjustments

FEBRUARY 6, 1975.

The following summary of the amendments proposed by this Resolution is included for the reader's convenience and is subject to the full description in the preamble as well as the specific provisions in the regulations.

I. *Present regulation for Federal associations.*

A. Mortgage interest rates can be adjusted only by changing the length of the loan term.

B. The maximum loan term is 30 years.

II. *Proposed regulation for Federal associations.*

A. Mortgage interest rates could be adjusted by changing the amount of monthly payments, by changing the length of the loan term, or by a combination thereof. However, the loan term may not be decreased to less than the original loan term unless the borrower agrees.

B. The term of a loan having an adjustable interest rate could be extended to 35 years.

C. Increases would be optional and decreases would be required.

D. The overall contract rate increase could not exceed 2.50 percent and the rate of increase could not exceed an average rate of increase of 0.50 percent every six months.

E. The contract rate need not be decreased more than an average rate of 0.50 percent every six months.

F. Changes could not be made more often than every six months.

G. Forty-five days advance notice of any increase would be required.

H. Borrowers could prepay without penalty whenever the contract rate exceeds the initial contract rate.

I. Board approved index would be the standard for interest rate changes.

J. Advance disclosure of contract provisions would be required.

III. *Reasons for proposed changes.*

A. To provide a larger and more stable flow of funds for home mortgage lending.

B. To enable associations to pay more competitive rates of return on savings accounts.

C. To reduce the extent to which savers and new borrowers in effect subsidize the lower rates paid by existing borrowers.

IV. *Effects.*

A. The proposed amendments would apply to all loans having an interest rate adjustment provision closed on and after the effective date of the amendments including loans made pursuant to commitments entered into before such date.

B. The proposed amendments would not affect loans closed after the effective date of the amendments which have fixed rates of interest.

C. The proposed amendments would not affect existing mortgage contracts.

The Federal Home Loan Bank Board considers it desirable to propose amendments to Parts 541 and 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Parts 541 and 545) in order to authorize and regulate the manner in which Federal savings and loan associations may adjust the interest rates on loans secured by improved real estate. Accordingly, the Board hereby proposes to amend said parts 541 and 545 as set forth below.

It is the Board's position that permitting savings and loan associations to adjust interest rates on home mortgage loans would benefit both borrowers and savers. Borrowers would be benefited because the flow of funds into home mortgage lending should become larger and more stable. Further, sharp interest rate increases for new borrowers during periods of tight money could be reduced which would lessen the extent to which new borrowers, in effect, subsidize the lower rates of existing borrowers. The continuing availability of mortgage funds would facilitate the resale of existing housing and aid in insuring a steady volume of activity in real estate markets. Savers and potential savers would be benefited by the ability of associations to pay competitive rates of return on savings accounts.

A savings and loan association typically makes most of its loans to home buyers. About 90 percent of an association's income is normally derived from the interest on its loans to borrowing customers. Correspondingly, the association obtains the money with which to make home mortgage loans primarily from deposits by savers. The interest which the association must pay to these people on their savings represents the association's basic cost of money. The difference between the borrowers' interest payments and the interest paid to savers must at least meet the association's other operating expenses and required reserve allocations. Otherwise the association would operate at a loss. If its losses were large enough and lasted long enough, the association would fail and accountholders, prospective borrowers, the housing markets and the public generally would suffer. Hence, it is critical that an association's interest income over time always at least equal the association's average cost of money paid to savers plus its other operating expenses. Moreover, to remain a viable entity it is necessary that it maintain a reasonable margin between its interest income and its average cost of money and other operating expenses.

Most loans made by associations are long-term, frequently as long as 30 years. This is necessary if the monthly mortgage payments are to be within a borrower's income limits. However, the savings accounts of depositors have relatively short maturities. Thus, this creates an imbalance with the association in effect "lending long and borrowing short." There is a further imbalance since an association's income is relatively fixed and its cost of money is variable. This occurs for essentially two reasons: first the rate of interest on most loans is fixed for the entire term of the loan; and second, the rate of interest on savings accounts must vary much more frequently in response to changes in the rates of interest on market instruments that compete with savings accounts for the savings dollar. Thrift institutions are limited in increasing savings rates by the income produced on mortgages.

However, if the difference between the rates of interest that can be paid on savings accounts and market instruments becomes too great, as once again has been the case in recent months, "disintermediation" occurs. This means that people take their money out of savings accounts and put it into higher yielding investments, or do not put it into savings accounts in the first place.

When disintermediation occurs, homebuyers are seriously harmed in three basic ways. First, individuals wishing to purchase homes may be unable to obtain mortgage loans because associations do not have the money with which to make the loans. Second, to the extent that the association may have mortgage money available, it will be able to make only smaller loans and down payment requirements will be correspondingly higher. Third, in order to attract or even retain savings account funds to be used for mortgage loans, the association must pay a higher rate of return on those funds, which results in substantially higher rates to new mortgage borrowers.

The lack of availability of housing funds or the restricted availability of housing funds and the increased cost of those funds cause other problems. The increased cost reduces the number of people that are able to afford a home. The increase in mortgage loan rates is especially sharp and applies exclusively to new mortgage loans because an association can use the higher interest rate only on the new loans to bring the average return on its entire mortgage portfolio into line with its new average cost of money on all of its savings accounts. In effect, persons who obtain mortgage loans at higher interest rate levels are subsidizing persons who previously obtained low interest rate mortgages. The ability of existing homeowners to readily sell their houses is reduced, and the lack of activity in the housing markets adversely affects the income of builders, realtors, construction workers, and many other working Americans.

One method of helping to reduce the undesirable effects of disintermediation is to permit associations to make mortgage loans having adjustable rates of interest. The use of adjustable rate mortgages in time would enable associations to pay their savers rates of return which are more competitive with the interest rates available on market instruments. Further, small savers who may not be able to purchase higher yielding market instruments will share in these higher rates of return.

The interest rates on mortgage loans with adjustable rates would generally change in the same manner and at approximately the same time that changes occur in interest rates on market instruments and savings accounts. If an association has been making adjustable rate mortgages and market interest rates increase, the association would be able to offer its new borrowers mortgages at lower rates of interest than if the association's home mortgage portfolio was composed solely of loans having fixed interest rates. It would also be able to pay its savers rates more closely related to competitive market instruments. This would be possible because associations' income would be more nearly consonant with their costs and they would therefore not have to pass on the entire cost of higher savings account rates to their new borrowers. The use by associations of mortgage loans having adjustable rates of interest would thus significantly reduce the extent to which new borrowers and savers in effect subsidize existing borrowers. Because the use of adjustable rate mortgages would help lessen disintermediation, a greater supply of mortgage money would be available and would insure that more prospective homebuyers—including those who can afford to make only a modest down payment—would be able to purchase the homes they need. The following example illustrates these relationships; for the purposes of simplification, the example assumes that the association uses all its available funds to make home mortgage loans. If an association's average cost of money paid to savers increases from 6 percent to 6.25 percent, its average mortgage portfolio interest income must increase from 7 percent to 7.25 percent in order to maintain the income necessary to operate the association. However, in order to increase its average portfolio yield from 7 percent to 7.25 percent, an association whose mortgage portfolio consists solely of fixed-rate loans will have to increase the interest rate it charges on new mortgage loans to approximately 9.50 percent. This is due to the fact that only approximately 10 percent of the average mortgage portfolio is repaid in a given year. To increase the entire portfolio yield by 0.25 percent, this small portion of the portfolio must be replaced with loans of substantially higher yields.

While the Board believes that allowing savings and loan associations to adjust mortgage interest rates can moderate the effects of inflation in the housing sector, the Board emphasizes that adjustable interest rates do not operate on the root causes of inflation. Rather, adjustable interest rates are designed to help assure a continuing supply of mortgage money at fair prices.

With respect to the specifics of the regulatory proposal, Part 541 would be amended by revising the definitions of "installment loan" and "partially-amortized monthly installment loan" in §§ 541.14(a) and 541.14(b) to provide that interest rates on such loans could not be changed except in accordance with proposed § 545.6-2. The definition of "flexible payment loan" in § 541.14(c) would be amended: (1) By revising paragraph (c)(4) thereof, (2) by redesignating present paragraphs (c)(5) and (c)(6) as (c)(6) and (c)(7), and (3) by adding a new paragraph (c)(5) thereto. Section 541.14(c)(3) permits the payments on a flexible payment loan to be as little as interest-only during an "initial period" of such loan—not to exceed five years—and requires that the interest rate remain constant during such period. Section 541.14(c)(4) requires the amount of the first payment after the end of such "initial period" to be fixed at the beginning of the loan term and provides that no payment thereafter may exceed such payment. Said § 541.14(c)(4) would be revised to except interest rate adjustments in accordance with § 545.6-2 from this requirement. New § 541.14(c)(5) would provide that the interest rate on a flexible payment loan could not be changed after the "initial period" of such loan except in accordance with § 545.6-2.

Part 545 would be amended by completely revising § 545.6-2 thereof—to be recaptioned *Interest rate adjustments*. Presently, said § 545.6-2 sets forth the lending powers of Federal associations having Charter E. Since Charter E is no longer in use by any Federal association, these provisions are obsolete.

Revised § 545.6-2(a), captioned *Definitions*, defines four terms which are used throughout the remainder of said § 545.6-2. These definitions will be discussed as they occur.

Section 545.6-2(b), captioned *General*, authorizes Federal associations to make loans secured by improved real estate having interest dates which are subject to adjustment if such adjustments are in accordance with § 545.6-2, but prohibits Federal associations from making such loans if the interest rates thereon are subject to adjustment on any other terms. Section 545.6-2(b) makes clear that interest rate adjustments in accordance with § 545.6-2 may be used in connection with any loan repayment plan authorized by Part 545. Section 545.6-2(b) also provides that loans secured by any type of improved real estate (generally homes, multi-family dwellings, and commercial property) having interest rates subject to adjustment must be in accordance with applicable usury laws, if any.

Section 545.6-2(c), captioned *Restrictions relating to single-family dwelling loans*, provides that all monthly installment loans secured by single-family dwellings occupied or to be occupied by the borrower having interest rates subject to adjustment must be in accordance with eight groups of restrictions in addition to the one set forth in § 545.6-2(b). First, such adjustments may be made only in accordance with changes in a Board-approved index. The index to be used in connection with a particular loan must be selected when such loan is made and may not be changed during the loan term, unless a substitution is approved by the Board if an index ceases to be publicly available.

In order to gain Board approval, the index must meet the standards set forth in § 545.6-2(c)(2)(i). That is, the index must be one which: (1) Has proven reliability in moving with market interest rates, (2) is beyond the influence of the Federal association using it, and (3) can be explained in clear and simple terms to borrowers with the aid of publicly available information. The Board would publish the titles of approved indices in the FEDERAL REGISTER and would make other efforts to make the approved indices publicly available.

Second, as the index rate goes down, interest rate decreases on such a loan would be mandatory because of the operation of § 545.6-2(c)(2)(vii) and an association could make additional decreases if it wished to do so. However, an association would not be required to decrease the contract rate more rapidly than an average rate of 0.50 percent every six months. No maximum decrease would be established.

The association would have the option of implementing any interest rate increase permitted by § 545.6-2. Further, the interest rate on such a loan could not be increased by more than an average rate of 0.50 percent every six months and the association would have to establish a maximum interest rate for such loan at the beginning of the loan term. Such maximum could not be more than 2.50 percent above the initial contract rate on the loan. An association would not be required to make a permissible increase at the first time it became available. If it desired to do so, an association could choose not to take advantage of a particular permitted increase and could "save it" for use at another opportunity. A "saved" increase could be accumulated with subsequently available permitted increases (minus any subsequently required decreases).

Third, in order to simplify the operation of the interest rate adjustment feature of such loans and to eliminate minimal increases and decreases, § 545.6-2(c)(2)(vii) provides that the contract interest rate on such a loan could be changed only in increments of 0.25 percent and without upward rounding. In order to effect an increase or decrease of 0.25 percent or any multiple thereof, the index rate must have changed by the full amount of the increase or decrease. For example, an index increase of 0.38 percent may not be "rounded off" to 0.50 percent; a change to 0.25 percent is the most that could be made.

Fourth, an interest rate adjustment on such a loan could be effected by an adjustment of the loan term (so as to keep the loan payments the same), an adjustment of the loan payments, or a combination thereof. However, the loan term could not be shortened to less than the original loan term without the borrower's consent. This requirement ensures that the holder of the note will not automatically implement all required decreases by decreasing the loan term while implementing all permissible interest rate increases by increasing the amount of the monthly payments. Under § 545.6-2(c) the term of such a loan made pursuant to § 545.6-1(a)(1) (monthly installment loans on homes and combinations of home and business property), § 545.6-1(a)(4) (monthly installment loans on single-family dwellings in excess of 80 percent of value) or § 545.6-1(a)(5) (monthly installment loans on single-family dwellings in excess of 90 percent

XUM V40-32 FEB 14 75 XUM

of value) could be extended to not more than 35 years for the purpose of effecting adjustments in the interest rate of such loan.

Fifth, the contract rate on such a loan would be subject to change only at the beginning of an "adjustment period" and could not be changed again until the beginning of the next adjustment period. The term "adjustment period" is defined in § 545.6–2(a)(1). Adjustment periods could be of any length agreed to by the borrower and the association, except that they would have to be at least 6 months and would have to be of equal length. (The first adjustment period could be a different length so that, for example, the association could arrange to have the beginning of the adjustment periods for all of its loans having adjustable interest rates fall in a certain month. For example, for a loan closed on December 27, 1976, the borrower and the lender could agree that the first adjustment period would last until June 30, 1978, with all subsequent adjustment periods being 2 years.)

The initial contract rate and the initial index rate on such a loan would always have a particular relationship to one another—for example, the "initial contract rate" (defined in §545.6–2(a)(2) as the contract interest rate for the first loan payment after the closing of the loan) may be 0.75 percent higher than the "initial index rate" (defined in § 545.6–2(a)(3) as the most recent index interest rate published at least 15 calendar days before the closing of the loan). This relationship would involve a quantitative and a qualitative aspect. In the above example, the initial contract rate is 0.75 percent different from the initial index rate (quantitative) and is higher than the initial index rate (qualitative). Section 545.6–2(c)(2)(vii) would require that this same relationship be maintained with respect to an "adjustment period contract rate" (defined in § 545.6–2(a)(4) as the contract interest rate for all loan payments due during an adjustment period) and the index rate for such adjustment period, subject to three qualifications which will be discussed later in this preamble.

The example set forth in the previous paragraph described the type of qualitative relationship between the initial contract rate and the initial index rate; i.e., that the initial contract rate was higher than the initial index rate. Two other qualitative relationships between these two rates are also possible; viz., the initial contract rate can be less than the initial index rate or it can equal the initial index rate. The following three examples will illustrate the operation of these three types of qualitative relationships between the initial contract and index rates.

If the initial contract rate on such a loan is higher than the initial index rate, then the difference between such rates could not be exceeded by the difference between an adjustment period contract rate and the index rate for such adjustment period. For example, if the initial contract rate is 8.50 percent and the initial index rate is 8 percent, then an adjustment period contract rate could not be more than 0.50 percent above the index rate for that adjustment period.

If the initial contract rate on such a loan is lower than the initial index rate, then an adjustment period contract rate would have to be less than the index rate for that adjustment period and the difference between such adjustment period contract rate and the index rate for such adjustment period could not be less than the difference between the initial contract rate and the initial index rate. For example, if the initial contract rate is 8.50 percent and the initial index rate is 9 percent, then an adjustment period contract rate would have to be at least 0.50 percent below the index rate for that adjustment period.

If the initial contract rate equals the initial index rate, then an adjustment period contract rate could not exceed the index rate for that adjustment period. For example, if the initial contract and initial index rates are both 8.50 percent, then the adjustment period contract rate would have to be equal to or less than the index rate for that adjustment period.

Earlier in this preamble, it was mentioned that whatever relationship exists between the initial contract and index rates would have to be maintained subject to three qualifications. First, contract interest rate adjustments could only be made in integral multiples of 0.25 percent. Second, an association making such a loan would not have to implement all permissible contract rate increases. Third, an association would be permitted to decrease the contract interest rate more than would be required.

If the contract interest rate for an adjustment period is to be changed from the rate for the preceding adjustment period, this change would have to be made during the first month of such adjustment period and would have to be in accordance with paragraph (c)(2)(vii). Whether an increase in the contract interest rate would be permitted or a decrease required for an adjustment period would be determined as follows. First, the association would have to determine which of the three qualitative relationships described above fits the particular loan; i.e., whether the initial contract rate is higher than, less than, or equal to the initial index rate. Second, the association must determine the difference between the initial contract rate and the initial index rate. For example, if the initial contract rate was 8.75 percent and the initial index rate was 7.75 percent, the difference would be 1 percent. Third, the association must look at the index rate for the upcoming adjustment period; i.e., the latest interest rate which was published at least 60 calendar days before the beginning of such adjustment period. (Using an index rate which is at least 60 days old means the association will have at least 15 calendar days during which to prepare and mail notices 45 calendar days early in the event that the association is increasing the contract interest rate.) Continuing with the example, suppose the index rate for the upcoming adjustment period is 8 percent. The question then becomes: to what rate may the contract rate be increased so that the difference between such contract rate and the index rate for the adjustment period does not exceed the difference between the initial contract rate and the initial index rate. In terms of the example, the question is to what rate may the contract rate for the upcoming adjustment period be increased if the index rate for that period is 8 percent and if the contract rate cannot be more than 1 percent higher than index rate. In this example, the contract rate for the upcoming adjustment period could be increased to 9 percent. The last step is to check to see whether a contract rate increase to 9 percent would violate the rules requiring no more than an average increase of 0.50 percent every six months and no more than a 2.50 percent increase overall.

Returning to the description of the eight groups of restrictions on borrower-occupied single-family dwelling loans having interest rates which are subject to adjustment, the sixth such restriction is that the association would have to permit such loan to be prepaid (in whole or in part) without penalty whenever the contract interest rate exceeds the initial contract rate. This provision would permit the association to impose a prepayment penalty (subject to the limitations of § 545.6–12) in the event that the borrower prepaid at a time when the contract rate had been decreased below the initial contract rate.

Seventh, the association would have to notify the person or persons liable under the loan of any interest rate increase at least 45 calendar days before the effective date of such increase. An increase could not be made unless the 45 calendar day notice is properly given. The notice which is given would have to specify the amount of the interest rate adjustment, the effect of such adjustment on the loan payments and/or the loan term, the effective date of the adjustment, and must state that the loan may be prepaid without penalty whenever the contract rate exceeds the initial contract rate. Such notice would be deemed to have been given when it was deposited in the United States mail, postage prepaid, addressed to the owner of the property described in the note or other instrument evidencing the loan and to any other person liable on the loan as such persons' names and addresses appear in the records of the holder of such instrument.

Eighth, a Federal association making such a loan would, of course, have to comply with 12 CFR 226.810, *Disclosures—variable interest rates*, in addition to the other disclosure requirements set forth in the Federal Reserve Board's Truth in Lending regulations (12 CFR Part 226). In addition, the association would have to make two other types of disclosure to the borrower—one type at commitment and the other at least 12 calendar days before closing

in the event that the initial contract rate had not been determined at the time of commitment. The requirement as to the time of the pre-closing disclosure is intended to be consistent with the requirements of section 6 of the Real Estate Settlement Procedures Act of 1974 (Pub. L. 93–533; December 22, 1974) as to advance disclosure of loan settlement charges.

The association would be required to inform the borrower at the time of commitment: (1) The index with respect to which the contract rate could be adjusted, (2) that the contract rate cannot be increased at a rate greater than 0.50 percent every six months, (3) that the contract rate cannot be increased more than 2.50 percent above the initial contract rate, (4) the manner in which an adjustment in the contract rate may be effected, (5) the length of the adjustment periods of such loan, (6) the initial and maximum loan terms, (7) that at least 45 calendar days notice of any contract interest rate increase must be given, (8) that the loan may be prepaid without penalty whenever the contract rate exceeds the initial contract rate, (9) the initial and maximum contract rates, and (10) the initial and maximum total monthly payments of principal and interest.

Disclosures (9) and (10) must be based upon the actual initial contract rate if that has been determined at the time of commitment. If it has not been determined, then disclosures (9) and (10) may be based upon an initial contract rate assumed for the purpose of making the required computations, and disclosures (9) and 10) would have to be made again at least 12 calendar days before closing using the actual initial contract rate. This disclosure is intended to provide the borrower with a general understanding of the operation of interest rate adjustments.

The two-part disclosure requirement described above generally assumes that a loan commitment occurs at least 12 calendar days prior to the loan closing. However, the Board is aware that in some areas of the country loan closings frequently occur less than 12 calendar days after commitment. The Board does not want to disrupt this practice and therefore § 545.6–2(c)(2)(x) allows the pre-closing disclosures at commitment if disclosures (9) and (10) are based upon the actual initial index rate.

In addition to these two types of disclosure, the note or other instrument evidencing such a loan would have to set forth the information required for pre-closing disclosures including disclosures (9) and (10) based upon the actual interest rate. The association would be required to furnish a copy of this note or other instrument to the borrower.

If the Board adopts the proposed amendments which are set forth below, the Board further proposes that such amendments would be effective with respect to all loans closed by Federal associations after the effective date of such amendments, including loans resulting from commitments made before such effective date. If adopted, the proposed amendments would not alter the terms of any mortgage contract in effect before the effective date of such amendments.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street NW., Washington, D.C. 20552, by May 15, 1975, as to whether this proposal should be adopted, rejected or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

1. Section 541.14 is amended by revising paragraphs (a), (b), (c)(3) and (4), redesignating (c)(5) and (c)(6) as (c)(6) and (c)(7), and by adding a new (c)(5) as follows:

§ 541.14 Installment loan; partially-amortized monthly installment loan; flexible payment loan.

(a) *Installment loan.* The term "installment loan" means any loan repayable in regular periodic payments sufficient to retire the debt, interest and principal, within the loan term. The interest rate on an installment loan shall not be changed except in accordance with § 545.6–2 of this chapter. Except to the extent permitted by said § 545.6–2 in connection with an interest rate adjustment, no required payment after the first payment shall be more, but may be less, than any preceding payment.

(b) *Partially-amortized monthly installment loan.* The term "partially-amortized monthly installment loan" means any loan which is repayable in full in a lump sum at the end of a loan term of not less than 10 years, but which requires partial amortization during the loan term by regular monthly payments which include both principal and interest, beginning within not more than 60 days after disbursement of the loan proceeds. Such monthly payments may not be fixed at less than the amount of the monthly payments which would be required to amortize an entire loan of the same amount, principal and interest, within a 30-year loan term. The interest rate on a partially-amortized monthly installment loan shall not be changed except in accordance with § 545.6–2 of this chapter.

(c) *Flexible payment loan.* The term "flexible payment loan" means any loan meeting the following requirements:

• • • • •

(3) Each required payment during an initial period, not to exceed five years, is not less than one-twelfth of the annual interest rate times the unpaid principal balance of the loan, and such rate is not increased during such initial period unless pursuant to a subsequently negotiated agreement;

(4) Except with respect to a flexible payment loan made in accordance with § 545.6–2 of this chapter, the amount of the first required payment after the end is fixed at the beginning of the loan term, and no required payment after the end of such initial period shall be more, but may be less, than the first required payment after the end of such initial period;

(5) The interest rate on a flexible payment loan is not changed after the initial period of such loan except in accordance with § 545.6–2 of this chapter; and

• • • • •

2. Section 545.6–2 is revised as follows:

§ 545.6–2 Interest rate adjustments.

(a) *Definitions.* For the purposes of this section:

(1) *Adjustment period.* The term "adjustment period" means each period of time during a loan term at the beginning of which period an interest rate increase or decrease may be effected. Such an adjustment period shall be at least six months in length and all the adjustment periods of a loan shall be consecutive beginning with the month in which the first loan payment is due. All such adjustment periods except the first shall be of equal length.

(2) *Initial contract rate.* The term "initial contract rate" means the contract interest rate for the first loan payment due after the closing of a loan.

(3) *Initial index rate.* The term "initial index rate" means the most recent index interest rate for the index with respect to which the contract interest rate on a loan may be adjusted which was published at least 15 calendar days before the closing of such loan by the Federal Home Loan Bank Board or by an entity specified by the Board.

(4) *Adjustment period contract rate.* The term "adjustment period contract rate" means the contract interest rate for all loan payments due during an adjustment period.

(b) *General.* Federal associations may make loans secured by improved real estate which have provisions permitting contract interest rates which are subject to adjustment if such provisions are in accordance with this section. Contract interest rate adjustments in accordance with this section may be used in connection with any loan repayment plan authorized by this part. Any adjustment of the contract interest rate on a loan secured by any type of improved real estate shall be in accordance with applicable usury laws, if any.

(c) *Restrictions relating to single-family dwelling loans.* (1) *General.* Any increase or decrease of the contract interest rate on a monthly installment loan secured by a single-family dwelling occupied or to be occupied by the borrower shall also be in accordance with this paragraph (c). The term of any such loan made pursuant to §§ 545.6–1(a)(1), (a)(4), or (a)(5) may be extended to not more than 35 years for the purpose of effecting adjustments in the contract interest rate on such loan in accordance with this section.

XUM V40-32 FEB 14 75 XUM

(2) *Restrictions.* (i) *Index.* Any adjustment of the contract interest rate on such a loan shall be related to changes in an index which has been approved in writing by the Board. An index will be approved by the Board only if the Board determines that such index: (A) has proven reliability in moving with market interest rates; (B) is beyond the influence of a Federal association using such index; and (C) can be explained in clear and simple terms to borrowers with the aid of publicly available information.

(ii) *Substitution of index.* The note or other instrument evidencing such a loan shall provide that if the index with respect to which the contract interest rate on such loan may be adjusted ceases to be publicly available as determined by the Board, a new index shall be substituted with prior approval by the Board. A substitute index will be approved by the Board only if the Board determines that such index meets the three criteria set forth in paragraph (c) (2) (i) of this section and reflects market factors comparable to the index for which it is being substituted.

(iii) *Operation of index.* An adjustment of the contract interest rate on such a loan may be made only with respect to the first loan payment due during each adjustment period of such loan and shall be based on the most recent index rate which is published by the Federal Home Loan Bank Board or by any entity spcified by the Board at least 60 calendar days before the month in which such loan payment is due.

(iv) *Increases.* Subject to the provisions of this section, contract rate increases shall be at the option of the association. The contract interest rate on such a loan may not be increased by an amount: (A) Which would cause the sum of such increase and all previous contract interest rate increases (minus all contract interest rate decreases) to exceed an average rate of increase of 0.50 percent every six months beginning with the month in which the first payment on such loan is due, or (B) which would result in a contract interest rate more than 2.50 percent greater than the initial contract rate.

(v) *Decreases.* Notwithstanding the extent to which paragraph (c) (2) (vii) of this section requires contract interest rate on such a loan need not be decreased by an amount which would cause the sum of such decrease and all previous contract interest rate decreases (minus all contract interest rate increases) to exceed an average rate of decrease of 0.50 percent every six months, beginning with the month in which the first payment on such loan is due. The association may make contract interest rate decreases in amounts greater than those required by this section.

(vi) *Methods of adjustment.* An adjustment of the contract interest rate on such a loan may be effected by an adjustment of the loan term, an adjustment of the amount of the loan payments, or a combination thereof. However, no contract interest rate adjustment shall be effected by decreasing the loan term to less than the original loan term unless the borrower, at the time of a particular adjustment, specifically agrees that such adjustment may be so effected.

(vii) *Relationships between contract and index rates.* The contract interest rate on such a loan shall be adjusted only in integral multiples of 0.25 percent and without upward rounding. Subject to the provisions contained in the previous sentence and in paragraphs (c) (2) (iv) and (v) of this section, the relationship between an adjustment period contract rate and the index rate for such adjustment period shall be the same as the relationship between the initial contract rate and the initial index rate.

(viii) *Prepayment.* The association shall permit such loan to be prepaid (in whole or in part) without penalty whenever the contract interest rate exceeds the initial contract rate.

(ix) *Notice.* The contract interest rate on such a loan shall not be increased unless notice of such an increase is given at least 45 calendar days before the effective date of such increase. Each such notice shall specify the amount of the change in such contract interest rate, the effect of such change on the loan payments and/or the length of loan term, the effective date of such change, and shall state that such loan may be prepaid without penalty whenever the contract interest rate exceeds the initial contract rate. Any such notice shall be deemed to have been given when it is deposited in the United States mail, postage prepaid, addressed to the owner of the property who is described in the note or other instrument evidencing such loan and to any other persons liable on such loan (including any person liable as a result of an assumption of such loan) as such persons' names and addresses appear in the records of the association.

(x) *Disclosure.* (A) *Disclosure at commitment.* A Federal association making such a loan shall disclose to the borrower in writing at the time of commitment: (*1*) The index with respect to which the contract interest rate on such loan may be adjusted; (*2*) that the contract interest rate cannot be increased at an average rate greater than 0.50 percent every six months, beginning with the month in which the first loan payment is due; (*3*) that the contract interest rate cannot be increased more than 2.50 percen above the initial contract rate; (*4*) the manner in which any adjustment in the contract interest rate may be effcted; (*5*) the length of the adjustment periods of such loan; (*6*) the initial and maximum loan terms; (*7*) that at least 45 calendar days notice of any contract interest rate increase must be given; (*8*) that such loan may be prpaid without penalty whenever the contract interest rate exceeds the initial contract rate; (*9*) the initial and maximum contract interest rates on such loan; and (*10*) the initial and maximum total monthly payment of principal and interest. The disclosures required by paragraphs (c) (2) (x) (A) (*9*) and (*10*) of this section shall be based upon the actual initial contract rate if such rate has been determined at the time of commitment. If the actual initial contract rate has not been determined, then the disclosures required by such paragraphs shall be based upon an initial contract rate assumed for the purpose of making the required computations.

(B) *Disclosure before closing.* A Federal association making such a loan which makes the disclosures required by paragraphs (c) (2) (x) (A) (*9*) *and* (*10*) of this section based upon an assumed initial contract rate shall make these disclosures to the borrower in writing based upon the actual initial contract rate at least twelve calendar days before the closing of such loan.

(C) *Requirements as to notes.* The note or other instrument evidencing such a loan shall set forth the information required by paragraphs (c) (x) (A) (*1*) through (c) (x) (A) (*8*) of this section and the information required by paragraphs (c) (x) (A) (9) and (10) based upon the actual initial contract rate. A copy of such note or other instrument shall be provided to the borrower.

(Sec. 5, 48 Stat. 132, as amended; (12 U.S.C. 1464). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.
Assistant Secretary.

Title 20—Employees' Benefits

CHAPTER I—OFFICE OF WORKERS' COMPENSATION PROGRAMS, DEPARTMENT OF LABOR

EMPLOYEES' BENEFITS

Claims for Compensation Under the Federal Employees' Compensation Act

On October 27, 1972, there was published in the FEDERAL REGISTER new Parts 01, 02, and 03 of subchapter A of Chapter I of 20 CFR (37 FR 22979) which parts set forth provisions establishing the Office of Federal Employees' Compensation (OFEC) within the Employment Standards Administration of the Department of Labor, and further set forth the operating procedures to be followed by the OFEC. On January 31, 1970, subchapter B of Chapter I of 20 CFR was amended by adding thereto newly revised Parts 1 and 2 (35 FR 1284). On June 12, 1971, Part 3 of such subchapter was substantially revised (36 FR 11432). Part 25 of such subchapter was promulgated on June 10, 1948 (13 FR 3112). Each of these parts contained in the said subchapter B set forth provisions governing the administration and enforcement of the Federal Employees' Compensation Act (FECA), as amended and extended 5 U.S.C. 8101 et seq.

Pursuant to Employment Standards Order 2–74, effective September 27, 1974 (39 FR 34722–34723), the responsibility for the administration and enforcement of the FECA, as well as the Longshoremen's and Harbor Workers' Compensation Act, as amended and extended (33 U.S.C. 901 et seq.), and Title IV of the Federal Coal Mine Health and Safety Act, as amended (30 U.S.C. 901 et seq.), was transferred to the Office of Workers' Compensation Programs (OWCP). This same order abolished the Office of Federal Employees' Compensation and established the Office of Workers' Compensation Programs. In addition, Pub. L. 93–416, approved September 7, 1974, added significant amendments to the FECA. Of particular note from among these amendments are (1) a new section 8118 which provides for the continuation of an injured employee's regular pay for up to 45 days subsequent to a traumatic injury under certain circumstances; (2) an extension of section 8107 to permit the Director of OWCP to expand the compensation schedule to include certain internal and external organs; and (3) certain other provisions relating to the payment of benefits to persons entitled to a civil service annuity or compensation and/or military retirement, retainer pay, or compensation.

In light of the organizational changes brought about by Employment Standards Order 2–74 as well as the aforementioned amendments to the FECA it is apparent that substantial changes in Chapter I are appropriate. The purpose of this document is, therefore, to make such changes as are necessitated as well as to reorganize and update the existing provisions of Chapter I governing the administration of the FECA.

The provisions of 5 U.S.C. 553 for notice, public participation and delayed effective date are not applicable to rules of agency management or agency personnel. Further, since the provisions of this Chapter are designed to relieve a restriction by implementing the amendments made by Pub. L. 93–416 that are for the benefit of employees, I find that good cause exists for making these provisions effective immediately.

Accordingly, Chapter I of Title 20 CFR is revised as follows:

1. The title of Chapter I, which presently reads "Bureau of Employees' Compensation, Department of Labor", is revised to read "Office of Workers" Compensation Programs, Department of Labor."

PARTS 01, 02, 03 [REVOKED]

2. Parts 01, 02, and 03 of Subchapter A—Organization and Procedures—are revoked;

PARTS 1, 2, 3—[REVOKED]

3. Parts 1, 2, and 3 of Subchapter B—Federal Employees' Compensation Act—are revoked;

4. A new Part 1 is added to Subchapter A—Organization and Procedures—and reads as follows:

PART 1—PERFORMANCE OF FUNCTIONS UNDER THIS CHAPTER

Sec.
1.1 Establishment of the Office of Workers' Compensation Programs.
1.2 Assignment of functions.
1.3 Rules in this chapter.
1.4 Cross-references.
1.5 Abolition of Bureau of Employees' Compensation.
1.6 Historical background.

AUTHORITY: (5 U.S.C. 301), Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; (5 U.S.C. 8145, 8149); Secretary of Labor's Order No. 13–71, 36 FR 8155; Employment Standards Order No. 2–74, 39 FR 34722.

§ 1.1 Establishment of the Office of Workers' Compensation Programs.

The Assistant Secretary of Labor for Employment Standards, by authority vested in him by the Secretary of Labor in Secretary's Order No. 13–71, 36 FR 8755, established in the Employment Standards Administration (ESA) an Office of Workers' Compensation Programs (OWCP) by Employment Standards Order No. 2–74, 39 FR 34722. The Assistant Secretary has further designated as the head thereof a Director who, under the general supervision of the Assistant Secretary, shall administer the programs assigned to that Office by the Assistant Secretary.

§ 1.2 Assignment of functions.

By Employment Standards Order No. 2–74, 39 FR 34722, the Assistant Secretary has delegated authority and assigned responsibility to the Director, OWCP, for the Department of Labor's programs under the following statutes:

(a) Federal Employees' Compensation Act (FECA), (5 U.S.C. 8101 et seq.), except 8149 as it applies to the Employees' Compensation Appeals Board.

(b) War Hazards Compensation Act (WHCA), (42 U.S.C. 1701 et seq.).

(c) War Claims Act (WCA), (50 U.S.C. App. 2003).

(d) Longshoremen's and Harbor Workers' Compensation Act (LHWCA), (33 U.S.C. 901 et seq.), except 921 as it applies to the Benefits Review Board.

(e) District of Columbia Workmen's Compensation Act (DCWCA) (36 D.C. Code 501 et seq.).

(f) Defense Base Act (DBA (42 U.S.C. 1651 et seq.).

(g) Outer Continental Shelf Lands Act (OCSLA) (43 U.S.C. 1331).

(h) Nonappropriated Fund Instrumentalities Act (NFIA) (5 U.S.C. 8171 et seq.).

(i) Title IV of the Federal Coal Mine Health and Safety Act (FCMHSA), 83 Stat. 742, as amended by the Black Lung Benefits Act of 1972 (BLBA) (30 U.S.C. 901 et seq.).

§ 1.3 Rules in this chapter.

The rules in this chapter are those governing the OWCP functions under the Federal Employees' Compensation Act, the War Hazards Compensation Act, and the War Claims Act.

§ 1.4 Cross-references.

(a) The rules of the OWCP governing its functions under the Longshoremen's and Harbor Workers' Compensation Act and its extensions, the District of Columbia Workmen's Compensation Act, Defense Base Act, Outer Continental Shelf Lands Act, and Nonappropriated Fund Instrumentalities Act are set forth in Subchapter A of Chapter VI of this title.

(b) The rules of the OWCP governing its functions under the Black Lung Benefits Act program are set forth in Subchapter B of Chavter VI of this title.

(c) The rules and regulations of the Employees' Compensation Appeals Board are set forth in Chapter IV of this title.

(d) The rules and regulations of the Benefits Review Board are set forth in Chapter VII of this title.

§ 1.5 Abolition of Bureau of Employees' Compensation.

By Secretary of Labor's Order issued September 23, 1974, 39 FR 34723, issued concurrently with Employment Standards Order 2–74, 39 FR 34722, the Secretary revoked the prior Secretary's Order No. 18–67, 32 FR 12979, which had delegated authority and assigned responsibility for the various workers' compensation programs enumerated in § 1.2, except the Black Lung Benefits Act program not then in existence, to the Director of the former Bureau of Employees' Compensation.

§ 1.6 Historical background.

(a) Administration of the Federal Employees' Compensation Act and the Longshoremen's and Harbor Workers' Compensation Act was initially vested in an independent establishment known as the U.S. Employees' Compensation Commission. By Reorganization Plan No. 2 of 1946 (3 CFR 1943–1949 Comp., p. 1064; 60 Stat. 1095, effective July 16, 1946), the Commission was abolished and its functions were transferred to the Federal Security Agency to be performed by a newly created Bureau of Employees'

Compensation within such Agency. By Reorganization Plan No. 19 of 1950 (15 FR 3178, 64 Stat. 1263) said Bureau was transferred to the Department of Labor, and the authority formerly vested in the Administrator, Federal Security Agency, was vested in the Secretary of Labor. By Reorganization Plan No. 6 of 1950 (15 3174, 64 Stat. 1263), the Secretary of Labor was authorized to make from time to time such provisions as he shall deem appropriate, authorizing the performance of any of his functions by any other officer, agency, or employee of the Department of Labor.

(b) In 1972 two separate organizational units were established within the Bureau: an Office of Workmen's Compensation Programs (37 FR 20533) and an Office of Federal Employees' Compensation (37 FR 22979). In 1974 these two units were abolished and one organizational unit, the Office of Workers' Compensation Programs (OWCP), was established in lieu of the Bureau of Employees' Compensation (39 FR 34722).

5. A new Part 10 is added to Subchapter B—Federal Employees' Compensation Act—and reads as follows:

PART 10—CLAIMS FOR COMPENSATION UNDER THE FEDERAL EMPLOYEES' COMPENSATION ACT, AS AMENDED

Subpart A—General Provisions

INTRODUCTION

Sec.
10.1 Statutory provisions.
10.2 Administration of the Act and this chapter.
10.3 Purpose and scope of this part.
10.4 Applicability of other parts within this chapter.
10.5 Definitions and use of terms.

INFORMATION IN PROGRAM RECORDS

10.10 Custody of records relating to Federal Employees Compensation Act matters.
10.11 Inspection and copying of records.

MISCELLANEOUS PROVISIONS

10.20 Forms.
10.21 Waiver of compensation rights invalid.
10.22 Exclusiveness of remedy.
10.23 Penalties.

Subpart B—Notice of Injury and Claim for Compensation, Administrative Procedures

NOTICE OF INJURY OR DEATH

10.100 How to file a notice of injury.
10.101 Report of death.
10.102 When a notice of injury or report of death must be given.
10.103 Report of injury by official superior and physician.

CLAIMS FOR COMPENSATION

10.105 Time for perfecting a claim for compensation.
10.106 How to file a claim for disability compensation.
10.107 Application for augmented compensation for disability.
10.108 How to file an original claim for death benefits.
10.109 Claims for balance of schedule due at death from other causes.

EVIDENCE

10.110 Affidavit or report by employee of employment and earnings.
10.111 Submission of other evidence.

TERMINATION AND CONTINUATION OF ELIGIBILITY

10.120 Report of termination of disability or return to work.
10.121 Recurrence of disability for work.
10.122 Claims for continued compensation for disability.
10.123 Employee's obligation to return to work or to seek work when able.
10.124 Continuance of compensation on account of death.
10.125 Termination of right to compensation for death.
10.126 Change in status of beneficiaries affecting compensation for death.

DETERMINATIONS OF CLAIMS, HEARING AND REVIEW PROCEDURES

10.130 Processing of claims.
10.131 Request for a hearing.
10.132 Time and place of hearing; prehearing conference.
10.133 Conduct of hearing.
10.134 Termination of hearing; decision; review of decision.
10.135 Withdrawal of request for hearing; abandonment.
10.136 Review of decision.
10.137 Review by Employees' Compensation Appeals Board.
10.138 Reserved.
10.139 Reserved.
10.140 Participation in claims process by employing agency.
10.141 Representation of the Director.
10.142 Representation of claimants.
10.143 Qualification of representative.
10.144 Authority of representative.
10.145 Fees for services.
10.146 Reserved.
10.147 Reserved.
10.148 Reserved.
10.149 Reserved.
10.150 Statement relative to substantive rules.

Subpart C—Continuation of Pay

GENERAL

10.200 Statutory provisions.

PROCEDURES

10.201 Right to continuation of pay.
10.202 Controversion by employing agency.
10.203 Manner of controversion.
10.204 Termination of continuation of pay.
10.205 Regular pay defined.
10.206 Agency accounting and reporting of continuation of pay.

OFFICIAL SUPERIOR'S AND BENEFICIARIES' RESPONSIBILITIES

10.207 Official superior's responsibility in continuation of pay case.
10.208 Recurrence of disability.
10.209 Employee's responsibilities in continuation of pay cases.
10.210 Election of annual or sick leave.

Subpart D—Payment of Compensation

COMPENSATION RATES

10.300 Maximum and minimum compensation.
10.301 Temporary total disability rate.
10.302 Permanent total disability rate.
10.303 Partial disability rate.
10.304 Schedule compensation rate.
10.305 Death benefit rates, conditions of eligibility.
10.306 Burial and transportation benefits.

ADJUSTMENTS TO BENEFITS

10.310 Buy back of annual or sick leave.
10.311 Lump sum awards.
10.312 Assignment of claim, claim of creditors.
10.313 Dual benefits.
10.314 Overpayments.

Subpart E—Furnishing Medical Treatment

10.400 Medical treatment, hospital services, transportation, etc.
10.401 Physician and medical services, etc., defined.
10.402 Official authorization for treatment.
10.403 Emergency treatment.
10.404 Medical treatment for recurrence of disability.
10.405 Medical treatment in doubtful cases.
10.406 Authority for dental treatment.
10.407 Medical examination.
10.408 Medical referee examination.
10.409 Furnishing of orthopedic and prosthetic appliances, and dental work.
10.410 Recording and submission of medical reports.
10.411 Submission of bills for medical services, appliances and supplies.
10.412 Reimbursement for medical expenses, transportation costs, loss of wages, and incidental expenses.

Subpart F—[Reserved]

Subpart G—Cases Involving the Liability of a Third Party

10.500 Prosecution of third party action by beneficiary.
10.501 Assignment of third party.
10.502 Refusal to assign or prosecute claim when required; effect.
10.503 Distribution of damages recovered by beneficiary.
10.504 Distribution of damages where cause of action is assigned.
10.505 Office may require beneficiary to settle or compromise third party suit.

AUTHORITY: (5 U.S.C. 301); Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; (5 U.S.C. 8145, 8149); Secretary of Labor's Order No. 13–71, 36 FR 8155; Employment Standards Order No. 2–74, 39 FR 34722.

Subpart A—General Provisions

INTRODUCTION

§ 10.1 Statutory provisions.

(a) The Federal Employees' Compensation Act, as amended (5 U.S.C. 8101 *et seq.*) provides for the payment of workers' compensation benefits to civil officers and employees of all branches of the Government of the United States. The Act has been amended and extended a number of times to provide workers' compensation benefits to volunteers in the Civil Air Patrol, members of the Reserve Officer Training Corps, Peace Corps Volunteers, Job Corps enrollees, Volunteers In Service to America, members of the National Teachers Corps, certain student employees (see 5 U.S.C. 5351, 8144), employees of the Panama Canal Zone Government and the Panama Canal Company, employees of the Alaska Railroad, certain law enforcement officers not employed by the United States (see 5 U.S.C. 8191–8193), and various other classes of persons who provide or have provided services to the Government of the United States.

(b) The Act provides for the payment of dollar benefits to enumerated classes of persons who are injured or disabled while in the performance of their duties in service to the United States and to

XUM
V40-32 FEB 14 75 XUM

persons within such classes who become sick or disabled as a result of their employment with or service to the United States. The Act further provides for the payment of dollar benefits to certain survivors of persons who have died as a result of or while in the performance of employment or services rendered to the United States. In addition to dollar benefits, eligible beneficiaries who have become disabled as a consequence of a service related injury, disability, disease, or other compensable condition, shall be entitled to receive the full range of medical benefits and services made necessary by the compensable condition, which shall be provided at the expense of the United States. In the case of death due to a compensable injury, disability, disease or other condition certain burial expenses shall be paid, subject to the provisions of 5 U.S.C. 8134. In appropriate cases vocational rehabilitation services shall be provided to eligible beneficiaries.

(c) Each of the types of benefits and conditions of eligibility enumerated in this section is subject to the applicable provisions of the Act and the provisions of this part. This section shall not be construed to modify or enlarge upon the provisions of the Act except to the extent that the provisions of the Act shall be construed to permit the payment of benefits to the victim of an employment related latent or progressive disease or disability if the nature and extent of such disease or disability and the circumstances surrounding the filing of a claim for benefits predicated upon such disease or disability may be reasonably construed to fall within the intent of the provisions of the Act.

§ 10.2 Administration of the Act and this chapter.

(a) Pursuant to 5 U.S.C. 8145 and Secretary of Labor's Orders 13–71 (36 FR 8755) and 16–73 (38 FR 19130) the responsibility for administering the provisions of the Act were delegated to the Assistant Secretary of Labor for Employment Standards. Pursuant to Employment Standards Order 2–74 effective September 27, 1974 (39 FR 34722–34723) the responsibility for the administration and implementation of the Federal Employees' Compensation Act, except for 5 U.S.C. 8149 thereof as it pertains to the Employees' Compensation Appeals Board, was delegated and assigned to the Director, Office of Workers' Compensation Programs. The Director, Office of Workers' Compensation Programs and his or her designees shall, therefore, except as is otherwise provided by law have the exclusive authority for the administration, implementation, and enforcement of the provisions of this chapter.

(b) In the case of employees of the Canal Zone Government and the Panama Canal Company, the Federal Employees' Compensation Act is administered by the Governor of the Canal Zone, and inquiries pertaining to such coverage and eligibility should be directed to the Governor of the Canal Zone.

§ 10.3 Purpose and scope of this part.

(a) This Part 10 sets forth the rules applicable to the filing, processing, and payment of claims for workers' compensation benefits under the provisions of the Federal Employees' Compensation Act, as amended. This part is applicable to all claims filed on or after November 6, 1974. The provisions of this part are intended to afford guidance and assistance to any person seeking compensation benefits under the Act, as well as to personnel within the Department of Labor and other agencies of the United States who are required to perform some function with respect to the administration of any provision of the Act or the processing of any claim filed under the Act.

(b) This Subpart A describes generally the statutory and administrative framework governing the manner in which claims under the Act shall be processed, contains a statement of purpose and scope, together with provisions pertaining to definition and use of terms, the disclosure of program information, and other miscellaneous provisions relating to the administration of the Act.

(c) Subpart B of this part describes the procedure by which an individual claimant shall file a notice of injury and claim for benefits under the Act and further describes the administrative procedures applicable to the processing of each individual claim and the rules governing the termination and continuation of eligibility for benefits with respect to certain previously approved claims.

(d) Subpart C of this part describes special procedures applicable to the continuation of pay provisions contained in 5 U.S.C. 8118 as amended by Pub. L. 93–416, 88 Stat. 1146.

(e) Subpart D of this part contains provisions relating to the procedures governing the payment of dollar benefits for disability or death and further contains additions to the compensation schedule mandated by the new paragraph 22 of 5 U.S.C. 8107(c), Pub. L. 93–416, 88 Stat. 1145.

(f) Subpart E of this part contains the rules governing an employee's rights to obtain medical evidence in support of such employee's claim and further contains information describing the rights of a beneficiary to medical benefits under the Act.

(g) Subpart F of this part is reserved.

(h) Subpart G of this part contains the rules governing the adjustment and recovery from a third person under 5 U.S.C. 8132.

§ 10.4 Applicability of other parts within this chapter.

This revised Part 10 replaces many provisions contained in Subchapter A of this chapter as well as all of Parts 1, 2, and 3 of Subchapter B of this chapter. The provisions of Subchapter A of this chapter are applicable to this part only in so far as such provisions do not conflict with the provisions of this part. This revised Part 10 is applicable to Part 25 of this chapter except as modified by said Part 25.

§ 10.5 Definitions and use of terms.

(a) *Definitions.* For purposes of this subchapter except where the content clearly indicates otherwise, the following definitions apply:

(1) "The Act" means the Federal Employees' Compensation Act, 5 U.S.C. 8101 *et seq.*, as amended by Pub. L. 93–416 and as it may be hereafter amended.

(2) "Secretary" means the Secretary of the United States Department of Labor or a person authorized to perform his functions under the Act.

(3) "Department" means the United States Department of Labor.

(4) "Office" or "OWCP" means the Office of Workers' Compensation Programs, Employment Standards Administration, of the Department.

(5) "Director" means the Director of OWCP or a person designated by him or her to carry out his or her functions under the Act.

(6) "Benefits" or "Compensation" means benefits or compensation paid or payable under the Act and includes money paid on account of a loss of wages, ability to earn wages, money paid in the form of scheduled compensation, medical diagnostic and treatment services supplied pursuant to the Act and this part, money paid on account of death, and certain payments to individuals participating in an approved vocational rehabilitation program.

(7) "Claim" means an assertion in writing of an individual's entitlement to benefits under or pursuant to the Act, submitted in a form and manner authorized by the provisions of this part.

(8) "Claimant" means an individual whose claim for entitlement to benefits under the Act has been filed in accordance with the Act and the provisions of this part.

(9) "Beneficiary" means an individual who is entitled to a benefit under the Act and this part.

(10) "Entitlement" means entitlement to benefits as determined pursuant to the provisions of the Act and the procedures set forth in this part. A beneficiary is entitled to benefits as so determined when the determination is final.

(11) "Employee" means:

(i) A civil officer or employee in any branch of the Government of the United States, including an officer or employee of an instrumentality wholly owned by the United States;

(ii) An individual rendering personal service to the United States similar to the service of a civil officer or employee of the United States, without pay or for nominal pay, when a statute authorizes the acceptance or use of the service, or authorizes payment of travel or other expenses of the individual;

(iii) An individual, other than an independent contractor or an individual employed by an independent contractor, employed on the Menominee Indian Reservation in Wisconsin in operations conducted under a statute relating to tribal timber and logging operations on that reservation;

(iv) An individual employed by the government of the District of Columbia;

(v) An individual appointed to a position on the office staff of a former President under section 1(b) of the Act of August 25, 1958 (72 Stat. 838);

(vi) An individual selected pursuant to Chapter 121 of Title 28, United States Code, and serving as a petit or grand juror and who is otherwise an employee for the purposes of this part as defined by subparagraphs (i), (ii), (iii), (iv), and (v) of this subsection;

(vii) Members of the Reserve Officers Training Corps;

(viii) Civil Air Patrol Volunteers;

(ix) Peace Corps Volunteers, volunteer leaders and volunteers with one or more minor children as defined in Section 2504 of Title 22, United States Code;

(x) Job Corps enrollees;

(xi) Youth Conservation Corps enrollees;

(xii) Volunteers In Service To America;

(xiii) Members of the National Teachers Corps;

(xiv) Members of the Neighborhood Youth Corps;

(xv) Student employees as defined in 5 U.S.C. 5351;

(xvi) Employees of the Canal Zone;

(xvii) Employees of the Alaska Railroad;

(xviii) Law enforcement officers not employees of the United States killed or injured under certain circumstances involving a crime against the United States; and,

(xix) Other persons performing service for the United States within the purview of the Act and all acts in amendments, substitution or extension thereof;

(xx) But does not include.

(A) A commissioned officer of the Regular Corps of the Public Health Service;

(B) A commissioned officer of the Reserve Corps of the Public Health Service on active duty;

(C) A commissioned officer of the Environmental Science Services Administration;

(D) A member of the Metropolitan Police or the Fire Department of the District of Columbia who is pensioned or pensionable under Sections 521–535 of Title 4, District of Columbia Code.

(12) "Official Superior" means officers and employees having responsibility for the supervision, direction or control of employees.

(13) "Employing Agency" or "agency" means any civil agency or instrumentality of the United States Government or any other organization, group or institution employing any individual defined as an "employee" by this section.

(14) "Injury" means injury induced by accident or trauma and includes a disease or latent disabling condition proximately caused by the employment for which benefits are provided under the Act. The term "injury" includes damage or destruction of medical braces, artificial limbs, and other prosthetic devices which shall be replaced or repaired; except that eyeglasses and hearing aids would not be replaced, repaired, or otherwise compensated for, unless the damage or destruction is incident to a personal injury requiring medical services.

(15) "Traumatic Injury" means a wound or other condition of the body caused by external force, including stress or strain. The injury must be identifiable as to time and place of occurrence and member or function of the body affected, and be caused by a specific event or incident or series of events or incidents within a single day or work shift. Traumatic injuries are distinguished from occupational diseases or illnesses in that the latter are produced by systemic infections; continued or repeated stress or strain; exposure to toxins, poisons, fumes, etc., or other continued and repeated exposure to conditions of the work environment over a longer period of time. Traumatic injuries also include damage or destruction to prosthetic devices or appliances, exclusive of eyeglasses and hearing aids unless the eyeglasses and hearing aids were damaged incidental to a personal injury requiring medical services.

(16) "Monthly pay" means the monthly pay at the time of injury, or the monthly pay at the time disability begins, or the monthly pay at the time compensable disability recurs, if the recurrence begins more than 6 months after the injured employee resumes regular full-time employment with the United States, whichever is greater, except when otherwise determined under section 8113 of the Act with respect to any period.

(17) "Price index" means the Consumer Price Index (all items United States city average) published monthly by the Bureau of Labor Statistics.

(18) "Base month" means the month of July 1966 and each later month which is used as a basis for calculating an increase under 5 U.S.C. 8146a.

(19) "Organ" means a part of the body that performs a special function, and for purposes of this part excludes the brain, heart and back.

(20) "United States Medical Officers and Hospitals" means medical officers and hospitals of the Army, Navy, Air Force, Veterans' Administration, and United States Public Health Service, and any other medical officers or hospital designated as a United States medical officer or hospital by the Secretary.

(b) *Statutory terms.* The definitions contained in this part shall not be considered to derogate from the terms of the Act as amended.

(c) *Dependents and survivors.* In addition to basic disability benefits for employees the Act provides in section 8133 that certain monthly benefits shall be payable to certain enumerated survivors of employees who have died from an injury sustained in the performance of duty. Section 8110 of the Act provides that any employee who is found eligible for a basic benefit shall be entitled to have such basic benefit augmented at a specified rate for certain persons living in the beneficiary's household or who are dependent upon the beneficiary for support. The provisions of 5 U.S.C. 8101, 8110, and 8133 defining the nature of such survivorship or dependency necessary to qualify a beneficiary for a survivor's benefit or augmented benefit shall be applicable as appropriate to the provisions of this part.

(d) *Inclusive terms.* As used in this part, the singular case includes the plural.

INFORMATION IN PROGRAM RECORDS

§ 10.10 Custody of records relating to Federal Employees' Compensation Act matters.

All records, medical and other reports, statements of witnesses and other papers relating to the injury or death of a civil employee of the United States or other person entitled to compensation or benefits from the United States under the Act and all amendments or extensions thereof, are the official records of the Office and are not records of the agency, establishment or department making or having the care or use of such records. Such records and papers pertaining to any such injury or death are confidential and no official or employee of a Government establishment who has investigated or secured statements from witnesses and others pertaining to a claim for benefits, or any person having the care or use of such reports, shall disclose information from or pertaining to such records to any person, except upon the written approval of the Office.

§ 10.11 Inspection and copying of records.

(a) *Confidentiality of records.* Records of the Office pertaining to an injury or death are confidential, and are generally exempt from disclosure to the public under Section 552(b)(6) of Title 5 U.S.C., the terms of which are applied in this section. (See also Part 70 of Title 29, Code of Federal Regulations regarding Department of Labor documents exempt from disclosure.)

(b) *Release to the employee or to his/her beneficiary.* If an employee or, in the case of death, such employee's beneficiary or the authorized representative of an employee or beneficiary requests information from the Office's records, such individual shall at the discretion of the Office be permitted to examine the records of the case in which such employee is an interested party or representative of such party. In considering any request for such information the Office shall judge the reasonableness thereof, and may in its discretion permit inspection of such record or part thereof, which in its opinion, will not result in damage or harm to the employee or beneficiary. Where the Office determines the release of information to the employee or to the employee's beneficiary is not in the best interest of the employee or his beneficiary, the Office may release the information to the employee's or beneficiary's representative or personal physician

XUM V40-32 FEB 14 75 XUM

upon receipt of written authorization from the employee or beneficiary. If the individual concerned is mentally incompetent, insane or deceased, the next of kin or legal representative must authorize in writing the release of records to the representative.

(c) *Release to other United States Government departments and agencies.* (1) Information may be released to other departments and agencies which have proper need for the information upon request stating the specific purpose for which it will be used.

(2) In appropriate cases, the requesting department will be advised that the information will be withheld until the Department obtains the written request of the employee or beneficiary concerned.

(3) In honoring requests, the Office shall disclose only that information which is germane to the request.

(d) *Release to medical research or scientific organizations.* Information shall be released, upon the request of medical research or scientific organizations or other qualified researchers when the Office finds that the release of the requested information will not constitute a clearly unwarranted invasion of personal privacy. Where feasible, the Office shall delete identifying detail to prevent a clearly unwarranted invasion of personal privacy. The requesting organization or individual shall be advised that the information must be held in confidence and that any published reports resulting from such study shall not identify in any way the individuals whose records were examined.

(e) *Release to Federal or State courts or other administrative bodies.* Any officer or employee of the United States who is served with a demand for records or information relating to Federal Employees' Compensation Act matters, the disclosure of which has not been authorized, regardless of whether it may or may not be authorized by this section or Part 70 of Title 29, Code of Federal Regulations, shall promptly, and without awaiting appearance before the court or other authority, communicate through established channels the contents of the demand to the Solicitor of Labor. Such officer or employee shall await instructions concerning the response to the demand. If it is determined that the demand should be opposed, the United States attorney, his or her assistant or other appropriate legal representative shall be requested respectfully to inform the court or other authority that the Secretary of Labor has instructed the officer or employee to refuse to disclose the records or information sought. If instructions have not been received at the time when the officer or employee is required to appear before the court or other authority in response to the demand, the United States attorney, his or her assistant, or other appropriate legal representative shall be requested to appear with the officer or employee upon whom the demand has been served and request additional time in which to receive such instructions.

(f) *Release to parties involved in actions brought under 5 U.S.C. 8131.* When an employee or beneficiary is prosecuting an action for damages under 5 U.S.C. 8131, records shall be released as provided for in paragraph (b) of this section. Information from such records requested by other parties in interest in said action for damages may be released only upon the written authorization of the employee or beneficiary, or of the authorized representative, and all such requests shall be directed to the Office.

MISCELLANEOUS PROVISIONS

§ 10.20 Forms.

(a) Notice of injury, claims and certain specified reports required to be made with respect to any claim shall be made on approved forms as are prescribed by the Office. Supervisors are expected to maintain an adequate supply of the basic forms needed for the proper recording and reporting of injuries. Pamphlet CA-136, obtainable from OWCP, lists the forms to be stocked by the agencies; and also tells where the forms may be obtained.

(b) The basic forms cited in this chapter are:

Form No.	Title
(1) CA-1	Federal Employee's Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation.
(2) CA-2	Federal Employee's Notice of Occupational Disease and Claim for Compensation.
(3) CA-2a	Notice of Employee's Recurrence of Disability and Claim for Pay/Compensation.
(4) CA-3	Report of Termination of Disability and/or Payment.
(5) CA-4	Claim for Compensation on Account of Occupational Disease.
(6) CA-5	Claim for Compensation by Widow, Widower and/or Children.
(7) CA-5b	Claim for Compensation by Parents, Brothers, Sisters, Grandparents, or Grandchildren.
(8) CA-6	Official Superior's Report of Employee's Death.
(9) CA-7	Claim for Compensation on Account of Traumatic Injury.
(10) CA-8	Claim for Continuing Compensation on Account of Disability.
(11) CA-16	Request for Examination and/or Treatment.
(12) CA-17	Duty Status Report.
(13) CA-20	Attending Physician's Report.
(14) CA-20a	Attending Physician's Supplemental Report.

(c) Copies of the forms enumerated in this paragraph are available for public inspection at the Office of the Federal Register.

§ 10.21 Waiver of compensation rights invalid.

No official superior or other person is authorized to require an employee or other claimant to enter into any agreement, either before or after an injury or death, to waive his or her right to claim compensation under the Act. No waiver of compensation rights shall be valid.

§ 10.22 Exclusiveness of remedy.

The benefits provided to employees and to survivors of employees by the Act constitute the exclusive remedy against the United States for employment related injuries or deaths. The injury or death of an employee gives rise to no right to recover damages from the United States exclusive of the Act.

§ 10.23 Penalties.

(a) Any person who makes a false statement to obtain Federal employees' compensation or who accepts compensation payments to which he or she is not entitled is subject to a fine of no more than $2,000 or imprisonment for no more than one year, or both.

(b) Any person charged with the responsibility of making reports in connection with an injury who willfully fails, neglects, or refuses to do so; knowingly files a false report; induces, compels, or directs an injured employee to forego filing a claim; or willfully retains any notice, report, or paper required in connection with an injury, is subject to a fine of no more than $500 or imprisonment for no more than one year, or both.

Subpart B—Notice of Injury and Claim for Compensation, Administrative Procedures

NOTICE OF INJURY OR DEATH

§ 10.100 How to file a notice of injury.

(a) *Traumatic injury.* Whenever any employee sustains a traumatic injury which he or she believes to have occurred while in the performance of duty, such employee shall immediately give written notice of the injury to his or her official superior. If the employee is unable to give such notice for any reason, such notice may be given by any person with knowledge of the injury on behalf of the injured employee. Form CA-1, Federal Employee's Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation, is approved by the Office for the giving of such notice.

(b) *Occupational disease.* Whenever an employee has reason to believe that he or she is suffering from an employment related occupational disease or disability which has not been traumatic in onset, such employee or any person acting on behalf of such employee shall ment related occupational disease or disability to such employee's official superior in the manner prescribed in paragraph (a) of this section, except that notice is given on Form CA-2, Federal Employees' Notice of Occupational Disease and Claim for Compensation. If for any reason it is impractical to give such notice to the employee's official superior in the case of an occupational disease or disability, notice of the disease or disability may be given to any official of the employee's employing agency or to the Office.

§ 10.101 Report of death.

(a) *Traumatic injury.* When an employee dies because of a traumatic injury

sustained while in the performance of duty, such employee's official superior shall immediately report such death to the Office by telephone or telegraph. As soon thereafter as is practicable such official superior shall complete and send to the Office a form CA-6, Official Superior's Report of Employees' Death.

(b) *Occupational disease.* When an employee dies while in the performance of duty as a result of an occupational disease such employee's official superior shall immediately report such death in the manner prescribed in paragraph (a) of this section. If for any reason it is impracticable for such employee's official superior to report such employee's death due to an occupational disease or disability, such report may be made by any official superior of the employing agency or any other person acting on behalf of the deceased employee's survivors.

§ 10.102 When a notice of injury or report of death must be given.

(a) *Traumatic injury.* In the case of a traumatic injury or death due to a traumatic injury notice of such injury or death must be given pursuant to 5 U.S.C. 8119, within 30 days from the date on which the injury or death occurred. The failure to give notice within the period specified by this paragraph may result in a loss of compensation rights.

(b) *Occupational disease.* In the case of the onset of an occupational disease or disability notice of such onset or death shall be given within 30 days from the date on which the claimant has been informed by competent medical authority or by the exercise of reasonable diligence should have been made aware that he or she is suffering from an occupational disease or disability or in the case of death, within 30 days from the date of such death. In the case of a death due to an occupational disease or disability the 30 day period specified in this section does not apply until such time as the deceased employee's survivors or official superior should by the exercise of reasonable diligence be aware that the employees' death was due to an employment related occupational disease or disability. The failure to give notice within the time period specified by this paragraph may result in a loss of compensation rights.

§ 10.103 Report of injury by official superior and physician.

(a) The official superior is required to promptly submit to the Office a written report of every injury or occupational disease when it is likely to (1) result in a medical charge against the Office, (2) result in disability for work beyond the day or shift of injury, (3) require prolonged treatment, (4) result in future disability, (5) result in permanent disability or (6) result in a continuation of pay pursuant to 5 U.S.C. 8118. Portions of Forms CA-1 or CA-2 are provided for this purpose. The official superior shall also furnish the Office with a report of any investigation made and any other statements or data which may properly relate to the circumstances of the injury. If the injury need not be reported to the Office, the Form CA-1 or CA-2 shall be retained as a permanent record in the employee's personnel folder.

(b) In all cases reported, the Office shall be furnished with an immediate medical report from the attending physician. This report may be made: (1) on Part B of Form CA-16; (2) on Form CA-20, Attending Physician's Report; or (3) by narrative report on the physician's letterhead stationery.

(c) Other reports shall be submitted by the official superior and attending physician as described elsewhere in this part or as may be required by the Office.

CLAIMS FOR COMPENSATION

§ 10.105 Time for perfecting a claim for compensation.

(a) *Claim for disability compensation.* An injured employee is required to file a written claim for compensation within 3 years after the injury before compensation may be paid. If, however, the official superior had actual knowledge of the injury within 30 days, or if written notice was given within 30 days, compensation is allowed regardless of whether a written claim was made within 3 years after the injury. Actual knowledge must be such as to put the official superior reasonably on notice of an on-the-job injury.

(b) *Claim for death compensation.* If the employee dies, a written claim for compensation by or on behalf of the survivors is required before compensation may be paid. This claim is to be filed within 3 years after the death, unless within 30 days of such death, the official superior had actual knowledge of the death, due to an employment related injury or disease or written notice of such death was given to the official superior within 30 days of such death. The timely filing of a disability claim because of an on-the-job injury will satisfy the time requirements for a death claim based on the same injury.

(c) *Claim predicated upon a latent disability.* In a case of latent disability, or death due to a latent disability, the time for filing a claim does not begin to run until the employee has a compensable disability or dies and is aware or his survivors are aware, or by the exercise of reasonable diligence should have been aware, of the causal relationship of the compensable disability or death to the employment. In such a case, the time for giving notice of injury or death begins to run when the employee is aware or the survivors are aware, or by the exercise of reasonable diligence should have been aware that the employee's condition or death is causally related to his or her employment, whether or not there is a compensable disability or death.

(d) The time limitations described in this section do not begin to run against a minor until such minor reaches 21 years of age or has had a legal representative appointed; or run against an incompetent individual while such individual is incompetent and has no duly appointed legal representative; or run against any individual whose failure to comply is excused by the Secretary of Labor on the ground that notice could not be given because of exceptional circumstances.

§ 10.106 How to file a claim for disability compensation.

(a) A claim may be filed by delivering it to the Office, or to any person designated by the Office to receive claims. The employee's official superior is so designated to receive claims on behalf of the Office, and the injured employee may submit his claim to such official superior for transmission to the Office unless special circumstances require a different procedure. The official superior shall submit the injured employee's claim to the Office within 2 working days.

(b) Notwithstanding the filing of any document provided for by Paragraph (a) of this section, no disability compensation shall be payable unless the employee completes the front of a Form CA-4 and submits it to his or her official superior. The employee and the official superior shall complete the Form CA-4. The official superior also shall complete Items 1-4 on the front of the attached Form CA-20 and insert the appropriate Office address on the back thereof, and then detach the Form CA-20 and send it to the attending physician for completion and submission to the Office. The official superior shall forward the completed Form CA-4 to the Office within 2 working days.

(c) Except as provided in Subpart C of this part, whenever an employee, as a result of an injury in the performance of duty, is disabled with loss of pay for more than 3 days, the official superior shall furnish to the employee a Form CA-4 for the purpose of claiming compensation, and shall advise the employee of his or her rights under the Act.

(d) Claims for compensation for permanent disability which involve the loss, or loss of use, of a member or function of the body, or loss, or loss of use of any other important external or internal organ of the body excluding the heart, brain, and back, as listed in 5 U.S.C. 8107 (see § 10.304), shall be filed on Form CA-4 or CA-7 as appropriate which the official superior shall furnish.

(e) Claims for serious disfigurement of the face, head, or neck shall be made on Form CA-4 or CA-7 as appropriate (which shall be furnished by the official superior). If any compensation has been paid or is payable for any such prior disfigurement the date of such prior injury, the amount of compensation and the source thereof shall be stated in the said CA-4 or CA-7.

(f) Form CA-4 shall be filed with the Office upon termination of disability if the duration of disability should be less than 10 calendar days, or at the expiration of 10 calendar days from the date pay stops if disability continues beyond that date.

§ 10.107 Application for augmented compensation for disability.

(a) While the disabled employee has one or more dependents as defined in 5 U.S.C. 8110 such employee's basic compensation for disability shall be aug-

XUM
V40-32 FEB 14 75 XUM

mented as provided in said section. Form CA–4 includes an application for such augmented compensation.

(b) Augmented compensation payable while a disabled employee has an unmarried child as defined by 5 U.S.C. 8110 which would otherwise terminate because the child reaches the age of 18, may be continued while the child is a student regularly pursuing a full-time course of study or training as defined by the above said section of the Act.

(c) The disabled employee claiming augmented compensation under this section shall furnish, when so required by the Office, proof of continuing entitlement to augmented compensation as set forth in paragraph (a) of this section.

(d) The disabled employee receiving augmented compensation under this section shall promptly notify the Office of the happening of any event which would terminate an employee's continued entitlement to augmented compensation under the provisions of 5 U.S.C. 8110. Any checks or payments received after the occurrence of such event shall be returned promptly to the Office.

§ 10.108 How to file an original claim for death benefits.

An original claim for death benefits may be filed by any survivor of a deceased employee (see section 8133 of the Act) or any other person acting on behalf of such survivor. Form CA–5 is provided by the Office for this purpose, and should be executed as provided therein. An original death claim may be filed by delivering a completed Form CA–5 to the Office, or to any person designated by the Office to receive such claim. The deceased employee's former official superior is so designated to receive such claims on behalf of the Office, and the person claiming benefits should submit the claim to such former official superior, unless special circumstances require a different procedure. The official superior shall, when it is practicable, furnish to all persons likely to be entitled to compensation for death of an employee, a Form CA–5 or CA–5b with information as to the use of the form for making claim for compensation and procedure in respect of filing such form. The furnishing of assistance in preparing such form or in obtaining evidence relating to the claim shall be without charge by the official superior. Any claim or paper purporting to claim compensation on account of death, submitted to the deceased employee's former official superior, shall be transmitted promptly to the Office.

§ 10.109 Claims for balance of schedule due at death from other causes.

(a) If an employee files a valid claim for a scheduled loss (permanent disability which involves the loss or loss of use of a member or function of the body as provided in 5 U.S.C. 8107) in his or her lifetime and dies from causes other than the injury, before the entire amount due for such schedule is paid, claim for such unpaid balance may be made on an application form approved by the Office as follows: By the widow, widower, or child in the proportions and upon the conditions and in the order named in 5 U.S.C. 8109(a)(3)(D). If there is no surviving widow, widower, or child, then a claim for such unpaid balance may be made pursuant to § 10.108 in the proportions and upon the conditions and in the order as follows: To the parent or parents wholly dependent for support upon the decedent. If there is no parent wholly dependent then to a partially dependent parent or parents in equal shares with any partially dependent brother, sister, grandparent or grandchild. If one or more of the brothers, sisters, grandparents, or grandchildren are wholly dependent and a parent or parents and other brothers, sisters, grandparent, or grandchildren are partially dependent, then 75 percent will be awarded to such wholly dependent person or persons equally and the balance divided equally among such partially dependent persons. In the event there is no surviving widow, widower, child, or wholly dependent parent, and the foregoing apportionment of such compensation would result in injustice, the Office may, in its discretion, make such other apportionment as justice would require.

(b) The right of any survivor referred to in paragraph (a) of this section shall be conditioned upon his or her being alive to receive any payment and any such survivor shall not have a vested right to any such payment. Claims for continuation of payments under 5 U.S.C. 8109 shall be made in like manner and governed by § 10.124.

(c) The entitlement of any survivor to payments under 5 U.S.C. 8109 shall cease upon the happening of any event which would terminate such right under 5 U.S.C. 8133. The termination of such right shall be governed by § 10.125. In the event of any reapportionment made necessary by such termination prompt notification shall be made to the Office in accordance with § 10.126.

(d) As to the disposition of any balance not paid under the foregoing paragraphs see § 10.306.

EVIDENCE

§ 10.110 Affidavit or report by employee of employment and earnings.

The Office may require a partially disabled employee to submit an affidavit or other report as to his or her earnings either from employment or self-employment. If such individual, when required, fails within a reasonable time to submit such affidavit or report or if in such affidavit or report the employee knowingly omits or understates any part of such earnings or remuneration such employee shall forfeit his or her right to compensation with respect to any period for which such affidavit or report was required to be made, and any compensation already paid may be recovered by deducting the amount thereof from compensation payable to him or her or otherwise according to law. Earnings from employment referred to in this section or elsewhere in this part means gross earnings or wages before any deductions whatsoever have been taken out of such wages, and include the value of subsistence, quarters, or other advantages received in kind as part of the wage or remuneration. In general, earnings from self-employment means the rate of pay the employee estimates it would cost him or her to have someone else perform the work the employee is performing.

§ 10.111 Submission of other evidence.

Any claimant or person acting on behalf of such claimant may submit to the Office such evidence including documentary evidence, statements of witnesses or physicians, and any other evidence, which the claimant deems pertinent to the final determination of his claim.

TERMINATION AND CONTINUATION OF ELIGIBILITY

§ 10.120 Report of termination of disability or return to work.

In all cases reported to the Office the official superior is required to notify the Office immediately when the injured employee returns to work or when his or her disability ceases. Form CA–3, Report of Termination of Disability and/or Payment, is provided for this purpose. It shall be used unless a report of termination of disability is made to the Office on Form CA–1 or CA–2, or CA–4, or CA–7 as appropriate, or in some other manner.

§ 10.121 Recurrence of disability for work.

(a) The official superior shall notify the Office if, after the employee returns to work, the same injury causes such employee to stop work again .This report shall be made on Form CA–2a, Notice of Employee's Recurrence of Disability and Claim for Pay/Compensation. If the injured employee does not return to duty prior to the date this form is submitted to the Office, an additional report shall be made on Form CA–3 or in a similar manner when the employee returns to work or his/her disability ceases.

(b) If the employee wishes to claim compensation as a result of the recurrence, a Form CA–4, CA–7, or CA–8 is required as appropriate. All parts of the appropriate form plus a medical report on Form CA–20 (or in narrative form), must be completed.

§ 10.122 Claims for continued compensation for disability.

Form CA–8, Claim for Continuing Compensation on Account of Disability, is provided to claim compensation for additional periods of time after Form CA–4 is submitted to the Office. While disability continues, claim on this form shall be submitted every 2 weeks until the employee is otherwise instructed by the Office. The employee shall complete and sign the face of the form, and the official superior shall complete the reverse side. The official superior also shall complete items 1–6 on the front of the attached Form CA–20a and insert the appropriate Office address on the back thereof, and then detach the Form CA–20a and send it to the attending physician for completion and submission to the Office. The official superior will forward the completed Form CA–8 to the Office within 2 working days.

§ 10.123 Employee's obligation to return to work or to seek work when able.

When total disability to perform work ceases and the employee is able to perform a part of his usual duties, or to perform work of a different nature, the employee must seek such suitable work as he or she is able to perform, either in Government or private employment, unless it has already been provided for such employee, and shall accept such work or offer of work secured for him or her. An employee who has not beaen regularly employed during the period covered by such employee's claim, and who is only partially disabled, shall state in his or her claim what efforts he or she has made to obtain suitable employment giving the names and addresses of persons or concerns to whom the employee has applied for work. If the employee has not been offered or has not been able to secure work which he or she is able to do, he or she shall so state. If a partially disabled employee refuses to seek suitable work or refuses or neglects to work after suitable work is offered to, procured by, or secured for the employee, he or she shall not be entitled to any compensation.

§ 10.124 Continuance of compensation on account of death.

(a) A beneficiary to whom an award of compensation has been made on account of an employee's death, pursuant to his or her original claim, shall submit to the Office additional claims for continuance of compensation to the Office once each year. Form CA–12 is provided by the Office for this purpose, and will be sent to the beneficiary when an additional claim is required. Failure to submit the form may result in suspension of compensation.

(b) A beneficiary to whom an award of compensation has been made for a child, brother or sister, or grandchild after he or she has reached the age of 18 because he or she continues to regularly pursue a full-time course of study or training shall furnish, when so required by the Office, proof of continuing entitlement to such compensation. Failure to submit the proof may result in suspension of compensation.

(c) Compensation payable on behalf of a child, brother or sister, or grandchild under 5 U.S.C. 8133, which would otherwise be terminated because such individual reached 18 years of age, shall be continued if he or she is a student at the time he or she reaches age 18 for so long a period as he or she continues as a student or marries. An individual shall be considered a student while regularly pursuing a full-time course of study or training at an institution which is—

(1) A school or college or university operated or directly supported by the United States, or by any State and local government or political subdivision thereof, or

(2) A school or college or university which has been accredited by a State or by a State-recognized or nationally recognized accrediting agency or body, or

(3) A school or college or university not so accredited but whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited, or

(4) A technical, trade, vocational, business, or professional school accredited or licensed by the Federal, or a State government or any political subdivision thereof providing courses of not less than 3 months duration, that prepare the child for a livelihood in a trade, industry, vocation, or profession; but not after he or she reaches the age of 23 or has completed 4 years of education beyond the high school level, except that, where the child's 23rd birthday occurs during a semester or other enrollment period, he or she shall continue to be considered a student until the end of such semester or other enrollment period. A child shall not be deemed to have ceased to be a student (1) during any interim between school years if the interim does not exceed 4 months and the child shows to the satisfaction of the Office that he or she has a bona fide intention of continuing to pursue a full-time course of education or training during the semester or other enrollment period immediately following the interim or (2) during periods of reasonable duration during which, in the judgment of the Office the child is prevented by factors beyond his or her control from pursuing his or her education.

§ 10.125 Termination of right to compensation for death.

When a beneficiary who is receiving compensation on account of death ceases to be entitled to such compensation, by reason of remarrying before age 60, marrying, reaching the age of 18, ceasing to be dependent, or ceasing to be a student, or becoming capable of self-support, the beneficiary or someone in his or her behalf shall immediately notify the Office of such fact. If such beneficiary receives a check which includes payment of compensation for any period after the date when he or she ceased to be entitled to it, for any of the above reasons, he shall promptly return it to the Office. On remarriage before reaching age 60, a widow or widower entitled to compensation under 5 U.S.C. 8133, shall be paid a lump sum equal to twenty-four times the monthly compensation payments (excluding compensation on account of another individual) to which he or she was entitled immediately before the remarriage.

§ 10.126 Change in status of beneficiaries affecting compensation for death.

When two or more beneficiaries are receiving compensation on account of the death of an employee and any event occurs which may require a reapportionment of the amount of compensation payable to one or more of them, such beneficiary, or someone on his or her behalf, shall promptly notify the Office giving the date of the event and all essential facts. Such reapportionment may become necessary when any such beneficiary dies or marries, when a child, grandchild brother, or sister of the decedent becomes 18 years old or if over 18, becomes capable of self-support or ceases to be a student, or when a parent or grandparent of the decedent ceases to be dependent, or when a posthumous child of the decedent is born.

DETERMINATIONS OF CLAIMS, HEARING AND REVIEW PROCEDURES

§ 10.130 Processing of claims.

Claims for compensation for disability and death are processed by claims examiners of the Office, whose duty it is to apply the law to the facts as reported, received, or obtained upon investigation. The Federal Employees' Compensation Act, as amended, requires determination of a claim, with findings of fact and a decision for or against the payment of compensation, upon consideration of the claim presented by the claimant, the report by his or her immediate official superior, and the completion of such investigation as the Office may deem necessary. There is no required procedure for the production of evidence, and evidence in written form is accepted. The final authority in the Office in the determination of a claim is vested in the Director of the Office. The decision shall contain findings of fact and a statement of reasons. A copy of the decision, together with information as to the right to a hearing, to a review, and to an appeal to the Employees' Compensation Appeals Board, shall be mailed to the claimant at his or her last known address.

§ 10.131 Request for a hearing.

Any claimant not satisfied with a decision of the Office shall, upon written request made within 30 days after the date of issuance of such decision, be afforded an opportunity for a hearing before an Office representative designated by the Director. The request for hearing shall be made to the Director, Office of Workers' Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211. At such hearing, the claimant shall be afforded an opportunity to present evidence in further support of his or her claim.

§ 10.132 Time and place of hearing; prehearing conference.

(a) The Office representative shall set the time and place of the hearing, and shall mail written notice thereof to the claimant at least 10 days prior to the hearing. The hearing will, when practicable, be set at a time and place convenient for the claimant. The Office representative may, and when so requested by the claimant shall, afford the claimant a prehearing conference to clarify the issues in his or her claim and, when necessary, shall postpone the hearing for this purpose. Request for such confer-

XUM
V40132
FEB 14 75
XUM

ence may be made to the Office representative orally or in writing.

(b) A hearing may be postponed or cancelled upon the request of the claimant if such request is received by the Office or official of the Office assigned to conduct the hearing at least 48 hours prior to the time of the hearing or at the option of the Office. The unexcused failure of a claimant to appear at a hearing or late notice may result in the assessment of costs against such claimant.

§ 10.133 Conduct of hearing.

(a) In conducting the hearing, the Office representative shall not be bound by common law or statutory rules of evidence, by technical or formal rules of procedure, or by section 5 of the Administrative Procedure Act, but may conduct the hearing in such manner as to best ascertain the rights of the claimant. For this purpose the representative shall receive such relevant evidence as may be adduced by the claimant and shall, in addition, receive such other evidence as such representative may determine to be necessary or useful in evaluating the claim. Evidence may be presented orally or in the form of written statements and exhibits. The hearing shall be recorded, and the original of the complete transcript shall be made a part of the claims record.

(b) Pursuant to 5 U.S.C. 8126 the Office may whenever necessary: (1) Issue subpoenas for and compel the attendance of witnesses within a radius of 100 miles; (2) administer oaths; (3) examine witnesses; and (4) require the production of books, papers, documents, and other evidence, with respect to proceedings conducted for the purpose of determining the validity of any claim under this part.

§ 10.134 Termination of hearing; decision; review of decision.

The Office representative shall fix the time within which he or she will receive evidence, and shall terminate the hearing by mailing a copy of his tentative decision, setting forth the basis therefor, to the claimant at his or her last known address. Such tentative decision shall become the final decision unless revised within 30 days. A copy of any revision of the tentative decision, setting forth the basis therefor, shall be mailed to the claimant at his or her last known address within such 30 day period.

§ 10.135 Withdrawal of request for hearing; abandonment.

A claimant may withdraw his or her request for a hearing at any time prior to the mailing of the decision, by written notice to the Office representative so stating, or by orally so stating at the hearing. A claimant shall be deemed to have abandoned his or her request for a hearing if he or she fails to appear at the time and place set for the hearing and does not within 10 days after the time set for the hearing, show good cause for such failure to appear.

§ 10.136 Review of decision.

An award for or against the payment of compensation may be reviewed by the Office under 5 U.S.C. 8128(a) at any time, on its own motion or on application of the claimant. No formal application for review is required, but a written request for review, stating reasons why the decision should be changed and accompanied by evidence not previously submitted to the Office, is necessary to invoke action. Such request shall be made to the Director, Office of Workers' Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211.

§ 10.137 Review by Employees' Compensation Appeals Board.

Final decisions of the Office are subject to review by the Employees' Compensation Appeals Board (ECAB), U.S. Department of Labor, under the rules of procedure set forth in Part 501 of this title.

§ 10.138 [Reserved]

§ 10.139 [Reserved]

§ 10.140 Participation in claims process by employing agency.

Procedures conducted with respect to claims filed under the Act are intended to be nonadversary in character. Accordingly, a claimant's employing agency shall not have the right, except as provided in Subpart C of this part, to actively participate in the claims adjudication process. An employing agency may, however, in its discretion, submit affidavits and other relevant and probative statements regarding any particular claim. Such evidence shall be reviewed by the Office and acted upon as appropriate.

§ 10.141 Representation of the Director.

The Director shall be represented in proceedings with respect to any claim conducted before the Employees' Compensation Appeals Board by attorneys from the Office of the Solicitor of Labor. The Office of the Solicitor may, pursuant to the Secretary of Labor's Order of September 23, 1974 (39 FR 34723), refuse to represent the Director with respect to any particular case or matter as appropriate.

§ 10.142 Representation of claimants.

Any claimant may appoint an individual to represent his or her interest in any proceeding for determination of a claim under this part. Such appointment shall be made in writing or on the record at the hearing. A written notice appointing a representative shall be signed by the claimant or his or her legal guardian and shall be sent to the Office. In any case such representative must be qualified under § 10.143.

§ 10.143 Qualification of representative.

(a) *Attorney.* Any attorney in good standing who is admitted to practice before a court of a State, territory, district, or insular possession or before the Supreme Court of the United States or other Federal court and is not, pursuant to any provision of law, prohibited from acting as a representative may be appointed as a representative.

(b) *Other person.* Any other person with the approval of the Office may be appointed as a representative so long as that person is not, pursuant to any provision of law, prohibited from acting as a representative.

§ 10.144 Authority of representative.

A representative, appointed and qualified as provided in this part may make or give, on behalf of the claimant he or she represents, any request or notice relative to any proceeding before the Office under the Act, including formal hearing and review. A representative shall be entitled to present or elicit evidence and make allegations as to facts and law in any proceeding affecting the claimant he or she represents and to obtain information with respect to the claim of such claimant to the same extent as such party. Notice to any claimant of any administrative action, determination, or decision, or request to any party for the production of evidence may be sent to the representative of such claimant, and such notice or request shall have the same force and effect as if it has been sent to the claimant.

§ 10.145 Fees for services.

(a) No fee for representation services rendered in respect to a claim under this part shall be valid, unless prior approval of such fee has been obtained from the Office.

(b) The fee approved by the Office will be determined on the basis of the actual necessary work performed and will generally include but are not limited to the following factors:

(1) Usefulness of the representative's services to the claimant.

(2) The nature and complexity of the claim.

(3) The actual time spent on development and presentation of the claim.

(4) The amount of compensation accrued and potential future payments.

(5) Customary local charges for similar services.

(6) Professional qualifications of the representative.

(c) In every case where a representative's fee is desired, an application for approval of the fee shall be made to the Office. Each request for approval of a fee shall be accompanied by a complete itemized statement, in duplicate, describing the services rendered. Such itemization shall contain the following information:

(1) The dates that services began and ended in addition to all dates on which conferences were held, documents or letters prepared, telephone calls made, etc.

(2) A description of each service rendered with the amount of time spent on each type of service.

(3) The amount of the fee which the representative desires for services performed.

(4) The amount of fees requested, charged or received for services rendered on behalf of the claimant before any State or Federal court or agency, in a similar or related matter.

(5) A statement explaining the basis for the amount of the fee requested.

(d) The Office will arrange for the claimant to review the request for a fee and to comment as to the services provided and as to the reasonableness of the fee.

(e) In considering any request for such a fee, the Office will not recognize such items as:

(1) Work performed before any other State or Federal agency or court including the Employees' Compensation Appeals Board, and any State or Federal Court.

(2) Any contract for the payment of an agreed sum or any contingent contract.

(3) Expenses incurred by the representative for services performed.

(f) The Office will not pay or assist in the collection of any representative fee. Neither will compensation payments be routinely forwarded to the representative with or without the claimant's approval.

(g) Any claimant aggrieved or adversely affected by an award of a fee, may request a hearing or reconsideration by the Office. Thereafter, the appeals procedure described in this subpart may be utilized by the claimant.

(h) A representative aggrieved or adversely affected by an award of a fee, may utilize the appeals procedure described in this subpart.

(i) Any person who receives a fee, other consideration or gratuity on account of services rendered with respect to a claim under this part, unless approved by the Office, or who solicits employment for himself or another in respect to a case or claim, under (or to be brought under) this Act shall be guilty of a misdemeanor and upon conviction of each offense, will be punished by a fine of not more than $1,000 or imprisoned not to exceed 1 year or both such fine and imprisonment.

§ 10.146 [Reserved]

§ 10.147 [Reserved]

§ 10.148 [Reserved]

§ 10.149 [Reserved]

§ 10.150 Statement relative to substantive rules.

(a) The principal function of the Office and its subordinate parts is that of adjudicating claims for workers' compensation. This function is quasijudicial in character and involves the application of statutes and principles of law to resolve factual situations. This field of activity is within the specialized branch of the law generally referred to as "workers' compensation," and has its own particularized principles which have general applicability to workers' compensation statutes (State and Federal), as such statutes have certain common or underlying similarity in respect to the meaning of terms and phrases, and in respect to scope, jurisdiction, and general basic concepts of employer liability.

(b) In the administration of the Act, the Office has one general policy, which is to follow and to adhere to the principles of workers' compensation law as stated in the opinions of the Supreme Court, the Federal Circuit Courts of Appeal, and the District Courts of the United States, as they may appropriately be applied or have been determined by the Employees' Compensation Appeals Board (ECAB) to apply in like situations arising under the Act. In addition, decisions and opinions of the judicial tribunals of the several States furnish principles of law of general applicability in the specialized field of workers' compensation, which form parts of the foundation of general principles relied upon in the application and interpretation of the Act. The Office applies the provision of the Act applicable in respect to a particular case or situation, to the extent that such provision can readily be applied without extrinsic aid, but where such aid is necessary the source thereof is the body of principles embodied in authoritative decisions of the courts and the ECAB within such well-recognized branch of the law.

Subpart C—Continuation of Pay

General

§ 10.200 Statutory provisions.

(a) Pub. L. 93-416, approved September 7, 1974, significantly revised 5 U.S.C. 8118 to provide that an employee ["Employee" for the purposes of this subpart means only such employees as are enumerated in § 10.5(a)(11) (i), (ii), (iv), (vi)] who has filed a claim for a period of wage loss due to a traumatic injury shall be entitled under certain circumstances, to have his regular pay continued for a period not to exceed 45 days pending the OWCP's determination of such employee's claim for compensation under the Act.

(b) Pursuant to 5 U.S.C. 8118(e), pay continued under this subpart shall not be considered compensation and shall be subject to all applicable taxes and other payroll deductions.

Procedures

§ 10.201 Right to continuation of pay.

(a) An employee who sustains a disabling, job-related traumatic injury is entitled to the continuation of his or her regular pay for a period not to exceed 45 days without a break in time unless such right is controverted by the employee's employing agency.

(b) The entitlement to compensation of any person excluded from the continuation of pay provisions of the Act shall begin from the date of pay loss, subject to other applicable sections of the Act.

§ 10.202 Controversion by employing agency.

(a) The employing agency may, on the basis of the information submitted by the employee, or secured on investigation, controvert a claim and terminate an employee's pay only if:

(1) The disability is a result of an occupational disease or illness; or

(2) The employee falls within the exclusions of 5 U.S.C. 8101(1) (B) or (E); or

(3) The employee is neither a citizen nor resident of the United States or Canada (i.e., a foreign national employed outside of the United States or Canada); or

(4) The injury occurred off the employing agency's premises and the employee was not engaged in official "off premise" duties; or

(5) The injury was caused by the employee's willful misconduct, the employee intended to bring about the injury or death on himself or herself or another person or the employee's intoxication was the proximate cause of the injury; or

(6) The injury was not reported on Form CA-1, within 30 days following the injury; or

(7) Work stoppage first occurred six months or more following the injury; or

(8) The employee initially reports the injury after his or her employment has terminated; or

(9) The employee is enrolled in the Civil Air Patrol, Peace Corps, Job Corps, Youth Conservation Corps, Work Study Programs, or other similar groups.

(b) In all other cases, the employing agency may controvert an employee's right to continuation of pay, however, such employee's regular pay shall not be interrupted during the 45 day period unless the controversion is sustained by the Office and until the employing Agency is so notified.

§ 10.203 Manner of controversion.

An employing agency may controvert a claim for purposes of this subpart by completing the indicated portion on Form CA-1, Federal Employee's Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation, and submitting detailed information in support of the controversion to the Office.

§ 10.204 Termination of continuation of pay.

(a) Where pay is continued after an employee stops work due to a disabling traumatic injury, such pay shall not be terminated until:

(1) The agency receives medical information from the attending physician to the effect that the employee is no longer disabled; or

(2) The agency receives notification from the Office that pay should be terminated; or

(3) The expiration of 45 days.

(b) The 45 days during which pay may be continued pursuant to this subpart are calendar days and if the employee has stopped work due to the disabling effects of the injury, the period starts at the beginning of the first full day or first full shift during which the disability begins provided such disability began within six months of the occurrence of the injury. The agency will keep the employee in a pay status for any fraction of a day or shift on which the disability

XUM V40-32 FEB 14 75 XUM

begins with no "charge" to the 45 day period. If the employee stops work for only a portion of a day or shift (other than the day or shift when disability begins), such day or shift will be considered as one calendar day. If the employee is not immediately disabled due to the injury, the 45 days will begin on the first full day or the first full shift when disability begins.

(c) Where pay is continued at a rate subsequently determined by the Office to be incorrect, the Office shall notify the agency of the correct pay rate and the agency will make the necessary adjustment.

§ 10.205 Regular pay defined.

(a) For a regular full time or part-time worker in the regular work force of the agency who works the same number of hours per week, the weekly pay rate shall be equal to the number of hours regularly worked each week times the hourly pay rate on the date of injury, exclusive of overtime.

(b) For a regular part-time worker in the regular work force of the agency who does not work the same number of hours per week the weekly pay rate shall be the average weekly earnings for the one year period prior to the date of injury, exclusive of overtime.

(c) For an irregular WAE, intermittent, etc., worker who is not a part of the agency's regular full or part-time work force, the weekly pay rate shall be the average of the employee's weekly earnings during the one year prior to the injury, but the average annual earnings may not be less than 150 times the average daily wage earned within one year prior to the date of injury. (The daily wage rate shall be the hourly rate times 8.) Premium, night or shift differential, Sunday or holiday pay, or other extra pay should be included in all instances; however, overtime pay must not in any instance (i.e., either regular or irregular employment) be made a part of the continuation of pay rate.

§ 10.206 Agency accounting and reporting of continuation of pay.

(a) Pending development of a system within the Office for directly capturing and tabulating data on continuing payments to employees under 5 U.S.C. 8118, each agency and instrumentality of the United States having an employee who was in a continuation of pay status during the calendar quarter shall submit a report to the Office within 30 days after the end of each quarter (address: Director, Office of Workers' Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211).

(b) Quarterly reports are to include data on all continuation of pay cases paid in the quarter for only those employees who have returned to work or exceeded the 45-day period by the last pay date of the reporting agency or instrumentality during the quarter (employees who have not returned to work or exceeded the 45-day period by the last pay date of the quarter are to be reported in the following quarter).

(c) Reported summary data for employees returning to work during the quarter is to include:

(1) Total number of employees provided such continuation of pay.

(2) Total number of workdays or shifts (full workdays) for which these employees were paid during the quarter (and the earlier quarter if return to work did not occur during such earlier quarter).

(3) Total amount paid to all employees during the quarter (and the earlier quarter if return to work did not occur during such earlier quarter).

OFFICIAL SUPERIOR'S AND BENEFICIARIES' RESPONSIBILITIES

§ 10.207 Official superior's responsibility in continuation of pay case.

(a) Upon receiving notice that an employee has suffered an employment related traumatic injury an official superior shall:

(1) Promptly authorize medical care in accordance with Subpart E of this part;

(2) Provide the employee with Form CA-1 for reporting the injury and upon receipt of the completed form, return to the employee the "Receipt of Notice of Injury.";

(3) Advise the employee of the right to elect continuation of regular pay or use annual or sick leave, if the injury is disabling;

(4) Inform the employee whether continuation of pay will be controverted, and if so, whether pay will be terminated, and the basis for such action;

(5) Promptly submit Form CA-1 fully completed by both employee and official superior together with all other pertinent information and documents to the Office within two working days following the official superior's receipt of such completed form from the employee.

(6) If the official superior controverts the claim (whether or not pay is terminated), explanation for the controversion will be submitted to the OWCP on the official superior's portion of Form CA-1 and/or by separate narrative report.

(7) In addition, such official superior shall report to the Office any injury resulting in probable disability or death in accordance with this part, and thereafter make any additional reports as the Office may require.

(b) In the case of a traumatic injury for which the continuation of pay may be appropriate, the injured employee's official superior shall to the best of his or her ability inform such employee of the advantages and disadvantages of the continuation of pay provisions of the Act. Special attention shall be drawn to the fact that continued pay is subject to taxes and all other regular payroll deductions as well as to the fact that an employee who chooses not to elect continuation of pay may be without income for an undetermined period of time subsequent to the onset of his or her disability.

§ 10.208 Recurrence of disability.

(a) Should an employee suffer a recurrence of disability, and again stop work and the initial claim has been approved by the Office, the official superior shall promptly complete Form CA-2a. The employee shall advise the official superior whether he or she wishes to continue to receive regular pay or charge the absence to sick or annual leave.

(b) If the employee so elects, the official superior shall again continue regular pay, providing the 45 calendar days were not all "used" during the initial period of disability. This is applicable, however, only during a six month period beginning from the date the employee first returned to work following the initial disability. If a recurrence happens after the six months have expired, the employing agency should not continue regular pay, although some of the 45 days may remain "unused". In such instances, the employee is entitled only to compensation payable by the Office.

(c) If the 45 day entitlement period has been exhausted, or six months have expired since the employee first returned to work, the employing agency is not required to continue regular pay. The Office shall be responsible for initiating payment of compensation. In such instance, the employee shall file claim for any wage loss on the appropriate Form CA-7 or CA-8.

(d) If the recurrence happens less than six months following the most recent prior medical treatment received by the employee, the official superior shall authorize required medical care by use of Form CA-16. If the recurrence happens more than six months after the most recent prior medical care, authorization for further medical care must be obtained from the Office.

§ 10.209 Employee's responsibilities in continuation of pay cases.

(a) When an employee sustains a traumatic, disabling injury in the performance of duty, the employee or someone acting on his or her behalf must give a written report on Form CA-1 to such employee's official superior within two working days following the injury. It must be shown on the form whether the employee wishes to receive sick or annual leave [see § 10.210(a)] or request continuation of regular pay for the period of disability.

(b) Upon reporting the injury, the employee will be authorized to obtain medical treatment if required. If treatment is obtained, the employee must inquire from the treating physician the earliest date that the employee is able to return to work.

(c) A "Duty Status Report," Form CA-17 will be used to obtain interim medical reports concerning the employee's duty status. If during the 45 day period the treating physician indicates the employee is able to return to work and the employee refuses to do so, the

continued absence from work may result in an overpayment. The period of absence from the job which resulted in the overpayment will be determined by the Office in the course of adjudication of the claim. The official superior and the employee will be notified of the period of disability which is approved by the Office and the official superior may then require the employee to resolve any overpayment.

(d) If medical evidence shows disability is expected to continue beyond 45 days and compensation is desired after expiration of the period, Form CA-7, must be completed and filed with the appropriate OWCP district office not more than 5 working days after the termination of the 45 days.

(e) The provisions of Subpart D of this part relating to the buy-back of leave and to collection of overpayments are applicable as appropriate to the provisions of this subpart.

§ 10.210 Election of annual or sick leave.

(a) In any case, an employee may use annual or sick leave to his credit at the time such employee's disability begins, but such employee's compensation for disability does not begin, and the time periods specified by 5 U.S.C. 8117 do not begin to run, until the termination of continuation of pay (see § 10.204) or until the use of annual or sick leave ends.

(b) If a claim for the continuation of pay is denied by the Secretary subsequent to the making of such payments, such payments shall, at the option of the employee, be charged to sick or annual leave or shall be deemed overpayments of pay within the meaning of Section 5584 of Title 5, United States Code.

Subpart D—Payment of Compensation

COMPENSATION RATES

§ 10.300 Maximum and minimum compensation.

(a) *Disability.* Compensation for disability may not exceed 75 percent of the monthly pay of the highest step of grade 15 of the General Schedule. For total disability, it may not be less than 75 percent of the monthly pay of the first step of grade 2 of the General Schedule or actual pay, whichever is less.

(b) *Death.* Compensation for death is computed on a minimum pay equal to the first step of grade 2 of the General Schedulee. The total compensation may not exceed the employee's pay or 75 percent of the monthly pay of the highest step of grade 15 of the General Schedulee, except that compensation is allowed to exceed the employee's monthly pay if such excess is created by authorized cost of living increases.

§ 10.301 Temporary total disability rate.

(a) Compensation based on loss of wages is payable, subject to the provisions of 5 U.S.C. 8117, after the 45th day in traumatic injuries or from the beginning of pay loss in all other types of injuries.

(b) When an injured employee loses pay due to temporary total disability resulting from an injury, compensation is payable at the rate of 66⅔ percent of the pay rate established for compensation purposes. The compensation rate is increased to 75 percent when there are one or more dependents. Dependents include a wife or husband; an unmarried child under 18 years of age or if over 18, incapable of self-support, or a student (until reaching 23 years of age or completing four years of school beyond the high school level); or a wholly dependent parent. Compensation begins when the employee starts to lose pay if the injury causes permanent disability or if there is pay loss for more than 14 days, otherwise compensation begins on the fourth day after pay stops. Compensation may not be paid while an injured employee receives pay for leave or is otherwise in a continuation of pay status. The employee has the right to elect whether to receive pay for leave or to receive compensation.

§ 10.302 Permanent total disability rate.

When the injury causes permanent total disability, an injured employee is entitled to compensation until death unless the employee is medically or vocationally rehabilitated. Some, although not all, of the examples of permanent total disability are loss, or loss of use, of both arms; or both feet; or both legs; or both eyes or the sight thereof. Compensation for total disability equals 66⅔ percent of the employee's pay, and 75 percent when there is a dependent [see § 10.301(b)]. The employee may receive additional compensation, not to exceed $500 per month, when the services of a full time attendant are needed because of the disability.

§ 10.303 Partial disability rate.

(a) *Loss of wage-earning capacity.* An injured employee may receive compensation computed on loss of wage-earning capacity when unable to return to usual employment because of partial disability as a result of the injury. The compensation will equal 66⅔ percent of the employee's loss. It will equal 75 percent of the loss when there is a dependent [see § 10.301(b)]. The compensation will be paid so long as there is a loss of wage-earning capacity.

(b) *Scheduled awards.* Compensation is provided for specified periods of time for the permanent loss or loss of use, of each of certain members, organs, and functions of the body. Compensation for proportionate periods of time is payable for partial loss, or loss of use of each member, organ, or function. The compensation for scheduled awards will equal 66⅔ percent of the employee's pay, and 75 percent of the pay when there is a dependent. Proper and equitable compensation, not to exceed $3,500 may be paid for serious disfigurement of the face, head, or neck, if of a character likely to handicap a person in securing or maintaining employment. Compensation for loss of wage-earning capacity may be paid after the schedule expires.

§ 10.304 Schedule compensation rate.

(a) Pursuant to 5 U.S.C. 8107, compensation is provided for the permanent partial or permanent total loss of use of specified members of the body and internal and external organs as well as for serious disfigurement of the face, head, or neck. A new section, 5 U.S.C. 8107(c)(22) added by Pub. L. 93-416, 88 Stat. 1145, provides that in addition to the member and organs specifically enumerated in the compensation schedule the Secretary may provide for the payment and schedule compensaton not to exceed 312 weeks of compensation for such internal and external organs as is deemed appropriate. Pursuant to authority contained in 5 U.S.C. 8107(c)(22) certain specified internal and external organs are added to the compensation schedule as follows:

	Weeks
Breast (one)	82
Kidney (one)	156
Larynx	160
Lung (one)	156
Penis	205
Testicle (one)	52
Tongue	160

(b) The organs added to the compensation schedule in paragraph (a) of this section have been so added subsequent to studies undertaken by the OWCP. Continuing study in this area may, in the future, result in the further extension of the compensation schedule. Such further extensions shall have retroactive application back to the effective date of this section if such retroactive application is deemed appropriate by the Director.

(c) Schedule compensation rates shall be determined as provided in § 10.302 and § 10.303 of this part. Such amounts as are determined appropriate pursuant to the Act and this part are:

(1) Payable regardless of whether the cause of the impairmerft originates in a part of the body other than the impaired member or organ;

(2) Payable regardless of whether the disability also involves another impairment of the body; and

(3) In addition to compensation for temporary total or temporary partial disability.

§ 10.305 Death benefit rates, conditions of eligibility.

(a) When there are no children entitled to compensation the employee's widow or widower may receive compensation equal to 50 percent of the employee's pay until death or remarriage. Upon remarriage, a widow or widower will be paid a lump sum equal to 24 times the monthly compensation being paid on his or her own behalf, except that if such remarriage occurs on or after the age of 60, the lump sum payment shall not be made and compensation shall continue until the beneficiary's death.

(b) When there is a child entitled to compensation, the compensation for the widow or widower will equal 45 percent of the employee's pay plus 15 percent for each child, but shall not exceed 75 percent of the employee's pay. A child is entitled to compensation until he or she dies, marries, or reaches 18 years of age, or if over 18 and incapable of self-support, until he or she becomes capable of self-support. If an unmarried child is a

XUM
V40132
FEB 14 75
XUM

student when reaching 18 years of age, compensation may be continued for as long as the child remains a student or until he or she marries. It may not, however, be continued beyond the end of the semester or enrollment period after the child reaches 23 years of age or has completed four years of school beyond the high school level.

§ 10.306 Burial and transportation benefits.

In the case of an employment related death of an employee a sum, not to exceed $800, may be paid for funeral and burial expenses. When an employee's home is within the United States, an additional sum may be paid for transporting the remains to the home if the employee dies away from home, official duty station, or outside the United States. An additional sum of $200 is paid to the personal representative of the decedent for reimbursement of the costs of termination of the decedent's status as an employee of the United States.

ADJUSTMENTS TO BENEFITS

§ 10.310 Buy back of annual or sick leave.

An employee may decide to take sick and/or annual leave in order to avoid possible interruption of income. If such employee does so decide and his or her claim for compensation is subsequently approved, such employee may arrange with his or her employing establishment to "buy back" the leave used and have it reinstated to such employee's account. The compensation to which the employee is entitled, may be used to pay a part of the "buy back" cost and the employee shall be obligated to pay the balance. The amount the employee will be required to pay will depend on several factors such as length of the period of disability and the amount of Federal income tax which is withheld from his or her leave pay. The employing agency shall help the employee determine how much the "buy back" cost will be in his or her case. If an employee uses leave and decides to buy it back, such employee may file a claim for compensation on Form CA–4 while still in leave status. In the interim, the Office shall consider and resolve any points at issue. No compensation payments shall be paid, however, while the employee is still in leave status. Arrangements to "buy back" leave, shall be made with the employing agency. Such agency shall make arrangements to have compensation paid directly to its account for the part of the "buy back" cost which is covered. Salary continuation payments made under 5 U.S.C. 8118 shall not be considered compensation as defined by the Act. If an employee elects to use annual or sick leave during the initial 45 day period of salary continuation pursuant 5 U.S.C. 8118, such employee may not "buy back" his or her leave by claiming compensation for such period.

§ 10.311 Lump sum awards.

(a) The liability of the United States for compensation to a beneficiary in the case of death or of permanent total or permanent partial disability may be discharged by a lump-sum payment equal to the present value of all future payments of compensation computed at 4 percent true discount compounded annually if—

(1) The monthly payment to the beneficiary is less than $50 a month; or

(2) The beneficiary is or is about to become a nonresident of the United States; or

(3) The Secretary of Labor determines that it is for the best interest of the beneficiary.

(b) The probability of the death of the beneficiary before the expiration of the period during which he or she is entitled to compensation shall be determined according to the most current United States Life Tables, as developed by the United States Department of Health, Education, and Welfare, which shall be updated from time to time, but the lump-sum payment to a widow or widower of the deceased employee may not exceed 60 months' compensation. The probability of the happening of any other contingency affecting the amount or duration of compensation shall be disregarded.

(c) On remarriage, a widow or widower, entitled to compensation under 5 U.S.C. 8133, shall be paid a lump sum equal to 24 times the monthly compensation payment (excluding compensation on account of another individual) to which he or she was entitled immediately before the remarriage.

(d) No claimant possesses an absolute right to a lump sum award. Lump sum awards shall be made exclusively by the Director, acting within his or her discretion, and no lump sum award shall be made unless it is apparent to the Director that such an award is in the best interests of the claimant.

§ 10.312 Assignment of claim, claims of creditors.

An assignment of a claim for compensation is void. Compensation and claims for compensation are exempt from claims of creditors.

§ 10.313 Dual benefits.

(a) *Civil service annuity and compensation.* Except as is otherwise provided by law a person may not concurrently receive compensation pursuant to the Act and a retirement or survivor annuity from the Civil Service Commission. Such beneficiary shall elect to receive the more advantageous benefits.

(b) *Military retirement/retainer pay and compensation.* An employee may receive compensation concurrently with military retired pay, retirement pay, retainer pay or equivalent pay for service in the Armed Forces or other uniformed services, subject to the reduction of such pay in accordance with 5 U.S.C. 5532(b).

§ 10.314 Overpayments.

(a) Whenever by reason of an error of fact or law an overpayment has been made to an individual who is entitled to further payments, proper adjustment shall be made by decreasing subsequent payments of compensation, having due regard to the probable extent of future payments, the rate of compensation, the financial circumstances of the individual, and any other relevant factors, so as to minimise any resulting hardship upon such individual. In the event such individual dies before such adjustment has been completed a similar adjustment shall be made by decreasing subsequent payments, if any, payable under this Act with respect to such individual's death.

(b) Where there are no further payments due and an overpayment has been made to an individual by reason of an error of fact or law such individual, as soon as the mistake is discovered or his attention is called to the same, shall refund to the Office any amount so paid, or upon failure to make such refund the Office may proceed to recover the same.

(c) There shall be no adjustment or recovery under paragraphs (a) or (b) of this section, by the United States in any case where incorrect payment has been made to an individual who is without fault and where adjustment or recovery would defeat the purpose of this Act or would be against equity and good conscience.

(d) If a claim for compensation is denied by the OWCP, continuation of pay made under 5 U.S.C. 8118, shall, at the option of the employee, be charged to sick or annual leave or shall be deemed overpayments of pay within the meaning of Section 5584, Title 5 U.S.C.

Subpart E—Furnishing Medical Treatment

§ 10.400 Medical treatment, hospital services, transportation, etc.

(a) All medical services, appliances, drugs, and supplies which in the opinion of the Office are necessary for treatment of an injury as provided by the Act shall be furnished to employees of the United States and to others covered by the Act. These may be furnished by or upon the order of either U.S. medical officers and hospitals, or at the employee's option, by or on the order of physicians or hospitals designated or approved by the Office, for injuries sustained while in the performance of duty, including diseases proximately caused by the conditions of employment, whether resulting in loss of time or not, as well as the necessary means of transportation incident to the securing of such services, appliances, drugs, and supplies. An injured employee will be furnished transportation, or be reimbursed for transportation expense, and shall be reimbursed for expenses incident to the securing of services, appliances and supplies necessary in the treatment of an injury related condition, when authorized by the Office or by the employee's official superior. All duly qualified physicians as defined in § 10.402 are considered designated or approved by the Office.

(b) An employee has only an initial choice of physicians. A change of physicians will be permitted only upon approval of the Office after the employee submits an explanation for his or her desire to change.

(c) The medical facilities of the U.S. Public Health Service generally are available at any time for the furnishing of medical treatment. The medical facilities of the Army, Navy, Air Force and Veterans Administration may be used when previous arrangements have been made on a case-by-case basis with the director of the hospital or clinic.

(d) Federal health service units or other occupational health service facilities established under the provisions of the Act of August 8, 1946, as amended (5 U.S.C. 7901), are not U.S. medical officers and hospitals as used in this part. Under criteria established by the Bureau of the Budget (now Office of Management and Budget) in Circular No. A–72 of June 18, 1965, these health service units or occupational health service facilities shall only provide emergency diagnosis and first (initial) treatment of injury or illness such as is necessary during working hours and that are within the competence of the professional staff and facilities of the health service unit or facility (see paragraph 4.a of OMB Circular A–72). Any other treatment and medical care by these units or facilities in instances of injury or illness sustained in the performance of duty must be specifically authorized by a physician providing medical care under the specific authorization of the Office (see paragraph 4.d of OMB Circular A–72).

(e) The official superior shall give the injured employee an opportunity to select the appropriate physician to whom he or she wishes to be referred. In medical emergencies, any qualified physician in the area shall be authorized to provide medical care as appropriate.

(f) The attending physician shall arrange for necessary hospital care at semi-private rates (unless the nature of the case requires care in a private room) special nursing services, x-ray examination, and consultations by specialists. In cases of an emergency nature or cases involving unusual circumstances the Office may in the exercise of its discretion authorize treatment otherwise than as provided for in this part, or it may approve payment for medical expenses incurred otherwise than as authorized in this part.

§ 10.401 Physician and medical services, etc., defined.

(a) The term "physician" as used in this subpart includes surgeons, podiatrists, dentists, clinical psychologists, optometrists, chiropractors, and osteopathic practitioners within the scope of their practice as defined by State law. The term "physician" includes chiropractors only to the extent that their reimbursable services are limited to treatment consisting of manual manipulation of the spine to correct a subluxation as demonstrated by x-ray to exist.

(b) The term "medical, surgical, and hospital services and supplies" as used in this part, includes services and supplies by surgeons, podiatrists, dentists, clinical psychologists, optomerists, chiropractors, osteopathic practitioners and hospitals within the scope of their practice as defined by State law. Reimbursable chiropractic services are limited to treatment consisting of manual manipulation of the spine to correct a subluxation as demonstrated by x-ray to exist. Also included for payment or reimbursement are physical examinations (and related laboratory tests) and x-rays performed by or required by a chiropractor to diagnose a subluxation of the spinal column. A chiropractor may interpret his or her x-rays as may any other physician as used in this subpart.

§ 10.402 Official authorization for treatment.

(a) When an employee sustains an injury by accident under circumstances entitling the employee to medical treatment, the employee's official superior shall promptly issue to the employee a request for examination and/or treatment on Form CA–16. The employee shall carry the Form CA–16, where practical, from the place of employment to the physician. Form CA–16 shall be used primarily for an injury sustained by accident, but may also be used to authorize examination and treatment for disease or illness, provided the official superior has contacted the Office for instructions on authorizing examination and treatment. In emergency situations, the Office shall be contacted by telephone.

(b) In determining the use of medical facilities, consideration must be given to availability, the employee's condition, and the method and means of transportation. Generally, 25 miles from the place of injury, the employing agency, or the employee's home is a reasonable distance to travel but other pertinent factors must also be taken into consideration.

§ 10.403 Emergency treatment.

In cases of injury by accident where emergency treatment is necessary, any qualified local physician may render initial treatment. If oral authorization for such treatment is given by the official superior, Form CA–16 shall be issued within 48 hours thereafter. Animal bites and eye injuries are considered medical emergencies and medical care by the nearest qualified physician is permissible. Further treatment, if necessary, shall be obtained as soon as practicable at the employee's option as provided in this part. It is the duty of the official superior to authorize initial medical treatment for acute injuries, exclusive of disease or illness, and to transfer the employee at the employee's option to the care of a local U.S. medical officer or hospital or, at the employee's option, to a private physician or hospital designated or approved by the Office for any subsequent treatment needed. If unable to comply promptly with this requirement, the official superior shall communicate with the Office for instructions.

§ 10.404 Medical treatment for recurrence of disability.

If an injured employee complains of a recurrence of disability (whether or not he or she is disabled for work), after having recently been discharged from medical treatment, on account of an injury by accident recognized as compensable by the Office under circumstances from which it may reasonably be inferred that such disability is the result of such injury, and the place of employment is the same as at the time of such injury, the official superior in his discretion may issue a Form CA–16, provided that not more than 6 months shall have elapsed since the final action of the Office upon the case. In any case in which the employee complains of a recurrence of disability with respect to which there may be doubt that the disability is the result of the injury or in any case in which the final action of the Office shall have been taken more than 6 months prior to complaint the official superior shall communicate with the Office and request instructions, stating all of the pertinent facts in the communication. In all other cases the employee shall communicate with the Office and request such treatment.

§ 10.405 Medical treatment in doubtful cases.

Cases of a doubtful nature, so far as compensability is concerned, shall be referred by the official superior to a United States medical officer or hospital, or at the employee's option, to a private physician or hospital designated or approved by the Office, or as otherwise provided in this part, using a Form CA–16 for medical services as indicated in 6B of the form. This authorizes the necessary diagnostic studies and emergency treatment pending receipt of advice from the Office. A statement of all pertinent facts relating to the particular case shall also be forwarded immediately to the Office for consideration. If the medical examination or other information received subsequent to the issuance of authorization for treatment discloses that the condition for which treatment was rendered is not due to an injury, the person issuing the authorization shall immediately notify the physician or hospital that no further treatment shall be rendered at the expense of the Office. In cases of an emergency or cases involving unusual circumstances, the Office may, in the exercise of its discretion, authorize treatment otherwise than as provided for in this part, or it may approve payment for medical expenses incurred otherwise than as authorized in this section. No authority for examination or for medical or other treatment shall be given by the official superior in any case already disallowed by the Office.

§ 10.406 Authority for dental treatment.

All necessary dental treatment, including repairs to natural teeth, false teeth, and other prosthetic dental devices, needed to repair damage or loss caused by an employment related injury shall be obtained at the employee's option from a U.S. Medical Officer or hospital, or from a private dentist, physician or hospital, upon authorization obtained in advance from the Office.

§ 10.407 Medical examination.

(a) An injured employee shall be required to submit to examination by a U.S. Medical Officer or by a qualified pri-

XUM
V40-32 FEB 14 75 XUM

vate physician approved by the Office as frequently and at such times and places as in the opinion of the Office may be reasonably necessary. The injured employee may have a qualified physician, paid by him or her, present at the time of such examination. For any examination required by the Office an injured employee shall be paid all expenses incident to such examination which, in the opinion of the Office are necessary and reasonable, including transportation and actual loss of wages incurred in order to submit to the examination authorized by the Office.

(b) If the employee refuses to submit himself or herself for or in any way obstructs any examination, the employee's right to claim compensation under the Act shall be suspended until such refusal or obstruction ceases. No compensation shall be payable while such refusal or obstruction continues, and the period of such refusal or obstruction shall be deducted from the period for which compensation is payable to the employee.

§ 10.408 Medical referee examination.

If there should be a disagreement between the physician making the examination on the part of the United States and the injured employee's physician, the Office shall appoint a third physician, qualified in the appropriate speciality, who shall make an examination. The physician appointed shall be one not previously connected with the case.

§ 10.409 Furnishing of orthopedic and prosthetic appliances, and dental work.

When an orthopedic or prosthetic appliance, such as an artificial eye or limb is deemed to be necessary by the attending physician by reason of an injury which has been found by the Office to have occurred in the performance of duty, application therefor may be made to the Office, stating the necessity therefor, the approximate cost of such appliance, and a brief description thereof. The term "injury" includes damage or destruction of medical braces, artificial limbs and other prosthetic devices which shall be replaced or repaired at Office expense, [see § 10.5(a) (14)]. Applications for repairs to such an appliance furnished by the Office will be made in the same manner. Where an artificial denture is necessary in such cases, application therefor may similarly be made.

§ 10.410 Recording and submission of medical reports.

(a) Medical officers and private physicians and hospitals shall keep adequate records of all cases treated by them so as to be able to supply the Office with a history of the employee's accident, the exact description, nature, location, and extent of injury, the x-ray findings or other studies, if x-ray examination or other studies have been made, the nature of the treatment rendered, and the degree of impairment arising from the injury.

(b) Form CA–16 provides for the furnishing of the initial medical report. Form CA–20 may also be used for the initial report and for subsequent report. The medical report Form CA–20a attached to Form CA–8 is to be utilized in instances where continued compensation is claimed on such form. These reports shall be forwarded promptly to the Office. In cases of disabling traumatic injuries Form CA–17 shall be used to obtain interim reports concerning the employee's duty status. These reports are necessary to support continuation of pay up to 45 days.

(c) Detailed supplementary reports in narrative form shall be made by the physician at approximately monthly intervals in all cases of serious injury or disease, especially injuries of the head and back, and including all cases requiring hospital treatment or prolonged care. The supplementary report shall show the date the employee was first examined or treated, the patient's complaint, the condition found on examination, the diagnosis and medical opinion as to any relationship between the impairment and the injury or employment factors alleged, report as to any other impairments found not due to injury, the treatment given or recommended for the injury alleged, the extent of impairment affecting the employment as a result of the injury, the actual degree of loss of active or passive motion of an injured member, the amount of atrophy or deformity in a member, the decrease, if any, in strength, the disturbance of sensation, the prognosis for recovery, and all other material findings. If the services of a specialist are required in the examination or treatment of the employee, a report of his findings upon examination, his diagnosis, his opinion as to the relationship between the impairment and the injury and/or conditions of employment, the medical rationale for his opinion, the treatment recommended by him, a statement of the extent of impairment as a result of the injury or employment and the prognosis shall be forwarded to the Office for consideration in conjunction with other reports. The requirement of this section or of any section in this part with respect to the form of medical, dental, hospital or other reports may be waived by the Office.

§ 10.411 Submission of bills for medical services, appliances and supplies.

All charges for medical, hospital, surgical, or other treatment or care of, or appliances and supplies furnished to injured employees, supported by medical evidence as provided in § 10.410 shall be itemized on the physicians, billhead stationery hospital's or supplier's as appropriate and shall be forwarded promptly to the Office for consideration. Charges may also be submitted at the time of submission of the initial report by completing item 14 on the back of Form CA–16. A separate bill shall be submitted when the employee is discharged from treatment except when treatment extends for more than 30 days, in which event, bills shall be submitted at the end of each 30 day period.

§ 10.412 Reimbursement for medical expenses, transportation costs, loss of wages, and incidental expenses.

If bills for medical, surgical, nursing, dental, or hospital services or supplies, or appliances, have been paid by an injured employee on account of an injury incurred while in the performance of duty, an itemized bill, receipted and signed by the person who has received payment, together with a medical report as provided in § 10.410 may be submitted to the Office for consideration. If payment has been made to a hospital, corporation or firm, the receipted bill shall bear the signature or initials of the person acting for the payee. If receipted by a mechanical stamp or device, which shows clearly its intent and purpose, the usual formalities attendant to the receipting of bills may be dispensed with. Where the means of transportation is not furnished by the United States Government, a claim for reimbursement of the cost of necessary transportation, and of necessary incidental expenses incurred by an injured employee for travel for the purpose of securing medical or hospital treatment, appliances or supplies, or for medical examination, should be submitted promptly to the Office for consideration. Standard Forms 1012 and 1012a properly executed, shall be used for this purpose. Where transportation by automobile is used, reimbursement may be made at the rate per mile fixed by law, executive administrative, or other order for employees of the United States authorized to travel at Government expense.

Subpart F—[Reserved]

Subpart G—Cases Involving the Liability of a Third Party

§ 10.500 Prosecution of third party action by beneficiary.

If an injury or death for which benefits are payable under the Act is caused under circumstances creating a legal liability upon some person other than the United States to pay damages therefor, the Office may require the beneficiary to prosecute an action for damages against such third person. When so required, such cause of action shall be prosecuted in the name of the injured employee or of his or her personal representative by an attorney of the beneficiary's choice.

§ 10.501 Assignment of third party.

If an injury or death for which benefits are payable under the Act is caused under circumstances creating a legal liability upon some person other than the United States to pay damages therefor, the beneficiary shall, if required by the Office assign any right of action he may have to the United States. All such assignments shall be in writing and no such cause of action shall vest in the United States unless and until the assignment is accepted by the Office.

§ 10.502 Refusal to assign or prosecute claim when required; effect.

Refusal on the part of a beneficiary to assign his right of action to the United States or to prosecute an action in his own name when required to do so pursuant to § 10.500 or § 10.501, shall deprive the beneficiary of all rights to benefits under the Act.

§ 10.503 Distribution of damages recovered by beneficiary.

If an injury for which benefits are payable under the Act is caused under circumstances creating a legal liability upon some person other than the United States to pay damages therefor, and, as a result of suit brought by the beneficiary or by someone on his or her behalf, or as a result of settlement made by him or her or on his or her behalf in satisfaction of the liability of such other person, the beneficiary shall recover damages or receive any money or other property in satisfaction of the liability of such other person on account of such injury or death, the proceeds of such recovery shall be applied as follows:

(a) If an attorney is employed, a reasonable attorney's fee and cost of collection, if any, shall first be deducted from the gross amount of the settlement;

(b) The beneficiary is entitled to retain one-fifth of the net amount of the money or other property remaining after the expenses of a suit or settlement have been deducted, plus an amount equivalent to a reasonable attorney's fee proportionate to any refund to the United States;

(c) There shall then be remitted to the Office, the benefits which have been paid on account of the injury, which shall include payments made on account of medical or hospital treatment, funeral expense, and any other payments made under the Act on account of the injury or death;

(d) Any surplus then remaining may be retained by the injured employee or his dependents, and the net amount of damages received by the beneficiary shall be credited against future payment of benefits to which the beneficiary may be entitled under the Act on account of the same injury or death.

§ 10.504 Distribution of damages where cause of action is assigned.

If recovery is realized upon a cause of action assigned to the United States pursuant to 5 U.S.C. 8131, the money or other property so received shall be applied in the following manner: After deducting the amount of any payments made under the Act in respect of the injury or death on account of which the cause of action arose, and the expense of such realization or collection, which sum shall be placed to the credit of the proper fund of the Office, the surplus, if any, of such amount received shall be paid to the beneficiary and credited pro tanto upon any future payment of benefits payable to him on account of the same injury. However, the beneficiary is entitled to not less than one-fifth of the net amount of a settlement or recovery remaining after the expenses of such realization or collection have been deducted.

§ 10.505 Office may require beneficiary to settle or compromise third party suit.

Where a beneficiary under the Act has commenced an action in his or her own name or has initiated such action through an administrator of a deceased person to recover damages against the third party liable for the injury or death, the Office shall, at all times, have authority to require the beneficiary or such administrator to settle or compromise such action whenever it shall determine that further prosecution of the cause of action is not warranted. Refusal on the part of such beneficiary or other person acting in the interest of the beneficiary to make such settlement or to effect such compromise when so directed shall be deemed to be sufficient cause for refusal on the part of the Office to pay or cause to be paid any benefits under the Act on account of the same injury or death, or the Office may suspend or cause to suspend the payment of benefits under the Act during the period of such refusal.

6. Part 25 of Subchapter B—Federal Employees' Compensation Act—is revised to read as follows:

PART 25—COMPENSATION FOR DISABILITY AND DEATH OF NONCITIZEN FEDERAL EMPLOYEES OUTSIDE THE UNITED STATES

Subpart A—General Provisions

Sec.
25.1 General statement.
25.2 General adoption of local law.
25.3 General provisions relating to special schedule.
25.4 Authority to settle and pay claims.
25.5 Applicable criteria.
25.6 Third and fourth country nationals.
25.7 Non-citizen residents of possessions.

Subpart B—Special Schedule of Compensation

25.11 Compensation for disability.
25.12 Compensation for death.
25.13 General provisions.

Subpart C—Extensions of Special Schedule of Compensation

25.21 Republic of the Philippines.
25.22 Australia.
25.23 [Reserved]
25.24 [Revoked]
25.25 Republic of Korea.
25.26 Japanese seamen.
25.27 Territory of Guam (nonresident aliens).

AUTHORITY. (Sec. 32, 39 Stat. 749, as amended; (5 U.S.C. 8145, 8149); 1946 Reorg. Plan No. 2, sec. 3, 3 CFR 1943–1948 Comp., p. 1064; 60 Stat. 1095; 1950 Reorg. Plan No. 19, sec. 1, 3 CFR 1949–1958 Comp., p. 1010; 64 Stat. 1271, unless otherwise noted)

Subpart A—General Provisions

§ 25.1 General statement.

The provisions of this part shall apply in respect to compensation, under the Federal Employees' Compensation Act, payable only to employees of the United States who are neither citizens nor residents of the United States, any territory, or Canada, or payable to any dependents of such employees. It has previously been determined, pursuant to 5 U.S.C. 8137, that the amount of compensation, as provided under such Act, is substantially disproportionate to the compensation for disability or death which is payable in similar cases under local law, regulation, custom, or otherwise, in areas outside the United States, any territory, or Canada. Therefore, in respect to cases of such employees whose injury (or injury resulting in death) has occurred subsequent to December 7, 1941, or may occur, the following provisions shall be applicable.

§ 25.2 General adoption of local law.

(a) Pursuant to the provisions of 5 U.S.C. 8137, the benefit features of local workers' compensation laws, or provisions in the nature of workers' compensation, in effect in the areas referred to in § 25.1, shall, effective as of December 7, 1941, by adoption and adaptation, as recognized by the Director, Office of Workers' Compensation Programs, apply in the cases of the employees specified in § 25.1: *Provided, however*, That there is not established and promulgated under this part, for the particular locality, or for a class of employees in the particular locality, a special schedule of compensation for injury or death.

(b) The benefit provisions as thus adopted or adapted are those dealing with the money payments for injury and death (including provisions dealing with medical, surgical, hospital and similar treatment and care), as well as those dealing with services and purposes forming an integral part of the local plan, provided they are of a kind or character similar to services and purposes authorized by the Federal Employees' Compensation Act. Procedural provisions, designations of classes of beneficiaries in death cases, limitations (except those affecting amounts of benefit payments), and any other provisions not directly affecting the amounts of the benefit payments, in such local plans, shall not apply, but in lieu thereof the pertinent provisions of the Federal Employees' Compensation Act shall apply, unless modified by further specification in this section. However, the Director may at any time modify, limit or redesignate the class or classes of beneficiaries entitled to death benefits, including the designation of persons, representatives, or groups entitled to payment under local statute or custom whether or not included in the classes of beneficiaries otherwise specified by this subchapter.

(c) Compensation in all cases of such employees paid and closed prior to the effective date of the regulations in this part shall be deemed compromised and paid under 5 U.S.C. 8137; in all other cases compensation may be adjusted to conform with the regulations in this part, or the beneficiary may by compromise or agreement with the Director have compensation continued on the basis of a previous adjustment of the claim.

(d) Persons employed in a country or area having no well-defined workers' compensation benefits structure shall be accorded the benefits provided—either by local law or special schedule—in a nearby country as determined by the

XUM
V40-32 FEB 14 75 F
XUM

Director. In selecting the benefit structure to be applied, equity and administrative feasibility shall be given due consideration, as well as local custom.

(e) Compensation for disability and death of noncitizens outside the United States under this part, whether paid under local law or special schedule, shall in no event exceed that generally payable under the Federal Employees' Compensation Act.

§ 25.3 General provisions relating to special schedule.

The special schedule established by Subpart B of this part is intended as the vehicle of general basic provisions, to be adapted, with such modifications as may be necessary, and as local conditions outside the United States require. The application of this special schedule will be by specific and appropriate provision in the regulations in this part, such provision specifying the locality to which applied, and the particular modifications of or additions to the schedule, as may be made.

§ 25.4 Authority to settle and pay claims.

In addition to the authority to receive, process, and pay claims, when delegated such representative or agency receiving delegation of authority shall, in respect to cases adjudicated under this part, and when so authorized by the Director, have authority (a) to make lump sum awards (in the manner prescribed by 5 U.S.C. 8135) whenever such authorized representative shall deem such settlement to be for the best interest of the United States, and (b) to compromise and pay claims for any benefits provided for under this part, including claims in which there is a dispute as to jurisdiction or other facts, or questions of law. The Director shall, in administrative instructions to the particular representative concerned, establish such procedures in respect to action under this section as may be deemed necessary, and may specify the scope of any administrative review of such action.

§ 25.5 Applicable criteria.

The following criteria shall apply to cases of employees specified in § 25.1 and such cases, if otherwise compensable, shall be approved only upon evidence of the following nature without regard to the date of injury or death for which claim is made:

(a) Appropriate certification by the Federal employing establishment, or;

(b) An armed service's casualty or medical record, or;

(c) Verification of the employment and casualty by military personnel, or;

(d) Recommendation of an armed service's "Claim Service" based on investigations conducted by it.

(79 Stat. 892)

§ 25.6 Third and fourth country nationals.

(a) *Definitions.*

(1) A third country national is a person who is neither a citizen nor resident of the United States who is hired by the United States in the person's country of citizenship or residence for employment in another foreign country, or in a possession or territory of the United States.

(2) A fourth country national is a person who is neither a citizen nor resident of either the country of hire or the place of employment, but otherwise meets the definition of third country national.

(3) "Benefits applicable to local hires" are the benefits provided in this part by local law or special schedule, as determined by the Director. In relation to a United States territory or possession, local law means only the law of the particular territory or possession.

(b) *Benefits payable.*

(1) Third and fourth country nationals shall be paid the benefits applicable to local hires in the country of hire or the place of employment, whichever benefits are greater, provided that all benefits payable on account of one injury must be paid under the same benefit structure.

(2) Where no well-defined workers' compensation benefits structure is provided in either the country of hire or the place of employment, the provisions of § 25.2 (d) shall apply.

(3) Where equitable considerations as determined by the Director so warrant, a fourth country national may be awarded benefits applicable to local hires in his home country.

§ 25.7 Noncitizen residents of possessions.

An employee who is a bona fide permanent resident of any United States possession, territory, commonwealth or trust territory shall be accorded the full benefits of the basic law (Federal Employees' Compensation Act, as amended), provided that the application of the minimum benefit provisions therein shall be governed by the restrictions set forth in 5 U.S.C. 8138.

Subpart B—Special Schedule of Compensation

§ 25.11 Compensation for disability.

Compensation for disability shall be paid to the employee as follows:

(a) *Permanent total disability.* In case of disability, total in character and permanent in quality, 66⅔ per centum of the monthly pay during the continuance of such disability.

(b) *Temporary total disability.* In case of disability, total in character and temporary in quality, 66⅔ per centum of the monthly pay during the continuance of such disability.

(c) *Permanent partial disability.* In case of disability, partial in character and permanent in quality, 66⅔ per centum of the monthly pay, for the following losses and periods:

(1) Arm lost, 280 weeks' compensation.

(2) Leg lost, 248 weeks' compensation.

(3) Hand lost, 212 weeks' compensation.

(4) Foot lost, 173 weeks' compensation.

(5) Eye lost, 140 weeks' compensation.

(6) Thumb lost, 51 weeks' compensation.

(7) First finger lost, 28 weeks' compensation.

(8) Great toe lost, 26 weeks' compensation.

(9) Second finger lost, 18 weeks' compensation.

(10) Third finger lost, 17 weeks' compensation.

(11) Toe, other than great toe, lost, 8 weeks' compensation.

(12) Fourth finger lost, 7 week' compensation.

(13) Loss of hearing: One ear, 52 weeks' compensation; both ears, 200 weeks' compensation.

(14) Phalanges: Compensation for loss of more than one phalanx of a digit shall be the same as for the loss of the entire digit. Compensation for loss of the first phalanx shall be one-half of the compensation for the loss of the entire digit.

(15) Amputated arm or leg: Compensation for an arm or a leg, if amputated at or above the elbow or the knee, shall be the same as for the loss of the arm or leg; but, if amputated between the elbow and the wrist, or between the knee and the ankle, the compensation shall be the same as for the loss of the hand or the foot.

(16) Binocular vision or per centum of vision: Compensation for loss of binocular vision, or for 80 per centum or more of the vision of an eye shall be the same as for the loss of the eye.

(17) Two or more digits: Compensation for loss of two or more digits, one or more phalanges of two or more digits of a hand or foot may be proportioned to the loss of use of the hand or foot occasioned thereby, but shall not exceed the compensation for the loss of a hand or a foot.

(18) Total loss of use: Compensation for permanent total loss of use of a member shall be the same as for loss of the member.

(19) Partial loss or partial loss of use: Compensation for permanent partial loss of use or loss of use of a member may be for proportionate loss of use of the member.

(20) Consecutive awards: In any case in which there shall be a loss or loss of use of more than one member or parts of more than one member, set forth in sections (1) to (19), inclusive, of this paragraph but not amounting to permanent total disability, the award of compensation shall be for the loss or loss of use of each such member or part thereof, which awards shall run consecutively, except that where the injury affects only two or more digits of the same hand or foot, paragraph (c) (17) of this section shall apply.

(21) Other cases: In all other cases within this class of disability the compensation during the continuance of disability shall be that proportion of compensation for permanent total disability, as determined under paragraph (a) of this section, which is equal in percentage to the degree or percentage of physical impairment caused by the disability.

(22) Compensation under paragraph (c) (1) to (21), inclusive, of this section for permanent partial disability shall be in addition to any compensation for temporary total or temporary partial disability under this section, and awards for temporary total, temporary partial, and permanent partial disability shall run consecutively.

(d) *Temporary partial disability.* In case of disability, partial in character and temporary in quality, during the continuance of disability that proportion of compensation for temporary total disability, as determined under paragraph (b) of this section, which is equal in percentage to the degree or percentage of physical impairment caused by the disability.

§ 25.12 Compensation for death.

If the disability causes death the compensation shall be payable in the amount and to or for the benefit of the persons, determined as follows:

(a) To the undertaker or person entitled to reimbursement, reasonable funeral expenses not exceeding $200.

(b) To the widow, if there is no child, 35 per centum of the monthly pay until her death or remarriage.

(c) To the widower, if there is no child and if wholly dependent for support upon the deceased employee at the time of her death, 35 per centum of the monthly pay until his death or remarriage.

(d) To the widow or widower, if there is a child, the compensation payable under paragraph (b) or (c) of this section, and in addition thereto 10 per centum of the monthly wage for each child, not to exceed a total of 66⅔ per centum for such widow or widower and children. If a child has a guardian other than the surviving widow or widower, the compensation payable on account of such child shall be paid to such guardian. The compensation of any child shall cease when he or she dies, marries, or reaches the age of 18 years, or if over such age, and incapable of self-support, becomes capable of self-support.

(e) To the children, if there is no widow or widower, 25 per centum of such monthly pay for one child and 10 per centum thereof for each additional child, not to exceed a total of 66⅔ per centum thereof, divided among such children share and share alike. The compensation of each child shall be paid until he or she dies, marries, or reaches the age of 18, or if over such age, and incapable of self-support, becomes capable of self-support. The compensation of a child under legal age shall be paid to its guardian, if there is one, otherwise to the person having the custody or care of such child, for such child, as the Director in his or her discretion shall determine.

(f) To the parents, if one is wholly dependent for support upon the deceased employee at the time of his death and the other is not dependent to any extent, 25 per centum of such monthly pay; if both are wholly dependent, 20 per centum thereof to each; if one is or both are partly dependent, a proportionate amount in the discretion of the Director. The compensation to a parent or parents in the percentages specified shall be paid if there is no widow, widower, or child, but if there is a widow, widower, or child, there shall be paid so much of such percentages for a parent or parents, as, when added to the total of the percentages of the widow, widower, and children, will not exceed a total 66⅔ per centum of such pay.

(g) To the brothers, sisters, grandparents, and grandchildren, if one is wholly dependent upon the deceased employee for support at the time of his or her death, 20 per centum of such pay to such dependent if more than one are wholly dependent; 30 per centum of such pay, divided among such dependents share and share alike; if there is no one of them wholly dependent, but one or more are partly dependent, 10 per centum of such pay divided among such dependents share and share alike. The compensation to such beneficiaries shall be paid if there is no widow, widower, child, or dependent parent. If there is a widow, widower, child, or dependent parent, there shall be paid so much of the above percentages as, when added to the total of the percentages payable to the widow, widower, children, and dependent parents, will not exceed a total of 66⅔ per centum of such pay.

(h) The compensation of each beneficiary under paragraphs (f) and (g) of this section shall be paid until he or she, if a parent or grandparent, dies, marries, or ceases to be dependent, or, if a brother, sister, or grandchild, dies, marries, or reaches the age of 18 years, or if over such age and incapable of self-support becomes capable of self-support. The compensation of a brother, sister, or grandparent under legal age shall be paid to his or her guardian, if there is one, otherwise to the person having the custody or care of such child, for such child, as the Director in his or her discretion shall determine.

(i) Upon the cessation of any person's compensation for death under this subpart, the compensation of any remaining person entitled to the continuation of compensation in the same case shall be adjusted, so that the continuing compensation shall be at the same rate such person would have received, had no award been made to the person whose compensation was terminated.

(j) In case there are two or more classes of persons entitled to compensation for death under this subpart, and the apportionment of such compensation as above provided would result in injustice, the Director may in his or her discretion modify the apportionments to meet the requirements of the case.

§ 25.13 General provisions.

(a) The definitions of terms in the Federal Employees' Compensation Act of September 7, 1916, as amended shall apply to terms used in this subpart.

(b) The provisions of such Act unless modified by this subpart, or unless otherwise inapplicable, shall be applied whenever possible in the application of this subpart.

(c) The provisions of the regulations for the administration of the Federal Employees' Compensation Act, as amended, and as supplemented from time to time by instructions applicable to this subpart, shall apply in the administration of compensation under this subpart, whenever they can reasonably be applied.

Subpart C—Extensions of Special Schedule of Compensation

§ 25.21 Republic of the Philippines.

(a) *Modified special schedule of compensation.* The special schedule of compensation established in Subpart B of this part shall apply, with the modifications or additions specified in paragraphs (b) through (k) of this section, in the Republic of the Philippines, to injury or death occurring on or after July 1, 1968, with the following limitations:

(1) *Temporary disability.* Benefits for payments accruing on and after July 1, 1969, for injuries causing temporary disability and which occurred on and after July 1, 1968, shall be payable at the rates in the special schedule as modified in this section.

(2) *Permanent disability and death.* Benefits for injuries occurring on and after July 1, 1968, which cause permanent disability or death shall be payable at the rates specified in the special schedule as modified in this section for (i) all awards not paid in full before July 1, 1969, and (ii) any award paid in full prior to July 1, 1969: *Provided,* That application for adjustment is made, and the adjustment will result in additional benefits of at least $10. (In the case of injuries or death occurring on or after December 8, 1941, and prior to July 1, 1968, the special schedule as modified in this section may be applied to prospective awards for permanent disability or death, provided that the monthly and aggregate maximum provisions in effect at the time of injury or death shall prevail. These maxima are $50 and $4,000, respectively.)

(b) *Death benefits.* 400 weeks' compensation at two-thirds of the weekly wage rate, shared equally by the eligible survivors in the same class.

(c) *Death beneficiaries.* Benefits are payable to the survivors in the following order of priority (all beneficiaries in the highest applicable cases are entitled to share equally):

(1) Widow, dependent widower, and unmarried children under 18, or over 18 and totally incapable of self-support.

(2) Dependent parents.

(3) Dependent grandparents.

(4) Dependent grandchildren, brothers and sisters who are unmarried and under 18, or over 18 and totally incapable of self-support.

(d) *Burial allowance.* 14 weeks' wages or $400, whichever is less, payable to the eligible survivor(s), regardless of the

XUM
V40132
FEB 14 75
XUM

actual expense. If there is no eligible survivor, actual burial expenses may be paid or reimbursed, in amount not to exceed what would be paid to an eligible survivor.

(e) *Permanent total disability.* 400 weeks' compensation at two-thirds of the weekly wage rate.

(f) *Permanent partial disability.* Where applicable the compensation provided in subparagraphs (1) through (19) of paragraph (c) of the special schedule, subject to an aggregate limitation of 400 weeks' compensation. In all other cases, provided for permanent total disability that proportion of the compensation (paragraph (e) of this section) which is equivalent to the degree or percentage of physical impairment caused by the disability.

(g) *Temporary partial disability.* Two-thirds of the weekly loss of wage-earning capacity.

(h) *Compensation period for temporary disability.* Compensation for temporary disability is payable for a maximum period of 80 weeks.

(i) *Maximum compensation.* The total aggregate compensation payable in any case, for injury or death or both, shall not exceed $8,000, exclusive of medical costs and burial allowance. The weekly rate of compensation disability or death shall not exceed $35.

(j) *Method of payment.* Only compensation for temporary disability shall be payable periodically. Compensation for permanent disability and death shall be payable in full at the time extent of entitlement is established.

(k) *Exceptions.* The Director in his or her discretion may make exceptions to these regulations by:

(1) Reapportioning death benefits, for the sake of equity.

(2) Excluding from consideration potential death beneficiaries who are not available to receive payment.

(3) Paying compensation for permanent disability or death on a periodic basis, where this method of payment is considered to be in the best interest of the beneficiary.

§ 25.22 Australia.

(a) The special schedule of compensation established by Subpart B of this part shall apply with the modifications or additions specified in paragraph (b) of this section, as of December 8, 1941, in Australia, in all cases of injury (or death from injury) which occurred between December 8, 1941 and December 31, 1961, inclusive, and shall be applied retrospectively in all such cases of injury (or death from injury). Compensation in all such cases pending as of July 15, 1946, shall be readjusted accordingly, with credit taken in the amount of compensation paid prior to such date. Refund of compensation shall not be required if the amount of compensation paid in any such case, otherwise than through fraud, misrepresentation, or mistake, and prior to July 15, 1946, exceeds the amount provided for under this paragraph; and such case shall be deemed compromised and paid under 5 U.S.C. 8137.

(b) The total aggregate compensation payable in any case under paragraph (a) of this section, for injury or death or both, shall not exceed the sum of $4,000, exclusive of medical costs. The maximum monthly rate of compensation in any such case shall not exceed the sum of $50.

(c) The benefit amounts payable under the provisions of the Commonwealth Employees' Compensation Act of 1930–1964, Australia, shall apply as of January 1, 1962, in Australia, as the exclusive measure of compensation in cases of injury (or death from injury) according on and after January 1, 1962, and shall be applied retrospectively in all such cases, occurring on and after such date: *Provided*, That the compensation payable under the provisions of this paragraph shall in no event exceed that payable under the Federal Employees' Compensation Act.

(5 U.S.C. 8137, 8138, 8145, 8149); Reorganization Plan No. 19 of 1950 (64 Stat. 1271, 3 CFR 1949–1953 Comp., p. 1010); and General Order No. 46 (Rev.), (24 FR 8472)

§ 25.23 [Reserved]

§ 25.24 [Reserved]

§ 25.25 Republic of Korea.

(a) *Modified special schedule of compensation.* The special schedule of compensation established in Subpart B of this part shall apply, with the modifications or additions specified in paragraphs (b) through (k) of this section in the Republic of Korea, to injury or death occurring on or after July 1, 1968, with the following limitations:

(1) *Temporary disability.* Benefits for payments accruing on and after July 1, 1969, for injuries causing temporary disability and which occurred on and after July 1, 1968, shall be payable at the rates specified in the special schedule as modified in this section.

(2) *Permanent disability and death.* Benefits for injuries occurring on and after July 1, 1968, which cause permanent disability or death shall be payable at rates specified in the special schedule as modified in this section for (i) all awards not paid in full before July 1, 1969, and (ii) any award paid in full prior to July 1, 1969: *Provided*, That application for adjustment is made, and the adjustment will result in additional benefits of at least $10. (In the case of injury or death occurring on or after December 1, 1954, and prior to July 1, 1968, the special schedule as modified in this section may be applied to prospective awards for permanent disability or death: *Provided*, That the monthly and aggregate maximum provisions in effect at the time of injury or death shall prevail. These maxima are $50 and $4,000, respectively.)

(b) *Death benefits.* 400 weeks' compensation at two-thirds of the weekly wage rate, shared equally by the eligible survivors in the same class.

(c) *Death beneficiaries.* Benefits are payable to survivor or survivors in the following order of priority:

(1) Spouse.

(2) Unmarried children who were supported by or lived with the deceased employee at the time of death.

(3) Parents who were supported by or lived with the deceased employee at the time of death.

(4) Unmarried grandchildren who were supported by or lived with the deceased employee at the time of death.

(5) Grandparents who were supported by or lived with the deceased employee at the time of death.

(6) Unmarried brothers and sisters who were supported by or lived with the deceased employee at the time of death.

(d) *Burial allowance.* 14 weeks' wages or $400, whichever is less, payable to the eligible survivor(s), regardless of the actual expense. If there is no eligible survivor, actual burial expenses may be paid or reimbursed, in an amount not to exceed what would be paid to an eligible survivor.

(e) *Permanent total disability.* 400 weeks' compensation at two-thirds of the weekly wage rate.

(f) *Permanent partial disability.* Where applicable, the compensation provided in subparagraphs (1) through (19) of paragraph (c) of the special schedule, subject to an aggregate limitation of 400 weeks' compensation. In all other cases, that proportion of the compensation provided for permanent total disability (paragraph (e) of this section) which is equivalent to the degree or percentage of physical impairment caused by the disability.

(g) *Temporary partial disability.* Two-thirds of the weekly loss of wage-earning capacity.

(h) *Compensation period of temporary disability.* Compensation for temporary disability is payable for a maximum period of 80 weeks.

(i) *Maximum compensation.* The total aggregate compensation payable in any case, for injury or death or both, shall not exceed $8,000, exclusive of medical costs and burial allowance. The weekly rate of compensation for disability or death shall not exceed $35.

(j) *Method of payment.* Only compensation for temporary disability shall be payable periodically. Compensation for permanent disability and death shall be payable in full at the time extent of entitlement is established.

(k) *Exceptions.* The Director may in his or her discretion make exception to these regulations by:

(1) Reapportioning death benefits, for the sake of equity.

(2) Excluding from consideration potential death beneficiaries who are not available to receive payment.

(3) Paying compensation for permanent disability or death on a periodic basis, where this method of payment is considered to be in the best interest of the beneficiary.

§ 25.26 Japanese seamen.

(a) The special schedule of compensation established by Subpart B of this part shall apply, with the modifications or additions specified in paragraphs (b) through (i) of this section, as of November 1, 1971, to injuries sustained outside the continental United States or Canada by direct-hire Japanese seamen who are neither citizens nor residents of the United States or Canada and who are employed by the Military Sealift Command in Japan.

(b) *Temporary total disability.* Weekly compensation shall be paid at 75 percent of the weekly wage rate.

(c) *Temporary partial disability.* Weekly compensation shall be paid at 75 percent of the weekly loss in wage-earning capacity.

(d) *Permanent total disability.* Compensation shall be paid in a lump sum equivalent to 360 weeks' wages.

(e) *Permanent partial disability.* (1) The provisions of § 25.11 shall apply to the types of permanent partial disability enumerated in paragraph (c), subparagraphs (1)–(19) of that section, *Provided*, That weekly compensation shall be paid at 75 percent of the weekly wage rate, and *Further provided*, That the number of weeks allowed for specified losses shall be changed as follows:

(i) Arm lost, 312 weeks.
(ii) Leg lost, 288 weeks.
(iii) Hand lost, 244 weeks.
(iv) Foot lost, 205 weeks.
(v) Eye lost, 160 weeks.
(vi) Thumb lost, 75 weeks.
(vii) First finger lost, 46 weeks.
(viii) Second finger lost, 30 weeks.
(ix) Third finger lost, 25 weeks.
(x) Fourth finger lost, 15 weeks.
(xi) Great toe lost, 38 weeks.
(xii) Toe, other than great toe lost, 16 weeks.

(2) In all other cases, that proportion of the compensation provided for permanent total disability [paragraph (d) of the section] which is equivalent to the degree or percentage of physical impairment caused by the injury.

(f) *Death.* If there are two or more eligible survivors, compensation equivalent to 360 weeks' wages shall be paid to the survivors, share and share alike. If there is only one eligible survivor, compensation equivalent to 300 weeks' wages shall be paid. The following survivors are eligible for death benefits:

(1) Spouse who lived with or was dependent upon the employee.

(2) Unmarried children under 21 who lived with or were dependent upon the employee.

(3) Adult children who were dependent upon the employee by reason of physical or mental disability.

(4) Dependent parents, grandparents and grandchildren.

(g) *Burial allowance.* $1,000 payable to the eligible survivor(s), regardless of actual expenses. If there are no eligible survivors, actual expenses may be paid or reimbursed, up to $1,000.

(h) *Method of payment.* Only compensation for temporary disability shall be payable periodically, as entitlement accrues. Compensation for permanent disability and death shall be payable in a lump sum.

(i) *Maxima.* In all cases (temporary disability, permanent disability, and death) the maximum weekly benefit shall be $130. Also, except in cases of permanent total disability and death, the aggregate maximum compensation payable for any injury shall be $40,000.

(j) *Prior injury.* In cases where injury or death occurred prior to November 1, 1971, benefits will be paid in accord with regulations previously promulgated.

§ 25.27 Territory of Guam (nonresident aliens).

(a) The special schedule of compensation established by Subpart B of this part shall apply, with the modifications or additions specified in paragraphs (b) through (k) of this section, to injury or death occurring on or after July 1, 1971 in the Territory of Guam to nonresident alien employees recruited in foreign countries for employment by the military departments in the Territory of Guam. However, the Director may, in his or her discretion, adopt the benefit features and provisions of local workers' compensation law as provided in Subpart A of this part, or substitute the special schedule in Subpart B of this part or other modifications of the special schedule in this Subpart C, if such adoption or substitution would be to the advantage of the employee or his beneficiary. This schedule shall not apply to any employee who becomes a permanent resident in the Territory of Guam prior to the date of his or her injury or death.

(b) *Death benefits.* 400 weeks' compensation at two-thirds of the weekly wage rate, shared equally by the eligible survivors in the same class.

(c) *Death beneficiaries.* Beneficiaries of death benefits shall be determined in accordance with the laws or customs of the country of recruitment.

(d) *Burial allowance.* 14 weeks' wages or $400, whichever is less, payable to the eligible survivor(s), regardless of the actual expense. If there is no eligible survivor, actual burial expenses may be paid or reimbursed, in an amount not to exceed what would be paid to an eligible survivor.

(e) *Permanent total disability.* 400 weeks' compensation at two-thirds of the weekly wage rate.

(f) *Permanent partial disability.* Where applicable, the compensation provided in subparagraphs (1) through (19) of paragraph (c) of § 25.11, subject to an aggregate limitation of 400 weeks' compensation. In all other cases, that proportion of the compensation provided for permanent total disability (paragraph (e) of this section) which is equivalent to the degree or percentage of physical impairment caused by the disability.

(g) *Temporary partial disability.* Two-thirds of the weekly loss of wage-earning capacity.

(h) *Compensation period for temporary disability.* Compensation for temporary disability is payable for a maximum period of 80 weeks.

(i) *Maximum compensation.* The total aggregate compensation payable in any case, for injury or death or both, shall not exceed $24,000, exclusive of medical costs and burial allowance. The weekly rate of compensation for disability or death shall not exceed $70.

(j) *Method of payment.* Compensation for temporary disability shall be payable periodically. Compensation for permanent disability and death shall be payable in full at the time extent of entitlement is established.

(k) *Exceptions.* The Director may in his or her discretion make exception to the regulations in this section by:

(1) Reapportioning death benefits for the sake of equity.

(2) Excluding from consideration potential beneficiaries of a deceased employee who are not available to receive payment.

(3) Paying compensation for permanent disability or death on a periodic basis, where this method of payment is considered to be in the best interest of the employee or his beneficiary(s).

(5 U.S.C. 8137, 8145, 8149)

Signed at Washington, D.C. this 7th day of February, 1975.

HERBERT A. DOYLE, JR.,
Director, Office of Workers' Compensation Programs.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

XUM

V40-32 FEB 14 75

XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and the Secrtary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended (40 U.S.C. 276a)) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Alabama:

Group 9:	9.43	.95	1.50	.30	.04

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Brakeman; Compressor engineer oiler; Generator; Heavy duty repairman helper; Pump; Signalman; Switchman

Group 2: Concrete mixer, skip type; Conveyor; Fireman; Generator, pump or compressor, 2 - 5 inclusive, hydrostatic pump; Plant operator, generator, pump or compressor; Skiploader - wheel type up to 3/4 yd. w/o attachments; Soils field technicians, Tar pot fireman; Temporary heating plant; Trenching machine oiler; Well point pump

Group 3: Elevator (inside); Ford Ferguson - w/drag; Helicopter radioman (ground); Oiler-crusher (asphalt or concrete plant); Power concrete curing machine operator; Power concrete saw, Power driven jumbo form setter; Stationary pipe wrapping and cleaning machine; Truck crane oiler

Group 4: Asphalt plant fireman; Boring machine; Chip spreading machine; Concrete pump; Concrete pump (truck mounted); Dinky locomotive or motorman (10 tons); Helicopter hoist; Helicopter radioman; Highline cableway signalman; Power sweeper; Screed; Rodman and chairman; Trenching machine (up to 6')

Group 5: A-frame winch truck; Asphalt plant or concrete batch plant; Asphalt spreading machine (spreader bar and similar); Bit sharpener; Boxman or mixerman (asphalt or concrete); Concrete joint machine (canal and similar type); Concrete planer; Drilling machine (water wells); Equipment greaser (mobile and grease rack); Ford Ferguson or similar type (w/drag attachments); Forklift (under 5 ton capacity); Hydra-hammer-Aero stomper; Hydrographic seeder machine (straw, pump, or seed); Instrumentman; Machine tool; Maginnis internal full slab vibrator; Mechanical berm, curb or gutter (concrete or asphalt), Mechanical finisher (concrete, Clary-Johnson-Bidwell or similar); Pavement breaker (truck mounted); Road oil mixing machine; Roller; Ross carrier (jobsite); Self-propelled tar pipelining machine; Skiploader (wheel or track type over 3/4 yd. up to and incl. 1-1/2 yds.); Slip form pump (power driven hydraulic lifting device for concrete forms); Stinger crane (Austin-Western or similar type), Traveling pipe wrapping, cleaning and bending machine; Truck type loader; Tugger hoist (1 drum)

Group 6: Asphalt or concrete plant engineer, Asphalt or concrete spreading (tamping or finishing); Asphalt paving machine (Barber Greene or similar type); Belt splicer or vulcanizer; BHL Lima Road Pactor, Wagner Pactor or similar; Bridge crane; Bridge type unloader and turntable; Cast-in-place pipe laying machine; Combination mixer and compressor (gunnite work); Concrete mixer-paving; Crane (up to and incl. 25 ton capacity - long boom pay applicable); Crushing plant; Deck engine; Drill doctor; Elevating grader; Forklift (over 5 tons); Gradeall; Grade checker; Grouting machine; Heading shield; Heavy duty repairman; Hoist (single drum-buck-hoist-Chicago boom and similar type),

POWER EQUIPMENT OPERATORS(CONT'D):
(Except Piledriving and Steel Erection)

Hoist (2 to 3 drum); Kolman belt loader and similar type; LeTourneau blob compactor or similar type; Lift mobile; Lift slab machine (Vagtborg and similar types); Material hoist (1 drum); Mucking machine (1/4 yd. rubber-tired, rail or track type); Piledriver; Pneumatic concrete placing machine (Hackley-Presswell or similar type); Pneumatic heading shield (Tunnel); Pumpcrete gun; Rotary drill (excl. Caisson type); Rubber-tired earth moving equipment (single engine-Caterpiller, Euclid, Athey wagon, Water Pulls and similar types with any and all attachments up to 50 cu. yds. struck), Rubber-tired scraper (self-loading paddle wheel type John Deere, 1040 and similar single unit); Skiploader (wheel or track type, over 1 1/2 yds. up to and incl. 6 1/2 yds.); Surface heaters and planer; Tractor-compressor-drill combination; Tractor, (Bulldozer, Tamper, Scraper and Push Tractor, single engine); Trenching machine (over 6' depth cap., manufacturers' rating); Tunnel locomotive (10 to 30 tons); Universal equipment (shovel, backhoe, dragline, clamshell, up to and incl. 1 cu. yd. MRC) (long boom pay applicable)

Group 7: Crane (over 25 tons up to and incl. 100 ton MRC) (long boom pay applicable); Derrick barge; Dual drum mixer; Hoist (2 or 3 drum w/boom attachment); Hoist (Stiff legs, Guy derricks or similar type up to 100 ton capacity - Oiler or long boom pay applicable); Loader (Athey, Euclid, Sierra or similar type); Monorail locomotive (Diesel, gas or electric); Motor patrol - Blade; Multiple engine tractor (Euclid and similar type, except Quad 9 Cat); Party chief; Rubber-tired earth moving equipment (Multiple engine, Euclid, Caterpillar and similar type up to 50 cu. yds. struck); Tractor (boom attachments - over 40' boom); Tractor loader (Crawler and wheel type over 6 1/2 yds.); Tower crane (2 operators required); Tower crane repairman; Universal equipment (Shovel, Backhoe, Dragline, Clamshell, over 1 cu. yd. MRC); Welder (heavy duty repairman) combination; Wood mixer and other similar Pugmill equipment

Group 8: Auto grader; Automatic slip form crane, over 100 tons (long boom pay applicable); Hoist (Stiff legs, Guy derricks or similar types, capable of hoisting over 100 tons - long boom pay applicable); Mass excavator (less than 750 cu. yds.); Mechanical finishing machine; Mobile form traveler; Motor patrol (multi-engine); Pipe mobile machine; Rubber-tired earth moving equipment (Multiple engine, Euclid, Caterpillar and similar type over 50 cy. struck); Rubber-tired scraper (pushing one another, w/o Push Cat, Push-Pull - $.50 p/h additional to base rate); Rubber-tired self-loading scraper (Paddle wheel - Auger type self-loading, 2 or more units); Tandem equipment (2 units); Tandem tractor (Quad or similar type); Tunnel mole boring machine

Group 9: Canal liner operator; Canal trimmer operator; Helicopter pilot; Highline cableway; Remote controlled earth moving equipment ($1.00 p/h additional to base rate); Wheel excavator operator (over 750 cy.)

SUPERSEDEAS DECISION

STATE: California
COUNTY: San Diego
DECISION NUMBER: CA75-5021
DATE: Date of Publication
Supersedes Decision No. AR-1048 dated November 22, 1974, in 39 FR 41120
DESCRIPTION OF WORK: Residential Construction consisting of single family homes and garden type apartments up to and including 4 stories.

Group 9:	9.43	.95	1.50	.30	.04

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Brakeman; Compressor engineer oiler; Generator; Heavy duty repairman helper; Pump; Signalman; Switchman

Group 2: Concrete mixer, skip type; Conveyor; Fireman; Generator, pump or compressor, 2 - 5 inclusive, hydrostatic pump; Plant operator, generator, pump or compressor; Skiploader - wheel type up to 3/4 yd. w/o attachments; Soils field technicians, Tar pot fireman; Temporary heating plant; Trenching machine oiler, Well point pump

Group 3: Elevator (inside); Ford Ferguson - w/drag; Helicopter radioman (ground); Oiler-crusher (asphalt or concrete plant); Power concrete curing machine operator; Power concrete saw, Power driven jumbo form setter; Stationary pipe wrapping and cleaning machine; Truck crane oiler

Group 4: Asphalt plant fireman; Boring machine; Chip spreading machine; Concrete pump; Concrete pump (truck mounted); Dinky locomotive or motorman (10 tons); Helicopter hoist; Helicopter radioman; Highline cableway signalman; Power sweeper; Screed; Rodman and chairman; Trenching machine (up to 6')

Group 5: A-frame winch truck; Asphalt plant or concrete batch plant; Asphalt spreading machine (spreader bar and similar); Bit sharpener; Boxman or mixerman (asphalt or concrete); Concrete joint machine (canal and similar type); Concrete planer; Drilling machine (water wells); Equipment greaser (mobile and grease rack); Ford Ferguson or similar type (w/drag attachments); Forklift (under 5 ton capacity); Hydra-hammer-Aero stomper; Hydrographic seeder machine (straw, pump, or seed); Instrumentman; Machine tool; Maginnis internal full slab vibrator; Mechanical berm, curb or gutter (concrete or asphalt); Mechanical finisher (concrete, Clary-Johnson-Bidwell or similar); Pavement breaker (truck mounted); Road oil mixing machine; Roller; Ross carrier (jobsite); Self-propelled tar pipelining machine; Skiploader (wheel or track type over 3/4 yd. up to and incl. 1-1/2 yds.); Slip form pump (power driven hydraulic lifting device for concrete forms), Stinger crane (Austin-Western or similar type), Traveling pipe wrapping, cleaning and bending machine; Truck type loader; Tugger hoist (1 drum)

Group 6: Asphalt or concrete plant engineer; Asphalt or concrete spreading (tamping or finishing); Asphalt paving machine (Barber Greene or similar type); Belt splicer or vulcanizer; BHL Lima Road Pactor, Wagner Pactor or similar; Bridge crane; Bridge type unloader and turntable; Cast-in-place pipe laying machine; Combination mixer and compressor (gunnite work); Concrete mixer-paving; Crane (up to and incl. 25 ton capacity - long boom pay applicable); Crushing plant; Deck engine; Drill doctor; Elevating grader; Forklift (over 5 tons); Gradeall; Grade checker; Grouting machine; Heading shield; Heavy duty repairman; Hoist (single drum-buck-hoist-Chicago boom and similar type).

POWER EQUIPMENT OPERATORS (CONT'D):
(Except Piledriving and Steel Erection)

Hoist (2 to 3 drum); Kolman belt loader and similar type; LeTourneau blob compactor or similar type; Lift slab machine (Vagtborg and similar types); Material hoist (1 drum); Mucking machine (1/4 yd. rubber-tired, rail or track type); Piledriver; Pneumatic concrete placing machine (Hackley-Presswell or similar type); Pneumatic heading shield (Tunnel); Pumpcrete gun; Rotary drill (excl. Caisson type); Rubber-tired earth moving equipment (single engine-Caterpiller, Euclid, Athey wagon, Water Pulls and similar types with any and all attachments up to 50 cu. yds. struck), Rubber-tired scraper (self-loading paddle wheel type John Deere, 1040 and similar single unit); Skiploader (wheel or track type, over 1 1/2 yds. up to and incl. 6 1/2 yds.); Surface heaters and planer; Tractor-compressor-drill combination; Tractor, (Bulldozer, Tamper, Scraper and Push Tractor, single engine); Trenching machine (over 6' depth cap., manufacturers' rating); Tunnel locomotive (10 to 30 tons); Universal equipment (shovel, backhoe, dragline, clamshell, up to and incl. 1 cu. yd. MRC) (long boom pay applicable)

Group 7: Crane (over 25 tons up to and incl. 100 ton MRC) (long boom pay applicable); Derrick barge; Dual drum mixer; Hoist (2 or 3 drum w/boom attachment); Hoist (Stiff legs, Guy derricks or similar type up to 100 ton capacity - Oiler on long boom pay applicable); Loader (Athey, Euclid, Sierra or similar type); Monorail locomotive (Diesel, gas or electric); Motor patrol - Blade; Multiple engine tractor (Euclid and similar type, except Quad 9 Cat); Party chief; Rubber-tired earth moving equipment (Multiple engine, Euclid, Caterpillar and similar type up to 50 cu. yds. struck); Tractor (boom attachments - over 40' boom); Tractor loader (Crawler and wheel type over 6 1/2 yds.); Tower crane (2 operators required); Tower crane repairman; Universal equipment (Shovel, Backhoe, Dragline, Clamshell, over 1 cu. yd. MRC); Welder (heavy duty repairman) combination; Wood mixer and other similar Pugmill equipment

Group 8: Auto grader; Automatic slip form crane, over 100 tons (long boom pay applicable); Hoist (Stiff legs, Guy derricks or similar types, capable of hoisting over 100 tons - long boom pay applicable); Mass excavator (less than 750 cu. yds.); Mechanical finishing machine; Mobile form traveler; Motor patrol (multi-engine); Pipe mobile machine; Rubber-tired earth moving equipment (Multiple engine, Euclid, Caterpillar and similar type over 50 cy. struck); Rubber-tired scraper (pushing one another, w/o Push Cat, Push-Pull - $.50 p/h additional to base rate); Rubber-tired self-loading scraper (Paddle wheel - Auger type self-loading, 2 or more units); Tandem equipment (2 units); Tandem tractor (Quad or similar type); Tunnel mole boring machine

Group 9: Canal liner operator; Canal trimmer operator; Helicopter pilot; Highline cableway; Remote controlled earth moving equipment ($1.00 p/h additional to base rate); Wheel excavator operator (over 750 cy.)

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $1.29 per hour to an Annuity Fund.

b. Employer contributes $8.00 per day to Annuity Fund.

c. Holidays: A through F; Lincoln's Birthday, Washington's Birthday; Columbus Day; Armistice Day & Election Day.

d. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

e. Holidays: A through F; Washington's Birthday, Xmas Eve and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.

f. Employer contributes $4.00 per day to Annuity Fund.

g. Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veteran's Day, (providing employee works two days in the calendar week in which the holiday falls and shape each remaining workday during such calendar week.)

h. For each 15 days worked within the contract year an employee will receive one day's vacation with pay, with a maximum vacation of three weeks per year.

i. Employer contributes $4.80 per day to Annuity Fund.

j. Paid Holiday: New Year's Day & Xmas Day providing the employee works the preceding and following the holiday.

k. Employer contributes $28.86 per month to Health & Welfare.

m. Employer contributes $29.13 per month to Pension Fund.

n. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Good Friday; Columbus Day; Armistice Day; Election Day.

o. Paid Holiday: St. Patricks Day.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:
a. Holidays: A through F.

b. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate after 6 months to 5 years of service as Vacation Pay Credit.

c. Holidays: A through F; Washington's Birthday, Good Friday, and Christmas Eve, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular schedule work days immediately preceding and following the holiday.

d. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election of Governor of New York State (provided employee works the day before and after the holiday.

e. After one year, one weeks vacation; 2 years, 6 days vacation; 3 years, 7 days vacation; up to 2 weeks maximum vacation after completion of the 5th year, full vacations are earned by a driver who works 1040 hours or more in the calendar year, vacation will be prorated for either 1 or 2 weeks of vacation on the basis of using the number of hours worked as the numerator and 1040 as the denominator.

f. Paid Holidays, A through F, Friday after Thanksgiving Day except where the employee is laid off 2 or more weeks prior to the holiday, however employees laid off less than 2 weeks prior to election Day will automatically be eligible for the subsequent Friday after Thanksgiving as a paid holiday even though laid off.

Blasters, burning torch on demolition	7.93	.60	1.55		
Rodman	8.03	.60	1.55		

BUILDING, HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Road rollers (over 7 tons) when used on blacktop, crane work, shovels, derricks, steel erection, overhead or bridge cranes and clam buckets, all excavating machines, trenchers, backfillers, cableways, draglines, backhoes, piledriving rigs, post drivers (except truck mounted), concrete mixer one yard and over, tunnel mucking machines, all tractors used in connection with scoper wagons, snowloader, all repair work or maintenance work under the supervision of a master mechanics, lubriation engineers, winch tractors, bulldozers, graders, blacktop spreaders, air-hoist commonly known as air tuggers when hoisting materials provided an engineer operates both machines and also provided the compressor and tugger are not separated by more than one hundred feet, front and back loaders (except small types), power driver stone spreaders, portable stone crushers, crawler or rubber tire tractor with blade or bucket and crane boom or hoe boom or shovel boom attached (except farm typed crawler or rubber tire tractor unless used with hydraulic backhoe), compressor with paving breaker attached, graders with bulldozer blades, multiple drum hoist with air compressor when used simultaneously and for any make portable concrete batching machine, automatic batch plant op., concrete spreader op., finishing machine op., form puller, self propelled rollers if on blacktop, scraper, either double or single bowl, CMI grading machine, truck mounted concrete pump, self-propelled riding vibrators, hydraulic concrete joint jammer, Rolman loaders, concrete planers, mechanic, wilder, euclid type belt loaders, mechanical and hydraulic pipe pushing machine, scoop-mobiles, fortlifts and hoist which lift higher than 25 feet.

GROUP II: Elevators, material hoist, road rollers except as prescribed in group I, tractors, pavement busters, jeep trenches, pumps over 4 inches, concrete blowers, air compressors over 165 cubic ft., compressors when used in banks of (2) and not over (3) within a 50 foot radius if such is possible, but atleast within a 100 foot radius, and if fuel is stored it will be stored within the same radius, gunite machines, locomotives, scoop-mobiles (when used as a stationary hoist or one which does not lift over twenty five feet, concrete pumps, conveyors, gas or diesel driven temporary lighting and power systems of 25 kilowatt capacity or over, stone crushers and winch hoist mounted on trucks, all earth drills, le tourneau turnatrailers, highlift hoist which does not lift over 25 feet, gasoline heaters used in banks of (2) and not over (3) within an area of 100 foot radius, and for (2) but not over (3) gasoline or diesel driven welding machines, trenchers on the back of a jeep, small trenchers which excavate to a depth of not more than 4 feet, truck mounted post drivers, snow-go, small front and back loaders, small type crawler or rubber tire tractor with blade or bucket not to exceed ½ yd. capacity, single drum hoist for hoisting materials other than steel, pug machine, pin puller, self propelled rollers not on blacktop and under 7 tons, bobcat loader or forklift which does not lift over twenty five feet.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS (CONT'D):

GROUP III: Oilers on (shovels, cranes, draglines, backhoes (over 3/4 cu. yds.) dredges, derrick boats, pavers (excluding stationary set-ups), trenching machines, pile drivers, quarry master (or its equivalent), hydrcranes, automated batch plants (wet or dry mix plants), compressors (165 cu. ft. per minute or under), pumps up to and including 4 inches.

GROUP IV: A truck crane oiler will be provided on rubberized equipment, when there is a separate cab to the house

GROUP V: Steam Boiler Operator

Daily List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 959—ONIONS GROWN IN SOUTH TEXAS

Handling Regulation: Correction

FR Doc. 74-30415 published at page 45203 in the issue dated Tuesday December 31, 1974, is corrected by changing paragraph (b)(5) to read as follows:

"Tolerances for size in the U.S. onion standards shall apply except that for 'repacker' and 'medium' sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply."

Dated: February 12, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-4289 Filed 2-14-75;8:45 am]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 444.8]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart G—Rural Housing Site Loan Policies, Procedures and Authorizations

LIMITATIONS

Section 1822.266(c) of Subpart G of Part 1822, Title 7 Code of Federal Regulations, (35 FR 10687) is amended to permit the sale of sites developed with a Section 524 Rural Housing Site loan to additional eligible purchasers as authorized by the Housing and Community Development Act of 1974. Sites that were developed with section 524 Rural Housing Site loans prior to this notice may be sold in accordance with this revision. It is the general policy of the Department of Agriculture to allow time for interested parties to take part in the rulemaking process. However, inasmuch as this amendment implements the Housing and Community Development Act of 1974, the public rulemaking process is unnecessary.

As amended, § 1822.266(c) reads as follows:

§ 1822.266 Limitations.

• • • • • •

(c) *Sale of developed sites.* The sites developed with a Section 524 loan must be for housing low- and moderate-income families and may be sold to families, nonprofit organizations, public agencies, and cooperatives eligible for assistance under any Section of Title V of the Housing Act of 1949, or under any other law which provides financial assistance. For example, this may include:

(1) Individuals with low and moderate incomes eligible for HUD mortgages.

(2) Individuals with low and moderate incomes eligible for VA guaranteed loans.

(3) Individuals with low or moderate incomes eligible for a loan from any private lender which is authorized by law to provide financial assistance for housing.

(4) Nonprofit organizations funded by Federal, State, or local governments carrying out programs for low- and moderate-income families to obtain housing.

(5) State or local public agencies such as a housing authority or a housing finance development agency carrying out programs for low- and moderate-income families to obtain housing.

• • • • • •

(42 U.S.C. 1480; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70)

Effective date. This amendment becomes effective on February 18, 1975.

Dated: February 6, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-4339 Filed 2-14-75;8:45 am]

[FmHA Instruction 442.1]

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Subpart A—Community Facility Loans

On page 44666 of the FEDERAL REGISTER of December 26, 1974, there was published notice of a proposed amendment of § 1823.6 of Subpart A of Part 1823. The change to § 1823.6 adds paragraph (b) (4) (i) and (ii) to allow security other than real estate liens and liens on personal property in those States where such security is precluded by State law; and also adds paragraph (c)(3) (i) and (ii) to provide that membership authorization of a project and its financing may not be required under certain conditions. Interested persons were given until January 27, 1975, to submit written comments, suggestions or objections regarding the proposed regulation.

No written objections have been received and the proposed regulation is adopted without change and is set forth below.

Effective date. This regulation is effective on February 18, 1975.

Dated: February 4, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

In 7 CFR 1823.6, paragraph (b)(4) is revised and (c)(3) is added to read as follows:

§ 1823.6 Security.

• • • • • •

(b) • • •

(4) In those cases where security is not available in accordance with paragraph (b)(3) of this section, a proposal may be considered provided the organization and facilities have:

(i) Been in existence and are able to present evidence of financially successful operation of a similar facility for a period of time sufficient to indicate project success. National Office concurrence is required for those applications in which the applicant has been in existence for less than ten years and/or has not operated on a financially successful basis for at least the last five years.

(ii) Such loans will be secured by an assignment of income and liens on real and personal property as evidenced by real estate mortgages, trust deeds, financing statements, chattel mortgages or statutory liens. If State law precludes securing the loan in such manner, the loan will be secured in the best possible manner consistent with State law and customary security taken by private lenders in the State such as revenue bonds and any other security the State Director determines necessary for a sound loan.

• • • • • •

(c) • • •

(3) *Membership authorization.* For organizations other than public bodies, the membership will authorize the project and its financing except that the State Director may, with the concurrence of the Office of the General Counsel, waive such membership authorization when State statutes and the organization's charter and bylaws do not require such authorization; and:

(i) The organization is well established and is operating with a sound financial base; or

(ii) The members of the organization have all signed an enforceable user agreement with a penalty clause and have made the required meaningful user cash contribution, except for members presently receiving service or when State statutes or local ordinances require mandatory use of the facility.

• • • • • •

PART 1843—FARMER PROGRAMS

Loan Subsidy Rates, Claims, and Payments

This amendment applies to loans on which a "conditional commitment for Guarantee" is issued after close of business, February 14, 1975. This amendment is being published without notice of proposed rule making inasmuch as the interest rate to be charged is set by § 1843.-3 of this part. The proposed rule making procedure is therefore unnecessary.

Section 1843.3, Part 1843, Title 7, Code of Federal Regulations (38 FR 29051, 30102, 30533; 39 FR 15868) is amended by revising paragraph (h) to read as follows:

§ 1843.3 Loan subsidy rates, claims, and payments.

• • • • • •

(h) *Current borrower, FmHA, and subsidy rates.*

[In percent]

Loan type	Interest rate to borrower	FmHA rate	Subsidy rate
OL	8¼	9¼	¼
EM for production purposes	5	9¼	4¼
EM for real estate	5	8½	3½
FO, SW, RL	5	8½	3½

(7 USC 1989; delegation of authority by the Secretary of Agriculture (7 CFR 2.23); delegation of authority by the Assistant Secretary for Rural Development (7 CFR 2.70))

Effective date. This amendment shall become effective on February 18, 1975.

Dated: February 10, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-4250 Filed 2-14-75;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75-44]

PART 22—DRAWBACK

Drawback Statements From Manufacturers or Producers

Sections 22.4(h) and 22.6(a) of the Customs Regulations (19 CFR 22.4(h), 22.6(a)) require each manufacturer or producer of articles intended for exportation with benefit of drawback, to file a drawback statement with the regional commissioner of Customs where his drawback entries will be filed and liquidated. Sections 22.4(h) and 22.6(a) require that this statement be filed in triplicate or, in certain prescribed instances, in quadruplicate. A transfer of regulatory audit functions within the U.S. Customs Service now permits a reduction of one (1) in the number of copies of the drawback statement required to be filed with the regional commissioner, or, in certain cases, with the Commissioner of Customs.

Accordingly, §§ 22.4(h) and 22.6(a) of the Customs Regulations (19 CFR 22.4 (h), 22.6(a)), are amended as set forth below:

The first and second sentences of paragraph (h) of § 22.4 are revised to read as follows:

§ 22.4 Identification of imported merchandise and ascertainment of quantities for allowance of drawback; establishment of drawback rates.

• • • • • •

(h) Each manufacturer or producer shall submit to the regional commissioner where his drawback entries will be liquidated a statement in duplicate describing the methods which he will follow and the records which he will keep for the purpose of establishing that the articles upon which drawback will be claimed have been manufactured or produced in the United States with the use of imported duty-paid merchandise within the meaning of section 313(a), Tariff Act of 1930, and that the records of identification, manufacture, or production and storage prescribed in this section have been maintained. In the case of operations under section 313 (b), (d), or (g), Tariff Act of 1930, as amended, and in the case of operations under any combination of section 313(a) with section 313 (b), (d), or (g), the statement in triplicate shall be submitted to the Commissioner of Customs. • • •

• • • • • •

Paragraph (a) of § 22.6 is revised to read as follows:

§ 22.6 General drawback rates in effect; approval of drawback statements by Headquarters, U.S. Customs Service, and by regional commissioners.

(a) *Drawback statements; filing and approval by one regional commissioner.* Each manufacturer or producer of articles covered by a drawback rate in this section, except under paragraph (g-1), shall submit to the regional commissioner where drawback entries will be filed, a statement in duplicate describing the methods used in the manufacture or production of the products involved and setting forth the records it agrees to keep for the purpose of complying with the drawback law and regulations and for providing all the data required for the proper liquidation of certificates of manufacture and drawback entries filed hereunder. If the statement shows that the methods and records described therein enable the manufacturer or producer to comply with the law and regulations, the regional commissioner shall approve the statement and promptly notify the applicant, in writing, of such action. Statements and supplemental statements in triplicate relating to products covered by paragraph (g)(1) of this section shall be forwarded to Headquarters, United States Customs Service, for approval.

• • • • • •

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624))

Inasmuch as these amendments merely relax present requirements and require no public initiative, notice and public procedure thereon is found to be unnecessary, and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. These amendments will be effective on February 18, 1975.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: February 7, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

CHANGE IN SPONSOR NAME

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512 (i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135 is amended in § 135.501(c) by revising code No. 034 to reflect the new corporate name as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

• • • • • •

(c) • • •

Code No.	*Firm name and address*
•	•
034	Smith Kline Animal Health Products, Division of SmithKline Corp., 1500 Spring Garden St., Philadelphia, PA 19101.
•	•

Effective date. This order shall be effective February 18, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: February 11, 1975.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—GENERAL

[Docket No. R-75-317]

PART 200—INTRODUCTION

Subpart D—Delegations to Particular Positions

MISCELLANEOUS AMENDMENTS

The Department is reorganizing its Area Offices to facilitate and improve administration of various programs particularly those involving Housing Production and Mortgage Credit and Community Planning and Development. In each Area Office the Operations Division is being abolished and its respective housing production and community planning functions will now be performed by a new Housing Production and Mortgage Credit Division and a new Community Planning and Development Division. In addition, the position of Environmental Officer is being established and certain other organizational changes are being effected. The reorganization applies to all Area Offices and the Department considers that the public interest will benefit by the earliest possible implementation of this reorganization, even though certain Area Offices have not yet completed the necessary managerial and operating changes. Therefore, this reorganization becomes effective on February 18, 1975. Nevertheless, in those offices where the change cannot yet be effected, titles and positions existing prior to reorganization are being retained, during the transitional period, with all the duties, powers, and authority heretofore conferred upon those positions.

There is being published concurrently with this revision of 24 CFR, Part 200 a Notice of Redelegation by the Assistant Secretary for Community Planning and Development with respect to programs which he administers. Accordingly, subpart D of 24 CFR Part 200 is amended as follows:

1. In part 200, Subpart D, in the Table of Contents, the headings of §§ 200.110, 200.111, 200.112, 200.113, 200.114, 200.115, and 200.116 are revised as set forth below; and §§ 200.112a, 200.113a, and 200.127 are revoked as follows:

Sec.
200.110 Chief, Valuation Branch or Head, Single-Family Valuation Section and Commitment Appraiser.
200.111 Chief, Mortgage Credit Branch or Head, Single-Family Mortgage Credit Section and Commitment Mortgage Credit Examiner.
200.112 Chief, Mortgage Credit Branch or Head, Multi-Family Mortgage Credit Section.
200.112a [Revoked]
200.113 Director/Chief Underwriter or Chief, Multi-Family Branch.
200.113a [Revoked]
200.114 Director/Chief Underwriter or Chief, Single-Family Branch and Deputy Director/Deputy Chief Underwriter.
200.115 Director/Chief Underwriter or Chief, Multi-Family Branch and Multifamily Housing Representative.
200.116 Director/Chief Underwriter and Deputy Director/Deputy Chief Underwriter.
200.127 [Revoked]

2. In § 200.110 the title and text are revised to read as follows:

§ 200.110 Chief, Valuation Branch or Head, Single-Family Valuation Section and Commitment Appraiser.

To the position of Chief, Valuation Branch or Head, Single-Family Valuation Section, in each HUD Area Office, and under his general supervision to the position of Commitment Appraiser, there is delegated the following basic authority and function: To approve conditional commitments to insure 1- to 4-family housing and Title X project mortgages, *Provided, however,* That the issuance of feasibility letters, conditional commitments, or final commitments to insure projects in accordance with section 236 shall require the concurrence, indicated by signature, on the part of the Regional Administrator as to projects for which feasibility letters or conditional commitments were issued after December 15, 1972.

3. In § 200.111 the title and introductory text and paragraph (a) are revised to read as follows:

§ 200.111 Chief, Mortgage Credit Branch or Head, Single-Family Mortgage Credit Section and Commitment Mortgage Credit Examiner.

To the position of Chief, Mortgage Credit Branch or Head, Single-Family Mortgage Credit Section, in each HUD Area Office, and under his general supervision to the position of Commitment Mortgage Credit Examiner, there is delegated the following basic authority and functions:

(a) To approve firm commitments for, and to make interest assistance payment contracts in conjunction with, the insuring of 1- to 4-family housing and Title X project mortgages.

• • • • • •

4. In Subpart D, § 200.112 is revised to read as follows:

§ 200.112 Chief, Mortgage Credit Branch or Head, Multifamily Mortgage Credit Section.

To the position of Chief, Mortgage Credit Branch or Head, Multifamily Mortgage Credit Section, in each HUD Area Office, there is delegated the following basic authority and functions:

(a) To approve financial requirements for closing and execute and approve effective date interest reduction payment contracts for multifamily housing programs.

(b) To approve requests for approval of advances under a preliminary loan contract or under a contract for planning and land acquisition.

(c) To approve requests for approval of advances of funds and requisition of funds for non-permanently financed low-rent public housing.

(d) To approve determinations of minimum development cost for low-rent public housing.

§ 200.112a [Revoked]

5. In Subpart D, § 200.112a is revoked.

6. In § 200.113 the title, introductory text and paragraph (e) is added to read as follows:

§ 200.113 Director/Chief Underwriter or Chief, Multifamily Branch.

To the position of Director/Chief Underwriter or Chief, Multifamily Branch, in each HUD Area Office, there is delegated the following basic authority and functions:

(a) To direct underwriting processing for the insurance of mortgages in other than 1- to 4-family housing and Title X projects and establish and administer related processing target dates and construction starting dates, to approve preliminary underwriting determinations and recommend their acceptance for the insurance of mortgages in programs other than 1- to 4-family housing and Title X projects, to approve related construction advances and change orders, and to perform the functions and exercise the authorities as set forth in § 200.112.

• • • • • •

(c) To approve construction contract awards, acceptance of final inspections, and acceptance of certificates in lieu of audit or audit reports, all as related to the production of college housing.

• • • • • •

(e) To make reservations of rent supplement contract authority for section 236 projects.

§ 200.113a [Revoked]

7. In Subpart D, § 200.113a is revoked.

8. In § 200.114 the title, introductory text and paragraphs (b) and (c) are revised to read as follows:

§ 200.114 Director/Chief Underwriter or Chief, Single-Family Branch and Deputy Director/Deputy Chief Underwriter.

To the position of Director/Chief Underwriter or Chief, Single-Family Branch, and under his general supervision to the positions of Deputy Director/Deputy Chief Underwriter and Chief, Single-Family Branch, there is delegated the following basic authority and functions:

• • • • • •

(b) To establish and administer 1- to 4-family housing and Title X project mortgage insurance application processing target dates.

(c) To approve applications, subdivision reports, and construction changes related to the production of 1- to 4-family housing and Title X projects.

• • • • • •

XUM
V 40 33
FEB 18 75
XUM

9. In Subpart D, 200.115 is revised to read as follows:

§ 200.115 Director/Chief Underwriter or Chief, Multifamily Branch.

To the position of Director/Chief Underwriter or Chief, Multifamily Branch, in each HUD Area Office, and under his general supervision to the position of Multifamily Housing Representative, there is delegated the following basic authority and functions:

(a) To coordinate the participation in and support by those activities in the Area Office necessary to achieve required interprogram coordination in dealing with applications for (1) mortgage insurance in programs other than 1- to 4-family housing and Title X projects, (2) low-rent public housing, and (3) other subsidized housing projects.

(b) To approve findings of acceptability of proposals with respect to their completeness, compatibility with program policy, and, as applicable, the satisfaction of eligibility criteria.

10. In Subpart D, the heading, introductory text, and paragraph (a) of § 200.116 are revised to read as follows:

§ 200.116 Director/Chief Underwriter and Deputy Director/Deputy Chief Underwriter.

To the position of Director/Chief Underwriter, in each HUD Area Office, and under his general supervision to the position of Deputy Director/Deputy Chief Underwriter there is delegated the following basic authority and functions:

(a) To direct all activities essential to the insurance of mortgages, including the approval of determinations supporting feasibility letters, commitments and insurance endorsements, and the approval of cost certifications, eligibility statements, regulatory agreements, nonprofit sponsors and housing consultants, all as related to mortgages in programs other than 1- to 4-family housing and Title X projects; to establish and monitor adherence to related processing priorities and schedules, and to perform the functions and exercise the authorities set forth in §§ 200.113, 200.114, and 200.115.

• • • • •

11. In § 200.119, paragraph (b) is revised to read as follows:

§ 200.119 Designation of officials to perform certain functions with respect to the insurance of mortgages.

• • • • •

(b) *Officials designated.* The functions described in paragraph (a) of this section may be exercised by the officials appointed to the following positions:

(1) The Deputy Area Director.

(2) The Director/Chief Underwriter.

§ 200.127 [Revoked]

12. In Subpart D, § 200.127, *Area Office Chief Underwriter and Deputy Underwriter*, is revoked.

(Sec. 7(d) Dept. of HUD Act, 42 U.S.C. 3535(d)).

Effective date. This revision shall be effective on February 18, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary-Commissioner.

[FR Doc. 75-4336 Filed 2-14-75;8:45 am]

[Docket No. R-75-313]

MORTGAGE INSURANCE AND HOME IMPROVEMENT LOANS

Changes in Interest Rates

The following miscellaneous revisions have been made to this chapter to reduce from 9 percent to 8½ percent the maximum rate of interest for certain mortgage and loan insurance programs under the National Housing Act:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart A—Eligibility Requirements

1. Section 203.20(a) is revised to read as follows:

§ 203.20 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

2. Section 203.74(a) is revised to read as follows:

§ 203.74 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 8½ percent, except that where an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

Subpart A—Eligibility Requirements

• • • • •

Section 205.50 is revised to read as follows:

§ 205.50 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply sec. 207, 52 Stat. 16, as amended; 12 U.S.C. 1713)

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirement

Section 207.7(a) is revised to read as follows:

§ 207.7 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage shall bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or applies sec. 207, 52 Stat. 16, as amended; 12 U.S.C. 1713)

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Projects

1. Section 213.10(a) is revised to read as follows:

§ 213.10 Maximum interest rate.

(a) The mortgage or a supplementary loan shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, or the lender and the borrower, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply sec. 213, 64 Stat. 54, as amended; 12 U.S.C. 1715e)

Subpart C—Eligibility Requirement—Individual Properties Released From Project Mortgage

2. Section 213.511(a) is revised to read as follows:

§ 213.511 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply Sec. 213, 64 Stat. 54, as amended; 12 U.S.C. 1715e)

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

Subpart C—Eligibility Requirements—Projects

Section 220.576(a) is revised to read as follows:

§ 220.576 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the loan may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 220, 68 Stat. 596, as amended; 12 U.S.C. 1715k)

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Moderate Income Projects

Section 221.518(a) is revised to read as follows:

§ 221.518 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

Interest shall be payable in monthly installments on the principal amount of the mortgage outstanding on the due date of each installment.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 221, 68 Stat. 599, as amended; 12 U.S.C. 1715l)

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

Section 232.29(a) is revised to read as follows:

§ 232.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 232, 73 Stat. 663; 12 U.S.C. 1715w)

Subpart C—Eligibility Requirements—Supplemental Loans To Finance Purchase and Installation of Fire Safety Equipment

Section 232.560(a) is revised to read as follows:

§ 232.560 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 8¾ percent per annum, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the loan may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 232, 73 Stat. 663; 12 U.S.C. 1715w)

PART 234—CONDOMINIUM OWNERSHIP MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Individually Owned Units

Section 234.29(a) is revised to read as follows:

§ 234.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of receipt of the application.

• • • • •

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 234, 75 Stat. 160; 12 U.S.C. 1715y)

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Subpart D—Eligibility Requirements—Rehabilitation Sale Projects

Section 235.540 is revised to read as follows:

§ 235.540 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interests at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 235, 82 Stat. 477; 12 U.S.C. 1715z)

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

Subpart A—Eligibility Requirements for Mortgage Insurance

Section 236.15 is revised to read as follows:

§ 236.15 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 236, 52 Stat. 498; 12 U.S.C. 1715z-1)

PART 241—SUPPLEMENTARY FINANCING FOR INSURED PROJECT MORTGAGES

Subpart A—Eligibility Requirements

Section 241.75 is revised to read as follows:

§ 241.75 Maximum interest rate.

The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the loan may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application. Interest shall be payable in monthly installments on the principal then outstanding.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 241, 82 Stat. 508, 12 U.S.C. 1715z-b)

PART 242—MORTGAGE INSURANCE FOR HOSPITALS

Subpart A—Eligibility Requirements

Section 242.33 is revised to read as follows:

XUM V40133 FEB 18 75 XUM

§ 242.33 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application. Interest shall be payable in monthly installments on the principal then outstanding.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 242, 82 Stat. 5999; 12 U.S.C. 1715z–7)

PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Subpart A—Eligibility Requirements

Section 244.45(a) is revised to read as follows:

§ 244.45 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 8½ percent, except that where a letter inviting submission of an application for commitment was issued by the Secretary before January 21, 1975, or an application for commitment was received by the Secretary before January 21, 1975, the mortgage may bear interest at the maximum rate in effect at the time of issuance of the letter or receipt of the application.

• • • • •

(Sec. 1104, 80 Stat. 1275; 12 U.S.C. 1749aaa–3)

Effective date. These amendments shall be effective on January 21, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit—FHA Commissioner.

CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—INTRODUCTION

[Docket No. R–75–210]

PART 300—GENERAL

List of Attorneys-in-Fact

Section 300.11 is amended by revising paragraph (a) to show the addition of new paragraph (d), by adding to paragraph (c) additional names to the list of attorneys-in-fact authorized to act on behalf of the Association and by removing two names from the current list, and by adding a new paragraph (d).

Notice and public procedure on this amendment are unnecessary and impracticable because of the large volume of legal documents that must be executed on behalf of the Association in connection with its recent auctions of mortgages.

1. Paragraph (a) of § 300.11 is revised to read as follows:

§ 300.11 Power of attorney.

(a) The Association does hereby make, constitute, and appoint each of the persons named in paragraphs (c) and (d) of this section its true and lawful attorney-in-fact, for the Association and in its name and stead:

• • • • •

2. Paragraph (c) of § 300.11 is amended by deleting the following names from the current list of attorneys-in-fact:

Name	*Region*
Hugh J. McConville	Dallas, Tex.
Jack Tuggle	Los Angeles, Calif.

3. Paragraph (c) of § 300.11 is further amended by adding the following names in alphabetical sequence to the current list of attorneys-in-fact:

Name	*Region*
Burleigh O. Burshem	Washington, D.C.
Frederick W. Mowatt	Do.

4. A new paragraph (d) is added as follows:

(d) The persons appointed attorneys-in-fact by paragraph (a) of this section are:

Federal Home Loan Mortgage Corporation, created under the laws of the United States:

Philip R. Brinkerhoff	Washington, D.C.
Douglas R. Cottrell	Atlanta, Ga.
James W. Cotts	Pittsburgh, Pa.
Eugene F. Dunn	Lanham, Md.
Robert J. Eisenberg	Boston, Mass.
Kan Halterman	Little Rock, Ark.
Philip N. Harrington	Washington, D.C.
David G. Herold	Boston, Mass.
Rob L. Hollingsworth	Seattle, Wash.
John Horseman, Sr	Washington, D.C.
Victor H. Indiek	Do.
David S. Latimore	Atlanta, Ga.
Lee Linkroum	Los Angeles, Calif.
John E. Lott	Chicago, Ill.
Michael J. Materie	Seattle, Wash.
Michael S. Meyer	San Francisco, Calif.
Walter P. Moenning, Jr	Indianapolis, Ind.
Randall M. Nay	Des Moines, Iowa
Jerry C. Nelson	Little Rock, Ark.
Robert K. Ostengaard	Los Angeles, Calif.
Louis C. Paretti	New York, N.Y.
Edwin G. Pearce	Denver, Colo.
Paul Quinn	Do.
William R. Thomas, Jr	Cincinnati, Ohio
Clifford Walters	Chicago, Ill.

Effective date. This amendment shall be effective on February 18, 1975.

DANIEL P. KEARNEY,
President, Government National Mortgage Association.

[FR Doc.75–4301 Filed 2–14–75;8:45 am]

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 471]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-4088 Filed 2-14-75;8:45 am]

[Docket No. FI 477]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Where two dates appear in the column marked effective date of identification, the first listing refers to the initial identification of areas having special flood hazards, and the second date refers to additional areas identified. Accordingly, Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD–74–249]

PART 62—LORAN

Loran—C System Rate Structure Change

Correction

In FR Doc. 75–3635, appearing at page 6338 of the issue for Tuesday, February 11, 1975 the following corrections are made:

1. In the second column on page 6338, in the paragraph following Table I, the first sentence should read as follows:

"As can be seen in Table I, which shows the present rate structure, adjacent basic rates are either 10,000 or 20,000 microseconds apart, and adjacent specific rates are no closer than 100 microseconds to each other. The omission of specific rates 8 and 9 further limits the number of available rates."

2. In the third column on page 6338, Table II should read as set forth below:

TABLE II.—Group repetition intervals

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

EFFECTIVE DATE OF INCREASED BENEFITS

On page 43558 of the FEDERAL REGISTER of December 16, 1974, there was published a notice of proposed regulatory development to amend § 3.660(c) to provide that when an increase in rates is due to marriage, or birth or adoption of a child, which would permit payment at a higher rate, the increased rate will be effective the date of the event if evidence of the event is received within 1 year from such date. In addition minor editorial changes were made in §§ 3.660(a), 3.662, and 3.666 to reflect these provisions apply equally to male and female beneficiaries. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. Section 3.660(c) is effective December 24, 1970.

Approved: February 10, 1975.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

1. In § 3.660, paragraph (a) (1) and (c) are revised to read as follows:

§ 3.660 Dependency, income and estate.

(a) *Reduction or discontinuance*—(1) *General.* A veteran, widow, widower or child who is receiving pension, or a parent who is receiving compensation or dependency and indemnity compensation must notify the Veterans Administration of any material change or expected change in his or her income or other circumstances which would affect his or her entitlement to receive, or the rate of, the benefit being paid. Such notice must be furnished when the veteran acquires knowledge that he or she will begin to receive additional income at a rate which if continued will cause the income to exceed the income limitation or increment applicable to the rate of the benefit being paid or when his or her marital or dependency status changes. In pension claims subject to § 3.252(b) and in compensation claims subject to § 3.250(a)(2), notice must be furnished of any material increase in corpus of the estate or net worth.

• • • • • •

(c) *Increases; change in status.* Where there is change in the payee's marital status or status of dependents which would permit payment at a higher rate and the change in status is by reason of the claimant's marriage or birth or adoption of a child, the effective date of the increase will be the date of the event if the required evidence is received within 1 year of the event. Where there is a change in dependency status for any reason other than marriage, or the birth or adoption of a child, which would permit payment at a higher rate, the increased rate will be effective the date of receipt of notice constituting an informal claim if the required evidence is received within 1 year of the Veterans Administration request. The rate payable for each period will be determined, as provided in § 3.260 (f), on the basis of income for the full calendar year. (See § 3.651 as to increase due to termination of payments to another payee. Also see § 3.667 as to increase based on school attendance.)

2. Section 3.662 is revised to read as follows:

§ 3.662 Children; no widow or widower entitled.

(a) When an award of death pension to a widow or widower with a child or children has been discontinued for the reason that his or her annual income is in excess of the statutory limitation, payments to the child or children whose annual income, determined separately, does not exceed the statutory limitation will commence effective the day following the date of last payment to the widow or widower. In those cases in which an award of death pension to a widow or widower is discontinued retroactively in accordance with the provisions of § 3.660 and an additional amount in behalf of a child or children was included in the award, an adjustment will be made in the award to the widow or widower. The monthly rate payable to the widow or widower for the period from the effective date of discontinuance to the date of last payment will be the amount to which such child or children would have been entitled during that period.

(b) When payments are being made to a child or children and evidence is received showing that the annual income of the widow or widower, which was in excess of the statutory limitation, has been reduced to an amount not in excess of the statutory limitation, payments to the child or children will be discontinued effective date of last payment. For the period commencing the date from which the widow or widower is shown to be entitled to the date of last payment to the child or children, the rate for the widow or widower will be the difference between the amount paid to the child or children and the amount which would have been payable for the widow or widower and child or children. The full rate will be payable thereafter.

3. In § 3.666, the introductory text preceding paragraph (a) and the introductory text of paragraph (a) preceding paragraph (a)(1) are revised to read as follows:

§ 3.666 Penal institutions.

Where any individual to or for whom pension is being paid under a public or private law administered by the Veterans Administration is imprisoned in a Federal, State or local penal institution as the result of conviction of a felony or misdemeanor, such pension payments will be discontinued effective on the 61st day of imprisonment following conviction. The payee will be informed of his or her rights and the rights of dependents to payments while he or she is imprisoned as well as the conditions under which payments to him or to her may be resumed on his or her release from imprisonment. Payments of pension authorized under this section will continue until notice is received in the Veterans Administration that the imprisonment has terminated.

(a) *Disability pension.* Payment may be made to the wife, husband, child or children of a veteran disqualified under this section:

Title 39—Postal Service

CHAPTER III—POSTAL RATE COMMISSION

[Docket No. RM 75-1; Order 58]

PART 3001—RULES OF PRACTICE AND PROCEDURE

Public Information and Requests

FEBRUARY 12, 1975.

On January 9, 1975, the Commission issued a notice of proposed rulemaking, proposing to amend its regulations governing the availability of information to the public, as required by the Pub. L. 93-502 amendments to the Freedom of Information Act (5 U.S.C. (552 et seq.)). Interested persons were invited to comment by February 4, 1975. No comments were received. Accordingly, for reasons set forth in the notice of proposed rulemaking, the Commission has decided to adopt the proposed amendments to its rules of practice and procedure. We further find that good cause exists for making these amendments effective immediately.

Accordingly, pursuant to 39 U.S.C. 3603 and 5 U.S.C. 552, it is ordered that the Commission's rules of practice and procedure are amended as follows, said amendment to became effective on February 18, 1975.

Section 3001.42 of 39 CFR Part 3001 is amended as follows:

1. In paragraph (b)(12)(i) is revised and a new (vii) is added to read as follows:

(b) *Public records.* The public records of the Commission include: • • •

(12) All other records of the Commission except for those that are:

(i) (a) Specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (b) are in fact properly classified pursuant to such Executive order;

• • • • •

(vii) Investigatory records compiled for law enforcement purposes, to the extent specified in 5 U.S.C. 552(b)(7).

2. Paragraph (c) is revised to read as follows:

(c) *Requests for Records.* Requests for records shall be in writing and shall reasonably describe the records sought. Requests shall be addressed to the Secretary at the offices of the Commission. Requests which rely upon the Freedom of Information Act, 5 U.S.C. 552, shall bear the caption "Freedom of Information Act Request." Within 10 days (excluding Saturdays, Sundays, and legal public holidays) after receipt of a request for a Commission record, the Secretary shall:

(1) *General.* Inform the requestor where and when the records may be inspected and, if ascertainable, of the charge for furnishing copies; or

(2) *Deny the request.* A denial shall be in writing; it shall cite the specific exemption or exemptions under these rules authorizing the withholding of the records sought and shall inform the requestor that he may, within 20 days, appeal the denial to the Commission. Appeals to the Commission shall be in writing. The Commission may also review any decision of the Secretary on its own initiative. The Commission will consider all appeals and either grant or deny them in writing, within 20 days (excluding Saturdays, Sundays and legal public holidays) of the date the appeal is received. If on appeal the denial of the request for records is upheld, the Commission shall notify the person making such request of the provisions for judicial review of that determination pursuant to 5 U.S.C. 552(c).

(3) *Extensions of time.* The time period for decision on application pursuant to paragraph (c) of this section may be extended up to 10 working days by the Secretary and the time period for decisions on appeals may be extended up to 10 working days by the Commission, provided, however, that the total period of extensions may not exceed 10 working days. Such extensions shall be by written notice determining that an extension is warranted by unusual circumstances as specified in 5 U.S.C. 552(a)(6)(B).

(4) *Fees.* Documents furnished pursuant to the Freedom of Information Act shall be subject to a fee of 15 cents a page to meet the costs of duplication. Documents may be furnished without charge or at a reduced charge if the Commission determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

Issued February 12, 1975.

By the Commission.

[SEAL] JAMES R. LINDSAY, *Secretary.*

[FR Doc.75-4371 Filed 2-14-75;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 338-6]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Crop Groups

Section 180.34(f), Title 40 CFR, contains groups of crops which list raw agricultural commodities that are considered to be related for the purposes of establishing tolerances for pesticides. Commodities not listed in § 180.34(f) are not considered as related for such purposes. Based on the information at hand, the Administrator of the Environmental Protection Agency (EPA) has concluded that the groups "Forge Legumes," "Grain Crops," "Seed and Pod Vegetables (Dry or Succulent)," and "Small Fruits" should be expanded to include the related raw agricultural commodities listed below. The Administrator has also determined that the groups "Stored Fruits and Vegetables" and "Stored Grain" should be deleted.

These amendments merely make technical changes and are considered noncontroversial in nature. Notice, public procedure, and delayed effective date are not, therefore, prerequisites to the promulgation of this order.

Effective date. This order shall become effective on February 18, 1975.

(Federal Food, Drug, and Cosmetic Act (40 CFR Part 180; 21 U.S.C. 408(b))).

Dated: February 11, 1975.

EDWIN L. JOHNSON, *Acting Deputy Assistant Administrator, Pesticide Programs.*

Section 180.34(f) is amended to include the following commodities for the groups listed.

Group	Commodities therein
Forage legumes	Alphabetically insert after "lespedeza" and before "peanuts" the commodity "lupines".
Grain crops	Alphabetically insert after "(field corn, sweet corn, and popcorn)" and before "milo" the commodity "millet".
Seed and pod vegetables (dry or succulent).	Add the commodity "lentils" to the end of the list.
Small fruits	Add the commodities "strawberries, youngberries" to the end of the list.

• • • • •

Section 180.34(f) is also amended by deleting the groups and commodities therein for "Stored Fruits and Vegetables" and "Stored Grain."

[FR Doc.75-4295 Filed 2-14-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

Miscellaneous Amendments

This amendment involves matters relating to agency management and contracting and while not subject by law to the notice and public procedure requirements for rulemaking under 5 U.S.C. 553 is subject to the Secretary's Statement of Policy (36 FR 13804). The amendment corrects or clarifies existing policy and embodies already existing Government-wide policy. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's Policy Statement, that notice and other public procedures with respect to the amendment are impracticable and unnecessary.

PART 4-1—GENERAL

1. The Table of Contents of Part 4-1 is amended as follows:

a. The following section is added:

4-1.064 Agriculture Grant and Agreement Regulations.

b. The heading of the following section is revised to read as follows:

4-1.451 Procurement by the Office of Operations.

c. Sections 4-1.708 and 4-1.708-2 are deleted.

2. Sections and paragraphs 4-1.006-2(a), 4-1.008, 4-1.009-2(a), 4-1.009-2(b), and 4-1.051(b) are revised to read as follows:

§ 4-1.006-2 Publication.

(a) AGPR are published in looseleaf form for distribution within the Department. Requests to be placed on the distribution list, or for extra copies, should be addressed to the Director, Office of Operations.

• • • • •

§ 4-1.008 Agency implementation.

As portions of AGPR material are prescribed, agencies within the Department may publish in the FEDERAL REGISTER implementing regulations deemed necessary, as outlined in § 4-1.006-2. Detailed instructions of interest primarily for internal agency guidance will not be published in the FEDERAL REGISTER. All implementing regulations shall be prepared to conform with FPR style and arrangement, except that the looseleaf format may be in a single column per page. Regulations or instructions issued by agencies of the Department will be identified by the use of alphabetical suffixes with the chapter number as follows:

4A Agricultural Marketing Service.
4B Agricultural Research Service.
4C Agricultural Stabilization and Conservation Service.
4D Farmers Home Administration.
4E Extension Service.
4F Foreign Agricultural Service.
4G Forest Service.
4H Rural Electrification Administration.
4I Soil Conservation Service.
4J Economic Management Support Center.
4K Food and Nutrition Service.
4L Animal and Plant Health Inspection Service.
4M Federal Crop Insurance Corporation.
4N Office of Operations Procurement Division.

§ 4-1.009-2 Procedure.

Deviations from the FPR and AGPR shall be kept to a minimum and controlled as follows:

(a) Deviations must be approved in advance. Individual case deviations may be approved by the Heads of Department Agencies or their designated representative. Deviations for classes of cases must be approved by the Director, Office of Operations. Requests to the Director for approval of class deviations shall be initiated by the Heads of Department Agencies. Requests for deviations shall cite the specific part of the FPR or AGPR from which it is desired to deviate, set forth the nature of the deviations, and give reasons for the action requested.

(b) If a requested deviation is considered appropriate approval will be accomplished as follows:

(1) Where the deviation applies to an individual case, approval will be granted by memorandum addressed to the requesting officer with copies to interested offices. The contract file of the requesting office shall include a copy of the request and approval. A copy of the request and approval shall be furnished to the Office of Operations.

(2) Where the deviation applies to a class of cases, necessary coordination with the General Services Administration and Office of Management and Budget will be accomplished by the Office of Operations. The deviation may be issued as a part of AGPR, or the agency concerned may be authorized to issue internal instructions which incorporate the deviation.

• • • • •

§ 4-1.051 Administrative regulations.

• • • • •

(b) Arrangement. The complete Administrative Regulations consist of the following titles:

Title 1—General Authorities and Functions.
Title 2—National Agricultural Library.
Title 3—Information.
Title 4—Agriculture Grant and Agreement Regulations.
Title 5—Management Improvement.
Title 6—Budget.
Title 7—Accounting.
Title 8—Audit and Investigation.

3. Part 4-1 is amended by adding the following § 4-1.054:

§ 4-1.054 Agriculture Grant and Agreement Regulations.

The Agriculture Grant and Agreement Regulations are prescribed for application to administrative processes of grant, cooperative, and research agreement programs of the Department. They are published as Title 4 of the Administrative Regulations (see § 4-1.051).

4. Sections 4-1.302-3, 4-1.305-3, 4-1.305-50, 4-1.305-52, 4-1.306, 4-1.307-2(l), 4-1.307-3, and 4-1.310-5 are revised to read as follows:

§ 4-1.302-3 Contracts between the Government and Government employees or business concerns substantially owned or controlled by Government employees.

(a) *Policy.* Contracts between the Government and its employees are not prohibited generally by statute, but only where an employee acts as an agent both for the Government and the contractor in the transaction of business (see 18 U.S.C. 208) or where the services to be rendered under a contract with an employee is such as could have been required of him in his official capacity (see 5 U.S.C. 5535, 5536). However, aside from any statutory prohibition, contracts between the Government and its employees are open to criticism for possible favoritism and preferential treatment and should not, therefore, be made except for the most cogent reasons and under no circumstances where the needs of the Government reasonably can be otherwise supplied. The hire or rental of equipment from employees is generally prohibited. See § 4-4.5408 of this chapter for leases with Government employees and 18 U.S.C. 208 (§ 4-52.166 of this chapter) for acts of employees affecting a personal financial interest.

(b) *Approval.* Purchases from Government employees shall be approved in writing by the agency head or his designee for this purpose.

(c) *Exceptions.* The Forest Service may hire or rent property from employees of the Forest Service for the use of that Service in accordance with 16 U.S.C. 502, as amended. (See § 4-52.141.)

§ 4-1.305-3 Deviations from Federal specifications.

Agencies shall designate competent officials to authorize required deviations from Federal specifications. Such deviations shall be supported by written justifications therefor, copies of which shall be furnished promptly to the Director, Office of Operations, who shall notify the General Services Administration in accordance with applicable regulations.

§ 4-1.305-50 Agency specifications.

(a) *Definition.* A specification prepared by an agency of the Department to meet recurring needs of the agency involved for specialized supplies, equipment, or services peculiar to its needs, and for use by other agencies of the Department as need therefor arises.

(b) *Responsibility.* Agencies of the Department will be responsible for the development and maintenance of agency specifications which fall within their respective areas of operation. The Office of Operations will be responsible for coordinating the development and uses of such specifications in the Department.

(c) *Development.* As the need arises in an agency for a standard agency specification, it will be developed by the agency involved along the same general lines outlined in § 4-1.307 for the development of specifications for attachment to invitations for bids. If technical or other problems arise that require the assistance of a specialist in a particular field not available in the agency, request for such assistance should be made to the Office of Operations. A copy of each new agency specification developed shall be forwarded to the Office of Operations.

(d) *Maintenance of list of agency specifications.* The Office of Operations will maintain a list of all agency specifications. The list will be distributed in the Department periodically, and will show origin of the specification and where copies may be obtained.

§ 4-1.305-52 Availability of copies of specifications and standards.

When Federal Specifications and Standards are used, copies should be on file in the office issuing the invitation, so that they may be examined by interested bidders. Prospective bidders should be

XUM
V40-33
FEB 18 75
XUM

advised in the invitation that copies of Federal Specifications and Standards may be purchased at a nominal cost from the Business Service Centers of the General Services Administration Regional Offices. Department users will obtain annual requirements of specifications and standards (including Federal, Emergency Federal, Interim Federal, and GSA) and index (including supplements thereto) from the Central Supply Branch, Office of Operations, which will obtain a sufficient supply from GSA to meet the needs of the agencies both in Washington, D.C., and in the field, and will distribute them on a reimbursable basis to agency headquarters in Washington in accordance with a mailing list which it maintains for that purpose. Other requirements may be obtained from the Federal Supply Service, Region 3, GSA, 7th and D Streets SW., Washington, D.C., by purchase order. These other requirements will be furnished without charge unless they are substantial in quantity, in which event GSA may require reimbursement.

§ 4–1.306 Standards.

§ 4–1.306–1 Mandatory use and application of Federal Standards.

If deviation from or modification of a Federal Standard is required, application, giving reason therefor, should be made through appropriate agency channels to the Office of Operations for transmittal to the Federal Supply Service, Standards Division of GSA. The use of Interim Federal Standards is optional. Federal Standards do not preclude the use of existing Government stocks or excess property not in full conformity with such standards.

§ 4–1.307–2 General requirements.

• • • • •

(1) *Basis for evaluation.* The basis that will be used in evaluation of bids should be as clear, precise and exact as possible and must be stated in the Invitation for Bids. It should be stated as a mathematical equation if possible. Where this cannot be done it must be stated with sufficient clarity and exactness to inform each bidder, prior to bid opening, of the factors which will be used in evaluating his bid in relation to other bids, so that he may estimate within reasonable limits the effect of the application of such evaluation. Factors such as, but not limited to, weighted values to be applied at time of award, award in the aggregate, estimated quantities, delivery time when the need is urgent, with liquidated damages in case of delay, and any other circumstance which may cause the award to be made in an unusual manner, must be set forth in the invitation for bids.

§ 4–1.307–3 Commercial, and State and local government specifications and standards.

(a) Purchase descriptions which include or reference specifications or standards of technical societies, associations or State or local governments may not require the presence of a certificate, label or approval from such organization which could automatically exclude otherwise acceptable products. A mandatory requirement that such a certificate, label or approval be furnished is authorized only when it can be definitely established that inclusion of the requirement would not prevent any manufacturer from bidding on the article specified. This requirement does not preclude acceptance of such a certificate, label or approval as one method of proof of conformance to the published standards or specifications.

(b) (1) *Voluntary product standards* originate with interested industry or State or local government groups. They are cooperatively developed with the U.S. Department of Commerce and published by that agency. They are issued as part of a broad program of aiding American industry through standardization (15 CFR Part 10). The standards may include definitions, classes, sizes, dimensions, capacities, performance criteria, material specifications, marking requirements, installation and test procedures and other similar information. The program is voluntary in nature, therefore no legal obligation exists for the individual firm to conform to a standard in whole or part unless it is incorporated as part of a contract or agreement.

(2) *Availability of Copies.* A list of available standards by name and number is available as publication No. 53 "NBS List of Publications." Write to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, for copies of this index. Copies of individual standards are available by name and number from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. If listed as out of print by GPO, single copies may be obtained from the Office of Engineering Standards Services at the address above.

§ 4–1.310 Responsible Prospective Contractor.

§ 4–1.310–5 Standards.

Loyalty consideration: The Department will not knowingly award a contract to anyone who advocates the overthrow of the Government of the United States by force or violence. Where it is proposed to refuse award on this basis, the case shall be referred to the Director, Office of Operations, for final determination. (See also § 4–4.5093.)

5. Sections 4–1.401, 4–1.403, 4–1.404–1(a), 4–1.404–2(a), 4–1.451, 4–1.453(a), 4–1.453(b), 4–1.453(c), and 4–1.453(d) are revised to read as follows:

§ 4–1.401 Responsibility of the head of the procuring activity.

Under the provisions of 7 CFR 2.79, the Director, Office of Operations is responsible for the general management and coordination of procurement activities of the several agencies of the Department. This broad grant of responsibility shall be construed to include the authority (1) to establish such procurement systems and policies, and (2) to delegate such contracting authorities as in the opinion of the Director, Office of Operations, will facilitate the orderly and economical procurement of equipment, materials, supplies, construction, services, and the leasing of space for use or consumption by the Department in carrying on its programs.

§ 4–1.403 Requirements to be met before entering into contracts.

Procurement contracting shall conform with all laws and regulations applicable to the Department, with the policies and procedures set forth in AGPR and with any applicable policies and procedures otherwise announced or prescribed by the Director, Office of Operations, or other responsible official. A continuing review of agency operations hereunder will be made by the respective office.

§ 4–1.404 Selection, designation, and termination of designation of contracting officers.

§ 4–1.404–1 Selection.

(a) *Procurement authority.* Procurement contracting authority in any amount shown to be needed under § 4–1.401 shall be obtained by heads of agencies of the Department from the Director, Office of Operations. With the concurrence of the Director, Office of Operations, such authority may be delegated, without redelegation powers to the incumbent of any responsible position at the agency headquarters, regional office or field station subject however, to the criteria specified in paragraph (b) of this section. Procurement contracting authority with redelegation powers shall be granted in a similar manner when: (1) The head of an agency submits adequate justification of a need for this authority, and (2) the criteria specified in paragraph (b) of this section have been accomplished. Procurement contracting authority for automatic data processing equipment and services is subject to the limits established in § 41.453.

• • • • •

§ 4–1.404–2 Designation.

(a) Requests for concurrence of the Director, Office of Operations, in the delegation of procurement contracting authority should be signed by the agency head and submitted in duplicate. A copy of the approved request will be returned with any necessary instructions or modifications. Changes in existing delegations will be handled in the same manner. Procurement contracting authority will not include authority to contract for construction, alteration, or repair of public buildings or works unless specifically requested.

• • • • •

§ 4–1.451 Procurement by the Office of Operations.

The Office of Operations will provide procurement assistance as provided by § 4–5.5703 of this chapter.

§ 4–1.453 Delegation of authority for automatic data processing equipment, services, and related supplies.

(a) Those agencies delegated procurement contracting authority by the Office of Operations under § 4–1.404–1 are hereby delegated procurement contracting authority for procurement of automatic data processing equipment, services, and related supplies in the following circumstances:

(1) • • •

(iii) If for renewal of equipment previously authorized or procured by the Office of Operations and the terms of the original procurement have not significantly changed and the changes in costs do not exceed 10 percent of those originally approved.

(iv) None of the above-stated circumstances apply to the intergovernmental transfer (IGT) of owned or leased equipment. All IGT of equipment must be approved by the Office of Automated Data Systems prior to acquisition.

• • • • •

(b) All procurements which are not within the authorities, set forth in paragraph (a) of this section must be submitted for technical approval to the Director, Office of Automated Data Services, then to the Director, Office of Operations, for procurement approval. The Office of Operations will either conduct the procurement or delegate the agency authority to conduct the procurement.

(c) Any agreement entered into by any agency, service, or staff office of the U.S. Department of Agriculture with other Government departments, agencies, corporations, or other independent entities of organization of the Federal Government, State, or local governments, as well as nonprofit corporations, universities, and other organizations for automatic data processing services, equipment, training facilities or other ADP resources or materials, directly or indirectly (as a part of an agreement whose primary purpose is other than automatic data processing), must have the written approval of the Director, Office of Automated Data Systems, unless the agreement falls within one of the following exceptions:

• • • • •

6. Sections 4–1.601, 4–1.602, and 4–1.650–6 are revised to read as follows:

§ 4–1.601 General.

§ 4–1.601–1 Definitions.

(a) The "Debarring Officer" is the agency or department official authorized to invoke debarment or suspension measures as authorized by this subpart. The Director, Office of Operations, and the Deputy Director, Office of Operations, are the Debarring Officers for the Department (Department Debarring Officers) in connection with all procurement and contracting under the Federal and Agriculture Procurement Regulations. Debarring Officers shall be appointed by the appropriate agency head for the following activities:

(1) Timber sales pursuant to 16 U.S.C. 476

(2) School lunch and Surplus Removal pursuant to 42 U.S.C. 1755 and 7 U.S.C. 612c.

(b) Debarring Officers are authorized to invoke debarment or suspension measures in accordance with the procedures of this subpart except as authorities may be specifically reserved to the Department Debarring Officer.

§ 4–1.602 Establishment and maintenance of a list of concerns or individuals debarred, suspended, or declared ineligible.

(a) The Office of Operations maintains a consolidated list of firms and individuals debarred or suspended on the bases stated in § 1–1.602–1 of this title to whom contracts will not be awarded and from whom bids will not be solicited. The list is made available to all contracting officers through the issuance of Office of Operations Memorandum No. 24, and supplements thereto. The list shows the authority for and terms of the debarment or suspension.

(b) *Disclosure.* The list is divided into two sections and appendices. The first section is a list of debarred and ineligible firms and individuals. The second section is a list of suspended firms and individuals whose cases are under investigation. The appendices consist of background material which is attached to the list for convenience. The section listing debarred and ineligible firms and individuals may be released to the public only by authorized contracting officers in response to a specific request. The section on suspended firms and individuals and all correspondence relating thereto shall be released to the public only by the Office of Operations upon specific request and only after a determination that such information does not contain material the release of which would constitute a clearly unwarranted invasion of personal privacy.

§ 4–1.650–6 Clearance of foreign firms or individuals.

(a) *Checking published lists.* Agencies will check the Department list of debarred and suspended bidders (Office of Operations Memorandum No. 24) to see if the firm or individual proposed for a contractual relationship is listed thereon. This includes names listed by the Comptroller General and GSA. While foreign firms or individuals rarely appear on this list, they are subject to such listing. Exceptions to administrative debarments listed thereon may be made by the Department Debarring Officer. No exceptions may be made to other types of debarments included in this list.

(b) *Clearance with the Office of Operations.* Before entering into a contractual relationship or approving a subcontract with a foreign firm not listed in Office of Operations Memorandum No. 24, agencies shall furnish the Office of Operations information as follows:

(1) The name and address of the individual or firm involved.

(2) The names and addresses of all known firms or individuals having a controlling interest, or de facto control, through other means of the proposed contractor, subcontractor, lessor, cooperator, or grantee. In obtaining clearance for a proposed prime contract, any known foreign subcontractors to be employed in the work shall be included. However, it is not necessary to delay contracts while attempting to learn the names of prospective subcontractors.

(c) *Action by Office of Operations.* The Office of Operations will check the lists referred to in § 4–1.650–5 and advise, by telegraph or cable if requested, whether or not the proposed foreign individual or firm is listed. If it is, the agency will explore possible use of other individuals or firms and other alternatives. If essential activities would be substantially impaired through failure to enter into the proposed relationship with the listed foreign individual or firm, the agency will so advise the Office of Operations, with a full statement of the facts. The Department Debarring Officer will then determine and advise whether or not the proposed transaction may be made. He shall not authorize transactions with foreign nationals without permission of the Secretary of the Treasury. He shall not authorize transactions with foreign individuals or firms subject to administrative action by Washington headquarters of other agencies without consulting such headquarters.

7. Subparagraphs 4–1.706–2(a)(1) and b(3) are revised to read as follows:

§ 4–1.706–2 Review of SBA set-aside proposals.

(a) *Who determines if a class set-aside is in accord with the intent of the Small Business Act?* (1) The Small Business Act empowers the SBA and the Government contracting officer to set aside proposed procurements for exclusive competition among small business concerns when such action is determined to be: (i) In the interest of maintaining or mobilizing the Nation's full productive capacity; (ii) in the interest of war or national defense programs; or (iii) in the interest of assuring that a fair proportion of the total purchases and contracts for property and services for the Government (including but not limited to contracts for maintenance, repair, and construction) are placed with small business concerns. Determinations under (iii) of this subparagraph may be made by the contracting officer and the SBA representative. Proposed determinations under (i) or (ii) of this subparagraph shall be referred to the Director, Office of Operations.

• • • • •

(3) Where the proposed action would have serious adverse effects on Department programs. Whether these program impacts indicate that a set-aside would be imprudent and therefore would justify a refusal is a judgement question which, in the event of dispute, may warrant clearance with agency headquarters and the Office of Operations before refusing a set-aside proposal.

• • • • •

XUM
V40-133
FEB 18 75
XUM

§ 4–1.708, 4–1.708–2 [Deleted]

8. Sections 4–1.708 and 4–1.708–2 are deleted.

9. Section 4–1.801–2 is revised to read as follows:

§ 4–1.801–2 Labor surplus area.

Information regarding labor surplus areas is contained in *Area Trends in Employment and Unemployment* published monthly by the Department of Labor. Every contracting activity other than small purchase offices should request to be placed on the mailing list to receive this publication. Address requests to:

U.S. Department of Labor,
Manpower Administration—MPPL,
Washington, D.C. 20213

10. Subpart 4–1.9 is revised to read as follows:

Subpart 4–1.9—Reporting Possible Antitrust Violations

§ 4–1.901 General.

All suspected violations of the antitrust laws shall be reported to the Office of Operations for review and referral to the Attorney General as may be necessary.

11. Subpart 4–1.11 is revised to read as follows:

Subpart 4–1.11—Qualified Products

§ 4–1.1101 Procurement of qualified products.

(a) *Product not listed.* If a bidder indicates in his bid that the products offered have been tested and approved for inclusion in the Qualified Products Lists, but the latest lists available to the contracting officer do not include such products, the qualifying agency named should be requested to verify that the products have been tested and approved. Should any delay or difficulty arise in obtaining prompt verification, the matter should be referred through appropriate agency channels to the Office of Operations, which will obtain the information from the General Services Administration. If the bidder furnished with his bid a copy of the notice of approval issued by the qualifying agency, no verification should be necessary.

(b) *Distribution of lists.* Arrangements may be made with the Office of Operations for obtaining copies of the Federal Qualified Products Lists.

12. Subpart 4–1.16 is revised to read as follows:

Subpart 4–1.16—Reports of Identical Bids

§ 4–1.1601 General.

Executive Order 10936 is applicable to all program functions of the Department, except for exemptions that may be made thereunder by the Attorney General. The provisions of Subpart 1–1.16 shall be followed in giving effect thereto.

§ 4–1.1603–2 Preparation of reports.

(a) See § 4–16.903—DJ1500 for the report form and instructions for preparation.

(b) Where the volume of identical bids so warrants, arrangements may be made with the Department of Justice, through the Office of Operations, for preparation and submission of the data in other format, such as machine listings.

PART 4–5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

13. The Table of Contents of Part 4–5 is revised as follows:

a. The heading of Subpart 4–5.57 is revised to read as follows:

4–5.57—Office of Operations

b. The headings of §§ 4–5.5701, 4–5.5703, 4–5.5703–2, 4–5.5703–3, and 4–5.5703–4 are revised as follows:

Sec.
4–5.5701 Central Supply Branch.
4–5.5703 Procurement by the Office of Operations.
4–5.5703–2 Documentation.
4–5.5703–3 [Reserved]
4–5.5703–4 [Reserved]

14. The heading of Subpart 4–5.57 is revised to read as follows:

4–5.57—Office of Operations

15. Sections 4–5.5701, 4–5.5702, and 4–5.5703 are revised to read as follows:

§ 4–5.5701 Central Supply Branch.

§ 4–5.5701–1 Authority.

As authorized in the Agriculture Appropriation Act for 1944 (5 U.S.C. 542–1) the Central Supply Branch, Office of Operations, operates a central supply service for the purchase, storage, handling, issuance, packing, and shipping of supplies and equipment, which service shall be used to the fullest extent practicable in order to make unnecessary the separate maintenance of like services in agencies of the Department.

§ 4–5.5701–2 Delivery.

Agencies of the Department shall procure supplies, equipment, blank forms, or other materials needed for Washington, D.C., delivery from the Central Supply Branch to the extent such materials are carried in stock by that Branch. Field offices may procure their needs from the Central Supply Branch where this source of supply is the most economical.

§ 4–5.5701–3 Forms available.

There is included in the Central Supply Branch Catalog a list of forms available to all agencies of the Department. The list includes Standard, Department, Civil Service, Treasury, Compensation Commission, and other miscellaneous common use forms. Under special arrangements with the agencies concerned, the Branch also stocks certain forms adopted by and restricted to the use of individual agencies.

§ 4–5.5701–4 Ordering standard and AD forms.

The Central Supply Branch purchases, stocks, and issues Standard and AD forms and uses the Working Capital Fund to finance initially the cost of such operation. Agencies shall reimburse the Working Capital Fund for the cost of such forms as well as the handling cost. With the following exceptions, all agency requirements for Standard and AD forms shall be obtained from the Central Supply Branch:

(a) Tabulating cards, purchase orders and vouchers for transportation charges. For procurement of bills of lading see 5 AR 461c.

(b) Standard forms, which are not overprinted, serially numbered, or otherwise altered, for field use, shall be requisitioned from field warehouses of the Federal Supply Service.

(c) When, because of quantity, frequency of ordering, or other special circumstances, it appears more economical to order AD forms from the Public Printer, a printing requisition (Form AD–78), accompanied by a statement explaining the reason why such an order would be more economical, may be submitted to the Office of Communication where it will be processed if determined to be more economical.

§ 4–5.5701–5 Method of acquisition.

Agriculture Department Form 14, Request for Supplies, Equipment, or Service, shall be used to requisition materials and forms stocked by the Central Supply Branch. See the reverse side of that form for detailed instructions for its use. Other instructions are contained in the Central Supply Branch Catalog.

§ 4–5.5701–6 Handling charges.

The Central Supply Branch operates under a working-capital fund. Charges for handling office and laboratory supplies are in the form of a surcharge against the purchase price of items delivered. Handling charges on printed forms are based on quantity and frequency of withdrawals as related to overhead.

§ 4–5.5702 Departmental contracts.

The Office of Operations makes consolidated term contracts for services constantly in demand by the Department but not covered by Federal Supply Schedules or other term contracts. Agencies are notified of these contracts through Office of Operations' Memoranda No. 22.

§ 4–5.5703 Procurement by the Office of Operations.

§ 4–5.5703–1 General.

In order to accommodate agencies having a need therefor, the Office of Operations will, on agency request, solicit bids or proposals and/or award contracts when: (a) The agency has no delegated procurement contracting authority or assigned procurement office, (b) the contemplated contract is in excess of the amount of contracting authority delegated to the agency, or (c) the contract is otherwise beyond the authority of the agency. In such circumstances agencies are encouraged to include Office of Operations procurement personnel in the earliest planning stages of the procurement.

§ 4–5.5703–2 Documentation.

Certain documentation is required from agencies submitting requisitions to the Office of Operations for procurement action. It includes but is not limited to:

(a) An original requisition and two copies signed by an authorized official of the agency. The requisition must cite appropriation authority, estimated dollar amount, description of supplies or services required, quantity required, date material or services are required and place of inspection of goods or services.

(b) Specifications reflecting the minimum needs of the agency (see FPR 1–1.305 and 4–1.305 of this chapter).

(c) A list of known or potential suppliers of the supplies or services (see FPR 1–1.302 and 4–1.302 of this chapter).

(d) If competition is to be limited to a single source a statement to that effect together with appropriate justification is required.

(e) Justification for negotiation, if required (see FPR 1–3.2).

(f) If for automated data processing equipment or services, a statement from the Office of Automated Data Systems that the specifications have been reviewed by their staff.

§ 4–5.5703–3 [Reserved]

§ 4–5.5703–4 [Reserved]

§ 4–5.5703–5 Contract administration.

The successful completion of contracts awarded by the Office requires close cooperation and coordination between the Office and the agencies. After a contract is executed by the Office for an agency, the agency representatives have responsibility for close cooperation with the contracting officer in follow-up and expediting of performance and in inspection and testing of materials or services furnished. Those actions which are a responsibility of the contracting officer under the terms and conditions of the contract may not be performed by any other person, unless there is a written delegation by the contracting officer designating specific persons to act for him. These include the execution of such documents as change orders, extensions of contract time for performance, notices of default or termination of the contractor's right to proceed under the contract, findings of fact and decisions on questions of fact in dispute. Whenever such actions are required, the necessary documents should be prepared for signature of the contracting officer (or his designated repesentative) after such consultation with him as may be appropriate. The agency representative is responsible for maintaining constant cognizance of the status of performance by the contractor. Whenever it appears that a contract is not being, or will not be performed satisfactorily, the contracting officer should be advised promptly.

PART 4–16—PROCUREMENT FORMS

16. The Table of Contents of Part 4–16 is revised by deleting section 4–16.852.

§ 4–16.852 [Deleted]

17. Section 4–16.852 is deleted.

Effective date: February 18, 1975.

(5 U.S.C. 301; 40 USC 486(c))

JOHN J. KEANEY,
Director, Office of Operations.

[FR Doc.75–4342 Filed 2–14–75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 75–133]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

Earth-to-Space Tracking Transmissions

In the Matter of Amendment of Part 2 of the Commission's rules and regulations to add a new footnote US 219 to the Table of Frequency Allocations permitting the use of the frequency 2106.4 MHz by Government earth stations for earth-to-space transmissions for tracking, telemetry and telecommand at Sioux Falls, South Dakota and Fairbanks, Alaska.

1. The Commission, through its liaison representation on the Interdepartment Radio Advisory Committee (IRAC) of the Office of Telecommunications Policy (OTP), has been requested to amend its Rules to permit the use of the frequency 2106.4 MHz for earth-to-space transmissions for tracking, telemetry, and telecommand.

2. The Department of the Interior has been given the responsibility for collecting and disseminating a wide variety of essential data concerning the natural resources of the earth. In attempting to meet this requirement, the Department of Interior is implementing the Earth Resources Survey Operational System (ERSOS). This system utilizes low altitude satellite techniques which use two earth stations, one located at Sioux Falls, South Dakota and another at Fairbanks, Alaska.

3. Under the broad provisions of footnote U.S. 90, Government and non-Government stations may be authorized to use the band 2025–2120 MHz for earth-to-space transmissions in the space research and earth exploration-satellite services. Such authority is granted on a case-by-case basis subject to certain conditions.

4. Therefore provisions are being made which will enable the Department of Interior to use the frequency 2106.4 MHz for earth-to-space transmissions for tracking, telemetry and telecommand in conjunction with its Earth Resources Survey Operational Systems. This provision will be in the form of a new U.S. footnote, U.S. 219, to the Table of Frequency Allocations. However, the use of the frequency 2106.4 MHz is subject to the condition that such transmissions shall not cause harmful interference to non-Government operations. Because no adverse effects will be caused to non-Government entities, the Commission would not expect to receive any comments in this matter if a Notice of Proposed Rule Making were issued. Issuance of a Notice and deferring the effective date would merely delay the outcome. Therefore, compliance with the prior notice and effective date provisions contained in the Administrative Procedures Act, 5 U.S.C. 553, is unnecessary and contrary to public interest.

5. *Accordingly, it is ordered* That, effective February 19, 1975, § 2.106 of the rules is amended as set forth below. Authority for this action is contained in section 4(i) and 303 of the Communications Act of 1934, as amended.

Adopted: February 4, 1975.

Released: February 13, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

In Part 2 of Chapter I of Title 47 of the Code of Federal Regulations, § 2.106 is amended as follows:

1. The Table of Frequency Allocations is amended by adding a new footnote designator, US 219, to the band 1850–2200 MHz and by adding in proper numerical sequency the text of footnote US 219 following the Table, as shown below:

United States Band (MHz)		Allocations
Band (MHz)		
5		6
. . . . .		. . . . .
1850–2200		NG (US 90) (US 111) (US 219)
. . . . .		. . . . .

US 219. In the band 2025–2120 MHz Government earth resources satellite earth stations in the Earth Exploration-Satellite Service may be authorized to use the frequency 2106.4 MHz for earth-to-space transmission for tracking, telemetry, and telecommand at the sites listed below. Such transmissions shall not cause harmful interference to non-Government operations.

Sioux Falls, South Dakota, 43°32'3.1" N., 96°45'42.8" W.

Fairbanks, Alaska, 64°58'86.6" N., 147°30' 54.2" W.

[FR Doc. 75–4304 Filed 2–14–75; 8:45 a.m.]

PART 73—RADIO BROADCAST SERVICES

Lottery Information; Correction

In the matter of amendment of Part 73 (Radio Broadcast Services) and Part 76 (Cable Television Service) of the Rules.

Order, FCC 75–129, released February 5, 1975, (40 FR 6209) amends the rules with respect to the broadcast of lottery information. Section 73.1209 was designated as the new rule section. This section is already entitled, "References to time". Therefore, § 73.1211 is designated as "Broadcast of lottery information". Accordingly, paragraph 6 of the Order and items 1 and 2 of the Appendix are corrected by substituting § 73.1211 for § 73.1209.

Released: February 6, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75–4305 Filed 2–18–75;8:45 am]

XUM V40133 FEB 18 75 XUM

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[9 CFR Part 11]

DEVICES AND SUBSTANCFS FOR USE ON HORSES AT CERTAIN HORSE SHOWS

Proposed Prohibitions

Notice is hereby given in accordance with the administrative provision in 5 U.S.C. 553, that, pursuant to the provisions of the Horse Protection Act of 1970 (15 U.S.C. 1821–1831), the Animal and Plant Health Inspection Service is considering amending Part 11, Subchapter A, Chapter I, Title 9, Code of Federal Regulations, with respect to prohibitions concerning devices and substances for use on horses at certain horse shows.

Statement of considerations. After passage of the Horse Protection Act of 1970, meetings held with various segments of the affected industry and humane officials provided the Department with many divergent views and considerable factual information as to possible methods of diagnosing sored horses and enforcement of the Act. Consideration was given to the views expressed, and the initial regulations were based on all information available at the time the regulations were issued, to become effective on January 28, 1972. Since the regulations were first published, experiments, tests, clinics, and experience have developed additional data which indicate the regulations should be amended.

The Department sought additional data after enforcement problems related to the regulations arose on a continuing basis and representatives of the concerned industry complained that portions of the regulations placed unnecessary and detrimental restrictions on the industry. Enforcement problems arose when numerous alleged violations were documented concerning boots which were prohibited by the regulations, e.g. exceeding the 16 ounce weight limitation (see 9 CFR 11.3). In some cases the horses wearing such boots showed no evidence of being sored. Also, enforcement experience revealed evidence which appears to support the horse industry's claim that adverse weather conditions could result in a "legal boot becoming illegal." It appears that boots permitted under the regulations which are exposed to water may gain weight, and wet leather boots may shrink when exposed to excessive heat. The regulation boots actually may be a soring device under certain other conditions. The 2½ inch height, permitted for boots under the regulations, may be excessive for a young horse with a small, short pastern and could cause loss of hair and boot rubs (abrasions) due to friction between the ill fitting boot and the horse's pastern. In some instances the 16-ounce boot weight may be excessive for a young horse with tender skin, and the horse industry claimed the 16-ounce weight was not sufficient to properly "balance" a mature horse. Weights, including the weight of action devices such as boots, are used to "balance" a horse in a manner similar to the use of weights in balancing automobile tires. The horse industry also claimed that USDA's restrictions against allowing action devices, other than the 16-ounce bell boot and the hinged quarter boot, placed detrimental restrictions on the industry because certain horses would not (or could not) perform while wearing the bell boot or hinged quarter boot. Further, the horse industry claimed that USDA's restrictions on allowing any foreign substance on the pastern and fetlock areas of horses were excessively restrictive. The industry maintained that lubricant-type substances, if allowed, would protect and prevent damage to a horse's leg.

In an effort to resolve enforcement problems and to properly evaluate complaints concerning the regulations, the Department conducted a 7-day, fact-finding clinic on soring, training devices, and aids such as lubricants, boots, chains, etc., in which the Department, industry, and humane group representatives worked cooperatively to gather data. In addition, the Department conducted extensive factfinding tests and experiments on live horses at the Veterinary Services Laboratory in Ames, Iowa, for the purpose of establishing the reliability of infrared thermography to detect soring and to test the effects of lubricants and various types of training devices and aids under diverse conditions. Evaluation of enforcement data provided information based on actual problems related to the regulations that have been experienced by Department personnel. Data gathered at the factfinding tests, experiments, and clinics, along with information gathered by experience in enforcing the Act, provided a basis for determining the effect of lubricants and various types of boots, chains, and other devices on horses. The factfinding clinic and test results were substantiated through the use of the Department's infrared thermography equipment.

The fact-finding clinic, tests, experiments, and enforcement experience revealed that current regulations may be excessively restrictive in prohibiting the use of all chains, in imposing a weight limitation of 16 ounces and a 2½-inch minimum width on bell boots, and in excluding all lubricants on horses' pasterns and too permissive with respect to certain methods and devices. The clinic, experiments, tests, and enforcement experience revealed that individual horses may be affected differently by certain methods or devices and that such methods or devices may cause, or reasonably be expected to cause, physical pain, extreme physical distress, or inflammation to some horses and not to other horses. It appears that with respect to such methods or devices an evaluation must be made in each specific case. However, there appears to be a rational basis for believing that use of certain other methods and devices such as chains weighing more than 10 ounces each would cause one or more of these effects in any horse, and if used on a horse for the purpose of affecting its gait would result in the house being sored. The fact-finding clinic, experiments, and tests also revealed that the use of certain lubricants, such as liquid petrolatum, may greatly decrease the possibility of friction damage to a horse's leg by boots, chains, or other devices. However, unless the lubricants are applied after pre-show inspection by the horse show representative, they may mask cracks, abrasions or other abnormalities indicative of soring which such inspection is meant to detect. Unless the lubricant used is clear and transparent, its presence could so greatly interfere with subsequent inspection by Department inspectors for physical evidence or soring as to outweigh the beneficial effects achieved by allowing the use of such lubricants. Further, the requirement that the lubricants be applied under the control of the show representative and that only lubricants furnished by the show management be used, would appear to be necessary to assure that only permitted lubricants are used and to facilitate sampling of the lubricants in enforcement of the Act. Further, it appears that the use of therapeutic substances should not be allowed on the pastern areas of a horse during showing or exhibition since they also can mask evidence of soring. Therefore, based on the knowledge gained from experience, tests, experiments, and studies involving infrared thermovision equipment, the fact-finding clinic, experiments, and tests conducted at the Veterinary Services Laboratory in Ames, Iowa, various field studies, and other experience gained in enforcing the Act, the Department proposes to amend the regulations to prohibit the use of certain methods and devices which it appears may reasonably be expected to cause physical pain, extreme physical distress, or inflammation

to any horse upon which they are used; to delete the provisions specifying permitted boots and thereby eliminate the 16-ounce weight limitation and 2½-inch width requirement for bell boots; to modify provisions for the use of therapeutic treatments; and to allow the use of clear and transparent lubricants under certain conditions when controlled by show management, as follows:

1. In § 11.2, paragraphs (b), (c), and (d), would be revised respectively to read:

§ 11.2 Prohibitions concerning exhibitors.

. . . . .

(b) No chain, boot, or other method or device shall be used with respect to any horse at any horse show or exhibition if such use causes the horse to be sored.

(c) The use of any of the following devices on any horse for the purpose of affecting its gait at any horse show or exhibition is prohibited:

(1) All trotting devices, including but not limited to rollers and similar devices;

(2) Chains weighing in excess of 10 ounces each including the weight of the fastener;

(3) Chains which are not smooth and free of projections, protrusions, rust, corrosion, or rough or sharp edges;

(4) Boots, or any other device, with protrusions, swellings, or rough or sharp edges, seams or other surfaces that may contact a horse's leg.

(d) All substances are prohibited on the extremities, above the hoof (but below the fetlock) of any horse while being shown or exhibited at any horse show or exhibition, except clear and transparent lubrisants, including, but not limited to glycerine, petrolatum, and mineral oil, or mixtures thereof: *Provided*, That:

(1) Any such lubricant is applied after the horse is inspected by the show manager or his representative and the lubricant is applied under the control of the show management.

(2) Show management furnishes to the exhibitors at their request and maintains control over all lubricants for use at the horse show or exhibition;

(3) Show management makes such lubricants available for Department personnel to obtain samples for laboratory analysis.

§ 11.3 [Deleted]

2. The present § 11.3 would be deleted in its entirety.

§ 11.1 [Amended]

3. In present § 11.1(t)(1)(iv), the last sentence would be amended to read: "Although a horse given therapeutic treatment by a veterinarian to relieve pain, lameness, or disability, or to restore its normal gait shall not be considered sored, the use of any substances above hoof but below the fetlock of any horse while being shown or exhibited at any horse show or exhibition is prohibited by § 11.2(d) except as permitted therein."

Any person who wishes to submit written data, views, or arguments, concerning this proposal may do so by filing them with the Deputy Administrator, Animal and Plant Health Inspection Service, United States Department of Agriculture, Federal Building, Hyattsville, Maryland 20782, before March 10, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of February, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-4338 Filed 2-14-75;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 73]

[Airspace Docket No. 75-GL-5]

RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a joint-use restricted area three miles wide across Lake Michigan from Manitowoc, Wis., to Ludington, Mich., and from Ludington to Milwaukee, Wis., to enable the University of Wisconsin to conduct a meteorological study of the lower atmosphere across Lake Michigan.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill., 60018. All communications received on or before March 20, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would designate a two part joint-use restricted area identified as R6905A and R6905B across Lake Michigan as follows:

1. R6905A within 1½ NM. on each side of a direct line between coordinates latitude 44°05' N., longitude 87°38' W., and latitude 43°57' N., longitude 86°28' W., excluding the area within 5 NM of the shoreline.
2. R-6905B within 1½ NM. on each side of a direct line between coordinates latitude 43°57' N., longitude 86°28' W., and latitude 43°02' N., longitude 87°52' W., excluding the area within 5 NM. of the shoreline at Ludington, and the area southwest of the southern boundary of R6903.

R6905A and R6905B

Designated altitudes. Surface to 6,000 MSL.
Time of designation. As activated by NOTAM. 12 hours in advance.
Controlling agency. Federal Aviation Administration, Chicago ARTC Center.
Using agency. University of Wisconsin.

The University of Wisconsin plans to conduct a scientific program of studying the meteorological conditions of the air in the lowest mile of the atmosphere, called the boundary layer, over Lake Michigan.

This Boundary Layer Study will last about a year and will be conducted by flying a tethered balloon system from a ferry boat operating between Manitowoc, Wis., Ludington, Mich., and Milwaukee, Wis. Up to five instrument package units will be attached at meteorologically interesting levels to the tether line. These units will be suspended from a helium-filled balloon at both fixed and varying levels, from the lake surface to 1500 meters (4,922 ft.). The balloon will have a length of 8 meters (20 ft.) and a diameter of 3 meters (10 ft.). It will be equipped with a radio controlled rapid deflation device in the event the tether line severs. These instrument package units weigh 1.9 pounds and are 28 inches long and 8 inches in diameter. The balloon and packages will be towed at 18 knots across the lake. One to three days of intensive 24 hour operation followed by a one to two week break for data reduction and analysis is envisioned during the summer months and on an irregular basis during the winter months. There will be 12 hours notification before any operation starts and communications capability will be available from the boat during operation. The proposed width of 3NM allows for maximum horizontal tether line displacement from the boat, maximum course deviation and position information tolerance under normal conditions. During abnormal weather conditions, i.e., severe weather, the balloon system will not be flown.

The Chicago ARTC Center will be the controlling agency and the restricted airspace will be available to the public when balloon operations are not being conducted.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

P. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-4284 Filed 2-14-75;8:45 am]

FARM CREDIT ADMINISTRATION

[12 CFR Parts 611, 613, 614, 615, 616]

FARMBANK SERVICES, LOAN POLICIES, ETC.

Proposed Amendments

Notice is hereby given that the Farm Credit Administration, by its Federal Farm Credit Board, has under consideration proposed amendments of its regulations as set forth below in tentative form. These amendments would: (1) Require minutes to be kept of meetings of the Governing Body of Farmbank Services, (2) clarify the applicability to Farmbank Services of regulations issued for Farm Credit institutions, (3) revise rural home lending program requirements and limitations, (4) clarify limitations on maximum loans, (5) clarify what may be security for Federal land bank loans, (6) clarify what may be security for production credit association loans, (7) restate criteria to be included in loan servicing policies, (8) restate requirements for insurance on shipments of valuables, (9) delete regulation dealing with reports of insured shipments of valuables, and (10) restate coordination policies for rural home lending.

Prior to final adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (10 copies) no later than March 17, 1975, to W. M. Harding, Governor, Farm Credit Administration, Washington, D.C. 20578. Copies of all communications received will be available for examination by interested persons in the office of Director, Information Division, Office of Administration, Farm Credit Administration.

Chapter VI of Title 12 of the Code of Federal Regulations is amended by adding §§ 611.1055 and 611.1150, revising § 613.3040, paragraphs (a) and (b) of § 614.4180, paragraph (a) of § 614.4230, § 614.4250, paragraph (d) of § 614.4510, and § 615.5500, deleting § 615.5510, and revising § 616.6030. These amendments are as follows:

PART 611—ORGANIZATION

§ 611.1055 Minutes of Governing Body of Farmbank Services.

The Governing Body of Farmbank Services shall keep full and accurate minutes of its meetings. Two copies of the minutes of the Governing Body shall be sent to the Farm Credit Administration within 2 weeks after the meetings.

§ 611.1150 Farmbank Services.

All applicable regulations published and issued for the banks and associations of the Farm Credit System shall be observed by Farmbank Services.

PART 613—ELIGIBILITY AND SCOPE OF FINANCING

§ 613.3040 Rural residents.

(a) *Definition.* A rural resident is a person residing in a rural area who meets the eligibility requirements enumerated below.

(b) *Eligibility.* Eligibility requirements for the rural home lending program are as follows:

(1) The applicant shall become an owner-occupant of the rural residence being financed. He shall not have loans under this program on more than one rural residence at any one time and no loan shall be made to purchase or construct a rural residence for the express purpose of rental or resale.

(2) For the purposes of nonfarm home lending only, a rural area is open country which may include rural subdivisions or any city or village with a population not exceeding 2,500 persons. A rural area does not include cities, subdivisions or villages associated with a larger population center. The intent is to avoid lending in concentrated, high density, residential areas or villages which are a part of an urbanizing area surrounding or immediately adjoining an urban area of a larger population center. Rural areas may include open areas which are undeveloped for housing and still devoted to agricultural use within other political boundaries, including "towns" exceeding 2,500 persons, designated by the district board and approved by the Farm Credit Administration.

(3) Within rural areas, eligible properties include individual sites as well as sites in rural subdivisions whose design shall encourage orderly development. The bank shall establish appropriate policies subject to approval of the district board for eligible subdivisions.

(4) A rural residence is a single-family, moderate-priced dwelling used as a permanent, year-round home, with appropriate appurtenances and an appropriate site. Rural residences may include conventional housing, modular housing, or mobile homes which are related to a specific real estate site. A moderate-priced dwelling is adequate but not in excess of the living standards of persons in the middle range of income, and not inconsistent with the general quality and standards of housing existing in, or planned for, that area of the Farm Credit district. Due to the wide variations in housing costs, income levels, and area standards for housing, the value level which constitutes moderate-priced housing will vary between localities.

(c) *Scope of financing.* Loans may be made to owner-occupants of rural residences for the purposes of buying, building, remodeling, improving, repairing and refinancing existing indebtedness on such residences. The total amount of credit that may be extended by Farm Credit institutions for eligible purposes shall not exceed 85 percent of the appraised value of the rural residence security.

(d) *Program limitations.* The rural home lending program shall be operated within the following limitations:

(1) Rural home lending in a district may be implemented only with the approval of the district board. Implementation at the association level is within the discretion of the association board. Upon implementation, such loan service shall be made available to all eligible persons.

(2) No Federal land bank may at any time have outstanding rural residence loans in an amount exceeding 15 percent of the total of all loans outstanding. No production credit association may have outstanding rural residence loans in an amount exceeding 15 percent of its total loans outstanding at the end of the preceding fiscal year, without prior approval by the Federal intermediate credit bank of the district, nor shall the aggregate of such loans exceed 15 percent of the outstanding loans of all associations in the district at the end of the bank's preceding fiscal year.

(3) Whenever any Federal land bank association or production credit association exceeds 15 percent of its total loan volume in rural residence loans, the respective bank board shall require the bank to make periodic reviews to assure that farmers' credit needs are being adequately served in accordance with the objectives of the Act.

(4) Should circumstances arise which curtail loan funds for the System, agricultural loans shall receive priority to the exclusion of rural home loans.

(e) *Identification.* All loans made under the rural home lending program shall be separately identified.

(1) In making such identification, a rural residence is a property which does not have the capacity to produce farm products for sale on a sustained basis, or if it has that capacity is not intended to be used in that manner.

(2) Housing loans for homes used in farming operations or immediate family needs to farmers and ranchers may be identified as farm loans if the borrower's agricultural operation represents more than 50 percent of his total business. Such loans are not subject to the area and price limitation of § 613.3040 (b) or the 15 percent limitation of § 613.3040(d).

PART 614—LOAN POLICIES AND OPERATIONS

§ 614.4180 Federal land banks.

(a) Loans may be made for not less than 5 years nor more than 40 years. The basis of approval shall set out the terms and conditions under which a loan is approved. When necessary to assure proper understanding, provide needed controls, and protect the lender, a formal written loan agreement shall be developed between the borrower and the bank.

(b) The outstanding loan balance on any loan shall not at any time during the life of the loan exceed 85 percent of the appraised value established by the most recent appraisal report on the primary real estate security. This shall not, however, prohibit protecting the security position by advancing taxes, advancing insurance premiums, rescheduling loan payments, granting partial releases, or other loan servicing actions when the loan, subsequent to the action, will be at least as well secured as it was prior to the action.

* * * * *

§ 614.4230 Federal land banks.

(a) Primary security for a Federal land bank loan shall consist of a first lien on interest in real estate. In the case of nonfarm rural home loans, the primary security shall be a first lien on the rural residence being financed. The real estate interest must be mortgageable interest under deeds or leases which reasonably may be considered adequate to afford the security of a first lien upon the rights and interest on which the loan is predicated. Collateral closely aligned with, an integral part of, and normally sold with real estate may be included in the appraised value of the security upon which a loan is based. Appraised value shall be determined within approved standards and shall include in the evaluation either farmlands, eligible farm-related businesses, or eligible rural residences, whichever is appropriate for the type of loan being made.

* * * * *

§ 614.4250 Production credit associations.

(a) Both secured and unsecured loans may be made in accordance with procedures prescribed by the bank. Normally, primary security taken will consist of first liens on personal property and crops. While it is not intended that associations will ordinarily make first lien real estate mortgage loans to farmers, real estate or other security may be taken when deemed necessary for the protection of the association in making short- and intermediate-term loans for eligible purposes.

(b) The primary security for nonfarm rural home loans shall be a first lien on the rural residence being constructed, purchased, or refinanced. Loans for repairs and improvements usually will be secured by a real estate lien or such other security as is determined to be necessary to protect the lender. The outstanding loan balance on any nonfarm rural home loan shall not at any time during the life of the loan exceed 85 percent of the appraised value established by the most recent appraisal report on the primary real estate security. This shall not, however, prohibit protecting the security position by advancing taxes, advancing insurance premiums, rescheduling loan payments, granting partial releases, or other loan servicing actions when the loan, subsequent to the action, will be at least as well secured as it was prior to the action.

(c) Before taking a real estate mortgage, the association shall consider whether all or a portion of the credit needs might be met more satisfactorily by a real estate mortgage loan such as may be obtained through a Federal land bank association, in accordance with district board policies established under § 616.6030.

(d) Recovery value shall be the basis for measuring the collateral worth of nonreal estate security. The value of interest in real estate which constitutes primary security shall be the appraised value as determined within approved appraisal standards.

§ 614.4510 General.

* * * * *

(d) In the development of the bank and association policies and procedures, the following criteria shall be included:

(1) Term loans. The objective shall be to provide borrowers with prompt and efficient service with respect to justifiable actions in such areas as personal liability, partial release of security, insurance requirements or adjustments, loan division or transfers, conditional payments, extensions, deferments or reamortizations. Procedures shall provide for adequate inspections, reanalysis, reappraisal, controls on payment of insurance and taxes (and for payment when necessary), and prompt exercise of legal options to preserve the lender's collateral position or guard against loss. The policy shall provide a means of forbearance for cases when the borrower is cooperative, making an honest effort to meet the conditions of the loan contract, and is capable of working out of the debt burden. Loan servicing policies for rural home loans shall recognize the inherent differences between agricultural and rural home lending.

* * * * *

PART 615—FUNDING AND FISCAL AFFAIRS

§ 615.5500 Shipment of valuables.

Shipments of valuables including fully executed, uncanceled coupon bonds and uncanceled registered bonds which have been endorsed in such a manner or are accompanied by such detached powers of attorney or assignments as to require no further action before their negotiation by any holder could be accomplished, by the Federal land banks, the Federal land bank associations, the Federal intermediate credit banks, banks for cooperatives, and the production credit associations, when made to or by the assured or to or by others for the account of the assured, shall be covered by an insurance policy entitled open registered mail and express policy No. FCA 125. Details for implementing coverage under the open registered mail and express policy shall be issued by the Farm Credit Administration in the form of a letter of instruction.

§ 615.5510 [Reserved]

PART 616—COORDINATION

§ 616.6030 Rural home lending.

Coordination policies relative to rural home lending shall define the appropriate lending authorities and relationships.

(a) Federal land banks should finance the purchase or construction of rural residences where the owner requires long-term financing. Production credit association lending, while not excluding the purchase or construction of conventional homes, should emphasize remodeling and repair of permanent homes and financing mobile homes where the owner needs intermediate-term financing.

(b) The same appraisal standards, forms and procedures shall be used by both Federal land bank associations and production credit associations.

(c) Uniform procedures regarding the closing of rural home loans shall be prescribed by the supervising banks.

(Secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624)

W. M. HARDING,
Governor, Farm Credit Administration.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1057]

[Ex Parte No. MC 43 (Sub-No. 4)]

LEASE AND INTERCHANGE OF VEHICLES

Trip Leasing

It is ordered, That based upon the reasons set forth in the attached notice, a proceeding, be, and it is hereby, instituted pursuant to 5 U.S.C. 552, 553, and 559 (the Administrative Procedure Act) and 49 U.S.C. 303(b)(6) and 304(f).

It is further ordered, That the attached notice be, and it is hereby, adopted and incorporated by reference into this order.

It is further ordered, That all motor common and contract carriers of property subject to Part II of the Interstate Commerce Act be, and they are hereby, made respondents in this proceeding.

It is further ordered, That in view of the action taken herein, the petition of the National Independent Truckers Unity Committee filed January 20, 1975, be, and it is hereby, denied.

And it is further ordered, That notice of the institution of this proceeding shall be given to the general public by mailing a copy of this order to the Governor of every State and to the Public Utilities Commission or Boards of each State having jurisdiction over motor transportation, by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

The Congress in enacting section 204(f) of the Interstate Commerce Act, 49 U.S.C. 304(f), contemplated that the operators of motor vehicles used in the

XUM V40I33 FEB 18 75 XUM

transportation of agricultural commodities or other property of a character embraced within section 203(b)(6) of the Act, 49 U.S.C. 303(b)(6), should be able next to use such motor vehicles under trip-lease arrangements for the transportation of freight for the account of motor carriers having use for them for movements in the general direction of the area in which such motor vehicles are based. There is reason to believe that the arrangements between the operators and the motor carriers have not evolved as satisfactorily as had been anticipated they might and that an investigation of this area of transportation by this agency might result in the adoption of rules and regulations that would facilitate such trip-leasing, as contemplated by the statute.

The Commission, herefore, has instituted this proceeding for the purpose of exploring the following issues, among others, and determining whether the rules and regulations governing the lease and interchange of vehicles, 49 CFR 1057.1 et seq., should be revised and for the purpose of taking such other and further action as the facts and circumstances may justify or require:

1. Whether the operators of motor vehicles trip-leasing such vehicles should be guaranteed copies of, or the right to inspect, the extended freight bills covering the transportation of freight for the account of motor carriers, showing the revenue upon which the split or division revenues upon which they are compensated is based.

2. Whether the operators of motor vehicles trip-leasing such vehicles should be assured of payment of their compensation within 15 days of delivery or tender of delivery.

3. Whether there should be one or more clearinghouses at which motor carriers would be able to register the availability of freight to be trip-leased for their account. If so, what, if any, requirements should be imposed for the participation of operators of motor vehicles seeking to trip-lease their equipment. Finally, who should operate such clearinghouses and upon what terms.

No hearings will be scheduled for the receiving of oral testimony unless a need therefor should later appear, but anyone interested in making representations in favor of, or against, the proposed modifications in the leasing regulations is hereby invited to do so by the submission of written data, views, or arguments. An original (and 8 copies whenever possible) of such data, views, or arguments shall be filed with this Commission on or before April 1, 1975; and that all such statements will be considered as evidence and as part of the record in this proceeding.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[FR Doc.75-4340 Filed 2-14-75;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

[41 CFR Part 50-250]

VETERANS EMPLOYMENT EMPHASIS UNDER FEDERAL CONTRACTS

Notice of Proposed Rulemaking

The Vietnam Era Veterans' Readjustment Assistance Act of 1974 (Pub. L. 93-508) which amends the Vietnam Era Veterans' Readjustment Assistance Act of 1972 (Pub. L. 92-540) was enacted into law on December 3, 1974.

The purpose of the 1972 Act was inter alia, to facilitate the employment of returning veterans by requiring Federal contractors and their subcontractors to list certain employment openings with the public employment service system and to give special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era. These requirements were set forth in section 2012 of Title 38 U.S.C.

The 1974 Act (hereinafter referred to as "the Act") amends section 2012 to:

(a) Establish the dollar amount of government contracts subject to the provisions of the Act at $10,000; and

(b) Require that contractors take affirmative action to employ and advance in employment disabled and Vietnam era veterans instead of providing special emphasis only.

To implement the amendments contained in the 1974 Act which pertain to the dollar amount of governmental contracts subject to the provisions of the Act, and to provide for certain programmatic improvements, the Secretary is proposing regulations which amend Part 50-250 of Title 41, Code of Federal Regulations. Regulations implementing the affirmative action provisions of section 2012 of the Act have not been completed and will be issued at a later date. Sections 50-250.20 through 50-250.40 have been reserved for this purpose.

A summary of specific changes proposed to be made to 41 CFR Part 50-250 in this issuance is as follows:

(a) In § 50-250.1, *Purpose and Scope*, the legislative references are appropriately revised;

(b) In § 50-250.2, retitled in these regulations as *Required clause in Federal contracts and first-tier subcontracts*, the contract amount subject to the provisions of the Act and regulations is changed from $2,500 to $10,000;

(c) In § 50-250.2(a), the language requiring special emphasis in the employment of disabled and Vietnam era veterans is changed to requiring affirmative action to employ disabled and Vietnam era veterans;

(d) In § 50-250.2(a), the reference to contracts for less than $10,000 is deleted;

(e) Section 50-250.2(a) has been revised to clarify State and local government agency listing responsibilities;

(f) In § 50-250.2(c), quarterly reporting requirements have been clarified to provide for the reporting of the categories of veterans covered by section 2012 of Title 38 of U.S.C.;

(g) In § 50-250.2(d), the term "establishment" has been changed to "hiring location" consistent with the reporting clarifications made in section 50-250.2(c);

(h) In § 50-250.2(g)(1), the definition of suitable employment opening has been revised to raise the salary basis for exclusion from listing from $18,000 and over to $25,000 and over to reflect current economic levels;

(i) In § 50-250.2(h), the subcontract amount subject to the provisions of the Act and regulations is changed from $2,500 to $10,000;

(j) In § 50-250.2(h), a requirement is established for contractor identification of first-tier subcontractors upon request by the State employment service;

(k) Procedures for handling contractor non-compliance and veterans' complaints in § 50-250.6, which is retitled in these regulations as *Failure to comply with mandatory listing provisions; processing of veterans' complaints* have been revised to provide specifically for contractor non-compliance with mandatory listing provisions. Provisions for processing veterans' complaints will be deleted when affirmative action provisions are promulgated as sections 50-250.20 through 50-250.40 at a later date;

(l) Sections 50-250.7 and 50-250.8 have been renumbered as §§ 50-250.9 and 50-250.7 respectively;

(m) In § 50-250.7, which is retitled in these regulations as *Federal departments and agencies*, provisions have been changed to reflect Civil Service Commission instructions to Federal agencies relating to the listing of job openings by these agencies with the employment service;

(n) A new § 50-250.8, *Monitoring and Evaluation by Veterans Employment Service*, has been added to specify the responsibilities of the Veterans Employment Service and to reflect the intent of section 104, *Veterans' Employment Provisions*, of the Emergency Jobs and Unemployment Assistance Act of 1974 (Pub. L. 93-567).

(o) In § 50-250.9, retitled in these regulations as *Manpower Administration Regional Offices*, addresses of Manpower Administration regional offices are updated;

(p) Sections 50-250.20 through 50-250.40 have been reserved for affirmative action provisions to be promulgated at a later date.

Interested parties may submit written comments, suggestions, data, or arguments on these proposed regulations to: Assistant Secretary for Manpower, United States Department of Labor, 601 D Street NW., Washington, D.C. 20213. Attention: William B. Lewis, Associate Manpower Administrator for the United States Employment Service, on or before March 20, 1975. Material thus submitted will be evaluated and incorporated, to the extent appropriate, in final regulations to be published at a later date.

41 CFR Part 50-250 is proposed to be revised to read as follows:

Sec.

50-250.1 Purpose and scope.
50-250.2 Required clause in Federal contracts and first-tier subcontracts.
50-250.3 Veteran priority in referrals.
50-250.4 Obligation of executive departments and agencies.
50-250.5 Deviations.
50-250.6 Failure to comply with mandatory listing provisions; processing of veterans complaints.
50-250.7 Federal departments and agencies.
50-250.8 Monitoring and evaluation by Veterans Employment Service.
50-250.9 Manpower Administration Regional Offices.
50-250.20 to 50-250.40 [Reserved for affirmative action provisions.]

AUTHORITY: 38 U.S.C., 2012, E.O. 11701, 38 FR 2675, and Pub. L. 93-567, Sec. 104, unless otherwise noted.

§ 50-250.1 Purpose and scope.

This part contains the Department of Labor's rules and regulations requiring listing of employment vacancies with the Federal-State Employment Service system by Federal contractors and subcontractors pursuant to section 2012 of Title 38 of United States Code, 38 U.S.C. 2012 and Executive Order 11701, 38 FR 2675. Sections are also being reserved for promulgation at a later date of affirmative action provisions to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era by Federal contractors and subcontractors.

§ 50-250.2 Required clause in Federal contracts and first-tier subcontracts.

In every contract for $10,000 or more, for the procurement of personal property and non-personal services (including construction) for the United States made and entered into by any department or agency of the Federal Government or any federally owned corporation and every subcontract entered into by the prime contractor in carrying out such contract, the contracting officer shall include, either directly or by reference, the following contract clause in (a) all invitations for bids and requests for proposals, and (b) all contracts, including contracts resulting from unsolicited proposals. The contract clauses prescribed by the Federal Procurement Regulations and by the Armed Services Procurement Regulations may be used instead of the clause set forth herein. The contract clause is as follows:

LISTING OF EMPLOYMENT OPENINGS [1]

(a) In order to promote the implementation of the requirement for the contractor to take affirmative action in the employment and advancement of qualified disabled veterans and veterans of the Vietnam era, the contractor agrees that all suitable employment openings of the contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occurring at an establishment of the contractor other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs. The contractor further agrees to provide such reports to such local office regarding employment openings and hires as may be required. State and local government agencies holding Federal contracts of $10,000 or more shall also list all their suitable openings with the appropriate office of the State employment service, but are not required to provide those reports set forth in paragraphs (c) and (d).

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment source or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of referrals of veterans and non-veterans. The listing of employment openings does not require the hiring of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the contractor from any requirements in Executive Orders or regulations regarding nondiscrimination in employment.

(c) The reports required by paragraph (a) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or, where the contractor has more than one hiring location in a State, with the central office of that State employment service. Such reports shall indicate for each hiring location: (1) The number of individuals hired during the reporting period, (2) the number of non-disabled veterans of the Vietnam era hired, (3) the number of disabled veterans of the Vietnam era hired, and (4) the total number of disabled veterans hired. The contractor shall submit a report within 30 days after the end of each reporting period wherein any performance is made on this contract identifying data for each hiring location. The contractor shall maintain copies of the reports submitted until the expiration of 1 year after final payment under the contract, during which time these reports and related documentation shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the Secretary of Labor.

(d) Whenever the contractor becomes contractually bound to the listing provisions of this clause, it shall advise the employment service system in each State, wherein it has establishments, of the name and location of each hiring location in the State. As long as the contractor is contractually bound to these provisions and has so advised the State system, there is no need to advise the State system of subsequent contracts. The contractor may advise the State systems when it is no longer bound by this contract clause.

(e) This clause does not apply to the listing of employment openings which occur and are filled outside of the 50 States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

(f) This clause does not apply to openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(g) As used in this clause:

(1) "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical; and such executive, administrative, and professional openings as are compensated on a salary basis of less than $25,000 per year. This term includes full-time employment, temporary employment of more than 3 days' duration, and part-time employment. It does not include openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. Under the most compelling circumstances an employment opening may not be suitable for listing, including such situations where the needs of the government cannot reasonably be otherwise supplied, where listing would be contrary to national security, or where the requirement of listing would otherwise not be for the best interest of the government.

(2) "Appropriate office of the State employment service system" means the local office of the Federal-State national system of public employment offices with assigned responsibility for serving the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

(3) "Openings which the contractor proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the contractor's organization (including any affiliates, subsidiaries, and the parent companies) and includes any openings which the contractor proposes to fill from regularly established "recall" lists.

(4) "Openings which the contractor proposes to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the contractor proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the contractor and representatives of his employees.

(5) "Disabled veteran" means a person entitled to disability compensation under laws administered by the Veterans' Administration for disability rated at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.

(6) "Veteran of the Vietnam era" means a person: (i) who, (i) served on active duty for a period of more than 180 days, any part of which occurred on or after August 5, 1964, and was discharged or released therefrom with other than a dishonorable discharge, or (ii) was discharged or released from active duty for service-connected disability if any part of such duty was performed on or after August 5, 1964, and (2) who was so discharged or released within the 48 months preceding his application for employment covered under this part.

(h) The contractor agrees to place this clause (excluding this paragraph (h)) in any subcontract of $10,000 or more directly under this contract and at the request of the State employment service, identify these first-tier subcontractors. This clause shall apply to any first-tier subcontract entered into by the contractor in carrying out any contract for the procurement of personal property and nonpersonal services (including construction) for the United States.

[1] (This clause is applicable pursuant to 38 U.S.C. 2012 if this contract is for $10,000 or more.)

XUM V40133 FEB 18 75 XUM

§ 50–250.3 Veteran priority in referrals.

The local offices of the Federal-State employment service shall give priority in referral to disabled veterans and veterans of the Vietnam era to such employment openings listed by contractors and subcontractors pursuant to this part.

§ 50–250.4 Obligation of executive departments and agencies.

Executive departments and agencies shall issue amendments or additions to their procurement rules and regulations as may be necessary to conform those rules and regulations to the requirements of the Vietnam Era Veterans' Readjustment Assistance Act of 1974, and these regulations. Such amendments or additions shall be issued in consultation with the Secretary of Labor. Requests for consultation may be made to the Assistant Secretary for Manpower, U.S. Department of Labor, Washington, D.C. 20213.

§ 50–250.5 Deviations.

Under the most compelling circumstances, deviation from the provisions of this part may be made, subject to the approval of the Secretary of Labor. Requests for any such deviations shall be addressed to the Secretary of Labor, U.S. Department of Labor, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210, or to the Assistant Regional Director for Manpower of the U.S. Department of Labor of the region wherein the contract is to be signed, and shall set forth the reasons for the request.

§ 50–250.6 Failure to comply with mandatory listing provisions; processing of veterans complaints.

(a) *Failure to comply.* (1) Appropriate local office staff of the State employment service will ascertain if contractors are subject to and complying with the mandatory listing provisions set forth in this part. If it is believed that a contractor is not in compliance, a representative of the local State employment service office will contact the contractor and attempt, informally, to determine the facts and obtain compliance with the mandatory listing provisions. If unsuccessful, a written report on the matter will be referred to the State office of the employment service which will further attempt to resolve it. If the State office is unable to resolve the matter, it will promptly refer it to the regional office of the Manpower Administration. If still unresolved, the matter will be referred to the United States Employment Service. If the matter is not resolved within a reasonable period of time by the United States Employment Service, the United States Employment Service will notify the appropriate government contracting agency to take action under paragraph (b) of this section.

(2) Upon receipt by the contracting agency of notice of failure of a contractor or subcontractor to comply with the provisions of this part, the cognizant government agency or agencies shall take such action as may be appropriate in consonance with the default provision of the contracts concerned.

(b) *Processing of veterans complaints.* If any disabled veteran or veteran of the Vietnam era believes any contractor has failed or refuses to comply with the provisions of his contract with the United States, relating to the employment of veterans, such veteran may file a complaint with the Veterans' Employment Service of the Department of Labor. Such complaint shall be promptly referred to the Secretary who shall promptly investigate such complaint and shall take such action thereon as the facts and circumstances warrant consistent with the terms of such contract and the laws and regulations applicable thereto.

§ 50–250.7 Federal departments and agencies.

Federal executive departments and agencies, in order to implement the Federal executive policy of assistance to veterans in obtaining employment, shall list all of their suitable employment openings with the appropriate office of the Federal-State Employment Service in accordance with instructions issued by the Civil Service Commission. The Civil Service Commission shall furnish to the Secretary of Labor such reports and information as the Secretary may require in carrying out the Secretary's responsibilities under the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 2012) and Executive Order 11701, 38 FR 2675.

§ 50–250.8 Monitoring and evaluation by Veterans Employment Service.

The State Veterans Employment Representatives (SVER's) and Assistants (AVER's) shall be responsible, through the Regional Veterans Employment Representatives (RVER's), to the Director of the Veterans Employment Service for monitoring and evaluating the performance of the State employment service agency in meeting the provisions and requirements of section 2012, 38 U.S.C. The VER's will provide guidance and assistance to the State employment service in regard to services to veterans in the Mandatory Listing program and provide assistance to State employment service staff, where necessary, to assure that the State employment service agency and Federal contractors meet the requirements of section 2012, 38 U.S.C.

§ 50–250.9 Manpower Administration Regional Offices.

Following are the addresses of the regional offices of the Manpower Administration of the Department of Labor, together with a list of the States and territories in each region. The addresses of the State and local offices of the various State employment services can be obtained at the office of the appropriate Assistant Regional Director for Manpower.

Region I—Room 1708, John F. Kennedy Federal Building, Government Center, Boston, Mass. 02203. (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.) Region II—Room 3713, 1515 Broadway, New York, N.Y. 10036. (New York, New Jersey, Puerto Rico, and the Virgin Islands.) Region III—Post Office Box 8796, Philadelphia, Pa. 19101. (3535 Market Street, do not use street address for mailing purposes.) (Delaware, Maryland, Pennsylvania, Virginia, West Virginia, and the District of Columbia.) Region IV—Room 405, 1371 Peachtree Street NE., Atlanta, Ga. 30309. (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.) Region V—Sixth floor, 230 South Dearborn Street, Chicago, Illinois 60605. (Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.) Region VI—Seventh floor, Federal Center, 1100 Commerce Street, Dallas, Texas 75201. (Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.) Region VII—Room 3000, Federal Building, 911 Walnut Street, Kansas City, Mo. 64106. (Iowa, Kansas, Missouri and Nebraska.) Region VIII—Room 16015, Federal Office Building, 1961 Stout Street, Denver, Co. 80208. (Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming.) Region IX—Room 10054, Federal Building, 450 Golden Gate Avenue, San Francisco, Ca. 94102. (Arizona, California, Guam, Hawaii, and Nevada.) Region X—Arcade Plaza, 1321 Second Avenue, Seattle, Wa. 98101. (Alaska, Idaho, Oregon and Washington.)

§ 50–250.20 to 50–250.40 [Reserved]

Signed at Washington, D.C. this 7th day of February 1975.

PETER J. BRENNAN,
Secretary of Labor.

Manpower Administration

[20 CFR Part 609]

UNEMPLOYMENT COMPENSATION FOR FEDERAL CIVILIAN EMPLOYEES

Right To Reconsideration and Hearing

The Department of Labor proposes to amend 20 CFR Part 609, which implements the program of unemployment compensation for federal civilian employees contained in sections 8501–8508 of Title 5, United States Code.

The program of unemployment compensation for Federal civilian employees is administered by the unemployment compensation agencies of the States, as agents of the United States, in accordance with agreements between the States and the Secretary of Labor of the United States (5 U.S.C. 8502). When a claim for unemployment compensation is filed by a former federal employee, certain information necessary to determine the former employee's entitlement to unemployment compensation is requested from the Federal agency that employed the individual. The Federal agency is required to furnish its findings (1) as to whether the former federal employee has performed "federal service" as defined in the law, (2) the periods of Federal service, (3) the amount of "Federal wages" as defined in the law, and (4) the reasons for termination of Federal service (5 U.S.C. 8506(a)). The findings of the federal agency are required to be made in the form and

manner prescribed in the regulations of the Secretary of Labor, and, when made in accordance with those regulations, are final and conclusive on the former federal employee and the State in determining the individual's entitlement to unemployment compensation (5 U.S.C. 8506(a)).

A former Federal employee or the State agency may request the Federal agency to reconsider and correct its findings (5 U.S.C. 8506(a), and 20 CFR 609.23). Upon receipt of a request for reconsideration and correction of its findings, the Federal agency is required to consider any information submitted with the request, review its findings, correct any errors or omissions, and forward its reconsidered findings to the State agency (20 CFR 609.9).

In a case decided in 1974, *Christian, et al.* v. *New York State Department of Labor, Division of Employment, et al.*, 414 U.S. 614 (1974), the United States Supreme Court considered what opportunity for a hearing must be afforded to a former Federal employee in connection with a request for reconsideration of the findings of a Federal agency. In its opinion the Supreme Court stated that the statute provides for a "hearing" of some dimensions in conjunction with the mandated procedures for reconsideration.

On remand the United States District Court for the Southern District of New York issued an Order, dated December 19, 1974, directing that a regulation be prepared which is designed to insure fairness and impartiality in procedures used to reconsider findings transmitted to State agencies in connection with claims for unemployment compensation by former Federal employees.

Accordingly, in the light of the opinion of the United States Supreme Court and the Order of the District Court, 20 CFR 609.23 would be amended by adding two new paragraphs, specifically requiring that a former Federal employee filing a claim for unemployment compensation be informed of the right to request reconsideration and of the right to a hearing, and also requiring that when a request for reconsideration is sent to a federal agency the agency be informed whether the former employee requests a hearing.

Further, 20 CFR 609.9 would be amended so as to require that a hearing procedure be established for use in the reconsideration process in cases in which there are no established procedures of the federal agency or the Civil Service Commission affording former employees an opportunity for a fair hearing on the contentions they make with respect to the findings of the federal agencies. Consideration will be given to including in this amendment a provision for the adoption of special procedures solely for the purpose of hearings on requests for reconsideration in lieu of using established procedures for that purpose. Any procedure adopted pursuant to amended 20 CFR 609.9 would be required to include specified elements of rights and procedures deemed essential to a fair hearing.

Any person interested in the amendments proposed herein, and any federal agency that will be affected by the amendments, may participate in this proposed rulemaking by submitting written data, views, or arguments on the proposed amendments, to the U.S. Department of Labor, Manpower Administration, Room 7000, Patrick Henry Building, 601 "D" Street, NW., Washington, D.C. 20213, on or before March 21, 1975. All material received in response to this invitation will be available for public inspection during normal business hours at that address.

Part 609 of Title 20, Code of Federal Regulations, is proposed to be revised by amending §§ 609.9 and 609.23 in the following respects:

1. § 609.9 is amended in its entirety to read as follows:

§ 609.9 Answering requests for reconsideration of Federal findings; opportunity for hearing.

(a) (1) On receipt of a request for reconsideration and correction of Federal findings under § 609.23 a Federal agency shall, as promptly as possible, correct any errors or omissions in its Federal findings, affirm, modify, or reverse any or all of its Federal findings in writing, and forward its reconsidered findings to the requesting authority.

(2) The reconsidered findings of a Federal agency shall be made by a person who is fair, impartial, and objective, and who does not occupy a position in the Federal agency which is directly or indirectly under the jurisdiction of the office in which there is or was employed any person who made or participated in the making of the previous finding with respect to which reconsideration and correction is requested.

(3) In reconsidering a Federal finding the person making the reconsidered finding shall consider all information furnished with the request for reconsideration and correction, and review the correctness of the previous finding: *Provided*, That, if the Federal civilian employee requests a hearing in the manner described in § 609.23(d), paragraphs (b) through (e) of this section shall be applicable.

(b) (1) Whenever a request for reconsideration and correction involves a contention that is the subject of a grievance or appeal, and with respect to which the Federal civilian employee has had an opportunity for a fair hearing, pursuant to procedures established by the Federal agency or the Civil Service Commission, the reconsidered findings of the Federal agency on that contention shall be based upon and be consistent with the decision in the grievance or appeal.

(2) Whenever a request for reconsideration and correction involves a contention with respect to which the Federal civilian employee had an opportunity for a fair hearing pursuant to procedures established by the Federal agency or the Civil Service Commission, and that opportunity was not utilized, the Federal civilian employee is not required to be afforded another opportunity for a fair hearing by reason of the provisions of this section.

(c) (1) Whenever a request for reconsideration and correction involves a contention with regard to which there is no procedure established for affording the Federal civilian employee an opportunity for a fair hearing, other than as is required by this paragraph (c), a procedure affording an opportunity for a fair hearing in connection with a request for reconsideration and correction shall be established as provided in this paragraph except in cases to which § 609.18(a) applies.

(2) The procedure instituted pursuant to paragraph (c)(1) shall include, as a minimum, the following elements:

(i) Designation of a person to consider the request for reconsideration and correction who is fair, impartial, and objective, and who does not occupy a position in the Federal agency which is directly or indirectly under the jurisdiction of the office in which there is or was employed any person who made or participated in the making of the previous finding with respect to which reconsideration and correction is requested.

(ii) Opportunity to present evidence and argument in connection with the request for reconsideration and correction.

(iii) The right to know and the opportunity to rebut evidence adverse to the position of the Federal civilian employee, and where credibility arises the opportunity to hear and rebut the adverse evidence in an evidentiary proceeding conducted by the person designated to consider the request for reconsideration and correction.

(iv) The right to be represented.

(v) Written findings by the person designated to consider the request for reconsideration and correction, based upon the evidence before the designated person, and a written decision based upon those findings.

(3) Where a hearing is held in accordance with this paragraph (c), the reconsidered findings of the Federal agency shall be consistent with the decision after the hearing.

(d) A procedure instituted pursuant to paragraph (c)(1) of this section shall provide for the completion of all proceedings and the issuance of reconsidered findings as expeditiously as possible, and, except for circumstances beyond the Federal agency's control, not later than 40 days after the request for reconsideration is received by the Federal agency.

(e) A procedure instituted pursuant to paragraph (c)(1) of this section shall be solely for the purpose of considering requests for reconsideration by individuals claiming benefits under the program of unemployment compensation for Federal civilian employees.

§ 609.23 [Amended]

2. § 609.23 is amended by adding thereto new paragraphs (c) and (d) to read as follows:

XUM
V40133 FEB 18 75 XUM

(c) *Informing Federal civilian employee.* A Federal civilian employee shall be informed of the right to request reconsideration and correction of Federal findings, and of the right to a hearing in accordance with § 609.9.

(d) *Request for hearing.* With every request for reconsideration and correction of Federal findings the State agency shall inform the Federal agency whether or not the Federal civilian employee requests a hearing. The State agency shall obtain for its records a statement signed by the Federal civilian employee as to whether or not a hearing is requested.

(5 U.S.C. 8508, 80 Stat. 590; Secretary's Order No. 20–71, August 13, 1971).

Signed at Washington, D.C. this 12th day of February 1975.

BEN BURDETSKY,
Acting Assistant Secretary for Manpower.

Occupational Safety and Health Administration

[29 CFR Part 1910]

IDENTIFICATION SYSTEM FOR OCCUPATIONALLY HAZARDOUS MATERIALS

Receipt of Criteria Document

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a Recommended Standard on an Identification System for Occupationally Hazardous Materials. The purpose of such a standard would be to inform employees about the nature of the chemical hazards, both potential and actual, to which they may be exposed.

Section 6(b)(7) of the Occupational Safety and Health Act of 1970 states that occupational safety and health standards promulgated under section 6(b) will contain provisions for warning employees of hazards to which they may be exposed, relevant symptoms and emergency treatments, and for advising employees of proper conditions and precautions for safety use or exposure. The Criteria for a Recommended Standard would provide for the above by requiring the marking of hazardous materials in the workplace, the availability of data sheets to inform the employee, and the availability of data necessary for employers to take proper action to safeguard their employees.

An identification system for occupationally hazardous materials is also the subject of a Standards Advisory Committee. The Notice of Establishment and Meeting of the Standards Advisory Committee on Hazardous Materials Labeling was published in the Federal Register on September 4, 1974 (39 FR 32072). The Advisory Committee was established to make recommendations to the Assistant Secretary of Labor for Occupational Safety and Health regarding the development of guidelines for the implementation of section 6(b)(7) of the Act with respect to Hazardous Materials. Copies of the NIOSH Criteria Document for a Recommended Standard on an Identification System for Occupationally Hazardous Materials have been forwarded to the Advisory Committee.

Interested persons may submit written data, views and arguments concerning this Criteria Document to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street NW., Washington, D.C. 20210. Information submitted in response to the Notices of Meeting of the Standards Advisory Committee on Hazardous Materials Labeling need not be resubmitted.

The NIOSH Criteria Document on an Identification System for Occupationally Hazardous Materials will be available for inspection, and upon request, copying at the above address and at any of the following OSHA Regional and Area Offices:

[29 CFR Part 1952]

COLORADO PLAN

Proposed Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. On September 12, 1973, a notice was published in the FEDERAL REGISTER of the approval of the Colorado plan and of the adoption of Subpart M of Part 1952 containing the decision (38 FR 25173). On December 24, 1974, the State of Colorado submitted supplements to the plan involving developmental changes to the plan (see Subpart B of 29 CFR Part 1953).

2. *Description of the supplement.* The supplement consists of a description of the public employee programs for Colorado. The public employee program proposed by Colorado consists of three components.

(a) The first component is a plan for State agencies. The plan for State agencies will be implemented by January 1, 1975, pursuant to and executive order issued by the Governor on December 23, 1974. The order designates the Director of the Division of Labor, Department of Labor and Employment, in cooperation with the Department of Health, Occupational and Radiological Health Division, as responsible for the administration of the program and directs each agency of the State to designate a safety and health officer. There will be an annual inspection program for all State agencies. Inspections of State highway projects involving State employees will be a target inspection program. No monetary penalties will be imposed but each agency shall abate problems and furnish reports

XUM V40133 FEB 18 75 XUM

of abatements and annual reports to the Director of the Division of Labor. In cases of imminent or serious danger, the Division has shut-down authority pursuant to section 80–2–5 of the Colorado Revised Statutes.

(b) A second component of the public employee program is a plan for political subdivisions of the State. This program will be implemented by the Division of Labor in cooperation with the Department of Health, Occupational and Radiological Health Division. Education and technical assistance will be provided by January 1, 1975, and inspection and enforcement activities will be implemented by February 1, 1975. Political subdivision governmental units will be inspected on a three year basis and be subject to procedures for enforcement of the same standards as apply to the private sector. However, highway activities will be inspected on a target basis. No monetary penalties will be proposed for political subdivisions but abatement and shut-down authority is provided for pursuant to sections 80–2–5 and 80–2–23 of the Colorado Revised Statutes. The political subdivision program will not be applicable to school employees; and shut-down authority will not be used in such areas as sewage disposal and police and fire protection since the continued operation of these occupations is essential for the preservation of the public health and welfare. Rather, the State will work with the political subdivision to assure that hazards are abated immediately.

(c) A third component of the public employee program is a plan for the assumption of jurisdiction for occupational safety and health enforcement by the City and County of Denver. The State intends to enter into an agreement with Denver wherein Denver will plan and implement its own program for its own public employees pursuant to section 80–2–24 of the Colorado Revised Statutes. This program is scheduled to be implemented by July 1, 1975.

The Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) has preliminarily reviewed the supplements and hereby gives notice that their approval is in issue before him.

3. *Location of the supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Occupational Safety and Health Administration, Room 15010, Federal Building, 1961 Stout Street, Denver, Colorado 80202; Director, Division of Labor, Department of Labor and Employment, 200 East Ninth Avenue, Denver, Colorado 80203.

4. *Public participation:* Interested persons are hereby given until March 17, 1975, in which to submit written data, views and arguments concerning whether the supplement should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements, by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If in the opinion of the Assistant Secretary substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart M of Part 1952 and initiate appropriate further proceedings if necessary.

(Secs. 8(g), 18, Pub. L. 91–596, 84 Stat. 1598, 1608 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 10th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

WINE

Labeling and Advertising; Hearing

Correction

In FR Doc. 75–3720 appearing at page 6349 of the issue for Tuesday, February 11, 1975, the following corrections are made:

1. On page 6352, in § 4.37a:

a. In paragraph (a), second line, the word "an" should read "on".

b. In paragraph (f) the second sentence should read: • • • Natural ingredients shall be broken down into basic foodstuffs, such as "grapes", "cherries", "oranges" or "orange juice", "dextrose", or "yeast". • • •

c. In paragraph (g) (1), last line, open quotation marks should be inserted before the word "artificial".

d. In paragraph (h) (2), fifth line, close quotation marks should be inserted after the word "flavors".

2. On page 6353, in § 4.39:

a. The quoted material at the end of paragraph (a) (5) should appear to read:

• • • "We will refund the purchase price to the purchaser if he is in any manner dissatisfied with the contents of this package."

(Name of permittee)

b. In paragraph (b) (3) (i) and (ii), a line was inadvertently printed out of order. As corrected (b) (3) (i) and (ii) should read:

"(i) that the laws of such country regulate the appearance of vintage dates upon the labels of wine produced for consumption therein, (ii) that the wine in question has been produced in conformity with such laws, and".

c. In paragraph (b) (3), the fifth line from the bottom presently reading "in the United States of containers of 1" should read "in the United States in containers of 1".

3. On page 6354, in § 4.50(c), seventh line from the bottom the word "isued" should read "issued".

Correction

In FR Doc. 75–3719, appearing at page 6354 of the issue for Tuesday, February 11, 1975, the following corrections are made:

1. On page 6356, third column, the twelfth line from the top reading "or packed prior to the mandatory com-" should read "bottled or packed prior to the mandatory com-".

2. On page 6356, third column, in the twentieth line from the top, the word "or" should read "of".

3. On page 6358, in § 5.39, in the first line of the heading for paragraph (b), the word "products" should read "produced".

Customs Service

[19 CFR Part 6]

AIR COMMERCE REGULATIONS

The Entry and Clearance of Aircraft Owned or Chartered by Air Travel Clubs

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), section 624, 46 Stat. 759 (19 U.S.C. 1624), and sections 904, 1109, 72 Stat. 787, 799, as amended (49 U.S.C. 1474, 1509), it is proposed to amend § 6.3 of the Customs Regulations (19 CFR 6.3), which sets forth certain entry and clearance requirements for certain aircraft carrying either passengers for hire or commercial cargo. The proposal would amend paragraphs (a) and (c) of § 6.3 to specify that aircraft utilized by members of air travel clubs, whether the aircraft are owned or chartered by such clubs, shall be treated as aircraft carrying passengers for hire.

The aircraft utilized by members of air travel clubs have, by interpretation, been treated by the Customs Service as subject to the entry and clearance requirements of § 6.3 of the Customs Regulations. The proposed amendment would incorporate this interpretation into the regulations.

Accordingly, it is proposed to amend paragraphs (a) and (c) of section 6.3 of the Customs Regulations (19 CFR 6.3 (a) and (c)) by inserting the following sentence after the first sentence in each paragraph:

§ 6.3 Entry and clearance.

(a) • • • Aircraft utilized by members of air travel clubs, whether such aircraft be owned or chartered by the air travel clubs, shall be treated as carrying passengers for hire. • • •

(c) • • • Aircraft utilized by members of air travel clubs, whether such aircraft be owned or chartered by the air travel clubs, shall be treated as carrying passengers for hire. • • •

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received not later than March 20, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, U.S. Customs Service, Washington, D.C., during regular business hours.

Approved: February 7, 1975.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

PENSION BENEFIT GUARANTY CORPORATION

[29 CFR Part 2603]

FREEDOM OF INFORMATION

Document Search and Duplication Fees

The Freedom of Information Act (5 U.S.C. 552) was amended by Pub. L. 93–502, 88 Stat. 1561, to provide, among other things, that the provisions of that Act apply to a Government corporation or Government controlled corporation. Accordingly, the Pension Benefit Guaranty Corporation will be promulgating in the near future regulations implementing the Freedom of Information Act.

Further, the above-cited Freedom of Information Act Amendments require that the regulations of each agency contain a uniform schedule of fees covering the reasonable charges for document search and duplication and providing for the recovery of only the direct cost of such search and duplication. In conformance therewith, notice is hereby given that the Pension Benefit Guaranty Corporation proposes to amend Chapter XXVI of Title 29, Code of Federal Regulations, to add a new Part 2603, Subpart B as set forth below.

Interested persons are invited to submit written comments, data, views, or arguments to the General Counsel, Pension Benefit Guaranty Corporation, P.O. Box 7119, Washington, D.C. 20044. Comments received before February 26, 1975, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested parties in Room 706, American National Bank Building, 8701 Georgia Avenue, Silver Spring, Maryland.

In consideration of the foregoing it is proposed to amend Chapter XXVI of Title 29, Code of Federal Regulations, by adding a new Part 2603 to read as follows:

Part 2603—Examination and Copying of Pension Benefit Guaranty Corporation Documents.

Subpart A—[Reserved]

Subpart B—Copies of Records and Fees for Services

Sec.
2603.51 Charges for services, generally.
2603.52 Search and copying charges.
2603.53 Computerized records.
2603.54 Payment of fees.
2603.55 Standard fees not charged in certain circumstances.

AUTHORITY: 5 U.S.C. 552, as amended by Pub. L. 93–502, 88 Stat. 1561; Pub. L. 93–406, 88 Stat. 829.

Subpart A—[Reserved]

Subpart B—Copies of Records and Fees for Services

§ 2603.51 Charges for services, generally.

(a) Pursuant to the provisions of the Freedom of Information Act, as amended, the payment of standard charges as set forth in the fee schedule in § 2603.52 will, except as otherwise provided in this subpart, be required of the requester to cover the direct costs of searching for and duplicating records requested under the Act from the Corporation. Where the direct cost of the Corporation of making the search is substantial, fees for searching as provided in the schedule will be charged even if the record searched for is not found or if, after it is found, it is determined that the request to inspect it may be denied under the provisions of 5 U.S.C. 552(b) and the regulations in this part.

(b) Circumstances under which searching and copying facilities or services may be made available to the requester without charge or at a reduced charge are delineated in § 2603.55. Recoupment of the Corporation's costs for determining whether a requested record is disclosable under the statute and this part and for making deletions of portions exempted from disclosure by the Act has been excluded from consideration in arriving at the standard charges contained in the fee schedule and no charge is made to a requester for the cost of any such services.

§ 2603.52 Search and Copying Charges.

(a) *Fee schedule for searching records.* Where Corporation records must be searched to locate a requested record, charges applicable under this subpart to the search will be made according to the following fee schedule:

(1) *Search time.* (i) Ordinary search by custodial or clerical personnel, $1.25 for each one-quarter hour or fraction thereof of employee worktime in excess of the first quarter-hour required to reach or obtain the records to be searched and to make the necessary search; and (ii) Search requiring services of professional or supervisory personnel to locate requested record, $2.50 for each such quarter-hour of such services required in excess of the first quarter-hour required.

(2) *Additional search costs.* If the search for a requested record requires transportation of the searcher to the location of the records or transportation of the records to the searcher, at a cost in excess of $5, actual transportation costs will be added to the search time cost.

(3) *Search in computerized records.* Special fees to cover direct personnel and machine time costs of such searches will be charged as set forth in the above fee schedule and § 2603.52.

(b) *Fee schedule for copying of records.* The fees payable pursuant to this subpart for obtaining requested copies of records which have been made available for inspection under the Freedom of Information Act will be computed on the following basis and subject to the following conditions:

(1) *Standard copying fee.* $0.10 per page of record copies furnished. This standard fee is also applicable to the furnishing of copies of available computer printouts as stated in § 2603.63.

(2) *Voluminous material.* If the volume of page copy desired by the requester is such that the reproduction charge at the standard page rate would be in excess of $50, the person desiring reproduction may request special rate quotation from the Corporation.

(3) *Limit of service.* Not more than 10 copies of any document will be furnished.

(4) *Manual copying by requester.* No charge will be made for manual copying by the requesting party of any document made available for inspection under the provisions of this part. The Corporation shall provide facilities for such copying without charge at reasonable times during normal working hours.

(c) *Indexes.* Pursuant to 5 U.S.C. 552 (a) (2) copies of indexes or supplements thereto which are maintained as therein provided but which have not been published will be provided on request at a cost not to exceed the direct cost of duplication as computed pursuant to the fee schedule in paragraph (b) of this section.

§ 2603.53 Computerized records.

(a) Information available in whole or in part in computerized form which is disclosable under the Freedom of Information Act is available to the public as follows:

(1) When there is an existing printout from the computer which permits copying the printout, the material will be made available at the per page rate stated in § 2603.52(b) (1) for each 8½-by 11-inch page.

(2) When there is not an existing printout of information disclosable under the Freedom of Information Act, a printout shall be made provided the applicant pays the cost to the Corporation as hereinafter stated.

(3) Obtaining information from computerized records frequently involves a

XUM
V40-33 FEB 18 75 XUM

minimum computer time cost of approximately $100 per request. Multiple requests involving the same subject may cost less per request. Services of personnel in the nature of a search shall be charged for at rates prescribed in § 2603.52(a). A charge shall be made for the computer time involved based upon the prevailing level of costs to Government organizations and upon the particular types of computer and associated equipment and the amounts of time on such equipment that are utilized. A charge shall also be made for any substantial amounts of special supplies or materials used to contain, present or make available the output of computers based upon the prevailing levels of costs to Government organizations and upon the type and amount of such supplies and materials that are used.

(b) Information in the Corporation's computerized records which could be produced only by additional programming of the computer, thus producing information not previously in being, is not required to be furnished under the Freedom of Information Act.

§ 2603.54 Payment of fees.

(a) *Medium of payment.* Payment of the applicable fees as set forth in §§ 2603.52 and 2603.53 shall be made in cash, by U.S. postal money order, or by check payable to the Pension Benefit Guaranty Corporation. Postage stamps will not be accepted in lieu of cash, checks, or money orders as payment for fees specified in the schedule. Cash should not be sent by mail.

(b) *Advance payment or assurance.* Payment of the known and officially estimated searching and copying fees shall be made or assured to the satisfaction of the disclosure officer prior to the performance of substantial searching or copying services. Where the requester does not know and has no official estimate of the search and copying costs at the time the request is made, the request should specifically state that whatever costs will be involved pursuant to §§ 2603.52–2603.53 will be acceptable, or will be acceptable up to an amount not exceeding a named figure. A request made without such specific assurance of payment of fees in an amount at least equal to the charges under §§ 2603.52–2603.53 which the Corporation anticipates will be necessary, will, if such estimated charges are in excess of $100, not be deemed to have been received by the Corporation until the requester has been notified (promptly upon physical tender of the request) of the Corporation's cost estimate and has perfected the request by paying the estimated charges or giving satisfactory assurance that payment will be made. In the event that a request is made only for inspection of a record, advance payment or assurance of payment as set forth in this paragraph is applicable only with respect to searching fees; charges for copying will not be made unless or until copies are requested. In cases where the estimated costs required under the fee schedule for responding to a request are such that an advance deposit is deemed necessary, and it appears that the information sought by the requester might be made available at less cost by revision of the request, the Corporation's advice to the requester of the estimated costs and the need for an advance deposit will be accompanied by extension of an offer to the requester to confer with knowledgeable Corporation personnel with a view of reformulation of the request in a manner which will reduce the fees and meet the needs of the requester.

(c) *Post-copying costs.* The scheduled fees for furnishing copies of records made available pursuant to the Act for inspection and copying cover the costs of furnishing the copies at the place of duplication. Where requests for such copies are made by mail, no postage charge will be made for transmitting by regular mail a single copy of the requested record to the requester, or for mailing additional copies where the total postage cost does not exceed $2. However, where the volume of page copy or method of transmittal requested is such that transmittal charges to the Corporation are in excess of $2 the transmittal costs will be added to the copying fee specified in accordance with the schedule, unless appropriate stamps or stamped envelopes are furnished with the request, or authorization is given for collection of shipping charges on delivery.

§ 2603.55 Standard fees not charged in certain circumstances.

(a) No searching charge under § 2603.52(a) shall be made for routine procurement for inspection from Corporation records, not requiring more than one-quarter hour of personnel time.

(b) The disclosure officer may reduce or waive fees applicable under §§ 2603.52–2603.53 when he determines that such reduction or waiver is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

(c) The disclosure officer may reduce or waive fees applicable under §§ 2603.52–2063.53 when the requester has demonstrated his inability to pay such fees.

Issued in Washington, D.C., on February 11, 1975.

PETER J. BRENNAN,
Chairman, Board of Directors, Pension Benefit Guaranty Corporation.

[Public Notice M-5/15]

STUDY GROUP 7 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Meeting

The Department of State announces that Study Group 7 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on March 13, 1975, at the U.S. Naval Observatory, 34th Street and Massachusetts Avenue NW., Washington, D.C. The meeting will begin at 9:30 a.m. in Room 300 of Building 52.

Study Group 7 deals with time-signal services by means of radiocommunications. The purposes of the meeting will be:

a. Review of work programs looking to the international meeting of Study Group 7 in 1976;

b. Assignment of responsibilities;

c. Establishment of deadlines for submission of documents to the National Committee; and

d. Consideration of inputs to the Interdepartment Radio Advisory Committee in preparation for the 1979 World Administrative Radio Conference.

Members of the general public will be admitted up to the limits of the capacity of the meeting room. Members of the general public who plan to attend the meeting are requested to so inform Mr. Hugh Fosque, Chairman of U.S. Study Group 7, prior to March 13. Mr. Fosque can be contacted at NASA Headquarters, telephone number (202) 755–2434.

Dated: February 7, 1975.

GORDON L. HUFFCUTT,
Chairman, U.S. CCIR National Committee.

ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

Study Group Meeting

A meeting of the Study Group on Recognition and Enforcement of Foreign Judgments, a subgroup of the Secretary of State's Advisory Committee on Private International Law, will take place on Saturday, March 8, 1975, in the Wheeler Room, Holmes Hall, Harvard Law School, Cambridge, Massachusetts. The meeting, which will begin at 10 a.m., will be open to the public.

The primary purpose of the meeting is to study the question of recognition and enforcement of foreign judgments, with particular emphasis on identifying the problems that should be resolved in bilateral treaties that the United States plans to negotiate on the subject.

Members of the public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room.

Dated: February 10, 1975.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[Delegation Order No. 16]

FIRST DEPUTY COMPTROLLER OF THE CURRENCY ET AL.

Order of Succession To Act as Comptroller

By virtue of the authority vested in me by Treasury Department Order No. 129 (Rev. No. 2) dated April 22, 1955, its is hereby ordered as follows:

1. The following officers in the Bureau of Comptroller of the Currency, in the order of succession enumerated, shall act as Comptroller of the Currency during the absence or disability of the Comptroller of the Currency or when there is a vacancy in such office:

(1) Justin T. Watson, First Deputy Comptroller of the Currency.

(2) Thomas G. DeShazo, Deputy Comptroller of the Currency.

(3) David C. Motter, Deputy Comptroller of the Currency.

(4) Robert A. Mullin, Deputy Comptroller of the Currency.

(5) Robert Bloom, Chief Counsel.

(6) Dean E. Miller, Deputy Comptroller of the Currency.

(7) Kenneth W. Leaf, Chief National Bank Examiner.

(8) William A. Howland, Jr., Deputy Comptroller of the Currency for Administration.

(9) Joseph M. Ream, Deputy Comptroller of the Currency.

(10) Richard J. Blanchard, Deputy Comptroller of the Currency.

2. In the event of an enemy attack on the continental United States, all Regional Administrators of National Banks, including any Acting Regional Administrators, are authorized in their respective regions to perform any function of the Comptroller of the Currency, or the Secretary of the Treasury, whether or not otherwise delegated, which is essential to the carrying out of responsibilities otherwise assigned to them. The respective officers will be notified when they are to cease exercising the authority delegated in this paragraph.

3. Delegation Order No. 15 is hereby repealed.

Dated: February 11, 1975.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

Internal Revenue Service

PRIVATE SCHOOLS

Proposed Revenue Procedure

Notice is hereby given that the Internal Revenue Service proposes to issue the revenue procedure set forth in tentative form below. Prior to the final adoption of such revenue procedure, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: Director, Exempt Organizations Division, 1111 Constitution Avenue, Washington, D.C. 20224, by March 21, 1975. Designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice is intended by the person submitting it to be

XUM
V40I33
FEB 18 75
XUM

subject in its entirety to public inspection and copying in accordance with the same procedures as are prescribed in 26 CFR 601.702(d)(9) for public inspection and copying of written comments received in response to a notice of proposed rulemaking.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

REVENUE PROCEDURE

SECTION 1. *Purpose.* This Revenue Procedure sets forth guidelines and recordkeeping requirements for determining whether private schools that are applying for recognition of exemption under sections 501(a) and 501(c)(3) of the Internal Revenue Code of 1954, or are presently exempt from tax, have racially nondiscriminatory policies as to students.

SEC. 2. *Background* .01 *Definition.* A school that does not have a racially nondiscriminatory policy as to students does not qualify as an organization exempt from Federal income tax. See Rev. Rul. 71-447, 1971-2 C.B. 230, which defines a racially nondiscriminatory policy as meaning that:

> the school admits the students of any race to all the rights, privileges, programs, and activities generally accorded or made available to students at that school and that the school does not discriminate on the basis of race in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

.02 *Organization and operation.* A school must show affirmatively both that it has adopted a racially nondiscriminatory policy as to students that is made known to the general public and that it has operated continuously in accordance with such racially nondiscriminatory policy. The existence of a racially discriminatory policy with respect to faculty and administrative staff is evidence of a racially discriminatory policy as to students.

.03 *Necessity for specific guidelines.* Service experience with private school operations has shown a need for more specific guidelines to insure a uniform approach to the determination whether a private school has a racially nondiscriminatory policy as to students.

SEC. 3. *Guidelines* .01 *Organizational requirements.* A school must establish that it has a racially nondiscriminatory policy as to students by providing in its charter, bylaws, resolution of its governing body, or other governing instrument that it will not discriminate against applicants and students on the basis of race.

02. *Publication requirements.* The school may use any method to publicize initially its racially nondiscriminatory policy so long as it effectively accomplishes the end of making the policy known to all racial segments of the general community served by the school. A school cannot limit the scope of its promotional activities to a specific geographical area if such a limitation precludes any racial segment of the general community in which the school is located from being made aware of the availability of the school. Following are examples of methods that the Service will consider as meeting this requirement.

1. Where the student body is drawn substantially from a single locality, the school may publish a notice of its racially nondiscriminatory policy in a newspaper of general circulation that serves all racial segments of the locality. Where no single newspaper of general circulation serves all racial segments, the school may publish its notice in those newspapers that are reasonably likely to be read by all racial segments in the locality. In the case of a school whose student body is not drawn substantially from a single locality, the school may publish the notices of its racially nondiscriminatory policy in a newspaper or other publication reasonably likely to reach the localities served and be read by all races. The notice may be either an advertisement or an article, but it must appear in a prominent position, be sufficiently large, and be captioned in such a way as to call attention to both the notice and to its nature as a notice of a racially nondiscriminatory policy as to students.

2. If a school customarily draws a substantial percentage of its students nationwide or from a large geographic section or sections of the United States, and is able to show from consistent past practice that it follows a racially nondiscriminatory policy as to students, the publication requirement may be satisfied by including a reference to its nondiscriminatory policy in whatever means of publicity it customarily utilizes. See also section 3.03 for required statement in school brochures and catalogues.

3. The school may use the broadcast media to publicize its racially nondiscriminatory policy if the use makes such nondiscriminatory policy known to all segments of the general community the school serves. If this method is chosen, the school must provide documentation that the policy has been fully and effectively communicated to all segments of the general community. In this case, appropriate documentation would include copies of the tapes or script used and records showing that there was an adequate number of announcements, that they were made during hours when the announcements were most likely to be communicated to all segments of the general community, that they were of sufficient duration to convey the message clearly, and that they were broadcast on radio and/or television stations likely to be listened to by substantial numbers of members of all racial minorities in the general community.

4. The school may advise leaders of racial minorities of the nondiscriminatory policy so that they in turn will make this policy known to other members of their race. If this method is used, the school must provide documentation that its racially nondiscriminatory policy has been fully and effectively communicated by the minority leaders to their groups. Adequate evidence of this would be statements signed by the minority group leaders.

.03 *Annual notification and certification.* In order to assure an appropriate degree of continuing publicity in every instance, each private school must publicize its policy in accordance with section 3.02 at least once annually, during the period of the school's solicitation for students, or in the absence of a solicitation program, during the school's registration period. Further, each school must also include a clear reference to its racially nondiscriminatory policy in all its brochures, catalogues, and other printed advertising which it uses as a means of informing prospective students of its programs.

All schools that claim to be racially nondiscriminatory as to students must also certify annually, on an Internal Revenue Service form to be issued, that they have not made statements and have not taken any actions qualifying or negating their published statements of a racially nondiscriminatory policy as to students.

.04 *Facilities and programs.* A school must be able to show that none of its facilities and programs permit or encourage racial discrimination. In this regard, a school cannot operate classrooms, cafeterias, or extra-curricular activities in a racially discriminatory manner.

.05 *Scholarship and loan programs.* As a general rule, all scholarships or other comparable benefits procurable for use at any given school must be offered on equal terms to the members of all races. Their availability on this basis must be known throughout the general community being served by the school in order for that school to be considered racially nondiscriminatory as to students and should be referred to in the publicity required by this section. No scholarship, loan or other financial assistance program may favor one racial group at a particular school without adversely affecting its exempt status unless the cumulative effect of all of the financial assistance programs does not significantly derogate from its racially nondiscriminatory policies.

.06 *Failure to comply with guidelines.* Failure to comply with the guidelines will ordinarily result in the termination of the exempt status of the school.

SEC. 4. *Applications for tax exempt status.* Every school filing an initial application for recognition of a tax exempt status must supply the Service with the following information.

1. Racial composition, as of the pending academic year, and projected so far as may be feasible for the subsequent academic year, of—

(a) Student body,

(b) Applicants for admission,

(c) Facility and administrative staff.

2. Amount of scholarship and loan funds, if any, awarded to students enrolled or seeking admission, and racial composition of students who have received such awards.

3. (a) A listing of (i) incorporators, founders, and board members; (ii) donors of land or buildings, whether individuals or organizations, and

(b) A statement as to whether any of the foregoing organizations are committed to or have as a primary objective the maintenance of segregated school education, and whether any of the foregoing individuals have an announced identification as officers or active members of any such organization.

SEC. 5. *Public complaints of racial discrimination.* Whenever a citizen has evidence that an exempt private school is not operating under a racially nondiscriminatory policy as to students, any communication he may initiate should be sent either to his local District Director of the Internal Revenue or to the Director, Exempt Organizations Division, 1111 Constitution Avenue, Washington, D.C. 20224. Similarly, any judicial or administrative determination that a school does not follow a racially nondiscriminatory policy should be communicated to the District Director or the Director, Exempt Organizations Division, for appropriate investigation.

SEC. 6. *Recordkeeping requirements* .01 Specific records. Each exempt private school must maintain, for a minimum period of three years, the following records and information for the use of the Internal Revenue Service:

1. All applications for general admission. Any rejected applications must be annotated to show the reasons for rejection.

2. All requests for scholarships or other forms of financial aid, and a list of the amounts awarded or the reasons for rejection, together with copies of all correspondence concerning comparable requests to other parties insofar as the school has at any time been a party to such correspondence.

3. All applications for employment. Any rejected applications must be annotated to show the reasons for rejection.

4. Copies of all catalogues, brochures, announcements, and other printed advertising.

5. Copies of all materials used to solicit contributions, and all contributions received.

.02 *Failure to maintain records.* Failure to maintain or to produce the required records and information will warrant the presumption that the organization has failed to comply with the guidelines. Such presumption may be rebutted only by clear and convincing evidence to the contrary.

SEC. 7. *Effect on other documents.* Rev. Proc. 72-54, 1972-2 C.B. 834, is superseded.

NON-RUBBER FOOTWEAR FROM ARGENTINA

Preliminary Countervailing Duty Determination

In the FEDERAL REGISTER of July 16, 1974 (38 FR 26046), there was published a "Notice of Countervailing Duty Proceedings" in which the Commissioner of Customs announced that information had been received pursuant to the provisions of § 159.47(b) of the Customs Regulations (19 CFR 159.47(b)) which raised a question as to whether certain payments, bestowals, rebates, or refunds granted by the Government of Argentina upon the manufacture, production, or exportation of nonrubber footwear constituted the payment or bestowal of a bounty or grant, directly or indirectly, within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) (referred to in this notice as "the Act"), upon the manufacture, production, or exportation of the merchandise to which the payments, bestowals, rebates, or refunds applied. In accordance with the provisions of the above mentioned notice, a time period of 30 days was provided from the date of the notice for the receipt of relevant data, views, or arguments with respect to the existence or nonexistence, and the net amount, of any bounty or grant within the meaning of section 303 of the Act.

On the basis of an investigation conducted pursuant to § 159.47(c), Customs Regulations (19 CFR 159.47(c)), it has been determined that payments were made by the Government of Argentina upon the exportation of non-rubber footwear which would have constituted a bounty or grant of approximately 25 percent of the dutiable value of the footwear. The Government of Argentina has taken action, effective December 23, 1974, to abolish for footwear producers the program under which such payments were made.

Accordingly, it has been determined preliminarily that no bounty or grant within the meaning of the Act is being paid or bestowed, directly or indirectly, upon the manufacture, producton, or exportation of non-rubber footwear from Argentina.

Before a final determination is made the operation of a newly proposed export loan program of the GOA for the footwear industry will be observed to make certain it is not operated so as to result in the payment or bestowal of a bounty or grant. Consideration will be given to any relevant data, views, or arguments submitted in writing with respect to the preliminary determination. Submissions should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20229, in time to be received by his office no later than March 20, 1975.

This preliminary determination is published pursuant to section 303(a) of the Tariff Act of 1930 (19 U.S.C. 1303(a)).

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approval: February 12, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[Dept. Circular, Public Debt Series, No. 6-75]

TREASURY NOTES OF SERIES F-1977

Dated and Bearing Interest From March 3, 1975; Due February 28, 1977

FEBRUARY 12, 1975.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $1,500,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series F-1977. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Wednesday, February 19, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes will be dated March 3, 1975, and will bear interest from that date, payable on a semiannual basis on August 31, 1975, February 29, 1976, August 31, 1976, and February 28, 1977. They will mature February 28, 1977, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United

XUM
V40133
FEB 18 75
XUM

States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Wednesday, February 19, 1975. Each tender must state the face amount of notes bid for, which must be $5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the nearest ⅛ of one percent necessary to make the average accepted price 100.00 or less. That will be the rate of interest that will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $1,500,000,000 of notes offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price (in three decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Standard time, Wednesday, February 19, 1975.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before March 3, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by March 3, 1975, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, February 26, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, February 24, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

STEPHEN S. GARDNER,
Acting Secretary of the Treasury.

TREASURY NOTES OF SERIES L–1976

Dated and Bearing Interest From March 3, 1975; Due August 31, 1976

FEBRUARY 12, 1975.

I. INVITATIONS FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $1,500,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series L–1976. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Wednesday, February 19, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes will be dated March 3, 1975, and will bear interest from that date, payable on a semiannual basis on August 31, 1975, February 29, 1976, and August 31, 1976. They will mature August 31, 1976, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the p.m., Eastern Standard time, Wednesday, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern tSandard time, Wednesday, February 19, 1975. Each tender must state the face amount of notes bid for, which must be $5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations; States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the nearest ⅛ of one percent necessary to make the average accepted price 100.00 or less. That will be the rate of interest that will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $1,500,000,000 of notes offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price (in three decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Standard time, Wednesday, February 19, 1975.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before March 3, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by March 3, 1975, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, Februrary 26, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, February 24, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

COLUMBIA BASIN PROJECT, WASH.

Public Hearing on Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the Columbia Basin Project, Washington. This statement (INT DES 75-3, dated January 17, 1975) was made available to the public on January 20, 1975.

XUM
V40133
FEB 18 75
XUM

The draft environmental statement deals with the whole of the Columbia Basin Project, including the early portions of the project which entailed the construction of the Grand Coulee Dam and the filling of Franklin D. Roosevelt Reservoir, and subsequent irrigation developments on lands throughout central Washington. The statement addresses some segments of the project which have yet to be constructed and indicates that further assessments will be prepared on those portions in the future.

A public hearing will be held in six sessions to receive views and comments on the environmental aspects of the project. Each session will begin at 7:30 p.m. These sessions and their locations are as follows:

March 24, 1975—Ephrata, Washington—St. Rose of Lima School Auditorium, Moses Lake Highway.

March 25, 1975—Coulee Dam, Washington—Coulee Dam City Hall, 300 Lincoln Avenue.

March 26, 1975—Othello, Washington—IOOF Hall, 3rd and Hemlock.

March 27, 1975—Pasco, Washington—Red Lion Motor Inn, Meeting Rooms A & B, 25 North Chase Street.

March 31, 1975—Spokane, Washington—Ridpath Motor Inn, Empire Room Ballrooms A & B, Sprague & First Avenue.

April 2, 1975—Seattle, Washington—Rainier Room, North Court Meeting Rooms, Seattle Center.

Oral comments at the hearings will be limited to a period of 10 minutes. Speakers will be encouraged not to trade their time to obtain a longer oral presentation; however, the person authorized to conduct the hearing may allow a speaker to provide additional oral comment after all persons wishing to comment have been heard. Speakers will be scheduled according to the time preference mentioned in their letter requests whenever possible, and any scheduled speaker not present when called will lose his or her privilege in the scheduled order and his name will be called at the end of the scheduled speakers. Requests for scheduled presentation will be accepted up until 5 p.m. on March 21, 1975. They should indicate the location at which the presentation will be made. Opportunities will be available to request time at the time of the various sessions of the hearings, and these requests will be handled on a first-come first-served basis, following the previously scheduled presentations.

Organizations or individuals desiring to present their statements at the hearing should contact the Regional Director, attention: code 160, Bureau of Reclamation, P.O. Box 043, 550 West Fort Street, Boise, Idaho 83724, or telephone (208) 342–2711, extension 2215, and announce their intention to participate.

Written comments from those unable to attend, and from those wishing to supplement their oral presentations at the hearing, should be received by April 15, 1975, so that they can be included in the hearing record.

Dated: February 11, 1975.

G. G. STAMM,
Commissioner of Reclamation.

Bonneville Power Administration

BONNEVILLE REGIONAL ADVISORY COUNCIL

Public Meeting

The Bonneville Regional Advisory Council will hold its annual meeting on March 4, 1975, at the downtown Seattle Hilton Hotel in Seattle, Washington. The meeting will begin at 9:30 a.m. and will be open to interested members of the public. A registration period will precede the start of the meeting. There is no registration fee, but there will be a charge for the no-host luncheon.

The main purpose of the meeting will be to discuss the energy situation within the Pacific Northwest region served by the Bonneville Power Administration. Aspects of this topic to be covered include such items as the Pacific Northwest power outlook, the BPA wholesale rate increase, and long-range planning to meet the power supply needs of the region.

The Bonneville Regional Advisory Council serves to bring to the attention of its members matters pertinent to BPA programs. The Council does not pass formal resolutions as such but the annual meeting does serve as a general forum for the free exchange of ideas as to the best ways of utilizing the energy resources of the region.

Copies of the proceedings of the annual meeting will be furnished upon request to the Executive Secretary, Bonneville Regional Advisory Council, P.O. Box 3621, Portland, Oregon 97208.

Dated: February 7, 1975.

DAN W. SCHAUSTEN,
Executive Secretary, Bonneville Regional Advisory Council.

Bureau of Land Management

[0126472]

COLORADO

Termination of Proposed Withdrawal and Reservation of Lands

FEBRUARY 5, 1975.

Notice of a United States Forest Service application C-0126472 for withdrawal and reservation of land for public recreation sites was published as FR Doc. 65-12676, on page 14691 of the issue for Thursday, November 25, 1965. The applicant agency has canceled its application insofar as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 8 N., R. 74 W.
Sec. 16. SW¼SW¼SE¼, SE¼SE¼SW¼
Sec. 21. NW¼NW¼NE¼, NE¼NE¼NW¼

Therefore, pursuant to the regulations contained in 43 CFR Part 2310, such lands will be relieved of the segregative effect of the above-mentioned application 30 days from the date of this notice.

EVERETT K. WEEDIN,
Chief, Branch of Land Operations.

Office of the Secretary

TRANSPORTATION TASK GROUP, COMMITTEE ON ENERGY CONSERVATION, NATIONAL PETROLEUM COUNCIL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Transportation Task Group of the Committee on Energy Conservation of the National Petroleum Council will meet on March 6, 1975, in the National Petroleum Council's Conference Room, 1625 K Street NW., Washington, D.C. at 9:30 a.m.

The agenda includes the following items:

1. Review of progress on preparation of a report on Phase II of the current study on the possibilities for energy conservation in the United States and the impact of such measures on the future energy posture of the Nation. This study was requested by the Secretary of the Interior on July 23, 1973. Phase I of the study was completed on September 10, 1974.
2. Discussion of instructions and guidance by the Coordinating Subcommittee of the Committee on Energy Conservation regarding Phase II of the study.
3. Discussion of any other matters pertinent to the overall assignment of the Task Group.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Fran Hanavan, Office of the Assistant Secretary—Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343-2904.

Dated: February 11, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

[FR Doc.75-4291 Filed 2-14-75;8:45 am]

National Park Service

GOLDEN GATE NATIONAL RECREATION AREA CITIZENS' ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Golden Gate National Recreation Area Advisory Commission will be held at 9:30 a.m. on Saturday, March 1, at the Environmental Education Center, Tilden Park, Berkeley, California.

The purpose of the Golden Gate National Recreation Area Advisory Commission is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems and programs pertinent to the National Park system in Marin and San Francisco counties.

Members of the Advisory Commission are as follows:

Mr. Frank Boerger, Chairman	Mrs. Daphne Greene
Mrs. Amy Meyer, Secretary	Mr. Peter Haas, Sr.
Mr. Ernest C. Ayala	Mr. Joseph Mendoza
Mr. Richard Bartke	Mr. John Mitchell
Mr. Fred Blumberg	Mr. Merritt Robinson
Mr. Joseph Caverly	Mr. William Thomas
Mr. Lambert Lee Choy	Mr. Gene Washington
	Dr. Edgar Wayburn

The major item on the agenda will be adoption of guidelines for selection of Fort Mason pier area programs.

This meeting will be open to the public. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements may contact William J. Whalen, General Superintendent, Golden Gate/Point Reyes, Fort Mason, San Francisco, California 94123, telephone 415-556-2920.

Minutes of the meeting will be available for public inspection by March 14, 1975 in the Office of the General Superintendent, Golden Gate National Recreation Area, Fort Mason, San Francisco.

Dated: January 31, 1975.

WILLIAM J. WHALEN,
General Superintendent.

[FR Doc.75-4407 Filed 2-13-75;12:56 pm]

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation No. A137]

LOUISIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana:

Red River West Carroll

The Secretary has found that this need exists as a result of a natural disaster consisting of drought from June 1 to July 5, 1974, and excessive rainfall from January 1–5, 1974, and July 6 to November 20, 1974, in Red River Parish; and excessive rainfall from September 1 to December 16, 1974, in West Carroll Parish.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Edwin W. Edwards that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 7, 1975, for physical losses and November 7, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 11th day of February 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-4290 Filed 2-14-75;8:45 am]

[Designation No. A138]

NEW MEXICO

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in New Mexico:

Harding Quay

The Secretary has found that this need exists as a result of a natural disaster consisting of drought May 1973 through November 1974 in Harding County and drought September 1973 to August 1974 and excessive rainfall during September and October 1974 in Quay County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of former Governor Bruce King that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 7, 1975, for physical losses and November 7, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 11th day of February, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Soil Conservation Service

ANDERSON RIVER WATERSHED PROJECT, IND.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Anderson River Watershed Project, Crawford, Dubois, Perry and Spencer Counties, Indiana, USDA-SCS-EIS-WS-(ADM)-75-3-(D)-IN.

The environmental impact statement concerns a plan for watershed protection, flood prevention, municipal and industrial water supply, and recreation. The planned works of improvement provide for conservation land treatment; 46 single purpose floodwater retarding reservoirs; 1 multiple purpose reservoir for flood prevention, recreation and industrial water supply; 1 multiple purpose reservoir for flood prevention and municipal water supply; and approximately 10.5 miles of channel work on a natural stream with perennial flow. The channel work consists of debris removal and the removal of hazardous trees from the channel flow area. The recreational developments have a design capacity of 2,500 persons at one time.

MANTACHIE, BOGUE FALA, AND BOGUE EUCUBA CREEKS WATERSHED PROJECT, MISS.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Mantachie Bogue Fala, and Bogue Eucuba Creeks Watershed Project, Itawamba, Lee and Monroe Counties, Mississippi, USDA – SCS – EIS – WS–(ADM)–75–2–(D)–MS.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment, 12 floodwater retarding structures, two multiple-purpose structures for floodwater retardation and recreation water storage, and basic recreation facilities. The 12 floodwater and two multiple-purpose structures will provide for 4,069 acre feet of sediment storage, 11,882 acre feet of floodwater retardation storage and 2,726 acre feet of recreational water storage. The basic recreation facilities in conjunction with the 165 and 185 surface acre lake provided by the recreational water storage are expected to provide for about 129,000 visitor-days of recreation annually.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 610, Jackson, Mississippi 39205 or Room 490 Milner Building, 310 S. Lamar Street, Jackson, Mississippi.

Copies of the draft EIS have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are invited from others having knowledge of or special expertise on environment impacts.

Comments concerning the proposed action or requests for additional information should be addressed to W. L. Heard, State Conservationist, Soil Conservation Service, P.O. Box 610, Jackson, Mississippi 39205.

Comments must be received on or before April 11, 1975, in order to be considered in the preparation of the final environmental impact statement.

DENTON CREEK WATERSHED (TRINITY), TEXAS

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Denton Creek Watershed (Trinity), Montague, Wise, Denton, Cooke, and Tarrant Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by 4 floodwater retarding structures and 5 land stabilization treatment areas.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
First National Bank Building
Temple, Texas 76501

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken before March 5, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 6, 1975.

EUGENE C. BUIE,
Deputy Administrator for Water Resources, Soil Conservation Service.

VIRGIN ISLANDS RC&D PROJECT MEASURE A–11 BOAT RAMP DEVELOPMENT

Negative Declaration

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for RC&D Measure A–11 Boat Ramp Development at Altona Recreation Area in St. Croix of the U.S. Virgin Islands RC&D Project.

The environmental assessment of this federal action indicates that the measure will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the measure. As a result of these findings, Mr. Angel H. Quintero, Director Caribbean Area, Soil Conservation Service, USDA, Room 504–L, Stubbe-Segarra Bldg., 1409 Ponce de León Avenue, Santurce, P.R. 00908, has determined that the preparation and review of an environmental impact statement is not needed for this measure.

The measure concerns a plan for construction of an articulated, reinforced concrete boat ramp with overall dimensions of 30' x 40' x 6'' thick, with associated parking area and picnic facilities on 1.5 acres of the Altona Recreation Area, Christiansted, St. Croix.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
Room 504–L, Stubbe-Segarra Bldg.
1409 Ponce de León Avenue
Santurce, Puerto Rico 00908

No administrative action on implementation of the proposal will be taken until March 5, 1975.

Maritime Administration

TANKER CONSTRUCTION PROGRAM

Availability of Standard Specifications

The Maritime Administration has prepared a publication entitled "Standard Specifications for Tanker Construction" for use as a guide in tanker design. It will be in the form of a construction contract specification for a hypothetical ship, complete except that vessel characteristics and dimensions that would be particular to an individual design will be omitted. It will also show all measurement units in both the Systeme International (SI) Metric and the English systems. A limited number of copies of the preliminary draft are available to interested parties for review and comment. These comments should be submitted by April 1, 1975. Requests for the draft specifications should be directed to Ronald K. Kiss, Chief, Division of Ship Design, Room 4059, U.S. Department of Commerce, Maritime Administration, Washington, D.C. 20230.

Dated: February 10, 1975.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, JR.,
Secretary.

[Docket No. S–437]

WATERMAN STEAMSHIP CORPORATION

Application

Notice is hereby given that Waterman Steamship Corporation (Waterman) has filed an application pursuant to Title VI of the Merchant Marine Act, 1936, as amended (the Act), for a six-month extension of its Operating-Differential Subsidy Agreement, Contract No. MA/MSB–138.

Under the Agreement, Waterman is authorized to provide services on Trade Route No. 22 for a period not to exceed three years, commencing May 8, 1972, except that voyages in progress at the end of the period would remain eligible for subsidy until their termination. Waterman's request is for an amendment to Article I–9 of the Agreement to extend the expiration date thereof until the processing of its application for a long-term operating-differential subsidy agreement for Trade Route No. 22 has been completed, if such application is not fully processed by the end of three years. Waterman's application for a long-term subsidy contract on Trade Route No. 22 is currently the subject of a hearing before Administrative Law Judge Hunt.

Interested parties are invited to inspect the application at the Office of the Secretary, Maritime Subsidy Board (Board), Room 3099–B, Department of Commerce Building; 14th & E Streets NW., Washington, D.C. 20230.

The Board, after consideration of all relevant facts and upon a review of the Board action of April 27, 1972, is prepared to find that the effect of awarding a contract, for a period not to exceed the time required to complete the hearings now in process in Docket Nos. S–336 and S–390 would not be unduly prejudicial or give undue advantage, as between citizens of the United States operating on Trade Route No. 22.

Any person, firm, or corporation having an interest in the application, and who would contest the above proposed finding of the Board is invited, by March 4, 1975, to file a written statement showing cause why this finding should not be made. Any party requesting oral argument before the Board shall specifically include such a request in its statement.

Any party desiring an evidentiary hearing on the application should set forth his interest in the application and should, with particularity, articulate any or all of the facts upon which he desires to adduce evidence. Any allegation of undue prejudice or unfair advantage shall be accompanied by a statement describing in detail the undue prejudice or unfair advantage.

Allegations of other factual issues which the party wishes the Board to consider in a hearing on the application shall include: (1) a clear and concise statement of the issues upon which a hearing is desired; and (2) the grounds upon which such allegations rest, in such detail as to permit the Board to determine their exact nature.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

Dated: February 13, 1975.

By Order of the Maritime Subsidy Board.

Office of Education

NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Public Meeting

Notice is hereby given, pursuant to PL–92–463, that the National Advisory Council on Vocational Education will hold an orientation session for new Council members on March 12, 1975, from 9 a.m. to 4 p.m., Eastern Standard Time, at 425 13th Street NW., Room 412, Washington, D.C. The next regular meeting of the National Advisory Council on Vocational Education will be held on March 13, 1975, from 9 a.m. to 5 p.m., Eastern Standard Time and March 14, 1975, from 8:30 a.m. to 12 Noon, E.S.T., at the Ramada Inn, Washington, D.C.

The National Advisory Council on Vocational Education is established under section 104 of the Vocational Education

XUM
V40-33 FEB 18 75 F
XUM

Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the administration of, preparation of general regulations for, and operation of, vocational education programs, supported with assistance under the act; review the administration and operation of vocational education programs under the act; including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress; and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

The meeting of the Council shall be open to the public. The proposed agenda includes:

MARCH 12, 1975

9 a.m.–noon: Staff orientation for new members.

1 p.m.–4 p.m.: Meetings with OE, HEW, and Congressional staff.

MARCH 13, 1975

9 a.m.–noon: Approval of minutes; review of agenda; Executive Director's Report; Presentation by Appalachian Regional Commission; Discussion of Legislation Proposals.

1 p.m.–5 p.m.: Presentation by Proprietary Schools representatives; Committee Meetings; Presentation on School-to-Work Project.

MARCH 14, 1975

8:30 a.m.–noon: Committee Meetings; Discussion of Council goals; Committee Reports.

Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 412, 425–13th Street NW., Washington, D.C. 20004.

Signed at Washington, D.C. on February 7, 1975.

CALVIN DELLEFIELD,
Executive Director.

NATIONAL ADVISORY COUNCIL ON ADULT EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that the next meeting of the National Advisory Council on Adult Education will be held on March 13–14, 1975, from 9 a.m. to 6 p.m., and on March 15, 1975, from 9 a.m. to 1 p.m., at the Galt House, Fourth Street at River, Louisville, Kentucky.

The National Advisory Council on Adult Education is established under Section 311 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Council shall be open to the public. The proposed agenda includes:

Reports and meetings of the Council's three standing committees, and the Executive Committee.

Adult Education Clearinghouse.

Parent/Childhood/Family Focused Education.

Program Effectiveness and Administrative Review.

Bicentennial Activities.

Rules, Regulations, and Guidelines—Pub. L. 93–380.

FY–76 Adult Education Appropriations.

Local Program Visitations and Regional Hearing.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Adult Education located in Room 323, Pennsylvania Bldg., 425 13th Street NW., Washington, D.C. 20004).

Signed at Washington, D.C. on February 10, 1975.

GARY A. EYRE,
Executive Director, National Advisory Council on Adult Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D–75–308]

REGIONAL ADMINISTRATORS, ET AL.

Redelegation of Authority with Respect to Housing Management

The redelegation of authority by the Assistant Secretary for Housing Management published at 35 FR 16105, October 10, 1970, as amended at 35 FR 17964, November 21, 1970; 36 FR 21298, November 5, 1971; 36 FR 21538, November 10, 1971; 37 FR 9048, May 4, 1972; 37 FR 12420, June 23, 1972; 37 FR 17576, August 30, 1972; and 39 FR 7478, February

26, 1974, is further amended in the following respects:

1. The present section M is redesignated as section N and a new section M is added to read as follows:

SEC. M. *Additional authority redelegated to Insuring Office Officials.*

Each Insuring Office Director and Deputy Insuring Office Director is authorized to exercise the power and authority of the Secretary of the Department of Housing and Urban Development under the Low-Rent Public Housing Program pursuant to the U.S. Housing Act of 1937 (42 U.S.C. 1401, et seq.), including the power and authority under sections 1(1) and 1(2) of Executive Order 11196, except the authority to:

1. Determine that there is a substantial breach or default and invoke any remedy on behalf of the Federal Government upon default or breach by a local housing authority in respect to the terms, covenants, or conditions of an annual contributions contract.

2. Terminate annual contributions contract when the decision to terminate is made by the Federal Government.

3. Waive the provisions of annual contributions contracts: *Provided,* That each Insuring Office Director and Deputy Insuring Office Director is authorized to waive provisions with respect to the following:

a. Employment of a former local housing authority Commissioner.

b. Frequency of examination of tenants to permit a local housing authority to change its established reexamination schedule.

c. Approval of the use of force account for modernization programs.

d. Approval of construction and equipment contracts for modernization exceeding $5,000, but not exceeding $50,000.

2. The present section M is redesignated as section N and is revised to read as follows:

SEC. N. *Additional authority excepted.* There is further excepted from the authority redelegated under section A through M the power and authority to:

1. Establish the rate of interest on Federal loans and advances.

2. Issue notes or other obligations for purchase by the Secretary of the Treasury.

3. Sue and be sued.

4. Issue rules and regulations.

5. Exercise the powers and authorities under section 402(a) and 402(c) 1–9 of the Housing Act of 1950 (12 U.S.C. 1749 (a) and 1749(c)(1)–(9)).

3. The present section N is redesignated as section O and is revised to read:

SEC. O. *Exercise of redelegated authority.* Redelegations of authority made under sections A through M shall not be construed to modify or otherwise affect the administrative and supervisor powers of the Regional Administrator, Area Director, or Insuring Office Director, or any of them, to whom a delegate is responsible.

(Secretary's delegation of authority to redelegate published at 36 FR 5005, March 16, 1971)

Effective date. This amendment to redelegation of authority is effective as of September 4, 1974.

H. R. CRAWFORD,
Assistant Secretary for Housing Management.

[FR Doc.75–4302 Filed 2–14–75;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA Rulemaking Petition Docket No. 74–5]

FREIGHT TRAIN MARKERS

Petition for Rulemaking Proceeding

Notice is hereby given that the Federal Railroad (FRA) is considering a petition of the United Transportation Union (UTU) to institute rulemaking to require highly visible markers to be placed on the rear end of freight trains.

In its petition, UTU indicates that these markers should be highly visible by night as well as by day and, consequently, should be lighted during night time hours. UTU asserts that FRA regulation is necessary because "many railroads are totally ignoring this safety need by not marking their cabooses at all" and "some railroads are operating trains without cabooses or markers of any kind."

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. Communications should identify the proceeding (FRA Rulemaking Petition Docket No. 74–5) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590. Communications received prior to April 1, 1975, will be considered before action is taken on this petition

This petition and all comments received will be available for examination by interested persons at any time during normal business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C.

FRA requests specific advice on the following points:

1. For purposes of this notice, the term "train" means "one or more freight locomotives units coupled, with or without freight cars" and the term "freight cars" includes cabooses. Should the regulation apply to trains only or should it also apply to cabooses which are not part of a train but are occupied by one or more railroad employees?

2. What marking devices are now in use on railroads? What other devices such as strobe lights are available? What are their relative costs, effectiveness and serviceability? Which device or combination of marking devices should be required generally?

3. What, if any, marking devices should be required where rear end protection is provided by an automatic block signal, cab signal, train stop, or speed control system?

4. What, if any, markers should be required when the last car in a train is not a caboose?

This notice is issued under the authority of Section 202, 84 Stat. 971, 45 U.S.C. 431 and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C. on February 7, 1975.

ASAPH H. HALL,
Deputy Administrator.

RAILROAD OPERATING RULES ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given that the Railroad Operating Rules Advisory Committee will meet on Wednesday, February 26 and Thursday, February 27, 1975 at the Transportation Systems Center, Kendall Square, Cambridge, Massachusetts.

The Committee was established to provide advice to the Federal Railroad Administration concerning solutions to problem areas involving the operating rules of the nation's railroads.

In an early meeting of the Advisory Committee, the members identified as an area of interest to the Committee the role which the use of radio plays in railroad operations. The agenda for this meeting will include a briefing on radio technology and use in the railroad industry, and a discussion of safety issues raised by such use.

The meeting will be open to the public. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so. Under a procedure established by the Committee, persons submitting written statements are requested to provide 15 copies to allow distribution to each of the Committee members. Members of the public who wish to make oral statements are requested to inform the Office of Chief Counsel, Federal Railroad Administration (202) 426–0767 at least 5 days prior to the meeting so that reasonable provision can be made for their appearance on the agenda.

Minutes of the meeting will be made available for public inspection during regular business hours in the Office of Chief Counsel, Federal Railroad Administration, Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C.

Issued in Washington, D.C. on February 10, 1975.

ASAPH H. HALL,
Deputy Administrator.

[Docket No. 24312]

NORDAIR LTEE.—NORDAIR LTD.

Hamilton—Pittsburgh Renewal Application; Postponement of Prehearing Conference and Hearing

Notice is hereby given that, at the request of counsel for the applicant, to which the Bureau of Operating Rights has indicated it has no objection, the prehearing conference and hearing previously scheduled in this case for February 24, 1975, (40 FR 4184, January 28, 1975), has been postponed to March 4, 1975, at 10 a.m. (local time) in Room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

The hearing will be held immediately following conclusion of the prehearing conference unless a person has objected or shown reason for postponement pursuant to notice previously given.

Dated at Washington, D.C., February 12, 1975.

[SEAL] FRANK M. WHITING,
Administrative Law Judge.

COMMISSION ON THE REVIEW OF THE NATIONAL POLICY TOWARD GAMBLING

NOTICE OF HEARING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Commission on the Review of the National Policy Toward Gambling, established under the authority of Section Pub. L. 91-452, Part D, Sec. 804-806 of the Organized Crime Control Act of 1970, will hold hearings on March 4, 1975 in Room 301 of the Russell Senate Office Building and March 5, 1975 in Room 457 of the Russell Senate Office Building, Washington, D.C.; April 9-10-11, 1975 in Room 2003 of the John F. Kennedy Federal Building, Boston, Massachusetts; and May 6-7, 1975 in Room 1202 of the Dirksen Senate Office Building, Washington, D.C.

The purpose of the March 4-5, 1975 hearings is to elicit testimony from representatives of organized pari-mutuel racing regarding the effectiveness of the existing practices and to comment upon proposed changes in Federal and state policies toward that industry.

The purpose of the April 9-10-11, 1975 hearings in Boston is to elicit testimony from Federal, state and local government officials as well as law enforcement representatives as to the effectiveness of gambling enforcement toward the element of organized crime in the Northeastern United States.

The purpose of the hearings on May 6-7, 1975 is to elicit testimony from those persons who are proponents of off-track betting as well as those persons who are opposed to it.

The hearings of the Commission will be open to the public, and interested persons are invited to attend. The rules of procedure for person or persons presenting matters to the Commission are the same as those previously published by this Commission in the FEDERAL REGISTER.

JAMES E. RITCHIE,
Executive Director.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 334-1; OPP-32000/189 & 190]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before April 21, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 21, 1975.

Dated: February 11, 1975.

JOHN B. RITCH, JR.,
Director,
Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 740]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

FEBRUARY 10, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20821–CD–ML–75, Airsignal of California, Inc. (KMA267), Mod. License to change frequency from 2121.6 MHz to 2171.6 MHz, control facilities at Loc. #2: 336 North Fresno Street, Fresno, California.

21111–CD–P–75, Frank C. Escue d/b/a Telpage (New), C.P. for a new station to operate on 43.22 MHz to be located ½ mile south of Hardin Co. Court House, Elizabethtown, Kentucky.

21112–CD–P–75, Albert E. Armour, Jr. (KOF 912), C.P. for additional facilities to operate on 454.100 MHz. to be located Atop Sacaton Peak, 10 mi. NNW of Casa Grande, Arizona.

21113–CD–P–75, Mobile Phone of Texas, Inc. (KLF477), C.P. to add frequency operating on 152.21 MHz. to be located 1.7 miles North of Young County Court House, Graham, Texas.

21114–CD–P–75, Auto Phone Service (KIY 508), C.P. to change antenna system and relocate facilities operating on 35.22 MHz. to be located at 250 North Orange Avenue, Orlando, Florida.

21115–CD–P/L–(3)–75, Donald G. Pollard d/b/a Siskiyou Mobilfone (KLF550), C.P. to reinstate facilities operating on 152.15 MHz, Base and 459.10, Repeater at Loc. #1: Mahogany Pk 5 Miles Due West of Yreka, California; 454.10 MHz, Control, at Loc. #2: 1 Mile Southeast of Yreka, California.

21116–CD–P–(3)–75, Uintah Basin Telephone Association, Inc. (New), C.P. for a new station to operate on 152.72 MHz., Base and 72.08 MHz., Repeater at Loc. #1: 27 miles North of Duchesne, Utah; 75.92 MHz, Control at Loc. #2: Telephone Office, Tabiona, Utah.

Major Amendment

File No. 20952–C2–P–(2)–74 (KSV940), for Richard P. Blyler d/b/as Lebanon Mobilfone in Lebanon, Pennsylvania for additional two-way facilities has amended the transmitter location to Sand Hill Road, 2.75 miles North of Lebanon, Pennsylvania. All other particulars remain the same as originally reported on the Commission's Public Notice No. 688 dated February 19, 1974.

Informative

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding Ex Parte presentations by reasons of potential electrical interference.

Radio Dispatch Company, Atlantic City, N.J. (New), 21549–C2–P–74.

Mobile Page Communications, Inc., Atlantic City, N.J. (New), 21651–C2–P–(3)–74.

Page Boy Messenger Service, Swainton, N.J. (KUO645), 21258–C2–P–(2)–74.

The Mobile Service Division has begun packing files in preparation for the move to 2025 "M" Street. Accordingly, it will be impossible to make these files available to the public for the next few weeks. We regret the inconvenience, but request your cooperation until we have completed the move.

RURAL RADIO

60280–CR–P–75, RCA Alaska Communications, Inc. (WGF82), C.P. to change antenna system, change frequency and replace transmitter operating on 85.1 MHz. located at FAA VHF Bldg. at Cordova Airport, Alaska.

POINT-TO-POINT MICROWAVE RADIO SERVICE

2601–CF–ML–75, American Telephone and Telegraph Company (KYJ85), 4.8 Miles SW of Ruckersville, Virginia. Lat. 38°10'49" N, Long. 78°25'12" W. Mod. of License to change polarization of frequencies toward Rhoadesville, Virginia, on azimuth 77°17'.

2602–CF–ML–75, Same (KUJ84), 1.2 Miles ESE of Rhoadesville, Virginia. Lat. 38°16'02" N., Long. 77°54'57" W. Mod. of License to change polarization of frequencies toward Advance Mills, Virginia, on azimuth 257°36'; correct transmitter identification of license to read (18)TD–8 and (6)TD–3A.

2607–CF–ML–75, Same (KSB74), 2.0 Miles NNW of Highland, Illinois. Lat. 38°45'45" N., Long. 89°41'30" W. Mod. of License to delete frequencies 3730 and 4030 and change polarization of the TD–2 frequencies toward Mascoutah, Illinois, on azimuth 195°34'.

2608–CF–ML–75, Same (KSP70), 3.1 Miles SSW of Versailles, Indiana. Lat. 39°01'47" N., Long. 85°16'47" W. Mod. of License to change polarization of the TD–2 frequencies toward Paris Crossing, Indiana, on azimuth 232°5'.

2609–CF–ML–75, Same (KSP71), 2.0 Miles East of Paris Crossing, Indiana. Lat. 38°49'42" N., Long. 86°36'34" W. Mod. of License to change polarization of the TD–2 frequencies toward Versailles, Indiana, on azimuth 51°52'.

2610–CF–P–75, Idaho Telephone Company (New), On State Hwy. 17, 600 feet SE of U.S. Post Office, Garden Valley, Idaho. Lat. 44°05'08" N., Long. 115°56'54" W. C.P. for a new station on frequency 2121.8V MHz toward Packer John Mountain, Idaho on azimuth 323°57'.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

2611–CF–P–75, Same (New), Packer John Mountain, 8 Miles SSE of Smith's Ferry, Idaho. Lat. 44°12'05" N., Long. 116°03'56" W. C.P. for a new station on frequencies 10895H and 11095V MHz toward Squaw Butte, Idaho, on azimuth 233°19'; 2171.8V MHz toward Garden Valley, Idaho, on azimuth 143°53'.

2629–CF–P–75, American Telephone and Telegraph Company (KGO74), 1.6 Miles South of Centerport, Pennsylvania. Lat. 40°27'40" N., Long. 76°00'29" W. C.P. to change antenna system and add frequency 4090H MHz toward Lynnport, Pennsylvania, on azimuth 32°20'.

2630–CF–P–75, Same (KVU38), 2.8 Miles North of Lynnport, Pennsylvania. Lat. 40°42'56" N., Long. 75°47'55" W. C.P. to add frequency 4050H MHz toward Centerport, Pennsylvania on azimuth 212°28'.

2631–CF–P–75, Same (KIW84), 2.9 Miles NW of Warrenton, Virginia. Lat. 38°44'28" N., Long. 77°50'10" W. C.P. to change frequencies 6055H and 6295H MHz to 4190H MHz toward Linden, Virginia, on azimuth 325°25'.

2632–CF–P–75, American Telephone and Telegraph Company (KIW85), 1.2 Miles North of Independent Hill, Virginia. Lat. 38°39'-00" N., Long. 77°26'35" W. C.P. to change frequencies 6019.4H and 6138.0H MHz to 4198H MHz toward Waldorf, Maryland, on azimuth 95°20'.

2633–CF–P–75, Same (KGH26), 1.1 Miles SSE of Waldorf, Maryland. Lat. 38°36'38" N., Long. 76°55'14" W. C.P. to change frequencies 6271.4H and 6390.0H MHz to 4190H MHz toward Independent Hill, Virginia, on azimuth 275°40'.

2634–CF–P–75, Same (KQG37), 0.8 Mile East of Wolf Summit, West Virginia. Lat. 39°-16'42" N., Long. 80°26'48" W. C.P. to change frequencies 6055V and 6295V MHz to 4198H MHz toward Alexander, West Virginia, on azimuth 163°13'.

2635–CF–P–75, Same (KQG38), 2.1 Miles West of Alexander, West Virginia. Lat. 38°47'-24" N., Long. 80°15'30" W. C.P. to change frequencies 6135V and 6375V MHz to 4190H MHz toward Webster Springs, West Virginia on azimuth 193°06'; change 6175V and 6415V MHz to 4190H MHz toward Wolf Summit, West Virginia, on azimuth 343°20'.

2636–CF–P–75, Same (KQG39), 4.5 Miles NE of Webster Springs, West Virginia. Lat. 38°30'30" N., Long. 80°20'26" W. C.P. to change frequencies 6055V and 6295V MHz to 4198H MHz toward Nettie, West Virginia, on azimuth 224°10'; change 6015V and 6255V MHz to 4198H MHz toward Alexander, West Virginia, on azimuth 13°2'.

2637–CF–P–75, Same (KQG40), 0.2 Mile West of Nettie, West Virginia. Lat. 38°13'25" N., Long. 80°41'26" W. C.P. to change frequencies 6135V and 6375V MHz to 4190V MHz toward Rainelle, West Virginia, on azimuth 208°13'; change 6175V and 6415V MHz to 4190H MHz toward Webster Springs, West Virginia, on azimuth 43°57'.

2638–CF–P–75, Same (KQG41), 2.5 Miles NW of Rainelle, West Virginia. Lat. 37°58'52" N., Long. 80°49'20" W. C.P. to change frequencies 6015V and 6255V MHz to 4198V MHz toward Nettie, West Virginia, 23°8'; change 5935V and 6175V MHz to 4198V MHz toward Clintonville, West Virginia, on azimuth 121°27'.

2639–CF–P–75, Same (KQH34), 1.4 Miles SW of Clintonville, West Virginia. Lat. 37°52'-54" N., Long. 80°37'03" W. C.P. to change frequencies 6095V and 6335V MHz to 4190H MHz toward Paint Bank, Virginia, on azimuth 136°42'; change 6055V and 6295V MHz to 4190V MHz toward Rainelle, West Virginia, on azimuth 301°35'.

BUCKEYE COMMUNICATIONS CO. AND CENTRAL MOBILE RADIO PHONE SERVICE

Domestic Public Land Mobile Radio Service Applications for Construction Permits

By the Review Board:

In re applications of Buckeye Communications Company, Columbus, Ohio, Docket No. 20258, File No. 2981–C2–P–69; Central Mobile Radio Phone Service, Springfield, Ohio, Docket No. 20259, File No. 1912–C2–P–69; for construction permits to establish new one-way signalling facilities in the Domestic Public Land Mobile Radio Service (39 FR 43246).

1. The Review Board having before it an unopposed motion to enlarge issues, filed December 18, 1974, by the Common Carrier Bureau, seeking the addition of issues to determine the areas and populations of, and the need for, the services proposed by the two applicants;

2. It appearing, that, as pointed out by the Bureau, such issues are commonly designated in hearings of this nature and were only omitted from the instant designation Order through inadvertence;

3. *It is ordered,* That the motion to enlarge issues, filed December 18, 1974, by the Common Carrier Bureau, is granted; and

4. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issues to be numbered 2 and 3 respectively:

2. To determine the total area and population to be served by Buckeye Communications Company within the 43 dbu contour of its proposed station based upon the standards set forth in § 21.504 of the FCC rules and regulations, and to determine the need for its proposed service in that area.

3. To determine the total area and population to be served by Central Mobile Radio Phone Service within the 43 dbu contour of its proposed station based upon the standards set forth in § 21.504 of the FCC rules and regulations and to determine the need for its proposed service in that area.

5. *It is further ordered,* That the issues in this proceeding are renumbered, making the former issue number 2 now issue number 4.

Adopted: February 6, 1975.

Released: February 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-4306 Filed 2-14-75;8:45 am]

[Dockets Nos. 20343 and 20344; File Nos. BPH–8665 and BPH–8858]

COUNTRY-POLITAN BROADCASTING, INC. AND TIPPAH BROADCASTING CO.

Order Designating Applications for Consolidated Hearing

In re applications of Country-Politan Broadcasting, Inc., Ripley, Mississippi, Docket No. 20343, File No. BPH–8665; requests: 102.3 MHz, Channel No. 272; 3 kW (H&V); 300 feet; Jesse R. Williams, tr/as Tippah Broadcasting Co., Ripley, Mississippi, Docket No. 20344, File No. BPH–8858; requests: 102.3 MHz, Channel No. 272; 3 kW (H&V); 300 feet; for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau, has before it the above-captioned applications which are mutually exclusive in that they seek the same channel in Ripley, Mississippi.

2. The financial portion of the application of Tippah Broadcasting Company [Tippah] indicates that it will require $61,508 to construct and operate the proposed station for a period of one year, without revenue, itemized as follows:

Down payment on equipment	$10,160
First-year payments on equipment, with interest	10,752
Interest on bank loan	3,250
Land (rent)	300
Building	6,320
Miscellaneous	10,395
Working capital	20,331
Total	61,508

To meet this requirement, Tippah relies on existing funds, cash flow from its existing AM operation, a $25,000 bank loan, and the proceeds from an anticipated sale of land. The applicant has adequately demonstrated the availability of the bank loan. In addition, it appears that the cash flow from its AM operation would support a commitment of $15,800. Further, Tippah's balance sheet indicates that the applicant has $16,464 in liquid assets in excess of current liabilities. With regard to the land sale, the prospective buyer has indicated a willingness to purchase the land. However, that individual has failed to submit any documentation establishing the availability of funds to make such a purchase. Thus, Tippah may not rely on this source. In sum, then, Tippah has demonstrated the availability of only $57,264 to meet its requirement of $61,508. Accordingly, an appropriate issue will be specified.

3. The Tippah application is also deficient with respect to its ascertainment of the needs and problems of Ripley. Although the applicant indicates that some members of the general public were contacted, there is no description of the methodology used to select the interviewees, nor is there an indication of the total number of general public interviews conducted. Since the Commission is therefore unable to determine whether the requirements of questions and answers 13(b) and 14 of the *Primer on the Ascertainment of Community Problems by Broadcast Applicants,* 27 FCC 2d 650 (1971), have been satisfied, an appropriate issue will be specified.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. *Accordingly, it is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to the application of Tippah Broadcasting Company:

(a) The availability of funds over and above $57,264 with which to construct and operate the proposed station; and

(b) Whether, in light of the evidence adduced pursuant to (a), above, the applicant is financially qualified.

2. To determine the efforts made by Tippah Broadcasting Company to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

6. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such

notice as required by § 1.594(g) of the rules.

Adopted: February 5, 1975.

Released: February 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL ENERGY ADMINISTRATION

CONSTRUCTION ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given that the Construction Advisory Committee will meet at 9 a.m., Tuesday, March 11, 1975, Room 3400, 12th & Pennsylvania Avenue NW., Washington, D.C.

The Committee was established to advise the Administrator, FEA, with respect to the interests and problems of the construction industry as they relate to the policy and implementation of programs to meet the current and continuing national energy shortage.

The agenda for the meeting is as follows:

1. Organization Business—
a. Introductions.
b. Charter and Procedural Matters.
c. Organization Structure.
2. Brief Remarks by the Administrator.
3. Review of Administration's Energy Program.
4. FEA's Conservation Program, Re: Construction Industry.
5. Review of Major Energy Construction Requirements Resulting from the Administration's Energy Program.
6. Discussion on need and/or use of a Central Clearing House of Major Energy Construction Projects.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer (202) 961–7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on February 12, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

FEDERAL RESERVE SYSTEM

[Reg. Y]

BANK HOLDING COMPANIES

Revised Notice of Deadline for Submitting Comments

Notice is hereby given that the Board of Governors of the Federal Reserve System, in response to a request for an extension of the February 18, 1975 deadline for the submission of additional material related to issues raised at the January 14 hearing on the question whether bank holding companies may operate a travel agency (39 FR 38423), has decided to extend the deadline until April 18, 1975. Accordingly, all parties and interested persons may submit their views in writing to be received by the Secretary no later than April 18, 1975. Written comments as they are received will be made available for inspection and copying in Room 1118 of the Board's building.

By order of the Board of Governors of the Federal Reserve System, February 12, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-4273 Filed 2-14-73;8:45 am]

CITIZENS AND SOUTHERN CORP.

Proposed Retention of Carolina National Mortgage Investment Co., Inc.

The Citizens and Southern Corporation, Charleston, South Carolina, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain shares of Carolina National Mortgage Investment Company, Inc., Charleston, South Carolina, and its indirect subsidiary, C.N. Mortgages, Inc., Charleston, South Carolina. Notice of the application was published on:

Date, Newspaper, and City

January 7, 1975, Spartanburg Herald-Journal, Spartanburg, S.C.
January 8, 1975, The Greenville News, Greenville, S.C.
January 8, 1975, The News and Courier, Charleston, S.C.
January 8, 1975, Florence Morning News, Florence, S.C.
January 8, 1975, The State, Columbia, S.C.
January 8, 1975, The Atlanta Journal, Atlanta, Ga.
January 11, 1975, The Knoxville Journal, Knoxville, Tenn.
January 14, 1975, The Greensboro Record, Greensboro, S.C.
January 14, 1975, Greensboro Daily News, Greensboro, S.C.

Applicant states that both Carolina National Mortgage Investment Company and C.N. Mortgages, Inc. would continue to engage in the activities of servicing loans and their extensions of credit and making or acquiring for their own account, or for the account of others, loans and their extensions of credit such as would be made by a mortgage or finance company and, in connection with these activities, acting as agent in the sale of credit life insurance and accident and health insurance. Such activities have been specified by the Board in § 225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-4314 Filed 2-14-75;8:45 am]

FIRST FINANCIAL CORP.

Acquisition of Bank

First Financial Corporation, Tampa, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire not less than 90 percent of the voting shares of American Bank of Fort Myers, Fort Myers, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

PROFILE BANKSHARES, INC.

Formation of Bank Holding Company and Application To Engage in the Operation of a Guaranty Savings Bank

Profile Bankshares, Inc., Rochester, New Hampshire, has applied for the

XUM
V40-33
FEB 18 75
XUM

Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of at least 80 per cent of the voting shares of First National Bank of Rochester, Rochester, New Hampshire. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Profile Bankshares, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Rochester Savings Bank and Trust Company, Rochester, New Hampshire. Notice of the application was published on May 9, 1974, in *The Rochester Courier*, a newspaper circulated in Rochester, New Hampshire.

Applicant states that the proposed subsidiary would operate as a guaranty savings bank, a type of thrift institution unique to New Hampshire, which engages principally in providing to individuals, partnerships and corporations the following services: (i) accepting savings deposits in passbook accounts and issuing certificates of deposit; (ii) investing in residential and commercial mortgages; (iii) investing in U.S. Government securities, municipal and other political subdivision bonds and notes, and New Hampshire legal list common and preferred stocks; (iv) providing safe deposit services; (v) providing trust services; and (vi) servicing mortgages, but only for its own accounts, or for lenders with whom it has participated in a loan.

The Board has not heretofore considered whether the proposed activity is closely related to banking. Applicant is of the opinion that the proposed operation of a guaranty savings bank in New Hampshire is so closely related to banking or managing or controlling banks as to be a proper incident thereto and notice of receipt of the section 4(c)(8) application is being published pursuant to § 225.4(a) of the Board's Regulation Y.

Interested persons are invited to express their views on the question whether the operation of a guaranty savings bank in New Hampshire is so closely related to banking or managing or controlling banks as to be proper incident thereto. Interested persons are also invited to express their views on the question whether consummation of the subject proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question, or on the issue of whether the operation of a guaranty savings bank in New Hampshire is so closely related to banking or managing or controlling banks as to be a proper incident thereto, should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

In acting on the section 4(c)(8) application, the Board will not be considering the general question whether operating a thrift institution is an activity that is "so closely related to banking or managing or controlling banks as to be a proper incident thereto" within the meaning of section 4(c)(8) of the Bank Holding Company Act. Insofar as this application concerns the relationship of a thrift institution to a bank holding company, the issue is limited to the type of structural and competitive circumstances existing in New Hampshire.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Boston.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-4317 Filed 2-14-75;8:45 am]

T.N.B. FINANCIAL CORP.

Acquisition of Bank

T.N.B. Financial Corp., Springfield, Massachusetts, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of Ware Trust Company, Ware, Massachusetts. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Boston. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-4318 Filed 2-14-75;8:45 am]

WOODBINE BANCORP, INC.

Order Approving Formation of Bank Holding Company

Woodbine Bancorp, Inc., Woodbine, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through the acquisition of 97 percent of the voting shares of The First National Bank of Woodbine, Woodbine, Iowa ("Bank").

Notice of the receipt of the application, affording an opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a nonoperating corporation with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank. Bank (deposits of $11 million) is the second largest of eight banks in the relevant banking market (approximated by Harrison County) and controls approximately 19 percent of the total commercial bank deposits therein.[1] Upon acquisition of Bank, Applicant would control the 263rd largest bank in Iowa, holding .1 of one percent of total commercial bank deposits in the State. Since the purpose of the proposed transaction is essentially a corporate reorganization to transfer the ownership of Bank from a family to a corporation owned by the same family, consummation of the proposal herein would not eliminate any existing or potential competition, nor have an adverse effect on other banks in the area.

Applicant's principal shareholder is also a principal in Oakland Bancshares, Inc., Oakland, Iowa, a registered one bank holding company owning 95.45 per cent of the voting shares of Oakland Savings Bank, Oakland, Iowa. Oakland Savings Bank (deposits of $8.6 million) operates in a separate banking market approximately 52 miles southeast of Bank. From the facts of record, it is concluded that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, which are dependent upon those of Bank, are considered to be satisfactory. While Applicant will incur debt as a result of the proposal, it appears that the projected income from Bank should provide Applicant with the necessary financial flexibility to meet its annual debt servicing requirements as well as to adequately maintain the capital position of Bank. Accordingly, financial and managerial considerations are consistent with approval of the application. As indicated above, the proposed acquisition represents a change in the form of ownership of Bank and there are no significant proposed changes in the operation or services of Bank. However, considerations relating to the convenience and needs of the community to be served are consistent with approval. It has been determined that the acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Secretary of the Board of Governors, acting pursuant to delegated authority from the Board of Governors, effective February 10, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-4319 Filed 2-14-75;8:45 am]

COMMUNITY INSURANCE AGENCY, INC.

Formation of Bank Holding Co.

Community Insurance Agency, Inc., Haxtum, Colorado, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 74.7 percent or more of the voting shares of Taxtum Community Bank, Haxtum, Colorado. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Community Insurance Agency, Inc., Haxtum, Colorado, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's regulation Y, for permission to continue to engage in general insurance activities through Community Insurance Agency, Inc., Haxtum, Colorado. Notice of the application was published on January 8, 1975, in The Haxtum Harvest, a newspaper circulated in Phillips County, Colorado.

Applicant states that the proposed subsidiary would engage in general insurance activities as an agent or broker in the sale of all types of insurance such as casualty, life, health, accident, medical and credit related insurance in a town with a population of less than 5,000. Such activities have been specified by the Board in section 225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

COMMERCIAL ENVELOPE MANUFACTURING CO., INC.

Proposed Sanctions

The Director of Civil Rights, General Services Administration, pursuant to section 209 of Federal Executive Order 11246, as amended, and 41 CFR Part 60-30 formally advised the President of Commercial Envelope Manufacturing Company, Incorporated, 2350 Lafayette Ave., Bronx, New York 10463, by certified letter dated January 28, 1975, that the General Services Administration proposes to exercise the following sanctions:

(1) Termination of General Services Administration Contract No. GS-00S-02175, and such other Federal Contracts as may currently be in course of performance.

(2) Ineligibility for further Federal contracts for the duration of the period in which a status of non-compliance persists.

This action in regard to Commercial Envelope Manufacturing Company, Inc., was taken in accordance with the authority granted to the Director of Civil Rights for the General Services Administration, by the Director, Office of Federal Contract Compliance, U.S. Department of Labor as set forth in Office of Federal Contract Compliance Revised Order No. 1, dated July 11, 1974.

The matter giving rise to the proposed enforcement action is the Company's failure to comply with the Federal Equal Employment Opportunity Clause by failing to adopt and execute an acceptable Affirmative Action Plan.

Commercial Envelope Manufacturing Company, Inc., was informed that they may request, within 14 days of receipt of the letter, a formal hearing into the merits of the proposed action. The hearing rules for this proposed sanction are set forth in 41 CFR Part 60-30.

E. E. MITCHELL,
Director of Civil Rights.

INTERSTATE COMMERCE COMMISSION

Receipt of Regulatory Report Proposals

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on February 10, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before March 10, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW., Washington, D.C. 20548.

Further information about the ICC form in this notice may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

INTERSTATE COMMERCE COMMISSION

Request for clearance of a revised Form ACC-42, Field Report of Highway Form A. Information relating to the distribution of wage expenses to various types of carrier service is reported by 250 intercity motor common carriers of general freight. Data are compiled and published to provide information to carriers for ratemaking processes. An estimated respondent burden of 16 man-hours per respondent is required annually.

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR SCIENCE EDUCATION

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Committee for Science Education to be held from 9 a.m.-5 p.m. on March 6, and from 9 a.m.-1 p.m. on March 7, 1975, in room 651 at 5225 Wisconsin Avenue, NW., Washington, D.C.

The purpose of the Committee is to provide advice and recommendations concerning the impact of all Foundation activities (including research, scientific information; and international programs; as well as, specifically, "education" programs) relating to education in the sciences in U.S. schools, colleges and universities.

The agenda for March 6 will include a discussion of time-shared, interactive, computer-controlled information TV (TICCIT); and description and discussion of Worcester Polytechnic Institute Plan. The March 7 agenda will include general review and plans in the Education Directorate and administrative matters.

This meeting shall be open to the public. Individuals who wish to attend should inform Mrs. Frances O. Watts, Staff Assistant, Assistant Directorate for Education, Rm. 600-W, National Science Foundation, Washington, D.C. 20550, telephone 202/282-7930 by close of business on February 28. Persons requiring further information concerning this Committee should contact Mrs. Frances Watts at the above address. Summary minutes relative to this meeting may be obtained from the Committee Management Coordination Staff, MAO, Rm. K-720, 1800 G Street NW., Washington, D.C. 20550.

R. GAIL ANDERSON,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-508A]

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Receipt of Attorney General's Advice and Time for Filing of Petitions to Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated January 29, 1975, a copy of which is attached as Appendix A.

Any person whose interest may be affected by this proceeding may, pursuant to section 2.714 of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by March 20, 1975 either (1) by delivery to the NRC Public Docketing and Service Section at 1717 H Street NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Section.

For the Nuclear Regulatory Commission.

ABRAHAM BRAITMAN,
Chief, Office of Antitrust and Indemnity Nuclear Reactor Regulation.

APPENDIX A

[NRC Docket No. 50-508A]

[Department of Justice File No. 60-415-92]

WASHINGTON PUBLIC POWER SUPPLY SYSTEM, WASHINGTON PUBLIC POWER SUPPLY SYSTEM NUCLEAR PROJECT NO. 3

JANUARY 29, 1975.

You have requested our advice pursuant to the provisions of Section 105 of the Atomic Energy Act of 1954, as amended, in regard to the above-captioned application.

The Washington Public Power Supply System (WPPSS), a power generating agency, has applied for a construction permit and operating license for a utilization facility to be known as WPPSS Nuclear Project No. 3 (WPPSS No. 3) at its site near Satsop in southeastern Grays Harbor County, State of Washington. Operation is scheduled for 1981. The facility will have a nominal capacity of 1,200,000 kilowatts.

WPPSS will be entitled to a 70 percent share of the output of WPPSS No. 3. The remaining 30 percent of the output of WPPSS No. 3 will be received by Pacific Power & Light Company (10 percent), Portland General Electric Company (10 percent), Puget Sound Power & Light Company (5 percent) and Washington Water Power Company (5 percent) in proportion to their respective ownership shares.

Applicants. WPPSS is a municipal corporation and a joint operating agency of the State of Washington. Its membership, which is established by Washington state law, is made up of eighteen operating public utility districts in the State of Washington and the cities of Richland, Seattle, and Tacoma, Washington. The management and control of WPPSS is vested in a Board of Directors consisting of representatives of each of the public utility districts and the cities.

WPPSS presently operates the Packwood Lake Hydroelectric Project in Lewis County, Washington, and the Hanford Electric Generating Project, which utilizes by-product steam from the Energy Research and Development Administration's reactor near Richland, Washington. WPPSS previously applied to your predecessor commission for licenses to construct and operate WPPSS Nuclear Project No. 1. The Department of Justice advised the Atomic Energy Commission that it need not conduct an antitrust hearing with respect to WPPSS Nuclear Project No. 1. In addition, WPPSS has under construction its Nuclear Project No. 2, formerly known as Hanford No. 2, pursuant to AEC Construction Permit CPPR-93. We also advised the AEC that it need not conduct an antitrust hearing with respect to WPPSS Nuclear Project No. 2. WPPSS also anticipates acquiring a 15 percent ownership interest in the Skagit Nuclear Project now being planned by the Puget Sound Power & Light Company.

WPPSS No. 3 has 103 participants of which 27 are municipalities, 29 are public utility districts, and 47 are cooperatives. The 103 participants will contract to purchase varying amounts of the 70 percent of the output of WPPSS No. 3 which WPPSS will be entitled to. The Bonneville Power Administration (Bonneville), an agency of the U.S. Department of the Interior, will transmit all power generated by this facility. Each of the 103 participants are statutory preference customers of Bonneville under the Bonneville Project Act of 1937, and each currently obtains all or part of its power supply from Bonneville. WPPSS does not itself engage in the distribution of electrical energy to the retail market. Instead, it functions as a supplier of bulk electric power to utility systems in the Pacific Northwest.

Each of the participant's share of the annual cost of the WPPSS No. 3 will be "net billed" (credited) against the billings made by Bonneville to the participants. This enables Bonneville to receive all of the output of the project and compensate the participants by deducting the participant's share of the cost from the amount the participant owes to Bonnesville. Each participant is obligated to pay WPPSS a proportionate share of WPPSS' expenses incurred in connection with the operation of the project.

In 1972, the 103 participants in WPPSS No. 3 had total energy sales of 30,823,055 megawatt hours. In 1972, the participants purchased 23,877, 228 megawatt hours of electric power from Bonneville. They generated 9,380,417 megawatt hours. The peak demand in 1972 for the 103 participants totalled 7,165,289 kilowatts. In 1972, they served 961,318 customers of which 835,398 were residential.

Pacific Power & Light Company (PP&L) is an investor-owned electric utility with its principal offices in Portland, Oregon. PP&L owns thirty-three hydroelectric generating plants with a rated capacity of 863,393 kilowatts and seven steam-electric plants with a rated capacity of 1,494,433 kilowatts. PP&L has contracts to purchase power from various public agencies and public utility districts on long-term agreements as well as peaking capacity from Bonneville. PP&L presently operates a coal-fueled 750 MW generating station near Glenrock, Wyoming, and also owns 47.5 per cent of the Centralia Project, two coal-fueled 700 MW facilities at Centralia, Washington, which are jointly-owned by four publicly-owned and the three investor-owned utilities. PP&L and Idaho Power Company presently are developing the Jim Bridger power and coal mining complex in southwestern Wyoming. PP&L, along with the Black Hills Power & Light Company, is developing a bid on a 300 MW coal-fueled facility. PP&L has a 2.5 per cent ownership interest in the Trojan Nuclear Project being constructed by Portland General Electric Company and the City of Eugene, Oregon. PP&L will also have some ownership interest in the proposed Skagit Nuclear Project being planned by Puget Sound Power & Light Company.

Portland General Electric Company, (PGE) is an investor-owned electric utility with principal offices in Portland, Oregon. PGE presently owns facilities generating several hundred MW of hydroelectric capacity and has fifty-year contracts to purchase a minimum of 800 MW of hydroelectric power from projects owned by Public Utility Districts in Washington. PGE is participating in the Columbia Storage Power Exchange arrangement which will provide it with up to 287 MW in 1975. PGE owns 2.5 percent of the Centralia Project. PGE also owns 67.5 percent of the 1,100 MW nuclear-fueled Trojan Project presently under construction and is in the process of developing a jointly owned 1,200 MW nuclear-fueled Project at Pebble Springs, Oregon. The Department of Justice has advised the Atomic Energy Commission that it need not conduct an antitrust hearing with respect to the Trojan and Pebble Springs facilities.

Puget Sound Power & Light Company (PSP&L) is an investor-owned electric utility with principal offices in Bellevue, Washington. PSP&L presently has several long-term contracts for the purchase of approximately 1,700 MW of power from certain Columbia River projects. PSP&L also owns seven percent of the Centralia Project. PSP&L has exercised options for the purchase of 384 MW of power under the Columbia Storage Power Exchange Agreement. PSP&L and The Montana Power Company are jointly constructing two 350 MW coal-fueled units at Colstrip, Montana. In addition, PSP&L has announced plans to construct a 1269 MW nuclear-fueled plant on the Skagit River near Sedro Valley, Washington.

The Washington Water Power Company (WWPC) is an investor-owned electric utility with its principal offices in Spokane, Washington. Approximately 65 percent of the Company's power needs is supplied by Company-owned hydroelectric projects. The remainder is purchased from Public Utility Districts and other investor-owned utilities. WWPC will have a 15 percent ownership interest in two coal-fired electric plants to be constructed, at Colstrip, Montana. WWPC will also have some ownership interest in the proposed Skagit Nuclear Project being planned by PSP&L.

Interconnection and Coordination With Others. The Pacific Northwest is an area where there is a high degree of coordination and cooperation between utilities involved in the generation and transmission of electrical power.

The dominant factor in the area in terms of energy transmission is Bonneville; it has over 12,000 miles of transmission facilities in the Pacific Northwest representing about 80 percent of the bulk power transmission capacity in that region. Bonneville is generally described as the leading force promoting coordination and joint planning with respect to electrical power. Bonneville markets power to 149 customers, including the 103 preference customers which are participants in WPPSS No. 3.

In the Pacific Northwest, five private utilities, 110 publicly owned agencies, WPPSS and Bonneville have formed the Joint Power Planning Council to coordinate planning for existing and future thermal and hydroelectric resources for the region. The area includes the States of Washington, Oregon, and portions of northern California, Idaho, and Montana. The Joint Power Planning Council has developed the Hydro Thermal Power Program plan for power generation to meet the area's anticipated load growth.

The major portion of power supply for the Pacific Northwest has historically been from hydroelectric generating sources. Most of the hydroelectric projects were built by the Federal Government as part of the Columbia River Power System. However, in recent years, the region has turned to thermal generation for its base-load resources since virtually all the hydropower sites have been developed.

WPPSS has not received any request for interconnection and/or coordination from any system not already a participant in WPPSS Project No. 3.

Results of antitrust review. With one exception, our study of this application did not indicate any antitrust problems. The only matter requiring exploration pertained to allegations that the City of Tacoma, Washington, one of the 103 participants, was refusing to wheel power from Bonneville to five utilities who were, at one time, served by Tacoma. These five utilities are members of the Pierce County Cooperative Power Association (PCCPA). Many of the details concerning this controversy were presented to the United States Senate Committee on Appropriations on May 21, 1973, and can be found in Senate Hearings for the Committee on Appropriations on H.R. 8947, Public Works for Water and Power Development and Atomic Energy Commission Appropriations, Fiscal Year 1974, 93rd Congress, 1st Session, Part 6, at pages 7, 175-7, 1974.

Negotiations between the PCCPA group and Tacoma for transmission service from Bonneville to the PCCPA group have now been concluded, and since July 1, 1974, power from Bonneville has been wheeled over Tacoma facilities to the PCCPA group in accordance with an agreement between them. This agreement is subject to approval by the Tacoma City Council. On the assumption that the Tacoma City Council will approve the transmission agreement in the near future, we conclude that an antitrust hearing will not be necessary with respect to the instant application.

[Docket No. P-531-A]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

FEBRUARY 7, 1975.

Public Service Company of Oklahoma (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 20, 1974, in connection with its plans to construct and operate two boiling water reactors in Rogers County, Oklahoma, near the town of Inola. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during August 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Local Public Document Room, Tulsa City—County Library, Tulsa, Oklahoma 74102, Docket No. P-531-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 18, 1975.

Dated at Bethesda, Maryland, this 9th day of January, 1975.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Directorate of Licensing.

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Availability of Draft Environmental Statement for Nuclear Project Nos. 3 and 5

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Division of Reactor Licensing related to the proposed Washington Public Power Supply System Nuclear Project Nos. 3 and 5 to be constructed by Washington Public Power Supply System in Grays Harbor County, Washington is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and in the W. H. Abel Memorial Library, 125 Main Street, South, Montesano, Washington 98563. The Draft Statement is also being made available at the Office of the Governor, State Planning and Community Affairs Agency, Olympia, Washington 98504. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

The Applicant's Environmental Report, as supplemented, submitted by Washington Public Power Supply System is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on October 4, 1974 (39 FR 35835).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by April 7, 1975. Comments by Federal, State, and local officials, or other person received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the W. H. Abel Memorial Library, 125 Main Street, South, Montesano, Washington 98563. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland, this 11th day of February 1975.

For the Nuclear Regulatory Commission.

WM. H. REGAN, JR.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

OFFICE OF MANAGEMENT AND BUDGET

ADVISORY COMMITTEE ON THE BALANCE OF PAYMENTS STATISTICS PRESENTATION

Public Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the second meeting of the Advisory Committee on the Balance of Payments Statistics Presentation to be held on Thursday, March 6, 1975 in room 10104 of the New Executive Office Building, 726 Jackson Place NW., Washington, D.C. starting at 9:45 am. The first meeting of the Committee was held January 26.

The objectives of the Committee is to develop recommendations to improve the presentation of the official statistics of the U.S. balance of payments which are published quarterly by the Department of Commerce in press releases and in the Survey of Current Business. The Committee will consider the merits of the present and alternative methods of presenting and summarizing the accounts which would facilitate a more meaningful analysis by the government and the public, and will recommend to the Director of OMB improvements in the tables which could be implemented with the available basic data. The discussion at the meeting will be concerned primarily with resolving the following issues.

1. What purposes can be served by a table which shows overall analytical balances?

2. Which analytical balances or other measures can be agreed upon as being generally useful in the present international environment?

3. What would be the best format for a table which would classify data on international transactions in a clear but neutral fashion?

4. How should the data on international transactions be related to other statistics such as exchange rate relationships or the national economic accounts, in the official publications?

5. What are the desirable functions of the press release, the tables in the *Survey of Current Business*, and the signed *Survey* article?

The members of the Committee are:

Edward Bernstein, President, EMB Ltd.
James Burtle, Vice President, W. R. Grace and Co.
Rimmer deVries, Vice President, Morgan Guaranty Trust Co.
Peter Kenen, Professor Economics, Princeton University
Walter Salant, Senior Fellow, Brookings Institution
Wilson Schmidt, Chairman, Department of Economics, Virginia Polytechnic Institute and State University
Charles Schwartz, Deputy Director, Research Department, IMF
Robert Ulin, Economic-Finance, Mobil Oil Corporation
Marina Whitman, Professor of Economics, University of Pittsburgh

The meeting will be open to public observation and participation. Further information regarding the meeting may be obtained from the Statistical Policy Division, Office of Management and Budget, Room 10208, New Executive Office Building, Washington, D.C., telephone (202) 395-4730.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 11, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529); or from the reviewer listed.

NEW FORMS

U.S. INTERNATIONAL TRADE COMMISSION

Questionnaire on probable economic effects of tariff concessions on U.S. firms producing rubber or plastics products, Form——, Single Time, Weiner (395-4890), Sample of producers in the rubber and plastics industry.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration:
Motorist Questionnaire Pretest, Form——, Single Time, Strasser (395-3880), Motorists.
Intercity Auto Traveler Attitudinal Survey Plan, Form——, Single Time, Strasser (395-3880), Households having adult intercity auto travelers.

REVISIONS

None

EXTENSIONS

CIVIL SERVICE COMMISSION

Management Intern Program Qualifications Inquiry, Form WA-27, Occasional, Caywood (395-3443), References.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration:
ICAO International Civil Aviation Organization, Air Transport Reporting Form, Airport Traffic, Form ICAO 1, Quarterly, Evinger (395-3648), Airports.
Pilot Self-Briefing Experimentation Questionnaire, Form——, Occasional, Evinger (395-3648), Pilots.

PHILLIP D. LARSEN,
Management and Budget Officer.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

CONTINENTAL VENDING MACHINE CORP.

Suspension of Trading

FEBRUARY 7, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Continental Vending Machine Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from February 9, 1975 through February 18, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Release Nos. 33-5569, 34-11236; File No. S7-551]

DISCLOSURE OF ENVIRONMENTAL AND OTHER SOCIALLY SIGNIFICANT MATTERS

Notice of Public Proceeding

The Securities and Exchange Commission hereby announces and directs that a public proceeding be held, including public hearings, concerning disclosure in registration statements, reports and other documents filed with the Commission or required to be furnished to investors pursuant to the Securities Act and the Securities Exchange Act of environmental and other matters of primarily social rather than financial concern, including equal employment matters. Through this proceeding the Commission seeks to determine whether its present disclosure rules are adequate in view of the provisions of the National Environmental Policy Act (NEPA)[1] and, if not, what further rulemaking action should be taken. The Commission also seeks information upon which to evaluate the desirability of amending its disclosure requirements with respect to other

[1] 42 U.S.C. 4321, et seq.

XUM V40I33 FEB 18 75 F XUM

matters of primarily social rather than financial concern.

BACKGROUND

This proceeding has been initiated primarily to assure that the Commission's disclosure requirements are fully consistent with the requirements of NEPA and to consider equal employment and other matters pursuant to an Order and Opinion of Judge Charles R. Richey in *Natural Resources Defense Council, Inc., et al.* v. *Securities and Exchange Commission, et al.*, No. 409–73 (D. D.C., December 9, 1974). Judge Richey suggested that the Commission should "resolve two overriding factual issues. The first is the extent of 'ethical investor' interest in [this] type of information. . . . The second issue is what avenues of action are available which ethical investors may pursue and which will tend to eliminate corporate practices that are inimical to the environment and equal employment opportunity." Judge Richey emphasized that "the SEC should not limit itself to these questions. Rather, it must imaginatively exercise its authority and expertise." [2]

SCOPE OF INQUIRY

In this proceeding the Commission seeks to obtain the views of the public concerning whether, and to what extent, information that does not necessarily have direct and immediate economic significance might nevertheless be the type of information that a reasonable investor would wish to have in making an investment decision or giving a proxy. In this connection, the Commission will welcome any views concerning (1) the advisability of its requiring disclosure of socially-significant matters, (2) whether and on what basis these disclosures might be viewed as being material, particularly where these matters may not be considered material in an economic sense, (3) the basis and extent, if any, of the Commission's authority to require disclosure of matters primarily of social concern but of doubtful economic significance, and (4) the probable impact, if any, of such disclosure on corporate behavior.

The Commission recognizes that certain members of the public may find environmental and other socially-significant disclosures of importance in making their investment decisions. At the same time, it is the Commission's responsibility to require disclosure of information that the investing public generally would find material in making their investment decisions. And the Commission must take due care that its disclosure requirements elicit meaningful, effective disclosure without causing disclosure documents to be excessively technical or obscure. The Commission believes that data concerning the extent of the investing public's interest in the use of environmental and other socially-significant disclosures is necessary for determining to what extent, if any, adoption of new disclosure requirements would be consistent with the Commission's statutory authority and the essential considerations of national policy that the securities laws were designed to effect.

The Commission's existing disclosure requirements concerning the environment and equal employment matters remain in effect pending further action by the Commission.[3]

ENVIRONMENTAL DISCLOSURES

* * * * *

EXISTING REQUIREMENTS

A primary purpose of this proceeding is to determine whether the provisions of NEPA require that the Commission's existing environmental disclosure requirements must be revised, expanded or limited or would permit them to remain in effect. The existing environmental disclosure requirements, adopted in Securities Act Release 5386, call for disclosure of the material effect of compliance with Federal, State and local environmental laws and regulations on the operations of the registrant and its subsidiaries. In addition, the rules and instructions contained in that release require disclosure with respect to certain administrative and judicial proceedings arising under Federal, State, or local provisions regulating the discharge of materials into the environment or otherwise relating to the protection of the environment. All environmental proceedings initiated by a government authority are treated as being material and required to be disclosed. Those proceedings which are similar in nature, however, may be grouped and described generically.

POSSIBLE ADDITIONAL DISCLOSURE REQUIREMENTS

It has been suggested that the Commission adopt amendments to its registration statement and report forms to require that registrants describe, with respect to each major activity or product:

(1) The nature and extent, quantified to the degree feasible, of the resulting environmental pollution or injury to natural resources;

(2) The feasibility of reducing such pollution or injury under existing technology, including a description of alternatives and the cost of each;

(3) The prospects for improving that technology;

(4) Existing and projected expenditures for reducing such pollution or injury;

(5) Legal requirements affecting the impact of the registrant's activities on the environment, includng requirements for licenses and permits and outstanding court or administrative orders; and

(6) Pending or threatened judicial or agency proceedings, whether initiated by private or governmental bodies, challenging registrant's compliance with environmental protection standards.

It has further been proposed that the Commission require disclosure concerning whether a registrant has changed its products, projects, production methods, policies, investments or advertising to advance environmental values and a general statement of the registrant's policy towards environmental issues and concerns.

It also has been suggested that (a) certain disclosure might be required only of registrants which, by reason of their size or business, are considered to have major potential for causing environmental harm, and (b) certain disclosures might be included in prospectuses, proxy or information statements, or annual reports to security holders whereas others might be included only in documents which are filed with the Commission and are available for public inspection, but which are not distributed to the public.

The Commission would appreciate comment on the foregoing, including the possible criteria for determining (a) which registrants should be required to make proposed disclosures, and (b) which disclosures should be included in documents distributed to the public.

OTHER MATTERS OF SOCIAL CONCERN

* * * * *

EXISTING REQUIREMENTS

The Commission has issued an interpretative release concerning the responsibility of registrants to report material legal proceedings, including those related to equal employment practices,[4] and the Commission has taken enforcement action against certain companies which failed adequately to disclose illegal political contributions made by or on behalf of the corporation.[5] On the other hand, in response to a petition for rulemaking, the Commission determined during the past year not to adopt rules that would have imposed affirmative action requirements upon securities exchanges, national securities associations, and their members with respect to employment discrimination.[6] It has also rejected a petition for the promulgation of specific rules concerning disclosure with respect to political contributions.[7] In addition the Commission's staff has had reason to consider a variety of socially-oriented proposals that have been submitted for corporate consideration by shareholders pursuant to Rule 14a–8 under the Securities Exchange Act.

* * * * *

POSSIBLE ADDITIONAL DISCLOSURE REQUIREMENTS

(1) Equal Employment Litigation:

It has been suggested that the Commission amend its registration and report forms to require that registrants provide information concerning any proceedings in any court or before any agency challenging the registrant's compliance with the Equal Employment Opportunity Act [8] or the employment regulations pertaining to federal contractors. The Commission will consider that proposal in the course of this proceeding.

(2) Equal Employment Statistics:

It has been suggested that certain registrants be required to disclose in registration statements and periodic and other reports the statistical data showing the percentage and number of minority and female employees in each of specified job categories that is contained on Forms EEO–1 which the company is required to file with the Equal Employment Opportunity Commission. The Commission feels that it would be difficult, if not impossible, to make a meaningful evaluation of a company's current hiring and promotion practices based solely upon the raw statistical data reported on Forms EEO–1.[9] In the course of the proceeding the Commission will consider contrary views or whether, in any event, this or comparable information would be or could be reasonably made meaningful to members of the investing public, and, if so, whether disclosure requirements of that type may and should be adopted.

(3) Other Topics of Social Concern:

The Commission would welcome further comment on these and any other matters of social concern to members of the investing public, and alerts the public to the fact of its earlier consideration of certain of these matters in order to provide information that may be of value to persons seeking to comment at this time. The Commission's objective in requesting such comment is to determine generally the extent and nature of investor interest in topics primarily of social concern but, of doubtful economic relevance. Proposals concerning equal employment disclosure have been mentioned to illustrate, but not to exhaust, the range of social interests about which the Commission solicits comment.

The Commission invites comment from all interested persons. The Commission specifically invites comments from legal scholars, public-interest groups, foundations, colleges, universities, and registrants. The Commission would also appreciate comments from persons who have expertise or experience in the development of investment practices which take into account an issuer's environmental posture or any other area of social concern such as equal employment practices. The Commission also invites comments from investment managers and trustees as to whether concern with "non-economic" investment considerations is consistent with fiduciary responsibilities under applicable law. It would be particularly helpful if managers of corporations would provide the Commission with information concerning the extent to which socially-significant matters have been considered at shareholder meetings and the extent to which they have been accepted or rejected when put to a vote.

Any interested person wishing to submit specific written comments concerning the inquiries set forth herein is invited to do so at any time prior to May 14, 1975.[10] All comment letters should be submitted in duplicate, addressed to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and should be captioned with File No. S7–551. All such communications will be made part of the record of the proceeding and will be available for public inspection. In addition, the petitions, releases, and suggested rule changes to which this release refers, the court's opinion in *Natural Resources Defense Council* v. *Securities and Exchange Commission*, and certain documents prepared in connection with that litigation, have been placed in File No. S7–551 and are likewise available for public inspection.

The public hearings are scheduled to commence on Monday, April 14, 1975, at the Commission's offices in Washington, D.C. Any interested person desiring to make an oral presentation of his views at the hearing is requested to write or call William F. Bavinger, Office of the General Counsel (Telephone 202–755–1387). It has been tentatively determined to limit oral statements generally to 15 minutes each plus such further time as may be necessary to answer questions. Depending upon the number of persons requesting to be heard, appearances may be more limited. Additional time may be granted at the discretion of the hearing officer upon written request timely submitted with copies of the witness's prepared statement. All witnesses shall be required to submit 25 copies of their prepared statements three business days in advance of their scheduled date of appearance.

Persons making oral statements should be prepared to respond to specific inquiries from the Commission staff. Any person may in writing submit to the hearing officer questions that he wishes to have directed to a particular witness or groups of witnesses; but the hearing officer will determine in his sole discretion whether or to what extent to direct those questions to any witness.

This public proceeding has been ordered by the Commission pursuant to sections 19 and 21 of the Securities Act, sections 21 and 22 of the Securities Exchange Act and Rule 4(b) of the Commission's rules of practice.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.75–4408 Filed 2–14–75;8:45 am]

[2] Judge Richey ordered the Commission to take further rulemaking action in conformity with the procedural requirements of the Administrative Procedure Act, which he found had not been fully complied with when the Commission's forms were amended on April 20, 1973, pursuant to NEPA. While the Commission does not agree with Judge Richey that it did not satisfy the procedural requirements of the Administrative Procedure Act, it is herewith attempting fully to comply with his order. The fact that the Commission is conducting these proceedings should not be taken to indicate any view as to its authority to assist members of the investing public in matters of primarily social rather than financial concern.

[3] Securities Act Release No. 5386 (April 20, 1973); Securities Act Release No. 5170 (July 19, 1971).

[4] Securities Act Release No. 5170 (July 19, 1971).

[5] See, *e.g.*, *S.E.C.* v. *American Ship Building*, Dist. Ct., Dist. of Col., Litigation Release No. 6534 (Oct. 4, 1974).

[6] Securities Exchange Act Release No. 10597 (January 14, 1974); Securities Exchange Act Release No. 11189 (January 20, 1975).

[7] Securities Exchange Act Release No. 10325 (August 7, 1973).

[8] 42 U.S.C. 2000e.

[9] To the extent that unequal educational opportunity or unequal educational incentive has produced a lack of qualified women or minority group members in certain job categories, or to the extent that other factors may limit the number of qualified women or minority group members in a particular area, individual employers would find it most difficult to recruit a substantial number of women and minority group members to jobs within those categories. Raw statistics, reflecting only the fact that a company has not successfully recruited persons within these categories would provide little or no insight into the quality or extent of the company's recruitment efforts. See Letter, dated February 10, 1975, from George A. Fitzsimmons, Secretary, Securities and Exchange Commission, to Natural Resources Defense Council, Inc., Project on Corporate Responsibility, Inc., and Center on Corporate Responsibility, Inc. (SEC File No. 4–179).

[10] Judge Richey's order of December 9, 1974, referred to at page 2, requires the Commission to "take further rulemaking action within 120 days of this order." The Commission intends to file a motion requesting that this period be expanded to afford ample opportunity for public comment and Commission consideration of the matters discussed in this release. The plaintiffs in the case pending before Judge Richey have indicated that they will not oppose such a motion. Should the motion be denied, however, it will be necessary to shorten the comment period and accelerate the hearing schedule specified herein.

POSTAL RATE COMMISSION

POSTAL SERVICE FACILITIES

Notice of Visits

FEBRUARY 13, 1975.

Notice is hereby given that employees of the Postal Rate Commission have or will be visiting Postal Service facilities on the dates indicated for the purpose of acquiring general background knowledge of postal operations.

No particular matter at issue in contested proceedings before the Commission nor the substantive merits of a matter that is likely to become a particular matter at issue in contested proceedings before the Commission have or will be discussed.

Reports of the visits will be on file in the Commission's docket room.

Place of visit:	*Date of visit*
Washington, D.C. post office	Feb. 12, 1975
Orlando, Fla., post office	Feb. 14–14, 1975
Rockville, Md., post office	Feb. 20–21, 1975
U.S. Postal Service Headquarters, D.C.	Feb. 24, 1975
Atlanta, Ga., post office	Mar. 3–5, 1975
San Francisco post office	Mar. 3–7, 1975

By direction of the Commission.

JAMES R. LINDSAY, *Secretary of the Commission.*

ALL ITEMS CONSUMER PRICE INDEX

United States City Average

Pursuant to section 104(a)(4) of the Federal Election Campaign Act of 1971, Pub. L. 92–225, 86 Stat. 3, 47 U.S.C. 803, the Secretary of Labor has certified to the Comptroller General, and publishes in this notice in the FEDERAL REGISTER, the fact that the United States city average of the All Items Consumer Price Index (1967=100) increased 27 percent from its 1970 annual average of 116.3 to its 1974 annual average of 147.7.

PETER J. BRENNAN,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 699]

ASSIGNMENT OF HEARINGS

FEBRUARY 12, 1975.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 139763, Oak Harbor Freight Lines, Inc., now being assigned April 7, 1975 (1 week), at Olympia, Wash., in a hearing room to be designated later.

MC 135678 Sub 3, Midwestern Transportation, Inc., now being assigned April 7, 1975 (1 week), at Oklahoma City, Okla., in a hearing room to be designated later.

MC 104004 Sub 180, Associated Transport, Inc. Extension–T. V. A. Power Plan, now assigned March 4, 1975, at Nashville, Tenn., is postponed indefinitely.

MC 1239 Sub 4, Pony Trucking, Inc., now assigned February 18, 1975, at Washington, D.C., is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Finance Docket No. 26832]

CHESAPEAKE AND OHIO RAILWAY CO.

Abandonment of Service

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Fluvanna and Louisa Counties, Virginia, on or before February 26, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 30th day of January 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated January 30, 1975, it has been determined that the proposed abandonment by the Chesapeake and Ohio Railway Company of its branch line extending 26.99 miles near Strathmore in Fluvanna County to a point near Lindsay in Louisa County, Va., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because effects upon, air and water quality due to diversion to motor carrier will be minimal; there are no definitive economic or industrial projects planned for the area which would be dependent on direct rail service from this line, and alternate rail service exists in close proximity over applicant's main lines.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202–343–2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before March 12, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75–4348 Filed 2–14–75;8:45 am]

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 12, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission by February 28, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 2368 (Sub-No. E26), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, from Crozet, Va. to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of King George County, Va.

No. MC 2368 (Sub-No. E27), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, from Smithfield, Va., to points in Connecticut, Massachusetts, Rhode Island, Illinois, Indiana, Louisiana, Ohio, Alabama, Florida, Michigan, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Portsmouth, Va.

No. MC 2368 (Sub-No. E28), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles (except liquid cocoa butter), from points in Virginia on and south of a line beginning at the Virginia-West Virginia State line and proceeding east along Virginia Highway 311 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction Interstate Highway 64, thence along Interstate 64 to junction Interstate Highway 264, thence along Interstate Highway 264 to the Atlantic Ocean, to points in the District of Columbia. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E29), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Virginia on and east and north of a line beginning at the Maryland-Virginia State line and proceeding south along U.S. Highway 15 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 264, thence along Interstate Highway 264 to the Atlantic Ocean, to points in South Carolina on and south of Interstate Highway 26. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E30), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Maryland to points in Georgia. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E31), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Maryland on and east of U.S. Highway 15 to points in Tennessee (except Memphis). The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E37), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Maryland (except those south of U.S. Highway 50 on the Eastern Shore) to points in South Carolina. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E37), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, (except liquid cocoa butter), from points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and proceeding south along U.S. Highway 29 to junction U.S. Highway 220, thence south along U.S. Highway 220 to the North Carolina-South Carolina State line, to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E38), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles (except liquid cocoa butter), from points in West Virginia on and north of U.S. Highway 50, to points in South Carolina, on and east of Interstate Highway 95 and points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and proceeding south along Interstate Highway 85 to junction U.S. Highway 15, thence south along U.S. Highway 15 to junction North Carolina Highway 87, thence along North Carolina Highway 87 to Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E39), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Delaware to points in Tennessee (except Memphis), North Carolina on and west of Interstate Highway 95, South Carolina, Georgia, and on and south of a line beginning at the Virginia-West Virginia State line and proceeding west along U.S. Highway 60 to junction Interstate Highway 64 at Charlestown, thence along Interstate Highway 64 to the Kentucky-West Virginia State line. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 14702 (Sub-No. E17) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 21, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum* (except that which because of size or weight requires the use of special equipment, and except in bulk), (a) between points in Maine, New Hampshire, Massachusetts, Rhode Island, Vermont, and points in Connecticut on and east of a line beginning at the Massachusetts-Connecticut State line, thence south along Interstate Highway 91 to its intersection with Connecticut Highway 9, thence along Connecticut Highway 9 to Long Island Sound, on the one hand, and, on the other, points in Arkansas, Kansas, Louisiana, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, points in Iowa on and west of U.S. Highway 69, points in Minnesota on, north, and west of a line beginning at the Minnesota-Wisconsin State line, thence west over U.S. Highway 12 to its intersection with Minnesota Highway 15, thence along Minnesota Highway 15 to the Minnesota-Iowa State line; points in Kentucky on and west of a line beginning at the Indiana-Kentucky State line, thence south along Kentucky Highway 69 to its intersection with Kentucky Highway 85, thence along Kentucky Highway 85 to its intersection with Kentucky Highway 62, thence along Kentucky Highway 62 to its intersection with U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Tennessee State line; points in Indiana on and south of a line beginning at the Indiana-Illinois State line, thence east along Indiana Highway 62 to its intersection with Indiana Highway 66, thence along Indiana Highway 66 to the Ohio River at Cannelton; points in Tennessee on and west of Interstate Highway 65. The purpose of this filing is to eliminate the gateways of (a) the plant site and warehouses of Alcan Aluminum Corp., at Oswego, N.Y., and (b) the plant site and warehouses of Alcan Aluminum Corp., at Fairmont, W. Va. The purpose of this partial correction is to correct the territorial description. The remainder of this letter-notice remains as previously published.

No. MC 14702 (Sub-No. E18) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 14, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel, manufactured iron and steel articles, motors, machinery, and machinery parts* (except commodities requiring special equipment), between Buffalo and Rochester, N.Y., on the one hand, and, on the other, points in Illinois in the Chicago, Ill., commercial zone as defined by the Commission, points in Indiana, and points in Michigan on and south of Michigan Highway 46, and points in Ohio south and west of a line beginning at the Ohio-Pennsylvania State line, thence west on U.S. Highway 62 to the intersection with Ohio Highway 82, thence west on Ohio Highway 82 to the intersection with U.S. Highway 422, thence along U.S. Highway 422 to the shores of Lake Erie. The purpose of this filing is to eliminate the gateways of (a) Warren, Ohio, and (b) the plant site of The Timken Roller Bearing Company near Wooster, Ohio. The purpose of this correction is to expand the territorial descriptions.

XUM
V40-33 FEB 18 75 XUM

No. MC 14702 (Sub-No. E21) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 19, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles*, which because of size, weight, or nature require the use of flat-bottom vehicles or vehicles with sides not in excess of 36 inches in height, from points in Illinois to the Chicago, Ill., commercial zone as defined by the Commission, Indiana, points in Michigan on and south of Michigan Highway 46, to points in Armstrong, Clarion, Fayette, Forest, Warren, and Westmoreland Counties, Pa., and points in New York on and west of New York Highway 14 (except Buffalo and Rochester, N.Y.). The purpose of this filing is to eliminate the gateway of Canton, Ohio. The purpose of this correction is to clarify the territorial descriptions.

No. MC 14702 (Sub-No. E27) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 19, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum* (except that which because of size or weight requires the use of special equipment), between points in Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line, thence south along Interstate Highway 81 to its intersection with the Pennsylvania Turnpike Extension, thence along the Pennsylvania Turnpike Extension to its intersection with U.S. Highway 422, thence along U.S. Highway 422 to its intersection with Interstate Highway 676, thence along Interstate Highway 676 to the Delaware River, and points in that part of New Jersey west and south of a line beginning at the Pennsylvania-New Jersey State line, thence south along U.S. Highway 206 to its intersection with Interstate Highway 206 to its intersection with Interstate Highway 287 to its intersection with New Jersey Highway 440, thence along New Jersey Highway 440 to the New Jersey-New York State line, and on and north of U.S. Highway 30, on the one hand, and, on the other, points in Arizona, California, Oregon, Washington, Utah, Nevada, Idaho; points in Montana on and west of a line beginning at the United States-Canada International Boundary line, thence south along Montana Highway 242 to its intersection with U.S. Highway 191, thence along U.S. Highway 191 to its intersection with U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line; points in Wyoming on and west of a line beginning at the Montana-Wyoming State line, thence south along U.S. Highway 310 to its intersection with Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line; points in Colorado on and west of a line beginning at the Colorado-Wyoming State line, thence south along Colorado Highway 13 to its intersection with U.S. Highway 6, thence along U.S. Highway 6 to its intersection with U.S. Highway 24, thence along U.S. Highway 24 to its intersection with U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line; and points in New Mexico on and west of U.S. Highway 285. The purpose of this filing is to eliminate the gateways of (a) the plant site and warehouses of Alcan Aluminum Corporation at Oswego, N.Y., and (b) the plant site and warehouses of Alcan Aluminum Corporation at Fairmont, W. Va. The purpose of this correction is to correct the territorial description.

No. MC 14702 (Sub-No. E35) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 19, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum* (except that which because of size or weight, requires the use of special equipment and except in bulk), between points in that part of Ohio on, east, and north of a line beginning at the Michigan-Ohio State line, thence south along Interstate Highway 75 to its intersection with Ohio Highway 15, thence along Ohio Highway 15 to its intersection with U.S. Highway 23, thence along U.S. Highway 23 to its intersection with Interstate Highway 70, thence along Interstate Highway 70 to the Ohio-Pennsylvania State line, on the one hand, and, on the other, points in California, Nevada, Idaho, Oregon, and Washington. The purpose of this filing is to eliminate the gateways of (a) Warren, Ohio, and (b) the plant site and warehouse facilities of Alcan Aluminum Corporation at Fairmont, W. Va. The purpose of this correction is to correct the destination territories.

No. MC 14702 (Sub-No. E44) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER August 28, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum* (except in bulk and except commodities requiring special equipment), between points in Maine, New Hampshire, Vermont, Rhode Island, and points in Massachusetts on, north, and west of a line beginning at the New York-Massachusetts State line and extending along Interstate Highway 90 to its intersection with U.S. Highway 202, thence along U.S. Highway 202 to the Massachusetts-Connecticut State line, on the one hand, and, on the other, points in Ohio on, south, and east of a line beginning at the Ohio River and extending along Ohio Highway 39 to its intersection with Interstate Highway 77, thence along Interstate Highway 77 to its intersection with Ohio Highway 78, thence along Ohio Highway 78 to its intersection with Ohio Highway 13, thence along Ohio Highway 13 to its intersection with U.S. Highway 33, thence along U.S. Highway 33 to the Ohio-West Virginia State line, restricted against the transportation of traffic originating at or destined to points in Canada. The purpose of this filing is to eliminate the gateways of Warren, Ohio, and the plant site and warehouses of Alcan Aluminum Corporation at Oswego, N.Y. The purpose of this correction is to correct the territorial descriptions.

No. MC 21170 (Sub-No. E16), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles and jars*, from Alton, Ill., to points in Minnesota. The purpose of this filing is to elliminate the gateway of Marshalltown, Iowa.
